If the degree of interest or relationship in any case is not substantial but is so trivial as to create little probability that the officer's or employee's impartiality of judgment and action has been affected, no question under § 601.110(a) shall be deemed involved. Each case shall be determined on its own facts, proper weight being given to the nature, amount, and importance of the benefit involved, the degree or kind of relationship in question, and the character of the person concerned.

§ 601.125 Devotion of time to official duties.

Officers and employees of the Farm Credit Administration, who are employed on a full-time basis, are required to devote their full business time to the effective accomplishment of the duties assigned them in connection with the activities and operations in which they are employed. They shall not engage in outside employment or other outside activity, with or without compensation, which is not compatible with the full and proper discharge of their official responsibilities, or which might embarrass the Farm Credit Administration or cast reflection upon their ability to take an unbiased and impartial view of its operations.

§ 601.126 Teaching, writing, and lecturing.

(a) No officer or employee of the Farm Credit Administration shall receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance the subject matters of which is devoted substantially to the responsibilities, programs, or operations of the Farm Credit Administration or any corporation under its supervision, or draws substantially upon official data or ideas which have not become part of the body of public information.

(b) No officer or employee of the Farm Credit Administration shall, either for or without compensation, engage in teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service that depends on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the Governor gives written authorization for use of nonpublic information on the basis that the use is in the public interest.

§ 601.130 Farm Credit examiners.

Farm Credit examiners occupy positions established specifically by law to carry out special responsibilities. In order that they may carry out these responsibilities effectively, it is expected that they will refrain from action or conduct that may result in, or create the appearance of, obligating them to or causing them to be influenced by any of the officers or employees of the institutions supervised by the Farm Credit Administration.

§ 601.135 Use of Government-owned property.

(a) Except in emergencies threatening loss of life or property, no employee shall use Government property or equipment for any purpose other than performance of official Government work. All employees have a positive responsibility to protect and conserve all Federal property, including equipment and supplies, which is entrusted or issued to them.

(b) Public Law 600, approved August 2, 1946 (31 U.S.C. 638a(c)), reads in pertinent part as follows: "Any officer or employee of the Government who willfully uses or authorizes the use of any Government-owned passenger motor vehicle * * * or of any passenger motor vehicle * * * leased by the Government for other than official purposes * * * shall be suspended from duty by the head of the department concerned, without compensation, for not less than 1 month, and shall be suspended for a longer period or summarily removed from office if circumstances warrant."

§ 601.140 Political activity.

Various provisions of Federal statutes and regulations prohibit or limit political activity on the part of officers and employees of Federal agencies. Any officer or employee who desires to have more detailed information should make inquiry of the Personnel and Administrative Services Division.

§ 601.141 Soliciting support in nomination and election polls.

No officer or employee of the Farm Credit Administration except as authorized in the discharge of his or her official duties shall take any part, directly or indirectly, in the designation of nominees for the Federal Farm Credit Board or in the nomination or election of a member of a district Farm Credit Bank or the board of the Central Bank for Cooperatives or make any statement, either orally or in writing, which may be construed as intended to influence any vote in such designations, nominations, or elections. Any such officer or employee who violates the provisions of this section shall be dismissed.

§ 601.145 Comments on proposed legislation.

Section 1913 of Title 18 of the United States Code, entitled "Lobbying with appropriated moneys," states in substance that, in the absence of express authorization by Congress, no part of the money appropriated by any act of Congress shall be used "directly or indirectly" to pay for any personal service, telegram, letter, etc., "intended or designed to influence in any manner a Member of Congress to favor or oppose by vote or otherwise, any legislation or appropriation by Congress, whether before or after the introduction of any bill or resolution proposing such legislation or appropriation." There is an exception made in regard to communications to Congress, or Members thereof, through the proper official channels. Section 1913 imposes certain penalties for the violation of these provisions.

§ 601.150 Distribution of printed material by employees.

The distribution of circulars, flyers, posters, etc., by individual Farm Credit Administration employees or by Farm Credit Administration employee groups, should be confined to material that will not result in embarrassment to the Farm Credit Administration. Distribution of any such material should be cleared with the Personnel and Administrative Services Division. Specifically, no circulars, flyers, posters, etc., may be so distributed which:

(a) Advertise the products, services, or facilities of a commercial firm or any profitmaking organization;

(b) Directly or indirectly attack or adversely reflect on the integrity or character of Members of Congress, the judiciary or Members of the President's Cabinet, or any other Government official in a similarly responsible position;

(c) Contain expressions of a derogatory or abusive character concerning any Government employee;

(d) Directly or indirectly criticize the policies of another Government department or agency which relate to programs of the Farm Credit Administration or corporations under its supervision.

§ 601.151 Improper use of official stationery.

Official stationery should not be used for communications on controversial public matters expressing opinions which do not represent the ascertained views of those to whom such expressions of opinion would normally be imputed through the use of official stationery. In no event should permission be given for the dissemination of any such letter through facsimile use of official stationery in any newspaper, magazine, circular, or other publication.

§ 601.155 Gifts or favors from subordinates prohibited.

(a) No employee of the Farm Credit Administration shall at any time solicit contributions from other employees in the Farm Credit Administration for a gift or present to anyone in a superior position; nor shall any employee receive any gift or present offered or presented to him as a contribution from persons in the employ of the Farm Credit Administration receiving less pay than himself (5 U.S.C. 7351). However, this paragraph does not prohibit a voluntary gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(b) No employee of the Farm Credit Administration shall place himself under obligation to a subordinate employee by borrowing money, directly, or indirectly, from such subordinate employee, or by obtaining the signature of a subordinate employee as endorser or comaker of a note issued as security for a loan.

§ 601.160 Voluntary services.

Section 665(b) of title 31, United States Code, provides that "No officer or employee of the United States shall accept voluntary service for the United States or employ personal service in excess of that authorized by law, except in cases of emergency involving the safety of human life or the protection of property."

§ 601.165 Foreign decorations.

(a) An employee shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress as provided by the Constitution and in Public Law 89–673, 80 Stat. 952.

(b) Any Farm Credit Administration employee who has had such a present conferred on him or her, must notify the Personnel and Administrative Services Division that it is being held by the State Department so that appropriate steps may be taken at time of the employee's retirement, for reporting to Congress.

§ 601.170 Statements of employment and financial interests.

A statement of employment and financial interests in the form prescribed by the Civil Service Commission shall be furnished by each officer or employee who is in grade GS–16 or above under section 5332 of title 5, United States Code, or in comparable or higher positions not subject to that statute, and by the following officers or employees:

(a) Contracting or Procurement Officers (and officers or employees who have contracting or procurement authority) in Grade GS–13 and above;

(b) Chief Reviewing Appraisers;

(c) Assistant Chief Examiners;

Officers or employees from who a statement of employment and financial interests otherwise is required may be excluded from the reporting requirement when the Governor determines that reports from such officers or employees are not necessary in order to carry out the purpose of law, Executive Order 11222, and this subpart. The grievance procedure of the Farm Credit Administration shall be available for review of a complaint by any officer or employee that his position has been improperly included as one requiring the submission of a statement of employment and financial interest.

§ 601.171 Time and place for submission of statements.

The statement of employment and financial interests, which need not include the amount of financial interest, indebtedness, or value of real property, shall be submitted to the designee of the Governor not later than:

(a) Ninety days after the effective date of the regulations in this part if the officer or employee is employed on or before that date; or

(b) Thirty days after the officer's or employee's entrance on duty, but not earlier than 90 days after the effective date hereof if appointed before that date.

§ 601.172 Supplementary statements.

Changes in, or additions to, the information contained in an officer's or employee's statement of employment and financial interests shall be reported in a supplementary statement as of June 30 each year. If no changes or additions occur, a negative report is required. Notwithstanding the filing of the annual report required by this section, each officer and employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts-of-interest provisions of 18 U.S.C. 208, or of this part.

§ 601.173 Interests of employees' relatives.

The interest of a spouse, minor child, or other member of an officer's or employee's immediate household is considered to be an interest of the officer or employee. For the purpose of this section, "member of an officer's or employee's immediate household" means those blood relations who are residents of the officer's or employee's household.

§ 601.174 Information not known.

If any information required to be included on a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the officer or employee but is known to another person, the officer or employee shall request that other person to submit information in his behalf.

§ 601.175 Information prohibited.

An officer or employee is not required to submit on a statement of employment and financial interests or supplementary statement any information relating to the officer's or employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purpose of this section educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in the statement of employment and financial interests.

§ 601.176 Confidentiality of statements.

The Farm Credit Administration shall hold each statement of employment and financial interest, and each supplementary statement, in confidence. To insure this confidentiality, the designee of the Governor shall review and retain such statements and maintain them in confidence, and shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this subpart. The Farm Credit Administration will not disclose information from a statement except as the Civil Service Commission or the Governor may determine for good cause shown.

§ 601.177 Effect of statements on other requirements.

The statements of employment and financial interests and supplementary statements required of officers and employees are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an officer or employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

§ 601.178 Review of statements.

The statement of employment and financial interests shall be reviewed by the designee of the Governor to determine whether the statement reveals a conflict or an apparent conflict between the interests of the officer or employee and the performance of such officer's or employee's service for the Farm Credit Administration. If such conflict or apparent conflict cannot be resolved by consultation between the designee of the Governor and the officer or employee the conflict or apparent conflict shall be reported to the Governor for such further handling or action as the Governor may deem indicated under the circumstances.

§ 601.180 Special Government employees.

In addition to those requirements of §§ 601.110–601.170 which may be made conditions of employment of a special Government employee in writing at the time of his employment, or otherwise apply to him by operation of law, such employee:

(a) Shall not use his Government employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another person, particularly one with whom he has family, business, or financial ties;

(b) Shall not use inside information obtained as a result of his Government employment for private gain for himself or another person either by direct action on his part or by counsel, recommendation, or suggestion to another person, particularly one with whom he has family, business, or financial ties (for this purpose "inside information" means information obtained under Government authority which has not become part of the body of public information);

(c) Shall not use his Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he has family, business, or financial ties;

(d) Shall not while so employed or in connection with his employment receive or solicit from a person having business with the Farm Credit Administration anything of value as a gift, gratuity, loan, entertainment, or favor for himself or another person, particularly one with whom he has family, business, or financial ties. However, such employee may accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting where such employee may properly be in attendance, may accept unsolicited advertising or promotional material such as pens, pencils, note pads, calendars and other

V 37-71
APR 12 72
XUM

items of nominal value, and may accept, with the written approval of the Governor and upon such conditions as he may prescribe, any benefit otherwise enjoined hereby if the circumstances make clear that the motivating factor for the extension of such benefit is not based on the Government responsibilities of the employee and the business of the other person concerned;

(e) Shall submit to the designee of the Governor not later than the time of his employment a statement of employment and financial interests in the form prescribed by the Civil Service Commission which reports all other employment and any financial interests which relate either directly or indirectly to his duties and responsibilities as a special Government employee. He shall keep such statement current throughout his employment by the submission of supplementary statements. The information contained in the statement shall be reviewed and otherwise handled as is provided in § 601.178 with regard to statements of employment and financial interests required to be furnished by officers and employees. The Governor may waive the requirement for the submission of such statement in the case of a special Government employee who is not a consultant or an expert when the Farm Credit Administration finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibilities that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government.

PART 602—RELEASING INFORMATION

Subpart A—Information and Records Generally

Sec.
602.200 General rule.
602.205 Reports of Farm Credit examiners.
602.210 Lists of borrowers.
602.215 Data regarding borrowers and loan applicants.
602.220 Waiver of restrictions.
602.225 Officer or employee summoned as a witness.
602.230 Request for advice.
602.235 Information regarding personnel.
602.240 Authority to release information.
602.245 Official records generally.

Subpart B—Availability of Records of the Farm Credit Administration

602.250 Official records of the Farm Credit Administration.
602.255 Identification of records requested.
602.260 Request for records.
602.265 Service charge.

AUTHORITY: The provisions of this Part 602 issued under secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Information and Records Generally

§ 602.200 General rule.

Except as necessary in performing official duties or as authorized by §§ 602.205–602.235, no one employed by Farm Credit Administration shall disclose information of a type not ordinarily contained in published reports or press releases regarding Farm Credit Administration or any banks or associations of the Farm Credit System or their borrowers or members. Information prepared for newspaper, publishing and broadcasting companies, and all new or revised publications shall be cleared with the Information Division.

§ 602.205 Reports of Farm Credit examiners.

Reports of examinations of banks or associations made by Farm Credit examiners or Federal intermediate credit bank officials and other personnel who have been authorized by the Governor to make credit examinations may be disclosed only with the consent of the Chief Examiner of the Farm Credit Administration. Consent is given for disclosing reports of regular examinations to the banks and associations involved or interested, but such disclosure of reports of special examinations shall be only by action or consent of the Chief Examiner in each instance. Consent is also given for disclosing reports of regular examinations to authorized representatives of Farm Credit Administration and, when requested for confidential use in official investigations of matters touched upon therein, to agents of the Federal Bureau of Investigation, Department of Justice; the Assistant Postmaster General, Inspection Service, U.S. Postal Service; the Secret Service; the Internal Revenue Service; Office of the Inspector General, Department of Agriculture; and the General Accounting Office.

§ 602.210 Lists of borrowers.

The relationship between borrowers and the banks and associations in the cooperative Farm Credit System is confidential, and therefore no one employed by Farm Credit Administration shall release a list of borrowers from a Farm Credit bank or association except as provided in § 618.8310 of this chapter unless such release is approved by the Governor or deputy governor.

§ 602.215 Data regarding borrowers and loan applicants.

Because the relationship between borrowers and the banks and associations in the cooperative Farm Credit System is confidential, Farm Credit Administration personnel shall hold in strict confidence all information regarding character, credit standing, and property of borrowers and applicants for loans. They shall not exhibit or quote the following documents: loan applications; letters and statements relative to the character, credit standing, and property of borrowers and applicants; recommendations of loan committees; and reports of inspectors, fieldmen, investigators, and appraisers except as authorized by § 618.8320 of this chapter. This section is subject to the following further exceptions:

(a) Examiners and other accredited representatives of Farm Credit Administration shall have free access to all information, records, and files.

(b) Accredited representatives of the offices named in § 602.205 may, at their request, be given information pertinent to their official investigations of individual cases, and may examine such portions of the records and files as contain the information.

(c) Information concerning borrowers may be given for the confidential use of any Farm Credit institution, or any Government agency, in contemplation of the extension of agricultural credit or the collection of loans.

(d) Credit information concerning any borrower may be given when such borrower consents thereto in writing.

(e) In litigation between a borrower (or his successor in interest) and the United States or a bank or association, any competent evidence may be introduced with respect to any relevant statements made orally or in writing by or to the borrower or his successor.

§ 602.220 Waiver of restriction.

If it appears that justice would be served by releasing information in circumstances forbidden by § 602.215, the restrictions of that section may be waived as to a particular case by the Governor or deputy governor. A recommendation for such waiver may be submitted by any bank, association, or office concerned. Any such recommendation from a Federal land bank association or a production credit association shall be submitted through the appropriate Federal land bank or Federal intermediate credit bank, with the request that it be considered and forwarded to the Farm Credit Administration, if deemed advisable. Each such recommendation shall be supported by a statement of facts and approved by counsel for the forwarding bank. The recommendation should be addressed to the General Counsel, Farm Credit Administration.

§ 602.225 Officer or employee summoned as a witness.

If an officer or employee is summoned as a witness in litigation to which neither the Government nor any Farm Credit institution is a party for the purpose of testifying and/or producing documentary evidence with respect to matters which he is forbidden by these regulations in this Part to disclose, he shall arrange, if possible, with the attorney who obtained the summons, to be excused from testifying. If not excused, he shall appear in response to the summons but, before testifying or producing documentary evidence as to confidential information, he shall advise the court of these regulations against disclosing such information and request that its confidential nature be safeguarded. After so doing, he may then testify or produce documentary evidence as to such information only to the extent and under the conditions directed by the court.

§ 602.230 Request for advice.

Upon receiving any such summons, the officer or employee may request advice and assistance from the General Counsel of Farm Credit Administration or the district general counsel (or other designated attorney).

§ 602.235 Information regarding personnel.

List of employees shall not be released by an office of the Farm Credit Administration without the approval of the Governor or a Deputy Governor. This section is subject to the following exceptions:

(a) Taxing authorities shall be supplied, on request, with the names, addresses, and compensation of officers and employees of Farm Credit Administration. Field offices receiving any such requests shall forward them to the Accounting, Budget and Data Management Division.

(b) The Farm Credit Administration may release employees' names, addresses, positions and spouses' names to reputable concerns for listing in local directories only. Employees wishing to do so shall be allowed to withhold their names.

§ 602.240 Authority reserved to release information.

The provisions of §§ 602.200–602.235 shall not operate to limit or restrict the discretionary authority of the Governor or any Deputy Governor to release, or authorize the release of, information by or pertaining to the Farm Credit Administration or any bank or association of the Farm Credit System.

§ 602.245 Official records generally.

The Farm Credit Administration and the several banks and associations under its supervision keep confidential the classes of records enumerated in §§ 602.205, 602.210, 602.215, 602.235. Such records and other official records in the custody of the Farm Credit Administration may be made available to the extent provided in §§ 602.250–602.265. Information contained in other official records in the custody of a particular bank or association of the Farm Credit System may be made available to persons directly and properly concerned in accordance with §§ 608.8300 and 608.8350 of this chapter.

Subpart B—Availability of Records of the Farm Credit Administration

§ 602.250 Official records of the Farm Credit Administration.

Upon request, identified records of the Farm Credit Administration shall be made available for public inspection and copying, except exempt records which include the following:

(a) Records specifically required by Executive order to be secret;

(b) Records related solely to the internal personnel rules and practices of the Farm Credit Administration, including matters which are for the guidance of agency personnel;

(c) Records which are specifically exempted from disclosure by statute;

(d) Commercial or financial information obtained from any person or organization and privileged or confidential;

(e) Interagency or intra-agency memorandums or letters which would not be available by law to a private party in litigation in which the United States, as real party in interest on behalf of the Farm Credit Administration, is a party, or from a bank or association supervised by the Farm Credit Administration to a private party in litigation with such bank or association if such memorandums or letters are records of such bank or association;

(f) Personnel and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(g) Investigatory files compiled for law enforcement purposes, except to the extent available by law to a private party;

(h) Records of or related to examination, operating, or condition reports (other than published condition reports) of or related to the banks and associations under the supervision of the Farm Credit Administration which are prepared by, on behalf of, or for its use.

§ 602.255 Identification of records requested.

A member of the public who requests records from the Farm Credit Administration shall provide a reasonably specific description of the records sought so that such records may be located without undue search or inquiry. A record that is not identified by a reasonably specific description is not an identified record, and the request therefor may be declined.

§ 602.260 Request for records.

Requests for identified records should be directed to the Director of Information, Farm Credit Administration, Washington, D.C. 20578. Copies of such records may be obtained in person or by mail. Records will be available for inspection or copying during business hours on a regular business day at the offices of the Farm Credit Administration which are located in the South Agriculture Building, Washington, D.C.

§ 602.265 Service charge.

(a) The Farm Credit Administration furnishes a member of the public free of charge a reasonable quantity of information that has been printed or otherwise reproduced for the purpose of making it available to the public without charge.

(b) The Farm Credit Administration furnishes a member of the public free of charge information that is requested and is not exempt from disclosure when the information is readily available and can be furnished by the Farm Credit Administration without charge.

(c) When a request for information which may not be furnished under paragraphs (a) and (b) of this section is received, the Farm Credit Administration furnishes a copy of it at a fair and equitable fee when it is available to the public. In determining such fair and equitable fee, the Farm Credit Administration ascertains all costs necessary to recover the full cost to the Government including but not limited to, cost of employee service relating to research, reproduction assembly, and authentication. The fee will be based on these costs and information under this paragraph will not be furnished until such fee is paid or arrangements for payment are made.

SUBCHAPTER B—FARM CREDIT SYSTEM

PART 611—ORGANIZATION

Subpart A—Introduction

Subpart B—Policy

Subpart C—The Farm Credit Administration

Subpart D—The Farm Credit System

Subpart E—Farm Credit Districts

Subpart F—General Rules for the Districts

Sec.
611.1000 Organization—district boards of directors.
611.1010 Powers, duties, and responsibilities.
611.1021 Compensation limitation.
611.1030 Special assignments of district board members.
611.1031 Limitation on special assignments.
611.1040 Meetings of boards.
611.1050 Minutes of boards.
611.1060 District organization.

611.1100 Mergers or consolidations of banks.
611.1110 Creation of new associations.
611.1120 Merger or consolidation of associations.
611.1121 Territory adjustments of associations.
611.1130 Liquidation of associations.

AUTHORITY: The provisions of this Part 611 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Introduction

The Farm Credit Act of 1971, Public Law 92–181, approved December 10, 1971, is a complete recodification and replacement for prior laws under which the Farm Credit Administration and the institutions of the Farm Credit System were organized and operated. Prior laws which are repealed and superseded by the Act are identified in section 5.26(a) thereof. Section 5.26(b) retained the effectiveness of the existing regulations of the Farm Credit Administration and the Farm Credit System, the institutions' charters, bylaws, resolutions, stock classifications, policy, and elections until superseded, modified, or replaced under the authority of the 1971 Act. All obligations and contracts under prior laws remain enforceable unless and until modified in accordance with the 1971 Act. It is, therefore, the purpose of these regulations to supersede regulations of the Farm Credit Administration issued under prior authority and to implement, as of the date of approval of these regulations, the provisions of the 1971 Act. Contracts, including but not limited to notes, bonds, debentures, loans, security, collateral, entered into by the Farm Credit Administration or any of the institutions of the System before the issuance of these regulations shall remain valid and enforceable upon their terms unless and until they are subsequently modified.

Subpart B—Policy

In recognition, as a national policy, that a prosperous, productive agricultural economy requires an increasing input of credit resources through a permanent financing system designed to

V 37-71 APR 12 72 XUM

furnish sound, adequate, and constructive credit to farmers and ranchers and their cooperatives, the Congress initially authorized in prior law and continued under the 1971 Act a System of limited purpose, farmer-owned, banks and associations to help meet their credit needs.

The System is designed for farmer and rancher borrowers' ownership, management, and control which will be responsible to the credit needs of all types of agricultural producers and their cooperatives having a basis for credit to be furnished through the System in ways which will more adequately meet current and future complex credit requirement. For purposes of these regulations, agricultural producers are identified as individual farmers and other legal entities engaged in farming or whose owners would be granted credit if they were individual applicants. The System should also serve the farm and family needs of the part-time farmer but qualification as a farmer should not entitle such members to unlimited financing for other purposes. Additional authorization has been provided for financing non-farm rural housing, producers or harvesters of aquatic products, and selected farm-related businesses furnishing on-farm services.

The primary objective of the System is to help improve the income and well-being of farmers and ranchers. Because the System was so well conceived, it has served a large part of the agricultural credit needs of the country. It can be of greater service now with the removal of many statutory limitations. With wider latitude for action comes greater responsibility for management and policy determinations. These regulations identify areas in which Systemwide policy and district policy for the guidance of management and operations of the banks and associations is necessary to assure the accomplishment of these objectives.

This wider latitude of service and added functions accentuate the impact of the System on the agricultural economy, on other elements of the Nation's total business community, and on the public generally. Consequently, as is true with other types of financing institutions, the public interest will be protected under rules dealing with supervision, examination, audit, lending and funding operations of the System.

Subpart C—The Farm Credit Administration

The Farm Credit Administration is composed of the Federal Farm Credit Board and the Governor of the Farm Credit Administration, hereinafter called the Governor, appointed by the Board, and other employees of the Administration. The Board is composed of not more than 13 members, one of whom is designated by the Secretary of Agriculture and the remainder appointed by the President, with the advice and consent of the Senate.

The qualifications, terms, manner of nomination, appointment, and compensation of board members are provided in section 5.8 of the Act and the procedural rules for nomination are prescribed in § 618.8150 of this chapter.

The Board establishes the general policy for the guidance of the Farm Credit Administration and approves necessary rules and regulations for the implementation of the Act as specified in section 5.9.

Subpart D—The Farm Credit System

The Farm Credit System includes the Federal land banks, the Federal land bank associations, the Federal intermediate credit banks, the production credit associations, and the banks for cooperatives. Each of these institutions is an instrumentality of the United States for carrying out the congressional policy and objective. Each is chartered by the Farm Credit Administration, an independent agency of the Executive Branch of the U.S. Government, and subject to regulation and supervision by the Farm Credit Administration. The banks also have immediate supervisory responsibility over the associations in their districts.

Subpart E—Farm Credit Districts

The United States is divided into 12 Farm Credit districts. The designation and the States and other areas embraced in each district are as follows.

District name	District No.	District States
Springfield	1	Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey.
Baltimore	2	Pennsylvania, Delaware, Maryland, Virginia, West Virginia, District of Columbia, Puerto Rico.
Columbia	3	North Carolina, South Carolina, Georgia, Florida.
Louisville	4	Ohio, Indiana, Kentucky, Tennessee.
New Orleans	5	Alabama, Mississippi, Louisiana.
St. Louis	6	Illinois, Missouri, Arkansas.
St. Paul	7	Michigan, Wisconsin, Minnesota, North Dakota.
Omaha	8	Iowa, Nebraska, South Dakota, Wyoming.
Wichita	9	Oklahoma, Kansas, Colorado, New Mexico.
Houston	10	Texas.
Berkeley	11	California, Nevada, Utah, Arizona, Hawaii.
Spokane	12	Washington, Oregon, Montana, Idaho, Alaska.

Subpart F—General Rules for the Districts

§ 611.1000 Organization — district boards of directors.

(a) Each Farm Credit district shall have a district board of directors composed of seven members, six of whom are elected and one appointed, as provided in section 5.2 of the Act. Important limitations on the eligibility for membership on the district board are specified in section 5.1 of the Act. The district board may adopt additional eligibility requirements, such as an age limitation or a number of successive terms for which a director will be eligible to serve. The terms of the elected and appointed district directors are specified in section 5.1(c) of the Act. The nomination and election of district directors is provided for in section 5.2 of the Act, and procedural rules are prescribed in § 618.8160 of this chapter. The members of each Farm Credit district board of directors shall operate as a single policymaking board. They also serve as the boards of directors of the Federal land bank, the Federal intermediate credit bank, and the bank for cooperatives in their respective districts. In neither capacity do they engage in management functions. Whether acting as the board of directors for the district or ex officio as the boards for the district banks, they are responsible for correlating the policies and functions of the banks and associations so that they complement the other institutions in the district.

(b) The Central Bank for Cooperatives as provided in section 3.2 of the Act has a separate board of directors of not more than 13 members, one elected by each district board and a member at large appointed by the Governor with the advice and consent of the Federal Farm Credit Board. The powers of the central bank board are comparable to the powers of the district board acting ex officio as the board of directors of the district bank for cooperatives. However, the principal purpose of the Central Bank involves participation with the district banks for cooperatives in loans.

§ 611.1010 Powers, duties, and responsibilities.

The district board acting in that capacity or as the board of a bank, as appropriate, shall—

(a) Adopt bylaws for the banks, and approve bylaws for associations in the district from forms approved or to be approved by the Farm Credit Administration and proposed modifications of such bylaws.

(b) Adopt and prescribe consistent lending and operating policies for each of the banks and all of the associations in the district as authorized by law and these regulations to the end that the credit and other services available to eligible persons be uniform to the extent feasible and at the lowest reasonable cost consistent with sound business operations. The policies of the board shall recognize that the strength of the Farm Credit System lies substantially in its cooperative character, that each institution is an integral part of the statutory scheme for the whole System, and that each institution shall consider the total credit needs of and services available to eligible borrowers.

(c) Provide for supervision of the associations in the district to assure that authorized services are available to eligible persons in the most effective and efficient manner.

(d) Periodically provide for a review of the credit and related service needs of farmers, ranchers, and cooperatives in the district and recommend programs or modified programs to the Federal Farm Credit Board.

(e) Formulate broad policy guidelines concerning the funding operations of the banks in the district and, in concert with other district boards, for the long-range guidance of the future funding of the System.

(f) Provide policy and guidelines for the employment, compensation, and employee benefits of competent officers and employees of the several institutions in the district.

(g) Authorize agreements for joint services within or between districts for functions and services to borrowers and to the institutions of the System which can be most effectively performed by joint undertakings. When such agreements involve impact or implications for other institutions of the System, general protection of borrowers' equities and overall public interests, the proposals shall be undertaken after prior consultation with Farm Credit Administrataion in its supervisory capacity.

(h) Delegate to management the responsibilities and accountability for implementing the Act and these regulations and effectuation of district board policy.

(i) Consider and take appropriate corrective actions on recommendations identified in examination and audit reports as determined by the board or as required by the Farm Credit Administration.

(j) Provide rules for its operations as a district board and such other policy guidance for the effective implementation of the law and these regulations within the district as may be appropriate.

§ 611.1021 Compensation limitation.

Compensation is not allowable for time spent by district directors on business of Federal land bank associations, production credit associations or cooperatives of which they are members or other self-imposed assignments.

§ 611.1030 Special assignments of district board members.

Special assignments requiring the services of a director shall be authorized under procedures established by either the district board or the board of one of the banks, whichever is appropriate, and may be requested by the Farm Credit Administration.

§ 611.1031 Limitation on special assignments.

Special assignments requiring service in one calendar year totaling more than 30 days (not counting time needed for attendance at board meetings) must have the prior approval of the Farm Credit Administration. Without any further request therefor, prior approval is hereby given for attendance at National Farm Credit Directors Conferences and Planning Committee meetings, meetings of the Directors Advisory Committee to the Fiscal Agency Committee, meetings of the District Directors Policy Coordinating Committee and attendance at a particular time or place requested by the Farm Credit Administration.

§ 611.1040 Meetings of boards.

The boards shall establish regular meetings and may arrange for special meetings. The Farm Credit Administration should be notified at least 2 weeks in advance of any changed regular meeting date and, if possible, of any special meeting of the board.

§ 611.1050 Minutes of boards.

The district board shall keep full and accurate minutes of its meetings and of meetings as bank boards. Two copies of the minutes of district board meetings and bank board meetings should be sent to the Farm Credit Administration within 2 weeks after the meetings.

§ 611.1060 District organization.

The district board shall provide through a committee of presidents of the three banks, or through some other organizational pattern, a means of facilitating and promoting maximum communications among the banks in the district and an efficient and effective means of coordinating communications of these banks with the Farm Credit Administration, other parts of the System, other organizations, and with borrowers and the public. The organizational pattern should also be such that it encourages and helps to effectuate closer working relationships between the banks as a means of providing the best possible service to members at the lowest possible cost.

§ 611.1070 Branches.

The boards may authorize the establishment of branches or other offices necessary for the effective operation of the business of the banks. An association may establish such branches or other offices necessary for the effective service to borrowers when approved by the supervising bank.

§ 611.1080 Association establishment and election of directors.

As used throughout these regulations, the term "association" is restricted to Federal land bank associations and production credit associations. Section 1.13 of the Act provides for the establishment of Federal land bank associations and section 1.14 provides for the election of their boards of directors. Section 2.10 of the Act provides for the establishment of the production credit associations and section 2.11 provides for the electing of the board of directors. Additional provisions are contained in the bylaws for both.

§ 611.1090 Merger of districts.

Should two or more district boards recommend the merger of existing districts, change in the territory served by the respective districts, or any change in the name or designation of a district, the proposal and justification therefor shall be submitted to the Farm Credit Administration for review by the Federal Farm Credit Board before it is submitted for any required stockholder approval.

§ 611.1100 Mergers or consolidations of banks.

Any of the banks in the System proposing to merge or consolidate with like banks in other districts, as authorized by the Act, shall jointly submit the proposal and justification, including recommendations for the formulation of a board of directors for the bank resulting from such merger or consolidation, to the Farm Credit Administration for review before the proposal is submitted to the stockholders of such banks for approval.

§ 611.1110 Creation of new associations.

Any application for the issuance of a charter to a new Federal land bank association shall meet the requirements of section 1.13 of the Act, and any application for the charter of a new production credit association shall meet the requirements of section 2.10 of the Act. In submitting the application and recommendations required by said sections, the proposed association shall submit its proposed bylaws from the forms or optional forms approved by the Farm Credit Administration or its proposed additions to and modifications of such approved or optional bylaws provisions.

§ 611.1120 Mergers or consolidation of associations.

The boards of directors of two or more like associations may propose to merge or consolidate associations. The resolutions proposing such agreement shall be accompanied by an agreement setting forth the terms and conditions under which the merger or consolidation shall take place and shall be submitted to the bank board which, if it approves of the proposal, shall transmit the tentative agreement, and make its recommendation, to the Farm Credit Administration for review before the proposal is submitted to the stockholders of the associations. The agreement for merger or consolidation shall include the proposed effective date; the proposed name and location of the continuing or consolidated association; the designation of the charter and bylaws of one constituent association to be those of the continuing or consolidated association; the names of persons nominated to serve as directors until the first annual meeting after the merger or consolidation; the authority for transferring assets to and assumption of liabilities by the continuing or consolidated association; provision relating to the stock of the constituent associations and the stock of the continuing or consolidated association, provided no fractional shares of stock shall be issued; and the designation of persons and granting of authority to carry out the agreement, including authority to execute any documents necessary to perfect title. If preliminary approval is received from the bank board and the Farm Credit Administration, the proposed merger shall be submitted for the approval of the majority of the voting stockholders who are present and voting and the written proxies of voting stockholders presented at a duly authorized stockholders' meeting. The form of written proxy shall be prescribed by the bank. Upon such approval of the agreement, the Farm Credit Administration will issue a new charter and approve new bylaws. The newly designated directors may take such action at any time thereafter, subject to ratification at the first meeting after the

V 37 71 APR 12 72 XUM

effective date, as may be necessary for the continuing or consolidated association to transact its business. The execution of the agreement and the merger in its entirety shall be under the direction of the bank.

§ 611.1121 Territory adjustments of associations.

Territorial adjustments may be made among like associations, subject to the approval of the bank and the Farm Credit Administration.

§ 611.1130 Liquidation of associations.

The board of directors of an association, by the adoption of an appropriate resolution, may place an association in voluntary liquidation, subject to approval of the bank board and the Farm Credit Administration, whereupon the supervising bank shall appoint a liquidating agent. Additionally, upon default on any obligation by any association which cannot be corrected by other action including but not limited to mergers, the Governor may declare an association insolvent and place it in the hands of a receiver or conservator under such terms as the Governor may prescribe on a case-by-case basis.

AUTHORITY: The provisions of this Part 612 issued under secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—General Policy

§ 612.2000 Responsibility.

The personnel programs in the banks are primarily administered under the direction of their boards of directors. The Farm Credit Administration has the responsibility for exercising general supervisory authority and certain specific authorities relating to employment and compensation in the banks.

§ 612.2010 District personnel policy manual.

In the interest of effective personnel administration, the district board shall establish personnel policies for the district banks and shall provide for the issuance of the personnel policy manual reflecting such policies. The policies established shall be in accordance with applicable rules and regulations and shall be submitted to the Farm Credit Administration for review and should include the following:

(a) A general statement of personnel policy.

(b) A section on employment practices.

(1) Employment of relatives (nepotism).

(2) Reference checks.

(3) Re-employment of annuitants.

(4) Equal employment opportunity.

(c) Salary administration program.

(1) Classification of positions.

(2) Salary ranges.

(3) Compensation practices.

(4) Performance evaluation.

(d) Employee training and development.

(e) Employee responsibilities and conduct.

(1) Prohibited acts.

(2) Conflict of interest.

(3) Political activities.

(f) Grievance procedure.

(g) Employee benefits. Employee benefit programs should be motivating and equitable, effective in maintaining favorable employee attitudes, and within the economic capabilities of the banks. Employee benefits should be developed as a total program including leave, retirement, and insurance programs. Benefits should be consistent with benefits generally granted by the better employers of the area. A degree of consistency in benefit programs between districts is desirable. The inclusion of portability provisions between districts should be an objective in formulating employee benefit programs.

§ 612.2020 Associations.

The supervising banks shall develop personnel programs for associations. To the extent feasible or required, such programs shall be consistent with the personnel programs of the banks.

Subpart B—General Rules

§ 612.2030 Nepotism.

The following regulations are designed to promote morale and efficiency and to emphasize and assist the merit system of appointments and promotions.

(a) No relative of a director of a Farm Credit institution shall be employed as manager or chief executive officer of that institution.

(b) No person shall be employed by a Farm Credit institution in a position which is under the direct or indirect supervision of a relative, except that if such entity is an association, and the supervising bank has determined beforehand that positive efforts to fill an essential position by other recruitment have been unsuccessful, such bank may authorize in writing the hiring of such a related person for the position for a period or periods not to exceed 90 workdays in any calendar year. Any repetition in a succeeding calendar year must include a separate written redetermination by the bank.

(c) The term "relative" as used in this section includes first cousins and brothers-in-law and persons of similarly close or closer relationships by blood, marriage, or adoption.

(d) The provisions of this section shall be applicable to persons employed on or after the effective date of these regulations.

§ 612.2031 Reporting violations.

In any instance of violation or prospective violation of § 612.2030, it is the responsibility of the related individuals to notify the employing entity's chief executive officer regarding the situation immediately upon becoming aware of it. It is the responsibility of any such officer or manager who becomes aware of such a situation, by this or any other means, to take prompt corrective action, or, if it is beyond his power or ability to do so, to request instructions from the supervising bank or the Farm Credit Administration, as appropriate.

§ 612.2040 Reference checks.

In all bank and association appointments, careful and appropriate inquiry shall be made of the applicant's character and qualifications and made a part of the employee's personal file.

§ 612.2050 Re-employment of annuitants.

As a general policy, plans should be made in advance by banks and associations to recruit and train qualified replacements for prospective vacancies because of approaching retirements or other reasons which can be anticipated.

Annuitants should not be employed except when definite recruiting efforts have failed to produce other qualified applicants for the positions. Employment of an annuitant shall be on a temporary basis and only after a break in service has occurred. A temporary appointment is defined as an appointment not to exceed 1 year.

§ 612.2060 Political activity.

(a) No salaried employee shall hold a remunerative public office or be a candidate for such office unless the bank which supervises his employer (if he is an association employee) or the Farm Credit Administration (if he is a bank employee) has, after investigation and consideration of all facts involved, rendered a written opinion that such candidacy or holding of public office would not bring justified criticism on the grounds of political activities or partialities or in any other manner adversely affect the best interests of the borrowers or the operations and public image of the System or any institutions thereof.

(b) No salaried employee shall take an active part or issue public statements relating to the nomination or candidacy of any person or participate in partisan political campaigns for national or statewide elective office, in any way that would implicate by support, endorsement or otherwise, his connection with the Farm Credit institution by which he is employed. This statement shall not be construed to prohibit an employee from expressing his personal opinion on political affairs or candidates or making voluntary campaign contributions.

§ 612.2070 Equal employment opportunity.

It shall be the policy of all banks and associations to provide all employees and all qualified and eligible applicants equal employment opportunity without regard to race, color, religion, sex, age, national origin, politics or physical handicap. Under direction of the district and association boards, chief administrative officers shall exercise personal leadership in establishing, maintaining and carrying out a positive, continuing program designed to promote equal opportunity in the organizations' employment practices.

§ 612.2080 Salary and range approvals.

(a) All salary ranges for senior officers of the banks shall be forwarded to the Farm Credit Administration for approval 15 days prior to the effective date of any changes.

(b) A form prescribed by the Farm Credit Administration will be used by the banks to record personnel actions.

(c) The establishment or any change in the salary of the chief executive officer of a bank shall be referred to the Farm Credit Administration for approval 10 days prior to release of any announcements.

(d) A copy of all personnel actions in the senior officer level will be directed to the Farm Credit Administration for record purposes.

§ 612.2090 Other compensation plans.

All types of compensation plans, other than wages, for bank officers and employees shall be submitted to the Farm Credit Administration for prior approval. Employee benefit programs, such as hospitalization plans, group life insurance plans and other similar benefits, are not considered compensation plans.

§ 612.2100 Personnel recruitment and training.

The district and association boards shall approve policies and assure that specific responsibility is assigned for implementing recruitment and training programs. The purpose of such policies and programs shall be to recruit, train, develop, and effectively utilize and retain a staff competent to carry out the function of each bank and association. In developing these policies and programs, consideration should be given to such factors as present state of and expected changes in size, number, and complexity of loans, key employee succession, present and potential share of the market, level of loan servicing, and credit related services.

§ 612.2110 Director, officer, and employee responsibilities and conduct.

The maintenance of high standards of industry, honesty, integrity, impartiality, and conduct by directors, officers, and employees of all institutions and organizations in the Farm Credit System is essential to insure the proper performance of System business and continued public confidence in the System and all its entities. The avoidance of misconduct and conflicts of interest, either real or apparent, by all personnel is indispensable to the maintenance of these standards. All personnel shall observe both the letter and the intent of the laws, regulations, instructions, and procedures applicable to them and to entities in the System, whether issued by the Farm Credit Administration or by the entities themselves. Such written criteria, however, cannot alone provide for maximum accomplishments of the aims of the Farm Credit law. Such accomplishment must rely, in addition, on positive effort and the exercise of ingenuity and good judgment by all who have a part in carrying out the authorized Farm Credit programs. District Boards shall adopt rules and guidelines of conduct for directors and employees and secure compliance therewith.

§ 612.2120 District and association directors.

The democratically controlled, borrower-owned structure of the Farm Credit System makes it essential that each member of the boards of directors of the institutions of the System, as well as the officers and employees, be aware of potential conflicts of interest. Each director shall:

(a) Refrain from divulging or using for his personal benefit information acquired as a director, except in the performance of his official duties.

(b) Abstain from participating directly or indirectly in the deliberations on any question affecting his personal interests or those of his family or of any corporation or other business organization in which he has an interest,

(c) Avoid any action toward or the appearance of obtaining special advantage of favoritism in dealing with borrowers from any of the institutions of the System, or with officers or employees thereof, particularly in relation to real or personal property which any such institution owns or in which it claims a lien or other interest, and

(d) Consider the potential conflict of interest arising from his employment by, or directorship of, other lending institutions and his ability to impartially and objectively perform his duties and responsibilities as a director of the Farm Credit institutions.

District policy may include other guidelines and shall provide the means by which compliance is to be accomplished and questions of conflict of interest resolved. District board guidelines and instructions shall be made available to each district and association director and nominating committees.

§ 612.2130 Soliciting support in polls for district or Federal Farm Credit Board membership.

(a) No officer, director, or employee of a Federal land bank, Federal intermediate credit bank or bank for cooperatives, and no joint officer or employee for such banks, shall take any part, directly or indirectly, in the designation of nominees for the Federal Farm Credit Board, in the nomination or election of members of a district Farm Credit Board, or in the election of directors for the Central Bank for Cooperatives, or make any statement, either orally or in writing, which may be construed as intended to influence any vote in such designations, nominations, or elections. Action shall immediately be taken, for suspension or dismissal in accordance with applicable procedures, against any such officer or employee who violates the provisions of this section.

(b) Property, transportation, communications, and official stationery shall not be used by a director in the interest of his own or another's candidacy.

(c) No director, officer, or employee shall, for the purpose of furthering the interests of any candidate, furnish or make use of bank records which would not be available to all candidates.

§ 612.2140 Reports and recommendations on proposed or pending Federal legislation.

Any contacts on behalf of the bank or association or its board with the Office of Management and Budget with reference to proposed or pending legislation affecting the Farm Credit System shall be made through the Farm Credit Administration.

§ 612.2150 Devotion of time to official duties.

Officers and employees of the corporations, including associations, under the

V 37-71 APR 12 72 XUM

supervision of the Farm Credit Administration, who are employed on a full-time basis, are required to devote their full business time to the effective accomplishment of the duties assigned them in connection with the activities and operations of the corporations in which they are employed. They are also expected to refrain from accepting employment or compensation for activities, even for service rendered outside of business house, which might embarrass the employing corporation of the Farm Credit Administration or cast reflection upon their ability to take an unbiased and impartial review of its operations.

§ 612.2160 Prohibited acts for salaried employees.

Under law or rules or guidelines of the district boards which shall be made available to all employees, no salaried officer, employee, or agent of any institution of the Farm Credit System:

(a) Shall, in any manner directly or indirectly, participate in the deliberation upon, or the determination of, any question affecting his personal interests, those of any person related to him by blood or marriage, or those of any partnership, association, or any business organization in which he is directly or indirectly interested;

(b) Shall, except in the performance of his official duties, divulge to another person, or utilize for his personal benefit or that of another, any fact or information acquired by such officer, employee, or agent, directly or indirectly, by virtue of his employment;

(c) Shall accept or receive any salary, fee, commission, honorarium, or substantial gift, or other benefit, directly or indirectly, from any borrower from or debtor to any institution of the Farm Credit System, or from any loan applicant or his representative, or from any seller to or purchaser from any borrower or applicant or from or to any institution of the System, provided, however, that any officer, employee, or agent may enter into bona fide transactions with borrowers for services or for the purchase and sale of farm supplies or farm products used in or produced on his own farm, if such purchases and sales are reported to and not disapproved by the board of directors of the institution by which he is employed. Such transactions with borrowers shall not be financed with funds from loans recommended or approved by such employee;

(d) Shall acquire, directly or indirectly (including acquisition by membership in syndicates), any lands or interests therein, including mineral interests, which are owned by any Farm Credit institution or which were thus owned at any time within the preceding 12 months. As used in this § 612.2160, "mineral interests" means any interest in minerals, oil, or gas, including, but not limited to, any right derived directly or indirectly from a mineral, oil, or gas lease, deed, or royalty conveyance. This paragraph shall not apply to any acquisition by will or inheritance.

(e) Shall separately acquire, directly or indirectly (including acquisition by membership in syndicates), any mineral interests in lands which are mortgaged to any Farm Credit institution or which were thus mortgaged at any time within the proceding 12 months, but this shall not prohibit mineral interest being acquired incidentally with surface interests. This paragraph shall not apply to any acquisition by will or inheritance.

(f) Shall acquire, directly or indirectly (including acquisition by membership in syndicates), any interests in lands (including mineral interests being acquired incidentally with surface interests) which are mortgaged to any Farm Credit institution or which were thus mortgaged at any time within the preceding 12 months, without obtaining the specific prior approval of its board of directors in addition to conforming with any other applicable regulations. This paragraph shall not apply to any acquisition by will or inheritance.

(g) Shall participate, directly or indirectly, in any transaction concerning the purchase or sale of corporate stocks or bonds, commodities, or other property for speculative purposes if such action might tend to interfere with the proper and impartial performance of his duties or bring discredit upon any Farm Credit institution. Employees are not prohibited by this paragraph from making bona fide investments. When an employee is uncertain as to whether a contemplated transaction would constitute a conflict of interest, he should consult his immediate supervisor;

(h) Shall, after December 31, 1973, have business relations, directly or indirectly, involving activities with borrowers which give the appearance of undue influence such as the purchase or sale of commodities or supplies, the placement of insurance, sale of real estate, auctioneering, sales barns, or appraisal service, except as an employee of the Farm Credit institution;

(i) Shall, while he serves on a bond or debenture committee, purchase or acquire, directly or indirectly, ownership of, or any interest in, any of such obligations of the bank of which he is such an officer; or

(j) Shall, after December 31, 1973, serve also as an officer or director of a commercial bank or of an organization which frequently or occasionally transacts lending business with a Farm Credit institution.

Legal provision cited: In the above connection, particular attention is directed to the following provisions of law containing the Federal penal provisions which relate particularly to officers and employees of the institutions under the supervision of the Farm Credit Administration: Sections 212, 213, 215, 216, 371, 493, 657, 658, 1006, 1011, 1013, 1014, 1907 and 1909 of title 18, United States Code.

§ 612.2170 Cases involving trivial interest or relationship.

If the degree of interest or relationship in any case, as determined by the District board, is not substantial, but is so trivial as to create little probability that the officer's or employee's impartiality of judgment and action has been affected, no question under section 2160 shall be deemed involved. Each case shall be determined on its own facts, proper weight being given to the nature, amount, and importance of the benefit involved, the degree or kind of relationship in question, and the character of the person concerned.

§ 612.2180 Gifts or favors from subordinates.

No salaried officer or employee of any Farm Credit institution shall at any time solicit contributions from other employees for a gift or present to anyone in a superior position, nor shall any such superior receive any gift or present offered or presented to him as a contribution from employees receiving a less salary than himself, nor shall any such officer or employee make any donation as a gift or present to any official superior: Exception: Such officer or employee may except food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting where such officer or employee may properly be in attendance, may accept unsolicited advertising or promotional material such as pens, pencils, note pads, calendars, and other items of nominal value, and may accept, with the written approval of the district board of directors and upon such conditions as he may prescribe, any benefit otherwise enjoined hereby if the circumstances make clear that the motivating factor for the extension of such benefit is not based on the official responsibilities of the officer or employee and the business of the other person concerned.

§ 612.2190 Borrowing from subordinates.

No salaried officer or employee shall borrow from or obtain endorsement of a note or other obligation from any subordinate employee.

§ 612.2200 Improper use of official property.

No director, officer, or employee shall use the space, personal property, communication, transportation, or other facility of a Farm Credit institution for activities or business in his personal interest or the personal interest of another, except under lease, contract, concession, or authorization in writing, pursuant to agreements and negotiations fairly arrived at the evidenced in writing, setting forth the terms and conditions of such use. Official stationery shall not be used for personal communication or for communications or controversial public matters expressing opinions which do not represent the official views of those having a responsibility for expression of official reviews of the institution.

§ 612.2210 Evasions and circumventions of rules of conduct.

No officer or employee shall use any scheme or device to avoid compliance with any of the rules or guidelines established under §§ 612.2110 through 612.2200 or avoid compliance with the intent of those rules through the use of subterfuge, evasions, or circumventions. Examples of acts of subterfuge or circumventions include (a) obtaining a loan or assisting another borrower to obtain a loan from a Farm Credit institution knowing that the proceeds thereof are planned to be used to provide financing for a person who is ineligible for such a loan, (b) inducing or assisting another person to obtain a loan from any institution of the System, the proceeds of which are planned to be used for the employee's benefit or for the benefit of any legal entity in which the employee has a direct or indirect personal interest.

§ 612.2220 Official loans.

Officers and employees as well as directors may receive bona fide loans to the extent that they are eligible for such loans and in strict compliance with policies and regulations governing such loans.

§ 612.2230 Report by personnel.

The officer, director or employee involved or interested in any transaction to which §§ 612.2120, 612.2160, and 612.2210 are applicable shall report in writing to the appropriate officer of the interested bank or association and disclose his interest and status in the matter unless, in the case of a loan application, the application itself discloses such information. The interested bank or association is the one that is a party to the transaction and not the employing bank or association unless they happen to be the same.

§ 612.2240 Approval by interested bank or association.

All permitted transactions to which §§ 612.2120, 612.2160 and 612.2210 apply shall be subject to prior approval of the executive committee or loan committee of the interested Farm Credit institution and, unless the board of directors of that institution requires prior board approval of such transactions, shall be reported to the board for review. The officer, director, or employee involved or interested should absent himself from any meeting of the executive or loan committee or of the board, except when the committee or board requests information from him in person, while consideration is being given to the action on the transaction. This section supersedes any vested or delegated authority to the person involved. The final action on such transactions shall be recorded in the minutes of the committee or the board which shall reflect the fact that the person involved was not present when final consideration was given to the transaction.

§ 612.2250 Reports of transactions with directors, officers, or employees.

The associations shall report transactions to which §§ 612.2120, 612.2160, and 612.2210 apply fully in writing to the supervising bank and the bank shall report such final approval of the transaction to the Director of Credit Service unless the minutes of the transaction disclosing such final action are submitted promptly to the supervising institution.

§ 612.2260 Reports of credit extended to financing institutions.

Any bank or association extending credit to a financing institution not in the Farm Credit System upon the basis of any note or other obligation of a director, officer, or employee of a Farm Credit institution, including any obligation or any endorsement in which such director, officer, or employee has a personal, financial interest, shall be reported to the Director of Credit Service. This section shall not apply to the fulfillment of existing contracts in accordance with their terms where there is no change in the parties of interest or the ownership of the related property, sales of surplus equipment and supplies in accordance with the rules of disposition of such property, or the discounting by a Federal intermediate credit bank of a PCA loan for the making of a loan by a bank for cooperatives except as such loans or discounts are required to be submitted by other regulations for prior approval.

§ 612.2270 Other reports to the Farm Credit Administration.

Loan transactions, which by other regulations are required to be submitted to the appropriate service in the Farm Credit Administration for prior approval or for advice and counsel, should be accompanied by the information required by this regulation when applicable, in which event a separate reporting to meet the requirements of this regulation will not be necessary. Such steps as may be necessary should be taken in each bank to see that all officers, directors, and employees are advised of the circumstances in which reports are required of them by this regulation.

§ 612.2280 Fidelity bonds required.

Provision shall be made by the banks for insurance coverage against losses by all bank and association employees through the continuation of present coverage. Bankers Blanket Bond, Standard Form No. 10, or a substitute, may be used. The Act does not require a faithful performance provision in the bond coverage. The district boards shall determine that bond coverage is in an amount that will adequately protect the banks and associations, taking into consideration the increased dollar amount of assets and lending activity of these institutions.

§ 612.2290 Policy applicable to design and administration of employee benefit programs in the Farm Credit System.

(a) All employee benefits should be developed and based on clearly defined objectives with full coordination of benefits to eliminate coverage gaps and duplication of benefits and costs.

(b) The sharing of cost between the employer and employee should take into consideration current industry and local practices and the tax consequences to both the employer and employee.

(c) All employee benefits should be reviewed periodically to make certain they are competitive as measured by industrial and local standards so that such plans can be used as an effective management tool (incentives, recruitment, etc.).

(d) The selection of insurer to underwrite the Group Insurance Program should be based on sound underwriting principles and an evaluation of operational expenses, risk assumptions, proper accounting concepts and cost control procedures.

(e) The amendment of a pension plan to eliminate future contributions from employees will be permitted under the following conditions:

(1) Prior employee contributions plus interest shall not be immediately refunded to employees in cash. (Options in cases of separation or death before retirement remain the same as under existing programs.) Instead, they will be retained as a part of the pension plan to either reduce employer costs or to provide benefits in addition to those provided by employer contributions, or to do both. This rule shall not prohibit the transfer of prior employee contributions plus interest to a new Thrift Plan which an employer may establish at the same time as future employee contributions are eliminated from the pension plan.

(2) Post-retirement group life insurance benefits to be provided present employees will be either (i) eliminated, (ii) reduced to no more than $2,500, (iii) frozen at the amounts which would have been provided under the group life insurance program had the employee's present rate of earnings continued to retirement. Post-retirement group life insurance for all employees hired in the future will be limited to a maximum of $2,500.

(3) Accidental death and dismemberment included in a group life insurance program will be termined at the time of the employee's retirement.

(4) The funding medium to be employed to fund pension benefits may involve either a trust fund or a pension investment contract issued by an insurance company of a type which will provide a maximum rate of return commensurate with the degree of risk involved, maximum flexibility of financing, and expenses which are reasonable and justified, taking into consideration the services being provided by the insurance company.

(5) The overall costs of employee benefits will be determined on a realistic and sound financial basis and be in line with current industrial and local conditions.

(6) The pension formula will take into consideration, directly or indirectly, present and anticipated future levels of social security benefits.

§ 612.2291 Thrift plan requirements.

Subject to the restrictions previously set forth and those indicated below an employer may adopt an Employee Thrift Plan:

(a) Voluntary employee contributions will be in multiples of 1 percent but not to exceed 6 percent of their earnings,

V 37-71 APR 12 72 XUM

except as provided in paragraph (c) of this section.

(b) Matching employer contributions may be determined by a schedule designed to fit employer objectives but in no event will the rate of matching employer contributions exceed 50 cents for each dollar contributed by an employee.

(c) Voluntary employee contributions in excess of 6 percent but not beyond 10 percent may be permitted but in no event will such excess employee contributions be credited with a matching employer contribution.

(d) In the event prior employee contributions to a pension plan are transferred to the Thrift Plan, the value of such contributions will not be subject to withdrawal while the employee is still employed except in the event of financial emergencies as defined in the Thrift Plan.

§ 612.2300 Civil service retirement coverage.

(a) Section 5.6(b)(1) of the Act specifies which of the officers and employees of the banks shall be under the Civil Service Retirement Act after 1959. The creditability of service in the banks prior to 1960 is unaffected by the Act.

(b) District personnel officers are supplied with copies, and current amendments, of the Federal Personnel Manual and other material regarding civil service retirement, which contain complete information on the civil service retirement laws and regulations thereunder.

§ 612.2310 District retirement plans.

The district boards and the bank boards shall provide retirement benefits for their employees who are not under the Civil Service Retirement Act. It is recognized that the district retirement plans should be designed to be uniform, as far as practicable, between the various banks and associations in the same district. Retirement benefits, with due allowance for the social security benefits available, should be competitive with industry and area practices with appropriate consideration of the cost. Any such retirement plans, including thrift or savings plans, and any amendments thereto, shall be submitted for the prior approval of the Farm Credit Administration. Approval of the plan by the Internal Revenue Service shall be secured.

§ 612.2320 Personnel reports.

The Farm Credit Administration will request reports of personnel strength and listings of personnel on a semiannual basis.

PART 613—ELIGIBILITY AND SCOPE OF FINANCING

Subpart A—General

Sec.
613.3000 Authority.

Subpart B—Eligibility To Borrow From Federal Land Banks and Production Credit Associations

613.3010 Persons defined.
613.3015 Combined operations.
613.3030 Producers or harvesters of aquatic products.
613.3040 Rural residents.
613.3050 Farm-related businesses.

Subpart C—Eligibility of Financial Institutions To Borrow From the Federal Intermediate Credit Bank

613.3060 Institutions eligible.

Subpart D—Eligibility of Cooperatives To Borrow From a Bank for Cooperatives

613.3070 Cooperative.
613.3080 Federated cooperative.
613.3090 Cooperative basis.
613.3100 Farm or aquatic supplies and farm business.
615.3110 Eligibility.
613.3120 Scope of financing.

Subpart E—Nondiscrimination in Lending

613.3140 Requirement.

AUTHORITY: The provisions of this Part 613 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—General

§ 613.3000 Authority.

The Act, sections 1.8, 2.3, 2.15, authorizes the Federal land banks, Federal intermediate credit banks and production credit associations to make loans to bona fide farmers and ranchers, rural residents and persons furnishing to farmers and ranchers services directly related to their on-farm operating needs. Production credit associations also may make loans to producers or harvesters of aquatic products. Similarly, sections 3.7 and 3.8 of the Act authorize the banks for cooperatives to make loans to eligible cooperatives.

Subpart B—Eligibility To Borrow From Federal Land Banks and Production Credit Associations

§ 613.3010 Person defined.

A "person" is an individual or a legal entity. A "legal entity" is any partnership, corporation, estate, trust or other entity which is legally vested with authority to conduct a business.

§ 613.3015 Combined operations.

(a) Where an applicant's operations include a combination of farming, producing or harvesting aquatic products, or a farm-related business the determination of eligibility can be made on the basis of the criteria set out for either or any combination of these operations.

(b) Farmers and ranchers:

(1) Definition. A bona fide farmer or a rancher is a person owning agricultural land, or engaged in the production of agricultural products, including aquatic products under controlled conditions.

(2) To be eligible to borrow, an individual shall establish as a part of his application for credit his qualification as a bona fide farmer or rancher.

(3) A legal entity shall meet these same requirements and at least one of the following qualifications to be eligible to borrow:

(i) More than 50 percent of the value or number of shares of its outstanding voting stock or equity is owned by the individuals conducting the farming or livestock operation.

(ii) More than 50 percent of the value of its assets consist of assets related to the production of agricultural products.

(iii) More than 50 percent of its income orginates from its production of agricultural products.

(4) In addition, any loan to a legal entity in which at least 50 percent of ownership or the control is vested in another legal entity that does not meet at least one of the preceding three requirements shall be subject to prior approval of the Farm Credit Administration. Unless it can be found that such owned or controlled legal entity can operate its business as a counterpart to the normal farm businesses eligible to borrow, without jeopardy to such normal farm businesses or the general agricultural economy, approval will not be granted. Prior approval submissions shall fully document the ownership structure, the business affiliations of those owning or controlling the applicant, and the compatibility of the applicant's farming business to the normal farm business operating in the area or to the general agricultural economy.

(5) A legal entity engaged in agriculture for the primary purpose of conducting its operation at a loss to absorb taxable income from nonagricultural sources shall not be eligible.

(6) A legal entity which was a borrower otherwise eligible on the effective date of these regulations and does not materially change its entity structure or control and ownership will continue to be eligible for further borrowing.

(7) The banks and associations are authorized to make loans to farmers and ranchers for any agricultural purpose and other requirements of the borrower. The System is primarily an agricultural lender, therefore the following shall be used for determining the amount of credit which may be extended for other requirements.

(i) A broad interpretation may be applied to such requirements where the agricultural operation represents more than 50 percent of the borrower's total business, except that at no time shall the total credit extended for other requirements exceed the total value of farm assets.

(ii) Where the agricultural operation represents less than 50 percent of the borrower's total business, credit extended for other requirements (except needs of the family in part-time family farms) shall be on a conservative basis, scaled down proportionately as the farm assets become less significant in the total operation.

§ 613.3030 Producers or harvesters of aquatic products.

(a) Definition: A producer or harvester of aquatic products is a person(s) engaged in the production or harvesting of aquatic products for economic gain in open waters under uncontrolled conditions.

(b) Eligibility: To be eligible to borrow from a production credit association as a producer or harvester of aquatic products, an individual shall establish as a part of his application for credit his qualification as a producer or harvester of aquatic products. A legal entity must meet these same requirements and at least one of the following qualifications:

(1) More than 50 percent of the value or number of shares of its voting stock or equity is owned by the individuals conducting the aquatic operation.

(2) More than 50 percent of the value of its assets consist of assets related to the production or harvesting of aquatic products.

(3) More than 50 percent of the income originates from its production or harvesting of aquatic products.

(c) All proposed loans by production credit associations to producers or harvesters of aquatic products meeting the above qualifications shall be referred to the Farm Credit Administration for prior approval.

(d) Scope of financing: Production credit associations are authorized to make loans to producers or harvesters of aquatic products for aquatic needs and other requirements of the borrower. The total credit extended for other requirements shall not exceed the value of assets devoted to the production or harvesting of aquatic products. When the aquatic operation represents less than 50 percent of the borrowers' total business, credit extended for other requirements shall be on a conservative basis scaled down proportionately as the aquatic assets become less significant in the total operation.

§ 613.3040 Rural residents.

(a) Eligibility of the user: To be eligible to borrow an individual shall establish as part of his application for credit his qualification as a rural resident. However, a borrower shall not have loans on more than one rural residence at any one time and no loan shall be made to an individual to purchase or construct a rural residence for the express purpose of rental or resale.

(b) A rural resident is an owner-occupant of a rural residence located in a rural area.

(c) Rural residence: A rural residence is a single-family, moderate-priced dwelling used as a permanent, year-round residence and an appropriate site sufficiently large to provide a proper surrounding for a residence both in terms of the physical requirements for access, equipment, utilities and services and the community standards for aesthetic suitability. Rural residences may include conventional housing, modular housing or mobile homes. However, a mobile home must be related to a specific real estate site. This shall involve the following.

(1) Its being fixed on a permanent or semipermanent foundation.

(2) The intent of the owners at the time affixed.

(3) Its intended use as a permanent housing.

(4) Further, the mobile home shall be connected to a sewage system, water system and other utilities, and the owner-occupant shall own land or hold a suitable long-term lease which is assignable on the land loans to rural residents within the district.

(d) The bank shall prescribe appropriate procedures subject to the approval of the bank board as to types of housing that may be used as security for loans to rural residents within the district.

(e) Moderate priced dwelling: A moderate priced dwelling is adequate but not in excess of the living standards of persons in the middle range of income for that area of the Farm Credit district. Due to the wide variations in housing costs, income levels, and area standards for housing, the determination of the ranges of value which constitutes moderate priced housing will vary between localities. A loan shall not be made if the value of the dwelling exceeds the standards defined herein.

(f) The bank shall prescribe appropriate procedures subject to approval of the bank board as to ranges of value which constitute a moderate priced dwelling with the district.

(g) Rural area:

(1) For the purposes of nonfarm rural housing loans only, a rural area is open country which is primarily agricultural in character. It may include any open areas in any city or village with a population of up to 2,500 persons, based on the latest U.S. Census, which is not directly associated with or adjacent to a larger population center. A rural area does not include established commercial subdivisions or other concentrated residential areas, regardless of location, which are primarily intended to provide high density housing and services. But individually owned rural homes constructed in clusters for convenience or efficiency of services are included.

(2) Rural areas may include open areas which are undeveloped for housing and still devoted to agricultural use within other political subdivisions including "towns" exceeding 2,500 persons designated by the district board with the approval of the Farm Credit Administration. In making this designation, consideration shall be given to the character of local governmental powers, the availability of municipal type services, and the land ownership and probable residential growth patterns of the community.

(h) Scope of financing: Loans may be made to owner-occupants of rural residences for the purposes of buying, building, remodeling improvements, and repair of such residence, the cost of participation certificates and closing costs and to refinance existing indebtedness on such residences. The total amount of credit that may be extended for such purposes shall not exceed 85 percent of the appraised value.

§ 613.3050 Farm-related businesses.

(a) *Definition.* A farm-related business is a person(s) engaged in furnishing to farmers or ranchers custom-type farm-related services, performed on the farm and directly related to their on-farm operating needs.

(b) *Eligibility.* (1) To be eligible to borrow, a person(s) shall establish as part of his application for credit his qualifications as a farm-related business.

(2) Loans shall not be made to commercial business which purchase farm products from or sell inputs to farmers or ranchers unless substantially all of such inputs handled are used incident to the services provided.

(c) *Scope of financing.* Federal land banks may make loans to farm-related businesses for necessary sites, capital structures and equipment and initial working capital for such services. Production credit associations may make loans to farm-related businesses for any working capital, equipment and operating needs incident to the operation of farm-related businesses. Any such loans shall be confined to the financing of those assets or business activities directly related to the custom-type services performed on the farm. Such financing is subject to the provisions of § 616.6040 of this chapter.

Subpart C—Eligibility of Financial Institutions To Borrow From the Federal Intermediate Credit Bank

§ 613.3060 Institutions eligible.

The Federal intermediate credit banks may make loans to and discount agricultural paper for production credit associations and other financial institutions in accordance with provisions in Part 614 of this chapter.

Subpart D—Eligibility of Cooperatives To Borrow From a Bank for Cooperatives

§ 613.3070 Cooperative.

The term cooperative means any association of farmers, ranchers, producers or harvesters of aquatic products, or any federation of such associations, or a combination of such associations and farmers, which is operated on a cooperative basis, is engaged in processing, preparing for market, handling or marketing farm or aquatic products; or purchasing, testing, grading, processing, distributing or furnishing farm or aquatic supplies; or furnishing farm business services or services to eligible cooperatives.

§ 613.3080 Federated cooperative.

A federated cooperative is a cooperative whose membership includes farmers' cooperative associations and in which at least 80 percent of the voting control is vested in farmers and eligible associations.

§ 613.3090 Cooperative basis.

Cooperative basis means the conduct of business for the mutual benefit of the members as patrons.

§ 613.3100 Farm or aquatic supplies and farm business services.

Farm or aquatic supplies and farm business services are any economic goods, business or services normally used by farmers or producers or harvesters of aquatic products which contribute to their business operations or are in furtherance of the livelihood, welfare or security of such persons.

§ 613.3110 Eligibility.

To be eligible to borrow from a bank for cooperatives, a cooperative shall meet the following requirements.

V 37-71
APR 12 72
XUM

(a) At least 80 percent of the voting control, or such higher percent applied uniformly and consistently to all applicants and borrowers in the district as may be established by resolution of the bank board shall be held by farmers or ranchers, or producers or harvesters of aquatic products, who are eligible under section 3020 or 3030, or by eligible cooperatives.

(b) It deals in farm products or aquatic products or products therefrom, farm or aquatic supplies, or farm business services with or for members in an amount at least equal in value to the total amount of such business transacted by it with or for nonmembers, excluding from the total of member and nonmember business transactions with the United States or any agencies or instrumentalities thereof for services or supplies furnished as a public utility.

(c) No member of the cooperative shall have more than one vote because of the amount of stock or membership capital he owns therein; or, the cooperative must restrict dividends on stock or membership capital to 10 percent per year or the maximum percentage per year permitted by the applicable State statutes, whichever is less.

(d) A cooperative or a federated cooperative which was otherwise eligible and was a borrower on the effective date of these regulations and which does not materially change its entity structure or ownership and control will continue to be eligible for further borrowing.

§ 613.3120 Scope of financing.

A bank for cooperatives may make loans to meet any credit need which will enable a cooperative to perform those functional powers prescribed in sections 3070 through 3100 which will benefit its farmer members. A bank may also make loans, to a cooperative otherwise eligible to borrow, for purposes not directly related to such primary functions or powers, so long as a finding is made that the amount to be loaned is reasonably modest in relation to the total credit provided and such business purpose(s) will enhance the well-being of the members and patrons.

Subpart E—Nondiscrimination in Lending

§ 613.3140 Requirement.

As required in the Civil Rights Acts of 1964 and 1968, there shall be no discrimination because of race, color, sex, religion, or national origin in financing of housing or in the availability of loans generally from the Farm Credit institutions. The supervising banks shall provide instruction to their respective associations in the district regarding nondiscrimination and notice for posting in each association office.

PART 614—LOAN POLICIES AND OPERATIONS

Subpart A—General

Sec.
614.4000 Basic responsibilities.
614.4010 Supervision by the Farm Credit Administration.
614.4020 Delegation.
614.4030 Intent of delegation.
614.4040 Bank guideline responsibilities.
614.4050 Bank supervision of associations.
614.4060 Association responsibilities.

Subpart B—Chartered Territories

614.4070 Loans outside the established territory—Federal land banks, Federal land bank associations, and production credit associations.
614.4080 Loans outside of bank's territory—banks for cooperatives.

Subpart C—Lending Authorities

614.4090 Federal land banks.
614.4100 Federal intermediate credit banks.
614.4110 Production credit associations.
614.4120 Banks for cooperatives.
614.4130 Approval.

Subpart D—General Loan Policies for Banks and Associations

614.4140 Sound loan.
614.4150 Credit factors.

Subpart E—Application of Credit Standards

614.4160 Applicants.
614.4170 Borrower liability.

Subpart F—Loan Terms and Conditions

614.4180 Federal land banks.
614.4190 Federal intermediate credit banks.
614.4200 Production credit associations.
614.4210 Banks for cooperatives.

Subpart G—Security Requirements

614.4220 General.
614.4230 Federal land banks.
614.4240 Federal intermediate credit banks.
614.4250 Production credit associations.
614.4260 Banks for cooperatives.
614.4261 Security and appraisal standards, banks for cooperatives.

Subpart H—Interest Rates and Charges

614.4270 Policy.
614.4280 Interest rates.
614.4290 Interest on past due loans.
614.4300 Others charges and fees.
614.4310 Interest rate limitation for Federal intermediate credit banks only.
614.4320 Production credit associations.
614.4321 Interest rate programs.

Subpart I—Loan Participations

614.4330 General.
614.4331 Federal land banks.
614.4332 Federal intermediate credit banks.
614.4333 Production credit associations.
614.4334 Banks for cooperatives.

Subpart J—Loss Sharing Agreements

614.4340 General.
614.4345 Guaranty agreements.

Subpart K—Lending Limits

614.4350 General.
614.4351 Federal land banks.
614.4352 Federal intermediate credit banks.
614.4353 Production credit associations.
614.4354 Banks for cooperatives.
614.4360 Computation of obligation for lending limit determination.

Subpart L—Rural Housing Loans

614.4370 General policy.
614.4380 Lending limitations.
614.4390 Appraisal of security.
614.4400 Security requirements.
614.4410 Loan terms and conditions.
614.4420 Loan closing requirements.
614.4430 Identification of rural housing loans.

Subpart M—Notice of Action and Appeals

614.4440 Notice of action on loan application.
614.4441 Applicant's right to appeal.
614.4442 Records.

Subpart N—Loan Prior Approval Requirements

614.4450 General requirements.
614.4490 Federal land bank and production credit association loan requiring prior approval.
614.4500 Bank for cooperative loans requiring Farm Credit Administration prior approval.
614.4501 Bank for cooperative loans requiring Farm Credit Administration post review.

Subpart O—Loan Servicing

614.4510 General.
614.4511 Federal land bank association compensation.
614.4512 Compromise of indebtedness.

Subpart P—Special Programs

614.4520 General.
614.4530 Special loans, production credit associations.

Subpart Q—Federal Intermediate Credit Bank Financing of Other Financing Institutions

614.4540 General.
614.4550 Financing responsibility of the Federal intermediate credit banks regarding other financing institutions.
614.4560 Criteria which shall be used to determine whether a discount relationship should be established with an applicant other than financing institution.
614.4561 Financing institutions affiliated with other concerns.
614.4570 Utilization of the discount privilege.
614.4590 Direct loans to other financing institutions.
614.4600 General collateral.
614.4610 Filing and recording assignments of security instruments.
614.4620 Suspension of right to borrow and discount.
614.4630 Credit to other financing institutions in special circumstances.
614.4631 Alternate method.
614.4632 Limitation on alternate method.
614.4640 Insolvency of other financing institutions.
614.4650 Prior loan approval.
614.4660 General rediscount agreement.

AUTHORITY: The provisions of this Part 614 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—General

§ 614.4000 Basic responsibilities.

The Act (sections 1.1(b), 5.18(5) and 5.19) vests certain responsibilities with the Farm Credit System and the Farm Credit Administration which pertain to the development of a credit system responsive to the credit needs of all types of eligible applicants having a basis for credit.

§ 614.4010 Supervision by the Farm Credit Administration.

The Farm Credit Administration is empowered to exercise general supervision over the administration of credit; to coordinate the activities of the banks in making studies of lending standards, including appraisal and credit standards; approve national and district standards and procedures; and to supplement the work of the districts under the foregoing where necessary to accomplish the purposes of the Act.

§ 614.4020 Delegation.

The Act authorizes and directs the delegation and redelegation of such of the duties, powers, and authority of the Farm Credit Administration as may be determined to be in the interest of effective administration.

§ 614.4030 Intent of delegation.

The banks shall provide for the exercise of loan making authority by the associations commensurate with their demonstrated ability to extend and administer credit soundly on condition that adequate control and supervisory measures are developed and exercised.

§ 614.4040 Bank guideline responsibilities.

Under policies of its board, each bank shall conduct studies and make and adopt standards for lending and develop and issue adequate credit manuals, operating procedures, and control mechanisms for guidance in the extension and administration of sound and constructive credit. The definition of a sound loan, and the five specific credit factors, along with the total provisions of these regulations on loan policies and operations shall constitute the guidelines under which district policies and procedures shall be constructed. The credit manuals setting forth policies and procedures shall prescribe the forms to be used, including a loan application and an adequate credit file; the minimum supporting credit information and verification required in relation to loan size, complexity and risk exposure; the format and procedures to be followed in loan analysis, minimum standards for loan disbursement, servicing and collections; and such other standards as are necessary for the safe and professional conduct of a lending organization.

§ 614.4050 Bank supervision of associations.

Where credit decisions are vested in associations by law or through delegated authority, district policies, and procedures shall be designed to regulate, control, and review the extension of credit. District policies and procedures shall include guidelines with respect to particular enterprise financing, and limitations with respect to lending in specialized or hazardous areas. The banks shall supervise the credit operations, monitor association performance and take corrective action when deficiencies occur. District banks shall also assist and supervise associations in the credit training of employees and loan committees.

§ 614.4060 Association responsibilities.

Associations shall conduct their credit operations within their vested or delegated authority in compliance with the guidelines of these regulations and regulations of the district bank. Demonstrated capability in extending sound credit, including the extent to which association boards have established policies and procedures with adequate controls and accountability, shall be weighed heavily by the bank in delegating authority and exercising its supervisory responsibility over association credit operations.

Subpart B—Chartered Territories

§ 614.4070 Loans outside the established territory—Federal Land banks, Federal land bank associations, and production credit associations.

(a) A loan to finance operations wholly within the territory of a bank or association may be made regardless of the residence of the applicant.

(b) A loan to finance operations which are partially within and partially without the territory of a bank or association may be made if such operations are regarded by the association and the bank as one farming or livestock unit. Concurrence of like associations and the supervising bank in whose territory the operation is located shall be obtained.

(c) A loan to finance operations wholly outside the chartered territory of an association may be made, provided such loans are authorized under policies established by the bank board and approved by the Farm Credit Administration. If a loan is made to an eligible borrower whose operation is wholly outside the chartered territory of the lending association, concurrence of like associations and the supervising bank in whose territory the operation is located shall be obtained.

§ 614.4080 Loans outside of bank's territory—banks for cooperatives.

(a) A bank is authorized to make loans to cooperatives headquartered in the district served by the bank.

(b) A bank may make loans to an eligible cooperative headquartered in another district provided the following conditions are met.

(1) The interests of the borrowing cooperative would best be served.

(2) The bank in the district in which the cooperative is headquartered gives its consent.

(3) The Farm Credit Administration approves.

(c) Cooperatives operating in more than one district shall apply for loans to the bank in the district in which the headquarters office of the cooperative is located.

Subpart C—Lending Authorities

§ 614.4090 Federal land banks.

(a) The banks are authorized to make and participate with other Federal land banks in long-term real estate mortgage loans in rural areas for a term of not less than 5 years nor more than 40 years. Subject to limitations applicable to making long-term real estate mortgage loans, the banks are authorized to make continuing commitments to lend and to extend financial assistance of a similar nature. Regulations as prescribed by the bank's board shall be used in making loans, continuing commitments for loans, and in extending other financial assistance. Borrowers shall be permitted to make advance payments on their loans or, under agreement with the banks, make advance conditional payments to be applied on future maturities or to be available for return to the borrower for purposes for which the bank would increase their existing loans.

§ 614.4100 Federal intermediate credit banks.

(a) The banks are authorized to make loans and extend other similar financial assistance to and discount for, or purchase from, production credit associations, with their endorsement or guaranty, any note, draft, and other obligation presented by such association. In addition, the banks may participate with such association(s) and one or more other intermediate credit bank in making loans to eligible borrowers.

(b) The banks are authorized to discount for, or purchase from commercial banks and other other financial institutions, with their endorsement or guaranty, notes and other obligations for loans which have been made for agricultural purposes in accordance with regulations contained in § 614.4540.

(c) All of the foregoing shall be subject to regulations prescribed by the bank board.

§ 614.4110 Production credit associations.

Each production credit association, under rules and regulations prescribed by the bank board, may make, guarantee, or participate with other lenders in short- and intermediate-term loans and other similar financial assistance to eligible borrowers for a term not exceeding 7 years.

§ 614.4120 Banks for cooperatives.

The banks are authorized to make loans and commitments to eligible cooperatives and to extend to them other financial assistance, including but not limited to discounting notes and other obligations, guarantees, collateral custody, or participation with other banks for cooperatives and commercial banks or other financial institutions in loans to eligible cooperatives, under such terms and conditions as may be determined to be feasible by the bank board.

§ 614.4130 Approval.

All district regulations mentioned in this Subpart C shall be subject to Farm Credit Administration approval.

Subpart D—General Loan Policies for Banks and Associations

§ 614.4140 Sound loan.

A sound loan is one made to a responsible individual or entity of established integrity who has a creditable operating and financial record, or equivalent characteristics if a new business, in an amount sufficient to accomplish a useful purpose. It should be made in an amount and under terms and conditions that will

V 37-71
APR 12 72
XUM

reasonably assure repayment, usually without adversely affecting the borrower's financial position. It should be supported by sufficient equity or collateral, or both, to afford the lender reasonable protection against loss if adverse conditions occur.

§ 614.4150 Credit factors.

Five basic factors pertinent to a sound loan are as follows:

(a) The individual or entity: A prerequisite for a sound loan is an applicant of established integrity. Responsible and cooperative management must be evident. The importance of this factor is of such significance that it can affect the weight placed upon the other credit factors. Analysis shall include a careful evaluation of character, experience, record and prospects of management in finance and operation.

(b) Financial position and progress: Financial responsibility reflects ability to meet obligations, continue business operations and protect the lender against undue risk. The applicant's total assets controlled, equity owned, contingent liabilities and history of earnings to date are significant measures of financial responsibility.

(c) Repayment capacity: The determination of repayment capacity requires an analysis of cash flow history and projection. A cash flow projection shall reflect cash generation from the applicant's operation and all other sources. Generally the flow of cash shall be sufficient to meet all obligations and provide a remainder for contingencies.

(d) Basis of approval: The amount of loan, use of funds and loan terms are the principal factors over which the lender has direct control. Therefore, the loan shall be constructive in amount and purpose and practical as to repayment terms for both the borrower and lender. Loan conditions such as loan agreements, personal liability, additional collateral, insurance, etc., shall be required as conditions warrant.

(e) Collateral offered or available as security (section 1.9 Federal land bank, 2.15 production credit association, and 3.10(b) bank for cooperatives of the Act). Collateral needs are contingent upon the requirements of the law and is dictated by the strengths or weaknesses of all credit factors. The requirement of collateral and collateral taken shall reasonably protect the lender, provide the necessary control of equity and repayment, and leave the borrower in a position to constructively manage his business. In addition, personal liability or entity liability in the form comakers or guarantors may provide added strength in extending credit. Sufficient analysis shall be made of credit factors relevant to such comakers or guarantors as is necessary to assure that their signatures actually provide the desired support for the loan.

Subpart E—Application of Credit Standards

§ 614.4160 Applicants.

Changes in the agricultural economy during recent years have created a complex variety of entrepreneurs within the field of agriculture as compared to the basic family farm or farmer cooperative which generally prevailed when the System was founded. The following guidelines shall be used by the district boards in establishing policies and by banks in developing procedures whereby loan quality standards can be varied in accordance with the nature of the applicant.

(a) In extending credit to the following basic farm family group, maximum consideration shall be given to strength in management ability, personal responsibility, family cooperation and continuity, earnings potential, purpose of loan and terms of approval in relation to their financial position and collateral.

(1) Full and part-time individual proprietorship farmers.

(2) Partnerships or joint ventures composed of subparagraph (1) of this paragraph.

(3) Estates or trusts emanating from subparagraph (1) of this paragraph.

(4) Corporations in which the stockholders are family members or individuals who would otherwise have constituted a proprietorship farm business.

(b) The following entities where partners or stockholders include farmers and nonfarmers shall be given adequate consideration for financing agricultural needs, but with careful consideration to the financing of other requirements. There shall be adequate strength in the combined credit factors to avoid more than a normal business risk.

(1) Partnerships and joint ventures in which the primary occupations and incomes of the partners are other than farming.

(2) Fiduciary entities which do not primarily represent the continuation of a proprietorship operation.

(3) Corporations in which stockholders include a predominance of farmers, but as investors rather than as a closely related family business.

(c) Credit extended to the following investor-oriented farming business group shall be primarily for agricultural needs. Risk factors shall be minimal. Adequate factual information and proper analysis is necessary in extending credit to any applicant. However, this group of applicants often presents complexities of financial and organizational structure beyond that normally encountered with the basic farmer applicant. It should be recognized that this requires more diligent efforts in developing adequate information and to assure that an in-depth analysis is made of such data. Nonfarm collateral or income shall not be given undue weight in determining the amount of credit extended to this group.

(1) Businessmen who also farm or own farm property.

(2) Partnerships or joint ventures composed predominantly of partners who do not have farming as their primary occupations and sources of income.

(3) Corporations in which stockholders predominantly are individual investors or other legal entities whose primary occupations or businesses and income are from sources other than farming.

(d) The type of farmer cooperative operation, quality of management, and basic financial factors shall be carefully evaluated as to their effect upon the long range benefit to members. Bank boards shall establish policies and banks for cooperatives develop procedures for administration of quality standards that fully consider the needs of, support by, and service performed for members, and risk protection afforded the lender.

(e) Where an enterprise or an area presents hazards because of the nature of the industry, economic conditions, new ventures, or changing technology, credit standards shall be administered to assure that the lender carries a proportionately lesser risk.

§ 614.4170 Borrower liability.

All primary borrowers shall normally be fully liable for loans obtained from the Farm Credit System. Where acceptable to the bank or association when the primary borrower includes two or more persons as joint borrowers, the liability requirement may be met by each borrower assuming liability for a specified percentage of the loan provided the aggregate liability covers 100 percent of the loan and credit conditions support such action. Where personal guaranty is required from persons other than the primary borrower, such guarantor shall normally be fully liable unless the primary borrower or other guarantors provide adequate financial strength to result in a sound loan even though the personal liability of an individual guarantor may be limited.

Subpart F—Loan Terms and Conditions

§ 614.4180 Federal land banks.

(a) Farm loans may be made for not less than 5 years nor more than 40 years. The basis of approval shall set out the terms and conditions under which a loan is approved. When necessary to assure proper understanding, provide needed controls and protect the lender, a formal written loan agreement shall be developed between the borrower and the bank.

(b) The outstanding loan balance on any farm loan shall not at any time during the life of the loan exceed an amount greater than 85 percent of the appraised value established by the most recent appraisal report on the primary real estate security. This shall not, however, prohibit protecting the security position by advancing taxes, advancing insurance premiums, rescheduling loan payments, granting partial releases, or other loan servicing actions when the loan, subsequent to the action, will be at least as well secured as it was prior to the action.

(c) The bank shall incorporate in the district's credit manual a sufficient number of basic repayment to adequately serve the borrowers in its district. Adaptations within these plans will be permissible to tailor loans to the individual borrower's credit needs.

§ 614.4190 Federal intermediate credit banks.

(a) Loans made by a Federal intermediate credit bank in participation with a production credit association or another Federal intermediate credit bank, shall be made under terms and conditions prescribed in § 614.4200 for production credit associations.

(b) Direct loans to production credit associations. The bank may make direct loans to production credit associations either in lieu of discounting acceptable paper in conjunction with a direct loan program which encompasses the discounting function. Except with the approval of the Farm Credit Administration, the total of all direct loans and loans discounted shall not at any time exceed the limitations outlined herein. Direct loans will normally be secured by pledge of loans and all other assets of the production credit association. Except that where loans to members are discounted separately, direct loans may be unsecured in whole or in part, at the discretion of the bank. The amount loaned on an unsecured basis shall at all times be consistent with sound financial and credit practices.

(c) Direct loan limitation. The total credit extended to a production credit association under a direct loan and by discounting loans may not at any time exceed the total of that portion of the total loans including participations purchased from other lenders considered acceptable and problem (as defined in the Credit Examination Manual) in accordance with the percentage as classified in the most recent official credit examination, or such percentages as may equitably represent the same percentages on a current basis, such alternate procedure to be subject to concurrence of the Farm Credit Administration, the total of investments under Commodity Credit Corporation programs, notes insured or guaranteed by Farmers Home Administration, and in farmers' notes to cooperatives and dealers, etc.; and capital and surplus less the total of the amount invested in the Federal intermediate credit bank and any portion of capital and surplus invested in loans to members, and any estimated losses not protected by reserves.

(d) Form of direct loan obligation. Direct loans and advances to a production credit association may be evidenced by a promissory note or by a loan agreement in form approved by the Farm Credit Administration.

(e) Direct loans to other financing institutions. In accordance with regulations contained in § 614.4590, the bank may make direct loans or advances to other financing institutions.

§ 614.4200 Production credit associations.

(a) Operating loans will usually be made with maturities coinciding with the purpose of the loan and the normal marketing seasons for the enterprises being financed.

(b) Intermediate-term loans may be made with maturities not to exceed 7 years from the date of initial disbursement, under policies and procedures prescribed by the bank. The basis of approval shall set out the terms and conditions under which a loan is approved and shall be clearly communicated to the borrower prior to disbursement of approved funds. When necessary to assure proper understanding, provide needed controls, and protect the lender, a formal written loan agreement shall be developed between the borrower and the association or bank.

(c) Special intermediate-term loans, exclusive of loans to nonfarm rural residents, producers or harvesters of aquatic products, and farm-related businesses, may be made with maximum maturity not to exceed 7 years realizing, however, when establishing repayment that forbearance or extension may be necessary under the following circumstances.

(1) When specific capital items are being financed, such as new equipment, new or remodeled buildings, or facilities with a useful life and value, after normal depreciation and obsolescence, which exceeds the term of the loan at all times.

(2) When real estate mortgage credit is unavailable, not acceptable to the applicant, or impractical for reasons such as cost or delay in availability.

(3) When earnings history, repayment record and net earnings projections satisfactorily support the loan and provide assurance for final repayment within 3 additional years if forbearance or extension is granted.

(4) Before any special intermediate-term loans shall be made, the district board shall adopt a policy, and the Federal intermediate credit bank and the Federal land bank of the district shall develop procedures regulating the making of such loans, all of which shall be subject to approval of the Farm Credit Administration. Such policies and procedures shall include but are not limited to the following.

(i) Provisions for cooperation between production credit associations and Federal land bank associations in the consideration of any loans bordering on the long-term mortgage category.

(ii) Procedures to be followed in credit reviews and credit examinations whereby loans of this type, made during the period covered by the examination, will be reviewed and commented upon as to compliance with policy and procedures.

(iii) Provisions for adequate reporting on loans of this type to enable timely supervision by the bank.

§ 614.4210 Banks for cooperatives.

(a) Seasonal loans shall be primarily for financing current assets and shall normally be repaid within 18 months. Term loans shall be for financing noncurrent assets or working capital and should generally be made on an amortized basis.

(b) The basis of loan approval by a bank shall set out the terms and conditions under which a loan is approved. To assure proper communication and understanding, provide needed controls, and protect the lender, a loan agreement shall be executed between the borrower and the bank.

Subpart G—Security Requirements

§ 614.4220 General.

Primary real estate shall be valued on the basis of appraised value and primary chattel security or additional security shall be valued on the basis of recovery value.

(a) *Appraised value.* Appraised value shall be the basis for valuing primary real estate and is the reasonably supported market value except in the following circumstances.

(1) Property in areas of population pressure when the principal basis of value is from land uses such as commercial, industrial, residential or recreational development or speculation on such uses in the future. These may be adjacent to urban areas but could also be some distance from the population center along or near bodies of water, in or near mountain ski developments, in dude ranch areas and similar situations. The appraised value of such properties shall be adjusted downward to assure that loans based thereon are consistent with the objective to make primarily agricultural loans.

(2) Timber land shall be valued at market value when not affected by the other exceptions of this section; however, the timber stumpage, which when severed is a commodity and fluctuates widely in price, shall be valued on the basis of its normal commodity price.

(3) Properties on which long-term plantings such as citrus groves, orchards, nuts, vineyards, cranberries, etc., where there is evidence of abrupt fluctuation in market value due primarily to changes in the supply and price of the particular commodity. In these cases a 5-year moving average of market value shall be used.

(4) Property where reliance for earnings and value is placed on leases or use permits and where there is a question about the continued availability of the lease or permit for the term of loan contemplated. The fee owned land shall be appraised at market value and the lease or permit contribution to value shall be on a basis which will maintain standards consistent with other real estate lending.

(5) Properties in areas where there is evidence of imminent serious problems resulting from a depleting water supply, deteriorating water quality or lack of drainage, except where these problems are already reflected in the market value or can be appropriately protected against in the loan term and repayment schedule. These shall be appraised in such manner as to eliminate undue lending risks in the particular circumstances.

(6) Property in areas where mineral value or speculation on such value exists. The appraised value shall be based on a comparison to similar areas where mineral influence is minimal.

(b) *Market value.* Market value is the amount which a property will bring if a reasonable time is allowed to find a purchaser and if both seller and prospective buyer are informed, neither being under abnormal pressure.

(1) The above definition contemplates the consummation of a sale and the passing of full title from seller to buyer, under the following conditions.

(i) Buyer and seller are free of undue stimulus and are motivated by no more than the reactions of typical owners.

(ii) Both parties are well-informed or well-advised and act prudently, each

V 37-71
APR 12 72
XUM

for what he considers his own best interest.

(iii) A reasonable time is allowed to test the market.

(iv) Payment is made in cash or in accordance with financing terms generally available in the community for this type of property.

(2) There is a difference between market price and market value. Market value represents the rationale of buyers collectively within the area while market price indicates what an individual property may have sold for.

(c) *Recovery value.* Recovery value applicable to both chattels and real estate is the amount, less estimated maintenance, selling costs, all prior liens and encumbrances, at the date of inspection or appraisal, which the lender should be able to realize from sale of property on reasonable terms. It is a modification of present market value as determined by a loan analyst or appraiser and lies between present market value and a forced sale value. Condition of the loan and of the farming operation, and the circumstances under which recovery would likely be attempted will need to be recognized in determining such value. It should be predicated on the basis of the active effort to dispose of the property when related to a workout loan situation. Values based on security in appraisals or inspection report should clearly define the basis on which the value was established.

§ 614.4230 Federal land banks.

(a) Primary security for a Federal land bank loan shall consist of a first lien on interest in real estate. The real estate interest must be mortgagable interest under deeds or leases which reasonably may be considered adequate to afford the security of a first lien upon the rights and interests on which the loan is predicated. Collateral closely aligned with, an integral part of, and normally sold with real estate may be included in the appraised value of the security upon which a loan is based. Appraised value shall be determined within approved standards and shall include in the evaluation either farm land, eligible farm related businesses, or eligible rural residences whichever is appropriate for the type of loan being made.

(b) Additional security may be required to supplement primary real estate security. The value of such additional security shall be considered only for collateral protection and may not be included in the value of the security upon which the loan is based. Recovery value shall be the basis for measuring the collateral worth of additional security.

(c) Personal property used in farming operations and considered as collateral for short- and intermediate-term credit will normally not be included as additional security. Before taking such personal property as additional security, the Federal land bank and Federal land bank associations shall consider whether all or a portion of the credit needs might be met more satisfactorily by a short- or intermediate-term loan such as may be obtained through a production credit association in accordance with district board policies under §616.6020 of this chapter.

§ 614.4240 Federal intermediate credit banks.

(a) Participation loans. Loans made by a Federal intermediate credit bank in participation with a production credit association or another Federal intermediate credit bank shall adhere to the same security requirements as prescribed in § 614.4250 for production credit associations.

(b) Direct loans to production credit associations. Securities and other obligations pledged to the bank by a production credit association pursuant to a general pledge and direct loan agreement, shall be held by the bank as collateral for direct loans made by the bank against such securities, as general collateral to secure all paper discounted for the association, and as security for all other obligations of the association to the bank. In the event it is necessary for a bank to realize on such collateral the proceeds therefrom will be applied in that order.

(c) Direct loans to other financing institutions shall be secured in accordance with regulations contained in § 614.4600.

§ 614.4250 Production credit associations.

(a) Both secured and unsecured loans may be made in accordance with policies and regulations as prescribed by the district board and the bank. Normally, primary security taken will consist of first liens on personal property and crops. While it is not intended that associations will ordinarily make first lien real estate mortgage loans to farmers, real estate or other security may be taken when deemed necessary for the protection of the association in making short- and intermediate-term loans for eligible purposes. Before taking a real estate mortgage, the association shall consider whether all or a portion of the credit needs might be met more satisfactorily by a real estate mortgage loan such as may be obtained through a Federal land bank association, in accordance with district board policies established under § 614.6020.

(b) Recovery value shall be the basis for measuring the collateral worth of security. However, the value of interest in real estate which constitutes primary security shall be the appraised value as determined within approved appraisal standards.

§ 614.4260 Banks for cooperatives.

Banks for cooperatives are authorized to make both secured and unsecured loans.

(a) Term loans may be secured or unsecured depending on the purpose, repayment period, and other credit factors. However, as a general practice loans scheduled for repayment over an extended period should be secured.

(b) Regular seasonal loans may be secured or unsecured.

(c) Seasonal loans made to finance commodities and qualifying for special interest rate (where applicable) and lending limit consideration shall be secured. Loans secured by a chattel mortgage, factor's lien, security agreement, or security other than warehouse receipts or other title documents shall not exceed 65 percent of the net value of unhedged or 85 percent of the net value of hedged commodities and the borrower must have sufficient working capital to keep the loan properly margined. Loans secured by warehouse receipts or other title documents shall not exceed 75 percent of the unhedged net value of the commodity or 90 percent of the hedged net value and the borrower must have sufficient working capital to keep the loan properly margined.

(1) "Commodities" shall consist of goods and merchandise except for live animals which are transportable; can be accurately classified by standards of quality and quantity; and enjoy broad regional, national, or international markets within which similar items are regularly traded and the value thereof readily and regularly determined.

(2) A hedge will be considered valid if it is an enforceable contract with a reliable third party and includes point of delivery, time or period of delivery, quality, quantity, and price as specifications binding on the purchaser. Seller options will not generally invalidate the hedge classification unless of the nature to invalidate the entire contract. If options are provided the purchaser under the contract, the hedge value of the contract will be the worse combination of options.

(3) Trust receipts, negotiable bills of lading, shipping documents, drafts and acceptances may be accepted in such amounts and for such periods as reasonable prudence permits as necessary to allow the orderly marketing, handling, or processing of the commodities.

(4) Documents required in conjunction with these loans may be held by a custodian selected by the bank. In such cases the bank shall provide the custodian written instructions outlining procedures and practices to be followed in acceptance, handling, and release of all related documents. In addition, the bank shall provide for periodic review of custodian activities by bank officials and shall establish that activities of the custodian are subject to review and audit by the Farm Credit Administration.

§ 614.4261 Security and appraisal standards—bank for cooperatives.

Written security and appraisal standards shall be prepared and employed, where applicable, by each bank for cooperatives and approved by the Farm Credit Administration. Although some limited properties securing bank standards apply, much of the security is in the form of special use facilities where values may need to be based either on going concern value related in large measure to earnings and cash flow or, if not profitable—salvage value.

Subpart H—Interest Rates and Charges

§ 614.4270 Policy.

In setting rates and charges, it shall be the objective to provide the types of credit needed by eligible borrowers at the lowest reasonable cost on a sound business basis, taking into account the cost of money, necessary reserves and expenses, capital requirements, and services provided to borrowers and members.

§ 614.4280 Interest rates.

Loans (and discounts) made by each bank shall bear interest at a rate or rates as may be determined by the bank board with the approval of the Farm Credit Administration. Requests to Farm Credit Administration for interest rate plans or interest rate adjustments shall include justification for the plan or change.

§ 614.4290 Interest on past due loans.

Provisions may be made in the approved interest rate programs of banks and production credit associations for the collection of interest at a higher rate after maturity of a loan or installment if provision is made in the note or loan document.

§ 614.4300 Other charges and fees.

Banks and associations may impose reasonable charges or fees to members, borrowers, or applicants in connection with loans or other services rendered. Fees charged by the associations shall be subject to bank approval.

§ 614.4310 Interest rate limitation for Federal intermediate credit banks only.

The rate of interest charged borrowers on notes or other obligations that a Federal intermediate credit bank may purchase, discount, or accept as collateral for loans shall not exceed by more than 4 percent per annum the lending rate of the bank which was in effect at the time the loan was consummated. Notes with provisions for a payment of interest on other than a simple interest basis (add-on, interest after maturity, etc.) may be accepted provided that the effective simple interest rate to the borrowers does not exceed such maximum.

§ 614.4320 Production credit associations.

The rate of interest charged by an association shall be the rate authorized by the bank, within programs prescribed by the bank board and approved by the Farm Credit Administration. Interest shall be charged on loans for the actual number of days such loans are outstanding unless a different method is authorized by such programs.

§ 614.4321 Interest rate programs.

The following types of interest rate programs may be employed by banks and production credit associations.

(a) Fixed rates: The rate of interest specified in the note or loan document shall prevail as the maximum rate chargeable to the borrower during the period of the loan.

(b) Variable rates: The interest rate(s) on outstanding loan balances may be changed from time to time during the period of the loan, if provision is made in the note or loan document.

(c) Fixed interest spread: Interest rates shall be expressed in terms of a percentage to be added to the cost of money to the bank or association.

(d) Differential rates may be established for different classes of loans based on the type, purpose, amount or quality of loan or any combination of these applicable factors. When the differential rate is based primarily on the amount of the loan, in order to provide equitable treatment between borrowers, the rate or rates may provide for a uniform rate up to a predetermined amount or amounts and a lower rate or rates on larger unpaid amounts. For clarification to the borrower, the above may be accomplished through the use of a blended rate.

Subpart I—Loan Participations

§ 614.4330 General.

Under policies prescribed by the boards of directors of the respective banks and approved by the Farm Credit Administration, Farm Credit banks and production credit associations may enter into loan participation programs to enable joint financing of eligible individuals or other legal entities meeting the lending standards of banks and associations. The program shall require that loan participation agreements define the provisions for disbursement and repayment of loan funds; sharing, division or assignment of collateral; the loan service plan; collection procedures; authorizations and conditions for action in the event of default by the borrower; sharing loss; conditions for termination of the agreement and any other applicable items. In lieu of executing separate notes and other legal documents, the participating institution may purchase certificates evidencing an equivalent legal participation interest in such loans. The amount of the loan held by an individual bank or association shall be subject to any prior approval requirements for that bank or association.

§ 614.4331 Federal land banks.

The banks may enter into loan participation agreements with one or more other Federal land banks under terms established by the participating banks.

§ 614.4332 Federal intermediate credit banks.

The banks may enter into loan participation agreements with one or more other Federal intermediate credit banks or with production credit associations under terms established by the participating institutions.

§ 614.4333 Production Credit Associations.

The associations may enter into participation agreements with one or more other production credit associations or with commercial banks and other lenders. All such agreements shall be subject to the prior approval of the Federal intermediate credit bank of the district. In addition to the provisions contained in § 614.4330, participation agreements between production credit associations and commercial banks or other lenders shall be subject to the following limitations:

(a) The association shall reserve the right to decline participation in any loan offered.

(b) Provisions restricting the association from providing full financing for the borrowers should be avoided. The agreement may, however, restrict either party soliciting full financing for these borrowers.

(c) To assure that such a participation agreement does not result in a commercial bank's substantially shifting its lending away from agriculture, the participating commercial bank shall fulfill one of the following; (1) retain at least 50 percent of the total of each participated loan, (2) retain at least 10 percent of the total of each participated loan provided that the commercial bank does not materially reduce its ratio of agricultural loans to total loans from the ratio maintained during the preceding 3 years, or (3) retain the maximum amount of the participated loan permitted by banking regulations to which the bank is subject.

(d) A lender other than a commercial bank shall provide evidence of financial responsibility and capability to service and control loans being made as a prerequisite to approval of a loan participation agreement.

(e) A copy of such participation agreements shall be forwarded to the Farm Credit Administration upon execution.

§ 614.4334 Banks for cooperatives.

A district bank for cooperatives shall first offer to the Central Bank for Cooperatives a participation in loans to a borrower when such loans exceed the lending limit of the bank. With the concurrence of the central bank, participations in loans in excess of a bank's lending limit may also be offered to, first, to other banks of cooperatives, then to commercial banks or other financial institutions. A bank for cooperatives may offer a participation to other banks for cooperatives in loans which are less than its lending limit; however, when total loans to such borrowers exceed the lending limit of the bank, further loans must first be offered to the central bank. Loans in excess of the lending limit established by the Farm Credit Administration for the banks for cooperatives on a consolidated basis may be made only when such excess amounts are sold as participations to a commercial bank or other financial institution. The form of each participation agreement shall be subject to Farm Credit Administration approval. The names of participants, amounts, and dates shall not require approval.

Subpart J—Loss Sharing Agreements

§ 614.4340 General.

With approval of the boards of directors of the respective banks, Farm Credit banks and associations may enter into agreements of the types specified below with other institutions chartered under the same title of the Act for mutually sharing losses resulting directly or indirectly from their lending operations. The loss sharing agreements shall cover but are not limited to terms and conditions for activation and dissolution, definition of terms, determination of loss sharing formula, limitations on required contributions, reimbursements, and provisions for amendment. All loss sharing

V 37-71
APR 12 72
XUM

agreements, shall be subject to Farm Credit Administration approval.

§ 614.4345 Guaranty agreements.

In lieu of loss sharing agreements, with approval of the Farm Credit Administration, banks or associations may enter into guaranty agreements wherein one or more other banks or associations agree to assume a percentage of the risk associated with specific loans.

Subpart K—Lending Limits

§ 614.4350 General.

No Farm Credit Bank or association shall make a loan, advance, or commitment which will result in any one borrower being obligated to such bank or association in excess of limits stated herein. When these limitations are approached, banks or associations should consider the feasibility of arranging participation in large loans with other banks or associations to properly serve the credit needs of deserving large borrowers. Except as provided in § 614.4353, the limitations shall not apply where the bank or association participates in a loss sharing agreement or has obtained other bank or association guaranty adequate to absorb the increased risk.

§ 614.4351 Federal land bank.

The lending limit is 20 percent of the capital and surplus of the lending bank.

§ 614.4352 Federal intermediate credit banks.

A Federal intermediate credit bank as a maker in participation with a production credit association or other Federal intermediate credit bank, shall have a limit of 20 percent of the capital and surplus of the participating banks.

§ 614.4353 Production credit associations.

Production credit associations until December 31, 1972, shall have a lending limit (including participations) of 50 percent of the capital and surplus of the lending association. A lending limit of 100 percent of the capital and surplus of the lending association shall apply whenever an approved loss sharing agreement is in force.

§ 614.4354 Banks for cooperatives.

Banks for cooperatives shall have the following limits until December 31, 1972.

(a) *District banks.* Loans outstanding at any one time to any one borrower, shall be limited to the following percentages of the net worth of a district bank as of the end of the preceding fiscal year or at an interim date determined by the Farm Credit Administration as a result of material changes in the bank's net worth.

(1) Term loans, 25 percent.

(2) Seasonal loans exclusive of loans secured by approved commodities, 25 percent.

(3) Seasonal loans secured by approved commodities (excluding loans secured by Commodity Credit Corporation documents), 45 percent.

(4) The sum of term and seasonal loans exclusive of seasonal loans secured by approved commodities, 25 percent; the sum of term, seasonal and seasonal loans secured by approved commodities (excluding loans secured by Commodity Credit Corporation documents), 45 percent. Loans made within the established lending limits that become excessive because of a subsequent decrease in the bank's net worth should be reduced to the lending limit in an orderly manner over a reasonable period. The Farm Credit Administration may prescribe special lending limits in writing in unusual situations.

(b) *Central Bank for cooperatives.* Loans outstanding at any one time to any one borrower, exclusive of seasonal loans secured by approved commodities or loans financing commodities within the limits of Government price support programs, shall be limited to 40 percent of the net worth of the bank as of the end of the preceding fiscal year or at an interim date determined by the Farm Credit Administration as a result of material changes in the bank's net worth.

(c) *Thirteen banks for cooperatives.* Loans outstanding at any one time to any one borrower from the 13 banks for cooperatives, exclusive of participations sold to institution(s) other than the cooperative bank system, shall not exceed 35 percent of the consolidated net worth of the banks without approval of the Farm Credit Administration.

§ 614.4360 Computation of obligation for lending limit determination.

(a) Participation loans shall be included in the computation by a bank or association only to the extent of the amount of participation which that bank or association holds.

(b) The obligation of an individual shall be the total unpaid principal of indebtedness to the bank or association for which the individual is liable as a direct borrower, as a result of being guarantor, endorser or maker on loans to other individuals or legal entities, or as a result of drafts, accounts, contracts or purchases owned.

(c) The obligations of a legal entity shall be the total unpaid principal of indebtedness to the bank or association for which the entity is obligated as a direct borrower as a result of being guarantor, endorser, or maker on loans to individuals or other legal entities or as a result of drafts, accounts, contracts, or purchases owed unless the lending bank or association can after a thorough credit evaluation of the principal maker of the endorsed or guaranteed obligation certify in writing that such original maker can reasonably be depended upon for repayment of the guaranteed or endorsed obligation.

Subpart L—Rural Housing Loans

§ 614.4370 General policy.

Loans to rural residents shall be made on a sound basis and in no event shall exceed 85 percent of the appraised value of the real estate. The foregoing shall not prohibit protecting the security position by advancing taxes or insurance premiums. When the rural residence is a mobile home, the appraised value shall include interest in land and the mobile home. In establishing lending policies all Farm Credit institutions shall give consideration to lending practices and terms used by other responsible lenders in the area.

§ 614.4380 Lending limitations.

(a) Rural residence lending in a district may be implemented only with the approval of the district board. The implementation at the association level is within the discretion of the association board.

(b) When rural housing loans have been approved by the district boards and individual association boards, each district board shall prescribe a policy which will assure that rural residence loan service is made available to eligible borrowers of these associations.

(c) No Federal land bank may at any time have rural residence loans in an amount exceeding 15 percent of the total of all loans outstanding. No production credit association may have outstanding rural residence loans in an amount exceeding 15 percent of its total loans outstanding at the end of the preceding fiscal year without prior approval by the Federal intermediate credit bank of the district, nor shall the aggregate of such loans exceed 15 percent of the outstanding loans of all associations in the district at the end of the bank's preceding fiscal year.

(d) Whenever any Federal land bank association or production credit association exceeds 15 percent of its total loan volume in rural residence loans, the respective bank board shall require the bank to make periodic reviews to assure that farmers' credit needs are being adequately served in accordance with objectives of the Act.

(e) Should circumstances arise which curtail loan funds for the System, then loan funds for agriculture shall receive priority to the exclusion of funds for rural housing loans.

§ 614.4390 Appraisal of security.

(a) Appraisal standards and procedures for rural residences shall be established by the banks subject to approval by the district board and the Farm Credit Administration. In setting appraisal standards, consideration shall be given to location, community standards, home advantages, employment opportunities, transportation facilities available and future outlook for the area. Such valuation of the property shall reflect accurately the current market value.

(b) Bench marks will be established on appropriate rural residences with values based on verified sales of similar properties.

(c) A procedure for classifying security and area shall be a basic part of the appraisal process.

(d) The same appraisal standards, and forms and procedures shall be used by both Federal land bank associations and production credit associations.

§ 614.4400 Security requirements.

When financing nonfarm rural housing, the primary security shall be a first lien on the rural residence being constructed, purchased, or refinanced. Loans for repairs and improvements usually will be secured by a real estate lien or such other security as is determined to be necessary to protect the lender.

§ 614.4410 Loan terms and conditions.

The banks, subject to the approval of the district boards and the Farm Credit Administration, shall establish policies for making and servicing of rural residence loans according to the following guidelines:

(a) Loans on rural residences shall be amortized and loan terms shall not exceed 30 years when made by a Federal land bank and 7 years when made by a production credit association. To qualify for a rural housing loan from a production credit association, an applicant shall conclusively demonstrate his ability to repay such a loan within a 7-year maturity. No final balloon or renewal payment plan will be permitted which will have the effect of extending the maturity beyond 7 years or 30 years for production credit associations and Federal land banks respectively.

(b) Monthly payment plans shall be required on all such loans unless there is a justifiable reason for a different type of repayment plan.

(c) Loan servicing policies shall encourage the orderly retirement of each rural residence loan as scheduled, and procedures for handling the delinquency of such loans shall recognize the inherent differences between agricultural and rural residence lending.

§ 614.4420 Loan closing requirements.

Uniform rules and regulations regarding the closing of rural residence loans shall be prescribed by the supervising banks. In developing such rules and regulations, consideration should be given to any legal or other requirements necessary to assure that the interests of both the borrower and lender are fully protected. Consideration should be given to provisions for payment of taxes and insurance, establishment of fee schedules, inspection procedures, disbursement and insurance, disbursement of trust funds, construction loan agreements, surety bonds for contractors and compliance with local health, environmental, zoning and code requirements.

§ 614.4430 Identification of rural housing loans.

The district board shall adopt a policy and the banks shall issue procedures, subject to approval of the Farm Credit Administration, which identify all loans made under the rural housing authorization. This identification should be made in such a manner as to provide for an analysis of rural housing lending costs, loss experience, delinquencies and contributions to earnings for purposes of guidance in establishing interest rates and the determination of dividends as well as to clearly delineate security requirements between farms and rural residences.

(a) In making such identification, the distinction between a rural residence and a farm shall be on the basis of the capacity of the security to produce agricultural income. The agricultural operation, if any, on a rural residence security will be considered to be in a range from no production to the growing of produce for home use with occasional token cash sales. A farm will be considered to be a property which has the capacity to produce farm products for sale on a sustained basis.

(b) Any loan made on security so identified as a rural residence shall be included in the 15 percent limitation.

Subpart M—Notice of Action and Appeals

§ 614.4440 Notice of action on loan application.

Every applicant for a loan from the Farm Credit System is entitled to a prompt notice of action on his application and, if the loan is denied or reduced, the reason for such action.

§ 614.4441 Applicant's right to appeal.

An applicant who has reason to believe he was denied credit or was offered credit in a reduced amount because the lender failed to take into account facts pertinent to his application, or misinterpreted or failed to properly apply the rules and regulations governing his application shall be entitled to an informal hearing. That informal hearing shall be in person before the loan committee, or officer, or employee thereof authorized to act on that application. The applicant must make the request for such a hearing in writing within 30 days of notice of the original action. Promptly after such a hearing he shall be notified of the decision reached and the reasons therefor.

§ 614.4442 Records.

Associations or banks shall maintain a complete file of all such written requests for hearing, along with all other written inquiries from applicants or borrowers concerning credit denials.

Subpart N—Loan Approval Requirements

§ 614.4450 General requirements.

Authority for loan approval is primarily vested in the Farm Credit banks and associations. However, to provide proper supervision of the System's lending functions the Act vests in the Farm Credit Administration the authority to prescribe the types and classes of loans which can only be made with the prior approval of the Farm Credit Administration or the respective banks.

§ 614.4490 Federal land bank and production credit association loans requiring prior approval.

(a) Until December 31, 1972, the following loans shall be subject to the prior approval of the bank and the Farm Credit Administration.

(1) Any land bank loan which will result in any one borrower being obligated, in total loan commitment on all loans to a bank in excess of $400,000.

(2) Any production credit association loan which will result in any one borrower being obligated, in total loan commitment on all loans to the association in an amount in excess of 35 percent of the association's capital and surplus.

(3) Loans described in § 613.3020(d) of this chapter shall be submitted for ruling on the eligibility of the applicant.

(4) Loans described in § 614.3030(c).

(b) The following shall be subject to the prior approval of the appropriate bank board:

(1) Loans to a member of the Federal Farm Credit Board.

(2) Loans to a member of the district board.

(3) Loans to an officer or employee of a bank.

(4) Loans to an employee of the Farm Credit Administration.

(5) Loans to any borrower where officers or employees designated above: (i) Are to receive proceeds of the loan in excess of an amount prescribed by the appropriate bank board and approved by the Farm Credit Administration, or (ii) are stockholders or owners of equity in a legal entity to which a loan is to be made wherein they have a significant personal or beneficial interest in the loan, the proceeds thereof or the security.

(c) The following shall be subject to the prior approval of the district bank:

(1) Loans to a member of an association board.

(2) Loans to an employee of an association.

(3) Loans to any borrower where directors or employees designated above: (i) Are to receive proceeds of the loan in excess of an amount prescribed by the appropriate bank board and approved by the Farm Credit Administration, or (ii) are stockholders or owners of equity in a legal entity to which a loan is to be made wherein they have a significant personal or beneficial interest in the loan, the proceeds thereof or the security.

(4) Any Federal land bank loan which will result in any one borrower being obligated, to the bank in excess of an amount established by the bank board.

(5) Any production credit association loan which will result in any one borrower being obligated, in total loan commitment on all loans in an amount in excess of 15 percent of the association's capital and surplus.

§ 614.4500 Bank for cooperative loans requiring Farm Credit Administration prior approval.

(a) Where commitments are being made to first-time borrowers when the line of credit is $1 million or more and either the borrower is a newly created entity or the type of activity to be financed is an enterprise which the bank has not previously financed in the district.

V 37 71 APR 12 72 XUM

(b) Where a borrower is specifically designated as a "prior approval account" by the Farm Credit Administration.

(c) A term loan for which the final repayment (including the projected amortization of any "balloon payment") is for a period longer than 20 years from the date of the first advance.

§ 614.4501 Bank for cooperative loans requiring Farm Credit Administration post review.

(a) Where a member of the district bank, or central bank board of directors or a member of the Federal Farm Credit Board is the chief executive officer or principal financial officer of the borrowing cooperative.

(b) Where a member of the district bank, or central bank board of directors, a member of the Federal Farm Credit Board, or an employee of the bank or the Farm Credit Administration holds 10 percent or more of the voting stock of the borrowing cooperative or provides more than 10 percent of the cooperative's volume of business.

(c) Where a member of the district bank, or central bank board of directors, a member of the Federal Farm Credit Board, or an employee of the bank or Farm Credit Administration is an officer or director of a borrowing cooperative whose loans are classified less than those of the highest quality classification.

(d) Where a borrower is specifically designated as a "post review account" by the Farm Credit Administration.

Subpart O—Loan Servicing Requirements

§ 614.4510 General.

The banks and associations that are primary lenders shall be responsible for the servicing of the loans which they make. The boards of directors shall direct the banks and associations to adopt loan servicing policies and procedures to assure that loans will be serviced fairly and equitably for the borrower while minimizing the risk for the lender. Procedures shall include specific plans which help preserve the quality of sound loans and which help correct credit deficiencies as they develop.

(a) The Federal land bank shall provide guidelines for the servicing of loans by the Federal land bank associations. The servicing may be accomplished either under the direct supervision of the banks or under delegated authority.

(b) The Federal intermediate credit bank shall provide guidelines for the production credit associations to use in establishing their loan servicing policies and procedures plus any limitations requiring approval of the bank. Bank policies shall govern the servicing of loans in which the bank is a direct maker via participation with a production credit association.

(c) The bank for cooperative policies shall govern the servicing of loans made by the bank separately, in participation with other banks for cooperatives or other lenders.

(d) In the development of the bank and association policies and procedures, the following criteria shall be included.

(1) *Ther loans.* The objective shall be to provide borrowers with prompt and efficient service with respect to justifiable actions in such areas as: Personal liability, partial release of security, insurance requirements or adjustments, loan division or transfers, conditional payments, extensions, deferments or reamortizations. Procedures shall provide for adequate inspections, reanalysis, reappraisal, controls on payment of insurance and taxes (and for payment when necessary), and prompt exercise of legal options to preserve the lender's collateral position or guard against loss. The policy shall provide a means of forebearance for cases when the borrower is cooperative, making an honest effort to meet the conditions of the loan contract and is capable of working out of the debt burden.

(2) *Operating loans.* The objective shall be to service such loans to assure disbursement in accordance with the basis of approval, repayment from the sources obligated or pledged and to minimize risk exposure to the lender. Procedures shall require: (i) The procurement of periodic operating data essential for maintaining control, for the proper analysis of such data, and prompt action as needed; (ii) inspections, reappraisals, and borrower visits appropriate to the nature and quality of the loan; (iii) controls on insurance, margin requirements, warehousing, and the prompt exercise of legal options to preserve the lender's collateral position and guard against loss. The policy shall provide a means of forebearance for cases when the borrower is cooperative, making an honest effort to meet the conditions of the loan contract and is capable of working out of the debt burden.

(3) *Legal entity loans.* In addition to the foregoing servicing objectives for term and operating loans, procedures for servicing these loans shall require procurement of data on changes in ownership, control, and management; review of business objectives, financing programs, organizational structure, and operating methods, and appropriate analysis of such changes with provision for action as needed.

(4) *Approved policies.* Copies of the bank loan servicing policies required under this Subpart O and all subsequent revisions shall be furnished to the Farm Credit Administration.

§ 614.4511 Federal land bank associations compensation.

Compensation may be paid to an association up to an amount which, in the judgment of the bank, represents the value of the services being rendered for the bank. The compensation plan is subject to the approval of the bank board and the Farm Credit Administration.

§ 614.4512 Compromise of indebtedness.

Because of the vested borrower ownership interested in the cooperative Farm Credit System, no compromise settlement of borrower indebtedness shall be made unless it can be determined from an analysis of all the facts and legal aspects that a compromise settlement results in the greatest net return to the lender. Bank boards shall set policies covering the limited instances where compromise settlements can be permitted. These policies shall include approval limits for the bank and associations. Compromise settlements beyond these limits shall require bank board approval.

Subpart P—Special Lending Programs

§ 614.4520 General.

(a) To provide the best possible credit service to farmers, a district board may adopt policies permitting banks and associations to enter into agreements with agents, dealers, cooperatives, other lenders, and individuals to facilitate the making of loans to eligible farmers and ranchers, subject to approval by the bank.

(b) Federal land banks: A bank, or an association with bank approval, may enter into agreement which will accrue to the benefit of the borrower and lender which allows others to perform functions in loan making or servicing other than the evaluation and approval of loans. When such an agreement is developed, and the territory covered by the agreement extends outside the territorial limits of the originating association or bank, a permissive agreement from all affected banks or associations is required. Reasonable compensation may be paid for services rendered.

(c) Production credit associations may enter into agreements with private dealers or cooperatives permitting them to take applications for loans from the association to purchase farm equipment, supplies, and machinery. Such agreements shall normally be limited to persons or businesses selling to farmers or ranchers and shall contain credit limits consistent with sound credit standards. When the sales territory of a dealer or cooperative extends outside the territory of the originating association, or the Farm credit district, agreement of all banks and associations affected shall be obtained before making such loans. Reasonable compensation may be paid to a dealer or cooperative for services rendered in connection with such programs.

(d) Subject to the approval of the respective bank's board of directors, Federal land banks, Federal intermediate credit banks, banks for cooperatives and production credit associations may enter into memorandums of understanding among themselves or with other lenders for the simultaneous processing and closing of loans to a mutual borrower. The basic policies and principles of each lender shall apply.

§ 614.4530 Special loans, production credit associations.

Under policies approved by the bank board and procedures developed by the bank, production credit associations may make the following special types of loans on commodities covered by price support programs. Nothwithstanding the regulations covering other loans made by an association, loans may be made to members on any commodity for which a Commodity Credit Corporation price support program is in effect, at such rate of interest and upon such terms as the bank board may prescribe subject to the following conditions:

(a) The commodity offered as security for the loan shall be eligible for price support under a Commodity Credit Corporation price support program and shall be stored in a bonded public warehouse, holding storage agreement for such commodity approved by Commodity Credit Corporation.

(b) The member shall have complied with all Commodity Credit Corporation eligibility requirements.

(c) The loan shall mature not later than 30 days prior to the expiration of the period during which the Commodity Credit Corporation loan or other price support may be obtained on the commodity and shall be secured by pledge of negotiable warehouse receipts covering the commodity.

(d) The borrower shall appoint the association as his attorney-in-fact to obtain a Commodity Credit Corporation loan (or other such price support as is available) in the event that the borrower fails to do so prior to maturity or repayment of the loan.

Subpart Q—Federal Intermediate Credit Bank Financing of Other Financing Institutions

§ 614.4540 General.

The Federal intermediate credit banks are authorized to discount for, or purchase from commercial banks and other financial institutions, with their endorsement or guaranty, notes and other obligations for loans which have been made for agricultural purposes. No paper shall be purchased from or discounted for a commercial bank, trust company or savings institution if the amount of such paper added to the aggregate liabilities of the institution, exclusive of deposit liabilities, exceeds the lower of the amount of liabilities of the institution permitted under the laws of the jurisdiction creating the institution, or twice the paid-in and unimpaired capital and surplus of the institution. No paper shall be purchased from or discounted for any other financial institution if the amount of such paper added to the aggregate liabilities of the institution exceeds the lower of the amount of liabilities permitted under the laws of the jurisdiction creating the institution, or 10 times the paid-in and unimpaired capital and surplus of the institution. Hereafter, in this part the term "other financing institution" means all financing institutions eligible to borrow from or discount paper with a Federal intermediate credit bank other than institutions of the Farm Credit System.

§ 614.4550 Financing responsibility of the Federal intermediate credit banks regarding other financing institutions.

It is the responsibility of the banks to provide a continuing dependable source of production financing to eligible farmers and ranchers in their districts. The banks shall attempt to meet this responsibility to agricultural producers by assuring to the extent possible the viable institutions actively involved in extending credit to such producers have adequate loan funds with which to perform their function. Therefore, consideration shall be given in cases in which other financing institutions applying for the discount privilege from banks present persuasive evidence that they are unable to meet legitimate needs of their farmers eligible and rancher clientele without access to the discount privilege.

§ 614.4560 Criterial which shall be used to determine whether a discount relationship should be established with an applicant other financinng institution.

(a) Approval of an application for access to the discount privilege from any other financing institution shall be subject to proof that there is a continuing need for such discounts to permit the applicant to continue to serve the volume of agricultural loans at least equal to its average volume of such loans for the past 3 years and that the need is not the result of denial or restrictions on discount privileges or other means of obtaining lendable funds customary available to it. The application shall also establish a sufficiency of each of the following:

(1) Capital structure to support an economically feasible lending operation.

(2) Actual or potential loan volume to permit a reasonably efficient lending operation.

(3) Institution capability, including staff experience and expertise, to extend and administer the volume of lending anticipated on a sound basis.

(b) Approval of an application from a commercial bank or agricultural credit corporation affiliated with a commercial bank shall be further conditioned on the following requirements.

(1) The commercial bank involved as applicant or parent shall have not less than 25 percent of its total loan portfolio in agricultural loans. If this percentage is less than 25 percent, the applicant institution shall serve the credit needs in its rural area, and the application shall be subject to prior approval of the Farm Credit Administration.

(2) Its gross loan to deposit ratio shall be not less than 60 percent at the seasonal peak. For purposes of this measure, gross loans should include all direct credit extension by the institution in its trade area. Such items as Federal funds or broker loans are to be excluded. If the applicant institution has a historical gross loan to deposit ratio of less than 60 percent at the seasonal peak, the application for access to the discount privilege shall be subject to prior approval of the Farm Credit Administration.

(3) The participation approach with the production credit associations is either unavailable or would not be of assistance to the institution in serving the credit needs of its borrowing farmers and ranchers, but the failure of the institution to participate with a production credit association shall not of itself be cause for denial or revocation of borrowing or discount privileges.

(c) Approval of an application from an agricultural credit corporation which is not affiliated with a commercial bank shall be further conditioned on the following requirements.

(1) *Character of business.* It shall be a body corporate engaged in the business of extending short- and intermediate-term credit to farmers and ranchers for agricultural purposes. A concern engaged in the business of manufacturing, merchandising, real estate brokerage, real estate loans, etc. is not eligible to obtain credit from a Federal intermediate credit bank merely because it has the power to make loans to farmers and ranchers and to borrow money. On the other hand, the fact that a corporation has powers not related to agricultural credit or receives income from other sources shall not of itself render it ineligible. Such institutions should be carefully investigated and each case decided on its merits.

(2) *Compliance with statutes.* It shall comply with State laws applicable to it. Violations of State laws will be cause for revocation by the bank of the borrowing and discounting rights of any other financing institution which does not promptly rectify such conditions upon notice from the bank. Special attention shall be given to the institutions' articles of incorporation and bylaws, capital stock and other securities transactions and, in the case of foreign corporations, evidence will be required that it has complied with the laws of each State in which it operates.

(d) In dealing with any other financing institution which is affiliated with a cooperative (through stock ownership, management, interlocking directorates or otherwise), the bank will consider the possible effects of such relationship on the operations and credit policies of the applicant corporation. A financing corporation which is a subsidiary of or affiliated with a farmers' cooperative and is otherwise eligible to borrow from and discount with a Federal intermediate credit bank may qualify to discount with its endorsement or borrow on the security of notes of farmers and ranchers (as distinguished from notes of cooperatives), evidencing loans to finance the cost of supplies, equipment or services obtained from such affiliated cooperative, if the bank board finds that an additional source of credit is needed to facilitate financing of such transactions and the primary benefits of such credit will inure to the borrowing farmers and ranchers.

§ 614.4570 Utilization of the discount privilege.

(a) The other financing institution shall remain in compliance with the approval criteria enumerated in section 4560 hereof except that another financing institution which has a discount agreement in force with a Federal intermediate credit bank at the effective date

V 37-71
APR 12 72
XUM

of these regulations shall not be required to meet the criteria included under section 4560(b) hereof.

(b) The institution shall maintain reasonable credit quality in its total loan portfolio as well as that credit submitted for discount with the bank.

(c) The institution shall not significantly reduce its agricultural lending activity as a portion of its total credit activity and any substantial increase in the volume of loans tendered to the bank for discount shall be accepted subject to a showing that the increase is a result of the institution's increase in volume of agricultural loans rather than a reduction in the ratio of agricultural loans to nonagricultural loans held by it or to any restriction on its access to other sources of lendable funds.

§ 614.4590 Direct loans to other financing institutions.

A Federal intermediate credit bank is authorized to make loans and advances to other financing institutions, provided that no such loan or advance shall be made on the security of collateral other than notes or other such obligations of bona fide farmers and ranchers as defined in these regulations, unless such loan or advance is made to enable the financing institution to make or carry loans to such bona fide farmers and ranchers for agricultural purposes. In all cases, the amount of collateral required shall be not less than the principal amount of the indebtedness thereby secured.

(a) *Classes of obligations approved as collateral.* The following classes of obligations are approved as collateral for direct loans and advances to other financing institutions.

(1) Obligations of bona fide farmers and ranchers arising from direct credit extension by the financing institution.

(2) Bonds and other direct obligations of the United States.

(3) Federal Farm Loan Bonds and consolidated debentures of the banks for cooperatives.

(4) Soil and water conservation loans and farm ownership loans made under programs administered by the Farmers Home Administration, the payment of which is guaranteed by the United States.

(b) *Purpose of direct loans or advances.* In making loans or advances to any other financing institution on the security of collateral other than that described in (a) of this section, the bank will assure itself that the proceeds of such loans or advances to farmers and ranchers for agricultural purposes.

§ 614.4600 General collateral.

Other financing institutions (except commercial banks), as a condition precedent to borrowing from a discounting with a Federal intermediate credit bank, shall pledge as collateral for any and all obligations to the bank, cash, U.S. Government securities, Federal Farm Loan Bonds, consolidated debentures of the banks for cooperatives, or other readily marketable securities of high rating in an amount equal to such portion of its capital as shall be determined by the bank. At the discretion of the bank, commercial banking institutions may also be required (unless prohibited by law or by supervisory authority) to deposit acceptable collateral. Securities and obligations pledged with the bank shall be deposited under a collateral pledge agreement pursuant to which all securities and obligations so pledged, including all substitutions and additions and the proceeds of any such collateral including all income derived, shall be available to secure any and all obligations to the bank whether direct or contingent, present or future.

§ 614.4610 Filing and recording assignments of security instruments.

Assignments of security interest by other financing institutions may be acceptable by the bank without requiring that such assignments be recorded or filed except where the risk involved or other circumstances surrounding the paper makes recording or filing advisable as a matter of sound credit policy. In lieu of a separate assignment of each instrument, the bank may accept from such institutions a single blanket assignment and an agreement to execute separate assignments to the bank whenever requested by it.

§ 614.4620 Suspension of right to borrow and discount.

In the event a financing institution shall fail to remain in compliance with the requirements for continuation of the discount relationship set forth in § 614.4560, or should the condition or the operations of an other financing institution become otherwise unsatisfactory to the bank, its right to borrow and discount may be withdrawn or suspended by the bank until the noncompliance or unsatisfactory condition is corrected. Should it be determined that the debt to capital ratio of the institution exceeds the legal limits set forth herein, the right of such institution to borrow and discount shall be withdrawn or suspended forthwith and shall so remain until necessary correction has been effected. During any period of suspension no new paper shall be purchased from or discounted for the institution and no further advances shall be made to it pending correction, except to the extent necessary to cover commitments on paper held by the bank or to preserve the security and protect the interest of the bank in obligations held by it. Before making additional advances to any other financing institutions whose right to borrow or discount has been suspended because the ratio of its total liabilities to unimpaired capital and surplus equals or exceeds the maximum permitted under law, the bank shall satisfy itself that the corporation will not violate any applicable law by assuming liability for such additional advances.

§ 614.4630 Credit to other financing institutions in special circumstances.

When a financing institution is in need of funds in excess of the amount that can be made available through normal processes and if for credit reasons a bank is unwilling to discount or purchase a loan offered by such institution for its face amount, it may discount or purchase less than the full amount of the loan. In such transactions the institution shall be required to apply all repayments on the borrower's obligation first, to pay the bank the amount discounted or purchased by it.

§ 614.4631 Alternate method.

In lieu of discounting or purchasing notes which are not acceptable at face value, a bank may accept such paper at a reduced value as collateral security to a direct loan to the borrowing institution under § 614.4590 hereof.

§ 614.4632 Limitation on alternate method.

Use of the partial discount procedure is not intended as a substitute for or as replacing the normal procedure of discounting acceptable paper. Every effort should be made to correct the underlying cause rendering such financing necessary.

§ 614.4640 Insolvency of other financing institutions.

(a) In the event an other financing institution having a discount or financing agreement with the bank becomes insolvent or is in process of liquidation, particularly if it fails to service its loans properly and where supervision or orderly liquidation will be facilitated by direct handling of the obligations of the note makers, the bank may, with the consent of the Farm Credit Administration, take over such paper for orderly liquidation. Notes on other obligations pledged with the bank by an other financing institution, either as collateral for a direct loan or as additional security for any and all indebtedness of the institution to the bank, also may be taken over and handled directly with the makers after a title has been acquired in accordance with the provisions of applicable laws and the terms of the pledge agreements executed by the institution involved. The bank's authority to handle the paper directly includes the authority to make additional advances, to grant renewals and extensions, and to take such other actions as may be needed to work out the problems involved. Direct liquidation of paper carried for an other financing institutions should be resorted to only in cases where other measures have failed, and it is apparent that direct liquidation is the only practicable means available to the bank for protection of its interest.

(b) Paper handled for insolvent other financing institutions as provided in this section shall not be assigned as collateral for debentures and shall be carried in a separate account as provided in the chart and description of accounts for the banks.

(c) On paper which a bank has taken over from a defaulting financing institution for liquidation, interest shall be collected according to the terms of the loans. Renewals of such notes, when directly payable to the bank, shall bear interest at a rate not to exceed the maximum rate that may be charged other financing institutions on paper eligible for discount by the banks at the time of renewal.

§ 614.4650 Prior loan approval.

Any obligation of a borrower accepted for discount or as collateral for a direct loan to an other financing institution shall have the prior approval of the Farm Credit Administration when the total obligations of such borrower of the offering institution exceeds $100,000 or 50 percent of the paid-in and unimpaired capital and surplus of such institution, whichever is larger.

§ 614.4660 General rediscount agreement.

As a condition precedent to making loans to or discounting paper for any other financing institution, the bank will require the corporation desiring such credit to execute a general rediscount, loan and pledge agreement.

PART 615—FUNDING AND FISCAL AFFAIRS

Subpart A—Funding

Sec.
615.5000 General responsibilities.
615.5010 Fiscal agency.
615.5020 Intersystem funds.
615.5030 Borrowings from commercial banks.
615.5040 Borrowings from financial institutions other than commercial banks.

Subpart B—Collateral

615.5050 Policy.
615.5060 Federal land bank loans eligible as collateral.
615.5070 Federal intermediate credit bank loan eligible as collateral.
615.5080 Bank for cooperative loans eligible as collateral.
615.5090 Loss of eligibility or reduction in carrying value of collateral.

Subpart C—Issuance of Bonds, Notes, Debentures, and Similar Obligations

615.5100 Resolution required.
615.5101 Lost, stolen, destroyed, multilated, or defaced consolidated obligations and coupons of the Farm Credit banks.
615.5102 Restrictive endorsements of bearer securities.
615.5103 Loss from payment of spurious debenture.
615.5104 Bonds and debentures as illustrations.

Subpart D—Other Funding

615.5110 Authority to issue.
615.5120 Purchase eligibility requirement.
615.5130 Procedures.

Subpart E—Investments

615.5140 Investment eligibility.
615.5141 Production credit associations.
615.5142 Federal land bank associations.
615.5150 Real and personal property.
615.5151 Additional investments of Federal intermediate credit banks.
615.5160 Production credit association investment in farmers' notes given cooperatives and dealers.

Subpart F—Minimum Investment Requirement

615.5170 The minimum investment requirement shall be comprised of cash and eligible investments, as approved by the Farm Credit Association investment portfolios.

Subpart G—Deposit of Funds

Sec.
615.5190 General.

Subpart H—Net Worth Objective

615.5200 General.
615.5210 Annual budgets and projections.

Subpart I—Debt to Capital Ratios

615.5220 Ratio requirements.
615.5230 Special exception.
615.5240 Production credit associations.

Subpart J—Prescription, Subscription and Retirement of Stock

615.5250 Responsibility.
615.5260 Retirement of capital stock and allocated equities of banks for cooperatives.
615.5270 Purchase of Class B stock of the Federal intermediate credit bank by production credit associations.
615.5280 Equalization of Federal intermediate credit bank class B stock and allocated reserve owned by production credit associations.
615.5290 Purchase of Federal intermediate credit bank participation certificates by other financing institutions.
615.5300 Surrender of Federal intermediate credit bank stock certificates and issuance of new certificates.
615.5310 Lost, destroyed, or stolen Federal intermediate credit bank stock or participation certificates.
615.5320 Retirement of Federal intermediate credit bank class B stock, participation certificates, and allocated legal reserve.

Subpart K—Surplus and Reserves

615.5330 Banks for cooperatives.
615.5340 Land Bank System Reserves for Losses Program.
615.5350 Special reserves of Federal land banks.
615.5360 Special reserves of Federal land bank associations.

Subpart L—Distribution of Earnings

615.5370 Banks for cooperatives earnings.

Subpart M—Payment of Dividends

615.5390 Dividends on equities.
615.5400 Dividends on stock or participation certificates related to farm, rural housing, and farm-related business loans.
615.5410 Federal land banks.
615.5420 Production credit associations.
615.5430 Bank for cooperatives.

Subpart N—Association Supervision

615.5440 General policy.

AUTHORITY: The provisions of this Part 615 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Funding

§ 615.5000 General responsibilities.

To assure continuing public confidence in the high quality of Farm Credit bank securities, whenever each bank of the System on consolidated or Systemwide basis obtains loan funds from the sale of obligations, the maturities, rates of interest, and terms and conditions of each issue shall be subject to approval and shall be signed by the Governor of the Farm Credit Administration and the banks shall be liable thereon. It shall be the responsibility of the finance committees of subcommittees of the banks, in consultation with the fiscal agent, to fix interest rates, terms and conditions of their respective issues. In the exercise of responsibility to supervise the funding of the Farm Credit System, the Governor or a designated representative shall at his discretion be present whenever the maturities, rates of interest and terms and conditions of publicly issued obligations are determined. The Farm Credit Administration should keep the U.S. Treasury informed of all public financing plans and actions by the institutions under its supervision.

§ 615.5010 Fiscal Agency.

(a) The Fiscal Agency of the Farm Credit Banks (authorized under title IV, section 4.9 of the Act) shall be responsible for the marketing of securities, the maintenance of accurate and timely records, and assistance to the banks in the orderly investment of funds. The Fiscal Agency shall conduct funding for the banks at the direction of the appropriate finance committees under the broad policy direction of district boards acting in concert. By resolutions of agreement adopted by the board of each of the banks, appropriate committees may be established for the instruction and direction of the Fiscal Agency.

(b) To provide for an adequate and reliable supply of credit to meet the objectives of this Act and to ensure cooperation and coordination among the institutions of the System, the Farm Credit Administration shall maintain a general and continuing administrative review of the Fiscal Agency of the banks.

§ 615.5020 Intersystem funds.

Whenever practical the banks should borrow or lend interbank or intersystem funds prior to borrowing from commercial banks or other financial institutions.

§ 615.5030 Borrowings from commercial banks.

The bank boards, by resolution, shall authorize all commercial bank borrowings.

§ 615.5040 Borrowings from financial institutions other than commercial banks.

The Farm Credit banks may borrow from other financial institutions, such as insurance companies, Federal agencies, or Federal reserve banks only with the approval of the Farm Credit Administration.

Subpart B—Collateral

§ 615.5050 Policy.

(a) Each bank shall have on hand at the time of issuance of any long-term notes, bonds, debentures, or similar obligations, and at all times thereafter, free from any lien or other pledge, notes and other obligations representing loans made under the authority of the Act, notes of Federal land banks, Federal intermediate credit banks, and banks for cooperatives representing secured interbank or intersystem loans, readily marketable securities approved by the Farm

V 37 71 APR 12 72 XUM

Credit Administration or cash, in an aggregate value equal to the total amount of long-term notes, bonds, debentures, or similar obligations outstanding for which the bank is primarily liable.

(b) However, since by contract with the bondholders specific pledge continues to be attached to collateral for obligations of the Federal land banks, heretofore issued under the Federal Farm Loan Act of 1916 and the Farm Credit Act of 1933, until those obligations are retired, the collateral securing them must be accounted for separately from collateral not specifically pledged in connection with obligations of the banks issued hereafter.

(c) Each bank shall set up procedures, with the approval of its board and the Farm Credit Administration, which will insure that said bank is in compliance at all times with the statutory requirements for maintenance of collateral.

(d) Such procedures should include provisions for safe custody, methods to determine that debt instruments meet all requirements of the Act and regulations and certification by a responsible officer of the institution as to eligibility and adequacy of the amount of collateral pledged.

§ 615.5060 Federal land bank loans eligible as collateral.

(a) Net asset value of notes and other obligations representing loans, purchase money mortgages, or sales contracts made or acquired under these regulations is eligible for collateral. Each such obligation shall be certificated by the bank's attorney that the bank's interest in the security gives the equivalent protection of a first lien.

(b) Net asset value of notes and other obligations means the unpaid balance of valid loans excluding delinquencies (including default taxes, insurance premiums, etc. paid by the bank or association), future payment funds, undisbursed loan funds, trust accounts and other borrower deposits or deferred proceeds. Loans in the process of foreclosure and acquired real estate owned shall be carried at their recovery value, or investment value, whichever is lower.

§ 615.5070 Federal intermediate credit bank loans eligible as collateral.

(a) Direct loans to or discounts for production credit associations, whether secured or unsecured, provided all notes represent loans made by production credit associations to their borrowers, shall be pledged as collateral for their total indebtedness to the Federal intermediate credit bank.

(b) Direct loans to or discounts for other financing institutions, shall also be acceptable.

§ 615.5080 Bank for cooperative loans eligible as collateral.

The value of the unpaid balance of loans to eligible cooperatives is eligible as collateral.

§ 615.5090 Loss of eligibility of reduction in carrying value of collateral.

When the Farm Credit Administration informs a bank that approval has been modified or withdrawn with respect to certain items found not to conform to the appraisal or loan standards prescribed, or any loan has been classified as an actual or potential loss, the bank shall adjust the carrying value of its pledged collateral accordingly or withdraw the loan(s) from collateral.

Subpart C—Issuance of Bonds, Notes, Debentures and Similar Obligations

§ 615.5100 Resolution required.

The bank boards shall, by resolutions, authorize the issuance of long-term notes, bonds, debentures or similar obligations in such amounts as may be required to meet bank's needs. Each such resolution shall specify the maximum amount of obligations which shall be outstanding at any one time and authorize the executive committee or appropriate officers of each bank to do all things necessary and proper to participate in such issues.

§ 615.5101 Lost, stolen, destroyed, mutilated or defaced consolidated obligations and coupons of the Farm Credit banks.

(a) *Basis of relief.* The statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, governing relief on account of the loss, theft, destruction, mutilation or defacement of U.S. securities, and the regulation of the Treasury Department, now or hereafter in force, governing the payment of mutilated or defaced coupons of U.S. securities, insofar as such statutes and regulations may be applicable, and as modified to relate to the consolidated obligations of the Farm Credit banks and coupons of such obligations shall govern the granting of relief on account of lost, stolen, destroyed, mutilated or defaced consolidated obligations of the Farm Credit banks and mutilated or defaced coupons of such obligations.

(b) *Claims and proof of loss.* Claims shall be presented, and proof shall be made, by applicants for relief on account of the loss, theft, destruction, mutilation or defacement of consolidated obligations of the Farm Credit banks and the mutilation or defacement of coupons of such obligations, in accordance with the statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, with respect to securities of the United States, and coupons of such securities.

§ 615.5102 Restrictive endorsements of bearer securities.

When consolidated obligations of the Farm Credit banks are being presented to Federal Reserve banks or branches, or to the Treasurer of the United States, by or through banks (including Farm Credit banks) for redemption, such obligations may be restrictively endorsed. The restrictive endorsement shall be placed thereon in substantially the same manner and with the same effects as prescribed in U.S. Treasury Department regulations, now or hereafter in force, governing like transactions in U.S. bonds; and consolidated obligations of the Farm Credit banks so endorsed shall be prepared for shipment and shipped in the manner prescribed in such regulations for United States bonds. (See 31 CFR 328.1–328.6)

§ 615.5103 Loss from payment of spurious debenture.

Each of the 12 Federal intermediate credit banks agreed, by resolution adopted by its board of directors in 1963, to share in any loss resulting from the payment of counterfeit, forged, or unauthorized debentures. The agreement provides that such loss shall be shared by all of the banks in the same ratio as their respective participations in debentures issued during the 12 months preceding the date of payment of such counterfeit, forged, or unauthorized debentures.

§ 615.5104 Bonds and debentures as illustrations.

Illustrations of Farm Credit bonds, debentures and other securities may appear in information and educational materials if printed in black and white, but not in color, and must be less than ¾ actual size or more than 1½ times the actual size of the original security. Motion picture and micro films and slides of such securities are permitted in black and white or color for projection on a screen or for use in telecasting.

Subpart D—Other Funding

§ 615.5110 Authority to issue.

Any Farm Credit bank may issue, pursuant to authority contained in section 4.2(b) as modified by section 4.2(e) of the Act, investment bonds or like obligations other than through the Fiscal Agency if the interest rate is not in excess of the interest allowable on savings deposits of commercial banks of comparable amounts and maturities under Federal Reserve regulation on its member banks.

§ 615.5120 Purchase eligibility requirement.

Purchase of a Farm Credit Investment Bond shall be limited to members of Federal land bank associations and production credit associations, employees of the Farm Credit banks or associations, except bank presidents, and to employees of the Farm Credit Administration, except principal officials. An association member need not be an active borrower. Sale of a nominal number of shares of stock in an association will not satisfy the eligibility requirement. Types of owners may be individuals, partnerships, corporations, unincorporated associations, or fiduciary stockholders.

§ 615.5130 Procedures.

Procedures relating to issuance, pricing, payment of interest, redemption, replacement of lost or stolen bonds and other matters shall be promulgated under the authority of this regulation as operating instructions to banks and associations.

Subpart E—Investments

§ 615.5140 Investment eligibility.

In order to provide the System with investment instruments to support its financial operations, to manage its liquidity portfolios and to invest its excess funds, the following obligations are approved.

(a) Consolidated obligations of the Federal land banks Federal intermediate credit banks and banks for cooperatives.

(b) Direct and full faith and credit obligations of the U.S. Government.

(c) Federal Home Loan Bank notes and bonds.

(d) Federal Home Loan Mortgage Corporation obligations.

(e) Federal National Mortgage Association short-term notes, debentures and participation certificates.

(f) Government National Mortgage Association direct or fully guaranteed obligations.

(g) Farmers Home Administration insured notes.

(h) Tennessee Valley Authority notes and bonds.

(i) Export-Import Bank obligations.

(j) U.S. Postal Service obligations.

(k) Merchant Marine Bonds.

(l) Negotiable certificates of deposit.

(m) Bankers acceptances.

(n) Full faith and credit obligations of a state, municipality, political subdivision, or public agency or instrumentality thereof, when approved by the bank on a case basis within the following limitations: investments in bonds, except revenue obligations, that have been rated A or better (or the equivalent) by a recognized rating service, that mature within approximately 10 years, and are readily marketable.

(o) Other types of obligations authorized by the Farm Credit Administration.

Any eligible investment with a maturity of 12 months or less from the date of pledge shall be valued at face value for collateral purposes supporting bond and debenture issues. Any eligible investment with a maturity of over 12 months from the date of pledge shall be valued at market value for collateral purposes supporting bond and debenture issues.

§ 615.5141 Production credit associations.

Production credit associations shall own such securities, selected from approved investments in § 615.5140, as the supervising bank shall require.

§ 615.5142 Federal land bank associations.

Each Federal land bank association shall invest its available cash funds in excess of the amounts needed to meet its current operating requirements and other obligations in the following:

(a) Consolidated obligations of the Federal land banks, Federal intermediate credit banks, or banks for cooperatives.

(b) U.S. Government securities.

(c) Unsecured obligations of its supervising bank.

(d) Other investments authorized by the bank.

§ 615.5150 Real and personal property.

(a) Real estate and personal property may be acquired, held, or disposed of by all corporate entities of the Farm Credit System for the necessary and normal operations of their business. The purchase or construction of office quarters should be limited to facilities reasonably necessary to meet the foreseeable requirements of the association or associations. Any acquisition which may appear to involve the banks or associations to a substantial degree in real estate or other unrelated business should not be permitted.

(b) The purchase, construction, lease as leasee or sale of Farm Credit bank buildings and appurtenances shall have approval of the Farm Credit Administration. Likewise, purchase, construction, lease as leasee or sale of Federal land bank association or production credit association buildings and appurtenances shall have the approval of the appropriate bank board. It shall be the responsibility of the district board to establish guidelines for use by associations.

(c) The establishment of computer centers and the procurement by lease or purchase of computer systems, replacement equipment, additional components, and data terminals, by Farm Credit institutions shall be subject to prior approval of the Governor.

§ 615.5151 Additional investments of Federal intermediate credit banks.

Federal intermediate credit banks may purchase nonvoting stock and participation certificates of and pay in surplus to production credit associations when authorized by the bank board of directors on a case basis and approved by the Farm Credit Administration.

§ 615.5160 Production credit association investment in farmers' notes given cooperatives and dealers.

(a) In accordance with policies prescribed by the boards of directors of the Federal intermediate credit banks, production credit associations may invest in notes, conditional sales contracts, and other similar obligations given to cooperatives and private dealers by farmers and ranchers eligible to borrow from the association. All such programs developed shall be approved by the Farm Credit Administration before they are implemented.

(b) Such notes and other obligations evidencing purchases of farm machinery, supplies, equipment, home appliances, and other items of a capital nature handled by cooperatives and private dealers will be eligible for purchase as investments.

(c) The rate of interest on such obligations shall not exceed the limitations set forth in § 614.4310 of this chapter when such notes are offered as collateral for a direct loan from the bank.

(d) The total amount which an association may invest in such obligations at any one time shall not exceed 15 percent of the balance of loans outstanding at the close of the association's preceding fiscal year.

(e) All notes in which an association invests shall be endorsed with full recourse against the cooperative or dealer. The association shall contact each notemaker who meets the association's credit standards to encourage him to become a borrower.

Subpart F—Minimum Investment Requirement

§ 615.5170 The minimum investment requirement shall be comprised of cash and eligible investments, as approved by the Farm Credit Administration.

Each banking system, as defined under titles I, II, and III of the Act, shall maintain a minimum investment requirement until December 31, 1972, as follows:

(a) *Federal land banks.* At least 25 percent of capital must be held in cash or eligible investments and at least 5 percent of such capital must be invested in U.S. Government Bonds.

(b) *Federal intermediate credit banks.* Maintain an investment portfolio of interest-bearing obligations in the minimum amount of 10 percent of the monthly average amount of debentures sold on behalf of the bank during the preceding fiscal year.

(c) *Banks for cooperatives.* An amount equal to between 20 percent and 25 percent of the banks' capital stock should, as far as practical, be kept invested in cash or eligible investments, exclusive of class B and C stock of the Central Bank for Cooperatives.

§ 615.5180 Association investment portfolios.

The Federal land banks and Federal intermediate credit banks shall require that each association provide as of June 30 or December 31 a listing of its investment portfolio and their investment objectives. Associations shall own such securities, selected from approved investments in § 615.5140, as the supervising bank shall require. The banks shall assist the associations in the management of their investment portfolios.

Subpart G—Deposit of Funds

§ 615.5190 General.

All institutions of the Farm Credit System may deposit securities and current funds with and receive interest from any member bank of the Federal Reserve System. Associations may deposit funds with their supervising bank or any commercial bank insured by the Federal Deposit Insurance Corporation.

Subpart H—Net Worth Objective

§ 615.5200 General.

Each bank and association board shall establish a net worth objective to serve as a guide for the accumulation and maintenance of a net worth position adequate to reasonably assure the continued financial solvency of each institution and the continuity of its credit service to

V 37-71 APR 12 72 XUM

farmers, but avoiding the accumulation of net worth in excess of those needs. Each bank board shall also establish an association net worth objective program as a guide for the associations in its district.

§ 615.5210 Annual budgets and projections.

Each bank board shall approve for each bank an operating and financial budget for each fiscal year. Each budget shall contain sufficient background information to indicate the principal assumptions and considerations involved in its formulation, detailed pro forma balance sheets, income and expense statements, bank and association programs to achieve net worth objectives and explanation of significant changes from the previous years. Bank boards also shall approve for each bank longer range financial and operating projectons. Approved budgets and longer range projections shall be submitted for review as required from time to time by the Farm Credit Administration.

Subpart I—Debt to Capital Ratios

§ 615.5220 Ratio requirements.

No issue of long-term notes, bonds, debentures, or other similar obligations by a bank or banks, shall be approved if it, together with the amount of other bonds, debentures, long-term notes, or other similar obligations issued and outstanding, exceeds 20 times the capital and surplus of all the banks by the Farm Credit Administration. The term "capital legal reserves and surplus" as used in this section includes capital stock, participation certificates, allocated reserves, surplus and unallocated contingency reserves.

§ 615.5230 Special exception.

A bank may, with approval of the Farm Credit Administration, exceed this ratio for temporary periods if the 20 to 1 ratio for all similar banks will not be exceeded. When such exceptions occur, other like banks of the System shall be advised regarding the basis on which approval was given.

§ 615.5240 Production credit associations.

No loan shall be made to or any paper purchased from or discounted for any production credit association if the amount of such paper added to the aggregate liabilities of the association exceeds 10 times the paid-in and unimpaired capital and surplus of the association.

Subpart J—Prescription, Subscription and Retirement of Stock

§ 615.5250 Responsibility.

(a) The board of directors of each Farm Credit institution shall prescribe in its bylaws the classes of stock and participation certificates to be issued to and subscribed by borrowers and others and how they shall be transferred, converted or retired consistent with the law.

(b) The Governor shall prescribe the initial amount of authorized capital stock for a newly chartered production credit association.

§ 615.5260 Retirement of capital stock and allocated equities of banks for cooperatives.

(a) In case of liquidation or dissolution of a present or former borrower, the bank may, but shall not be required to, retire and cancel at book value, not exceeding par, all or a part of the capital stock or any allocated equity in the bank owned by or allocated to such borrower. Before any such retirements shall be made, the bank shall have reasonable assurance that the liquidation or dissolution is or soon will be completed and the business of the borrower is not being continued under circumstances in which it would be appropriate and feasible for any successor to acquire and hold the investment interests of the present or former borrower in the bank. Retirements under this provision shall be authorized by the bank board.

(b) Where the debt of a borrower to the bank is in default, such bank may, but shall not be required to, retire and cancel all or part of any stock or allocated equities of the bank on which the bank has a lien as collateral for the debt, at the book value thereof, not exceeding par value, in total or partial liquidation of the debt, under any of the following conditions.

(1) The borrower has been declared bankrupt.

(2) The borrower has had a substantial part of its property placed in the hands of a receiver.

(3) The borrower has ceased operations, regardless of whether its charter has been surrendered.

(4) In the judgment of the bank, the indebtedness of the borrower to the bank is uncollectable.

§ 615.5270 Purchase of class B stock of the Federal intermediate credit bank by production credit associations.

(a) When the earnings of the bank are inadequate to met its capital needs, and when feasible to do so with due regard for the circumstances of the associations, the bank board may, by resolution, authorize the bank, with the prior approval of the Farm Credit Administration, to require production credit associations to subscribe for such additional capital as may be needed by the bank. The amount determined shall be allotted, to the nearest full share, among the associations so that the total of all stock owned, including the additional amount to be subscribed for, will be as nearly as owned and to be subscribed for by all associations of the district as each association's average indebtedness to the bank during the immediately preceding 3 fiscal years is of the average indebtedness of all associations to the bank during such period. The "average indebtedness" may be computed on the basis of either average daily balance, or average of beginning and ending monthly balances of such indebtedness for the 3-year period. Each association shall subscribe for stock in the bank so allotted to it. Such subscriptions shall be subject to call and payment therefor shall be made at such times and in such amounts, all as may be determined by the bank.

(b) When making such allotments the bank may transfer, retire or reissue outstanding class B stock among the associations as may be necessary to establish the proportion indicated in the preceding paragraph. Stock that is retired or transferred for this purpose shall first be the stock purchased by the association to the extent it is available unless otherwise approved by the Farm Credit Administration. The bank shall pay the association for all stock so retired or transferred and shall collect therefor from any association to which such stock is transferred or reissued, at the fair book value thereof not to exceed par.

§ 615.5280 Equalization of Federal intermediate credit bank class B stock and allocated reserve owned by production credit associations.

Whenever at the end of any fiscal year of the bank, the relative amounts of class B stock of a bank owned by the production credit associations differ substantially from the proportion provided for in the preceding paragraph and additional subscriptions of class B stock through which such proportion could be reestablished with the prior approval of the Farm Credit Administration. In carrying out its purpose the bank may direct, either separately or in combination, such transfers, retirements, and reissuance of outstanding class B stock among the associations as will reestablish the aforesaid proportion as nearly as may be practicable. Stock that is retired or transferred for this purpose shall first be the stock purchased by the association to the extent it is available unless otherwise approved by the Farm Credit Administration. Stock may be transferred from one association to another and retain its same issue date or series designation. Allocated Reserve owned by production credit associations may be equalized in a like manner.

§ 615.5290 Purchase of Federal intermediate credit bank participation certificates by other financing institutions.

Other financing institutions which are entitled to receive participation certificates from the bank as patronage refunds may also purchase further amounts of such participation certificates with the same rights, privileges, and conditions as those issued as patronage refunds. Upon determination of the bank board, with approval of the Farm Credit Administration, the bank may require other financing institutions to purchase additional capital in the bank to assist the bank in meeting its capital needs. Such required purchases shall be on an equitable basis as determined by the bank board.

§615.5300 Surrender of Federal intermediate credit bank stock certificates and issuance of new certificates.

Upon retirement of any class B stock or participating interest evidenced by an outstanding certificate, the certificate involved shall be surrendered to the bank for cancellation. In case of partial retirement a new certificate shall be issued for the balance not retired, which shall bear the same issue date and series designation, if any, as the canceled certificate. In the event of a transfer of class B stock resulting from mergers or consolidations, or transfer of participation certificates from one holder to another, any new class B stock or participation certificates issued shall bear the same issue dates and series designations, if any, as the original certificates for which new certificates are substituted.

§ 615.5310 Lost, destroyed, or stolen Federal intermediate credit bank stock or participation certificates.

Whenever a class B stock certificate or participation certificate which has been issued by the bank is lost, stolen, destroyed, or so mutilated as to impair its value, the bank may issue in lieu thereof a new certificate which shall bear the same issue date and series designation, if any, upon compliance with the following requirements.

(a) The owner shall furnish an affidavit of loss, acceptable to the bank setting forth the issue date or series, number of shares, and any other information required to establish its identity; a detailed statement of the circumstances surrounding the loss, theft, destruction, mutilation, or defacement of the certificate; and a statement that the affidavit was made for the purpose of obtaining a new certificate. Since class B stock and participation certificates may not be transferred except with the approval of the bank, a bond of indemnity ordinarily will not be required.

(b) If a class B stock certificate or participation certificate which was reported lost, stolen, or destroyed is recovered by the owner, he should notify the bank immediately and if a new certificate was issued, the owner shall promptly return the old certificate to the bank.

§ 615.5320 Retirement of Federal intermediate credit bank class B stock, participation certificates, and allocated legal reserve.

After all stock held by the Governor has been retired, the bank may retire class B stock at par, participation certificates at face amount and allocated legal reserve without preferences to all holders thereof, and in such manner that the oldest outstanding stock, participation certificates or allocated legal reserve will be retired first: *Provided*, That after such retirements the net worth structure of the bank meets the minimum requirements approved by the Farm Credit Administration. Notwithstanding the foregoing provision, in the event of an equalization of the ownership by production credit associations of capital stock, participation certificates, and allocated legal reserve of the bank, whether in connection with an assessment for capital stock or otherwise, when an association surrenders stock, participation certificates, or allocated legal reserve, it shall first surrender that which was acquired by purchase, to the extent available, and thereafter surrender that acquired through patronage distributions from the bank. In unusual circumstances, class B stock, participation certificates, and allocated legal reserve may be retired for individual holders with the prior approval of the bank board.

Subpart K—Surplus and Reserves

§ 615.5330 Banks for cooperatives.

(a) *Surplus.* "Surplus" is defined as the net accumulation of net savings which has not been appropriated by the board of directors for a specific purpose. Amounts therein may be allocated to patrons or unallocated. Amounts not allocated shall not be distributed as patronage refunds. Each bank shall maintain in surplus an amount not less than 25 percent of all capital stock outstanding.

(b) *Reserve for contingencies.* When authorized by the bank board, an allocated or unallocated reserve for contingencies may be established and maintained when justified for circumstances which may lead to an unbudgeted expense or a loss.

(c) *Reserve for losses on loans.* Each bank shall maintain a general valuation reserve of at least 1½ percent of net loans outstanding at the end of the fiscal year. In recognition of the risk inherent in the specialized agricultural enterprises being financed, a reserve in greater amount than the minimum is desirable. When the reserve is less than the minimum amount, the bank board shall take appropriate action to increase the reserve so that the minimum requirement is attained within a reasonable period.

§ 615.5340 Land Bank System Reserves for Losses Program.

Each bank and association shall establish and maintain reserve accounts for estimated losses on mortgage loans, unendorsed paper, advances, accrued interest, real estate owned, and loans called for foreclosure. The requirements shall be in such amounts as in the judgment of the bank and associations is considered adequate to meet such losses. Such reserves shall not be less than 1 percent of the unmatured balance of each loan outstanding, each loan called for foreclosure and each investment in acquired collateral. Excess reserves and indemnity credits, if any, should be recognized by the bank in establishing the amount and proportion of reserves required to be carried by the bank and associations. The reserves established and maintained by the associations on endorsed loans and other obligations, shall in no event be less than ½ percent of the unmatured balance of each loan outstanding, each called for foreclosure, and each investment in acquired collateral. Changes in association's policies for reserve for losses shall be approved by the banks. Any changes in a bank's reserve for losses program shall be submitted to the Farm Credit Administration for its concurrence.

§ 615.5350 Special reserves of Federal land banks.

The banks shall maintain a reserve account against the general assets of the bank as required by section 1.17(a) of the Act. Net earnings for this purpose are defined as the gross earnings reduced by current expenses, losses, and other charges against current earnings.

§ 615.5360 Special reserves of Federal land bank associations.

Each Federal land bank association shall, out of its net earnings at the end of each fiscal year, carry to its reserve account a sum of not less than 10 percent of such earnings until the reserve account equals 25 percent of its outstanding capital stock and participation certificates after restoring any impairment. Thereafter, 5 percent of the net earnings for the year shall be added to such reserve account until it equals 50 percent of the association's outstanding capital stock and participation certificates. Amounts in the reserve in excess of such 50 percent may be withdrawn with the approval of the bank.

Subpart L—Distribution of Earnings

§ 615.5370 Banks for cooperatives earnings.

(a) Whenever at the end of any fiscal year a bank shall have no outstanding capital stock held by the Governor, the net savings shall first be applied to the restoration of the amount of the impairment, if any, of capital stock, as determined by the bank board. Any remaining net savings or losses shall be distributed on a cooperative basis as authorized by the bank board. Less than 25 percent of such remaining net savings may be used to maintain an allocated surplus account. Not more than 10 percent of net savings of the year available for distribution may be used to create or maintain an unallocated surplus or unallocated reserve account. Cash patronage refunds shall not exceed 25 percent of the total amount of net savings allocated or paid to patrons, except with Farm Credit Administration approval. Patronage refunds not paid in cash shall be paid in capital stock as determined by the bank board. A net loss in any fiscal year shall be absorbed on the basis determined by the bank board. Any costs or expenses attributable to a prior year shall not be charged to reserves, surplus, or patronage allocations without the approval of the Farm Credit Administration.

(b) Whenever at the end of any fiscal year a bank shall have stock outstanding held by the Governor, net savings shall be distributed in accordance with section 3.11(a) of the Act.

(c) The phrase "service fees" as used in section 3.11(c) of the Act are loan service fees and not income related to "technical assistance and financially-related services" referred to in section 3.7 of the Act. If net income from "technical assistance and financially-related services" becomes more than incidental, such net income shall be distributed as patronage to borrowers using such services.

V 37-71 APR 12 72 XUM

Subpart M—Payment of Dividends

§ 615.5390 Dividends on equities.

No dividends shall be paid on stock held by the Governor except that dividends shall be permitted on class C stock investments in production credit associations held by the Governor. Any dividends paid shall be declared by the board of directors of the respective institutions in accord with §§ 615.5400 through 615.5430.

§ 615.5400 Dividends on stock or participation certificates related to farm, rural housing, and farm-related business loans.

It shall be the responsibility of the bank boards, subject to approval of the Farm Credit Administration, to adopt a policy for payment of dividends by banks and associations on a fair and equitable basis to holders of voting stock or participation certificates.

§ 615.5410 Federal land banks.

(a) Noncumulative dividends may be paid out of earnings or from earned surplus on stock and participation certificates at varying rates on different classes and issues on a basis of the comparative contribution of the holders to the capital or earnings, but otherwise dividends shall be paid without preference.

(b) Dividends as in paragraph (a) of this section may be paid after the maintenance of the reserve described in section 1.17(a) of the Act and after the payment of its franchise tax to the U.S. Government, if any.

(c) Declarations of dividends are subject to the approval of the Farm Credit Administration.

§ 615.5420 Production credit associations.

An association may pay dividends on its capital stock and participation certificates in accordance with the provisions of its bylaws, provided that the rate shall not exceed 8 percent, and provided further that when dividends are paid on class B stock and participation certificates they shall also be subject to approval of the Farm Credit Administration when the amount of the association's surplus (after the payment of dividends) is less than 5 percent of its maximum loans outstanding at the end of any month during the most recent 3 years.

§ 615.5430 Bank for cooperatives.

(a) Noncumulative dividends may be paid on nonvoting investment stock only. Such dividends may be paid only out of current earnings.

(b) The rate of dividend may not exceed 8 percent per annum.

Subpart N—Association Supervision

§ 615.5440 General policy.

Bank boards shall, from time to time, prescribe policies and regulations and establish guidelines, consistent with law and these regulations, that are necessary for the banks to discharge their supervisory responsibilities over the respective associations in financial and fiscal affairs. The banks shall supervise and monitor these activities; they shall take corrective actions as required by the circumstances and, they shall keep the boards informed.

PART 616—COORDINATION

Subpart A—General

Sec.
616.6000 Responsibility.
616.6010 Policy establishment.

Subpart B—Credit and Financially Related Services

616.6020 Overall policy.
616.6030 Rural housing.
616.6040 Farm-related businesses.
616.6050 Loans to cooperatives for the purpose of directly financing the operating needs of their members.
616.6060 Financially related services.

Subpart C—Other Activities

616.6070 Public information programs.

AUTHORITY: The provisions of this Part 616 issued under secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—General

§ 616.6000 Responsibility.

Each district board is responsible for assuring that each of the institutions under its policy or supervisory authority carries on its functions in the most efficient manner to the end that eligible farmers, ranchers, producers or harvesters of aquatic products, rural residents, farm-related businesses and cooperatives have access to complete, convenient, and high quality credit and financially related services at reasonable cost. The Act broadens the lending and service activity authorities of all of the banks and associations to a degree which could permit inefficiencies and overlapping of services among the units of the System in the absence of appropriate coordination. In addition, the interests of those using the System are best served when the activities are closely coordinated.

§ 616.6010 Policy establishment.

Each district board shall establish policies and coordinate the activities of the banks and associations in its district. These policies shall provide appropriate guidance in the areas enumerated herein and others may be included as determined by the district board.

Subpart B—Credit and Financially Related Services

§ 616.6020 Overall policy.

District policies in this area should minimize the possibility of injurious competition between Federal land bank associations, production credit associations, and farmer cooperatives and maximize cooperation among them in providing credit service. The absence of such cooperation will inevitably inure to the disadvantage of those using the services of other institutions of the System. These policies shall recognize that the Federal land banks are long-term real estate mortgage lenders, the production credit associations and the Federal intermediate credit banks make short- and intermediate-term loans repayable in not more than 7 years, and the banks for cooperatives provide a specialized credit service to cooperatives. The policies should include such subjects as collateral to be taken by each type lender, land bank open-end advance and readvance mortgage plans, limitation on the use of balloon-payment provisions in loans by all banks and associations, simultaneous or joint lending to present or prospective borrowers, joint or adjacent housing for associations whenever possible, and sharing of technical assistance, record information and counsel on specific loan cases.

§ 616.6030 Rural housing.

Coordination policies relative to rural housing should define the appropriate lending authorities in accordance with the following guidelines.

(a) Federal land banks should finance the purchase or construction of rural housing where the owner requires long-term financing. Production credit association lending, while not excluding the purchase or construction of conventional homes, should emphasize remodeling and repair of permanent homes and financing mobile homes where the owner needs intermediate-term financing.

(b) A reasonable approach to term of years and repayment capacity should benefit borrower and lender while restricting overlap to a minimum.

§ 616.6040 Farm-related businesses.

The district policies as to farm-related businesses shall assure that these lending activities do not conflict with the objectives and responsibilities of any institution of the System. This policy shall include a provision for clearance or concurrence by the bank for cooperatives on all loans to farm-related businesses which are or will be in competition with a cooperative. In event there is no concurrence, the district board shall rule. However, with the concurrence of the bank for cooperatives, the policy may permit loans by production credit associations and Federal land banks to small cooperatives furnishing eligible farm-related services.

§ 616.6050 Loans to cooperatives for the purpose of directly financing the operating needs of their members.

Policies of district boards should be designed to encourage farmers and ranchers to obtain needed financing directly from their appropriate associations. These policies should recognize, however, that interests of farmers and ranchers may, at times, best be served when financing is obtained from cooperatives which may borrow from a bank for cooperatives. In establishing coordination policies in this regard, district boards shall give due consideration to, among other things, the cooperative's ability to analyze and supervise such credit extension; the credit policy to be established; the preference of the farmers and ranchers; the quantity, quality,

availability, and convenience of the credit service being offered by the appropriate associations; the need by cooperatives to offer the types of financing services offered by their competitors; and the natural relationships which exist between a cooperative's main functions of marketing, providing supplies or providing services, and the financing services incident to such marketing, supplies or services. District policies should assure that such lending activities do not conflict with the objectives and responsibilities of the Federal land banks and associations, the Federal intermediate credit banks, and the production credit associations and that, in all cases, the best interests of the farmers and ranchers are served.

§ 616.6060 Financially related services.

Financially related services offered to borrowers by institutions in one part of the System should be made available to the borrowers of the other banks and associations of the district to the fullest extent possible. Duplication of financially related services by Farm Credit institutions in the same district shall be avoided whenever possible.

Subpart C—Other Activities

§ 616.6070 Public information programs.

In disseminating information to the general public as described in Part 618 of this chapter, the banks shall maintain close coordination of such programs within the district. This coordination is essential for effective scheduling of advertising, press and public relations events, and related activities. Economies should be achieved, but more important, unified contact with the communications media minimizes complexities of the Farm Credit System structure in messages being transmitted to member borrowers, prospective borrowers and the general public. Where banks join together across district lines in carrying out information functions, they shall inform and consult with the Farm Credit Administration to assure that the best interest of all banks is served.

PART 617—EXAMINATIONS, AUDITS, AND IRREGULARITIES

Subpart A—Examinations and Audits

Sec.
617.7000 Farm Credit System institutions.
617.7010 Violation of Federal criminal statutes.
617.7020 Other financing institutions.
617.7030 Farm Credit Administration examiners' responsibilities.
617.7040 Bank designated examiners.
617.7050 Use of independent certified public accountants.
617.7060 Frequency of examinations and audits.
617.7070 Coverage.
617.7080 Reports.
617.7090 Liquidation.

Subpart B—Irregularities—Personnel

617.7100 Investigation.
617.7110 Reporting of violations.
617.7120 Cases for referral.

Subpart C—Irregularities—Borrowers and Others

617.7130 Investigation.
617.7140 Types of violations.
617.7150 Reporting of violations.
617.7160 Cases for referral.
617.7170 Notice to local police and bonding company.

AUTHORITY: The provisions of this Part 617 issued under secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Examinations and Audits

§ 617.7000 Farm Credit System institutions.

The Farm Credit Administration is required by section 5.20 of the Act to examine and audit each institution of the System, and each of their agents, at such times as the Governor may determine, but each bank and each production credit association shall be examined and audited not less frequently than once each year. Such examinations and audits shall be under the direction of the chief Farm Credit Administration examiner.

§ 617.7010 Violation of Federal criminal statutes.

The Farm Credit Administration also has the responsibility to investigate any known or suspected violation of Federal criminal statutes relating to the affairs of such institutions, or to see that such investigation is conducted. Such investigations shall be under the direction of the chief examiner.

§ 617.7020 Other financing institutions.

Upon request of the Governor or any bank of the System, Farm Credit examiners shall make examinations and written reports of the condition of any organization, other than national banks, to which, or with which, any institution of the System contemplates making a loan or discounting paper.

(a) Any organization other than State banks, trust companies, and savings associations shall, as a condition precedent to securing discount privileges with a bank of the Farm Credit System, file with such bank its written consent to examination by Farm Credit examiners as may be directed by the Farm Credit Administration. (Section 5.22 of the Act.) Such organizations shall also agree to furnish the bank, the Farm Credit Administration, or any Farm Credit examiner, at any time upon call, full and current information regarding its financial condition and operations.

(b) State banks, trust companies, and savings associations may be required in like manner to file a written consent that reports of their examination by constituted State authorities may be furnished by such authorities upon the request of the Farm Credit Administration. (Section 5.22 of the Act.)

§ 617.7030 Farm Credit Administration examiners' responsibilities.

(a) Examinations, audits, and investigations shall be made by Farm Credit Administration examiners appointed by the Governor. Such examinations and audits shall be under the direction of the chief examiner. Their responsibilities are to be discharged in the interest of carrying out the Act and in the interest of the investing public, the stockholders, and the directors and employees of the System. Examiners shall have full authority to inquire into any and all matters which affect or may effect the interests of the Farm Credit Administration or any institution in the Farm Credit System. Such matters include, but are not limited to, the financial affairs, transactions, and condition of such institutions; effectiveness of management in all aspects of the operations of such institutions; compliance with all laws applicable, all regulations and procedures issued by the Farm Credit Administration and all institutions of the System, and all generally accepted business operations of such institutions; and known or suspected violations of Federal criminal statutes relating particularly to acts of employees of such institutions or involving the affairs of such institutions.

(b) To facilitate such inquiries, examiners are empowered to examine any documents and records in the custody of any Farm Credit institution; to take over the custody of such documents and records upon issuance of a receipt therefor to the institution; to examine, with permission of the owner or custodian if needed, any other documents or records, wherever located, which may be pertinent to such inquiries; to interview and interrogate any employee, borrower, or other person regarding any matters pertinent to such inquiries; to obtain signed or sworn statements and administer oaths; and to make personal observations of any physical conditions pertinent to such inquiries. Examiners are not authorized to issue to any person an order or instruction to perform or not to perform any action.

§ 617.7040 Bank designated examiners.

The Governor may also designate employees of the Federal intermediate credit banks as Farm Credit examiners for the purpose of conducting credit examinations of production credit associations. Such examinations shall be made under guidelines provided by the chief examiner and in accordance with the principles and procedures set forth in the Manual for Credit Examinations of Production Credit Associations.

§ 617.7050 Use of independent certified public accountants.

If the Governor determines it to be necessary or appropriate, the required examinations and audits of Farm Credit institutions may be made by independent certified public accountants, certified by a regulatory authority of a State, and in accordance with generally accepted auditing standards. Such examinations shall be under the direction of the chief examiner.

§ 617.7060 Frequency of examinations and audits.

(a) Farm Credit System institutions shall be examined and audited in accordance with the following schedule and at

V 37-71
APR 12 72
XUM

such other times as the Governor may determine.

(1) Each bank and production credit association—once each year.

(2) Each Federal land bank association—once each 18 months.

(3) The office of the Fiscal Agency—once each year.

(4) Each data processing installation—once each year.

(5) All other agents of the banks and associations—once each year.

(b) Examinations of other financing institutions indebted to a Federal intermediate credit bank, whether directly or indirectly, shall be made by the bank for its own account, under the terms of the General Rediscount, Loan, and Pledge Agreement entered into between the borrowing institution and the bank.

(c) Examinations of corporations actively borrowing from or discounting paper with a Federal intermediate credit bank shall be made at least once each year and at such other times as the bank may determine. With the approval of the Farm Credit Administration, a bank may adopt a program of less frequent examinations of any corporation that is relatively inactive, or whose ratio of peak debt to collateral pledged to the bank is low.

§ 617.7070 Coverage

Examination and audits of Farm Credit System institutions, and their agents, shall include but not be limited to the following.

(a) Audit of the books, accounts, financial records, files, and other papers.

(b) Verification of accounts of borrowers to the extent considered necessary.

(c) Review and evaluation of the following.

(1) The quality of credit extended.

(2) The administration of credit.

(3) Credit actions by employees, loan committees, and other committees delegated loan approval and loan refusal authority.

(4) Operating and administrative procedures and practices, including the adequacy of internal control.

(5) Data processing systems and operations.

(d) Determination whether programs and activities (including financial-related services) are conducted in compliance with governing laws, rules, policies, and related regulations.

(e) Effectiveness of management and application of policies in carrying out the provisions of the Act and in servicing all eligible borrowers.

§ 617.7080 Reports.

(a) Reports of examination and audits of banks, and other reports as deemed necessary by the chief examiner, shall be presented to the respective bank board by an examiner at the first scheduled board meeting subsequent to receipt of the report, and such meeting shall include an executive session with the board. Reports of examination and audit of associations by examiners shall be submitted to the supervising bank for transmittal to the respective board of directors for review and appropriate action at the first scheduled board meeting subsequent to receipt of the report by the institution examined.

(b) The examination and audit comments dealing with the effectiveness of management covered by section 7070(e) shall be submitted first to the Governor and when appropriate be transmitted by him with comments to the district board.

(c) Reports of examination are the property of the Farm Credit Administration and are furnished to the institution examined for its confidential use. Reports of examinations of banks or associations made by examiners or Federal intermediate credit bank officials and other personnel who have been authorized by the Governor to make credit examinations may be disclosed only with the consent of the chief examiner. Consent is given for disclosing reports of regular examinations to the banks and associations involved or interested, but such disclosure of reports of special examinations and investigations shall be only by action or consent of the chief examiner in each instance. Information needed for filing claims with surety companies may be extracted from such reports.

(d) Consent is also given for disclosing reports of regular examinations to authorized representatives of the Farm Credit Administration and, when requested for confidential use in official investigations, to agents of the Federal Bureau of Investigation, Department of Justice; Bureau of the Chief Postal Inspector, U.S. Postal Service; the Secret Service; the Internal Revenue Service; and Office of the Inspector General, Department of Agriculture.

§ 617.7090 Liquidation.

In the event of voluntary or involuntary liquidation of a bank or association, or any of their agents, and upon completion of such liquidation, the books and records of the institution shall be forwarded to the office of the district resident examiner for final examination and audit. If circumstances warrant, such final examination and audit shall be made at the institution's offices.

Subpart B—Irregularities—Personnel

§ 617.7100 Investigation.

The Farm Credit Administration shall make an investigation of any case involving irregularities, including apparent criminal violations, by bank or association personnel, upon a determination that an investigation of such case is necessary or advisable.

§ 617.7110 Reporting of violations.

Violations of Federal criminal statutes involving the banks and associations shall be reported to the president of the bank and the general counsel of the district or an attorney who is designated for the purpose. The violations shall then be reported to the Farm Credit Administration.

(a) If any bank or association employee or director discovers irregularities in the funds and accounts of a bank or association or misconduct on the part of an employee or director of a bank or association, or has reasonable grounds for the belief that irregularities or misconduct exist, the employee, or director shall report the matter to the appropriate officer of the bank and furnish such information as he has obtained or developed. The bank shall determine what further steps, if any, will be taken by its representative in the case.

(b) The bank shall immediately notify the resident examiner and other appropriate officials of the Farm Credit Administration, and furnish them with all available information concerning the matter.

(c) The bank shall bring to the attention of the board of directors of an association concerned, any irregularity found to exist and shall keep it informed of all significant developments in order that the board may take such action as may be required to protect the association's interests.

(d) Where irregularities occur in a production credit association office which also handles transactions for a Federal land bank association, or vice versa, or where persons involved are jointly employed by a production credit association and a Federal land bank association, notice of such irregularities shall be given to appropriate officials of both banks involved.

§ 617.7120 Cases for referral.

It shall be the function of the general counsel of the district (or designated bank attorney) to refer directly to the local U.S. attorney the following cases for consideration of criminal action under established procedures.

(a) Cases in which the general counsel (or designated bank attorney) determines there is substantial evidence of the violation of a Federal criminal statute.

(b) Cases in which the U.S. attorney, after discussion with the general counsel (or designated bank attorney), decides than an additional investigation by the Federal Bureau of Investigation or the Secret Service shall be undertaken.

(c) Cases in which the resident examiner notifies bank officials that further investigation by the Federal Bureau of Investigation or the Secret Service is appropriate.

Subpart C—Irregularities—Borrowers and Others

§ 617.7130 Investigation.

The bank shall make an investigation of any case involving violations of Federal criminal statutes by its borrowers.

§ 617.7140 Types of violations.

Violations of Federal criminal statutes by borrowers in connection with their loans most commonly involve actions prohibited by 18 U.S.C. 658 and 18 U.S.C. 1014. Section 658 of the criminal code makes it unlawful for any person knowingly, and with intent to defraud, to conceal, remove, dispose of, convert to his own use or to that of another, property mortgaged, pledged to, or held by an association. Section 1014 of the criminal code makes it unlawful to knowingly make a false statement or report for the purpose of influencing the action of the association or bank upon any application, advance, commitment, or loan or any change or extension of any such action by renewal, deferment of action, or otherwise, or acceptance, release, or substitution of security therefor.

§ 617.7150 Reporting of violations.

(a) *Notice to bank.* Violations of Federal criminal statutes involving borrowers shall be reported to the president of the bank, and the general counsel of the district or senior attorney who is designated for the purpose. The violations shall then be reported to the Farm Credit Administration.

(b) *Report of details.* Promptly after giving notification that there may be a violation of a Federal criminal statute, the association shall ascertain the full details involved in the alleged violation and prepare a concise and specific report which will include each of the items listed in the criminal violations worksheet prescribed by the Farm Credit Administration. This complete report shall be sent directly to the district general counsel or bank attorney with the association's recommendation regarding prosecution. It is the responsibility of the general counsel or bank attorney to review the material submitted, to request additional factual information necessary for him to make his determination as to whether there is substantial evidence of the violation of a Federal criminal statute or whether further investigation should be undertaken to produce additional factual evidence which may be needed in the prosecution.

§ 617.7160 Cases for referral.

It shall be the function of the general counsel of the Farm Credit district (or a designated bank attorney) if he determines that there is substantial evidence that a violation has been committed of any of the foregoing as well as other Federal criminal statutes, to refer the matter to the U.S. attorney for consideration of prosecution under established procedures. At no time after it appears to the association or bank that a violation may have occurred shall any employee of the association or bank threaten the borrower with criminal prosecution, whether in an effort to collect the indebtedness, recover property, or otherwise.

§ 617.7170 Notice to local police and bonding company.

In case of burglary, holdup, or violations of other non-Federal criminal statutes, the bank or association shall immediately notify local police authorities. The association shall also notify an appropriate office of the bank. Losses of other natures for any institution which can be recovered under the district bankers blanket bond shall be immediately reported in accordance with established procedures.

PART 618—GENERAL PROVISIONS

Subpart A—Technical Assistance and Financially Related Services

Sec.
618.8000 Authorization.
618.8010 District board policies.
618.8020 Farm Credit Administration approval.

Subpart B—Leasings

618.8050 Leasing authority.
618.8060 Leasing limitations.

Subpart C—Procedures and Guidelines

618.8100 Farm Credit Administration.

Subpart D—Nomination and Election of Directors

618.8150 Federal Farm Credit Board.
618.8160 District boards of directors.

Subpart E—Miscellaneous Provisions

618.8200 Publication of reports.
618.8210 Conducting information programs.
618.8220 Contributions to and membership in other organizations.
618.8230 Allocation of expenses for administrative services.
618.8240 Quarters and facilities for the Farm Credit Administration.
618.8250 Purchases and sales of personal property.
618.8260 Purchase of automobiles through General Services Administration.
618.8270 Travel.

Subpart F—Releasing Information

618.8300 General regulation.
618.8310 Lists of borrowers.
618.8320 Data regarding borrowers and loan applicants.
618.8330 Director, officer or employee summoned as witness.
618.8340 Information regarding personnel.
618.8350 Authority reserved to release information.

Subpart G—Disposition of Obsolete Records

618.8360 Authorization.
618.8370 Records disposal.

Subpart H—Federal Records

618.8380 Record material.
618.8390 Federal records in the districts.
618.8400 General Services Administration regulations.
618.8410 Transfers to Federal Records Center.
618.8420 Requests for additional disposal authority.

Subpart I—Internal Controls

618.8430 Responsibilities.

AUTHORITY: The provisions of this Part 618 issued under secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Technical Assistance and Financially Related Services

§ 618.8000 Authorization.

Banks and associations may provide technical assistance to borrowers, members, applicants, and stockholders eligible to borrow and may make available to them such financially related services as are determined feasible and approved by the district board.

§ 618.8010 District board policies.

District board policies governing the provision of technical assistance and financially related services shall be established within the following general guidelines.

(a) All services shall be optional, and the borrower shall not be required to accept the service offered in lieu of a similar service offered by others in cases where the service is required as a loan condition.

(b) All costs to users shall be disclosed in a separate and distinct fashion from interest charges.

(c) There should be maximum cooperation among units of the System to assure that competition in offering service programs among various parts of the system is restricted to an absolute minimum. To the extent possible, members of banks and associations within a district should be served by a single financially related service program or at a minimum, common programs should be offered by the banks and associations within a given district.

(d) Bank board approval for an association to offer a financially related service program shall be conditioned on the application of a feasibility determination including the following four criteria.

(1) Need for the service—based on persuasive evidence that membership need for and interest in the proposed service is sufficient to insure that a quality service can be provided at reasonable cost and that similar service is not being provided adequately (cost, quality, availability) by others in the community.

(2) Capacity to render the service—based on the finding that the association has the institutional capacity to render the proposed service in an effective and efficient manner.

(3) Probability of equitable cost recovery—based on a reasonable presumption that the proposed service program will, at the minimum, generate sufficient revenue to cover all incremental costs. In any case, a service program requiring a substantial and continuing subsidization from or interference with the lending function shall not be permitted.

(4) Effect on operations of the association—based on an analysis of the implications flowing from the decision to offer or refuse to offer the proposed financially related service.

(e) Each association's service program shall be reviewed annually or more frequently if necessary by the bank to determine its continued compliance with the requirements under which it was approved in the first instance, and the results of these reviews shall be presented to the bank board if it does not, a probationary period shall be established at the end of which approval to offer the service shall be withdrawn if compliance has not been achieved.

(f) Such records as are necessary to facilitate the review program required herein shall be maintained by each bank or association involved in providing financially related services.

§ 618.8020 Farm Credit Administration approval.

Each proposed financially related service and technical assistance program and district policy with regard to an individual program shall be subject to the approval of the Farm Credit Administration. District policies governing services approved prior to the issuance of these regulations shall be submitted to the Farm Credit Administration for approval. These approvals shall be based

V 37 71 APR 12 72 XUM

on the determination that legal authority to offer the service exists and System-wide implications of offering the service would be favorable on balance.

Subpart B—Leasings

§ 618.8050 Leasing authority.

Farm Credit institutions are authorized to own and lease property as follows:

(a) Federal land banks may own and lease, or lease with option to purchase, to persons eligible for assistance, facilities needed in the farming operations of such persons.

(b) Federal land bank associations have no such leasing authority.

(c) Federal intermediate credit banks may own and lease, or lease with option to purchase, to persons eligible for assistance, equipment needed in the operations of such persons.

(d) Production credit associations may own and lease, or lease with option to purchase, to stockholders of the association, equipment needed in the farming operations of the stockholder.

(e) Banks for cooperatives may own and lease, or lease with option to purchase, to stockholders eligible to borrow from the bank, equipment needed in the operations of the stockholder.

§ 618.8060 Leasing limitations.

This authority shall not be operative until such time as adequate programs have been formulated and approved by the Bank's board and the Farm Credit Administration.

Subpart C—Procedures and Guidelines

§ 618.8100 Farm Credit Administration.

The Farm Credit Administration shall issue procedures and guidelines as necessary from time to time to facilitate carrying out requirements of the law and regulations. These instructions shall describe procedures, include sample resolutions and forms and specify records to be retained. The institutions supervised shall comply with such procedures and guidelines. These procedures will include such things as the following.

(a) Appraisal and credit standards

(b) Graphic standards.

(c) Electronic data processing standards.

(d) Charts and descriptions of accounts.

(e) Instructions for preparation of financial and statistical reports.

(f) Instructions for production credit association credit examinations.

Subpart D—Nomination and Election of Directors

§ 618.8150 Federal Farm Credit Board.

(a) Polls for the designation of nominees for consideration by the President for appointment to the Federal Farm Credit Board shall be conducted by the election officer of the Farm Credit Administration, an official appointed by the Governor to supervise elections in the System. The results of all such polls shall be certified by the chief examiner.

(b) Information pertaining to the results of any poll shall not be disclosed before the poll has closed, the voting results have been certified, and official announcement has been made by the Governor, except notification of the number of votes received by each nominee or candidate in a poll may be made to the nominees or candidates by the election officer. Information regarding voting by individual associations shall not be disclosed at any time.

(c) The banks shall provide a complete list of all persons and organizations entitled under the law to vote in a nomination poll on request of the election officer. The lists provided shall show the number of stockholders entitled to vote in each Federal land bank association or each production credit association as of a date specified in the request for such lists.

(d) At least 1 month before the nomination ballot is mailed out, the election officer shall send to the appropriate voting group a preliminary notice and instructions for the designation of a person to be considered for appointment to the Federal Farm Credit Board.

(e) If the final designation poll results in a tie, a runoff poll between those tying shall be held.

(f) For both the nomination poll and the final designation poll, the directors of a Federal land bank association or production credit association at a lawful board meeting will vote by the adoption of resolutions as prescribed on the ballots. A majority of the number of directors provided for in the association's bylaws must be present at each meeting, and the vote of the majority of the directors present will control. The final designation resolution may not be adopted until after the ballot is received by the association.

(g) Vacancies on the Federal Farm Credit Board shall be filled for the unexpired portion of the term. Special nomination and designation polls for this purpose shall be conducted by the election officer. Pending the nomination of designees and the appointment by the President to fill the unexpired term, the board of directors of the district for which the vacancy or extended disability exists may select a representative to meet with the Federal Farm Credit Board without the right to vote. He shall be entitled to reimbursement for transportation and travel expenses and shall receive the same per diem compensation as an appointed member of the Federal Farm Credit Board.

§ 618.8160 District boards of directors.

(a) The election officer of the Farm Credit Administration appointed by the Governor shall develop and maintain procedures for the conduct of nomination and election polls for election of district board directors.

(b) Polls for the nomination and election of district board directors shall be conducted by the district election officers under supervision of the election officer. The results of all such polls shall be certified by the resident examiner.

(c) Information pertaining to the results of any poll shall not be disclosed before the poll has closed, the voting results have been certified, and official announcement has been made by the Governor, except that notification of the number of votes received by each nominee or candidate in a poll may be made to the nominees or candidates by the election officer or district election officer. Information regarding voting by individual associations shall not be disclosed at any time.

(d) The banks shall provide a complete list of all persons and organizations entitled under the law to vote in a nomination poll on request of the district election officer. The lists provided shall show the number of stockholders entitled to vote in each Federal land bank association or production credit association as of a date specified in the request for such lists.

(e) The district election officer shall send the appropriate voting groups a preliminary notice and instructions for the election of a district director at least 1 month before the nomination ballot is mailed out by him. It is the objective of the act that in each election of a district director the nominating group should endeavor to assure representation to all sections of the district territory and as nearly as possible to all types of agriculture in the area and that at least two nominees who are willing to stand for election to that office are nominated. The preliminary notice shall include instructions to the voting groups that in nominating candidates they be guided by this objective.

(f) If the election poll results in a tie, a runoff election between those tying shall be held.

(g) For both the nomination poll and the election poll, the directors of a Federal land bank association or production credit association at a lawful board meeting will vote by the adoption of resolutions as prescribed on the ballots. A majority of the number of directors provided for the association's bylaws must be present at each meeting, and the vote of the majority of the directors present will control. The election resolution may not be adopted until after the election ballot is received by the association.

Subpart E—Miscellaneous Provisions

§ 618.8200 Publication of reports.

The Farm Credit Administration in the exercise of its supervisory responsibility shall publish reports of the banks or associations whenever, in its judgment, it is necessary for the disclosure of financial conditions and lending operations. Combined financial statements shall be published as of June 30, and December 31.

§ 618.8210 Conducting information programs.

Recognizing the importance of informed members and prospective members to the success of a cooperative organization, the banks and associations should conduct information programs to inform the farm and general public about

their organization, functions, and services. These efforts may include use of publications, advertising, motion pictures, news releases, broadcast materials, special educational events and other member relations and public information methods. Such programs shall be coordinated within each district and, where appropriate, across district lines as prescribed in Part 616 of this chapter.

§ 618.8220 Contributions to and membership in other organizations.

Contributions to voluntary associations, clubs, societies, or other groups or payment of memberships in such organizations shall be authorized only after the bank or association board determines that such contributions or memberships will result in commensurate benefits to the bank or association in the conduct of its business and only after consideration of possible tax consequences.

§ 618.8230 Allocation of expenses for administrative services.

(a) Prior to the first day of each fiscal year the Farm Credit Administration shall estimate the cost of administrative expenses for the ensuing fiscal year and shall apportion the amount so determined among the banks of the System on such equitable basis as the Farm Credit Administration shall determine and assess against and collect in advance from the banks the amounts apportioned. Assessments shall be made quarterly and the banks shall remit the amount assessed within 30 days of assessment.

(b) As soon as practicable after the end of each fiscal year the Farm Credit Administration shall determine, on a fair and reasonable basis, the cost of operation of the Farm Credit Administration and the part thereof which fairly and equitably should be allocated to each bank and association as its share of the cost. If the amount allocated is greater or lesser than the amount collected proper adjustment shall be made at the time of the next quarterly assessment. Each year there shall be a report to the district boards of directors and the board of directors of the Central Bank for Cooperatives concerning expenditure of such assessments for the expenses of the Farm Credit Administration.

§ 618.8240 Quarters and facilities for the Farm Credit Administration.

With the concurrence of two-thirds of the district boards, the Farm Credit Administration may assess the banks such advances of funds as may be required to lease property in the District of Columbia or elsewhere for quarters of the Farm Credit Administration and for related purposes as provided by the Act.

§ 618.8250 Purchases and sales of personal property.

Personal property shall be bought and sold by the banks and associations in accordance with policies and practices adopted by the district board. In order to avoid grounds for allegations of favoritism or fraud a bank or association shall not sell surplus property above a stated value established by the board to an employee except through open competitive bidding.

§ 618.8260 Purchase of automobiles through General Services Administration.

(a) Banks may purchase automobiles through the facilities of the General Services Administration by placing orders with the Farm Credit Administration. A purchase order will be issued to the General Services Administration showing in detail the exact specifications shown on the bank's order. The low bid for all orders submitted shall be accepted by the banks provided that the low bid is awarded according to the exact specifications outlined in the purchase order.

(b) No automobile purchased through the General Services Administration shall be disposed of before 2 years after delivery to the bank unless it has been driven at least 50,000 miles. Exceptions to this general rule will be made only if an automobile has been wrecked or damaged and is determined by the bank in writing submitted to the Farm Credit Administration to be beyond economical repair.

§ 618.8270 Travel.

Travel and subsistence expenses of officials and employees of the banks shall be allowed in accordance with travel regulations adopted by the district board. Similar travel regulations will be developed for associations by the supervisory bank. The regulations shall contain a statement of policy on the use of official cars for private use and will take into consideration regulations issued by the Internal Revenue Service which are applicable to the employer.

Subpart F—Releasing Information

§ 618.8300 General regulation.

Except as necessary in performing official duties or as authorized in the following paragraphs, no director or employee of a bank, association, or agency thereof shall disclose information of a type not ordinarily contained in published reports or press releases regarding any such banks or associations or their borrowers or members.

§ 618.8310 Lists of borrowers.

Federal intermediate credit banks and production credit associations may issue lists of borrowers for the information of buyers, warehousemen, and others who deal in produce or livestock of the kind that secures such loans. Otherwise lists of borrowers shall not be released by any bank and association, unless such release is approved by the chief executive officer of the bank.

§ 618.8320 Data regarding borrowers and loan applicants.

(a) Except as provided in paragraph (b) of this section, the directors, officers, and employees of every bank and association shall hold in strict confidence all information regarding the character, credit standing, and property of borrowers and applicants for loans. They shall not exhibit or quote the following documents: loan applications; supplementary statements by applicants; letters and statements relative to the character, credit standing, and property of borrowers and applicants; recommendations of loan committees; and reports of inspectors, fieldmen, investigators, and appraisers.

(b) The requirements of paragraph (a) of this section are subject to the following exceptions.

(1) Examiners and other authorized representatives of the Farm Credit Administration and the bank concerned shall have free access to all information, records, and files.

(2) Accredited representatives of the offices named in § 617.7080 of this chapter may, at their request, be given information pertinent to their official investigations or individual cases, and may examine such portions of the records and files as contain the information.

(3) The chairman of the presidents committees and the presidents of the banks may supply statistical and other impersonal information pertaining to groups of borrowers, applicants, and loans, in response to requests from any department or independent office of the Government of the United States, or responsible private organizations, with the understanding that the information will not be published.

(4) Information concerning borrowers may be given for the confidential use of any Farm Credit institution in contemplation of the extension of credit or the collection of loans.

(5) Impersonal information based solely on transactions or experience with a borrower, such as amounts of loans, terms, and payment records may be given by a bank or association for the confidential use of any reliable organization in contemplation of the extension of credit.

(6) Credit information concerning any borrower may be given when such borrower consents thereto in writing.

(7) In litigation between a borrower (or his successor in interest) and a bank or association, any competent evidence may be introduced with respect to any relevant statements made orally or in writing by or to the borrower or his successor.

(8) An unsuccessful applicant for credit which primarily is for personal, family, or household purposes, if his application was rejected either wholly or partly because of information contained in a consumer report from a consumer reporting agency shall be advised as required in section 615(a) of the Fair Credit Reporting Act (84 Stat. 1133), and if his application was rejected either wholly or partly because of information obtained from a person other than a consumer reporting agency shall be advised as required in section 615(b) thereof.

(c) The exceptions in paragraph (b) of this section shall be exercised by Farm Credit institutions with full awareness

V 37-71 APR 12 72 XUM

of the requirements of the Fair Credit Reporting Act.

§ 618.8330 Director, officer or employee summoned as witness.

(a) If a director, officer or employee of any association or bank is summoned as a witness in litigation to which neither the Government nor any Farm Credit organization is a party, for the purpose of testifying or producing documentary evidence with respect to matters which he is precluded by these regulations to disclose, he shall arrange, if possible, with the attorney who obtained the summons, to be excused from testifying. If not excused, he shall appear in response to the summons but, before testifying or producing documentary evidence as to confidential information, he shall respectfully advise the court of these regulations against disclosing such information and respectfully request that its confidential nature be safeguarded. After so doing, he may then testify or produce documentary evidence as to such information only to the extent and under the conditions directed by the court.

(b) Upon receiving any such summons, the director, officer, or employee may request advice and assistance from an attorney for the organization with which he is connected. For this purpose, the directors, officers, and employees of associations shall consult an attorney for the supervising bank.

§ 618.8340 Information regarding personnel.

Lists of bank and associations employees shall not be released without the approval of the chief executive officer of the supervising bank. This section is subject to the following exceptions.

(a) Taxing authorities shall be supplied, on request, with the names, addresses, and compensation of the officers, agents, and employees of any bank or association.

(b) Banks may release lists of their associations and their chief executive officers.

(c) For use by their respective groups of associations and cooperatives in designating nominees for the Federal Farm Credit Board and in nominating and electing members of a district board, the banks may release lists of directors of their associations, and a bank for cooperatives may release lists of the cooperatives that hold stock in it.

(d) Banks and associations may release employees' names, addresses, positions, and spouses' names to reputable concerns for listing in local directories. The concern must agree this information is for directory purposes only. Employees wishing to do so shall be allowed to withhold their names.

§ 618.8350 Authority reserved to release information.

The provisions of this manual shall not operate to limit or restrict the discretionary authority of the Governor or any deputy governor to release, or authorize the release of, information by or pertaining to the Farm Credit Administration or any bank or association.

Subpart G—Disposition of Obsolete Records

§ 618.8360 Authorization.

Banks and associations are authorized to dispose of obsolete corporate, credit, accounting, and financial records and other papers not required for research, legal, or audit purposes under a Farm Credit Administration approved records disposal program, except for the following.

(a) Original corporate records, including articles of incorporation, bylaws, capital stock records, and minutes of stockholders, directors, and committees.

(b) Payroll records including gross salary and deductions for retirement, social security, and income tax withholdings.

(c) Basic personnel records including personnel folders, service records, cards, and earnings records for all active and former employees covered under the Civil Service Retirement Act.

(d) Records required by Federal or State laws.

(e) Federal records (see following Subpart H of this part).

(f) Financial reports of the banks and associations as of June 30 and December 31 each year.

(g) Applications, notes, security instruments, financial statements, and any individual records pertaining to loans charged off where the net loss after recoveries exceeds $1,000.

(h) Listing of obsolete records destroyed.

§ 618.8370 Records disposal.

Each bank and association shall maintain an up-to-date records disposal schedule which has the approval of the bank boards. The records disposal schedule of each association shall be approved by its supervising bank.

Subpart H—Federal Records

§ 618.8380 Record material.

Records of the Federal Government consists of all written or printed papers, letters, documents, books, maps, charts, plans, drawings, punchcards, tabulation sheets motion pictures or other photographic records sound recordings, and any other records made or received by any agency of the Federal Government in pursuance of Federal law or the transaction of public business, and preserved or appropriate for preservation as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data contained therein. Extra copies of documents preserved only for evidence, and memoranda or other papers that do not serve as the basis for official actions, are not considered record material.

§ 618.8390 Federal records in the districts.

The following are Federal records:

(a) Records in the Federal land banks and Federal land bank associations relating to Commissioner loans, including those records that existed as of the date any loans were purchased by the banks.

(b) Records of the Federal Farm Mortgage Corporation.

(c) Records of the Federal intermediate credit banks and production credit corporations in existence on December 31, 1956.

(d) Records created prior to January 1, 1957, relating to the liquidation of any production credit association.

(e) Records in the office of joint services up to December 31, 1956, relating to Commissioner loans, the Farm Credit Administration, and to the Federal intermediate credit banks, production credit associations, and Federal Farm Mortgage Corporation, including joint records of any such bank or corporation and a Federal land bank, bank for cooperatives, production credit association, or national farm loan association.

§ 618.8400 General Services Administration regulations.

The General Services Administration has prescribed regulations on the management and disposal of all Federal records. Copies of these regulations have been sent to all Federal intermediate credit banks. They are available for use by the reviewing appraiser, resident examiner, and the office of joint services.

§ 618.8410 Transfers to Federal Records Center.

Any bank or office of joint services that wishes to be relieved of the custody of Federal records, but cannot do so either because authority to destroy or microfilm them has not been obtained or because the retention periods approved by National Archives and the Congress require that the records by held either permanently or for further periods of time, may request the Farm Credit Administration to arrange with the General Services Administration to have such records transferred to a regional Federal Records Center.

§ 618.8420 Requests for additional disposal authority.

If any bank or office of joint services wishes to dispose of Federal records for which disposal authority has not been obtained from the National Archives and the Congress, two samples of the records involved, together with a description of each record and the proposed retention period, should be sent to the Farm Credit Administration, which will refer the proposal to the National Archives and will notify the bank or office of joint services of the action taken.

Subpart I—Internal Controls

§ 618.8430 Responsibilities.

The board of directors of each bank and association shall assure that the institution for which it is responsible has an adequate system of internal control, including segregation of responsibilities, appropriate accounting, and dual control over assets, liabilities, income, and expenses.

AUTHORITY: The provisions of this Part 619 issued under secs. 5.9, 5.16, 5.26, 85 Stat. 619, 621, 624.

§ 619.9000 The Act.

The Farm Credit Act of 1971; Public Law 92-181 and amendments.

§ 619.9010 Additional security.

Supplementary collateral to the primary security taken in connection with the loan.

§ 619.9020 Agricultural land.

Land improved or unimproved which is devoted to or available for the production of crops and other products such as but not limited to fruits and timber or for the raising of livestock.

§ 619.9030 Agricultural products.

That which is the direct result of husbandry and cultivation of the soil. The product is in its natural, unmanufactured condition.

§ 619.9040 Aquatic products.

Fish and other marine life.

§ 619.9050 Associations.

Refers to Federal land bank associations and production credit associations.

§ 619.9060 Bona fide farmer or rancher.

A person owning agricultural land, or engaged in the production of agricultural products and livestock including aquatic products under controlled conditions.

§ 619.9070 Commercial subdivision.

A tract of land which has been divided into blocks or plots with streets, roadways, and other facilities for development as residential or industrial sites by a builder or real estate developer having financial profit as the primary aim.

§ 619.9080 Cooperative.

See section 3070.

§ 619.9090 Cooperative basis.

Conduct of the business for the mutual benefit of the members as patrons.

§ 619.9100 Cooperative member.

Person having stock or other ownership interest in a cooperative and acquires membership under its bylaws.

§ 619.9110 Consolidation.

Creation of one new organizational entity from two or more existing entities or parts thereof.

§ 619.9120 Custom-type services.

The performance of on-farm functions on a "for-hire" basis which farmers and ranchers typically have done for themselves.

§ 619.9130 Differential interest rates.

An interest rate program under which different rates of interest may be made applicable to individual or classes of loans on the basis of type, purpose, amount, quality of loan, or a combination of these factors.

§ 619.9140 Farm-related businesses.

A person which is engaged in furnishing to farmers and ranchers custom-type farm-related services performed on the farm directly related to their on-farm operating needs.

§ 619.9150 Federated cooperative.

An entity in which at least 80 percent of the voting control is vested in two or more eligible cooperatives.

§ 619.9160 Five basic credit factors.

See section 4150.

§ 619.9170 Fixed interest rate.

The rate of interest specified in the note or loan document which will prevail as the maximum rate chargeable to the borrower during the period of the loan.

§ 619.9180 Fixed interest spread.

A percentage to be added to the cost of money to the bank or association as the means of establishing a lending rate.

§ 619.9190 Legal entity.

Any partnership, corporation, estate, trust, or other entity which is legally vested with authority to conduct a business.

§ 619.9200 Loss sharing agreements.

A contractual arrangement under which a group of associations, a group of banks, or a group of associations and a bank agree to share the risk of loss on loans made in excess of a specified amount or proportion of an individual participant institution's loans, net worth, reserves for losses, etc.

§ 619.9210 Merger.

Combining of one or more organizational entities into another similar entity.

§ 619.9220 Moderate-priced housing.

See section 3040(d).

§ 619.9230 Open-end mortgage loan plans.

A mortgage loan which permits the borrower to obtain additional sums during the term of the loan.

§ 619.9240 Participation agreement.

A contract under which a lender agrees to sell a portion of a loan to one or more purchasers under specific terms set forth in the agreement.

§ 619.9250 Participation certificates.

Evidence of investment in a bank or association to which all the rights and obligations of stock attach with the exception of the right to vote in the affairs of the institution.

§ 619.9260 Primary security.

The basic collateral securing the loan.

§ 619.9270 Producer or harvester of aquatic products.

A person or persons engaged in the production or harvesting of aquatic products in open waters under uncontrolled conditions.

§ 619.9280 Production or harvesting of aquatic products in open waters under uncontrolled conditions.

Extraction of aquatic products where no element of husbandry of the product is involved prior to such extraction where the applicant and the public have equal access to the product.

§ 619.9290 Recovery value.

See section 4241.

§ 619.9300 Rural area.

See section 3040(f).

§ 619.9310 Rural residence.

See section 3040(b).

§ 619.9320 Sound loan.

See section 4140.

§ 619.9330 Speculative purposes.

To buy or sell with the expectation of profiting by fluctuations in price.

§ 619.9340 Variable interest rate.

An interest rate on the outstanding loan balances, which may be changed from time to time during the period of the loan, if provision is made to the note or loan document.

E. A. JAENKE,
Governor,
Farm Credit Administration.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 101]

FEDERALLY LICENSED COTTON WAREHOUSES

Recordkeeping, Preparation of Weight Certificates, and Surrender and Form of Warehouse Receipts

Notice is hereby given, in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Agricultural Marketing Service, pursuant to the authority conferred by section 28 of the U.S. Warehouse Act (7 U.S.C. 268) is considering amending warehouse regulations appearing in Part 101 of Subchapter E of Chapter I in Title 7 of the Code of Federal Regulations.

Certain regulatory requirements appear to be no longer necessary or in need of modification because of the modern methods used in the marketing of cotton and technological advances in the field of records and recordkeeping. The proposed amendments would:

1. Eliminate the requirement that a "bearer" or other negotiable type warehouse receipt contain provisions for an endorsement. Most cotton warehouse receipts now being used are of the bearer type. There is no basis for requiring that a bearer receipt be endorsed to effect change of ownership, and, by custom, the Statement of Ownership and Encumbrances now appearing on such receipt is not used by depositors or the trade. (§ 101.16(c)(2))

2. Permit a warehouseman to microfilm warehouse receipts to satisfy the copies of receipts requirement. (§ 101.17)

3. Remove the requirement that receipts surrendered for delivery of cotton must be surrendered only in the city or town in which the cotton is stored. With modern communication and transportation it seems unnecessary to continue this rigid requirement; however, it would be expected that the location where receipts are to be surrendered would be a location within reasonable proximity of the warehouse where the cotton is stored or other location that would not interfere with enforcement of the Act and regulations. (§ 101.21)

4. Permit a warehouseman to microfilm canceled original warehouse receipts and retain such microfilm in lieu of retaining the canceled original receipt. Under 28 U.S.C. 1732(b) a microfilm copy or facsimile enlargement thereof is accepted as evidence in U.S. courts. (§ 101.28)

5. Permit a weigher to show either gross, or net and tare, weight on a cotton weight certificate. The change from a gross weight to net weight basis in the marketing of cotton appears to have eliminated the necessity of a mandatory requirement to show the gross weight of the cotton on the weight certificate. However, if the gross weight is not shown, both the tare weight and net weight would have to be shown. (§ 101.59)

The regulations would be amended in the following respects:

1. Paragraph (c) of § 101.16 would be amended to read:

§ 101.16 Form.

* * * * *

(c) In addition to complying with paragraphs (a) and (b) of this section, every negotiable receipt issued for cotton stored in a licensed warehouse shall embody within its written or printed terms a statement that the cotton covered by such receipt was classified by a licensed classifier or a board of cotton examiners when such cotton is so classified.

* * * * *

2. Section 101.17 would be revised to read:

§ 101.17 Copies of receipts.

(a) At least one actual, skeleton, or microfilm copy of all receipts shall be made, and all copies, except skeleton and microfilm copies, shall have clearly and conspicuously printed or stamped thereon the words "Copy—Not Negotiable."

(b) A copy of each receipt issued shall be retained by the warehouseman for a period of 1 year after December 31 of the year in which the corresponding original receipt is canceled .

(c) If copies are retained on microfilm, the warehouseman shall:

(1) Have available at all times facilities for immediate, easily readable projection of the microfilm and for producing easily readable facsimile enlargements;

(2) Arrange, index, and file the films in such a manner as to permit the immediate location of any particular microfilm record; and,

(3) Be ready at all times to provide, and immediately provide, at the expense of the warehouseman, any facsimile enlargement of such microfilm copies which any authorized officers or agents of the Department of Agriculture may request.

3. Section 101.21 would be revised to read:

§ 101.21 Return of receipts before delivery of cotton.

Except as permitted by law or by the regulations in this part, a warehouseman shall not deliver cotton for which he has issued a negotiable receipt under the act until such receipt has been returned to him and canceled and shall not deliver cotton for which he has issued a non-negotiable receipt until such receipt has been returned to him or he has obtained from the person lawfully entitled to such delivery or his authorized agent a written delivery order, properly signed, specifying by bale or tag number each bale to be delivered from any receipt or receipts. Before delivering or upon delivery of, all the cotton covered by a non-negotiable warehouse receipt, the warehouseman may require the surrender of the receipt. The location where receipts are to be surrendered shall be a location within reasonable proximity of the warehouse where the cotton is stored or other location that would not interfere with enforcement of the Act and regulations.

4. Section 101.28 would be revised to read:

§ 101.28 Records to be kept in safe place.

(a) Each warehouseman shall provide a metal fireproof safe, a fireproof vault, or a fireproof compartment in which he shall keep, when not in actual use, all records, books, and papers pertaining to the licensed warehouse, including his current receipt book, copies of receipts issued, and canceled receipts or microfilm copies of canceled receipts except that with the written consent of the Administrator or his representative, upon a showing by such warehouseman that it is not practicable to provide such fireproof safe, vault, or compartment, he may keep such records, books, and papers in some other place of safety, approved by the Administrator or his representative.

(b) Each canceled receipt or microfilm copy of each canceled receipt shall be retained by the warehouseman for a period of 6 years after December 31 of the year in which the receipt is canceled and for such longer period as may be necessary for the purposes of any litigation which the warehouseman knows to be pending, or as may be required by the Administrator in particular cases to carry out the purposes of the act.

(c) Canceled receipts shall be arranged by the warehouseman in numerical order and otherwise in such manner as shall be directed, for purposes of audit, by authorized officers or agents of the Department of Agriculture.

(d) If microfilm copies of canceled receipts are to be retained in lieu of canceled receipts, the warehouseman shall:

(1) Have available at all times facilities for immediate, easily readable projection of the microfilm and for producing easily readable facsimile enlargements;

(2) Arrange, index, and file the films in such a manner as to permit the immediate location of any particular microfilm copy; and,

(3) Be ready at all times to provide, and immediately provide, at the expense of the warehouseman, any facsimile enlargement of such microfilm copies which any authorized officers or agents of the Department of Agriculture may request.

5. Paragraph (g) of § 101.59 would be amended to read:

§ 101.59 Weight certificates; form.

* * * * *

(g) The gross, or net and tare, weight of the cotton and, if the cotton be excessively wet or otherwise of a condition materially affecting its weight, a statement of such fact to which may be added the weigher's estimate of the number of pounds which should be allowed for such condition;

* * * * *

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 30th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., April 7, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1125]

[Docket No. AO 226-A25]

MILK IN THE PUGET SOUND, WASHINGTON MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held at the Auditorium, Norway Center (Norselander Restaurant), 330 Third Avenue West, Seattle, WA, beginning at 10 a.m., local time on April 25, 1972, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Puget Sound, Wash., marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Northwest Dairymen's Association:

PROPOSAL NO. 1

Amend § 1125.52 by changing paragraph (a) to read as follows:

(a) *Class I milk.* Multiply the Chicago butter price for the second preceding month by 0.115; and

Delete the 0.120 in paragraph (b) and add 0.115.

PROPOSAL NO. 2

Amend §1125.82 as follows:

In making payments pursuant to § 1125.80(a) for base milk and for excess milk and pursuant to § 1125.80(d) there shall be added to, or subtracted from, the respective uniform prices thereof, or weighted average price, for each one-tenth of 1 percent that the average butterfat content of such milk is above or below 3.5 percent, the butterfat differential that is computed pursuant to § 1125.52(b) for Class II and Class III milk.

PROPOSAL NO. 3

Amend § 1125.41(a)(2) and add subparagraph (8) to paragraph (c) to read as follows:

(2) Contained in monthly inventory variation of packaged fluid milk products;

(8) Contained in monthly inventory variation of bulk fluid milk products.

PROPOSAL NO. 4

Amend § 1125.30(a)(3) to read as follows:

(3) The aggregate quantities of base milk and excess milk received: *Provided,* That the cooperative association with respect to the milk of its producer members or proprietary handlers who operate pool plants in more than one district within the marketing area or handlers who cause milk under their control to be delivered to plants in more than one district within the marketing area may report the aggregate quantities of base milk and excess milk received from producers as base milk first in the lowest location differential zone to the extent that the total base milk pooled within that location differential zone does not exceed the aggregate quantities of producer milk received in that district from higher location differential zones, and consecutively to the next higher location differential zones to the extent of the aggregate quantities of base milk available; and

PROPOSAL NO. 5

Amend §§ 1125.8 and 1125.16(a) as follows:

In § 1125.8 change the "10 percent" to read "25 percent" in paragraph (a), and paragraph (b) is revised to read as follows:

(b) Any other such plant, hereafter referred to as "pool supply plant," at which milk so qualified is received from dairy farmers or a cooperative association pursuant to § 1125.10(f) and which is:

(1) Located within the marketing area and from which is moved to a pool distributing plant at least the following applicable percentage of both the skim milk and butterfat in Grade A milk received from dairy farmers;

(i) During the months of September through March, 25 percent of such receipts during the month; or

(ii) During the months of April through August, 15 percent of such receipts during the month.

(2) Located outside the marketing area, and from which is moved to a pool distributing plant at least the following applicable percentage of both the skim milk and butterfat in Grade A milk received from dairy farmers:

(i) During the months of September through March, 50 percent of such receipts during the month; or

(ii) During the months of April through August, 30 percent of such receipts during the month.

(3) Producer milk of its members caused by a cooperative association to be delivered directly from farms to pool distributing plants may be considered as movements specified in subparagraphs (1) or (2) of this paragraph from plants operated by the cooperative or its sales agent towards meeting the percentages specified in those paragraphs.

(4) The producer milk of nonmembers under the control of a handler which he causes to be delivered directly from farms to his pool distributing plants may be considered as movements specified in subparagraph (1) of this paragraph from plants operated by such handler toward meeting the percentage(s) specified in that paragraph.

(5) Any plant which otherwise meets the requirements of this paragraph may withdraw from pool supply plant status for any month in the April–August period if the operator of the plant files with the market administrator, prior to the first day of such month, a written request for such withdrawal.

b. Paragraph (a) of § 1125.16 is revised to read as follows:

(a) A delivery to a plant: *Provided,* That packaged fluid milk products that are transferred to a pool distributing plant from another pool distributing plant, and which are classified as Class I under § 1125.44(a) shall be considered as a route disposition from the transferor plant, rather than the transferee plant, for the single purpose of qualifying it as a pool distributing plant under § 1125.8 (a) and the transferor plant shall be assigned in-area sales, but not in excess of the in-area sales of the transferee.

PROPOSAL NO. 6

Amend § 1125.12(c) to read as follows:

(c) With respect to diversions to nonpool plants or commercial food processing establishments:

(1) A cooperative may divert to nonpool plants or commercial food processing establishment for its account, under paragraph (b)(1) of this section the milk of any member producer. The total quantities of milk so diverted, however, may not exceed 50 percent in the months April through August, 30 percent in the months September through March, of its total member milk received at all pool distributing plants or diverted therefrom during the month. Any milk which is used to compute pool supply plant qualifications may not be used for computing allowable diversions;

(2) A handler operating a pool distributing plant may divert to a nonpool plant or a commercial food processing establishment for his account under paragraph. The total quantity of milk so of any producer other than a member of a cooperative association which diverts milk under subparagraph (1) of this paragraph. The total quantity of milk so diverted, however, may not exceed 50 percent in the months of April through August, 30 percent in the months of September through March of the milk received at or diverted from such pool distributing plants during the month from producers who are not members of a cooperative association which diverts milk

V 37-71 APR 12 72 XUM

under subparagraph (1) of this paragraph. Any milk which is used to compute pool supply plant qualifications may not be used for computing allowable diversions;

(3) Milk diverted in excess of the limits specified shall not be considered producer milk, and the diverting handler shall specify the producers whose milk is ineligible as producer milk. If a handler fails to designate such producers, producer milk status shall be forfeited with respect to all milk diverted by the handler;

(4) For purposes of location adjustments pursuant to § 1125.53 and § 1125.81, milk diverted to a nonpool plant or a commercial food processing establishment shall be priced at the location of the plant or commercial food processing establishment to which diverted; except that, the applicable location adjustment on base milk where the milk diverted is allocated to Class III shall not exceed the higher of 20 cents per hundredweight or the location adjustment that would be applicable to a plant located in the area(s) where the producer's farm(s) is located; and

PROPOSAL No. 7

Amend § 1125.53 as follows:

Under plant location change the table to read:

Plant location	Adjustment (cents/cwt.)	
	Class I	Class II
District 1 or Kitsap or Pierce Counties.	0	0.
District 2 or Mason County	15	7.5.
District 3 (including the entire counties of Lewis and Pacific) or Kittitas County.	20	10.0.
District 4 or Clallam or Jefferson Counties.	40	20.0.
Other locations outside the marketing area.	20 cents plus 1.5 cents for each 10 miles or fraction thereof by shortest hard-surfaced highway distance as determined by the market administrator that the plant is located beyond 100 miles from the County City Building in Seattle.	10 cents plus 0.75 cents for each 10 miles or fraction thereof by shortest hard-surfaced highway distance as determined by the market administrator that the plant is located beyond 100 miles from the County City Building in Seattle except that this adjustment shall not exceed 25 cents per cwt.

PROPOSAL No. 8

Amend § 1125.11(e) as follows:

(e) Whose milk during the month was not received at a nonpool plant which is engaged in the distribution of milk on routes or supplies a plant which has route distribution, except by diversion from a pool plant pursuant to § 1125.12 unless the producer had discontinued deliveries to handlers regulated by this order.

PROPOSAL No. 9

Amend §§ 1125.22(k)(2), 1125.71(b), 1125.80(a)(3), and 1125.81(a) as follows:

In § 1125.22(k)(2) delete the words "the location adjustments for excess milk computed pursuant to § 1125.81(a)(2)."

In § 1125.71(b) delete the words "or subtract".

In § 1125.80(a)(3) delete the words "and by any location adjustment applicable under § 1125.81".

In § 1125.81 paragraph (a) is revised as follows:

(a) In making payments to producers pursuant to § 1125.80(a) subject to the application of § 1125.12(c) deduction may be made per hundredweight of base milk received from producers at respective plant locations at the same rate as specified for Class I milk set forth in § 1125.53.

PROPOSAL No. 10

Amend §§ 1125.11(e), 1125.12 (a)(2), (b)(1), and (c), and 1125.41(b)(3) as follows:

Change §§ 1125.11(e), 1125.12 (a)(2), (b)(1), and (c) by adding after the words "nonpool plant" in each of the above paragraphs; "or a commercial food processing establishment".

In § 1125.41(b) change subparagrph (3) by adding after the word "bulk" the following "or diverted to".

PROPOSAL No. 11

Amend § 1125.80 by revising paragraphs (a), (b), (c), and (d) to read as follows:

(a) Each handler shall make payments to each producer for milk received from such producer during such month:

(1) On or before the 20th day of the month to each producer who had not discontinued shipping milk to such handler before the 15th day of the month, at not less than the Class III price for the preceding month per hundredweight of milk received during the first 15 days of the month, less proper deductions authorized in writing by such producer; and

(2) On or before the 5th day of the following month to each producer who has not discontinued shipping milk to such handler before the last day of the month, at not less than the Class III price for the preceding month per hundredweight of milk received from the 16th through the last day of the month, less proper deductions authorized in writing by such producer.

(3) On or before the 19th day after the end of each month for milk received from such producers during such month;

(i) At not less than the uniform price for base milk for the quantity of base milk received, adjusted by the butterfat differential computed pursuant to § 1125.82 and by any location adjustments applicable under § 1125.81;

(ii) At not less than the Class III price adjusted by the butterfat differential computed pursuant to § 1125.82 for the quantity of milk received from producer described in § 1125.121 (c) and (d) for whom no base milk has been computed;

(iii) At not less than the uniform price for excess milk for the quantity of excess milk received, adjusted by the butterfat differential computed pursuant to § 1125.82; and

(iv) Minus payments made pursuant to subparagraphs (1) and (2) of this paragraph: *Provided*, That, if by such date such handler has not received full payment for such month pursuant to § 1125.85, he shall not be deemed to be in violation of this paragraph if he reduces uniformly for all producers his payments per hundredweight pursuant to this paragraph by a total amount not in excess of the reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payments is received from the market administrator.

(b) The payments required in paragraph (a) of this section shall be made, upon request, to a cooperative association qualified under § 1125.5, or its duly authorized agent, with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this paragraph, shall be made on or before 2 days prior to the dates specified in paragraph (a) of this section.

(c) Each handler shall pay to a cooperative association or its duly authorized agent which operates a pool plant for skim milk and butterfat received from such plant;

(1) On or before the 18th day of each month for skim milk and butterfat received during the first 15 days of that month at not less than the Class III price for the preceding month; and

(2) On or before the third day after the end of the month for skim milk and butterfat received for the 16th through the last day in the month at not less than the Class III price for the preceding month; and

(3) On or before the 17th day after the end of such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 1125.44 (a) or (b)) by the class price, adjusted by the butterfat differentials computed pursuant to § 1125.52, and by any location adjustments pursuant to § 1125.53 applicable at the pool plant of the cooperative association or its agent, minus payments made pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Each handler who receives milk for which a cooperative association is the handler pursuant to § 1125.10(f) shall pay such cooperative association for such milk received;

(1) On or before the 18th day of each month for such milk received during the first 15 days of that month at not less than the Class III price for the preceding month; and

(2) On or before the third day after the end of the month for such milk received from the 16th day through the end of the month at not less than the Class III price for the preceding month; and

(3) On or before the 17th day after the end of the month for such milk received at not less than the weighted average price for all milk, adjusted by the differentials specified in § 1125.81(b) and § 1125.82, minus payments made pursuant to subparagraphs (1) and (2) of this paragraph.

PROPOSAL No. 12

Delete § 1125.35(a)(7).

PROPOSAL No. 13

Delete § 1125.41(c)(2).

PROPOSAL No. 14

Amend § 1125.19 as follows:

"Chicago butter price" means the simple average of the daily wholesale selling price (using the midpoint of any price range as one price) of Grade "A" (92-score) bulk creamery butter per pound at Chicago as reported for the month by the Department.

Proposed by Puget Sound Jersey Milk Pool, Inc., and Northwest Guernsey Association:

PROPOSAL No. 15

Revised § 1125.82 as follows:

§ 1125.82 Producer butterfat and solids-not-fat differential.

In making payments to producers and cooperative associations pursuant to § 1125.80(a) and to cooperative associations pursuant to § 1125.80(d) there shall be added to, or substracted from the respective uniform prices thereof or weighted average price, for each one-tenth of 1 percent that the average butterfat content of such milk is above or below 3.5 percent, a butterfat and solids-not-fat differential computed by the market administrator as follows:

(a) Determine the spread between the support price for manufacturing milk and the market value of butter and nonfat dry milk made from 100 pounds of milk as announced by the Department for the current marketing year.

(b) Determine the spread per pound of the predicted yield of butter and nonfat dry milk from 100 pounds of milk of average milk fat test by dividing the spread determined in paragraph (a) of this section, by the predicted yields and rounding to the fourth decimal place.

(c) Determine the value of butter and nonfat dry milk attributable to average milk for each one-tenth of 1 percent variance in butterfat content above or below 3.5 percent, as follows:

(1) Multiply the Chicago butter price for the month by 0.1222.

(2) Multiply the nonfat dry milk solids price pursuant to § 1125.51(c)(2) by .04.

(3) Add together the values pursuant to subparagraphs (1) and (2) of this paragraph.

(4) Subtract therefrom the value determined by multiplying the spread in cents per pound pursuant to paragraph (b) of this section, by .1622.

(5) Round to the nearest one-tenth of a cent.

Proposed by the Dairy Division Agricultural Marketing Service:

PROPOSAL No. 16

In the introductory language of § 1125.8 delete the reference to "health authority having jurisdiction in the marketing area", and substitute "duly constituted regulatory authority".

PROPOSAL No. 17

Provide for definitions of a "distributing plant" and a "supply plant".

PROPOSAL No. 18

In § 1125.12 (a)(2) and (b)(1), delete the parenthetical references to "filled milk".

PROPOSAL No. 19

Amend § 1125.15 to include flavored cream as a fluid milk product and to relocate the reference to reconstitution and fortification.

PROPOSAL No. 20

In the last paragraph of § 1125.15(c), delete "condensed milk, and skim milk (plain or sweetened)" and substitute "condensed milk (plain or sweetened) and condensed skim (plain or sweetened)".

PROPOSAL No. 21

In § 1125.32, provide that the market administrator may request additional information under §§ 1125.30 and 1125.31.

PROPOSAL No. 22

Amend §§ 1125.44 and 1125.46 to provide that packaged products received from an other order plant for salvage rather than for disposition to consumers for consumption in fluid form should not be an offset to packaged products moved to that plant for disposition to consumers for consumption in fluid form. Also, such products received from an other order plant should not be allocated to Class I pursuant to § 1125.46 (a)(2).

PROPOSAL No. 23

In § 1125.46(a)(3), provide specifically for the subtraction of milk excluded pursuant to § 1125.11(e).

PROPOSAL No. 24

In § 1125.46(a)(3)(vi), delete the provision allocating overage to other source receipts.

PROPOSAL No. 25

Provide that the Class I price for other source milk, when adjusted for location, shall be not less than the Class III price.

PROPOSAL No. 26

In § 1125.66(b), consider rules for determining the order under which a supply plant shall be regulated when it meets the pooling qualifications of more than one order.

PROPOSAL No. 27

Amend § 1125.70, and other appropriate provisions, to provide that fluid milk products received at a pool plant from an unregulated supply plant or from a partially regulated distributing plant, which have previously been priced as Class I milk under a Federal milk order, will not be subject to additional charges under Order No. 125.

PROPOSAL No. 28

Revise the format of order provisions to provide for a more appropriate and simplified arrangement.

PROPOSAL No. 29

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the market administrator, Nicholas L. Keyock, 16 West Harrison Street, Seattle, WA 98119, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on April 6, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF THE TREASURY

Bureau of Customs

PIG IRON FROM BRAZIL

Antidumping Proceeding Notice

On March 6, 1972, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that pig iron from Brazil is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting and inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 7, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

OREGON ISLANDS NATIONAL WILDLIFE REFUGE

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (Public Law 88-577; 78 Stat. 890-896; 16 U.S.C. 1131-1136), that a public hearing will be held beginning at 9 a.m. on June 10, 1972, at the Marine Science Center Auditorium, Oregon State University, Marine Center Drive, Newport, Lincoln County, OR, on a proposal leading to a recommendation to be made to the President of the United States by the Secretary of the Interior, regarding the desirability of including the Oregon Islands Wilderness within the National Wilderness Preservation System. The wilderness proposal consists of approximately 459 acres of the Oregon Islands National Wildlife Refuge, which is located in Clatsop, Coos, Curry, Lane, Lincoln, and Tillamook Counties, State of Oregon.

A brochure containing a map and information about the Oregon Islands Wilderness proposal may be obtained from the Refuge Manager, William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, OR 97330, or the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

Individuals or organizations may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the Regional Director at the above address by July 10, 1972.

SPENCER H. SMITH,
Acting Director, Bureau of Sport Fisheries and Wildlife.

PROPOSED GOLDEN GATE NATIONAL RECREATION AREA, SAN FRANCISCO AND MARIN COUNTIES, CALIF.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for a proposed Golden Gate National Recreation Area, Calif., and invites written comment within thirty (30) days of this notice.

Written comments should be sent to the Director, Western Region, National Park Service, 450 Golden Gate Avenue, Box 36063, San Francisco, CA 94102; copies of the environmental statement are available from or for inspection at this office.

The environmental statement considers the establishment of a Golden Gate National Recreation Area in San Francisco and Marin Counties, Calif., consisting of approximately 24,000 acres of State, Federal, county, and privately owned land, for the purposes of public recreation and preservation of open spaces and recreational values.

Dated: March 30, 1972.

W. W. LYONS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

PORT OF CASCADE LOCKS, AERIAL TRAMWAY

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a draft environmental statement for the Port of Cascade Locks, Aerial Tramway, Oreg., USDA-FS-DES(Adm) 72-29.

The environmental statement concerns the proposed construction by the Port of Cascade Locks of an aerial passenger tramway to the rim of the Columbia River Gorge.

This draft environmental statement was filed with CEQ on April 3, 1972.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, DC 20250.

USDA, Forest Service, Pacific Northwest Region, 319 Southwest Pine Street, Portland, OR 97208.

Mt. Hood National Forest, Supervisor's Office, 340 Northeast 122d Avenue, Portland, OR 97218.

A limited number of single copies are available upon request to Rexford A. Resler, Regional Forester, Post Office Box 3623, Portland, OR 97208.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Mr. Rexford A. Resler, U.S. Forest Service, Post Office Box 3623, Portland, OR 97208.

Comments must be received within 50 days of the date of publication of this notice in order to be considered in the preparation of the final environmental statement.

THOMAS C. NELSON,
Deputy Chief, Forest Service.

APRIL 7, 1972.

DEPARTMENT OF COMMERCE

Office of Import Programs

CORNELL UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00208-61-77030. Applicant: Cornell University, New York State College of Agriculture, Ithaca, N.Y. 14850. Article: NMR Spectrometer, Model JNM-MH-60-II. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: Representative current research in which the article is intended to be used includes:

(1) Determination of the structure of metabolites isolated from a variety of insecticides and herbicides.

(2) Analysis of hydrocarbon type in leaf waxes and seed oil; studies of the degree of unsaturation vs. saturation, etc.

(3) N.m.r. studies on material fractionated or isolated from soil organic matter, plant material and other natural sources.

(4) N.m.r. studies on organometallic compounds found in our environment e.g. organoselenium, mercury, lead, etc. compounds.

(5) Routine monitoring of crude reaction mixtures, both during and after syntheses, to determine the extent of reaction.

(6) Conformational equilibria studies in the carbohydrate field.

(7) Study of the stereochemistry and stability of substituted 2,4-hexadienedioic acids. Stability rearrangement studies will use the variable temperature accessory.

(8) Structural assignments to substituted 4-carboxymethylene but 2-enolides including utilization of the Nuclear Overhauser effect to confirm configurational assignments.

(9) Double reasonance studies associated with the uses listed above. The article will also be used in teaching the basic principles of NMR spectroscopy and instrumentation in graduate level courses.

Comments: Comments were received from one domestic manufacturer, Varian Associates, which states inter alia that its Model T-60XS nuclear magnetic resonance spectrometer (NMR) is of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used. (Letter from Varian dated December 2, 1970.)

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The captioned application is a resubmission of Docket No. 70-00285-61-77030 which was denied without prejudice to resubmission due to informational deficiencies. The foreign article provides both internal and external lock in the same instrument. The Varian Model T-60XS provides both internal lock and unlocked modes of operation but does not provide both an internal and external lock in the same instrument. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 11, 1971 that (1) for the applicant's precision studies of chemical shifts as well as spin tickling and Nuclear Overhauser effects the internal lock is pertinent, (2) for instructional use for relatively inexperienced users, to avoid problems of locking on where overlapping resonance signal in a spectrum are separated by changing either the sample concentration or the solvents, the external lock facility is considered pertinent and (3) neither the T-60 nor the T-60XS provides both an external and an internal lock facility in the same instrument as required by the applicant. We, therefore, find that neither the T-60 nor T-60XS is of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc.72-5572 Filed 4-11-72;8:49 am]

UNIVERSITY OF COLORADO MEDICAL CENTER

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00264-33-01110. Applicant: University of Colorado Medical Center, 4200 East Ninth Avenue, Denver, CO 80220. Article: Amino acid analyzer, Model JLC-5AH. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: The article will be used to analyze the amino acid composition of insulin and insulin peptides purified from single normal and diabetic pancreata. Studies concern the nature of the molecular difference between biologically abnormal diabetic insulins and the normal.

Comments: Comments were received from one domestic manufacturer, Beckman Instruments, Inc. (Beckman), which stated inter alia that "the instrument considered to be a scientific equivalent to the foreign article is the Beckman Model 121 Automatic Amino Acid Analyzer."

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The captioned application is a resubmission of Docket No. 70-00548-33-01110 which was denied without prejudice to resubmission on August 18, 1970, for informational deficiencies. The foreign article provides a detection sensitivity of one nanomole. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated November 19, 1971, that the most closely comparable domestic instrument is the Beckman Model 121 which provides a detection sensitivity of two nanomoles. HEW also advises further that the greater detection sensivity of the article is pertinent to the study of the amino acid composition of insulin from the pancreas of diabetics. Beckman's comments include a publication entitled "Increased Sensitivity of Accelerated Amino Acid Ion-Exchange Chromatography" by R. W. Hubbard and D. M. Kremen published in Analytical Biochemistry, Volume 12, No. 3, September 1965. Beckman alleges that, "• • • This paper verifies that [with a modified Beckman Model 120] 1 nanomole levels of amino acids have been measured with ±3% accuracy and precision (p. 600)." The portion of the text to which Beckman refers reads: "In some instances, 0.441-umole [nanomole] levels can be measured with the usual ±3% accuracy and precision. This is dependent upon the overall instrument noise level, which cannot be clearly defined nor predicted as yet." The underscored qualifying phrases indicate that it is not apparent that sensitivity better than 2 nanomoles can be expected without further instrument development. We note that

V 37-71
APR 12 72
XUM

Beckman's comments contain the statement: "[Using the Model 121] the amount of sample that can be detected reliably and accurately by the analyzer is 0.002 micromole [i.e., 2 nanomole] using the expanded range."

We therefore, find that the Model 121 is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5573 Filed 4-11-72;8:49 am]

UNIVERSITY OF MAINE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00032-36-46070. Applicant: University of Maine, Orono, Maine 04473. Article: Scanning electron microscope, Model S4. Manufacturer: Kent Cambridge Scientific, Inc., United Kingdom. Intended use of article: The article will be used to study (1) morphology of wood fibers; (2) phase distribution and fracture characteristics of mixed polymer films formed on solvent removal from a common solution; (3) interface conversion for adhesion and grafting of polymers to surface; (4) ultrastructure of Coelenterate Polyps; (5) identifying Streptomyces Spores; and (6) the structure and development of Echinoderms. The educational uses consist of instruction for students in operating and applying scanning electron microscopy in pulp and paper technology, materials engineering, forestry, zoology, botany, entomology, geological sciences, and chemistry.

Comments: No comments have been received with respect to this application. Letter dated December 9, 1971, from Advanced Metals Research Corp. (AMR) (received after the expiration of the comment period) is being treated as additional information in accordance with § 701.10(a) of the regulations to the extent that it contains factual information.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant's intended uses of the foreign article include the examining of live or semiarid specimens in studies of animal fertilization, ultrastructure of polyps, infected plant tissue, etc. The Department of Health, Education, and Welfare (HEW) in a memorandum dated January 28, 1972, advises that these intended uses will require independent vacuum systems which assures the maintenance of column vacuum independent of specimen chamber vacuum and permits complete flexibility in the specimen chamber pumping rate. Independent vacuum systems then are pertinent specifications within the meaning of § 701.2(n). The foreign article satisfies this pertinent specification by providing two independent pumping (i.e., vacuum) systems. Moreover, HEW cites as a precedent its prior recommendation relating to Docket No. 71-00294-33-46070 which conforms in certain particulars to the captioned application. In its prior recommendation HEW advises that it knows of no domestic scanning electron microscope capable of providing equivalent independently maintained vacuum in the column and specimen chamber. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

ESTIMATES OF VOTING AGE POPULATION

In accordance with the requirements of section 104(a)(5) of the Federal Election Campaign Act of 1971 (Public Law 92-225), I hereby certify:

(1) That in no case is the estimated voting age population in the geographical area known to be included or likely to be included in any congressional district for the 93d Congress in excess of 500,000; and

(2) That the estimated voting age population (resident population, 18 years of age and older) on July 1, 1971, for each State (including the District of Columbia and the Commonwealth of Puerto Rico) is:

State	*Voting age population (in thousands)*
Alabama	2,259
Alaska	187
Arizona	1,189
Arkansas	1,296
California	13,586
Colorado	1,492
Connecticut	2,056
Delaware	360
District of Columbia	523
Florida	4,891
Georgia	3,020
Hawaii	512
Idaho	468
Illinois	7,413
Indiana	3,433
Iowa	1,884
Kansas	1,523
Kentucky	2,167
Louisiana	2,302
Maine	661
Maryland	2,610
Massachusetts	3,883
Michigan	5,750
Minnesota	2,493
Mississippi	1,397
Missouri	3,193

HEALTH SERVICES AND MENTAL HEALTH ADMINISTRATION

Regional Health Directors; Delegation of Authority

Delegation No. 9 to the Regional Health Directors is amended to include also (1) authority to review and approve applications for grants for developing comprehensive mental health service programs in urban and rural poverty catchment areas under section 224(b) of the Community Mental Health Centers Act of 1963, as amended; and (2) authority to review and approve applications for grants for initial staffing costs of professional and technical personnel to provide comprehensive programs of mental health services for children under section 271 of the Act. (See items (c) and (f) below.) The delegation of authority is effective immediately and is amended to read as follows:

Delegation of authority. (9) The administration of the following functions under the Community Mental Health Centers Act of 1963 (Public Law 88-164), as amended (42 U.S.C. 2681 et seq.): (a) Review and approval of State plans for the construction of community mental health centers under section 204; (b) approval of State requests for funds for administration of such State plans under section 403(c); (c) review and approval of applications for grants for developing comprehensive mental health service programs in urban or rural poverty catchment areas under section 224(b); (d) review and approval of applications for grants for the construction of community mental health centers under section 205; (e) review and approval of applications for grants for initial staffing costs of professional and technical personnel of such centers under section 220; (f) review and approval of applications for grants for initial staffing costs of professional and technical personnel to provide comprehensive programs of mental health services for children under section 271; and (g) the commitment of funds, within authorized limits, for grants covered above; provided, however, than such grants shall be made only upon recommendation of the National Advisory Mental Health Council. Recommendation of the National Advisory Mental Health Council is not legally required for grants under section 224(b) of the Act but is administratively desirable.

VERNON E. WILSON,
Administration.

[Docket No. D-72-165]

ACTING AREA DIRECTOR, MANCHESTER AREA OFFICE

Designation

The listed officials are designated to serve as Acting Area Director, Manchester Area Office, in the order named, during the absence of the Area Director, with all the powers, functions, and duties redelegated or assigned to the Area Director: *Provided,* That no official here listed is authorized to serve as Acting Area Director unless and until all the officials listed before him in this designation are unable to act by reason of absence:

1. William H. Hernandez, Jr., Acting Deputy Area Director.
2. Director, Operations Division.
3. Director, Housing Management Division.
4. Area Counsel.

(The authority for this designation is set forth in 36 F.R. 3389, Feb. 23, 1971, sec. B.1; sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d))

Effective date. This designation is effective for the period March 20, 1972, through July 18, 1972.

CREELEY S. BUCHANAN,
Area Director,

ATOMIC ENERGY COMMISSION

[Docket No. 50-293]

BOSTON EDISON CO.

Notice of Reconstitution of Board

In the matter of Boston Edison Co. (Pilgrim Nuclear Power Station), Docket No. 50-293.

Mr. Nathaniel H. Goodrich was Chairman of the Atomic Safety and Licensing Board established to consider the above application. Mr. Goodrich is unable to continue in his duties as Chairman of this Board.

Accordingly, the Commission has designated Mr. Charles A. Haskins, a member qualified in the conduct of administrative proceedings, as Chairman of the Board. Reconstitution of the Board in this manner is in accordance with § 2.704(d) of the rules of practice.

Dated at: Washington, D.C., this 6th day of April 1972.

JAMES R. YORE,
Executive Secretary, Atomic Safety and Licensing Board Panel.

[FR Doc.72-5547 Filed 4-11-72;8:46 am]

[Docket No. 50-219]

JERSEY CENTRAL POWER AND LIGHT CO.

Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Applicant's Environmental Report-Full-Term Operating License stage, March 6, 1972," for the Oyster Creek Nuclear Generating Station, Unit I, submitted by the Jersey Central Power and Light Co. has been placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC. The report is also being made available to the public at the Division of State and Regional Planning, Department of Community Affairs, Post Office Box 1978, Trenton, NJ 08625, and at the Ocean County Planning Board, Courthouse Square, Toms River, N.J. 08753.

This report discusses environmental considerations related to the proposed issuance of a full-term operating license for the Oyster Creek Nuclear Generating Station, Unit I, located in Lacey Township, Ocean County, N.J.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft detailed statement. The summary notice will request comments from interested persons on the proposed action and on the draft statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 28th day of March 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[Docket No. 50-395A]

SOUTH CAROLINA ELECTRIC & GAS CO.

Notice of Receipt of Attorney General's Advice and Time for Filing of Petitions to Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated March 31, 1972, a copy of which is attached below.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's Rules of Practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed within thirty (30) days after publication of this notice in the FEDERAL REGISTER, either (1) by delivery to the AEC Public Document Room at 1717 H Street NW., Washington, DC, or (2) by mail or telegram addressed to the Secretary, U.S. Atomic Energy Commission, Washington, D.C., 20545, Attention: Chief, Public Proceedings Branch.

For the Atomic Energy Commission.

LYALL JOHNSON,
Director, Division of State and Licensee Relations.

[AEC Docket No. 50-395A; Department of Justice File 60-415-47]

SOUTH CAROLINA ELECTRIC & GAS CO.

VIRGIL C. SUMMER NUCLEAR STATION UNIT 1

MARCH 31, 1972.

You have requested our advice pursuant to the provisions of section 105 of the Atomic Energy Act of 1954, 68 Stat. 919, 42 U.S.C. 2011-2296, as amended by Public Law 91-560, 84 Stat. 1472, in regard to the above cited application.

Introduction. The Summer nuclear generating station, unit No. 1, to be built by South Carolina Electric & Gas Co. (SCEG), is scheduled for completion and commercial operation early in 1977. Rated at a net dependable capacity of 900 mw., the facility will be located in Fairfield County, S.C., near the northwestern limits of the applicant's service area. The total cost of the unit, including associated transmission facilities and nuclear fuel inventor for the first core, is estimated at $271,229,000. Construction will be financed as an integral part of the applicant's total construction program for

V 37-71 APR 12 72 XUM

the years 1971–1976, with approximately 21 percent provided internally by depreciation and retained earnings and the remainder from the yield of new debt and equity securities offered in appropriate proportions.

The applicant. SCEG, headquartered in Columbia, S.C., is an operating public utility principally engaged in the production, transmission, distribution and sale of electricity, and the purchase, transmission, distribution and sale of natural gas. It also renders urban bus service in the cities of Columbia and Charleston. In calendar year 1970 electric business provided 77 percent of operating revenues, gas business 21 percent and coach business 2 percent.

Applicant's electric service territory is essentially based on the broad northwestward corridor from Charleston to Columbia (the two largest cities in the State) which SCEG serves at retail. Its service area extends south and west from this corridor to the Georgia State line, covering in total more than 12,000 square miles in the central, southern, and southwestern portions of South Carolina. This comprises about one-half of the State, with an estimated population in excess of 900,000.

Applicant is a fully integrated electric utility with steam, hydro, and gas turbine generation which, with a comparatively small amount of firm purchased power, amounted to 2,049 mw. of dependable capacity in 1971. The system's peak load that year was 1,571 mw. It operates an extensive transmission network with lines ranging up to 230 kv. and totalling over 2,200 circuit miles. It also has a distribution system of some 10,000 pole miles to serve over 271,000 retail customers. Operating electric revenues in 1970 totaled $101,188,000, of which 42.36 percent was derived from residential sales, 24.72 percent commercial sales, 19.70 percent industrial sales, and 13.22 percent from other sources.

Relations with other utilities. In terms of generating capacity and system load, SCEG is by far the smallest of the major investor-owned utilities in its general area. These are Carolina Power & Light Co. to the north, Duke Power Co. to the northwest, and Georgia Power Co., a part of The Southern Co. holding company system, to the south and southwest. It is, however, more than double the size of the South Carolina Public Service Authority, a State-owned fully integrated electric utility (popularly known as Santee-Cooper) whose territory is mainly to the northeast along the coast. SCEG is interconnected with each of these utilities.

The applicant has been a member of the Carolinas-Virginia Power Pool (CARVA), along with Duke, Carolina Power, and Virginia Electric & Power Co. Though the CARVA Pool was formally terminated in 1970, its members continue to share reserves through 1972 under the termination agreement. Also, by two letter agreements the other members agreed through the mid-1970's to take specified percentages of SCEG's new Wateree No. 2 generating unit and to furnish specified amounts of backstand capacity for SCEG's new Williams generating unit.

In the main, however, the CARVA arrangements have been superseded by SCEG's bilateral contracts with Duke and Carolina Power covering interconnection, coordination of scheduled maintenance, spinning reserves and purchase and sale of interchange power, limited term power and energy and short-term power and energy. SCEG also has interchange and coordinating agreements with Georgia Power and its affiliates and with Santee-Cooper. In addition, to augment the reliability of bulk power supply systems in the area it is a party to the Virginia-Carolinas Reliability Agreement and a member in the Virginia-Carolinas subregion of FPC's South Eastern Reliability Council. Other participants are Yadkin, Inc., the Interior Department's Southeastern Power Administration (SEPA), Santee-Cooper and the former members of the CARVA Pool.

Aside from its coordination with major utilities, the applicant is also a supplier of bulk power at wholesale to certain municipalities and cooperatives. There are four municipal utilities within its territory, and it provides full-requirement service to three (two of which are quite small). Of some 12 distribution cooperatives wholly or partly within its territory, SCEG provides a portion of the power needs of only four. It also sells a small supply of power to a wholesale cooperative in the area under a short-term contract, for use by one of the latter's member distribution cooperatives. SCEG's wholesale business, however, accounts for only about 5 percent of its total current system load.

Competitive considerations. In its service area the applicant faces strong competition in bulk power sales and, until recently, in retail distribution. The principal competitive alternatives for bulk power open to municipals and co-ops in the area are SEPA and Santee-Cooper. Output from the Government's Clark Hill hydro facilities on the Savannah River is marketed by SEPA to cooperatives as preference customers under the Flood Control Act of 1944, and wheeled to those in the eastern two-thirds of South Carolina by transmission facilities owned or controlled by Santee-Cooper.[1] This State agency, which began operations in 1942 after completion of the Santee-Cooper hydro facility, is now a fully integrated electric utility with hydro, steam and gas turbine generation and a transmission system interconnected with both SCEG and SEPA. Under leasing contracts it also operates the steam generating plant and transmission network of Central Electric Cooperative, Inc., a wholesale cooperative owned by 15 South Carolina distribution co-ops. The present generating capacity operated by Santee-Cooper amounts to 860,000 kw., while the combined transmission system, covering the eastern two-thirds of the State with lines ranging from 34 to 115 kv., totals some 2,200 circuit miles.[2]

Although the majority of Santee-Cooper's retail distribution is to the northeast of the applicant's territory as previously noted, its transmission network makes possible a considerable amount of bulk power sales within that territory. Thus Santee-Cooper serves at wholesale one municipality, the Central co-op (nine of whose 15 members are within the area) and the Berkeley co-op which is not a member of Central. In general, these wholesale customers obtain about 80 percent of their power requirements from Santee-Cooper and 20 percent from SEPA. In the case of three cooperatives—Palmetto, Berkeley and Coastal (through Central)—these supplies are supplemented by wholesale contracts with SCEG.

In summary then, the applicant provides the full bulk power requirements of three of the four municipal utilities in its service area and (directly or indirectly) a lesser portion of the requirements of five of the area's 12 distribution co-ops. All but one of these wholesale contracts, mostly entered in the late 1940's and early 1950's and continued from year to year, contain one or more provisions which on their face impose anticompetitive restraints on the customer. These are of three general kinds: (1) provisions giving SCEG an absolute veto power over the customer's using the purchased power in conjunction with any other source of power; (2) provisions imposing restrictions against resale of purchased power to another electric entity; and (3) provisions making territorial allocations between the parties in retail distribution. In effect, these provisions give SCEG extensive control over its wholesale customers' access to alternative bulk power coordination arrangements which would involve sales to or coordination with other systems. They also restrain the customers' ability to compete with SCEG at retail.

The impact of these restraints on retail competition has been affected to some extent, however, by 1969 amendments to South Carolina law dealing with the rights of investor-owned utilities and cooperatives to territorial service areas outside municipalities.[3] These amendments impose broad restrictions on competition in retail distribution. In relevant part, these provisions generally grant each utility exclusive rights to a corridor extending 300 feet outward on both sides of all its existing distribution lines and later extensions thereof, except where these corridors overlap another utility's corridor or service area. In addition, the South Carolina Public Service Commission is to demarcate each utility's exclusive retail service area boundaries, giving due regard to the corridors so established.[4]

Conclusions. No competing utility has indicated to us any antitrust objection to licensing the Summer nuclear facility. Santee-Cooper is presently negotiating with SCEG for participation in a substantial share of the plant's output, either on an ownership or a purchase basis, and we are advised that negotiations are proceeding smoothly. Central is definitely interested in obtaining the benefits of a share in the Summer facility, but because of its contractual relations with Santee-Cooper is awaiting the outcome of the negotiations between the latter and SCEG. I has no plans to intervene in this proceeding.

With the comparatively large number of distribution coops scattered throughout SCEG's service area, there has been considerable scope for retail competition in the past. This will be seriously curtailed in future, but only as a result of the change in South Carolina law. To the extent that retail competition is still permitted, the cooperatives should be effective competitors with SCEG since they are not dependent upon it for bulk power supply. In wholesale purchasing, the power output of Santee-Cooper, as supplemented by SEPA and made available by the Central-Santee-Cooper transmission system, provides a competitive alternative to SCEG. Aside from the pending negotiations concerning the Summer facility, Santee-Cooper also has independent generation expansion plans. Thus it would appear that competing utilities in the area will have an adequate alternative in bulk power supply

[1] The SEPA entitlements of Broad River and Little River, two small co-ops at the northwestern border of SCEG's service area, are wheeled to them by Duke which also provides most of their remaining requirements. SCEG bulk power sales to them account respectively for about 7.5 percent and 25 percent of their needs.

[2] About the same total number of circuit miles as SCEG's system, a major portion overlaps the latter system. Within its service area, however, SCEG has both more circuit miles and more higher voltage lines.

[3] Code of Laws of South Carolina, 1962, section 24–13 through 24–18.

[4] The Public Service Commission has required that the investor-owned utilities negotiate individually with each cooperative in or adjacent to its area on mutually agreed retail service boundaries. The parties are then to submit such agreement to the Commission for approval. So far, SCEG has completed boundary negotiations with only one co-op, an arrangement not yet approved by the Commission.

to enable them to compete with SCEG for load growth in terms of cost and power supply reliability.

Accordingly, but for the unnecessarily restrictive provisions in the applicant's wholesale contracts with its municipal and cooperative customers we would see no need for an antitrust hearing on this licensing application. We have had discussions with the applicant on this point, however, and it has agreed to negotiate with its wholesale customers the appropriate amendment or deletion of the questioned provisions as set forth in the attached letter. SCEG's commitment to change its General Terms and Conditions eliminates the unnecessarily restrictive and arbitrary veto power over a customer's use of purchased power in conjunction with an outside source of power supply. The new provisions permits such use, providing only for prior notice and agreement between the parties on any technical measures which may be needed to insure against possible damage to the interconnected systems from the customer's use of outside power. The remaining amendments delete entirely or in relevant part contractual provisions restricting use or resale of purchased power or allocating retail areas between the parties.

Therefore, so long as SCEG proceeds promptly in the manner in which it has represented and files appropriately amended contracts with the Federal Power Commission and the South Carolina Public Service Commission within 90 days, we conclude that no antitrust hearing by the Atomic Energy Commission will be required with respect to the application.

SOUTH CAROLINA ELECTRIC & GAS COMPANY

MR. JOSEPH A. MULLIN,
Attorney, Antitrust Division,
Department of Justice,
Washington, D.C. 30530.

MARCH 24, 1972.

DEAR MR. MULLIN: Following is a report on the status of the commitments made to you in your office on March 15, 1972 concerning the General Terms and Conditions of this Company and certain wholesale contracts. We will list the actions in the order as the matters were discussed at our conference.

1. The General Terms and Conditions have been changed by action of the South Carolina Public Service Commission on March 21, 1972 under Order No. E–1159 and Docket No. 16073 in that Item 5.(g) was deleted and the new Item 5.(g) is as follows:

Single Source of Supply;

Electricity supplied by the Company shall not be electrically connected with any other source of electricity without reasonable written notice to the Company and agreement by the parties on such measures or conditions, if any, as may be required for reliability of both systems.

2. March 17, 1972 we wrote to The Honorable W. E. Haslett, Mayor, town of Winnsboro, and suggested a change in the contract between the town of Winnsboro and this Company dated July 21, 1955, so that a period would be inserted after the word "Town" on the seventh line of Article 1 and the deletion of the remainder of the Article not previously deleted by modification of the contract dated August 3, 1965. We also suggested in that communication the deletion in its entirety of Article 7.

I discussed the matter of the changes in the contract with Mayor Haslett and he said that it is now being considered by the town's Attorney.

3. We wrote to The Honorable E. O. Pendarvis, Mayor, city of Orangeburg, on March 17, 1972, and suggested that the contract between the city of Orangeburg and this Company dated July 27, 1964, be changed by the insertion of a period after the word "requirements" on the third line of the second paragraph and the following phrase be deleted "for resale to both its current and future customers of electric energy in the city and its environs:".

We have discussed the suggested changes with Mr. Alan McC. Johnstone, Manager of the Department of Public Utilities, city of Orangeburg, and he said that the Mayor and Council will take action on the changes at the next meeting of the Council which will be held within the next 10 days.

4. We wrote to Chairman J. W. Fooshe, Commissioners of Public Works, town of McCormick, on March 17, 1972, and suggested a change in the contract between town of McCormick and this Company dated May 2, 1951, to amend Article 12 by the insertion of a period after "customer" in the third line from the bottom and the deletion of "for the operation of electric lights, motors, and appliances in the town of McCormick, S.C."

I discussed this change with Mr. Paul R. Brown, who for many, many years was Chairman of Commissioners of Public Works and who signed the original contract, and he told me he would have Mr. Fooshe sign my letter accepting the change and return it to us at an early date.

5. We wrote to Mr. C. M. Keiffer, President, Palmetto Electric Cooperative, Inc., on March 17, 1972, and suggested a change in the contract between that Cooperative and our Company dated October 25, 1946, by the deletion of Items 14, 15, and 16.

Mr. Keiffer signed our letter in the space captioned "Accepted" and returned it to us. This letter together with the others will be filed with the Federal Power Commission as soon as they are received by us.

6. We wrote to Mr. J. Elmer Branyon, President of Little River Electric Cooperative, Inc., on March 17, 1972 and suggested a change in the contract between that Cooperative and our Company dated November 3, 1948, by the deletion of Items 14, 15, and 16.

7. We wrote to Mr. W. G. Strozier, President, Berkeley Electric Cooperative, Inc., on March 17, 1972, and suggested a change in the contracts between that Cooperative and our Company as follows:

We suggested the deletion of Items 14, 15, and 16 in contract dated July 11, 1950, and the two contracts dated October 11, 1950, which cover the service points of Awendaw, S.C.; Mount Pleasant, S.C., and Johns Island, S.C., respectively.

8. We wrote to Mr. Carlisle Hart, President, Broad River Electric Cooperative, Inc., on March 17, 1972, and suggested a change in the contract between that Cooperative and our Company dated March 1, 1949 by the deletion of Items 17, 18, and 19 and the second and third paragraphs of the attachment identified as Electric Rate Schedule No. 10—Resale Service to Nonprofit Electric Cooperatives.

As soon as we have received acceptance of the changes agreed to in our conference and covered by our communications to the several wholesale customers, we will file the changes to our contracts with the Federal Power Commission and at the same time furnish you with the information filed.

Sincerely,

ALLAN C. MUSTARD.

[Dockets Nos. 50–250, 50–251]

FLORIDA POWER & LIGHT CO.

Establishment of Atomic Safety and Licensing Board

In the matter of Florida Power & Light Co. (Turkey Point Units 3 and 4), Dockets Nos. 50–250, 50–251.

On April 4, 1972, the Commission published in the FEDERAL REGISTER (37 F.R. 6777) a notice of hearing concerning the application for operating licenses for two pressurized water reactors filed by the Florida Power and Light Co. That notice indicated the Safety and Licensing Board for this proceeding would be designated at a later date, and the notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations in Title 10, Code of Federal Regulations, Part 2 (Rules of Practice) and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. A. Dixon Callihan, Dr. Cadet H. Hand, Jr., and Mr. Samuel W. Jensch, Chairman. Dr. Emmeth A. Luebke has been designated as a technically qualified alternate and Mr. Jerome Garfinkel has been designated as an alternate qualified in the conduct of administrative proceedings.

The date and place of a prehearing conference and of a hearing will be set by the Board. Notice as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

Dated at: Washington, D.C., this 10th day of April 1972.

JAMES R. YORE,
Executive Secretary, Atomic Safety and Licensing Board Panel.

[FR Doc.72–5645 Filed 4–11–72;8:50 am]

[Dockets Nos. 50–250, 50–251]

FLORIDA POWER & LIGHT CO.

Notice and Order for Prehearing Conference and Evidentiary Hearing

In the matter of Florida Power & Light Co. (Turkey Point Nuclear Generating Units No. 3 and No. 4), Dockets Nos. 50–250, 50–251.

The Atomic Energy Commission, by its memorandum and order and notice of hearing, provided that the dates of a prehearing conference and the evidentiary hearing be designated by the Atomic Safety and Licensing Board. The order and memorandum of the Commission stated that the issue for consideration at the conference and hearing will be the steam line safety valve header failure incident referred to in the petition seeking a hearing filed by Paul Siegel of Miami.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, a prehearing conference in this proceeding shall convene at 1 p.m., on Wednesday, May 10, 1972, at Executive Conference Room 208, Federal Office Building, 50 Southwest First Avenue, Miami, FL. At that prehearing conference in accordance with the notice of hearing issued by the Commission on March 30, 1972, the date of the evidentiary hearing in this proceeding will be designated to be May 11, 1972, and the evidentiary hearing shall convene in this

V 37 71
APR 12 72
XUM

proceeding at 9:30 a.m., on May 11, 1972, in Executive Conference Room 208, Federal Office Building, 50 Southwest First Avenue, Miami, FL.

Issued: April 10, 1972, Germantown, Md.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

CIVIL AERONAUTICS BOARD

[Dockets Nos. 20993 etc.; Order 72-3-105]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fare, Cargo Rate, and Related Transpacific Far East Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of March 1972.

Agreements adopted by the Traffic Conferences of the International Air Transport Association relating to passenger fare, cargo rate, and related transpacific and Far East matters, Docket 20993; Agreement CAB 22332, R-24; Docket 22628; Agreement CAB 22628; Docket 23333; Agreements CAB 22332, R-53; 22460;[1] 22689; 22742; 22821; and 22900;[2] Docket 23486; Agreements CAB 22663;[3] 22823; 22854; and 22900.[3]

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the International Air Transport Association. Insofar as they are of significance in air transportation as defined by the Act, the agreements, which have been assigned the above-designated CAB agreement numbers, comprise the overall worldwide fare structures generally intended for effectiveness from April 1, 1972, and cargo rate structures in the Western Hemisphere and South Pacific.

By Order 72-2-33, dated February 10, 1972, procedural dates were established by the Board for the receipt of carrier data and justification, comments, objections, and replies with respect to the agreements on file with the Board. Data and comments have been received from numerous persons and the matter is now ready for the Board's decision. This order will deal with North/Central and South Pacifics fare and rate matters and other orders issued contemporaneously herewith will deal with other areas.

The agreements. The agreements represent a slight modification of last year's transpacific fare and rate structure and are comprised generally of increases in a majority of fares, reductions in other fares, and the introduction of a new promotional fare in the South Pacific. The proposed cargo rates between the West Coast and the South Pacific generally reflect increases in the minimum charges, the elimination of general cargo rate levels at the 200 kilogram weight-break, and various adjustments, cancellations, and additions, within the specific commodity rate structure. Appendix A[3a] sets forth a comparison in principal markets of present and proposed fares and rates, and percentage changes.

Carrier justification. The U.S. carriers urge approval of the agreements and have furnished statements and data in support of their views. In general, they contend that the agreed fares and rates are fully justified by higher costs of service, including new charges levied by various governments for enroute facilities and by the devaluation of the U.S. dollar in relation to other currencies. The carriers' forecasts of their revenues, expenses, and earnings under the agreed fares are summarized in Appendix B,[3a] Table I.

Support for the Pacific agreements has also been advanced by Japan Air Lines Company, Ltd. (JAL). JAL urges prompt approval of the agreements, stating that since December 1, 1971, the carriers serving Japan have suffered a revenue loss of 4.73 percent on more than half of their total traffic due to currency revaluation, and that the increases embodied in the agreements would not provide full recovery of these losses.

Comments and objections. The only opposition to the North/Central Pacific fare agreement is expressed by the Aviation Consumer Action Project (ACAP). ACAP alleges that the agreements are not supported by adequate conference documents; the Board in ex parte meetings with the carriers made the carriers aware of its tentative views on these fares; the Board lacks the legal authority to ascertain the fairness and reasonableness of international air fares and is therefore not competent to approve the proposed fares; the proposed 1972 fares are higher than those available in 1962; the proposed fares are unreasonable; the U.S. airlines' participation in IATA is not justifiable; the disparity between transatlantic and transpacific fares is untenable; and the IATA directional fares are adverse to the public interest and in any event IATA has no jurisdiction to prescribe proportional fares. ACAP requests rejection of the agreements. However, if the Board decides in favor of approval, ACAP contends that it should avoid making any findings as to the reasonableness of the fares embraced by the agreements.

Replies. Both Pan American and Northwest Airlines, Inc. (Northwest) allege that ACAP has made numerous miscalculations and has failed to demonstrate in what was the agreement encompassing North/Central Pacific fares is contrary to the public interest. Specifically, the carrier respondents contend that the procedures undertaken in connection with the North/Central Pacific fares were not contrary to the Federal Aviation Act; that the comparison made between 1972 and 1962 fares is laden with errors and omissions; that ACAP has failed to prove its allegations of unreasonableness; that its comparison of transatlantic with transpacific fares is incorrect; that directional fares are in the public interest; and that the proportional fares are in the public interest and IATA does not fix fares for local travel between U.S. domestic points.

Findings. West Coast-Tokyo fares for the most part are to be increased from 1 to 13 percent, except for two fare categories (westbound basic season group inclusive tour fares and fares for affinity groups of 70) which are reduced by 4 and 11 percent, respectively. Fares from the West Coast to other Far Eastern points reflect increases of 7 percent, except basic season group inclusive tour fares and fares for affinity groups of 70 which are decreased by 1 to 2 percent. Between the West Coast and Australia, fares are generally proposed to be increased from 6 to 11 percent, while affinity group fares provide reductions of 12 percent from present fares. In addition, new low-level group inclusive tour fares are introduced in the South Pacific. Between the West Coast and Tahiti, fares are generally increased 6 percent (excursion fares are up 10 percent), while affinity group fares are reduced by 12 percent. The cargo rates agreed upon between the West Coast and the South Pacific generally provide for increases in minimum charges, and the elimination of a 200-kilogram weight break in the general rate structure. Additionally, related specific commodity rates are agreed to be increased and others to be canceled. The finally agreed fare and rate structures represent a composite of separate agreements reached by the carriers.

One agreement revised the fare structure to and from Japan by increasing normal economy, excursion, affinity groups of 25, and individual inclusive tour fares in amounts ranging from $30 to $40, round trip. First-class fares remained unchanged, while group inclusive tour fares and affinity group fares for 70 or more were reduced by $30 to $75. These changes were made to cover new costs arising from the imposition of enroute facilities charges by the Government of Japan, and to partially offset increased costs incurred as a consequence of the fluctuating relationship between the dollar and the yen. Fares agreed to points in the Far East other than Japan were not at that point changed, except for reductions in basic season group inclusive tour fares and fares for affinity groups of 70 or more. First-class, economy, and excursion fares between the West Coast and Australia were increased from $30 to $60, whereas affinity group fares were decreased by $121. A subsequent agreement raised all the North and Central Pacific fares by 7 percent and South Pacific fares by 6 percent to offset the higher costs of doing business resulting from the devaluation of the dollar in relation to other currencies. The agreed South Pacific cargo rates were likewise raised by 6 percent for the same reason.

In response to Board Order 72-2-33, the carriers furnished detailed forecasts of traffic, capacity, revenue, costs, investment, and rate of return on the basis of the present and the proposed fares. Appendix B, tables I and II summarize the carriers' submissions.

Pan American, the U.S. combination carrier serving both the North/Central and the South Pacific routes states in its justification to the Board requesting approval of the agreements that its seat-load factor will increase from 49.8 percent in 1971 to 51.2 percent in 1972, reflecting available seat-mile increases of 22.9 percent, with revenue passenger miles expected to increase by 26.5 percent. Associated with the projected increase in traffic under the proposed structures is an increase of $12.5 million in revenues which is in large part offset by increased costs stemming from the impact of currency revaluation, the imposition of en route facilities charges, and increased fuel and other costs representing $12.4 million. The carrier alleges that the overall impact of the package now before us would be a submarginal return on investment of 3.18 percent—substantially below the 12 percent return which the Board found to be reasonable for domestic transportation. In the event of Board disapproval of the agreements, Pan American estimates its return on investment in transpacific services at 0.55 percent.

Northwest Airlines alleges that the transpacific fare agreements will only partially recover added expenses flowing primarily from currency revaluation and en route facility costs. Northwest projects increased revenues of $6.2 million which are offset by anticipated increases in fuel costs, en route facility charges and costs related solely to currency revaluation totaling $5.4 million. Not included in the carrier's estimates are contractual labor cost increases and anticipated increased costs of vendor supplies. In the event of Board approval of the fare agreements, Northwest anticipates a return on investment in 1972 of 7.54 percent compared with a return of 5.19 percent at existing fares. The carrier estimates a passenger-load factor of 35.7 percent in 1972, reflecting an increase over 1971's 29 percent. Passenger-miles and seat-miles are forecast to grow by 37 and 18 percent, respectively. The carrier contends that the projected modest increase in fares will have only a slight impact on traffic.

American Airlines, serving the South Pacific, projects load-factor improvements of 10.8 points (from 26.8 to 37.6) and an increase in net revenues of approximately $700,000 in the event the fare agreement is approved as compared with revenues estimated at current fares. A portion of the revenue increase is intended to cover increased expenses arising from currency revaluations—$157,000. This carrier estimates that it would realize a return on investment of 7.3 percent in the event of Board approval; however, if the Board were to disapprove the subject agreements its return (excluding MAC operations) would be only 1 percent.

Trans World Airlines, Inc. (TWA), which serves only the Central Pacific to points other than Japan, projects an operating loss of close to $9 million under the proposed fares; in the event of disapproval by the Board, the carrier estimates an operating loss of about $10 million. TWA projects a slight decline in revenue passenger miles attributable to the proposed fare increases. However, the carrier estimates it would realize an improvement of 1.5 points in its return on investment, but would still be in a negative earnings position. Increased revenues stemming from the fare package are estimated at $890,000, as compared with revenues at existing fares, with increased costs attributed to currency revaluation estimated at $1,337,000—well in excess of the anticipated revenue increase.

The Board has reviewed the carrier data and has made certain adjustments to reflect somewhat higher load factors and to delete projected cost increases which do not appear to arise from contractural obligations. The adjustments parallel those made to the carrier's forecasts for transatlantic services. The details of these adjustments are shown in appendix B, table III.

Pan American and Northwest, which together account for the bulk of U.S.-flag carrier transpacific services, project for 1972 substantial increases in passenger traffic over 1971 volumes, amounting to 27 and 37 percent, respectively. Notwithstanding the already comparatively low load factors experienced in 1971, each carrier forecasts large capacity increases, 23 percent for Pan American and 13 percent for Northwest. The resulting passenger load factors for 1972 are only 51 percent for Pan American and 36 percent for Northwest. The latter carrier attempts to justify its low load factor in terms of its being required to operate transpacific flights from both Los Angeles and San Francisco. We know of no requirement, however, that Northwest operate three of its four transpacific flights with B-747 aircraft instead of the pattern of two B-707 flights and two B-747 flights operated last year, and we can find no basis to charge the ratepayers for the excess capacity resulting from such operations. Disallowance of the capacity attributed to the substitution of one B-747 for one B-707 flight reduces allowable seat-miles by nearly 20 percent and produces a load factor of 44 percent. While this load factor appears somewhat low, we have decided to recognize such load factor herein for present purposes in view of the nature and circumstances of Northwest's transpacific services. Acceptance of the indicated load factors involve a substantial element of judgment and we have not had an opportunity to make a more thorough review of the capacity requirements in the various markets affected by these agreements. Our conclusions, therefore, are applicable solely to the instant resolutions and are without prejudice to a reevaluation of this entire question in dealing with future agreements.

For the Pacific, Pan American's forecast, unlike its forecast for the transatlantic area, shows a substantial increase in seat-miles, largely offsetting the traffic growth it anticipates, despite the fact that its 1971 load factor was only 50 percent. In our opinion, an increase of capacity of the magnitude proposed (23 percent) is not required by, and therefore should not be charged to, the traveling public. We will recognize for rate-making purposes, however, an increase in capacity of 15 percent which, coupled with the 27 percent traffic increase, results in a passenger load factor of 55 percent.[4]

We have also reviewed the carriers' estimates of operating expenses and adjustments have been made to Pan American's projections consistent with the adjustments and disallowances from its transatlantic forecast. Operating expenses have also been disallowed for both Pan American and Northwest to reflect the capacity adjustments discussed above.

On an adjusted basis, the projected 1972 return on investment after taxes for each of the four U.S.-flag carriers is as follows:

American	1.3%
Northwest	13.5
Pan American	[5]6.5
TWA	−14.1

Three of the four earnings' figures are well below the 12 percent standard established by the Board in Phase 8 of the Domestic Passenger Fare Investigation, for domestic U.S. services.[6] The earnings of the U.S. transpacific operators have declined sharply in the last 2 years from the extremely high level that prevailed earlier,[7] and are forecast to remain at much more moderate levels through the current year. The decline does not appear to be entirely or largely due to cyclical factors but is also due, we believe, to modifications in carrier route structures and competitive patterns, and carrier costs of operation. Therefore, we do not believe the carriers very favorable earnings of several years past require us to disapprove the instant agreements which embody numerous

[2] Agreement CAB 22900, R-1 through R-11.

[3] Agreement CAB 22663, R-32; R-34; R-36 through R-39; R-41 through R-43; R-60 through R-62; R-64; R-66 through R-68; R-71; R-73 through R-75; R-77; R-78; R-80; R-81; R-83; R-86; R-87; R-91; R-93; R-95 through R-99; R-102; R-105; R-106; R-113; R-114; R-189; R-255 through R-258; R-260 through R-267; R-274; R-275; R-277 through R-287; R-289; and R-290.

[3a] Filed as a part of the original document.

[4] American and TWA operate relatively new and less dense routes in the Pacific which appears to justify their estimated load factors of 38 and 42 percent, respectively.

[5] For the reasons set forth in our contemporaneous order concerning transatlantic IATA agreements, we give relatively little weight to Pan American's indicated earnings.

[6] Domestic Passenger-Fare Investigation, Docket 21866-8, Order 71-4-58, April 9, 1971.

[7] Appendix B, page 5, table IV.

V 37 71 APR 12 72 XUM

price increases in both the passenger- and cargo-rate structures. By the same token future traffic growth, rising load factors, and effective cost control programs should enable the carriers to achieve reasonable earnings.

Moreover, as we discussed at some length in our transatlantic order, the bulk of the agreed increases flows from the adjustment to reflect the devaluation of the U.S. dollar in relation to other currencies. As shown in appendix B, the U.S. carrier earnings would be measurably less favorable if the currency adjustment is not made, and it is likely that the situation of foreign air carriers would be worse. Yet the increased costs of doing business resulting from the dollar devaluation incurred by the industry as a whole are beyond the control of the carriers. On the basis of the facts before us, the carriers' 7-percent adjustment to North and Central Pacific fares and 6 percent to South Pacific fares and rates appear reasonable and justified.

The fare structure modifications inherent in the instant agreements similarly appear to be reasonable. The carriers apparently intend to rely more on the group inclusive tour fare as a basis for increased tourist travel in the area. For North and Central Pacific services the maximum GIT discounts are in the range of 37–42 percent from normal economy fares. A similar fare is being introduced on South Pacific routes at moderately greater discounts. We continue to believe that more emphasis should be given to promoting new individual travel than seems to be accomplished by the existing structure but will not withhold approval now on that basis.

The adjustments in the South Pacific cargo rate structure appear to be reasonable and likely to improve the economics of the cargo services.[8] We perceive no basis to disapprove the cancellation of the 200 kg. weight break or the cancellation of various specific commodity rates. We have historically viewed weight breaks and commodity rates as promotional services and have permitted carriers substantial flexibility with respect to them with a view to optimizing the economics of the cargo services.

ACAP's comments submitted in connection with the pending transpacific fare agreements are similar in many respects to its comments on the transatlantic fare agreement,[9] and to that extent we have disposed of these comments in our transatlantic order.[10] Other comments go to the merits of the instant agreements. As elsewhere discussed in detail in this order we have carefully reviewed the fare agreement on the merits and have concluded to approve it. ACAP also urges the Board not to approve, without further inquiry the resolutions dealing with seating configurations, routing control, conditions of service, and baggage allowance. These matters are clearly an integral part of the fare structure, and ACAP has submitted no evidence or basis to withhold approval. Finally, ACAP contends that the U.S. carriers should not be permitted to participate in IATA. Such participation has long been permitted by the policies of this Government. In any event, this matter is irrelevant to the issues presented by the instant agreements.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that those resolutions and agreements set forth in Appendix C [11] are adverse to the public interest or in violation of the Act;

2. It is not found that those resolutions set forth in Appendix D [11] are adverse to the public interest or in violation of the Act, provided that approval is subject to conditions previously imposed by the Board;

3. It is not found that those resolutions and agreements set forth in Appendix E [11] are adverse to the public interest or in violation of the Act, provided that approval is subject to conditions stated therein; and

4. It is not found that those resolutions set forth in Appendix F,[11] which are indirectly applicable in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act.

Accordingly, it is ordered, That:

1. Those portions of Agreements C.A.B. 22663, 22460, 22900, 22628, 22689, and 22742 set forth in Appendix C, as well as Agreements C.A.B. 22823 and 22854, be and hereby are approved;

2. Those portions of Agreements C.A.B. 22663 and 22460 set forth in Appendix D are approved subject to previous conditions imposed by the Board;

3. Those portions of Agreements C.A.B. 22663 and 22460 set forth in Appendix E, as well as Agreements C.A.B. 22333, R–24 and R–53, and 22821, be and hereby are approved subject to the conditions set forth in Appendix E; and

4. Those portions of Agreement C.A.B. 22460 set forth in Appendix F be and hereby are approved.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[12]

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-5569 Filed 4-11-72;8:49 am]

[8] We are, however, conditioning approval of Resolution 511, Rates for Live Animals, to preclude high minimum charges for this type of traffic above the level of those established for consignments of a general nature. No justification has been submitted by the carriers as to why such traffic should take a surcharge. We are also conditioning the resolution so as to apply past Board policy with respect to baby poultry, monkeys, and primates uniformly to all areas of air transportation as defined by the Act.

[9] For example, the ACAP contentions that the documentation and justification submitted by the carriers are inadequate; that the Board should refrain from deciding the reasonableness of the agreed fares; that IATA has no authority to agree on proportional fares; and that the Board engaged in an ex parte meeting with the U.S. IATA carriers on the basis of which it issued a policy statement on fares, have all been disposed of in the transatlantic order. Moreover, without conceding that any meeting between the Board and U.S. IATA carriers is improper, it can be stated that none was held on the subject of transpacific fares at any time prior or subsequent to the Miami Traffic Conference.

[10] ACAP's comments regarding the directional character of the Pacific GIT fares were rejected by Order 71–12–140.

[11] Filed as a part of the original document.

[12] A joint partial statement filed by Member Minetti and Murphy will be issued later.

FEDERAL POWER COMMISSION

[Docket No. R–371, etc.]

RICHTER OIL CO., ET AL.

Order Granting Special Relief and Terminating Proceedings

APRIL 6, 1972.

Area rates for the Appalachian and Illinois basin areas, Docket No. R–371; Richter Oil Co., et al. v. Pennzoil United, Inc., Docket No. RI71–436, etc.[1]

On October 30, 1970, Richter Oil Co. (Richter) filed a petition for reconsideration of the Commission's Order No. 411, issued October 2, 1970, and for special relief thereunder.[2] By Order No. 411, the Commission added new §§ 154.107 and 154.108, and new paragraphs (e) and (f) to § 157.40, of its regulations under the Natural Gas Act. The new provisions of the regulations set forth maximum and minimum just and reasonable rates for the Appalachian and Illinois basin area.

Richter, a small producer, filed its petition for special relief under that section of Order No. 411 which fixed a minimum rate of 20 cents per Mcf at 15.325 p.s.i.a. to be paid producers of natural gas in the Appalachian basin area. However, Richter requests that the Commission grant to it a minimum rate of 25 cents per Mcf for sales of natural gas by it to Pennzoil United, Inc. (Pennzoil). Pennzoil transports and resells the gas to Consolidated Gas Supply Corp. (Consolidated).

For reasons stated in Order No. 411–B, we determined that the sales by Richter to Pennzoil were not sales to a pipeline purchaser, or "an affiliate of the same", as that phrase is used in Order No. 411, and thus were not entitled to the minimum rate prescribed therein. We stated in Order No. 411, however, that:

> • • • (I)f there are instances where a producer should receive some relief from unreasonably low contract prices for a sale to an independent intermediate buyer such situations should be brought to our attention through a petition for special relief.

Thus, Richter's petition for special relief has properly been filed, even though it requests a rate above the minimum rate we established in Order No. 411.

Subsequently, 42 other small producers—who sell gas to Pennzoil which is resold to Consolidated—also filed petitions for special relief in which each asked for a minimum rate of 25 cents per Mcf.

Richter, and each of the petitioners (Richter et al.), aver that Pennzoil pays 12 and 15 cents per Mcf for gas sold under contracts which do not provide for any price redetermination. Each of the petitioners filed exhibits and appendices to its petition which show, inter alia, that it has sustained, and is sustaining a net operating loss in its natural gas business, or that it is receiving so low a revenue from current operations that it cannot continue in the natural gas business.

Initially, Pennzoil opposed each of the petitions for special relief, because, it averred, the rate it was charging and collecting from Consolidated for such gas did not permit it to pay petitioners any more for their gas without confiscation. Subsequently, however, Pennzoil filed, on July 14, 1971, an amendment to its contract with Consolidated which provided, inter alia, that it would increase its rate to Consolidated from 25 cents to 29.58 cents per Mcf at 15.025 p.s.i.a. at 50° F.,[3] and would increase the rate it paid to its producer-suppliers a commensurate amount. Pennzoil's contract amendment, and related notice of change in rate, under its FPC Gas Rate Schedule No. 10, were accepted by the Commission effective as of July 15, 1971. Consequently, Richter et al., received an approximate 5-cent increase per Mcf for their sales of natural gas to Pennzoil at that time.

Simultaneous with the filing of its contract amendment and proposed increase in rate, Pennzoil filed its petition for special relief in Docket No. R–371, requesting that it be granted authority to increase its rate to Consolidated from 29.58 cents to 35 cents per Mcf at 15.025 p.s.i.a. at 50° F.[3] In support of its petition, Pennzoil cited the Commission's statement in its Order No. 411, 44 FPC 1112, at 1123:

> • • • it is proper to include a gathering allowance for all sales as part of the ceiling rate as we have done here. Such allowance should adequately recompense the producers for whatever gathering services, if any, they perform. However, in the event the gathering performed by an individual producer in this area is of such magnitude that special consideration is required, then that producer may file a request for special relief.

And it tendered a cost of service exhibit which shows that its unit cost of gathering the subject gas for sale to Consolidated is 13.81 cents per Mcf. Pennzoil's exhibit shows that it owns and operates over 100 separate, unconnected gathering systems to gather the gas it delivers to Consolidated; that it purchases such gas at more than 400 meter points, and that its gathering system consists, in the aggregate, of approximately 1,800 miles of lines ranging in size from 2 inches to 10 inches. Further, Pennzoil shows that much of the gas it purchases, gathers, and sells to Consolidated must be compressed by it prior to delivery to Consolidated at 116 delivery points. No answer, objection or response was filed by any party to Pennzoil's petition.

Consideration and examination by us of Pennzoil's cost of service exhibit and its statements in support thereof show that its gathering functions with which we are concerned are not of the character which we had under consideration when we determined in our Order No. 411 that it was not feasible to limit the ceiling rates to wellhead sales, ibid, p. 1123. Consequently, we find that Pennzoil has demonstrated that its gathering functions are of such magnitude as to require special consideration, and we shall grant it the relief requested.

In its petition, Pennzoil stated that it had advised the producers from whom it purchases gas that as of the effective date of the increase which it seeks herein, it will increase the price Pennzoil pays to them by a like amount. Therefore, our allowance of Pennzoil increasing its rate to Consolidated from 29.58 cents to 35 cents per Mcf at 15.025 p.s.i.a. at 50° F., means that it will increase the price it pays to Richter et al., and other producers from whom it may purchase gas for resale to Consolidated, by a like amount. Consequently, by granting Pennzoil's petition, we have in effect granted the petitions for special relief filed by Richter et al., because each of them will be receiving at or about 25 cents per Mcf at 15.025 at 50° F. for gas sold to Pennzoil. Thus, their petitions for special relief are rendered moot by our action herein, and we shall terminate those proceedings.

The Commission finds:

(1) The public interest requires and good cause has been shown to grant the petition for special relief filed by Pennzoil in Docket No. R–371 on July 14, 1971, and to permit it to make appropriate rate filings to implement the same.

(2) The proceedings in Docket No. RI71–436, and those set forth below should be terminated.

The Commission orders:

(A) The petition for special relief filed herein by Pennzoil on July 14, 1971, is granted to the extent that a rate of 35 cents per Mcf at 15.025 p.s.i.a. at 50° F., shall apply to its sales of natural gas to Consolidated Gas Supply Corp. under Pennzoil's FPC Gas Rate Schedule No. 10, effective as of the date of this order upon compliance with the provisions of ordering paragraph (B) hereof. As provided in its petition for special relief, Pennzoil shall increase the price it pays to the producers from whom it purchases gas for resale to Consolidated effective as of the date of this order commensurate with the increase granted Pennzoil herein.

(B) Within 30 days of the issuance of this order, Pennzoil shall file a notice of change in rate to the rate level authorized in ordering paragraph (A) above.

(C) The proceedings in Docket No. RI71–436, and those set forth below, are terminated.

By the Commission.

[3] The names of the other petitioners, and the respective docket numbers are set forth below.

[Docket No. CP72–234]

NORTHERN NATURAL GAS CO.

Notice of Application

APRIL 5, 1972.

Take notice that on March 29, 1972, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP72–234 an application pursuant to section 7(b) of the Natural Gas Act for permission for and approval of the abandonment of certain natural gas facilities in Sarpy County, Nebr., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

V 37 - 71
APR 12 72
XUM

Applicant proposes to abandon its Omaha TBS No. 2 metering and regulating station in Sarpy County, Nebr., which was used to sell and deliver volumes of natural gas to Metropolitan Utilities District (Metropolitan) for resale to the Foxley & Co. Feedlot (Foxley). Metropolitan has advised applicant that it has discontinued service to Foxley and that Foxley has discontinued operations.

Applicant estimates the cost of removing the Omaha TBS No. 2 metering and regulating station at $100.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-5552 Filed 4-11-72;8:47 am]

NCNB CORP.

Proposed Acquisition of Trust Company of Florida

NCNB Corp., Charlotte, N.C., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Trust Company of Florida, Orlando, Fla. Notice of the application was published on February 15, 1972, in the Orlando Sentinel and the Orlando Evening Star, newspapers circulated in Orlando, Fla.

Applicant states that the proposed subsidiary would engage in the activities that may be carried on by a trust company (including activities of a fiduciary, agency, or custodial nature; acting as an investment and financial adviser, manager, and counselor; investing, reinvesting, and generally managing the funds entrusted to it in its fiduciary or advisory capacity, and performing such other incidental activities necessary to conduct a trust company business), in the manner authorized by the laws of the State of Florida, but not accepting demand deposits or making commercial loans. The activities that the proposed subsidiary would engage in have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of

resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 5, 1972.

Board of Governors of the Federal Reserve System, April 6, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

[FR Doc.72-5553 Filed 4-11-72;8:47 am]

SAVANNAH BANK & TRUST COMPANY OF SAVANNAH

Order Approving Application for Acquisition of Assets and Assumption of Liabilites

Savannah Bank & Trust Company of Savannah, Savannah, Ga. (Savannah Bank), a member State bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with Chatham Savings Bank, Savannah, Ga. (Chatham Bank), by means of the purchase of assets and assumption of liabilities of the Chatham Bank. As an incident to the merger, the present office of Chatham Bank would become a branch of Savannah Bank.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation.

The Board has considered the application and all comments and reports received in the light of the factors set forth in the Act, and finds that:

Savannah Bank, with deposits of approximately $101 million, is the seventh largest banking organization in Georgia, holding 1.3 percent of total commercial bank deposits in the State.[1] Chatham Bank ($3.4 million in deposits) is a small savings institution prohibited from accepting demand deposits under Georgia law. Approval of this merger would minimally affect statewide concentration figures.

Savannah Bank, located 95 feet from Chatham Bank, competes directly with that bank for time and savings deposits and real estate loans in Chatham County, the relevant geographic market. In Chatham County, Savannah Bank is the second largest commercial banking organization in that market. Savannah Bank holds 15.4 percent of time and savings deposits held by all financial institutions in the relevant market, and Chatham Bank holds 1.2 percent. After the merger, Savannah Bank would continue to rank third in the market for time and savings deposits with 16.6 percent of the market total. In view of the facts of record, the Board concludes that the proposed merger would result in the elimination of some direct competition and that the effect on competition would be adverse. However, the Board is required to consider whether other aspects of the instant proposal are such that approval would be in the public interest.

Chatham Bank, over the past 5 years, has been experiencing a decline in deposits, and its net current earnings have been lower than the average for similar size Georgia banks. Furthermore, within the past 2 years Chatham Bank's president and vice president have died; now that financial institution's only active officer is approaching retirement age. Chatham Bank does not have a stock option plan, profit sharing plan or retirement system. In view of the above, Chatham Bank does not appear capable of attracting the type of individual who would be able to stimulate its growth. The likelihood of Chatham Bank's converting to a full service commercial bank as other savings banks have done is remote as the individuals who own control of this bank live over 100 miles from Savannah and the record indicates they are not interested in such a conversion. Thus, the potential for substantial increased competition developing between Savannah Bank and Chatham Bank is not likely. From the record, it appears that Savannah Bank is the only financial institution that has shown any interest in acquiring Chatham Bank and Savannah Bank's interest has arisen previously because of the latter institution's ownership of real estate near Savannah Bank's main office which it desires for future expansion purposes.

In the light of Chatham Bank's serious management succession problem, there is no assurance that capable management can be attracted to the Bank in the absence of approval of the proposed transaction. Consequently, the financial and managerial factors lend substantial weight for approval of this application, and the convenience and needs aspects outweigh the adverse competitive consequences of this proposed merger. Based upon the foregoing, it is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[2] April 6, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[812-2045]

GREAT LAKES FUND, INC.

Notice of Filing of Application Declaring That Company Has Ceased To Be an Investment Company

APRIL 6, 1972.

Notice is hereby given that Great Lakes Fund, Inc., 810 Ford Building, Detroit, Mich. 48226 (Applicant), a Delaware corporation registered as an open-end, diversified investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commision declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant was organized on December 22, 1969, as a Delaware corporation with assets totaling $1,098 cash held in a commercial checking account. The Applicant originally issued 100 shares common capital stock, $1 par value, to one shareholder. Since the date of organization no other shares of any type have been issued and the one shareholder has retained all the shares originally issued to him. No investments have been made at any time and the assets totaling $1,098 continue to be held in cash in a commercial checking account. Applicant represents that it has never become an operating investment company and will not assume such status.

The Commission's records indicate that Applicant registered under the Act by filing a Notification of Registration on Form N-8A on March 16, 1970, and a Registration Statement on Form N-8B-1 on October 8, 1970. On May 4, 1971, a Registration Statement on Form S-5 was filed with the Commission under the Securities Act of 1933; that Registration Statement has not been made effective and Applicant's request for withdrawal of the Registration Statement was granted on March 17, 1972.

Section 3(c)(1) of the Act excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not

V 37-71 APR 12 72 XUM

more than 100 persons, and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than April 27, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issue, if any, of fact or law proposed to be controverted or he may request he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72–5565 Filed 4–11–72;8:48 am]

[File 500–1]

TOPPER CORP.

Order Suspending Trading

APRIL 6, 1972.

The common stock, $1 par value, of Topper Corp., being traded on the American Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934, and all other securities of Topper Corp., being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period April 9, 1972 through April 18, 1972.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 05/15–5025]

POOLED RESOURCES INVESTING IN MINORITY ENTERPRISES, INC.

Notice of Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Pooled Resources Investing in Minority Enterprises, Inc. (PRIME), 2990 W. Grand Boulevard, Suite M–15, Detroit, Mich. 48202, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application with the Small Business Administration (SBA), pursuant to Section 312 of the Act and covered by § 107.1004 of the SBA Rules and Regulations governing Small Business Investment Companies (13 CFR 107.1004(1971)), for approval of a conflict of interest transaction falling within the scope of the above sections of the Act and Regulations.

Subject to such approval, PRIME proposes to invest in Geriatries Consultants, Inc. (GCI). Approximately 19 percent of the funds needed by GCI will be obtained from PRIME, and will be used as a portion of the downpayment for the assumption of an outstanding land contract.

The proposed investment is brought within the purview of § 107.1004 of the regulations because Mr. Louis F. Simmons, Jr., Vice President-Secretary and owner (with his wife) of 37.5 percent of the stock of GCI, is a partner in the law firm of Simmons and Fuller, Professional Corp., and Mr. Alfonso C. Fuller (the other partner) is a member of the Board of Directors of PRIME, but has no affiliation with GCI either as an officer, director, or stockholder.

The application represents the following:

1. The transaction is fair and reasonable to all parties concerned.

2. The investment does not represent financing of a company which controls the licensee, nor is under common control with the licensee.

Notice is hereby given that any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed transaction. Any such communication should be addressed to the Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416. After expiration of the 15 days, SBA may dispose of this application on the basis of the information contained in the application, the comments (if any) which are received, and other relevant data.

Dated: April 5, 1972.

A. H. SINGER,
Associate Administrator for Investment.

TARIFF COMMISSION

[TEA–F–39 and TEA–W–139]

DUCHESS FOOTWEAR CORP.

Firm and Workers' Petition for Determinations; Notice of Investigation

On the basis of petitions filed under section 301(a)(2) of the Trade Expansion Act of 1962 on behalf of the Duchess Footwear Corp., Salem, Mass., and its workers, the United States Tariff Commission, on April 7, 1972, instituted investigations under sections 301(c)(1) and 301(c)(2) of the said Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women and misses (of the types provided for in item 700.43, item 700.45 and item 700.55 of the Tariff Schedules of the United States) produced by the aforementioned firm, are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to such firm, and/or the unemployment or underemployment of a significant number or proportion of the workers of the firm, or an appropriate subdivision thereof.

A public hearing in connection with this investigation will be held beginning at 10 a.m., e.d.s.t., on May 9, 1972, in the hearing room, U.S. Tariff Commission Building, 8th and E Streets NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

The petitions filed in this case are available for inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in room 437 of the customhouse.

Issued: April 7, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

APRIL 7, 1972.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's revised deviation rules-motor carriers of property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's revised deviation rules-motor carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC–76032 (Deviation No. 25), NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO 80223, filed March 27, 1972. Carrier proposes to operate as a *common carrier,* by motor vehicle, of *general commodities,* with certain exceptions, over a deviation route as follows: From junction U.S. Highway 50 and Interstate Highway 580, near Tracy, Calif., over Interstate Highway 580 to junction Interstate Highway 5, thence over Interstate Highway 5 to junction California Highway 58, thence over California Highway 58 to Bakersfield, Calif., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Barstow, Calif., over California Highway 58 to Bakersfield, Calif., thence over California Highway 99 to junction California Highway 120 near Manteca, Calif., thence over California Highway 120 via Manteca, Calif., to junction U.S. Highway 50, thence over U.S. Highway 50 via Oakland, Calif., to San Francisco, Calif., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 27]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

APRIL 7, 1972.

The following publications are governed by the new § 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 808 (Sub-No. 45) (Republication), filed July 12, 1971, published in the FEDERAL REGISTER issue of August 26, 1971, and republished this issue. Applicant: ANCHOR MOTOR FREIGHT, INC., 21111 Chagrin Boulevard, Cleveland, OH 44122. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. An order of the Commission, operating rights board, dated February 16, 1972, and served March 28, 1972, finds, That operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of automobiles, trucks, and buses, as described in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, in initial movements, in truckaway service, (1) from the plantsites of General Motors Corp. at Detroit, Willow Run, Pontiac, Flint, and Lansing, Mich., to Linden, N.J., and Wilmington, Del., and (2) from the plantsites of General Motors Corp. at Detroit, Willow Run, Pontiac, Flint, and Lansing, Mich., to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia, restricted in (2) above to the transportation of traffic moving through Linden, N.J., or Wilmington, Del.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that an appropriate permit should be issued, subject to the conditions described in (a) and (b) as follows: (a) That the holding by applicant of the permit authorized to be issued in this proceeding, and the holding of certificates by the other jointly held motor carriers, will be consistent with the public interest and the national transportation policy, subject to the right of the Commission, which is hereby expressly reserved, to impose such terms, conditions, and limitations in the future as it may find necessary in order to insure that applicant's operations shall not be contrary to the provisions of section 210 of the Act. (b) That because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

V 37-71 APR 12 72 XUM

No. MC 60470 (Sub-No. 20) (Republication), filed September 27, 1971, published in the FEDERAL REGISTER issue of October 29, 1971, and republished this issue. Applicant: MOTORCAR TRANSPORT COMPANY, a corporation, 1280 Joslyn Avenue, Pontiac, MI 48055. Applicant's representative: Eugene E. Ewald, Suite 1700, One Woodward Avenue, Detroit, MI 48226. An order of the Commission, operating rights board, dated March 14, 1972, and served April 4, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of automobiles, trucks, and buses as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in initial movements, in truckaway service, (1) from the plantsites of the General Motors Corp. at Linden, N.J., and Wilmington, Del., to Pontiac, Mich., and (2) from the plantsites of the General Motors Corp. at Linden, N.J., and Wilmington, Del., to points in Illinois, Indiana, Michigan, Ohio, and Wisconsin, restricted in (2) above to the transportation of traffic moving through Pontiac, Mich. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 113298 (Sub-No. 1) (Republication), filed May 28, 1971, published in the FEDERAL REGISTER issue of July 1, 1971, and August 26, 1971, and republished this issue. Applicant: WEST END TRANSFER, INC., 1508 Jefferson Street, Bluefield, WV. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. 20005. An order of the Commission, operating rights board, dated February 11, 1972, and served March 28, 1972, finds that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of rock dust and gravel, from points in Tazewell County, Va., and Mercer County, W. Va., to points in Pike, Letcher, Harlan, Knott, and Martin Counties, Ky.; Logan, Mingo, Kanawha, McDowell, Mercer, Summers, Raleigh, Boone, Greenbrier, Fayette, and Wyoming Counties, W. Va.; and Bland, Tazewell, Russell, Wise, Giles, Buchanan, Dickerson, Lee, and Scott Counties, Va.; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and that Commission's rules and regulations thereunder and that an appropriate certificate should be issued. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file and appropriate pleading setting forth in precise detail the manner in which it has been so prejudiced.

No. MC 124841 (Sub-No. 7) (Notice of Filing of Petition to Add Additional Shippers) (Republication), filed September 24, 1970, published in the FEDERAL REGISTER issue of October 21, 1970, and republished this issue. Petitioner: D. D. JACOBS, INC., Walla Walla, Wash. 99362. Petitioner's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. A supplemental order of the Commission, operating rights board, dated May 7, 1972, and served March 23, 1972, finds, that petitioner's permit No. MC 124841 (Sub-No. 7), issued May 24, 1971, should be modified as follows: "That operation by petitioner, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of malt beverages and wine from points in California to Pendleton, Oreg., and Kennewick and Walla Walla, Wash., under a continuing contract with Pendleton Distribution Co., and Granger Distributing Co., of Kennewick, Wash., and Dee Dee Distributing Co. of Walla Walla, Wash., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder." That because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate pleading setting forth in precise detail the manner in which it has been so prejudiced.

No. MC 125952 (Sub-No. 14) (Republication), filed August 19, 1971, published in the FEDERAL REGISTER issue of October 15, 1971, and republished this issue. Applicant: INTERSTATE DISTRIBUTING CO., a corporation, 8311 Durango Street SW., Tacoma, WA 98499. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. An order of the Commission, operating rights board, dated March 8, 1972, and served March 31, 1972, finds, (1) That operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of industrial chemicals, in containers, from Reno, Calado, Gabbs, and Luming, Nev., and points in California to points in Washington, under a continuing contract, or contracts with Van Walters and Rogers, Seattle, Wash., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and (2) that the holding by applicant of the permit authorized to be issued in this proceeding and the holding by applicant of the certificate heretofore issued in No. MC-117201 will be consistent with the public interest and the national transportation policy, subject to the condition that the permit granted herein shall be subject to the right of the Commission, which is hereby expressly reserved, to impose such terms, conditions, or limitations in the future as it may find necessary in order to insure that applicant's operations conform to the provisions of section 210 of the Interstate Commerce Act. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 135280 (Sub-No. 3) (Republication), filed July 26, 1971, published in the FEDERAL REGISTER issue of September 2, 1971, and republished this issue. Applicant: PEP LINES TRUCKING CO., a corporation, 15120 Third Avenue, Highland Park, MI 48203. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. An order of the Commission, operating rights board, dated February 16, 1972, and served March 28, 1972, finds, (1) that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of (A) such merchandise as is dealt in by mail order and chain retail department stores, and in connection therewith, materials and supplies used in the conduct of such business (except commodities in bulk), (1) from the stores and other places of business of Montgomery Ward & Co., Inc., located at Norfolk, Portsmouth, Newport News, Hampton, Virginia Beach, Suffolk, and Williamsburg, Va., on the one hand, and, on the other, points in Virginia and North Carolina, (2) from the stores and other places of business of Montgomery Ward & Co., Inc., located in Frederick County, Md., to points in Maryland, Pennsylvania, and West Virginia, (3) from the stores and other places of business of Montgomery Ward & Co., Inc., located in Hartford County, Md., to points in Maryland, Delaware, and Pennsylvania, and (4) from the stores and other places of business of Montgomery Ward & Co., Inc., located in Landover, Md., to points in Maryland, Pennsylvania, and West Virginia; and

(B) Returned shipments of such merchandise as is dealt in by mail order and chain retail department stores from the above specified destination areas to the respective origins described above, under a continuing contract with Montgomery Ward & Co., Inc., of Baltimore, Md., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. (2) That the holding by applicant of the permit authorized to be issued in this proceeding and the holding by applicant of certificates heretofore issued in No. MC-120184 and sub numbers thereunder will be consistent with the public interest and the national transportation policy, subject to the condition that the permit granted herein shall be subject to the right of the Commission, which is hereby expressly reserved, to impose such terms, conditions, or limitations in the future as it may find necessary in order to insure that applicant's operations conform to the provisions of section 210 of the Interstate Commerce Act. Because it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced.

No. MC 135821 (Republication), filed July 8, 1971, published in the FEDERAL REGISTER issue of August 12, 1971, and republished this issue. Applicant: MADELINE MILESTONE, 4233 Leiper Street, Philadelphia, PA 19124. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, PA 17011. A supplemental order of the Commission, Operating Rights Board, dated February 7, 1972, and served March 30, 1972, finds, that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of such merchandise as is dealt in by wholesale or retail department stores, between points located in that portion of New York on and south of a line beginning at the New York-Pennsylvania State line at or near Hale Eddy, N.Y., thence southeastward along New York Highway 17 to the junction of New York Highway 17 and Interstate Highway 84, thence eastward along Interstate Highway 84 to the New York-Connecticut State line; and those points in that portion of Connecticut on and south of a line beginning at the New York-Connecticut State line, thence eastward along Interstate Highway 84 to the junction of Interstate Highway 84 and Connecticut Highway 34 at or near Sandy Hook, Conn., thence southeastward along Connecticut Highway 34 to New Haven, Conn., and points in Pennsylvania on and east of a line beginning on the New York-Pennsylvania State line at its junction with U.S. Highway 15 at or near Lawrenceville, Pa., thence southward along U.S. Highway 15 to the junction of U.S. Highways 15 and 11, at or near Sunbury, Pa., thence southward along combined U.S. Highways 11 and 15 to the junction of combined U.S. Highway 11 and 15 and separate U.S. Highway 11 and U.S. Highway 15, at or near Camp Hill, Pa., thence southwestward along U.S. Highway 11 to the Pennsylvania-Maryland State line;

And those points in Maryland on and east of a line beginning on the Pennsylvania-Maryland State line, southward along U.S. Highway 15 to the junction of U.S. Highways 15 and 240, at or near Frederick, Md., thence along U.S. Highway 240 to the District of Columbia-Maryland boundary line, and points in Charles County, Md., and points in New Jersey, Delaware, and the District of Columbia; restricted to the transportation of traffic moving from or to the stores and facilities of Lionel Leisure, Inc., under a continuing contract with Lionel Leisure, Inc., of New York, N.Y., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MOTOR CARRIER OF PASSENGERS

No. MC 96007 (Sub-No. 27) (Republication), filed August 12, 1971, published in the FEDERAL REGISTER issue of September 23, 1971, and republished this issue. Applicant: KENNETH HUDSON, INC., doing business as HUDSON BUS LINES, 70 Union Street, Medford, MA 02155. Applicant's representative: Mary E. Kelley, 11 Riverside Avenue, Medford, MA 02155. An order of the Commission, operating rights board, dated March 8, 1972, and served March 30, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes (1) of passengers and their baggage, in special operations, and (2) of general commodities (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment) restricted (a) to the transportation of said traffic in the same vehicle with passengers, and (b) against the transportation of shipments weighing more than 100 pounds in the aggregate from one consignor at one location to the consignee at one location during a single day, between Logan International Airport at Boston, Mass., on the one hand, and on the other, points in Belknap County, N.H., to points in that part of Hillsboro County, N.H., east of U.S. Highway 202 (except Manchester and Nashua), points in that part of Merrimack County, N.H., a line beginning at the Hillsboro County line and extending along U.S. Highway 202 to Henniker, thence along New Hampshire Highway 114 to junction New Hampshire Highway 11, thence along New Hampshire 11 to junction U.S. Highway 4 and thence along U.S. Highway 4 to the Grafton County line (except Concord and Andover), points in that part of Grafton County, N.H., east of a line beginning at the Merrimack County line and extending along U.S. Highway 4 to Canaan, thence along New Hampshire Highway 118 to North Woodstock, thence along U.S. Highway 3 to the Coos County line (except Concord and Andover), and points in that part of Rockingham County, N.H., on and west of New Hampshire Highway 28 (except Perry and Salem); Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding, setting forth in detail the precise manner in which it has been so prejudiced.

NOTICE OF FILING OF PETITION

No. MC-113678 (Sub-No. 133) (Notice of Filing of Petition for Modification of Certificate), filed March 20, 1972. Petitioner: CURTIS, INC., Denver, Colo. Petitioner's representative: Richard A. Peterson, 521 South 14th Street, Post Office Box 80806, Lincoln, NE 68501. Petitioner holds certificate No. MC-113678 (Sub-No. 133), issued September 20, 1968, authorizing the transportation, over irregular routes (1) food products (except liquids, in bulk), in vehicles equipped with mechanical refrigeration, from

V 37-71 APR 12 72 XUM

points in the New York, N.Y., commercial zone, as defined by the Commission, and points in Union County, N.J., to points in Colorado, Indiana, Illinois, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, and West Virginia; (2) food products (except frozen foods, and liquids, in bulk), in vehicles equipped with mechanical refrigeration, from points in the New York, N.Y., commercial zone as defined by the Commission, and points in Union County, N.J., to points in Kansas; (3) food products (except liquids, in bulk), from points in Union County, N.J., to points in Nebraska; and (4) advertising materials, supplies, display materials, and premiums, when moving at the same time and in the same vehicle with the commodities described hereinabove, from points in the origin territory described above, to their respective destination points subject to certain conditions. Petitioner requests modification of the above-described certificate in order to add fresh meats to the commodity description. Petitioner asserts that the authority reflected by the certificate was granted as a result of support from fresh meat shippers, that it seeks this modification because of a subsequent decision in *Hilt Truck Lines, Inc., Petition for Interpretation*, 113 M.C.C. 784 (1971) wherein it was held that fresh meats cannot be transported under authority to transport food products, and that unless the concerned certificate is modified to include fresh meats, the Hilt decision will cause a reduction in authority contrary to the evidence of record in the matter. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments, in support of, or against the petition within 30 days from the date of this publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5(a) AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240)

MOTOR CARRIERS OF PROPERTY

No. MC–F–11492 (MUSTANG TRANSPORTATION, INC.—Purchase (Portion)—COMMERCIAL TRANSPORTATION, INC.), published in the March 29, 1972, issue of the FEDERAL REGISTER on page 6439. Application filed March 30, 1972, for temporary authority under section 210a(b).

No. MC–F–11504. Authority sought for control and merger by INDIANHEAD TRUCK LINE, INC., 1947 West County Road, C, St. Paul, MN 55113, of the operating rights and property of (1) DUNDEE MOTOR EXPRESS, INC., a noncarrier, (2) DUNDEE TRUCK LINE, INC., (3) C. H. RUMPF AND SONS TRUCK LINE, INC., and (4) MODERN MOTOR EXPRESS, INC., all of 6006 Stickney Avenue, Toledo, OH 43612, and for acquisition by LESTER A. WILSEY, JR., 1178 Tiller Lane, St. Paul, MN 55113, of control of such rights and property through the transaction. Applicants' representative: William L. Alvey, 1947 West County Road, C, St. Paul, MN 55113. Operating rights sought to be controlled and merged: (2) *General commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Michigan, Ohio, and Indiana, with certain restrictions, serving various intermediate and off-route points, as more specifically described in Docket No. MC–109914 and subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. (3) *general commodities* excepting among others, dangerous explosives, household goods and commodities in bulk, over regular routes, between Sturgis, Mich., and Toledo, Ohio, between points, in Michigan, service is authorized to and from all intermediate points on the above-specified routes; and on the off-route points within 5 miles of said route; *screens, screen doors, chairs and lawn furniture, window frames, and wood stock*, over irregular routes, from Adrian, Mich., to points and places in Ohio; *general commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, between points in Monroe County, Mich., on the one hand, and, on the other, points in Lucas County, Ohio, between points in Monroe County, Mich. and (4) under a certificate of registration, in Docket No. MC–58116 Sub 4, covering the transportation of property, as a common carrier, in interstate commerce, within the State of Ohio. INDIANHEAD TRUCK LINE, INC., is authorized to operate as a *common carrier* in Wisconsin, Minnesota, Iowa, South Dakota, North Dakota, Illinois, Montana, Nebraska, Missouri, Indiana, Kansas, Oklahoma, Michigan, Kentucky, Ohio, Arkansas, Colorado, Wyoming, Texas, Tennessee, New Jersey, and West Virginia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11505. Authority sought for purchase by ABBOTT TRUCKING, INC., Route 3, Delta, Ohio 43515, of the operating rights of JOHN H. SMITH, INC., 11145 Suffolk Drive, Southgate, MI 48195, and for acquisition by WILLIAM F. ABBOTT, Route 3, Delta, Ohio 43515, of control of such rights through the purchase. Applicants' attorney: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Operating rights sought to be transferred: *Coal and coal briquets*, in bulk, in dump vehicles as a *common carrier* over irregular routes, from Detroit, Mich., to points in Indiana and a described area of Ohio; *coal and coke*, in bulk, in dump vehicles, from points in Indiana and a described area of Ohio, to Detroit, Mich.; *coal, coke, and briquets*, between points in that part of Michigan on and south of U.S. Highway 10, on the one hand, and, on the other points in a defined area of Ohio and points in Indiana; *coal tar pitch*, in dump vehicles, from Detroit, Mich., to points in a defined area of Ohio; *coal tar pitch*, in bulk, in dump vehicles, from Detroit, Mich., to Niagara Falls, N.Y.; *coal briquets*, in bulk, in dump vehicles, from the plantsite of Johnson Coal Cubing Co., at Detroit, Mich., to points in Fulton County, Ohio, points in those parts of Wood and Sandusky Counties, Ohio, on and south of U.S. Highway 6, and Elmore, Marblehead, Oakharbor and Whitehouse, Ohio; *coke*, in bulk, in dump vehicles, from Toledo, Ohio, to the plantsite of Johnson Coal Cubing Co., at Detroit, Mich. Vendee is authorized to operate as a *common carrier* in Ohio, Michigan, Indiana, New York, Pennsylvania, West Virginia, Illinois, and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11506. Authority sought for purchase by ORSCHELN BROS. TRUCK LINES, INC., Highway 24 East, Post Office Box 658, Moberly, MO 65270, of the operating rights of AURORA MOTOR EXPRESS, INC., LEONARD M. SPIRA, Assignee for the Benefit of Creditors, 257 Stuart Avenue, Aurora, IL, and for acquisition by E. C. ORSCHELN, ELMER ORSCHELN, and GEORGE A. VITT, all of Moberly, Mo. 65270, and FRANCIS ORSCHELN, 601 Shumate Street, Moberly, MO 65270, of control of such rights through the purchase. Applicants' attorney: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, excepting among others, class A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Chicago, and Oswego, Ill., serving the intermediate point of Aurora, Ill., with restriction, and under a certificate of registration in Docket No. MC–36469 Sub. 3, covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of Illinois. Vendee is authorized to operate as a *common carrier* in Missouri, Illinois, Iowa, Kansas, Arkansas, Indiana, Michigan, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, and Wisconsin. Application has been filed for authority under section 210a(b). NOTE: MC–49387 Sub. 40, is a matter directly related.

No. MC–F–11507. Authority sought for merger into HUSBAND TRANSPORT LIMITED, 10 Centre Street, London, ON. Canada, of the operating rights of SCOBIE'S TRANSPORT, LIMITED, 10 Centre Street, London, ON. Canada, and for acquisition by CANADIAN NATIONAL TRANSPORTATION LTD., 159 Bay Street, Toronto 116, ON. Canada, of control of such rights through the transaction. Applicants' attorney: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Operating rights sought to be merged: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over irregular routes, between ports of entry on the United States-Canada boundary line at Buffalo and Niagara Falls, N.Y., on the one hand, and, on the other, Buffalo and Niagara Falls, N.Y., solely for the purpose of interchanging traffic with connecting carriers, with restriction. HUSBAND TRANSPORT LIMITED, operated solely within Canada. However, it is controlled by CANADIAN NATIONAL TRANSPORTATION LTD., which is controlled by CANADIAN NATIONAL RAILWAY COMPANY, which controls other rail carriers operating in the United States. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72–5580 Filed 4–11–72;8:49 am]

[Notice 44]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73513. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Gager's Express, Inc., Wildwood, N.J., of a portion of certificate No. MC–2263, issued March 14, 1967, to Laurel Transportation Corp., Rio Grande, N.J., authorizing the transportation of: Household goods as defined by the Commission, between Philadelphia, Pa., and 20 miles, on the one hand, and, on the other, points in a described area of New Jersey. Alan Kahn, attorney, 1920 Two Penn Center Plaza, Philadelphia, PA 19102.

No. MC–FC–73571. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Bestway Express, a corporation, Columbia, S.C., of certificate of registration No. MC–99769 (Sub-No. 1), issued February 13, 1964, to H. W. Bischoff Transportation Co., a corporation, Charleston, S.C., evidencing a right to engage in interstate or foreign commerce in the transportation of: Property, solely within the State of South Carolina. John H. Caldwell, attorney, 914 Washington Building, Washington, D.C. 20005.

No. MC–FC–73582. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Joseph Petrella, doing business as Petrella's Express, Downingtown, Pa., of certificate No. MC–42043, issued December 9, 1964, to Francis Petrella and Joseph Petrella, doing business as Petrella's Express, Downingtown, Pa., authorizing the transportation of: Paper and paper products, between Downingtown, Pa., and Camden, N.J., serving the intermediate points in Philadelphia, Pa., from Downingtown over U.S. Highway 30 to Camden and return over the same route. G. Donald Bullock, practitioner, 128 Greenwood Avenue, Wyncote, PA 19095.

No. MC–FC–73584. By order entered April 4, 1972, the Motor Carrier Board approved the transfer to Albert Fillmore, doing business as Fillmore Transportation, Bloomfield, Conn., of that portion of the operating rights set forth in certificate No. MC–40006, issued October 7, 1949, to Bert Hill's Express, Inc., Springfield, Mass., authorizing the transportation of: Monumental stone, funeral equipment, dental and surgical supplies, electrical household appliances, newspapers, and packinghouse products, over irregular routes, between Springfield, Mass., on the one hand, and, on the other, points and places in Hartford and Tolland Counties, Conn. Hugh M. Joseloff, 410 Asylum Street, Hartford, CT 06103, attorney for applicants.

No. MC–FC–73585. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Horace Sharp Trucking, Inc., Phoenix, Ariz., of permit No. MC–119340 issued August 8, 1965, to Neoma Sharp Hart, doing business as Horace Sharp Trucking, Phoenix, Ariz., authorizing the transportation of: Foodstuffs, soaps, bleaches, washing and cleaning compounds, detergents, and fruits and vegetables, when in the same vehicle, from points in California to points in Arizona. A. Michael Bernstein, attorney, 1327 United Bank Building, Phoenix, Ariz. 85012.

No. MC–FC–73592. By order of April 5, 1972, the Motor Carrier Board approved the transfer to Eagle Bus Lines Limited, St. Boniface, MB, Canada, of certificate No. MC–108222 issued October 7, 1947, to Beaver Bus Lines, Ltd., Winnipeg, MB, Canada, authorizing the transportation of: Passengers, and their baggage, in charter operations, from points on the international boundary line between the United States and Canada in North Dakota and Minnesota, to points in Minnesota, North Dakota, Wisconsin, Michigan, and Illinois, and return. Gene P. Johnson, attorney, 514 First National Bank, Fargo, N. Dak. 58102.

No. MC–FC–73598. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Rajor, Inc., Southgate, Calif., of the operating rights as set forth in permit No. MC–128988, issued May 14, 1969, to Jo/Kel, Inc., Los Angeles, Calif., authorizing the transportation of: Plumbing fixtures and supplies and air-conditioning and heating units (except articles which, because of size, shape or weight, require the use of special equipment or special handling), from St. Louis, Mo., Port Huron, Mich., Philadelphia, Greensburg, and York, Pa., Braintree, Mass., Houston, Tex., East St. Louis, Ill., and Fort Smith, Ark., to points in Arizona, California, and Nevada; and returned shipments of the above-specified commodities, from points in Arizona, California, and Nevada, to St. Louis, Mo., Port Huron, Mich., Philadelphia, Greensburg, and York, Pa., Braintree, Mass., Houston, Tex., East St. Louis, Ill., and Fort Smith, Ark.; plumbing fixtures and supplies, from Kohler, Wis., Spartanburg, S.C., and Camden, N.J., to points in Arizona, California, and Nevada; air-conditioning units, from Maspeth, Long Island, N.Y., to points in Arizona, California, and Nevada, restricted to operations to be performed under a continuing contract, or contracts with Pacific Cast Iron Pipe and Fitting Co. and York Division of Borg-Warner. Earl H. Scudder, Jr., Post Office Box 82028, Lincoln, NE 68501, attorney for applicants.

MOTOR CARRIER TRANSFER PROCEEDINGS

APRIL 7, 1972.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC–FC–73651. By application filed April 5, 1972, BANNING TRANSPORTATION, INC., 3002 South Douglas Boulevard, Oklahoma City, OK 73150, seeks temporary authority to lease the operating rights of MOBILE HOME EXPRESS, LTD., 1915 F Avenue, Lawton, OK 73501, under section 210a(b). The transfer to BANNING TRANSPORTATION, INC., of the operating rights of MOBILE HOME EXPRESS, LTD., is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72–5582 Filed 4–11–72;8:49 am]

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

APRIL 7, 1972.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963,

APR 12 72 XUM

page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Alaska Docket No. 72-53-MF/P, filed February 7, 1972. Applicant: JOHN W. & JOANNE C. HOOGLAND, doing business as CITY EXPRESS, Box 305, Seward, AK 99664. Applicant's representative: Roger A. McShea, Suite 300, 425 G Street, Anchorage, AK 99501. Certificate of public convenience and necessity sought to operate a freight service over a regular route as follows: Transportation of *general commodities* (except classes A and B explosives; commodities of unusual value; household goods; commodities in bulk and commodities, which because of unusual size, weight, or shape require the use of special equipment), from Seward, Alaska, to Anchorage, Alaska, over Alaska Highway 9 to its junction with Alaska Highway 1, thence over Alaska Highway 1 to Anchorage, Alaska, and return over the same route serving all intermediate points in both directions and all off-route points within 10 miles of either side of this route. Both intrastate and interstate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the State of Alaska Department of Commerce, Alaska Transportation Commission, 750 Mackay Building, 338 Denali Street, Anchorage, AK 99501, and should not be directed to the Interstate Commerce Commission.

Louisiana Docket No. 12051, filed March 28, 1972. Applicant: TRUCK TRANSPORT, INC., Post Office Box 1658, Morgan City, LA. Applicant's representative: F. A. Maraist, 1610 Cedar Street, Morgan City, LA. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of lumber and oilfield materials, from, to, and between all points in the State of Louisiana. Both intrastate and interstate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the State of Louisiana, Louisiana Public Service Commission, Baton Rouge, La. 70804, and should not be directed to the Interstate Commerce Commission.

Louisiana Docket No. 12060, filed March 23, 1972. Applicant: OZONE MOTOR LINE, INC., 4552 North Villere Street, New Orleans, LA. Applicant's representative: John Schwab, 617 North Boulevard, Baton Rouge, LA. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of general commodities (1) Intrastate: Pursuant to proposed amendments to Certificates of Public Convenience and Necessity Nos. 275-J, 275-K, and 275-L, copies of which are shown below as follows: No. 275-K amended to authorize operations as follows: To operate upon and over the regular (or irregular) route and (or) between fixed terminals as follows: From La Place over U.S. Highway 51 to Ponchatoula, for operating convenience; thence over U.S. Highway 51 from Ponchatoula to Hammond, La.; thence over U.S. Highway 190 to Baton Rouge; in both directions serving all intermediate points. Paragraph 7 of No. 275-J amended to read: From Hammond over U.S. Highway No. 190 to its intersection with U.S. Highway 61, thence over U.S. Highway No. 61 to its intersection with Louisiana Highway No. 964 near Zee, La., in both directions. (Cancels and replaces certificate No. 275-F (Amended).) No. 275-L amended to authorize operation as follows: To operate upon and over the regular (or irregular) route and (or) between fixed terminal as follows: Common carrier motor freight service of general commodities in both directions, between Baton Rouge, La., and St. Francisville, La., over U.S. Highway 61, serving all intermediate points and all points within 5 miles of U.S. Highway 61 between Baton Rouge, La., and St. Francisville, La., and the off-route point of Zee, La.; and

(2) Interstate: Pursuant to proposed amendments to Certificate of Public Convenience and Necessity Nos. MC-77594 (Sub-No. 11) and MC-77594 (Sub-No. 12), copies of which are shown below as follows: MC-77594 (Sub-No. 11) amended to authorize transportation of general commodities: From La Place over U.S. Highway 51 to Ponchatoula, for operating convenience; thence over U.S. Highway 51 from Ponchatoula to Hammond, La.; thence over U.S. Highway 190 to Baton Rouge; in both directions serving all intermediate points. MC-77594 (Sub-No. 12) amended to authorize transportation of general commodities: * * * general commodities in both directions, between Baton Rouge, La., and St. Francisville, La., over U.S. Highway 61, serving all intermediate points and all points within 5 miles of U.S. Highway 61 between Baton Rouge, La., and St. Francisville, La., and the off-route point of Zee, La. Both intrastate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this applicatoin should be addressed to the State of Louisiana, Louisiana Public Service Commission, Baton Rouge, La. 70804, and should not be directed to the Interstate Commerce Commission.

California Docket No. 53231, filed March 27, 1972. Applicant: DONALD TOBENER, doing business as GOLDEN GATE TRUCKING, Post Office Box 2285, South San Francisco, CA 94080. Applicant's representative: Eldon M. Johnson, 105 Montgomery Street, Suite 1100, San Francisco, CA 94104. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, except as follows: (1) Classes A and B explosives; (2) petroleum and petroleum products in bulk or in tank vehicles; (3) commodities of unusual or extraordinary value; (4) uncrated household goods and personal effects; (5) automobiles, trucks, and buses, viz: New and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks, and trailers combined, buses and bus chassis; (6) livestock, viz: Bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags, or swine; (7) liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles; (8) commodities when transported in bulk in dump trucks or in hopper-type trucks; (9) commodities when transported in motor vehicles equipped for mechanical mixing in transit; (10) cement; and (11) logs. *The San Francisco Territory:* Between points in California (including the city of San Jose) within an area bounded by a line beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right of way at Arastradero Road; southeasterly along the Southern Pacific Co. right of way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue;

Easterly along west Parr Avenue to Capri Drive; southerly along Capri Drive to east Parr Avenue; easterly along east Parr Avenue to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway over Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue;

Northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Both intrastate and interstate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, CA 94102 and should not be directed to the Interstate Commerce Commission.

By the Commission.

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

MEMORANDUM OF MARCH 1, 1972

[Presidential Determination No. 72-12]

Transfer of Supporting Assistance Funds to Administrative Expense Funds

Memorandum for Administrator, Agency for International Development

THE WHITE HOUSE,
Washington, March 1, 1972.

Determination under Section 610 of the Foreign Assistance Act of 1961, as amended (the "Act"), to transfer up to $3.6 million of Supporting Assistance funds to Administrative Expense funds.

In accordance with the recommendation in your memorandum of January 21, 1972, I hereby determine, pursuant to Section 610 of the Act, that it is necessary for purposes of the Act that up to $3.6 million appropriated under Section 402 of the Act be transferred to, and consolidated with, appropriations made under Section 637(a) of the Act, subject to the limitation that funds so transferred shall be available solely for administrative expenses incurred in connection with programs in Vietnam. I hereby authorize such transfer and consolidation.

You are requested on my behalf to give prompt notice of this determination, pursuant to Section 634(d) of the Act, to the Committee on Foreign Relations and the Committee on Appropriations of the Senate and to the Speaker of the House of Representatives.

Richard Nixon

Rules and Regulations

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service [1] (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 68—REGULATIONS AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

Signature on Inspection Certificates

Statement of considerations. The Agricultural Marketing Act of 1946 provides for the permissive inspection and certification as to class, quality, quantity, and condition of agricultural products under such rules and regulations as the Secretary of Agriculture may prescribe.

On August 24, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 16590) proposing that the Part 68 regulations under the Agricultural Marketing Act of 1946 be amended to provide: (1) That authorized persons be permitted to affix the name or signature of official inspection personnel to official certificates; (2) that if an inspection is performed by two or more persons, the person who makes the majority of the more significant determinations should issue the certificate; and (3) the name of the person issuing the certificate may be affixed by signature or other means.

Opportunity was afforded interested parties to submit written data, views, or comments on the proposed amendments to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by September 24, 1971. No written data, views, or comments were received on the proposed amendments.

Pursuant to the authority contained in sections 203 and 205 of the Agricultural Marketing Act of 1946, 60 Stat. 1087 and 1090, as amended (7 U.S.C. 1622 and 1624), the Part 68 regulations (7 CFR Part 68) are amended as follows:

1. Section 68.2 *Terms Defined,* is amended by the addition of "(aa)" to read as follows:

§ 68.2 Terms Defined.

* * * * *

(aa) *Official technician.* Any person licensed under the Act and regulations, or any employee of the Department who is authorized under the Act and regulations to perform specified official laboratory functions, including, but not limited to, chemical analyses, mechanical tests, or physical separations, or to perform sampling duties and related services, as specified in the license or authorization.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

2. Section 68.14 is amended by changing the introductory paragraph and adding new paragraphs (c), (d), (e), and (f) to read respectively as follows:

§ 68.14 Inspection certificate, issuance.

Immediately after an inspection has been completed, an inspection certificate shall be issued showing the results of the inspection in accordance with paragraph (a) or (b) of this section.

* * * * *

(c) *General authorization to issue certificates.* Certificates for inspection conducted by a Federal-cooperator inspection service agency may be issued in accordance with paragraph (d) of this section by any official sampler, official technician, or inspector who is employed by the cooperating agency and is licensed to perform and to certify the inspection covered by the certificate: *Provided,* That only a licensed inspector may issue a certificate which shows an official grade determination, with or without additional factor information. Certificates for inspections conducted by the Division may be issued in accordance with paragraph (d) of this section by any official sampler, official technician, inspector, or supervising inspector who is employed by the Department and authorized by the Administrator to perform the inspection covered by the certificate. In no case may a person issue a certificate unless he is licensed or otherwise authorized to issue the certificate.

(d) *Specific requirements for issuing certificates.* The person who is in the best position to know whether an inspection has been performed in an approved manner and whether the final determinations are accurate and true shall issue the certificate for the inspection. If an inspection is performed, in whole, or in large part, by one person, the certificate shall be issued by that person. If an inspection is performed by two or more persons, the certificate shall be issued by the person who made the majority of the more significant determinations. However, in any case, a supervisory inspector may issue any official certificate if he is licensed or authorized to perform the inspection covered by the certificate and has ascertained by examination of the product or relevant records that the facts stated in the certificate are true.

(e) *Name requirement.* The name or the signature, or both, of the person who issued the inspection certificate shall be shown on the certificate: *Provided,* That the name and the signature shall be shown on each original export certificate and, upon request of an applicant, shall be shown on other original certificates. If an original certificate is signed, either the signature or a stamped facsimile shall be shown on each copy.

(f) *Authorizations to affix names.* (1) The names or the signatures of official inspection personnel who issue official certificates may be affixed to the official certificates by persons other than the official inspection personnel: *Provided,* That (i) the persons are employed by a cooperating agency or by the Division; (ii) the persons have been designated as authorized agents for this purpose by a Field Office; (iii) a power of attorney authorizing the affixing of the names or signatures has been issued to each such person by each of the official inspection personnel; (iv) if the person is employed by a cooperating agency, the original or a true copy of the designation and of the power of attorney are on file in the office of the agency and a copy of each document is on file in the Field Office, and in the case of Division personnel, the original or a true copy of the designation and of the power of attorney are on file in the Field Office and a copy of each document is on file in the Regional Office; and (v) the certificate is prepared from an official work record which has been personally signed by the person whose name or signature is shown on the certificate.

(2) When a name or signature of any official inspection personnel issuing a certificate is affixed to an official certificate by an authorized agent, the word "By" and the initials of the given names and surname of the authorized agent shall be shown on the certificate immediately below or following the name or signature of such official inspection personnel.

Effective date. These amendments shall be effective 30 days after the date of publication in the FEDERAL REGISTER.

Done at Washington, D.C. on: April 7, 1972.

G. R. GRANGE,
Acting Administrator.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 264]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.564 Navel Orange Regulation 264.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel

V 37-72 APR 13 72 XUM

Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 11, 1972.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period April 14, 1972, through April 20, 1972, are hereby fixed as follows:

(i) District 1: 871,000 cartons;

(ii) District 2: 179,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 12, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5736 Filed 4-12-72;11:49 am]

[Valencia Orange Reg. 387]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.687 Valencia Orange Regulation 387.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 11, 1972.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period April 14, 1972, through April 20, 1972, are hereby fixed as follows:

(i) District 1: 10,276 cartons;

(ii) District 2: 18,683 cartons;

(iii) District 3: 150,000 cartons.

(2) As used in this section, "handler", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 12, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5735 Filed 4-12-72;11:19 am]

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs. 1971-Crop Grain Sorghum Supplement, Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1971-Crop Grain Sorghum Loan and Purchase Program

SUPPORT RATES AND DISCOUNTS

The regulations issued by the Commodity Credit Corporation, published at 36 F.R. 13263, containing regulations for price support loans and purchases applicable to the 1971-crop of grain sorghum are amended to establish a basic loan and purchase rate for counties in the State of Delaware and to increase the rates for certain counties in the State of Illinois. Harvest of the 1971-crop of grain sorghum has been completed. Farmers, who obtain loans or deliver their grain sorghum to CCC for purchase or in settlement of their loans, should receive the benefit of the increased rates. Therefore, it is hereby found and determined that compliance with the public participation provisions for proposed rule making prescribed by 5 U.S.C. 553 (b) and (c) is impracticable and contrary to the public interest. Accordingly, these regulations shall become effective upon filing with the FEDERAL REGISTER.

The amendments to the regulations are as follows:

§ 1421.239 [Amended]

1. Paragraph (a) of § 1421.239 is amended by inserting between the entries for Colorado and Florida the following:

DELAWARE	*Rate per hundredweight*
All counties	$1.79

2. Paragraph (a) of § 1421.239 is further amended by deleting Illinois and the county rates listed thereunder and inserting the following:

ILLINOIS

	Rate per hundredweight		*Rate per hundredweight*
Alexander	$1.79	Monroe	$1.74
Bond	1.71	Perry	1.74
Calhoun	1.67	Pope	1.76

Chapter XVIII—Farmers Home Administration, Department of Agriculture

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FHA Instructions 441.2, 441.4]

PART 1832—EMERGENCY LOANS

Emergency Loan Policies, Processing, and Authorizations

The requirements of 5 U.S.C. 553 involve a delay in making available assistance provided by this authority. Farmers that have had crop production losses or damages to their farms by natural disasters are seeking emergency loan assistance to continue normal operations in 162 counties declared major disaster areas by the Office of Emergency Preparedness, and in 422 counties designated emergency loan areas by the Secretary of Agriculture. Many of these requested loans are for financing 1972 crop and livestock operations. The operating year is well under way and any delay in providing loan assistance under these revised instructions would be contrary to the public interest. Accordingly, the revised Subparts A and B shall be effective upon publication in the FEDERAL REGISTER (4–12–72).

It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. See the Secretary of Agriculture's statement setting forth the policy on public participation in rule making 36 F.R. 13804, dated July 24, 1971. In accordance with the spirit of that policy, interested parties may submit written comments, suggestions, data, or arguments to the Office of the Assistant Administrator for Management, Farmers Home Administration, U.S. Department of Agriculture, Room 5013, South Building, Washington, D.C. 20250, within 30 days after the publication of this part. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. However, revised Subparts A and B shall remain effective until it is amended, in order to permit the public business to proceed expeditiously.

Subpart A—Emergency Loan Policies and Authorizations

Sec.
1832.1 General.
1832.2 Objectives.
1832.3 Making EM loans available.
1832.4 Scope of operations to be financed with EM loans.
1832.5 Eligibility requirements.
1832.6 Certification by County Committee.
1832.7 Loan purposes.
1832.8 Loan limitations.
1832.9 Relationship with other types of FHA loans.
1832.10 Rates and terms.
1832.11 Security policies.
1832.12 Loan approval.
1832.13 EM loans based on major disaster declared by the President.
1832.14 EM loans to vegetable growers.
1832.15 EM loans for orchard rehabilitations.
1832.16 EM loans for fish farming purposes.
1832.17 EM loans to oyster planters.
1832.18 EM loans to cranberry growers.

AUTHORITY: The provisions of this Subpart A issued under sec. 339, 75 Stat. 318, 7 U.S.C. 1989; sec. 510, 63 Stat. 437, 42 U.S.C. 1480; sec. 4, 64 Stat. 100, 40 U.S.C. 442; sec. 301, 80 Stat. 379, 5 U.S.C. 301; Order of Acting Secretary of Agriculture, 36 F.R. 21529; Order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529.

Subpart A—Emergency Loan Policies and Authorizations

§ 1832.1 General.

This subpart is supplemented by Parts 1890c, 1890f, 1890p, and 1890r. This subpart prescribes the policies and authorizations for making emergency (EM) loans to farmers, ranchers, and oyster planters. Sections 1832.13 through 1832.18 contain additional requirements for making EM loans based on major disasters declared by the President, and EM loans to finance vegetable, orchard rehabilitation, fish farming, oyster planting, and cranberry operations.

(a) As used in this subpart:

(1) "Major disaster" means a major disaster declared by the President based on a disaster occurring on or after April 1, 1970.

(2) "Natural disaster" means a natural disaster determined by the Secretary in designating EM loan areas or by the State Director in making EM loans available in nondesignated counties.

(3) "Disaster" means a major disaster or a natural disaster.

(4) "Designated counties" means counties in which EM loans may be made under designations by the Office of Emergency Preparedness (OEP) pursuant to a Presidential declaration of a major disaster, and by the Secretary of Agriculture based on damage caused by a natural disaster.

(5) "Nondesignated counties" means counties in which the State Director authorizes County Supervisors to receive applications for EM loans, based on natural disasters determined by him, without designations by OEP or the Secretary.

(6) "Qualifying disaster" means the major disaster or the natural disaster for which initial EM loans were made available for new applicants, and any subsequent natural disaster which occurred during the period that initial EM loans were available for new applicants.

§ 1832.2 Objectives.

The basic objectives of EM loans are to assist eligible applicants to continue their normal farming or livestock operations, and return to local sources of credit as soon as possible and in any event within a reasonable period. Subject to the requirements of this subpart, additional EM loans will be made to an applicant each year for a reasonable period until he recovers sufficiently to return to a normal source of credit or it is determined that he no longer has reasonable prospects for doing this. These objectives will be accomplished through the extension of credit and such supervisory assistance as is determined necessary to achieve the objectives of the loan and protect the Government's interest. Supervisory assistance will be given in accordance with the provisions of Subpart A of Part 1802 of this chapter.

(a) Each EM loan borrower is expected to return to a normal source of credit for any additional credit needs as soon as possible after the first full operating year following the qualifying disaster on which his emergency loan was based. Applicants who are able to obtain additional credit from other sources after the first full operating year are expected to do so. For other borrowers, from 3 to 5 years will be considered a reasonable recovery period in individual cases. Some borrowers may need subsequent EM loans during each of these years. However, borrowers who have received EM loans for 5 consecutive years will not receive additional EM loans for the succeeding years unless the failure to make satisfactory recovery has been due to another qualifying disaster occurring after their first EM loans were made, or inability to achieve objectives of the previous EM loans within a 5-year recovery period because the particular operations, such as orchards and vineyards, require a rehabilitation period longer than 5 years.

(b) Where it does not appear that an applicant can be expected to return to a normal lender within a reasonable period as described in paragraph (a) of this section, a loan may be made for minimum annual expenses if there is a reasonably safe basis, including security, for the amount of the loan. This is authorized in order to give the applicant an operating year to determine what he will do about his farming or ranching. He

V 37-72 APR 13 72 XUM

will be informed accordingly and additional loans will not be made to him for succeeding years unless he is experiencing a severe prolonged natural disaster or a subsequent natural disaster, but then only if there is still a reasonably safe basis, including security, for the minimum loan required for the particular operating year.

§ 1832.3 Making EM loans available.

EM loans will be made available in counties named by OEP as eligible for Federal assistance under a major disaster declaration by the President, in counties designated by the Secretary, and in nondesignated counties where authorized by the State Director.

(a) *EM loans in OEP counties.* Designation by the Secretary is not necessary for making EM loans available in counties determined by OEP to be eligible for Federal assistance under a major disaster declared by the President. Therefore, where there is a Presidential major disaster declaration, the National Office will notify the State Director and the Finance Office of the name of the counties determined by OEP to be eligible for Federal assistance under the declaration, and the period during which EM loans will be made based on the major disaster. The State Director will notify the appropriate County Supervisors immediately and instruct them to make EM loans available under § 1832.13. His notification will be confirmed by State requirements issued as soon as possible. The State Director will also notify the State USDA Defense Board Chairman and will make such public announcements as appear appropriate.

(1) Immediately upon receiving notice about counties under his jurisdiction, the County Supervisor will notify the appropriate County USDA Defense Board Chairman and make such public announcements as appear appropriate about the availability of EM loans under § 1832.13. Also, the County Supervisor will explain to other agricultural lenders in the area the assistance available under this program.

(2) Any need for credit resulting from a subsequent natural disaster occurring while EM loans are available because of a major disaster declared by the President cannot be met under § 1832.13. However, EM loans based on such subsequent natural disasters may be made in accordance with § 1832.3(b)(4).

(b) *Designation by the Secretary.* The Secretary of Agriculture may designate an area as an EM loan area when there exists a general need for agricultural credit resulting from a natural disaster. Such designations may be based on damages caused by hurricane, tornadoes, excessive rainfall and floods, earthquakes, blizzards, freezes, electrical storms, snowstorms, drought, excessively high temperatures and hail, insects where abnormal weather contributed substantially to the spreading and flourishing of such insects, fires resulting from lightning and fires of other origins which could not be controlled because of abnormal weather, and plant and animal diseases where abnormal weather contributed substantially to such diseases spreading into epidemic stages.

(1) The County Supervisor will report to the State Director immediately the occurrence of any natural disaster causing substantial production losses or damage to real property in his area regardless of whether EM loans will be needed. He will send a detailed report as soon as possible. The report will be by memorandum except that it may be by telephone or telegram in urgent situations caused by natural disasters such as floods, storms, tornadoes, or hurricanes. The report will be based on information obtained from farmers, agricultural leaders, and representatives of other agricultural agencies. Sources of the information will be given, but letters will not be required from those contacted. When letters are received, however, they should be submitted. The report will be made using the format available in all FHA offices when an area designation is recommended.

(i) Area designations generally will not be recommended until near the time EM loan funds actually will be needed by eligible applicants to start or continue the year's farming or livestock operations. An immediate designation in advance of the time credit will be needed which may be justified in some situations to alleviate local anxiety about the availability of credit where there has been serious damage by severe floods, tornadoes, storms, hurricanes, or freezes. Otherwise, the recommendation should not be made until the actual damage and losses caused by a natural disaster can be reasonably determined.

(2) The State Director will inform the National Office of each such natural disaster as soon as possible even though he may not recommend an area designation. He will recommend a designation when in his opinion the County Supervisor's memorandum shows that the natural disaster has resulted in a substantial need for agricultural credit. The State Director will add his recommendation at the conclusion of the County Supervisor's memorandum, except that his recommendation may be by telephone or telegram in urgent situations such as those described in subparagraph (1) of this paragraph. His recommendation to the National Office will be timed in the manner provided in subparagraph (1)(i) of this paragraph.

(i) County Supervisors' memorandums recommending area designations which are concurred in by the State Director will be submitted to the National Office.

(3) When an area is designated by the Secretary, the National Office will notify the State Director and the Finance Office regarding such area designation. The notification will specify the period within which initial loans may be made to new applicants as a result of the disaster for which the area was designated. The State Director will notify immediately the county offices involved and this notification will be confirmed by a State requirement issued as soon as possible. The State Director also will notify the State USDA Defense Board Chairman and will make such public announcements as appear appropriate.

(i) Immediately upon receiving notice of the designation of counties under his jurisdiction, the County Supervisor will notify the appropriate County USDA Defense Board Chairman and make such public announcements as appear appropriate. Also, the County Supervisor will explain to other agricultural lenders in the area the assistance available under the EM loan program.

(4) Additional authorizations from the National Office or the State Director are not required when subsequent natural disasters make additional EM loans necessary during the period in which initial loans are authorized for new applicants in a presently designated area. However, as a matter of information, County Supervisors will inform State Directors of any such subsequent natural disasters and State Directors will inform the National Office accordingly.

(5) Recommendations for renewing a designation will be made in the same manner as described in subparagraphs (1) and (2) of this paragraph for recommending initial designation. The County Supervisor's memorandum will deal with the natural disaster(s), and damage caused by each. Except for this, the County Supervisor's memorandum will be prepared in accordance with instructions available in all FHA offices.

(c) *EM loans in nondesignated counties.* Within limitations of this subpart and the delegated loan approval authorities, initial EM loans may be made in nondesignated counties as authorized by the State Director upon his determination that not more than 25 applicants will receive initial EM loans as the result of all severe production losses caused by natural disasters occurring within the past 9 months. This determination by the State Director must be made on the basis of factual information, and this authorization may not be used to make EM loans immediately available in anticipation of a later designation by the Secretary based on the same natural disaster. The State Director's authorization will establish the termination date for receiving applications for initial EM loans in such counties. In addition, not more than 25 such loans will be made in any county under the State Director's authorization regardless of the number of local disasters that have already occurred, or may occur, during the period of authorization.

(1) Applications for initial EM loans under this paragraph will be received only after authorization by the State Director. Therefore, where a County Supervisor finds a need for the use of this authority he will send the State Director supporting information in the prescribed format. Also, the County Supervisor will send the State Director additional information in narrative form about each subsequent local natural disaster which will not cause the total number of initial EM loans to exceed 25.

(i) State Directors will send to the National Office a copy of each memorandum authorizing a County Supervisor to receive applications for initial EM loans in a nondesignated county, together with a copy of the County Supervisor's memorandum requesting the authorization. Also, State Directors will send to the National Office a copy of each memorandum received from County Supervisors about subsequent natural disasters occurring during the periods they are authorized to make loans under this paragraph.

(ii) State Directors will make appropriate public announcements of their actions in authorizing County Supervisors to receive initial EM loan applications in nondesignated counties. State Directors also will notify the State USDA Defense Board Chairman.

(2) After initial EM loans are made under this paragraph, ordinarily a recommendation for designation of the county by the Secretary will not be justified unless a subsequent natural disaster(s) causes a need for a total of more than 25 initial EM loans being made for the fiscal year.

(3) State Directors will maintain running records by counties for each fiscal year showing the number and amount of initial EM loans made in nondesignated counties under this paragraph and the local natural disasters on which they were based. This will be accomplished by routing through the State Office all loan dockets being submitted to the Finance Office for processing. State Directors will send reports compiled from this information to the National Office, cumulative from the beginning of the fiscal year, as of the close of business on December 31 and June 30 of each fiscal year.

(d) *Subsequent loans.* Subsequent EM loans are EM loans to applicants who are indebted for EM loans including operating loan borrowers who are also indebted for EM loans. Except as provided in § 1832.9(a), subsequent EM loans may be made within the limitations, policies, and authorities contained herein, without regard to the termination date for making initial loans. This applies when the applicant is unable to obtain credit from other sources because of the natural disaster or major disaster which caused need for the initial loan, or the applicant qualifies under § 1832.5(f) for an EM loan without regard to his ability to obtain credit elsewhere, or the subsequent loan is necessary to protect the Government's interest in EM loans previously made, including production emergency, economic emergency, special emergency, and special livestock loans. In either event, there must be reasonable assurance that the subsequent loan will be repaid and the balances owed on previous loans will be repaid or substantially reduced within a reasonable period. However, the period during which additional loans will be made must be consistent with the objectives of EM loans as described in this section.

(e) *Loans to paid-up borrowers.* With prior concurrence of the National Office, the State Director may authorize additional initial loans on a county basis, subject to delegated loan approval authorities, to one or more otherwise eligible applicants who received EM loans during the previous year and have repaid their EM loan accounts in full but are still unable to obtain needed credit from other sources because of severe production losses caused by a qualifying disaster. Additional initial loans to a particular borrower will not be made under this authority to finance farming or ranching operations after 3 to 5 operating years following the applicant's last severe production loss caused by a qualifying disaster. The State Director's request for concurrence in using this authorization will state the approximate number of paid-up borrowers who will require additional initial loans during the year and the year in which the qualifying disaster(s) involved occurred.

§ 1832.4 Scope of operations to be financed with EM loans.

Since the inception of this program most EM loans have been made to operators of relatively small farms. However, no ceiling has been established on the size of operations that may be financed with EM loans nor on the size of loans that may be made. Therefore, subject to the eligibility requirements and other provisions of this subpart, EM loans may be made to finance larger than family farm operations.

§ 1832.5 Eligibility requirements.

To be eligible for an EM loan, an applicant must:

(a) Be a citizen of the United States, if an individual. If a partnership, the individual partners must be citizens of the United States. If a corporation, the corporation must be incorporated under the laws of the United States or any State thereof and the principal stockholders must be citizens of the United States. Any stockholder owning as much as 20 percent of the stock will be considered as a principal stockholder.

(b) Be an established farmer or rancher with a reasonably good past record of operations, whether owner-operator or tenant, who manages his farming or ranching operations. An applicant who does not devote full time to his farming or ranching operations may be considered as the manager of his farming or ranching operations if he visits his farm or ranch at frequent intervals often enough to exercise control and see that the operations are being carried on properly.

(c) Have suffered severe production losses not compensated for by insurance or otherwise, or severe damage not compensated for by insurance or otherwise to buildings, land, water resources, or farming or ranching equipment essential to normal operations, if the application is for an initial EM loan. Such production losses or property damages must have been caused by the natural disaster(s) or major disaster(s) which resulted in the designated or nondesignated counties, as defined in § 1832.1(a)(4) and (5), becoming or remaining areas in which EM loans may be made.

(1) Where losses in certain enterprises of an applicant are compensated for by good production in other enterprises of the applicant, the applicant will not qualify for an EM loan. Generally, an applicant would have qualifying losses if he has had production losses, not compensated for by insurance or otherwise, of either:

(i) Twenty-five percent or more in any one farming or ranching enterprise essential to his total farming or ranching operations, or

(ii) The equivalent of 25 percent or more in his total essential farming or ranching enterprises.

(2) Where an applicant was unable to plant a substantial portion of his normal crops because of a qualifying disaster, his production for this portion of his crops will be shown as zero on Form FHA 441-22, "Statement of Production Losses and Certification." This will be shown separately from any crops which were planted. Where a farmer is unable to plant all or a portion of his crops, his normal level of operation will be what he actually planted in the previous year.

(3) Damage to farm or ranch dwellings and service buildings, will not qualify applicants for EM loans to finance their farming or ranching operations.

(4) Where an applicant has had disaster damage to feed crops and elects to sell his livestock rather than purchase feed to replace that which he would have produced except for the natural disaster, he cannot claim as loss the difference between the sale price and an estimate of what the sale price would have been if the livestock had been fed for the normal period. This is because the earlier sale was based on a judgment decision and differs from an applicant who could not plant crops because of the natural disaster. The latter had no opportunity for a judgment decision about planting.

(5) Production losses which have occurred to crops or grazing before actual production for the year can be determined will be estimated and shown on Form FHA 441-22 as follows:

(i) For grazing, the number of acres and the estimated percentage of loss will be shown in the appropriate spaces.

(ii) Estimates of damage to other feed crops and cash crops will be shown in units of production.

(6) An applicant's estimate of damage to his crops will be accepted without further investigation if the estimate appears reasonable for the area.

(d) Possess legal capacity to contract for the loan. State requirements will be issued with the advice of the Office of the General Counsel (OGC) with respect to this requirement.

(e) Possess the character, ability, industry, and experience necessary to carry out the proposed farming or ranching operations and will honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(f) Need credit to continue his normal farming or ranching operations.

(1) Generally, certification of a need for credit by an individual will be accepted without question or investigation if the record shows that he used credit in the previous operating year for operating expenses or capital purposes, or that it has been his general practice in the

V 37-72
APR 13 72
XUM

past to use credit for these purposes. On the other hand, if such applicant did not use credit for operating expenses or capital purposes in the previous operating year, and it has not been his general practice to use credit for these purposes in the past, it will then be necessary to determine whether he has sufficient cash on hand to continue his farming or ranching and to make necessary repairs and replacements. If the determination is that he has sufficient cash on hand, he would not qualify for an EM loan. However, in making determinations in this regard, it is not expected that in order to qualify an applicant must first deplete cash or investments that have been accumulated for the education of children, retirement, reserves for possible medical expenses, or similar purposes.

(2) Partnerships and corporations cannot meet the requirement of needing credit if such applicants or their principal partners or stockholders have such large net worths that their needs for funds for authorized EM loan purposes could be met without any significant relative reduction in assets.

(3) Ability to obtain credit from other sources does not disqualify an applicant for an initial or subsequent EM loan to be made before the end of the first full operating year after severe losses caused by the most recent qualifying disaster described in paragraph (c) of this section. Such loans would not include funds for operating expenses which would be incurred for or during the second full operating year. However, authorized repairs and replacements which are to be started with an EM loan made before the end of the first full operating year, but which cannot be completed within that period, are not disqualifying under this eligibility requirement.

(4) Ability to obtain credit elsewhere disqualifies an applicant for an additional EM loan to be made after the end of the first full operating year following severe losses and damage caused by the most recent qualifying disaster described in paragraph (c) of this section. In order for such applicant to qualify for such a loan, he must be unable to provide the necessary funds from his own resources and unable to obtain sufficient operating credit elsewhere to finance his actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates for loans for similar purposes and periods in the community in or near which he resides. The applicant's equity in real estate, chattels, and other assets should be considered in determining his ability to obtain credit from private and cooperative sources. The following will be observed in determining whether individual applicants meet this eligibility requirement for additional EM loans:

(i) When an applicant's financial statement or other information in the loan docket indicates that he might be able to obtain the credit he needs elsewhere at reasonable rates and terms, the County Supervisor will require him to make a diligent effort to obtain a loan from other sources. This effort will consist of applying to lenders engaged in extending short-term or intermediate-term credit in the area, depending on his needs, and requesting each lender to furnish a letter showing whether he will make a loan and if so, the amount and terms of the loan he is willing to make. Such letters from lenders and any other evidence concerning an applicant's ability to obtain credit elsewhere will be included in the loan docket. When appropriate, the County Supervisor will check on evidence concerning inability to obtain credit submitted by an applicant.

(ii) When an applicant's financial statement or other information in the loan docket indicates clearly that he is not able to obtain the credit he needs from other sources at reasonable rates and terms, he will not be required to furnish evidence that he has made an effort to obtain such credit from other sources. However, the County Supervisor will record his conclusion and the basis for it in the loan docket.

(g) In order for partnerships or corporations to qualify for additional EM loans after the first full operating year following the disaster, the principal partners or principal stockholders, individually and collectively, must be unable to finance the farming or ranching operations with their own resources or with credit obtained by them from other sources.

(h) After the first full operating year following the disaster, no EM loan will be made to applicants having large net worths or large equities in real estate, chattels, or other property regardless of whether they are able to obtain credit from other sources, unless justified by another disaster.

§ 1832.6 Certification by County Committee.

Before an EM loan to an individual is approved, the County Committee will certify on Form FHA 440–2, "County Committee Certification or Recommendation," that the applicant is eligible for a loan in accordance with § 1832.5. In addition, the County Committee will establish the maximum amount of credit which may be extended under the certification to meet the actual needs of the applicant during his crop year. The crop year for each applicant will be established in accordance with the provisions of Subpart B of Part 1802 of this chapter. The maximum amount of credit established by the County Committee will not necessarily represent the amount which actually will be loaned. For this reason, and to avoid possible misunderstandings, the applicant will not be notified of the maximum amount of credit established by the County Committee.

(a) Before an EM loan is made to a partnership or corporation, the County Committee will certify on Form FHA 440–2 that the partnership or corporation is eligible and will recommend that a loan be made in an amount not to exceed the maximum certified amount shown on Form FHA 440–2.

§ 1832.7 Loan purposes.

Subject to the restrictions set forth in §§ 1832.8 and 1832.9, EM loans may be made to eligible farmers, ranchers, and oyster planters for the purposes set forth below which are essential to their farming, ranching, or oyster planting operations.

(a) Purchase of feed, seed, fertilizer, insecticides, and farm supplies; the repair of equipment; and other essential farm operating expenses, and expenses for processing by the applicant of agricultural products produced by him.

(b) Purchase of farm machinery when necessary to replace that destroyed, damaged, or lost through foreclosure or repossession by a prior creditor as the result of the qualifying disaster, and worn beyond economic repair, except that neither initial nor subsequent EM loans will be made to operators of not larger than family farms for the purchase of farm machinery to replace that worn beyond economic repair as long as operating loan funds are available for the year. Replacement items purchased with loan funds must be reasonably comparable in size and service, but not necessarily identical, to that being replaced.

(c) Purchase of livestock as follows:

(1) Breeding livestock to replace those lost, destroyed, or disposed of as a result of the qualifying disaster. In such cases, the circumstances surrounding the loss or disposition of the livestock to be replaced will be documented carefully.

(2) Feeder or stocker livestock, provided it has been the applicant's normal practice to have a feeder or stocker enterprise, the applicant produces more than half of the feed or more than half of the livestock required for the enterprise, and there will be security for the reasonable protection of the Government in addition to a first lien on the feeder or stocker livestock to be purchased with loan funds. In each such case, the loan docket will contain descriptions of the applicant's feeder or stocker enterprises during the past 3 years.

(3) To establish small feeder or stocker livestock enterprises, or to provide for small increases in the size of such enterprises already established, provided the applicant has the ability to care for livestock properly, it is determined that the establishment or increase in the size of the livestock enterprise is the most feasible method of marketing the feed or crops produced on the farm, the applicant will produce a majority of the feed required for the enterprise, and the enterprise is necessary to develop sound farming operations. It is not the intent of this authorization to assist applicants in making major conversions to livestock operations. Justification for the new enterprise will be documented fully in the loan docket.

(d) Payment of customary and equitable cash rent, subject to the following:

(1) When the cash rent, including cash charges as privilege rent, is for the use of farm buildings, pasture, hayland, cropland for the production of feed crops or grazing land, and all of the following conditions are met:

(i) The applicant is obligated under a written lease, or other formal agreement, to pay such rent or charges in advance of the time income will be available from the farming operations to make such payment. For grazing fees an invoice showing the number of livestock to be grazed, the grazing period, the cost per head, and the total cost may be used in lieu of a written lease. However, when relatively small amounts are involved, an invoice will not be required if the applicant's explanation of a satisfactory grazing agreement is recorded in the loan docket.

(ii) Arrangements cannot be made for the rent or charges to fall due when income will be available from the farming operations to make such payment.

(iii) Not more than 1 year's cash rent or cash charges will be paid with loan funds in any one lease year, except that if a loan is approved near the end of the current lease year funds for payment of such rent or charges for the succeeding lease year may be included in the loan.

(iv) The terms of the rental agreement provide the applicant with reasonably satisfactory tenure.

(v) The feed crops to be produced and any rented pasture or grazing land will be used by the applicant in feeding his stocker, feeder, or productive livestock.

(2) When the cash rent is for the use of land to produce cash crops, and all of the following conditions are met:

(i) The applicant operates not larger than a family farm.

(ii) The applicant's farming operations do not consist primarily of producing vegetables or other such specialized crops.

(iii) The requirements under paragraph (d)(1) of this section.

(e) Payment of not more than 1 year's taxes and insurance premiums on real or personal property owned by the borrower which does not secure any FHA loan other than EM or operating loans, not more than 1 year's premiums or costs for public liability and property damage insurance, Social Security taxes in connection with hired labor only, and water or drainage charges or assessments.

(f) Payment of current unsecured bills, incurred for authorized EM loan purposes in connection with the production of livestock, livestock products, and crops which have not been disposed of, lost, or destroyed, and old unsecured bills incurred for authorized EM loan purposes in connection with the production of livestock, livestock products, or crops which have been disposed of, lost, or destroyed. For this purpose, an unsecured bill is a bill for which the creditor did not receive a lien on any property at the time it was incurred and has not received such a lien since that time. Unsecured bills include unsecured promissory notes given for loans for authorized EM loan purposes. Advances will not be made for the payment of unsecured bills or notes which can be paid from the sale of livestock, livestock products, or crops to be marketed within a few weeks following the approval of the loan, or cannot be scheduled for payment from the year's income in accordance with § 1832.10(a)(1).

(1) Generally, the amount being advanced for the payment of old unsecured bills should not exceed 5 percent of the total loan.

(g) Payment of not more than a year's interest calculated at a rate not to exceed that which is reasonable and customary for the area, but not to exceed 8 percent per annum, that is due or about to become due on debts secured by liens of other creditors on essential livestock, farm equipment, and farm real estate, and EM loan interest-only installment(s) scheduled for the first and, when a deferred payment of principal is involved, the second January 1 following the closing of the loan, when a borrower will not be able otherwise to pay such installments because income from crops, livestock, or other sources is not available. However, this does not authorize use of EM loan funds to pay interest on any other type of FHA loans.

(h) Payment of depreciation in any one year not to exceed 15 percent of the market value of essential farm machinery and equipment under prior lien to another creditor or 15 percent of the amount owed to such creditor, whichever is lesser.

(i) Meeting family subsistence needs, including premiums on reasonable amounts of health and life insurance and expenses for medical care. Applicants must understand, however, that within the limits of their resources, they should plan and carry on adequate food production and conservation programs.

(j) Purchase of essential replacement home equipment and furnishings, and the payment for home equipment repairs required by the applicant family to sustain itself on the farm in a reasonably satisfactory manner.

(k) Expenses incident to loan closing.

(l) The replacement or repair of essential buildings, silos, storage facilities for feed or water, fences, drainage systems, irrigation facilities, wells, and stock ponds damaged or destroyed by natural disasters. In addition, new wells may be financed, not on a replacement basis, where necessary to provide water for domestic use and for livestock where the normal source has been damaged or destroyed by a natural disaster. Development work will be in accordance with Subpart A of Part 1804 of this chapter.

(m) The releveling of land and the clearing of debris made necessary as a direct result of the qualifying disaster. Development work will be in accordance with Subpart A of Part 1804 of this chapter.

(n) The restoration of permanent pastures and the purchase of trees, rootstock, and plants for reestablishing commercial orchards or berry and other perennial crops, when necessary as a direct result of the qualifying disaster. Development work will be in accordance with Subpart A of Part 1804 of this chapter.

(o) The payment of bills incurred for emergency repairs and improvements to farm real estate, necessary as a direct result of the qualifying disaster, provided it is determined that the expenditures were essential to a preservation of the property or a continuation of the applicant's normal farming or livestock operations, and had to be made before an EM loan could be obtained, and the loan for such purposes is approved within a reasonable period following designation of the area. A reasonable period for this purpose generally will be a period of not to exceed a few weeks.

§ 1832.8 Loan limitations.

EM loans will not be made:

(a) For purposes authorized by § 1832.7 (f), (g), and (h) unless essential operating expenses are provided for with loan funds and then only where there is a reasonable payment prospect for the total amount of credit required for the crop year, and there is adequate security for the EM loan. Loan approval officials are expected to take extra care to exercise good judgment in this regard.

(b) To refinance debts, either secured or unsecured, except the payment of bills as authorized in § 1832.7 (f) and (o).

(c) To pay Federal or State income taxes, or Social Security taxes payable by borrowers in their own behalf.

(d) To purchase passenger automobiles.

(e) To enable an applicant to become established or reestablished in farming or ranching.

(f) To enable an applicant to expand his farming or ranching operations substantially in excess of the size of his operations during the year just prior to the loan application. However, this does not prohibit expansion within the size of family farming operations where additional equipment will not be required and livestock purchases will not exceed those authorized by § 1832.7(c).

(g) To enable an applicant to make major adjustments in his farming or ranching operations. This is not intended, however, to prohibit minor changes such as the shifting or addition of minor crop or livestock enterprises, including the establishment of small acreages of permanent pastures, provided:

(1) The new crop is proven for the area, the applicant has the knowledge and ability to produce the crop, the purchase of additional equipment will not be required and the new enterprise will not result in a substantial expansion of the total crop acreages or the total operating expenses.

(2) The new livestock enterprise meets the requirements of § 1832.7(c)(3).

(h) To finance commercial feed lot operations.

(i) To finance livestock or ranching enterprises where the applicant does not produce more than half of the livestock or more than half of the feed required for his enterprise.

(j) To a landlord to furnish his tenant operators, whether share, cash, or standing rent is paid by these tenants. However, loans may be made to operating landlords or tenants to furnish their sharecroppers.

(k) To an applicant whose debts have been settled pursuant to Part 1864 of this chapter, or who has been released from personal liability under Subpart A of Part 1872 of this chapter, as reflected by the County Office records, or where

V 37 • 72 APR 13 72 XUM

settlement or release under such regulations is contemplated, unless the applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control, the conditions which necessitated the debt settlement or release, other than weather hazards, disasters, or price fluctuations, have been removed, and the borrower's operations will be sound and afford him a reasonable prospect of repaying the loan and meeting his other obligations. Prior to approval of the loan, the loan docket and any available case folders, including the County Supervisor's justification for making the loan, will be submitted to the State Office for a determination as to whether the loan should be made.

(l) To finance unproven types of farming operations in the area.

(m) To finance an applicant's enterprises involving the buying, processing for market, or selling of agricultural products produced by others. However, EM loans may be made to finance such an applicant's farming operations if he agrees in writing to maintain separate records on his farming operations, and assigns to the Farmers Home Administration the income to be received from his farming.

(n) To the following types of applicants:

(1) An estate or a trust.

(2) A corporation owned primarily by an estate, trust, other corporations, or partnerships.

(3) A partnership composed primarily of an estate, trust, corporations, or other partnerships.

(o) To an applicant operating under the jurisdiction of a bankruptcy court.

(p) To an operating loan borrower, if the EM loan would cause the borrower's total principal balance on EM loans and operating loans to exceed $35,000, unless the need for additional credit is the result of a natural disaster or other circumstances beyond his control.

(q) To an operating or farm ownership loan borrower who has expanded his farming or livestock operations beyond family size.

(r) To flood and mudslide victims to repair or replace damaged or destroyed farm dwellings or service buildings and the contents thereof in areas where "National Flood Insurance" is available, except under the same conditions as authorized for Rural Housing Disaster (RHD) loans in § 1822.365(f) of this chapter.

§ 1832.9 Relationship with other types of FHA loans.

Determination of whether EM loans or other types of FHA loans will be made to eligible applicants in areas where EM loans are available because of a major disaster declared by the President, in designated areas, and in nondesignated areas, will be based on the following:

(a) Eligible applicants who are operators of not larger than family farms, including indebted operating loan borrowers, whose credit needs are for annual recurring operating expenses which can be repaid from the year's income, including the purchase of feeder or stocker livestock under § 1832.7(c) (2) and (3), and the replacement of essential equipment or breeding livestock lost, destroyed, or disposed of as a result of a natural disaster will receive EM loans instead of operating loans. Initial and subsequent EM loans will be made to operators of not larger than family farms for other authorized EM loan purposes only when all funds for making initial and subsequent operating loans in the State are exhausted for the year. In this event, EM loans may be made to eligible operators of not larger than family farms, including indebted operating loan borrowers, for any authorized EM loan purpose, subject to all other established loan making requirements. (b) An otherwise eligible applicant requiring credit for refinancing debts secured by liens on essential farm equipment or livestock or to purchase essential farm equipment or livestock, and also for operating and living expenses may receive simultaneously an operating loan for refinancing or purchasing if the need can be met with such loan, and an EM loan for operating and living expenses within authorized emergency loan purposes. This is the only situation in which both types of loans may be made to the same applicant at the same time.

(c) Applicants requiring credit which can be met with RHD loans for the repair or replacement of farm dwellings and other farm buildings damaged or destroyed by a qualifying disaster will receive RHD loans instead of EM loans. Applicants receiving RHD loans may also receive EM loans for other authorized EM loan purposes if they are otherwise eligible and have qualifying losses other than damage to buildings.

§ 1832.10 Rates and terms.

The interest rate for EM loans will be prescribed each month in accordance with current information regarding interest rates available from any FHA office, or from its National Office at 14th and Independence Avenue SW., Washington, DC 20250. Interest will be charged at the rate in effect at the time the loan is approved. Interest will accrue on outstanding principal only and will not be compounded. For initial advances, accrual will be from the date of the promissory note. For future advances, accrual will be from the date of the loan check. Loans will be scheduled for payment as follows:

(a) Unless a deferment is authorized by this paragraph, payments of principal and interest will be scheduled on the note in annual installments in accordance with the borrower's reasonable ability to pay, determined by his operations as reflected in his farm and home plan. All installment dates will be January 1 of each year except the final installment will be made payable on the date of the note plus the number of years over which the loan is made payable. This will not be later than 7 years from the date of the note for loans for other real estate purposes and not more than 20 years for loans for real estate purposes. The initial principal installment may be deferred in whole or in part to the second or third January 1, as appropriate, following the date of the note where the year's income will be sufficient to meet the payment but will not be received in full that year because of the type of farming or the method of marketing, or the total planned income is less than planned annual recurring expenses because the productive capacity of the farm is adversely affected by a qualifying disaster which has already occurred. Interest will not be deferred. Therefore, during the deferment period, each installment will include the total amount of interest accruing to the date of that installment plus the estimated principal amount the applicant will be able to pay. Deferments will not be given to enable applicants to use income to make payments on old bills or FHA loans ahead of paying annual recurring expenses. When the payment of principal is deferred to the second January 1 following the date of the note, the first scheduled installment will be the amount of accrued interest from the date of the note to February 1 of the next calendar year. When the payment of principal is deferred to the third January 1 following the date of the note, the second scheduled installment will be the amount of accrued interest for a full year and the first scheduled installment will be the amount of accrued interest from the date of the note to February 1 of the next calendar year. Subparagraphs (1) through (7) of this paragraph are subject to the deferment policies contained in this paragraph.

(1) Advances for annual recurring expenses, including current unsecured bills, taxes, and insurance, and paying old unsecured bills, will be scheduled for payment when principal income from the year's operations normally would be received. EM loans will not include funds for paying old unsecured bills where the income from the year's operations will not be adequate to pay such advances in addition to advances for annual recurring expenses.

(2) Advances to purchase or produce feed for productive livestock, or livestock to be fed for the market, will be scheduled for payment when the principal income from the sale of such livestock or livestock products can be expected.

(3) Advances for the payment of interest and depreciation will be scheduled for payment over periods not to exceed 5 years.

(4) Advances for the purchase of farm machinery and equipment ordinarily will be scheduled for payment over a period not to exceed 5 years. In determining the payment period for advances made for such purposes, the loan approval official will give careful consideration to the useful life of the property and the fact that payment on such advances must more than offset depreciation, including obsolescence of the equipment if the borrower is to make financial progress.

(5) Advances for the purchase of breeding livestock will be scheduled for payment over periods not to exceed 7 years or the average productive life of the livestock, whichever is shorter.

(6) Advances for real estate purposes, secured primarily by real estate liens, may be scheduled over periods not to exceed 20 years.

(7) Advances for purposes other than those enumerated in paragraph (a) of this section, including subparagraphs (1) through (6) of this paragraph will be scheduled for payment over the minimum period consistent with the applicant's reasonable ability to pay, determined from an analysis of the farm and home operations as reflected in his farm and home plan. In no instance may the payment scheduled extend beyond the useful life of the security offered for the advance.

§ 1832.11 Security policies.

(a) *EM loans for other than real estate.* Except as provided in paragraph (d) of this section, EM loans for other than real estate purposes will be secured as follows:

(1) *Crops, title to which is held by the applicant.* By a first lien on the applicant's crops, growing or to be grown by him, subject only to one or a combination of the following, as appropriate in individual cases:

(i) The landlord's lien on crops for reasonable share rent for the current year.

(ii) The landlord's lien for the current year's customary and equitable cash rent, including cash charges as privilege rent, for the use of farm buildings, pasture, hayland, cropland for the production of feed crops, and grazing land, for applicants who are not engaged primarily in livestock feeding operations.

(iii) The landlord's lien or claim for the current year's equitable and customary cash rent for operators of not larger than family farms who are producing cash crops, but not engaged primarily in the production of vegetables or other specialized crops.

(a) In all other cases involving cash rent for land to be used for the production of cash crops, loans may not be made subject to the lien or claim for rent unless the landlord converts his lease to a specified reasonable share rent, or agrees in a letter addressed to the County Supervisor that only a specified reasonable share of the crops will be subject to the payment of his rent. Other lenders advancing funds for the payment of cash rent will be considered as landlords in this regard.

(iv) The real estate mortgagee's lien or real estate purchase contract holder's lien on the crops for the current year's installment on the real estate debt, if such installment is reasonable when related to the normal rental charges for similar farms in the area.

(v) The lien of another creditor on particular crops for advances made or to be made by him to produce such crops, if no advances will be made by the FHA in connection with such crops.

(vi) The contract of another creditor or the lien in connection with such contract on particular crops for advances made or to be made by him to produce, harvest, process, or market such crops.

(2) *Crops grown under contract when title to the crop is held by the contractor.* When a crop is being produced, harvested, processed, or marketed by the applicant under an equitable written contract with a responsible contractor and title to the crop is retained by such contractor, loans may be made in connection with such crops provided the contractor limits his advances to production harvesting, processing, or marketing costs in connection with the contract crop or to purposes related thereto, and an assignment of all or a part of an applicant's share of the income from the crop is taken by the FHA and is accepted in writing by the contractor holding title to the crops. The assignment will be in an amount equal to the amount planned to be paid on the applicant's FHA indebtedness from such crops. However, when no payment is expected to be made on the loan from the crops, an assignment will not be required. The form for use in obtaining such assignments will be approved by the OGC. In Uniform Commercial Code (UCC) States the assignment will constitute a security agreement on such crop income, and the contractor will be described specifically, or as "Contract Rights" or "Contract Rights in Crops," and so forth in paragraph 1(b) of the financing statement.

(3) *Livestock, poultry, farm equipment, and facilities purchased with loan funds.* By a first lien on all such items, except that liens will not be taken on equipment, facilities, or buildings which cannot be made subject to a valid chattel lien, or in UCC States, a valid security interest, nor on poultry kept primarily for subsistence purposes, on household goods and equipment, small tools, and equipment having only minor security value.

(i) *Undivided interests.* An applicant obtaining a loan for the purchase of an undivided interest in the property referred to above will secure his loan by a lien on his undivided interest, along with any other security required by § 1832.11. Each party having an undivided interest in such property will executive Form FHA 441–12, "Agreement for Disposition of Jointly-Owned Property," providing for the disposition of his interest in the property. However, Form FHA 441–12 will not be required when a tenant and landlord own property jointly and the lease provides for satisfactory division of such property or the proceeds from its sale, or a joint security instrument is taken to secure loans to two individuals jointly engaged in farming.

(4) *Other livestock and farm equipment of security value.* By the best lien obtainable on as much of the other livestock, poultry, and farm equipment of significant value owned by the applicant at the time the loan is approved as is necessary to protect the interest of the Government. This will include any undivided interest in such property owned by the applicant jointly with others who have an interest in the farming operation.

(i) Ordinarily, liens should not be taken on only part of a herd or flock due to the security servicing problems involved.

(ii) Liens should not be taken on small equipment and tools having minor security value, household goods and equipment, passenger automobiles, or livestock or poultry kept primarily for subsistence purposes, or on undivided interest in farm equipment or facilities owned jointly by the applicant with others who have no interest in the farming operation.

(5) *Liens and assignments to protect the Government's interest in feed purchased or produced with loan funds.* Loans made to purchase or produce feed for livestock being fed for market or to be fed to productive livestock (excluding livestock and poultry kept primarily for subsistence purposes), will ordinarily be secured by first liens on such livestock. However, when a first lien cannot be obtained, the loan will be secured by liens or assignments as provided below:

(i) When the livestock will be owned by the applicant and a first lien cannot be obtained, a junior lien will be taken, provided it is determined that the applicant has, or will acquire during the feeding period, an equity in the livestock being fed or will receive income from livestock or livestock products, either of which must be commensurate with the investment made for this purpose, and prior lienholders sign Form FHA 441–12, "Division of Income and Nondisturbance Agreement," or similar form approved by the OGC, agreeing to a suitable nondisturbance period and to a division of the income to be received from the livestock and livestock products, which will permit the applicant to pay his loan in accordance with the policies expressed herein. However, when no payment is expected to be made on the loan from the livestock or livestock products, Form FHA 441–13 will not be required.

(ii) When the livestock enterprise is to be managed by the applicant under a livestock share lease, share agreement, or contract, and the income to be received therefrom will be from the livestock fed, or from livestock products, an assignment of all or a part of such income will be taken provided the owner or purchaser of the livestock or livestock products accepts the assignment in writing. The assignment will be in an amount at least equal to the amount planned to be paid on the applicant's FHA indebtedness from such income. The form for use in obtaining such assignments will be approved by the OGC. However, when no payment is expected to be made on the loan from the livestock or livestock products, an assignment will not be required. In UCC States, if an assignment on livestock income is taken, such assignment will constitute a security agreement on such income, and the share lease, share agreement, or contract will be described specifically, or as "Contract Rights," or "Contract Rights in Livestock," and so forth in paragraph 1(b) of the financing statement.

(6) *Assignments of crop and life insurance.* Assignments of all or a part of

V 37-72
APR 13 72
XUM

crop insurance proceeds will be taken when the loan approval official determines such action is necessary to protect the interests of the Government. However, an assignment is not required in cases where a crop insurance policy contains a standard mortgage clause naming the FHA as mortgagee or secured party. Assignments of life insurance proceeds will be required when relatively large amounts are being loaned for the payment of annual premiums.

(7) *Assignment of or consent to payment of proceeds from sale of products or other income.* (i) Assignments of and "consents" to payment of proceeds from the sale of products or other income will be used when payments are planned from such sources and such instruments are necessary to protect the interest of FHA and it is possible to obtain the acceptance of the purchaser or other payor.

(*a*) Form FHA 441–18, "Consent to Payment of Proceeds from Sale of Farm Products," will be used for products or income except dairy products in which FHA has a security interest under the UCC.

(*b*) Form FHA 441–8, "Assignment of Proceeds from the Sale of Agricultural Products," will be used for products or income in which FHA does not have a security interest under the UCC. Other forms approved by the OGC may be used when Form FHA 441–8 is not adequate.

(*c*) Assignment of incentive and agricultural program payments will be taken on forms provided by Agricultural Stabilization and Conservation Service (ASCS), except that Form FHA 462–8, "Wheat and Feed Grain Programs-Assignments," will be used to obtain assignments of Wheat Certificate and Feed Grain Program payments.

(*d*) Form FHA 441–25, "Assignment of Proceeds from the Sale of Dairy Products and Release of Security Interest," will be used for dairy products in which FHA has a security interest under the UCC.

(8) *Consent and subordination agreements and severance agreements.* (i) In those UCC States in which the State requirement does not necessitate the use of a severance agreement, Form FHA 440–26, "Consent and Subordination Agreement," will be used as necessary to meet the security requirements contained in subparagraph 3 of this paragraph.

(ii) In Louisiana and in those UCC States in which State requirements so provide, Form FHA 440–6, "Severance Agreement," will be obtained when EM loan funds are used to purchase property which is or may become a fixture, and it is necessary to sever such property from real estate to meet the security requirements contained in subparagraph 3 of this paragraph.

(9) *Farm real estate as additional security.* The best lien obtainable usually will be taken as additional security for relatively large loans and in other cases when in the opinion of the loan approval official such a lien is needed to adequately protect the Government's interest. When a lien is required as additional security, an appraisal of the farm will not be necessary and the title evidence will not be required. Property insurance will be required only when the loan approval official determines that insurance is necessary to protect the Government's interest, in which event Part 1806 of this chapter will be followed.

(i) A first lien on livestock purchased with loan funds normally will be adequate security for the amount advanced for this purpose. Therefore, where a total EM loan will be large only because of the amount being advanced for the purchase of livestock, a lien on real estate may not be required as additional security unless the loan approval official determines that such a lien is needed to adequately protect the Government's interest.

NOTE: EM loans containing advances for paying interest and depreciation and scheduled for repayment over periods longer than 1 year, or advances for meeting annual expenses and deferred under § 1832.10(a)(1), will be secured adequately by liens on chattels or real estate in addition to crop liens.

(b) *EM loans for real estate purposes.* Except as provided in subparagraph (7) of this paragraph and paragraph (d) of this section, advances for real estate repairs and improvements, including orchard rehabilitation, will be secured only by liens on real estate in which the applicant has sufficient equity to provide adequate security for the loan. Title evidence is required in these cases.

(1) Determination of the applicant's equity in real estate offered as security will be based on an appraisal showing the present market value of the property and the amount of any lien or other encumbrances thereon. This appraisal will be made by a qualified FHA employee authorized to make appraisals. Form FHA 422–1, "Appraisal Report (Farm Tract)," and related forms will be used. The appraiser's estimate of the present market value of the property will be shown in part 8 of Form FHA 422–1. However, when the amount of the loan does not exceed $10,000, only parts 1, 2, and 8 of Form FHA 422–1 will be completed and the present market value of the property will be shown in part 8.

(2) If the property is held under a purchase contract, it must be determined that:

(i) The applicant has a mortgageable interest in the property.

(ii) The purchase contract is not subject to summary cancellation upon default, and does not contain other provisions which might jeopardize the Government's security position or the borrower's ability to repay the loan.

(3) If any of the prior liens against the property contain future advance provisions, or other provisions which might jeopardize the security position of the Government or the applicant's ability to meet his obligations under these prior liens and also repay his EM loan, the prior lienholders involved must agree in writing, before the loan is closed, to modify, waive, or subordinate such objectionable provisions. This usually will be accomplished on Form FHA 427–8, "Agreement with Prior Lienholder," subject to any modifications necessary to meet legal requirements for closing a particular loan.

(4) In States where a prior lienholder may foreclose his security instrument under power of sale or otherwise and extinguish junior liens of private parties without making junior lienholders parties or giving them actual notice, and a junior lien on real estate is to be taken as security for the loan, the prior lienholder must agree in writing to give the Government advance notice of foreclosure or assignment of the mortgage. A State requirement will be issued, with the advice of the OGC, to indicate whether such agreements will be necessary in each particular State; and if so, to set forth the procedure and requirements for obtaining and recording such agreements.

(5) If there are insurable buildings located on the property, or if new buildings are to be erected or major improvements made to existing buildings, the applicant will provide adequate property insurance coverage at the time of the loan closing, or as of the date materials are delivered to the property, as appropriate, in accordance with the provisions of Part 1806 of this chapter.

(6) If insurance claims for loss or damage of buildings to be replaced or repaired with loan funds are outstanding at the time the loan is made, the applicant will be required to agree in writing for the proceeds of such claims to be used for replacement or repair of buildings or to be paid to the Government for application on the loan when settlement is made, or for such proceeds to be applied on debts secured by prior liens.

(7) When an amount not to exceed $2,500 is being advanced for real estate purposes, or the principal balance on such advance will not exceed $2,500 after deducting a cancellation made under § 1832.13, and the advance can be scheduled for repayment over a period not to exceed 5 years, it may be secured by either of the following methods:

(i) By a first lien on chattel property having a value which will provide adequate security, provided the taking of a chattel lien will not interfere with the applicant's ability to obtain operating credit.

(ii) By the best lien obtainable on the applicant's farm real estate in which there is an equity which will adequately secure the advance. Determination of the applicant's equity will be based on an appraisal made pursuant to subparagraph (1) of this paragraph and the total amount of debts secured by liens on the property as shown by Table A of Form FHA 431–2, "Farm and Home Plan." Title clearance will not be required in connection with real estate liens taken under this paragraph.

(c) *EM loans for both real estate and nonreal estate purposes.* When a loan is made which includes funds for operating expenses, and real estate purposes other than under the circumstances described in paragraphs (b)(7) and (d) of this section, only one loan docket will be prepared. However, promissory notes and

payment authorizations will be prepared separately for the amounts of loan funds to be used for each of these two purposes, and the loan will be secured as follows:

(1) That portion of the loan made for operating purposes will be secured as outlined under paragraph (a) of this section, and also, if legally possible, by any liens taken to secure advances made for real estate purposes. The notes for advances for operating purposes will be described in both the crop and chattel security instrument and the real estate mortgage.

(2) That portion of the loan made for the real estate purposes will be secured as outlined under paragraph (b) of this section. The notes for advances for real estate purposes will be described only in the real estate mortgage, unless scheduled for repayment within 5 years and a chattel lien is obtained in accordance with paragraph (b)(7) of this section.

(d) *Unsecured loans.* When loan funds are required immediately as the result of a natural disaster for an applicant to protect or preserve his family or property, an EM loan advance of not more than $1,500 may be made on the evidence of a promissory note without security under the following conditions:

(1) This authorization will be used only in designated EM loan areas.

(2) Any subsequent EM loan advance made to a borrower who has received an unsecured advance will be secured in accordance with this paragraph. In such case, security will then be taken for the unsecured note in accordance with this paragraph.

§ 1832.12 Loan approval.

Loans will be approved in accordance with the authorities contained in Subpart B of Part 1810 of this chapter and the provisions of this subpart.

(a) Applications for initial EM loans may be approved at any time after expiration of the period for receiving such applications, provided they were filed in the County Office before this period expired.

(b) Indebtedness limitation with respect to loan approval authority: A loan approval official may not approve any EM loan which will cause the sum of the loan plus the principal balance of EM and operating loans owed by the borrower to exceed the amount shown for that particular loan approval in Subpart B of Part 1810 of this chapter.

(c) Administrative determinations and responsibilities: When the County Committee certification has been made, the loan approval official will determine administratively whether:

(1) The applicant is eligible and likely to be successful in the proposed operations and to achieve the objectives of the loan.

(2) The applicant has satisfactory tenure arrangements for the farm to be operated.

(3) The proposed farm and home operations of the applicant are reasonably sound.

(4) The loan is sound and can be repaid from farm or ranch income as scheduled.

(5) The amount of the loan and the purposes for which the funds are to be used are consistent with the applicant's needs and are for authorized purposes.

(6) The security requirements can be met.

(7) The certifications required of the applicant and County Committee have been made and are a part of the loan docket.

(8) The loan meets all other FHA requirements.

§ 1832.13 EM loans based on major disasters declared by the President.

(a) *General.* EM loans may be made to eligible farmers or ranchers having qualifying loss or damage caused by a major disaster declared by the President. Such loans will be subject to the requirements of §§ 1832.1 through 1832.12, except as modified herein.

(b) *Scope.* EM loans may be made under this section to otherwise eligible applicants who have had qualifying damage or loss caused by a major disaster declared by the President.

(1) EM loans may be made to such applicants in counties determined by the OEP as eligible for Federal assistance under a major disaster declared by the President. EM loans will be made in OEP counties only after this has been authorized by the National Office in accordance with § 1832.3(a).

(2) Initial EM loans will not be made under this section as the result of a particular major disaster after termination of the original or renewal authorization from the National Office to make loans based on that major disaster. Because of the small number of initial loans that may be made on a nondesignated basis, the State Director's original authorization to make initial loans based on that major disaster will not be renewed. However, after expiration of the authorization to make initial EM loans, subsequent EM loans may be made under § 1832.3(d), and additional EM loans may be made to paid-up EM loan borrowers where authorized by § 1832.3(e).

(3) With prior approval of the Administrator in urgent situations in areas designated because of major disasters, the State Director may waive applicant investigations required by Part 1801 of this chapter, or elsewhere, for applicants who submit reasonable information in support of their applications for EM loans under this section. Such waiver authorizes the County Supervisor to accept reasonable information without investigation. This includes information submitted in Form 410–1, "Application for FHA Services," and Form FHA 441–23, "Certification of Losses Caused by Major Disaster." Whether the submitted information in individual cases is reasonable is a judgment determination to be made by the County Supervisor based on his knowledge of conditions in the area.

(c) *Eligibility requirements.* The eligibility requirements set forth in § 1832.5 apply to applicants for EM loans under this section except that the applicant's production loss or property damage must have been caused by a major disaster. Each applicant must certify to his loss on Form FHA 441–23 and that he needs credit to repair, restore, rehabilitate, or replace property damaged or destroyed by the major disaster, or to continue his farming or ranching operations damaged by the major disaster.

(d) *Loan purposes.* Where an applicant's farm home or essential farm service buildings and related structures and equipment have been totally destroyed or substantially damaged by the major disaster, and an EM loan is being made to repair or restore the buildings and equipment, the EM loan may include funds to refinance indebtedness secured by liens on such property, subject to all of the following:

(1) The amount of loan funds to be used for such refinancing may not exceed the amount of financial damage to the property.

(2) Refinancing of the secured indebtedness must be necessary in order for the applicant to retain the property with reasonable prospects of carrying the indebtedness in an orderly manner.

(3) The applicant must have reasonable repayment prospects for the total EM loan being made.

(4) The applicant must have sufficient equity in property being offered as security to provide adequate protection for the total loan.

(e) *Disbursing loans.* EM loans made under this section may be disbursed in immediate and future advances authorized in § 1832.32(1) of Subpart B of this Part, except that immediate advances will be in the full amount to be canceled plus not less than $500. Interest will not be charged on amounts to be canceled.

(1) Where EM loans have already been made in a county based on a natural disaster which is subsequently determined eligible for Federal assistance by OEP under a major disaster declared by the President, these loans will be considered for cancellation action under paragraph (f) of this section on a retroactive basis. It is recognized that these EM loans were not made under this section, that immediate advances may not have been made in the full amount to be canceled plus not less than $500, and that interest will have accrued on amounts to be canceled. Paragraph (f)(3)(v) of this section describes Finance Office actions in such cases.

(f) *Cancellations.* Eligible applicants receiving EM loans under this section may receive principal cancellation as described below:

(1) *Principal cancellation.* Subject to the requirements of this paragraph and subparagraph (2) of this paragraph, otherwise eligible applicants may receive cancellations of principal on EM loan advances made or already made to repair, rehabilitate, or replace property in connection with which there have been qualifying property losses caused by a major disaster, or to meet expenses in connection with farming operations where there have been qualifying crop losses caused by a major disaster.

(i) A qualifying property loss is that part of a loss caused by a major disaster to farm homes, other farm buildings,

V 37-72 APR 13 72 XUM

household furniture, livestock, farm equipment, or other essential farm property, as distinguished from crops, which is not compensated for by insurance or otherwise.

(ii) A qualifying crop loss is that part of a loss to crops caused by a major disaster, which is not compensated for by insurance or otherwise.

(2) *Amount of principal cancellation.* The amount of principal which may be canceled in connection with an EM loan being made or already made will be the smallest of the following:

(i) That portion of the loan in excess of $500, or

(ii) The amount of losses shown on Form FHA 441–23 minus the amount of insurance or other compensation for the losses, or

(iii) The statutory maximum of $2,500 less the total of any amount already canceled on an EM loan based on the same major disaster, already canceled or being canceled on a RHD loan based on the same major disaster, and already canceled or being canceled on a Small Business Administration loan based on the same major disaster.

(3) *Processing principal cancellation.*—(i) *Certification of losses.* Each EM loan applicant will be informed about the benefits authorized herein and given an opportunity to file a certification of his losses with supporting information on Form FHA 441–23. If the information furnished by an applicant about production and property losses appears reasonable for his area, it will be accepted and used without investigation. However, if the submitted information does not appear reasonable, the County Supervisor will investigate and place information in the running record which will enable the appropriate FHA loan approval official to act on any request the applicant may make for a principal cancellation. Form FHA 441–23 will be prepared in an original only and maintained in the County Office file.

(ii) *Application for principal cancellation.* If the supporting information submitted on Form FHA 441–23 by an applicant for an EM loan shows that he has had qualifying losses, he will be given an opportunity to apply for a principal cancellation on Form FHA 440–44, "Application for Principal Cancellation."

(iii) *County Committee action.* The County Committee will review each application for principal cancellation and make a recommendation, which will be advisory only, by inserting the following in Form FHA 440–2:

> We recommend cancellation of principal in the amount of $-------

(iv) *Approval authorization.* Subject to the foregoing requirements of this paragraph, FHA loan approval officials are authorized to approve principal cancellations in connection with the approval of EM loans being made within their respective approval authorizations. Form FHA 440–44 will be prepared in triplicate but only the original will be executed. The original and one copy will be submitted to the Finance Office. This submission will be made along with the submission of Form FHA 441–1, "Promissory Note." The second copy will be retained in the County Office file. (See § 1832.32(h) (4) of Subpart B for preparation of Form FHA 441–1 where cancellation is involved.)

(v) *Finance Office action.* Upon receipt of the original and one copy of Form FHA 440–44 approving a principal cancellation, the Finance Office will immediately apply the approved amount of the principal cancellation, as of the date of the promissory note, to the earliest installment(s) having the shortest maturity and evidencing the EM loan(s) based on the qualifying major disaster. The Finance Office will indicate the action taken in the appropriate space of the copy of Form FHA 440–44 and return it to the County Office.

(*a*) Where retroactive cancellations are made, the Finance Office will apply the approved amount in accordance with this subdivision (v) (*a*) and will modify the promissory note to reverse calculated interest on principal amounts being canceled.

(vi) *Conforming County Office records and informing borrower.* When a processed copy of Form FHA 440–44, covering a principal cancellation is received from the Finance Office, the County Office will conform the copy maintained in the County Office file and credit the borrower's EM loan account with the approved principal amount on the appropriate Form FHA 405–1, "Management System Card—Individual," as follows: For an EM loan already made, erase the first installment due following approval of Form FHA 440–44, and insert the reduced installment; and for an EM loan being made, which involves Form FHA 440–44 and the promissory note is being processed at the same time, the first installment reduced by the amount of principal canceled, will be posted. In all cases, the notation "FHA 440–44" will be entered in the "Amount of Note" column of Form FHA 405–1 immediately above the note concerned. After these requirements have been met, the processed copy of Form FHA 440–44 will be delivered to the borrower.

(g) *Deferring EM loan principal and interest payments.* Principal and interests payments may be deferred in accordance with § 1832.10(a). However, any amount to be canceled where deferments are granted will be reflected in the first installment on Form FHA 441–1. (See § 1832.32(h) (4) of Subpart B for preparation of Form FHA 441–1 where cancellation is involved.)

(h) *Meeting farm housing needs.* Where an applicant needs to borrow funds to repair or replace a farm dwelling or service building damaged or destroyed by a major disaster, he will be considered for a RHD loan for his farm housing purposes. An EM loan will not be considered for farm housing purposes unless this need cannot be met with an RHD loan but could be met with an EM loan. In this event, the EM loan for farm housing purposes would be subject to this section and the requirements for making EM loans under § 1832.11(b).

(i) *Miscellaneous.* (1) An applicant operating farms in different counties will be considered for only one EM loan covering all farms rather than a separate loan in connection with each farm. However, cancellations will not be based on damage in any county which has not been designated by OEP.

(2) The fact that stockholders of a corporation receive benefits under paragraph (f) of this section, in connection with their individual farming operations does not disqualify the corporation from consideration for such benefits in connection with different farming operations.

(3) For otherwise eligible applicants having qualifying losses, §§ 1832.7(b) and 1832.9 are supplemented hereby to authorize the making of EM loans instead of operating loans, to operators of not larger than family farms, to replace farm machinery worn beyond economic repair, or lost by foreclosure or repossession by a prior creditor.

(4) An EM loan, instead of both EM and RHD loans, will be made to eligible farmers requiring a total of less than $3,500 for housing and farm service building purposes and for authorized EM loan purposes. This is because one loan instead of two will be required for the applicant to qualify for the full amount of cancellation he would be entitled to receive, assuming that he had qualifying losses for a maximum cancellation under the major disaster declared by the President.

(j) *Reports on lending activity.* State Directors will make cumulative reports to the National Office at regular intervals on lending activity under this section. This report will be on a county basis and will include the name of the county, number of applications received, number and amount of loans approved, amount of cancellations approved, and number of applications rejected or withdrawn, cumulative from date or declaration. The first report will be made as of the close of business at the end of the second full week following a major disaster declared by the President. Thereafter, cumulative reports will be made at the end of each 2 weeks as long as there is activity, with a final report at the end of the fiscal year.

§ 1832.14 EM loans to vegetable growers.

(a) *General.* EM loans may be made to vegetable growers in accordance with the requirements of §§ 1832.1 through 1832.12, except as modified and supplemented herein.

(b) *Definitions.* "Vegetable grower" as used in this section refers to those established farmers in recognized vegetable producing areas whose operations involve primarily the production of vegetables or truck crops, including potatoes, or those who would expect to use a substantial part of the credit made available to them for financing such enterprises. A farmer whose vegetable enterprises represent only a minor part of his total farming operations will not be considered a vegetable grower in connection with an EM loan to finance his total farming operations.

(c) *Eligibility.* In addition to the requirements of § 1832.5, it must also be determined:

(1) That the applicant has been established as a vegetable grower in the area for at least 3 years with a successful record of past operations involving the production of the specific crops to be produced with the requested EM loan.

(d) *Loan purposes.* EM loans may be made to eligible vegetable growers for any of the purposes authorized by § 1832.7. Because of the greater-than-normal hazards involved in financing vegetable operations, loans should be made only for those purposes that are absolutely essential to enable the applicant to carry out the proposed operations. In this connection, it is expected that EM loans will be made in only rare instances for the purchase of replacement items of farm machinery.

(e) *Loan limitations.* The following limitations in addition to those set forth in § 1832.8 are applicable in the making of EM loans to eligible vegetable growers:

(1) The EM loan program will be administered in such a way as to comply with the intent of the production goals or planting guides announced by the U.S. Department of Agriculture with respect to particular vegetable crops. State requirements should be issued to supplement this subpart when the State Director feels it is necessary to give effect to this policy.

(2) Loans will be limited to the minimum required for efficient production (and harvesting and marketing, when necessary) of the particular crops to be grown by each applicant. The State Office should assist the County Supervisors in the development of a guide setting forth the maximum production costs per acre which might be incurred for each of the various crops to be grown in the area and still permit a profit under normal conditions. Advances or releases for harvesting or marketing will be limited to actual costs, but will not exceed the per-unit costs estimated and agreed upon by the County Supervisor and the borrower prior to harvest.

(3) When it is necessary to advance loan funds for harvesting expenses, the amount needed for this purpose will be included in the loan for production expenses. However, a separate advance for harvest expenses will be set up for disbursement just prior to harvest. Generally, advances for harvest expenses should be disbursed through a supervised bank account as the harvest progresses and the produce is accounted for.

(4) In areas where there are two crop cycles during a normal year and it is customary for vegetable growers to plant both a "fall" crop and a "spring" crop, it is the intent that EM loans will be made to finance the crops to be produced during only the first seasonal planting following the disaster for which the area was designated. However, if the need for additional emergency credit assistance in the area justifies it, the Administrator may authorize the making of loans for a further planting cycle if recommended by the State Director.

(f) *Security.* It is the general policy that EM loans to vegetable growers will be secured by a first lien on crops, the best lien on farm machinery and equipment, and the best lien obtainable on farm real estate having sufficient equity to provide reasonably adequate security. A first lien on crops will be required in all cases and there must be real estate security for any initial EM loan in excess of $20,000, and any subsequent EM loan which would cause the applicant's total principal balance on EM loans and operating loans to exceed $50,000. Applicants who can offer chattel and real estate security will be required to do so. However, a subsequent EM loan which would not cause the applicant's total principal balance on EM loans and operating loans to exceed $50,000 may be made upon the security of a crop lien only for an applicant having no equity in chattels or real estate where the loan approval official determines that the loan can be repaid from the crop year's income. This determination will be made cautiously.

(1) An agreement will be reached with each applicant prior to loan closing concerning the disposition of his crops. Unless there is a feasible plan for handling crops to be produced which will reasonably assure repayment of the loan, the loan should not be closed. Applicants must know that assignments will be required when it is feasible to do so. Also, they must know that a full accounting will be required for the disposition of all crops or other security property.

§ 1832.15 EM loans for orchard rehabilitation.

(a) *General.* EM loans may be made for orchard rehabilitation subject to the requirements of §§ 1832.1 through 1832.12, except as modified and supplemented herein, which shall be effective upon order by the Administrator for use in a particular area.

(b) *Definition.* "Orchard rehabilitation" means the renovation or reestablishment of orchards made necessary because of major damage resulting from the natural disaster for which the area was designated or a subsequent natural disaster during the period of the designation.

(c) *Objective.* The objective for making an orchard rehabilitation loan is to enable an eligible applicant to restore his damaged orchard to normal production where this can be done on a reasonably sound basis, and the rehabilitated orchard will afford prospects for reasonably successful operations.

(d) *Eligibility.* Section 1832.5(b) is modified to the extent that orchard rehabilitation loans will be made only to otherwise eligible applicants who are owner-operators.

(1) Applicants who qualify for orchard rehabilitation loans pursuant to this section, also may need EM loan assistance for continuing their normal orchard operations that were not damaged by the natural disaster, or for continuing their other farming operations. EM loans for purposes other than orchard rehabilitation will be made under the regular EM loan policies stated in §§ 1832.1 through 1832.12.

(e) *Loan purposes.* Orchard rehabilitation loans may be made to eligible applicants for the purposes authorized by § 1832.7, except as modified below:

(1) The purposes authorized by § 1832.7 (b), (c), (d), (j), and (o) are not applicable.

(2) Section 1832.7(f) is modified to provide only for advances to pay unsecured bills incurred during the crop year for which the loan is made for annual recurring expenses in connection with the production of livestock, livestock products, and crops yet to be sold and from which the advances can be repaid.

(3) Section 1832.7(i) is modified to provide that advances will not be made for family subsistence, as defined therein, to an applicant for an orchard rehabilitation loan unless his full time will be required for his operations, and then only if other arrangements cannot be made for meeting subsistence expenses.

(f) *Rehabilitating orchards.* EM loans may be made under this authorization to enable eligible orchardists to rehabilitate their damaged or destroyed orchards for producing the same type of fruit or nuts, or for producing a different type of fruit or nuts suitable for the area if the applicant has had adequate experience to assure reasonable prospects for success with that type of fruit or nuts.

(1) EM loans for orchard rehabilitation may be made only to otherwise eligible applicants who agree to replant with the variety of trees approved by the Farmers Home Administration, as set forth in a State requirement for this purpose. Trees used for orchard rehabilitation will be certified to in writing by the selling nurseryman.

(g) *Rates and terms.* (1) Section 1832.10 is modified hereby to provide that advances for orchard rehabilitation will be scheduled for repayment in annual installments over the shortest period consistent with the applicant's estimated repayment ability from all sources, including income from other crops, livestock, and outside employment, but not to exceed 20 years from the date of the initial loan.

(i) If the applicant will not have income from crops, livestock, or other sources which would enable him to make earlier annual payments, repayments on advances for orchard rehabilitation, including interest when necessary, may be deferred until income is to be received from the rehabilitated fruit trees.

(*a*) When the loan approval official determines that a portion of the interest that will accrue as of the due date of the first principal installment should be deferred, the following change in Form FHA 441–1 should be made:

> Change the period to a comma at the end of the first sentence of the second paragraph, insert an asterisk, and then type the following on the margin or below the printed language of the note and have it initialed by the signers: "except that at least one-half

V 37-72
APR 13 72
XUM

of the interest accrued to the due date of the first principal installment may be paid on that date and the balance of such interest on the second principal installment due date."

(2) Amounts advanced for purposes other than orchard rehabilitation will be scheduled for repayment in accordance with the applicable requirements of § 1832.10 without modification.

(h) *Security.* EM loans for orchard rehabilitation will be secured in accordance with § 1832.11(b). Amounts loaned for purposes other than orchard rehabilitation will be secured in accordance with the applicable requirements of § 1832.11(a), including the best lien obtainable on real estate as additional security where needed to adequately secure the loan.

(i) *Loan approval and administrative determinations.* Before an EM loan is made for orchard rehabilitation, the loan approval official will make the following determinations in addition to those required by § 1832.12:

(1) The applicant will have reasonable prospects of repaying the total amount it will be necessary to borrow for orchard rehabilitation.

(i) This determination will be based on a careful analysis of the estimated costs and income, and fixed obligations, by years, for the rehabilitation period, and the same information for a typical year after normal production is achieved. The estimated costs will include both operating and living expenses. The analysis will be documented on schedules and made a part of the loan docket.

(2) The appraised current market value of the applicant's farm real estate, as rehabilitated, equals or exceeds the total of the debts secured by existing liens on the property plus the maximum principal balance expected to be outstanding on EM loans at any time during the rehabilitation period.

(i) This determination will be based on an appraisal made in accordance with § 1832.11(b)(1). The appraisal report will be retained in the borrower's County Office file. The running record or other information in the file will show the total debts secured by liens on the property, and the loan approval official's estimate of the maximum principal balance expected to be outstanding on EM loans at any time during the rehabilitation period.

(3) The applicant will be able to make satisfactory arrangements, on an annual basis, with regard to annual installments on real estate debts and other fixed obligations. When necessary, in the opinion of the loan approval official, annual nondisturbance agreements will be obtained from creditors in position to interfere with the applicant's orchard operations.

§ 1832.16 EM loans for fish farming purposes.

(a) *General.* EM loans for authorized fish farming purposes may be made subject to the requirements of §§ 1832.1 through 1832.12, except as modified and supplemented herein.

(b) *Definition.* "Established farmer" as used in §§ 1832.1 through 1832.12 includes any applicant who is conducting his own established farming operations consisting in whole or in part of the production of fish for income under controlled conditions, in lakes, ponds, streams, or reservoirs.

(c) *Eligibility.* Section 1832.5 is supplemented to provide for the following additional eligibility requirements:

(1) The applicant must have a record of successful fish farming operations in the past.

(2) The applicant must have satisfactory plans for marketing his fish farming products.

(d) *Loan purposes.* EM loan purposes to finance fish farming operations include only the following:

(1) Purchase of fish for restocking ponds, lakes, streams, or reservoirs under controlled conditions, and for essential operating expenses in continuing an applicant's normal fish farming operations.

(2) Purposes authorized by § 1832.7 (e), (i), and (k).

(e) *Security.* Section 1832.11 is supplemented to provide for the following additional requirements:

(1) Each loan made primarily for fish farming purposes will be secured additionally by a lien on real estate in which the applicant has an equity of not less than the total amount to be advanced for such purposes. This determination will be based on an appraisal made in accordance with § 1832.11(b)(1). The running record will show the loan approval official's estimate of the present market value of the property, the total debts secured by liens on the property as shown by the applicant's financial statement, and the loan approval official's estimate of the total amount of EM loans expected to be made, and the total planned principal repayments for each year.

(2) Each loan which includes funds for fish farming and also for other farming operations, and the fish farming is not primary in relation to the total farming operations being financed, will be secured as required by the loan approval official in accordance with § 1832.11.

(f) *Other farming operations.* EM loan advances to finance other farming operations will be made subject to all applicable requirements of §§ 1832.1 through 1832.12. When an applicant is receiving EM loan advances for authorized fish farming purposes and also advances to finance other farming operations, only one loan docket will be developed. However, the amount of loan funds to be advanced for authorized fish farming purposes and the total expenses for the fish farming operations will be shown in columns inserted in Table G of Form FHA 431-2.

§ 1832.17 EM loans to oyster planters.

(a) *General.* EM loans may be made to established oyster planters to enable them to continue their normal oyster planting operations, including annual operating costs as well as expenses of rehabilitating oyster farming operations when necessary. Such loans will be subject to the requirements of §§ 1832.1 through 1832.12, except as modified and supplemented herein. EM loans are the only type of FHA loan which may be made to finance oyster planting operations.

(b) *Definitions.* (1) "Oyster planting" means renovating oyster seed beds and planting, caring for, cultivating, and harvesting planted oysters on the applicant's owned or leased oyster ground. Other types of oyster operations, such as contract planting and gathering wild oysters, are not "oyster planting" operations for this purpose.

(2) "Oyster planter" means one who performs or actively manages oyster planting functions described in subparagraph (1) of this paragraph as his own operation on owned or leased oyster ground.

(i) An operator who performs any or all of these functions other than his own oyster planting operations, or is self-employed or employed by others in any type of oyster operations or marine life operations other than oyster planting operations as described in subparagraph (1) of this paragraph, is not an oyster planter for this purpose. However, these activities on a limited basis would not disqualify an applicant who conducts oyster planting operations within the meaning of subparagraph (1) of this paragraph.

(3) "Rehabilitating oyster planting operations" means restoring such operations to a normal pattern. Generally, a period of 3 years is required for planted oysters to reach the harvesting stage. It is the normal pattern for operators to plant one-third of their oyster ground each year in order to have a crop for sale each year. When all of an applicant's planted oysters are destroyed by a natural disaster, the rehabilitation to a normal pattern generally consists of replanting one-third of the applicant's oyster ground during the first year, one-third during the second year, and one-third during the third year. The operations then will have been restored to a normal pattern and subsequent replantings each year will be normal and will not be considered as for rehabilitation purposes.

(i) It is recognized that there may be variations of the normal pattern of oyster planting operations in some areas. The making of loans will always be adapted to the proven normal pattern of the area. Therefore, when the normal pattern of a particular designated or nondesignated area differs from that described herein, the State Director will report the matter to the National Office for additional instructions.

(4) "Oyster ground" means ground under water on which oyster planting operations are conducted.

(c) *Designation of EM loan areas.* Section 1832.3 is supplemented hereby to provide for specific area designations for EM loans to oyster planters. Therefore, when a natural disaster creates a need for credit among oyster planters, the State Director will recommend a designation for EM loans to oyster planters in accordance with the procedure set forth in § 1832.3. However, when there is also justification for a designation for EM loans to farmers, ranchers, and oyster planters, only one recommendation will be made but it will specify that EM loans also will be made to eligible oyster planters if the designation is approved.

(d) *Eligibility requirements.* Section 1832.5 is supplemented by the addition of the following:

(1) The applicant must furnish satisfactory evidence from other reliable sources, such as banks and other lenders, buyers, and lessors, of a good record of oyster planting operations in the past.

(2) The applicant must agree in writing to abide by any Federal and State laws or regulations applicable to oyster planting operations in his area.

(e) *Loan purposes.* Section 1832.7 is not applicable. Instead, EM loans to eligible oyster planters may be made for the following purposes:

(1) Purchase of seed oysters and oyster planting supplies; the repair of oyster planting machinery or equipment; purchase of replacement oyster planting machinery and equipment; and other essential operating expenses, including funds for oyster seed bed renovation.

(2) Family subsistence needs for applicants who devote a major portion of their time to their oyster planting operations when funds are not available from other sources for this purpose.

(3) Payment of not more than a year's interest calculated at a rate not to exceed that which is reasonable and customary for the area, that is due or about to become due on debts secured by liens of other creditors on equipment and real estate essential to the applicant's oyster planting operations.

(4) Payment of not more than 1 year's customary and equitable cash rent or cash charges for the use of grounds leased for oyster planting operations, provided other arrangements cannot be made for the payment of rent and the applicant holds a written lease.

(5) Payment of not more than 1 year's taxes on personal property and real estate other than farm ownership or rural housing farms, payment of not more than 1 year's premiums for insurance on personal property and real estate other than on farm ownership, soil and water conservation, and rural housing farms, and Social Security taxes in connection with hired labor only.

(6) Expenses incident to loan closing.

(f) *Loan limitations.* Section 1832.8 is supplemented to prohibit making any EM loan to finance an applicant's oyster planting needs, rehabilitation, or otherwise for a period longer than one crop year at a time. This is not intended, however, to prohibit subsequent loans in succeeding years on a crop year basis. This prohibition deals only with loan making and not with scheduling loans for repayment.

(g) *Repayment terms.* (1) EM loans for authorized purposes in connection with the rehabilitation of oyster planting operations, including annual operating expenses during the rehabilitation period, will be scheduled for repayment over the shortest period consistent with the applicant's estimated repayment ability from all sources, but not longer than 3 years from the date of the loan. Also, if the applicant will not have income from any source which would enable him to make earlier repayments, the full amount may be scheduled for repayment in the third year.

(i) When an EM loan advance is made to meet the cost of renovating and replanting oyster beds and the cost is higher than the cost of normal replantings because of a natural disaster, an amount representing the abnormal portion of the cost may be considered as a capital purpose and scheduled for repayment accordingly.

(2) EM loans to oyster planters for other than rehabilitating oyster planting operations will be scheduled for repayment strictly in accordance with § 1832.10. It should be remembered in this connection that amounts advanced for annual operating expenses during a rehabilitation period will be considered as for rehabilitation purposes but that any advances for normal annual replanting will not be considered as for rehabilitation purposes.

(h) *Security.* Section 1832.11 is not applicable. EM loans to oyster planters will be secured by a first lien on all oysters planted or to be planted by the applicant, a first lien on all replacement machinery and equipment purchased with the loan, the best lien obtainable on as much of the other machinery and equipment owned by the applicant as the loan approval official determines necessary to provide adequate security, the best lien obtainable on real estate owned by the applicant when the loan approval official determines such lien is necessary to provide adequate security, and an assignment of leases on oyster grounds held by the applicant.

(1) Except when the cost is so high as to be almost prohibitive, insurance will be required on buildings, machinery, boats, and other equipment serving as security, when the loan approval official determines this is necessary to protect the Government's interest. Insurance obtained on buildings will be in accordance with Part 1806 of this chapter. Insurance obtained on other property will be in such form, amount, and against such hazards as the loan approval official requires with policy assignment or loss payable clause in favor of the Government.

(i) *Loan approval.* Section 1832.12 is supplemented by the following additional determinations to be made by the loan approval official:

(1) The applicant must either own or have under lease sufficient acreage in oyster grounds to justify the loan.

(2) If grounds are leased, the lease arrangements are such that the applicant will have secure tenure during the term of the loan with reasonable rental terms.

(3) The applicant will have reasonable prospects for repaying the loan on schedule. This determination will be based on a careful analysis of estimated costs and income and fixed obligations by years until normal operations are achieved, and the same information for a typical year with normal sales. This analysis will be documented and made a part of the loan docket.

(4) The applicant will furnish prior to loan closing a statement indicating his plans for selling the oysters or other produce and this will become a part of the loan docket.

§ 1832.18 EM loans to cranberry growers.

(a) *General.* EM loans may be made to cranberry growers subject to the requirements of §§ 1832.1 through 1832.12, except as modified and supplemented herein.

(b) *Eligibility.* Section 1832.5(b) is modified to the extent that loans under this authorization will be made only to otherwise eligible applicants who are owner-operators.

(c) *Loan purposes.* Loans to cranberry growers may be made for only those purposes authorized in § 1832.7 (a), (e), (g), (i), and (k). In addition, loans may include funds for the payment of bills already incurred for annual recurring expenses in connection with the cranberry crop being financed and to make necessary repairs to machinery and irrigation equipment.

(d) *Rates and terms.* Section 1832.10 is modified to provide that loans to cranberry growers will be scheduled for repayment as to the income from the crop being financed is expected to be received.

(e) *Security.* Section 1832.11 is supplemented to provide that an assignment covering income from the cranberry crop being financed will be obtained from the applicant and accepted by the marketing facility.

Subpart B—Emergency Loan Processing

Sec.
1832.31 General.
1832.32 Loan forms and routines.
1832.33 Loan docket.
1832.34 Review and approval or rejection.
1832.35 Loan checks.
1832.36 Loan closing.
1832.37 Revision in the use of EM loan funds.

AUTHORITY: The provisions of this Subpart B issued under sec. 339, 75 Stat. 318, 7 U.S.C. 1989; sec. 510, 63 Stat. 437, 42 U.S.C. 1480; sec. 4, 64 Stat. 100, 40 U.S.C. 442; sec. 301, 80 Stat. 379, 5 U.S.C. 301; Order of Acting Secretary of Agriculture, 36 F.R. 21529; Order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529.

Subpart B—Emergency Loan Processing

§ 1832.31 General.

This subpart is supplemented by Subpart B of Part 1810 and Part 1890r of this chapter. This subpart prescribes the requirements and procedures for making

V 37-72
APR 13 72
XUM

emergency (EM) loans in accordance with Subpart A of this Part 1832.

§ 1832.32 Loan forms and routines.

(a) *Applications.* Applications for loans will be taken as outlined in Part 1801 of this chapter. However, the first sentence in item 23 of Form FHA 410–1, "Application for FHA Services," will be deleted for use by applicants where ability to obtain credit elsewhere is not disqualifying under § 1832.5(f). This deletion will be initialed by the applicant.

(b) *Form FHA 440–2, "County Committee Certification or Recommendation."* (1) When the applicant is determined to be eligible, the County Committee will execute Form FHA 440–2 before the loan is approved. This certification will cover any EM loan(s) to be made to the applicant for the crop or operating year specified and within the maximum amount of credit established by the County Committee. The date designated by the County Committee as the end of the crop or operating year and the amount of credit will be inserted in the appropriate spaces of item 2 for applicants who are individuals, and item 6 for corporations and partnerships, except that the crop or operating year for such applicants will be inserted in the space below item 9.

(i) It is intended that County Committees will have some latitude in determining for which crop or operating year(s) credit may be extended. In some cases where an initial EM loan is being made, the County Committee may indicate that the crop or operating year for which credit may be extended coincides with that for which an interim plan is developed. Such action may be taken because the Committee wishes to review the circumstances of the applicant again at the end of the interim crop or operating year before committing itself for the succeeding crop or operating year. In other cases, the County Committee may, when an application is being acted upon during the latter part of a crop or operating year, establish the maximum amount of credit for both the interim crop or operating year and the next crop or operating year: *Provided*, The operations for the current year have advanced to the point that the County Committee will be able to determine with reasonable certainty the maximum amount of credit which the applicant would need for the next crop or operating year under normal conditions. The same principles with respect to County Committee certifications for an initial loan may be followed in connection with subsequent loans.

(ii) If it is found, after an applicant has been certified as eligible, that there will be a major change in operations or that an amount of credit in excess of the maximum previously established by the County Committee will be required for the designated crop or operating year, it will be necessary for the County Committee again to certify the applicant as eligible on the basis of the changed circumstances if a loan is to be made.

(2) When the County Committee has agreed to certify an increase over the original amount of loan assistance certified for the crop or operating year because such amount was insufficient to meet the needs of the borrower, a new Form FHA 440–2 will be prepared and executed. The date of the end of the same crop or operating year (month, day, and year) as that indicated in the original certification will be inserted in the appropriate space. In the space indicating the maximum amount of credit for the crop or operating year, the amount to be inserted will be the sum of the latest certification for the crop year for any operating and EM loans, plus the additional amount(s) of any such loan(s) the County Committee determines is necessary to meet the actual credit needs of the borrower for the remainder of the crop or operating year. A notation will be made in the blank space on Form FHA 440–2 that the County Committee has again reviewed the applicant's situation and his credit needs for the crop or operating year are as indicated rather than $_____ shown on Form FHA 440–2 dated _____. The new Form FHA 440–2 previously executed will be retained in the case files.

(c) *Form FHA 431–1, "Long-Time Farm and Home Plan."* Form FHA 431–1 will be developed as prescribed in Subpart B of Part 1802 of this chapter.

(d) *Form FHA 431–2, "Farm and Home Plan."* (1) Form FHA 431–2 will be prepared in accordance with Subpart B of Part 1802 of this chapter.

(2) If the applicant is a partnership, personal financial statements will be obtained from each of the partners and included in the loan docket, in addition to the partnership's financial statement.

(3) If the applicant is a corporation, the following additional information will be obtained and included in the loan docket:

(i) A complete list of stockholders, showing the address, principal occupation, and the number of shares of stock held in the corporation by each.

(ii) A current personal financial statement from each of the principal stockholders. For this purpose a principal stockholder is one owning as much as 20 percent of the outstanding stock of the corporation, and any other stockholder whose financial statement in the judgment of the County Supervisor, or the loan approval official would be pertinent to a consideration of the financial strength of the corporation and its stockholders.

(iii) A copy of the corporation's charter or articles of incorporation, its bylaws, and any resolution(s) adopted by the Board of Directors or stockholders authorizing specified officers of the corporation to apply for and obtain the desired EM loan and execute required debt, security, and other instruments and agreements.

(iv) A copy of any lease, contract, or agreement entered into by the corporation which may be pertinent to a consideration of its application.

(e) *Appraisal of chattel property.* When funds are to be advanced for the payment of amounts for depreciation pursuant to § 1832.7(h), an appraisal will be made of the chattels under prior lien to the creditor to whom depreciation payment is to be made.

(f) *Form FHA 440–32, "Request for Statement of Debts and Collaterals."* This form will be used as necessary to obtain information from the creditors of the applicant concerning the amount of debts owed and the collateral for the debts.

(g) *Tenure agreement.* Generally, a copy of the lease agreement between tenant applicants and their landlords will be obtained and made a part of the loan docket. Where that is not practical, a statement setting forth the terms and conditions of the agreement which are not clearly reflected in the Farm and Home Plan will be prepared and made a part of the loan docket.

(h) *Form FHA 441–1, "Promissory Note."* One note will be prepared showing the full amount of the loan, rounded to the nearest $100, regardless of the number of advances involved, except as provided in subparagraph (1) of this paragraph. Each scheduled installment will include interest in addition to principal. The first installment may not be less than the amount equal to interest on the loan from the estimated date of closing to February 1 of the next calendar year. Refer to Subpart A of Part 1810 of this chapter and the guide available in all Farmers Home Administration (FHA) offices for preparation of Form FHA 441–1, for the computation of interest. All installment due dates will be January 1 of each year, except that the final installment will be payable on the date of the note plus the number of years over which the loan is amortized. No installment will be made payable later than 7 years from the date of the note. The note will be dated on the date the loan is closed and will bear interest at the rate which was in effect at the time the loan was approved. The applicant's spouse will be required to execute Form FHA 441–1 when legally required by State law, the loan approval official determines that the signature is needed because of the spouse's interest in the farm being operated or in property offered as security, or it is determined by the State Director on a State basis that the spouse's signature will be required. The State Director, with the advice of the Office of the General Counsel (OGC), will issue an appropriate State requirement concerning the spouse's signature on Form FHA 441–1. In all cases in which the wife joins with her husband in executing a promissory note or other evidence of indebtedness, the purpose and effect of the wife's signature will be, in addition to any other purpose and effect for which her signature is obtained, to engage her separate and individual personal liability regardless of any State law to the contrary. The original and one copy of the promissory note, Form FHA 441–1, will be sent to the Finance Office immediately after loan closing.

(1) When an EM loan is made for purposes authorized by § 1832.11(a), and also for purposes authorized by § 1832.11(b), separate notes will be required.

(2) When the applicant is a partnership, or operates as such, Form FHA 441–1 will be executed so as to evidence the liability of the partnership as well as each partner as an individual. This will be accomplished by typing the name of the partnership above the space provided for signatures and having the note executed by each member of the partnership both as a partner and as an individual. To evidence the liability of the partnership, the words "As Partners" will be typed immediately beneath the name of the partnership and each partner will sign thereunder. To evidence the partners' liability as individuals, the words "As Individuals" will be typed at the top of the blank space to the left of the lines for signatures, and each partner will sign thereunder, along with his spouse if required by State procedure or loan closing instructions.

(3) When the applicant is a corporation, Form FHA 441–1 will be executed by the corporation acting through its appropriate officials and, in order to evidence their personal liability for the debt by the principal stockholders as individuals, except in unusual circumstances including legal disability, absence from the country, limitations in prior contracts of the corporation, or lack of assets owned by a stockholder. The name of the corporation will be typed above the space provided for signatures, and the name and title of each official to sign for the corporation will be typed below his signature. The signatures of the principal stockholders will be obtained in the same manner as indicated above for the individual members of a partnership.

(4) Where an applicant is receiving a principal cancellation under § 1832.13(f), the first installment on Form FHA 441–1 will be for an amount determined in accordance with § 1832.10(a), plus any amount of principal to be canceled under § 1832.13(f). Interest will not be charged on the amount of principal being canceled.

(i) *Form FHA 440–9, "Supplementary Payment Agreement."* This form ordinarily should be used when the farm income or other income from which payment is to be made will be received substantially before a January 1 installment due date. The State Director may issue State requirements setting forth additional conditions under which this form would be used.

(j) *Form FHA 440–1, "Payment Authorization."* (1) Only one Form FHA 440–1 will be prepared for the total amount of the loan regardless of the number of advances involved. This is also true when separate notes are prepared in accordance with paragraph (h)(1) of this section. The approval official will indicate his determination that the applicant is eligible and his approval of the loan by signing and dating the original and one copy in the space provided. He will also insert his title on the original. The type of loan will be inserted in the space provided for this purpose as follows:

(i) "EM–I" to indicate an initial EM loan made to an applicant who is not indebted for an EM-type loan (including a Special Livestock loan) or Operating loan.

(ii) "EM–IO" to indicate an initial EM loan to an applicant who is indebted for an operating loan.

(iii) "EM–S" to indicate a subsequent EM loan made to an applicant who is indebted for any EM-type loan but not an operating loan.

(iv) "EM–SO" to indicate a subsequent EM loan made to an applicant who is indebted for an operating loan and any EM-type loan.

(2) The first sentence in the applicant's certification will be deleted for use by applicants where ability to obtain credit elsewhere is not disqualifying under § 1832.5(f). This deletion will be initialed by the applicant.

(3) To assist the Finance Office in the examination of loan documents, enter on Form FHA 440–1, the date, amount, and receipt number of receipts issued for collections for which Form FHA 451–26, "Transaction Record," had not been received in the County Office when a loan is submitted which would cause the borrower's indebtedness before application of such collections to exceed the delegated loan approval authority.

(k) *Borrower's case number.* The use of the borrower's case number (including the State and County codes) for loan processing is prescribed in the guide available in all FHA offices for preparation of Form FHA 440–1.

(l) *Immediate and future disbursements.* The applicant's total anticipated credit need for the crop or operating year will be planned when Form FHA 431–2 is developed. Loan funds for the full amount of FHA credit required will be disbursed in an immediate advance, an immediate advance and one or more future advances, or one or more future advances without an immediate advance. All such advances must be disbursed at least 30 days apart. The payment date(s) for any future advance(s) must not be later than the date shown as the ending date of the crop or operating year, Item 2 of Form FHA 440–2. When additional FHA credit is required that could not be foreseen at the time plans for the year were completed, Form FHA 431–2 will be revised to include the additional amount and a subsequent loan docket will be submitted to the Finance Office.

(1) Each advance will be limited to an amount which can be expended promptly, usually within 60 days after receipt of the check in the County Office. This will prevent loan funds from remaining in the possession of borrowers or in supervised bank accounts for long periods of time.

(2) The Form FHA 440–1 will show the schedule of advances in accordance with the guide available in all FHA offices for preparation of Form FHA 440–1. Upon receipt of Form 440–1 the Finance Office will obligate funds for the total amount of the advance(s) shown. For each future advance the date for Thursday of the week in which the loan check is to be issued will be shown on Form FHA 440–1. The Finance Office will issue checks for future advances without further action by the County Office. In order that these dates will be available in County Offices, an appropriate notation should be inserted on Form FHA 405–1, "Management System Card—Individual," if it has been prepared, or on the County Office copy of the promissory note.

(3) When a future advance is to be canceled the following actions must be taken:

(i) Complete Form FHA 440–10, "Notification of Loan or Grant Cancellation," in accordance with the guide available in all FHA offices for preparation of this form.

(ii) Prepare and execute a substitute note on Form FHA 444–1, "Rural Housing Contribution Agreement," reflecting the revised total of the loan and the revised payment schedule. When it is not possible to obtain a substitute promissory note the County Supervisor will show on Form FHA 440–10 the revised amount of the loan and the revised repayment schedule.

(iii) Transmit to the Finance Office the Forms FHA 440–10 and FHA 441–1 prepared as outlined above.

(m) *Form FHA 441–5, "Subordination Agreement," or Form FHA 441–17, "Certification of Obligation to Landlord."* When a subordination agreement is required on crops, livestock, farm equipment, and other chattel property, including items which have become personal property through execution of a severance agreement, Form FHA 441–5, or other form approved by the State Director with the advice of the OGC where Form FHA 441–5 is not legally sufficient, will be used except as provided in subparagraph (2) of this paragraph. The years to be covered by the subordination generally will be for the period of the loan or the unexpired period of the lease if the borrower is a tenant, but as a minimum will be for the year for which the loan is made.

(1) When an EM loan is made to a tenant, the landlord must subordinate his claim for the current year's rent, unless the FHA lien on crops will be subject to claims or liens for rent in accordance with § 1832.11(a)(1), or there is in the borrower's file a receipt showing that the rent has been paid in full. If the claim for rent is to be subordinated and Form FHA 441–5 is used, the parenthetical statement with regard to the landlord's lien on crops will be deleted and the landlord will initial the deletion in the margin.

(2) Form FHA 441–17 may be used in lieu of obtaining a subordination agreement from the landlord where an EM loan is being made subject to the landlord's claim for rent in accordance with § 1832.11(a)(1) or the rent for the year has been paid, and it appears that the applicant is not indebted to the landlord on other obligations and will not likely become indebted to him on such obligations during the lease year.

V 37-72
APR 13 72
XUM

(n) *Assignment of or consent to payment of proceeds from the sale of products.* Form FHA 441–8, "Assignment of Proceeds from the Sale of Agricultural Products," Form FHA 441–18, "Consent to Payment of Proceeds from Sale of Farm Products," or Form FHA 441–25, "Assignment of Proceeds from the Sale of Dairy Products and Release of Security Interest," will be used in accordance with § 1832.11(a)(7). Form FHA 441–21, "Transmittal of Assignment or Consent," may be used to transmit Form FHA 441–8 or Form FHA 441–18 to purchasers.

(o) *Form FHA 440–6, "Severance Agreement."* This form will be used as prescribed by State requirements.

(1) State Directors, with the advice of the OGC, will issue State requirements to specify the situations in which severance agreements are required under State law to comply with the requirements of Subpart A of this Part 1832, whether the severance agreement should be filed or recorded, and whether the spouse of the borrower and the spouse(s) of other party(ies) of interest also will be required to execute the severance agreement. In specifying the situations in which severance agreements will be required, consideration will be given to the actions necessary to prevent the property from becoming part of the real estate as well as to severance after it has become attached to the real estate.

(2) If severance agreements are required in accordance with the provisions of Subpart A of this Part 1832 and State requirements, such agreements will be executed no later than the date on which the property purchased with loan funds is delivered to the farm, or prior to the release of loan funds to the creditor if refinancing of debts on such property is involved.

(p) *Form FHA 440–26, "Consent and Subordination Agreement."* Unless otherwise provided by a State requirement, this form rather than a severance agreement, will be used in Uniform Commercial Code (UCC) States when a security interest is taken in property after it has become a fixture.

(1) Consent and subordination agreements will be obtained when necessary to meet the security requirements contained in Subpart A of this Part 1832, and this will be done not later than the time of loan closing, in all cases in which a security interest is being taken on an item which already has become a fixture.

(2) Consent and subordination agreements will be taken only in those cases in which the fixture is placed on the real estate before all of the following steps have been taken: The financing statement and security agreement covering the fixture have been executed, the financing statement is filed, and the payment authorization is signed by the loan approving official.

(q) *Form FHA 441–13, "Division of Income and Nondisturbance Agreement."* Form FHA 441–13 will be used when it is necessary to obtain both a division of income and a nondisturbance agreement from prior lienholders.

(r) *Form FHA 441–10, "Nondisturbance Agreement."* Form FHA 441–10 will be used when it is necessary to obtain only nondisturbance agreements from creditors of an applicant who are in a position to interfere with the applicant's operations.

(s) *Running case record entries.* In addition to the information required by Part 1801 of this chapter, the running case record also will include pertinent information concerning the applicant's tenure arrangements and proposed operations not reflected elsewhere in the loan docket.

(t) *Applicant's statement of loss or damage.* Form FHA 441–22, "Statement of Production Losses and Certification," will be used to certify losses, except that Form FHA 441–23, "Certification of Losses Caused by Major Disaster," will be used to certify such losses caused by major disasters declared by the President. The amount of any compensation for losses received from insurance or otherwise will be shown on these forms.

(u) *Taking security instruments.*—(1) *Forms to be used.* Form FHA 440A25, "Financing Statement," or Form FHA 440–25, "Financing Statement," and Form FHA 440–4, "Security Agreement," will be used to obtain security interest in personal property in UCC States unless State requirements provide for the use of other forms. State requirements also will provide information as to whether Form FHA 440A25 or Form FHA 440–25 will be used. The financing statement and security agreement together will constitute a security instrument. Although only the financing statement is required to be filed or recorded, it is necessary also to take a security agreement in order to have a complete security instrument. (See also § 1832.11(a) (2) and (5), for method of obtaining a security interest in crops grown under contract when title to the crop is held by the contractor, or livestock that will be fed feed purchased or produced with loan funds and a first lien can not be obtained.) Form FHA 440–4 LA., "Chattel Mortgage (Louisiana)," or Form FHA 440–4A LA., "Chattel Mortgage and Crop Pledge (Louisiana)," as appropriate, will be used in the State of Louisiana.

(2) *Describing notes on security instruments.* When security agreements, chattel mortgages, or other similar security instruments are taken, all outstanding EM loan notes, and all notes representing other operating-type debts as prescribed by the respective loan making requirements, will be described on such security instruments.

(3) *Use of Form FHA 427–1 (State), "Real Estate Mortgage for (Insured Loan)."* This form will be used in taking liens on real estate. It will be prepared, executed, and filed or recorded in accordance with State requirements and any additional instructions received from the designated attorney or the OGC.

(4) *Title clearance.* Title clearance and and the closing of EM loans which are to be secured only by real estate liens will be in accordance with the requirements of Part 1807 of this chapter. Title clearance will not be required when real estate is taken as additional security only, or when a real estate lien is taken pursuant to § 1832.11(b)(7), but in either event the lien instrument will be executed by the applicant and recorded at or before the time the loan is closed.

(5) *Describing security property on security instruments.* The printed form of the FHA financing statement describes certain types of collateral. If items of collateral not covered under those types are to serve as security they should be described by types or individual items in the space provided in the financing statement for that purpose. Unless otherwise provided by State requirements, animals, birds, fish, and so forth, should be described by groups on the security agreement. The serial or motor number should be shown for only major items of equipment. If a security interest is to be taken in property such as inventory, supplies, recreation, or other nonfarm equipment or fixtures which cannot be readily described under the column headings of item 2 or 3, as appropriate of the security agreement, an appropriate description of such property will be inserted in item 2 or 3 below the other property described in the item without regard to the column headings. The advice of the OGC will be obtained in individual cases as to how to describe in the financing statement and security agreement items such as grazing permits, milk bases, and membership or stock in cooperative associations, unless the subject is covered by a State requirement. The property to be described in security instruments should be reconciled with any existing security instruments and Form FHA 462–1, "Record of the Disposition of Security Property."

(6) *When to take security instruments.*—(i) *Initial loans.* In initial loan cases the financing statement may be taken at the time the loan is approved and the security agreement will be taken at the time the note is executed. When the initial security agreement does not describe individually or by groups all of the collateral that is to serve as security, an all inclusive security agreement will be taken as soon as all of the security property has been purchased. Form FHA 440–4 LA and Form FHA 440–4A LA will be taken in Louisiana in initial loan cases in accordance with State requirements.

(ii) *Subsequent loans.* (a) Financing statements: A filed FHA financing statement is effective for a period of 5 years from the date of filing and as long thereafter as it is continued as provided in Subpart A of Part 1871 of this chapter. If the filed financing statement is still effective and covers all types of collateral that are to serve as security for the subsequent loan and describes the land on which crops or fixtures are or are to be located, a new financing statement will not be required. However, when a new financing statement is needed, it will be taken at the time the subsequent loan note is executed. Form FHA 440–4 LA or Form FHA 440–4A LA will be taken in Louisiana in subsequent loan cases in accordance with State requirements.

(b) Security agreements: An additional security agreement will not be taken in connection with a subsequent loan until it is required by Subpart A of Part 1871 of this chapter, if the existing security agreement covers all types of collateral that are to serve as security for the subsequent loan, describes the land on which the crops or fixtures are or are to be located, and was taken within 1 year before the crops become growing crops, unless otherwise provided by State requirement.

(c) If a subsequent loan is being made and the EM loan indebtedness is being secured for the first time under the UCC, the procedure in subdivision (i) of this subparagraph with respect to securing initial loans will be followed.

(7) *Executing security instruments.* County Office employees in bonded positions are authorized to execute any legal instruments necessary to obtain or preserve security for loans. This includes financing statements, chattel mortgages and similar lien instruments, as well as severance agreements, consent and subordination agreements, affidavits, acknowledgments, and other instruments. The financing statements in UCC States will be executed on behalf of the Government. The requirements with respect to the execution of security instruments on behalf of the borrower(s) will be the same as prescribed for Form FHA 441–1 in paragraph (h) of this section.

(8) *Filing or recording security instruments.* Ordinarily, in UCC States, when the loan is approved financing statements will be delivered or mailed to the filing officer(s) for filing. However, when this is not practical the financing statement may be filed at a later date, but not later than the first withdrawal of loan funds from the supervised bank account or delivery of the check to the borrower. If crops or other property of the borrower are or are to be located in a State other than that of a borrower's residence, the County Supervisor servicing the loan will contact the County Supervisor in the other State for information as to the security instruments to be used and the place(s) of filing or recording in the other State. The financing statement will be filed as prescribed by State requirements. Security agreements will not be filed or recorded unless otherwise provided in State requirements, because of special State law(s). Form FHA 440–4 LA or Form FHA 440–4A LA will be filed or recorded in Louisiana as provided by the State requirement.

(i) The taking and filing or recording of security instruments for EM loans to oyster planters will be in accordance with State instructions prepared with the assistance of the OGC. This applies, of course, only to States where oysters are produced.

(9) *Additional actions required to perfect a purchase money security interest in inventory.* In order to perfect a purchase money security interest in inventory, it is necessary, on or before the time the debtor receives possession of the inventory, to obtain a security agreement and file a financing statement as required by this subpart, and notify in writing any parties who are known to have a security interest in such inventory or who have filed a financing statement covering the inventory which is being purchased with FHA loan funds and in which the FHA has or expects to acquire a purchase money security interest. The notice must describe the inventory by item or type. These actions are necessary, for example, when FHA funds are advanced to purchase inventory in connection with a nonfarm enterprise and another creditor has on file a financing statement covering such inventory.

(10) *Fees.* Statutory fees for filing or recording financing statements, mortgages, or other legal instruments and notary and lien search fees incident to loan transactions in all cases will be paid by the borrower from personal funds or from the proceeds of the loan.

(i) Whenever cash is accepted by FHA personnel to be used to pay the filing or recording fees for security instruments (including financing statements), or the cost of making lien searches, Form FHA 440–12, "Acknowledgment of Payment for Recording, Lien Search, and Releasing Fees," will be executed. FHA personnel who accept custody of such fees will make it clear to the borrower that the amount so accepted is not received by the Government as credit on the borrower's indebtedness, but is accepted only for the purpose of paying the recording, filing, or lien search fees on behalf of the borrower.

(11) *Retention and use of security agreements.*—(i) *Originals.* Original executed security agreements will not be altered, and will not be disposed of when new security agreements are taken.

(ii) *Work copy.* Information with respect to changes in security property will be noted only on the work copy. When an additional security agreement covering all collateral for the indebtedness is taken, the work copy used in preparing the additional security agreement may be destroyed.

(12) *Security requirements in relation to "future advance" and "after-acquired property" clauses and special State statutes.* The after-acquired property and future advance provisions of security agreements in UCC States will be considered valid in all respects unless otherwise provided in a State requirement.

(i) *Future advance provision.* A properly prepared executed and filed FHA financing statement and a properly prepared and executed FHA security agreement give FHA a security interest in the property described thereon to secure any operating or EM loan indebtedness owed by the debtor, including any such future loans, advances, or expenditures without regard as to whether they are evidenced by promissory notes described on the security agreements, and any other FHA debts evidenced by notes described on the security agreement and any advances or expenditures made in connection with the debts evidenced by such notes.

(ii) *After-acquired property provisions.* Any after-acquired property, except fixtures, of the same type as described (individually or by groups or specifically or generally), in the financing statement and security agreement will serve as security for the debt covered thereby. The after-acquired property clause in the security agreement will encumber crops grown on the land described in the security agreement and financing statement, provided they are planted or otherwise become growing crops within 1 year after the execution date of the security agreement, or such other period as provided by State requirements. Except as set forth in § 1871.33(a)(4) of this chapter, such FHA after-acquired security interests take priority over other security interests perfected after the FHA financing statement was filed.

(13) *State requirements.* In addition to the State requirements referred to in other subparagraphs of this paragraph, State requirements will be issued, as necessary, to provide additional procedure for taking liens on motor vehicles and motor boats, and any special type of security. The State requirements also will supplement subparagraph (12) of this paragraph with respect to the "future advance" and "after-acquired property" clauses of security instruments. The State requirement will set forth the provisions with respect to filing or recording security instruments if the borrower is not a resident of the State, but is conducting some operation in the State. This is for use when County Supervisors in other States request such information in accordance with subparagraph (8) of this paragraph.

(v) *Form FHA 440–45, "Nondiscrimination Certificate (Individual Housing)."* Form FHA 440–45, properly executed, will be obtained when an EM loan includes funds for repairs or improvement of a dwelling under provisions of § 1832.7(1).

§ 1832.33 Loan docket.

(a) Loan docket forms will be prepared and distributed as appropriate in the manner set forth in § 1831.33(a) of this chapter. In addition, Forms FHA 427–8, "Agreement with Prior Lienholder," and FHA 422–1, "Appraisal Report (Farm Tract)" when required, or other forms required in making EM loans for real estate purposes will be placed last in the docket.

(b) The documents to be submitted will be examined thoroughly by the County Office Clerk to make sure that they are complete as to dates; signatures, and mechanical accuracy. For loans requiring approval other than in the County Office, the loan submission will consist of the required documents and all of the applicant's County Office case folders.

(c) Form FHA 441–1 will not be prepared and included in loan dockets submitted to loan approval officials above County Supervisor level, because the interest rate may change between the time the docket is prepared and loan approval. Instead, the principal installment schedule will be set forth in the running case record or a State form developed for this purpose. It will be prepared after the approved docket is returned to the County Office.

V 37-72
APR 13 72
XUM

§ 1832.34 Review and approval or rejection.

After the documents prescribed in § 1832.33 have been assembled, the loan approval official will make the determinations required in § 1832.12(c).

(a) *Approval of loans.* If the loan is to be approved, the loan approval official will date and sign Form FHA 440–1 and insert his title and grade in the spaces designated for these purposes. The loan approval official also will set forth any special conditions of approval including any special security requirements, in the running record in the loan docket or by letter. Ordinarily, after approval, the original and two copies of Form FHA 440–1 will be removed from the assembled loan docket. The original and an unsigned copy will be forwarded to the Finance Office together with a copy of the letter from the National Office authorizing approval of the loan in cases in which such authorization is required. The other copy of Form FHA 440–1 will be dated and signed by the loan approval official and mailed to the applicant on the date of approval. If an EM loan is being made in connection with the making of an operating loan or an FHA real estate loan and one loan is dependent on the other, the loan approval official may determine that the loan checks should be issued simultaneously in order to avoid unnecessary interest charges to the applicant. In this situation the EM loan docket will be held in the County Office if it is within the approval authority of the County Supervisor, or returned to the County Office after approval by another loan approval official, and the appropriate forms will be transmitted to the Finance Office at the same time the loan check for the operating or real estate loan is requested.

(b) *Rejection of loans.* If a loan is rejected, the loan approval official will indicate the reasons for the rejection in the running case record in the loan docket or in a memorandum. The County Supervisor will notify the applicant of the rejection and will return to him the original of Form FHA 441–1, any tenure agreements, and any executed security instruments (including the unfiled financing statement in UCC States).

§ 1832.35 Loan checks.

(a) When a check cannot be delivered or is lost or destroyed, the County Supervisor will notify the Finance Office by telegram, telephone, or memorandum giving name, case number, and address of the borrower, the amount of the check and whether the loss occurred prior or subsequent to release of the check to the borrower.

(b) If a check is to be canceled, the County Supervisor will return the check with Form FHA 440–10, to the Regional Disbursing Center, U.S. Treasury Department, Post Office Box 2509, Kansas City, MO 64142. Copies of Form FHA 440–10 will be furnished to the Finance Office and to the State Office.

§ 1832.36 Loan closing.

(a) *Check delivery.* County Office employees in bonded positions will receive and deliver loan checks. Upon receipt of a loan check, the County Supervisor will notify the applicant promptly on Form FHA 440–8, "Notice of Check Delivery." Following loan closing, when a supervised bank account is required and the depository bank does not require the borrower's endorsement for deposit, the County Supervisor may deposit the loan check in the supervised bank account and furnish the borrower a copy of the deposit slip.

(1) Immediately upon loan closing, any amount included for payment of interest on the loan will be collected and remitted as provided in Part 1862 of this chapter as a prepayment of interest. The receipt will indicate "For deferred installment interest."

(b) *Form FHA 440–13, "Report of Lien Search."* Form FHA 440–13 or other form providing substantially the same information will be prepared.

(1) Lien searches will be obtained at a time which will assure that the security instruments give the Government the required security. Under this policy the lien search normally will be obtained at the time the Financing Statement (mortgage in Louisiana) is filed or recorded. Lien searches may be obtained after that date, but in no case later than the first withdrawal of any loan funds from the supervised bank account or delivery of the check to the borrower. When necessary in individual cases, initial lien searches may be obtained in connection with processing applications provided continuation searches are obtained not later than the times prescribed above.

(i) Under the UCC, lien searches need be obtained for subsequent loans only when an additional financing statement is required, that is when crops or fixtures to be taken as security are located or to be located on land not described on the existing financing statement, or property not otherwise covered by the financing statement is to be taken as security for the EM loan debt.

(2) Except as otherwise provided in subdivisions (i) and (ii) of this subparagraph, applicants are required to obtain and pay the cost of lien searches. County Supervisors will make inquiries locally concerning the available sources through which satisfactory lien searches can be obtained at reasonable cost to applicants. However, applicants should select the sources through which lien searches are made. The cost of lien searches may be paid from the proceeds of loan checks when necessary.

(i) County Office employees may make continuation lien searches required by the last sentence of subparagraph (1) of this paragraph.

(ii) State Directors may authorize the employees of a particular County Office unit to make lien searches without cost to applicants when the cost of lien searches is exorbitant, such service is not available, or experience has shown that the service available will cause undue delay in closing loans or disbursing loan funds.

(3) State Directors, with the advice of the OGC, will issue State requirements setting forth the minimum requirements for lien searches, including the records to be searched and the respective periods to be covered.

§ 1832.37 Revision in the use of EM loan funds.

(a) *Authority of the County Supervisor or Assistant County Supervisor (GS–7 or GS–9).* The County Supervisor or Assistant County Supervisor (GS–7 or GS–9) is authorized to approve changes in the purposes for which loan funds are to be used provided:

(1) The loan was within the respective loan approval official's authority.

(2) Such a change is for an authorized purpose and within applicable limitations.

(3) Such a change will not adversely affect the feasibility of the operation, or the Government's interest. If the County Supervisor is uncertain as to the probable effect the change would have on the feasibility of the operation or on the Government's interest, he should obtain the advice of the State Director prior to approving the change.

(b) *Authority of State Office officials.* (1) The State Director may delegate additional authority to County Supervisors to approve certain kinds of changes in the use of loan funds by issuing a State requirement describing such changes, provided prior approval is obtained from the National Office.

(2) The State Director and employees in the State Office who have loan approval authority are authorized to approve changes in the use of loan funds provided the changes comply with Subpart A of this Part 1832.

(c) *Documentation and routines.* When changes are made in the use of loan funds, no revision will be made in the repayment schedule on Form FHA 441–1 nor will a corrected form FHA 441–7, "OL–EM and Other Credit Analysis," be prepared. However, when funds loaned for the purchase of capital goods are to be used to meet operating expenses, the borrower must agree to repay the funds so used in accordance with the repayment terms prescribed in § 1832.10 (a)(1). Appropriate changes with respect to the repayments will be made in Table K of Form FHA 431–2 and initiated by the borrower. The County Supervisor also will make appropriate notations in the "Supervisory and Servicing Actions" section of the Management System Card—Individual for followup.

Dated: April 7, 1972.

SUBCHAPTER E—ACCOUNT SERVICING

[FHA Instruction 456.1]

PART 1864—DEBT SETTLEMENT

Clarification of Settlement Circumstances for Certain Debtors

Section 1864.2(l) is amended to clarify the circumstances under which a debtor may settle loan indebtedness to FHA on one loan when he is also indebted to FHA on another loan and continue as an active borrower. Section 1864.7(a)(1)(ii) is amended with respect to the chargeoff of debts under certain specified conditions. Part 1864, Title 7, Code of Federal Regulations (36 F.R. 17833) §§ 1864.2(l) and 1864.7(a)(1)(ii) as amended read as follows:

§ 1864.2 General policies.

* * * * *

(l) *Settlement where debtor owes more than one type of FHA loan.* It will not be the policy to settle any loan indebtedness of a debtor who is also indebted on another FHA loan and who will continue as an active borrower, except in cases in which unusual circumstances exists such as where the borrower is unable to pay in full because his income is limited due to his age or because of a permanent health problem. In such cases, the facts will be fully documented in Part VII of Form FHA 456–1.

§ 1864.7 Chargeoff of nonjudgment debts.

(a) * * *

(1) * * *

(ii) The debtor is unable to pay any part of the debt and has no apparent future debt-payment ability determined as specified in § 1864.3(a)(2)(i), (ii), and (iii), however, inability to pay may be determined on the basis of information obtained from informed, reliable sources in cases where a borrower's address has been unknown for not more than 2 years; or, the debtor is able to pay part or all of the debt, but is unwilling to do so and it is clear that the Government cannot collect or enforce collection of any significant amount out of assets or income, having due regard for the exemptions available to the debtor under State and Federal law, and an opinion is received from the OGC to that effect. A copy of such opinion will be attached to the original of Form FHA 456–1.

* * * * *

(Sec. 339, 75 Stat. 318, 7 U.S.C. 1989; sec. 510, 63 Stat. 437, 42 U.S.C. 1480; sec. 4, 64 Stat. 100, 40 U.S.C. 442; sec. 602, 78 Stat. 528, 42 U.S.C. 2942; sec. 301, 80 Stat. 379, 5 U.S.C. 301; Order of Acting Secretary of Agriculture, 36 F.R. 21529; Order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529; Order of Director, OEO, 29 F.R. 14764)

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72–WA–22]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to extend the time of designation of the Fort Gordon, Ga., Restricted Area R–3003.

The Department of the Army has requested that the time of designation be extended to accommodate the increased spring and summer training activities commencing approximately April 9, 1972, through approximately October 30, 1972. Although this action imposes an additional restriction upon airspace users, the Department of the Army intends use of the area only to complete current training schedules. Because of an urgent need to have the areas available, due and timely action is of the essence; therefore, notice and public procedure hereon are deemed impracticable and good cause exists to make this amendment effective without regard to the 30-day period preceding effectiveness.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication as hereinafter set forth.

Section 73.30 (37 F.R. 2348) is amended as follows:

R–3003 Fort Gordon, Ga., is amended to read "Time of designation. 0730 to 1700 local time, Monday through Sunday and at other times when published by NOTAM 24 hours in advance."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 7, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter III—Animal and Plant Health Inspection Service (Meat and Poultry Products Inspection), Department of Agriculture

SUBCHAPTER A—MANDATORY MEAT INSPECTION

SUBCHAPTER B—VOLUNTARY INSPECTION AND CERTIFICATION SERVICE

SUBCHAPTER C—MANDATORY POULTRY PRODUCTS INSPECTION

SUBCHAPTER D—HUMANE SLAUGHTER OF LIVESTOCK

REALIGNMENT OF AGENCY AND PROGRAM RESPONSIBILITIES

An order of the Secretary of Agriculture (37 F.R. 6327) and an order of the Assistant Secretary for Marketing and Consumer Services (37 F.R. 6505) transferred the responsibility for the inspection of meat and poultry products, including administration of the poultry products inspection regulations in 7 CFR Part 81, from the former Consumer and Marketing Service into a new Animal and Plant Health Inspection Service and made other organizational changes. Accordingly the provisions of Chapter III, 9 CFR, are amended as follows, pursuant to said orders and the statutory authorities under which the provisions of Chapter III, 9 CFR, and Part 81, Chapter I, 7 CFR, were issued:

1. The designation of Chapter III of Title 9 and the designation of Subchapter A therein are changed to read as set forth in the heading of this document.

2. All references in Chapter III to "Consumer and Marketing Service" are changed to "Animal and Plant Health Inspection Service."

3. In § 309.2 and § 309.4, the references to "Animal Health Division" are changed to "Veterinary Services unit of the Animal and Plant Health Inspection Service"; and in § 309.4 the footnote "1" reference and footnote 1 are deleted.

4. In § 309.17, the reference to "Veterinary Biologics Division, or Pesticides Regulations Division of the Department of Agriculture" is deleted and "or the Veterinary Services unit of the Animal and Plant Health Inspection Service of the Department of Agriculture or to the Environmental Protection Agency" is substituted therefor.

5. In § 311.2(c) and in the footnote referenced therein, the reference to "Animal and Plant Health Service" is changed to "Animal and Plant Health Inspection Service."

6. All references in Chapter III to "Slaughter Inspection Division" are changed to "Field Operations Division."

7. All references in Chapter III to "Compliance and Evaluation Staff" are changed to "Program Review and Compliance Staff."

8. All references in Chapter III to "Consumer Protection Program" are changed to "Meat and Poultry Inspection Program."

9. All references in Chapter III to "Consumer Protection Program Services Staff" are changed to "Administrative Management Staff."

10. All references in Chapter III to "Meat Inspection Program" are changed to "Meat and Poultry Inspection Program."

11. The name "Technical Services Division" is changed to "Laboratory Services Division" in the footnotes to §§ 308.3(h), 308.8(c), 310.9(e), and 318.14(b), and in footnote 1 at the end of the table in § 318.7.

12. The name "Technical Services Division" is changed to "Standards and Services Division" in § 327.14(c).

13. The name "Processed Food Inspection Division" is changed to "Standards and Services Division" in the footnotes to §§ 325.13, 327.21, and 327.12(c).

14. The name "Processed Food Inspection Division" is changed to "Field Operations Division" in §§ 325.10(b), 325.18(b), and 327.17.

15. The name "Director, Processed Food Inspection Division" is changed to "Regional Director" in § 325.11(c).

16. The provisions in Parts 380 and 381 of Subchapter D are redesignated as new Parts 390 and 391, respectively, in Subchapter D.

17. A new Subchapter C is added to Chapter III as follows:

Subchapter C, Mandatory Poultry Products Inspection. This provision for a

V 37-72
APR 13 72
XUM

Subchapter C will allow the transfer of the regulations governing the mandatory inspection of poultry and poultry products under the Poultry Products Inspection Act (21 U.S.C. 451 et seq.) from the present location in Title 7—Chapter I, Part 81, Code of Federal Regulations, into Title 9—Chapter III as a new Part 381. Such transfer of the regulations will be effected, under the authority conferred by the orders cited above (37 F.R. 6327, 6505), when the regulations are revised and published in the FEDERAL REGISTER as new Part 381, Chapter III, Title 9, Code of Federal Regulations. Until the new Part 381 is published and becomes effective, the present regulations governing the inspection of poultry and poultry products—7 CFR Part 81—remain in effect.

These amendments are either organizational in nature or merely editorial. They reflect the transfer of certain functions of the former Consumer and Marketing Service to the newly established Animal and Plant Health Inspection Service. The amendments do not substantially affect any member of the public. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective upon issuance.

Done at Washington, D.C., on April 7, 1972.

RICHARD E. LYNG,
Acting Secretary.

SUBCHAPTER A—GENERAL

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SURFACE LUBRICANTS USED IN THE MANUFACTURE OF METALLIC ARTICLES

Correction

In F.R. Doc. 72-1350, appearing at page 1467, in the issue of Saturday, January 29, 1972, the following changes should be made:

1. In § 121.2531(a)(4)(i)(*a*), the figure in the second line now reading "500°" should read "550°".

2. In subdivision (iii) of § 121.2531 (a)(4), under the heading "Apparatus", the first line of the fourth paragraph should read "*Spectrophotometer.* Spectral range 250 millimicrons".

3. Under the heading "Apparatus", the formula in column 3, now reading "Wavelength accuracy, ± millimicron, should read: "Wavelength accuracy, ±1.0 millimicron".

AUTHORITY: The provisions of this Part 801 are issued under E.O. 11222; 3 CFR, 1964–1965 Comp.; 3 CFR 735.104.

Subpart A—General Provisions

§ 801.735–1 Purpose.

The maintenance of the highest standards of honesty, integrity, impartiality, and conduct by Government employees and special Government employees is essential to assure the proper performance of the Foundation's business and the maintenance of confidence by citizens in their government. The avoidance of misconduct and conflicts of interest on the part of employees through informed judgment is indispensable to the maintenance of these standards. To accord with these concepts, this part sets forth the Foundation's regulations prescribing standards of conduct and responsibilities for its employees, and requires statements reporting employment and financial interests.

§ 801.735–2 Definitions.

As used in this part:

(a) "The Foundation" and "Agency" mean the Inter-American Foundation.

(b) "Employee" includes anyone serving in the Agency as:

(1) A person appointed by the President and confirmed by the Senate to a position in the Agency;

(2) A person appointed by the Board of Directors;

(3) A person appointed by the President of the Foundation or by his designee to a position in the Agency;

(4) A special Government employee.

(c) "Regular officer or employee" means an employee as defined in paragraph (b) (1), (2), or (3) of this section.

(d) "Special Government employee" means a person who is retained, designated, appointed, or employed to perform for the Agency, with or without compensation, for not to exceed 130 days during any period of 365 consecutive days, temporary duties either on a full-time or intermittent basis.

(e) "Member of an employee's family" means a spouse, minor child, or other member of an employee's immediate household. For the purpose of these regulations, "member of an employee's immediate household" means those blood relations who are resident in the employee's household.

(f) "Counselor" means the Agency's Counselor on Ethical Conduct and Conflicts of Interest. The Counselor for the Foundation will be the General Counsel of the Agency; the Deputy Counselor will be the Deputy General Counsel.

Subpart B—Standards of Conduct

§ 801.735–10 General.

(a) All employees of the Foundation are required to conduct themselves in such a manner as to create and maintain respect for the Foundation and the U.S. Government; to avoid situations which require or appear to require a balancing of private interests or obligations against official duties; to be mindful of the high standards of integrity expected of them in all their activities, both personal and official; and to conform with the standards of conduct and with the applicable statutes, rules, and regulations governing their activities. Particularly, an employee shall avoid any action, whether or not specifically prohibited, which might result in, or create the appearance of:

(1) Using public office for private gain;

(2) Giving preferential treatment to any organization or person;

(3) Impeding Government efficiency or economy;

(4) Losing complete independence or impartiality of action;

(5) Making a Government decision outside official channels;

(6) Affecting adversely the confidence of the public in the integrity of the Government;

(7) Using his Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he has family, business, or financial ties.

(b) An officer or employee of another Federal agency who is assigned or detailed to the Foundation shall adhere to the standards of conduct applicable to employees as set forth in this part.

§ 801.735–11 Statutes, rules, and regulations governing conduct of employees.

(a) The "Code of Ethics for Government Service" set forth by the Legislative Branch in House Concurrent Resolution 175, passed in 1958; the "Standards of Ethical Conduct for Government Officers and Employees" set forth by the President of the United States in Executive Order 11222, dated May 8, 1965, and the regulations issued by the Civil Service Commission pursuant to this Executive order (5 CFR Part 735); and other statutes, rules, and regulations governing conduct of employees, including the Foundation regulations; shall govern Foundation employees in their service to the Government.

(b) Conflict of interest statutes: The provisions of 18 U.S.C. 203, 205, 207, 208, and 209 prohibiting conflicts of interest between an employee's Government duties and his outside activities are summarized in specific sections of this Part 801.

(c) Miscellaneous statutory provisions: In addition to the various provisions referred to above, Foundation employees must observe the following:

(1) Chapter 11 of title 18, United States Code, relating to bribery, graft, and conflicts of interest, as appropriate to the employees concerned.

(2) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(3) The prohibition against striking against the Government (5 U.S.C. 7311, 18 U.S.C. 1918).

(4) The prohibition against the employment of a member of a Communist organization (50 U.S.C. 784).

(5) The prohibitions against: (i) The disclosure of classified information (18 U.S.C. 798, 50 U.S.C. 783); (ii) the disclosure of confidential information (18 U.S.C 1905); and (iii) the disclosure of privileged information to be withheld under the exemptions of the Public Information Section of the Administration Procedures Act (5 U.S.C. 552).

(6) The provision relating to the habitual use of intoxicants to excess (5 U.S.C. 7352).

(7) The prohibitions against the misuse of a Government vehicle (31 U.S.C. 638a(c)).

(8) The prohibitions against the misuse of the franking privilege (18 U.S.C. 1719).

(9) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(10) The prohibition against fraud or false statement in a Government matter (18 U.S.C. 1001).

(11) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(12) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(13) The prohibitions against (i) embezzlement of Government money or proprety (18 U.S.C. 641); (ii) failing to account for public money (18 U.S.C. 643); and (iii) embezzlement of the money or property of another person in the possession of an employee by reason of this employment (18 U.S.C. 654).

(14) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(15) The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code, and 18 U.S.C. 602, 603, 607, and 608.

(16) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).

(17) The prohibition against the employment of an individual convicted of felonious rioting or a related offense (5 U.S.C. 7313).

(18) The prohibition against a public official's appointing or promoting a relative, or advocating such an appointment or promotion (5 U.S.C. 3110).

(19) The prohibition against self-dealing with a private foundation (26 U.S.C. 4941, 4946). "Self-dealing" is defined in the statute to include certain transactions involving an employee's receipt of pay, a loan, or reimbursement for travel or other expenses from, or his sale to or purchase of property from, a private foundation.

§ 801.735–12 Outside employment and other activities.

(a) An employee shall not engage in outside employment or other outside activity not compatible with the full and proper discharge of the duties and responsibilities of his Government employment. Incompatible activities include but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, conflicts of interest; or

(2) Outside employment which tends to impair his mental or physical capacity to perform his Government duties and responsibilities in an acceptable manner.

(b) A regular employee shall not receive any salary or anything of monetary value from a private source as compensation for his services to the Government (18 U.S.C. 209). This section does not apply to special Government employees nor does it prevent a regular officer or employee from (1) continuing his participation in a bona fide pension plan or other employee welfare or benefit plan maintained by a former employer or (2) receiving payments or accepting contributions, awards, or other expenses in accordance with chapter 41 of title 5, United States Code, relating to employee training.

(c) Employees are encouraged to engage in teaching, lecturing, and writing that is not prohibited by law or regulations. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing (including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service) that depends on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the President gives written authorization for use of nonpublic information on the basis that the use is in the public interest.

(d) This section does not preclude an employee from:

(1) Participation in the activities of national or State political parties not proscribed by law;

(2) Participation in the affairs of or acceptance of an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit educational and recreational, public service, or civic organization; or

(3) Outside employment otherwise permitted under these regulations.

§ 801.735–13 Gifts, entertainment, and favors.

(a) (1) An employee shall not receive or solicit, directly or indirectly, for himself or persons with whom he has family, business, or financial ties, anything of economic value as a gift, gratuity, loan, entertainment, or favor, which might reasonably be interpreted by others as affecting his independence or impartiality, from any person, corporation, or group, if the employee has reason to believe that the entity:

(i) Has or is seeking to obtain contractual or other business or financial relationships with the Agency;

(ii) Conducts operations or activities which are regulated by the Agency; or

(iii) Has interests which may be substantially affected by the employee's performance or nonperformance of his official duty.

(2) The following exceptions are permitted for all employees:

(i) Acceptance of things of economic value arising from obvious family or personal relationships (such as those between the employee and the parents, children, or spouse of the employee) when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;

(ii) Acceptance of food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting or on a project tour where an employee may properly be in attendance;

(iii) Acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans; and

(iv) Acceptance of unsolicited advertising or promotional material, such as

V 37-72 APR 13 72 XUM

pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(b) An employee shall not solicit a contribution from another employee for a gift to an official superior, or accept a gift from an employee receiving less pay than himself (5 U.S.C. 7351). However, this paragraph does not prohibit a voluntary gift of nominal value or a donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(c) An employee shall not accept a gift, present, decoration, or any other thing from a foreign government unless authorized by Congress as provided by the Constitution, 5 U.S.C. 7342, and the regulations in Part 3 of this Title 22 ("Acceptance of Gifts and Decorations from Foreign Governments").

(d) Neither this section nor § 801.735–12 preclude an employee from receipt of bona fide reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this part and for which no Government payment or reimbursement has been made. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment, or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under Agency orders.

§ 801.735–14 Financial interests.

(a) Neither a regular nor a special Government employee may participate in his governmental capacity in any matter in which he, his spouse, minor child, associate or organization with whom he has a business relationship, or person or organization with whom he is negotiating for employment, has a financial interest (18 U.S.C. 208). Such an employee shall not (1) have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his Government duties and responsibilities; or (2) engage in, directly or indirectly, a financial transaction as a result of, or primarily relying on, information obtained through his Government employment.

(b) An employee may be granted exemption from these restrictions provided: (1) He first advises the President of the nature and circumstances of the particular matter and makes full disclosure of the financial interest, and (2) he receives in advance a written determination by the President that the outside financial interest is deemed not substantial enough to have an effect on the integrity of his services.

(c) This section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, Executive Order 11222, this section, or these Agency regulations.

§ 801.735–15 Use of Government property.

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property, including equipment, supplies, and other property entrusted or issued to him.

§ 801.735–16 Misuse of information.

For the purpose of furthering a private interest, an employee shall not, except as provided in § 801.735–12, directly or indirectly use, or allow the use of, official information obtained through or in connection with his Government employment which has not been made available to the general public.

§ 801.735–17 Indebtedness.

An employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State, or local taxes. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, and "in a proper and timely manner" means in a manner which the Agency determines does not, under the circumstances, reflect adversely on the Government as his employer. In the event of dispute between an employee and an alleged creditor, this section does not require an agency to determine the validity or amount of the disputed debt.

§ 801.735–18 Gambling, betting, and lotteries.

An employee shall not participate while on Government-owned or leased property or while on duty for the Government, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket. However, this section does not preclude activities:

(a) Necessitated by an employee's law enforcement duties; or

(b) Under section 3 of Executive Order 10927 and similar agency-approved activities.

§ 801.735–19 General conduct prejudicial to the Government.

An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Government.

Subpart C—Procedures

§ 801.735–20 Responsibility of employees.

It is the responsibility of each employee (a) to familiarize himself with the full text of applicable statutes, rules, and regulations before engaging in outside employment, financial activity which might involve a conflict of interest, or other activity which might involve a violation of standards of ethical conduct or of statutory or regulatory restrictions, and (b) to secure the advice or approval of his supervisor and the Counselor before he engages in the contemplated activity.

§ 801.735–21 Sources of information and advice.

General information on statutes, rules, and regulations governing the conduct of employees may be obtained from the Office of the General Counsel. Specific information may be obtained from the United States Code, from the Federal Personnel Manual, and from the Foundation regulations, all of which are available in the Office of the General Counsel. A copy (or a summary) of the Foundation regulations will be furnished to each employee in accordance with the Civil Service Regulations (5 CFR Part 735). Clarification of standards of conduct and related laws, rules, and regulations and advice on their applicability to individual situations may be obtained from the Counselor or Deputy Counselor for the Agency.

§ 801.735–22 Statements of Employment and Financial Interests.

The following employees of the Foundation shall submit statements of employment and financial interests:

(a) Employees paid at a level of the Executive Schedule in subchapter II of chapter 53 of title 5, United States Code.

(b) Employees classified at GS–13 or above under section 5332 of title 5, United States Code, or at a comparable pay level under another authority, who are in positions the basic duties of which impose upon the incumbent the responsibility for a Government decision or taking Government action with regard to:

(1) Contracting or procurement;

(2) Administering or monitoring grants or subsidies;

(3) Regulating or auditing private or other non-Federal enterprise; or

(4) Other activities where the decision or action has an economic impact on the interests of any non-Federal enterprise.

(c) Other employees who have duties and responsibilities which require the incumbent to report employment and financial interests in order to avoid involvement in a possible conflict of interest situation and carry out the purpose of the law, Executive Order 11222, and the Agency's regulations.

§ 801.735–23 Employees not required to submit statements.

(a) Employees in positions that meet the criteria in paragraph (b) of § 801.735–22 may be excluded from the reporting requirement when the President or his designee determines that:

(1) The duties of the position are such that the likelihood of the incumbent's involvement in a conflict-of-interest situation is remote;

(2) The duties of the position are at such a level of responsibility that the submission of a statement of employment and financial interests is not necessary because of the degree of supervision and review over incumbent or the inconsequential effect on the integrity of the Government.

(b) A statement of employment and financial interests is not required by these regulations from an agency head, or a part or full-time member of a committee, board, or commission appointed by the President. These persons are subject to separate reporting requirements under section 401 of Executive Order 11222.

(c) The President may waive the requirement of this section for the submission of a statement of employment and financial interest in the case of a special Government employee who is not a consultant or an expert when he finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purpose of this paragraph, "consultant" and "expert" have the meanings given those terms by Chapter 304 of the Federal Personnel Manual.

§ 801.735–24 Employee's complaint on filing requirement.

Each employee shall have the opportunity for review through the Agency's grievance procedure of his complaint that his position has been improperly included within § 801.735–22 as one requiring the submission of a statement of employment and financial interests. Employees are reminded that they may obtain counseling pursuant to § 801.735–21 prior to filing a complaint.

§ 801.735–25 Time and place of submission, and forms.

(a) An employee shall submit his statement to the Counselor no later than:

(1) Ninety days after the effective date of these regulations if he has entered on duty on or before that effective date; or

(2) At least 10 days prior to his entrance on duty, if he enters on duty after that effective date.

(b) Only the original of the statement or supplement thereto required by this part shall be submitted. The individual submitting a statement should retain a copy for his own records.

§ 801.735–26 Information required.

(a) *Employees.* The employee's statement of employment and financial interests required by these regulations shall be submitted on the form, "Confidential Statement of Employment and Financial Interests," and shall contain all the information therein required.

(b) *Interests of employee's relatives.* The interest of a member of an employee's family is considered to be an interest of the employee. The term "member of an employee's family" is defined in § 801.735–2.

(c) *Information not known by employees.* If any information required to be included on a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information in his behalf.

(d) *Information prohibited.* The regulations in this part do not require an employee to submit on a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purpose of this section, educational and other institutions doing research and development or related work involving grants or money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

§ 801.735–27 Supplementary statements.

(a) Employees shall report changes in, or additions to, the information contained in their statements of employment and financial interests in supplementary statements as of June 30 of each year. If no changes or additions occur, a negative report is required.

(b) All special Government employees shall submit a current statement at the time their appointments are extended. A supplementary report indicating any changes in, or additions to the information already submitted will be accepted in lieu of a full submission. If there are no changes or additions, a negative report is required.

(c) Notwithstanding the filing of reports required by this section, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts-of-interest provisions of section 208 of title 18, United States Code, or these regulations.

§ 801.735–28 Review of statements and determination as to conflicts of interest.

(a) On the basis of the statement of employment and financial interests submitted by each employee, or on the basis of information received from other sources, the Deputy Counselor shall determine in the light of the duties which that employee is or will be performing, whether any conflicts of interest, real or apparent, are indicated. The Deputy Counselor shall make this determination based on the applicable statutes, Executive Order 11222, and the applicable regulations of the Civil Service Commission and the Agency.

(b) Where the Deputy Counselor's determination in a particular case is that a conflict of interest, real or apparent, is indicated, he shall initiate informal discussions with the employee concerned. These discussions shall have as their objectives:

(1) Providing the individual with a full opportunity to explain the conflict or appearance of conflict; and

(2) Arriving at an agreement (acceptable to the Deputy Counselor, the individual, and the individual's immediate superior) whereby the conflict of interest may be removed or avoided.

(c) Where an acceptable agreement cannot be obtained pursuant to paragraph (b) of this section, the Deputy Counselor shall present his findings and recommendations via the Counselor to the President for decision, who shall decide what remedy is most appropriate to remove or correct that conflict or apparent conflict. Remedial action under this paragraph may include disciplinary action or any of the actions enumerated in § 801.735–29.

(d) Written summaries of all agreements and decisions arrived at pursuant to this section and section 801.735–29 shall be placed in the Deputy Counselor's files. Copies shall also be made available to the employee or special Government employee concerned.

§ 801.735–29 Penalties for violation.

(a) Violations of these regulations subject employees to remedial or disciplinary action by the Foundation which may be in addition to any penalty prescribed by law.

(b) When, after consideration of the explanation of the employee and the findings and recommendations of the Deputy Counselor the President decides that remedial action is required, he shall take immediate action to end the conflicts or appearance of conflicts of interest. Remedial action may include, but is not limited to:

(1) Changes in assigned duties;

(2) Divestment by the employee or special Government employee of his conflicting interest;

(3) Disciplinary action; or

(4) Disqualification for a particular assignment.

Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

§ 801.735–30 Confidentiality of employees' statements.

The Agency shall hold each statement of employment and financial interests, and each supplementary statement, in confidence. To insure this confidentiality only the Counselor and Deputy Counselor are authorized to review and retain the statements. The Counselor and Deputy Counselor are responsible for maintaining the statements in confidence and shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purpose of this part. The Agency may not disclose information from a statement except as the Civil Service Commission or the President may determine for good cause shown.

V 37 • 72
APR 13 72
XUM

§ 801.735–31 Effect of employees' statements on other requirements.

The statements of employment and financial interests and supplementary statements required for employees are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

These regulations were approved by the U.S. Civil Service Commission on December 21, 1971, and are effective on publication in the FEDERAL REGISTER (4–12–72).

KENT N. KNOWLES,
Secretary to the Board of Directors, Inter-American Foundation.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7180]

PART 301—PROCEDURE AND ADMINISTRATION

Seizure of Property for Collection of Taxes

On August 28, 1971, notice of proposed rule making to conform the regulations on procedure and administration (26 CFR Part 301) under sections 6331, 6332, 6334, 6335, 6337, 6338, 6339, 6342, and 6343 of the Internal Revenue Code of 1954 to section 104 of the Federal Tax Lien Act of 1966 (80 Stat. 1135) was published in the FEDERAL REGISTER (36 F.R. 17349). Sections 301.6332 and 301.6332–2 of the regulations hereby adopted supersede the provisions of §§ 400.3 and 400.3–1 (temporary regulations concerning surrender of property subject to levy in the case of life insurance and endowment contracts) of this chapter, respectively, which were prescribed by T.D. 6944, approved January 17, 1968 (33 F.R. 733). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

Section 301.6343–1, as set forth in paragraph 19 of the notice of proposed rule making, is changed by revising subparagraphs (1) and (3) of paragraph (b).

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 7, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 301.6331 is amended by revising section 6331(b) and by adding a historical note. These revised and added provisions read as follows:

§ 301.6331 Statutory provisions; levy and distraint.

Sec. 6331. *Levy and distraint.* • • •

(b) *Seizure and sale of property.* The term "levy" as used in this title includes the power of distraint and seizure by any means. A levy shall extend only to property possessed and obligations existing at the time thereof. In any case in which the Secretary or his delegate may levy upon property or rights to property, he may seize and sell such property or rights to property (whether real or personal, tangible or intangible).

• • • • •

[Sec. 6331 as amended by sec. 104(a), Federal Tax Lien Act of 1966 (80 Stat. 1135)]

PAR. 2. Paragraph (a)(1) of § 301.6331–1 is amended to read as follows:

§ 301.6331–1 Levy and distraint.

(a) *Authority to levy*—(1) *In general.* If any person liable to pay any tax neglects or refuses to pay such tax within 10 days after notice and demand, the district director to whom the assessment is charged or, upon his request, any other district director, may proceed to collect the tax by levy upon any property, or rights to property, whether real or personal, tangible or intangible, either belonging to such person or with respect to which there is a lien provided by section 6321 or 6324 (or the corresponding provision of prior law) for the payment of such tax. As used in section 6331 and this section, the term "tax" includes any interest, additional amount, addition to tax, or assessable penalty, together with any costs and expenses that may accrue in addition thereto. For exemption of certain property from levy, see section 6334 and the regulations thereunder. Property subject to a Federal tax lien which has been sold or otherwise transferred by the taxpayer may be seized while in the hands of the transferee or of any subsequent transferee. However, see provisions under sections 6323 and 6324 (a)(2) and (b) for protection of certain transferees against a Federal tax lien. Levy may be made by serving a notice of levy on any person in possession of, or obligated with respect to, property or rights to property subject to levy including receivables, bank accounts, evidences of debt, securities, and accrued salaries, wages, commissions, and other compensation. A levy extends only to property possessed and obligations which exist at the time of the levy. Obligations exist when the liability of the obligor is fixed and determinable although the right to receive payment thereof may be deferred until a later date. For example, if a wage earner is paid on the Wednesday following the close of each workweek, a levy made upon his employer on Monday would reach his wages due for the prior workweek, although the employer need not satisfy the levy by paying over such amount to the district director until Wednesday. Similarly, a levy only reaches property subject to levy in the possession of the person levied upon at the time the levy is made. If, for example, a levy is made on a bank with respect to the account of a delinquent taxpayer and the bank surrenders to the district director the amount of the taxpayer's balance at the time the levy is made, the levy is satisfied. The levy has no effect upon any subsequent deposit made in the bank by the taxpayer. Subsequent deposits may be reached only by a subsequent levy on the bank.

• • • • •

PAR. 3. Section 301.6332 is amended by revising subsections (a) and (b) of section 6332, by redesignating subsection (c) of section 6332 as subsection (e), by adding new subsections (c) and (d) to section 6332, and by adding a historical note. These amended and added provisions read as follows:

§ 301.6332 Statutory provisions; surrender of property subject to levy.

Sec. 6332. *Surrender of property subject to levy*—(a) *Requirement.* Except as otherwise provided in subsection (b), any person in possession of (or obligated with respect to) property or rights to property subject to levy upon which a levy has been made shall, upon demand of the Secretary or his delegate, surrender such property or rights (or discharge such obligation) to the Secretary or his delegate, except such part of the property or rights as is, at the time of such demand, subject to an attachment or execution under any judicial process.

(b) *Special rule for life insurance and endowment contracts*—(1) *In general.* A levy on an organization with respect to a life insurance or endowment contract issued by such organization shall, without necessity for the surrender of the contract document, constitute a demand by the Secretary or his delegate for payment of the amount described in paragraph (2) and the exercise of the right of the person against whom the tax is assessed to the advance of such amount. Such organization shall pay over such amount 90 days after service of notice of levy. Such notice shall include a certification by the Secretary or his delegate that a copy of such notice has been mailed to the person against whom the tax is assessed at his last known address.

(2) *Satisfaction of levy.* Such levy shall be deemed to be satisfied if such organization pays over to the Secretary or his delegate the amount which the person against whom the tax is assessed could have had advanced to him by such organization on the date prescribed in paragraph (1) for the satisfaction of such levy, increased by the amount of any advance (including contractual interest thereon) made to such person on or after the date such organization had actual notice or knowledge (within the meaning of section 6323(i)(1)) of the existence of the lien with respect to which such levy is made, other than an advance (including contractual interest thereon) made automatically to maintain such contract in force under an agreement entered into before such organization had such notice or knowledge.

(3) *Enforcement proceedings.* The satisfaction of a levy under paragraph (2) shall be without prejudice to any civil action for the enforcement of any lien imposed by this title with respect to such contract.

(c) *Enforcement of levy*—(1) *Extent of personal liability.* Any person who fails or refuses to surrender any property or rights to property, subject to levy, upon demand by the Secretary or his delegate, shall be liable in his own person and estate to the United States in a sum equal to the value of the property or rights not so surrendered, but not exceeding the amount of taxes for the collection of which such levy has been made, together with costs and interest on such sum at the rate of 6 percent per annum from the date of such levy. Any amount (other than costs) recovered under this paragraph shall be credited against the tax liability for the collection of which such levy was made.

(2) *Penalty for violation.* In addition to the personal liability imposed by paragraph (1), if any person required to surrender property or rights to property fails or refuses to surrender such property or rights to property without reasonable cause, such person shall be liable for a penalty equal to 50 percent of the amount recoverable under paragraph (1). No part of such penalty shall be credited against the tax liability for the collection of which such levy was made.

(d) *Effect of honoring levy.* Any person in possession of (or obligated with respect to) property or rights to property subject to levy upon which a levy has been made who, upon demand by the Secretary or his delegate, surrenders such property or rights to property (or discharges such obligation) to the Secretary or his delegate (or who pays a liability under subsection (c)(1)) shall be discharged from any obligation or liability to the delinquent taxpayer with respect to such property or rights to property arising from such surrender or payment. In the case of a levy which is satisfied pursuant to subsection (b), such organization shall also be discharged from any obligation or liability to any beneficiary arising from such surrender or payment.

(e) *Person defined.* The term "person," as used in subsection (a), includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to surrender the property or rights to property, or to discharge the obligation.

[Sec. 6332 as amended by sec. 104 (b), Federal Tax Lien Act of 1966 (80 Stat. 1135)]

PAR. 4. Section 301.6332–1 is amended by revising paragraphs (a)(1), (b), and (c) and by adding a new paragraph (d). These revised and added provisions read as follows:

§ 301.6332–1 Surrender of property subject to levy.

(a) *Requirement*—(1) *In general.* Except as otherwise provided in § 301.6332–2, relating to levy in the case of life insurance and endowment contracts, any person in possession of (or obligated with respect to) property or rights to property subject to levy and upon which a levy has been made shall, upon demand of the district director, surrender the property or rights (or discharge the obligation) to the district director, except that part of the property or rights (or obligation) which, at the time of the demand, is actually or constructively under the jurisdiction of a court because of an attachment or execution under any judicial process.

• • • • •

(b) *Enforcement of levy*—(1) *Extent of personal liability.* Any person who, upon demand of the district director, fails or refuses to surrender any property or right to property subject to levy is liable under the provisions of section 6332(c)(1) in his own person and estate to the United States in a sum equal to the value of the property or rights not so surrendered, but not exceeding the amount of taxes for the collection of which the levy has been made, together with costs and interest on such sum at the rate of 6 percent per annum from the date of the levy. Any amount, other than costs, recovered under section 6332(c)(1) shall be credited against the tax liability for the collection of which the levy was made.

(2) *Penalty for violation.* In addition to the personal liability described in subparagraph (1) of this paragraph, any person who is required to surrender property or rights to property and who fails or refuses to surrender them without reasonable cause is liable for a penalty equal to 50 percent of the amount recoverable under section 6332(c)(1). No part of the penalty described in this subparagraph shall be credited against the tax liability for the collection of which the levy was made. The penalty described in this subparagraph is not applicable in cases where bona fide dispute exists concerning the amount of the property to be surrendered pursuant to a levy or concerning the legal effectiveness of the levy. However, if a court in a later enforcement suit sustains the levy, then reasonable cause would usually not exist to refuse to honor a later levy made under similar circumstances.

(c) *Effect of honoring levy.* Any person in possession of, or obligated with respect to, property or rights to property subject to levy and upon which a levy has been made who, upon demand by the district director, surrenders the property or rights to property, or discharges the obligation, to the district director, or who pays a liability described in paragraph (b)(1) of this section, is discharged from any obligation or liability to the delinquent taxpayer with respect to the property or rights to property arising from the surrender or payment. If an insuring organization satisfies a levy with respect to a life insurance or endowment contract in accordance with § 301.6332–2, the insuring organization is discharged from any obligation or liability to any beneficiaries of the contract arising from the surrender or payment. Also, it is discharged from any obligation or liability to the insured or other owner. Any person who mistakenly surrenders to the United States property or rights to property not properly subject to levy is not relieved from liability to a third party who owns the property. The owners of mistakenly surrendered property may, however, secure from the United States the administrative relief provided for in section 6343(b) or may bring suit to recover the property under section 7426.

(d) *Person defined.* The term "person," as used in section 6332(a) and this section, includes an officer or employee of a corporation or a member or employee of a partnership, who is under a duty to surrender the property or rights to property or to discharge the obligation. In the case of a levy upon the salary or wages of an officer, employee, or elected or appointed official of the United States, the District of Columbia, or any agency or instrumentality of either, the term "person" includes the officer or employee of the United States, of the District of Columbia, or of such agency or instrumentality who is under a duty to discharge the obligation. As to the officer or employee who is under such duty, see paragraph (a)(4)(i) of § 301.6331–1.

PAR. 5. The following new section is inserted immediately following § 301.6332–1.

§ 301.6332–2 Surrender of property subject to levy in the case of life insurance and endowment contracts.

(a) *In general.* This section provides special rules relating to the surrender of property subject to levy in the case of life insurance and endowment contracts. The provisions of § 301.6332–1 which relate generally to the surrender of property subject to levy apply, to the extent not inconsistent with the special rules set forth in this section, to a levy in the case of life insurance and endowment contracts.

(b) *Effect of service of notice of levy*—(1) *In general.* A notice of levy served by a district director on an insuring organization with respect to a life insurance or endowment contract issued by the organization shall constitute—

(i) A demand by the district director for the payment of the cash loan value of the contract adjusted in accordance with paragraph (c) of this section, and

(ii) The exercise of the right of the person against whom the tax is assessed to the advance of such cash loan value.

It is unnecessary for the district director to surrender the contract document to the insuring organization upon which the levy is made. However, the notice of levy will include a certification by the district director that a copy of the notice of levy has been mailed to the person against whom the tax is assessed at his last known address. At the time of service of the notice of levy, the levy is effective with respect to the cash loan value of the insurance contract, subject to the condition that if the levy is not satisfied or released before the 90th day after the date of service, the levy can be satisfied only by payment of the amount described in paragraph (c) of this section. Other than satisfaction or release of the levy, no event during the 90-day period subsequent to the date of service of the notice of levy shall release the cash loan value from the effect of the levy. For example, the termination of the policy by the taxpayer or by the death of the insured during such 90-day period shall not release the levy. For the rules relating to the time when the insuring organization is to pay over the required amount, see paragraph (c) of this section.

(2) *Notification of amount subject to levy*—(i) *Full payment before the 90th day.* In the event that the unpaid liability to which the levy relates is satisfied at any time during the 90-day period subsequent to the date of service of the notice of levy, the district director will promptly give the insuring organization

V 37 • 72 APR 13 72 XUM

written notification that the levy is released.

(ii) *Notification after the 90th day.* In the event that notification is not given under subdivision (i) of this subparagraph, the district director will, promptly following the 90th day after service of the notice of levy, give the insuring organization written notification of the current status of all accounts listed on the notice of levy, and of the total payments received since service of the notice of levy. This notification will be given to the insuring organization whether or not there has been any change in the status of the accounts.

(c) *Satisfaction of levy*—(1) *In general.* The levy described in paragraph (b) of this section with respect to a life insurance or endowment contract shall be deemed to be satisfied if the insuring organization pays over to the district director the amount which the person against whom the tax is assessed could have had advanced to him by the organization on the 90th day after service of the notice of levy on the organization. However, this amount is increased by the amount of any advance (including contractual interest thereon), generally called a policy loan, made to the person on or after the date the organization has actual notice or knowledge, within the meaning of section 6323(i)(1), of the existence of the tax lien with respect to which the levy is made. The insuring organization may, nevertheless, make an advance (including contractual interest thereon), generally called an automatic premium loan, made automatically to maintain the contract in force under an agreement entered into before the organization has such actual notice or knowledge. In any event, the amount paid to the district director by the insuring organization is not to exceed the amount of the unpaid liability shown on the notification described in paragraph (b)(2) of this section. The amount, determined in accordance with the provisions of this section, subject to the levy shall be paid to the district director by the insuring organization promptly after receipt of the notification described in paragraph (b)(2). The satisfaction of a levy with respect to a life insurance or endowment contract will not discharge the contract from the tax lien. However, see section 6323(b)(9)(C) and the regulations thereunder concerning the liability of an insurance company after satisfaction of a levy with respect to a life insurance or endowment contract. If the person against whom the tax is assessed so directs, the insuring organization, on a date before the 90th day after service of the notice of levy, may satisfy the levy by paying over an amount computed in accordance with the provisions of this subparagraph substituting such date for the 90th day. In the event of termination of the policy by the taxpayer or by the death of the insured on a date before the 90th day after service of the notice of levy, the amount to be paid over to the district director by the insuring organization in satisfaction of the levy shall be an amount computed in accordance with the provisions of this subparagraph substituting the date of termination of the policy or the date of death for the 90th day.

(2) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). On March 5, 1968, a notice of levy for an unpaid income tax assessment due from A in the amount of $3,000 is served on the X Insurance Company with respect to A's life insurance policy. On March 5, 1968, the cash loan value of the policy is $1,500. On April 9, 1968, A does not pay a premium due on the policy in the amount of $200. Under an automatic premium advance provision contained in the policy originally issued in 1960, X advances the premium out of the cash value of the policy. As of June 3, 1968 (the 90th day after service of the notice of levy), pursuant to the provisions of the policy, the amount of accrued charges upon the automatic premium advance in the amount of $200 for the period April 9, 1968, through June 3, 1968, is $2. On June 5, 1968, the district director gives written notification to X indicating that A's unpaid tax assessment is $2,500. Under this section, X is required to pay to the district director, promptly after receipt of the June 5, 1968, notification, the sum of $1,298 ($1,500 less $200 less $2), which is the amount A could have had advanced to him by X on June 3, 1968.

Example (2). Assume the same facts as in example (1) except that on May 10, 1968, A requests and X grants an advance in the amount of $1,000. X has actual notice of the existence of the lien by reason of the service of the notice of levy on March 5, 1968. This advance is not required to be made automatically under the policy and reduces the amount of the cash value of the policy. For the use of the $1,000 advance during the period May 10, 1968, through June 3, 1968, X charges A the sum of $3. Under this section, X is required to pay to the district director, promptly after receipt of the June 5, 1968, notification, the sum of $1,298. This $1,298 amount is composed of the $295 amount ($1,500 less $200 less $2 less $1,000 less $3) A could have had advanced to him by X on June 3, 1968, plus the $1,000 advance plus the charges in the amount of $3 with respect thereto.

Example (3). Assume the same facts as in example (1) except that the insurance contract does not contain an automatic premium advance provision. The contract does provide that, upon default in the payment of premiums, the policy shall automatically be converted to paid-up term insurance with no cash or loan value. A fails to make the premium payment of $200 due on April 9, 1968. After expiration of a grace period to make the premium payment, the X Insurance Company applies the cash loan value of $1,500 to effect the conversion. Since the service of the notice of levy constitutes the exercise of A's right to receive the cash loan value and the amount applied to effect the conversion is not an automatic advance to A to maintain the policy in force, the conversion of the policy is not an event which will release the cash loan value from the effect of the levy. Therefore, X Insurance Company is required to pay to the district director, promptly after receipt of the June 5, 1968 notification, the sum of $1,500.

(d) *Other enforcement proceedings.* The satisfaction of the levy described in paragraph (b) of this section by an insuring organization shall be without prejudice to any civil action for the enforcement of any Federal tax lien with respect to a life insurance or endowment contract. Thus, this levy procedure is not the exclusive means of subjecting the life insurance and endowment contracts of the person against whom a tax is assessed to the collection of his unpaid assessment. The United States may choose to foreclose the tax lien in any case where it is appropriate, as, for example, to reach the cash surrender value (as distinguished from cash loan value) of a life insurance or endowment contract.

(e) *Cross references.* (1) For provisions relating to priority of certain advances with respect to a life insurance or endowment contract after satisfaction of a levy pursuant to section 6332(b), see section 6323(b)(9) and the regulations thereunder.

(2) For provisions relating to the issuance of a certificate of discharge of a life insurance or endowment contract subject to a tax lien, see section 6325(b) and the regulations thereunder.

PAR. 6. Section 301.6334 is amended by revising section 6334(a)(4), by adding new paragraphs (6) and (7) to section 6334(a), by revising the historical note to section 6334, and by deleting all statutory material and historical notes following the historical note to section 6334. The amended and added provisions read as follows:

§ 301.6334 Statutory provisions; property exempt from levy.

Sec. 6334. *Property exempt from levy*—(a) *Enumeration.* • • •

(4) *Unemployment benefits.* Any amount payable to an individual with respect to his unemployment (including any portion thereof payable with respect to dependents) under an unemployment compensation law of the United States, or any State, or of the District of Columbia or of the Commonwealth of Puerto Rico.

• • • • •

(6) *Certain annuity and pension payments.* Annuity or pension payments under the Railroad Retirement Act, benefits under the Railroad Unemployment Insurance Act, special pension payments received by a person whose name has been entered on the Army, Navy, Air Force, and Coast Guard Medal of Honor roll (38 U.S.C. 562), and annuities based on retired or retainer pay under chapter 73 of title 10 of the United States Code.

(7) *Workmen's compensation.* Any amount payable to an individual as workmen's compensation (including any portion thereof payable with respect to dependents) under a workmen's compensation law of the United States, any State, the District of Columbia, or the Commonwealth of Puerto Rico.

• • • • •

[Sec. 6334 as amended by section 406, Social Security Amendments 1958 (72 Stat. 1047); sec. 812, Excise Tax Reduction Act of 1965 (79 Stat. 170); sec. 104(c), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

PAR. 7. Section 301.6334–1 is amended by revising subparagraphs (2), (3), and (4) of paragraph (a), by adding new subparagraphs (6) and (7) to paragraph (a), and by revising paragraph (c). These amended and added provisions read as follows:

§ 301.6334–1 Property exempt from levy.

(a) *Enumeration.* • • •

(2) *Fuel, provisions, furniture, and personal effects.* If the taxpayer is the head of a family, so much of the fuel, provisions, furniture, and personal effects in his household, and of the arms for personal use, livestock, and poultry of the taxpayer, as does not exceed $500 in value. For purposes of this provision, an individual who is the only remaining member of a family and who lives alone is not the head of a family.

(3) *Books and tools of a trade, business or profession.* So many of the books and tools necessary for the trade, business, or profession of an individual taxpayer as do not exceed in the aggregate $250 in value.

(4) *Unemployment benefits.* Any amount payable to an individual with respect to his unemployment (including any portion thereof payable with respect to dependents) under an unemployment compensation law of the United States, of any State, or of the District of Columbia or of the Commonwealth of Puerto Rico.

• • • • •

(6) *Certain annuity and pension payments.* Annuity or pension payments under the Railroad Retirement Act (45 U.S.C. ch. 9), benefits under the Railroad Unemployment Insurance Act (45 U.S.C. ch. 11), special pension payments received by a person whose name has been entered on the Army, Navy, Air Force, and Coast Guard Medal of Honor roll (38 U.S.C. 562), and annuities based on retired or retainer pay under chapter 73 of title 10 of the United States Code.

(7) *Workmen's compensation.* Any amount payable to an individual as workmen's compensation (including any portion thereof payable with respect to dependents) under a workmen's compensation law of the United States, any State, the District of Columbia, or the Commonwealth of Puerto Rico.

• • • • •

(c) *Other property.* No other property or rights to property are exempt from levy except the property specifically exempted by section 6334(a). No provision of a State law may exempt property or rights to property from levy for the collection of any Federal tax. Thus, property exempt from execution under State personal or homestead exemption laws is, nevertheless, subject to levy by the United States for collection of its taxes.

PAR. 8. Section 301.6335 is amended by revising section 6335(b) and by adding a historical note. These amended and added provisions read as follows:

§ 301.6335 Statutory provisions; sale of seized property.

Sec. 6335. *Sale of seized property.* • • •

(b) *Notice of sale.* The Secretary or his delegate shall as soon as practicable after the seizure of the property give notice to the owner, in the manner prescribed in subsection (a), and shall cause a notification to be published in some newspaper published or generally circulated within the county wherein such seizure is made, or if there be no newspaper published or generally circulated in such county, shall post such notice at the post office nearest the place where the seizure is made, and in not less than two other public places. Such notice shall specify the property to be sold, and the time, place, manner, and conditions of the sale thereof. Whenever levy is made without regard to the 10-day period provided in section 6331(a), public notice of sale of the property seized shall not be made within such 10-day period unless section 6336 (relating to sale of perishable goods) is applicable.

• • • • •

[Sec. 6335 as amended by sec. 104(d), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

PAR. 9. Paragraph (b)(1) of § 301.6335–1 is amended to read as follows:

§ 301.6335–1 Sale of seized property.

• • • • •

(b) *Notice of sale.* (1) As soon as practicable after seizure of the property, the district director shall give notice of sale in writing to the owner. Such notice shall be delivered to the owner or left at his usual place of abode or business if located within the internal revenue district where the seizure is made. If the owner cannot be readily located, or has no dwelling or place of business within such district, the notice may be mailed to his last known address. The notice shall specify the property to be sold, and the time, place, manner, and conditions of the sale thereof, and shall expressly state that only the right, title, and interest of the delinquent taxpayer in and to such property is to be offered for sale. The notice shall also be published in some newspaper published in the county wherein the seizure is made or in a newspaper generally circulated in that county. For example, if a newspaper of general circulation in a county but not published in that county will reach more potential bidders for the property to be sold than a newspaper published within the county, or if there is a newspaper of general circulation within the county but no newspaper published within the county, the district director may cause public notice of the sale to be given in the newspaper of general circulation within the county. If there is no newspaper published or generally circulated in the county, the notice shall be posted at the post office nearest the place where the seizure is made, and in not less than two other public places.

• • • • •

PAR. 10. Section 301.6337 is amended by revising section 6337(b)(1) and by adding a historical note. These revised and added provisions read as follows:

§ 301.6337 Statutory provisions; redemption of property.

Sec. 6337. *Redemption of property.* • • •

(b) *Redemption of real estate after sale*—(1) *Period.* The owners of any real property sold as provided in section 6335, their heirs, executors, or administrators, or any person having any interest therein, or a lien thereon, or any person in their behalf, shall be permitted to redeem the property sold, or any particular tract of such property, at any time within 120 days after the sale thereof.

• • • • •

[Sec. 6337 as amended by sec. 104(e), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

PAR. 11. Paragraph (b)(1) of § 301.6337–1 is amended to read as follows:

§ 301.6337–1 Redemption of property.

• • • • •

(b) *Redemption of real estate after sale*—(1) *Period.* The owner of any real estate sold as provided in section 6335, his heirs, executors, or administrators, or any person having any interest therein, or a lien thereon, or any person in their behalf, shall be permitted to redeem the property sold, or any particular tract of such property, at any time within 120 days after the sale thereof.

• • • • •

PAR. 12. Section 301.6338 is amended by revising section 6338(c) and by revising the historical note. These amended provisions read as follows:

§ 301.6338 Statutory provisions; certificate of sale; deed of real property.

Sec. 6338. *Certificate of sale; deed of real property.* • • •

(c) *Real property purchased by United States.* If real property is declared purchased by the United States at a sale pursuant to section 6335, the Secretary or his delegate shall at the proper time execute a deed therefor, and without delay cause such deed to be duly recorded in the proper registry of deeds.

[Sec. 6338 as amended by sec. 78, Technical Amendments Act, 1958 (72 Stat. 1662); sec. 104(f), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

PAR. 13. Paragraph (c) of § 301.6338–1 is amended to read as follows:

§ 301.6338–1 Certificate of sale; deed of real property.

• • • • •

(c) *Deed to real property purchased by the United States.* If real property is declared purchased by the United States at a sale pursuant to section 6335, the district director shall at the proper time execute a deed therefor and shall, without delay, cause the deed to be duly recorded in the proper registry of deeds.

PAR. 14. Section 301.6339 is amended by adding new subsections (c) and (d) to section 6339 and by revising the historical note. These added and amended provisions read as follows:

§ 301.6339 Statutory provisions; legal effect of certificate of sale of personal property and deed of real property.

Sec. 6339. *Legal effect of certificate of sale of personal property and deed of real property.* • • •

(c) *Effect of junior encumbrances.* A certificate of sale of personal property given or a deed to real property executed pursuant to section 6338 shall discharge such property from all liens, encumbrances, and titles over which the lien of the United States with respect to which the levy was made had priority.

(d) *Cross references.* (1) For distribution of surplus proceeds, see section 6342(b).

(2) For judicial procedure with respect to surplus proceeds, see section 7426(a)(2).

[Sec. 6339 as amended by sec. 79, Technical Amendments Act 1958 (72 Stat. 1662); sec. 104(g), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

V 37 • 72
APR 13 72
XUM

PAR. 15. Section 301.6339–1 is amended by adding new paragraph (c) which reads as follows:

§ 301.6339–1 Legal effect of certificate of sale of personal property and deed of real property.

• • • • •

(c) *Effect of junior encumbrances.* A certificate of sale of personal property given or a deed to real property executed pursuant to section 6338 discharges the property from all liens, encumbrances, and titles over which the lien of the United States, with respect to which the levy was made, has priority. For example, a mortgage on real property executed after a notice of a Federal tax lien has been filed is extinguished when the district director executes a deed to the real property to a purchaser thereof at a sale pursuant to section 6335 following the seizure of the property by the United States. The proceeds of such a sale are distributed in accordance with priority of the liens, encumbrances, or titles. See section 6342(b) and the regulations thereunder for provisions relating to the distribution of surplus proceeds. See section 7426(a)(2) and the regulations thereunder for judicial procedures with respect to surplus proceeds.

PAR. 16. Section 301.6342 is amended by revising section 6342(a) (other than paragraph (2) thereof) and by adding a historical note. These amended and added provisions read as follows:

§ 301.6342 Statutory provisions; application of proceeds of levy.

Sec. 6342. *Application of proceeds of levy*—(a) *Collection of liability.* Any money realized by proceedings under this subchapter (whether by seizure, by surrender under section 6332 (except pursuant to subsection (c)(2) thereof), or by sale of seized property) or by sale of property redeemed by the United States (if the interest of the United States in such property was a lien arising under the provisions of this title) shall be applied as follows:

(1) *Expense of levy and sale.* First, against the expenses of the proceedings;

• • • • •

(3) *Liability of delinquent taxpayer.* The amount, if any, remaining after applying paragraphs (1) and (2) shall then be applied against the liability in respect of which the levy was made or the sale was conducted.

• • • • •

[Sec. 6342 as amended by sec. 104(h), Federal Tax Lien Act of 1966 (80 Stat. 1137)]

PAR. 17. Paragraph (a) (other than subparagraph (2) thereof) of § 301.6342–1 is amended to read as follows:

§ 301.6342–1 Application of proceeds of levy.

(a) *Collection of liability.* Any money realized by proceedings under subchapter D, chapter 64, of the Code or by sale of property redeemed by the United States (if the interest of the United States in the property was a lien arising under the provisions of the Internal Revenue Code), is applied in the manner specified in subparagraphs (1), (2), and (3) of this paragraph. Money realized by proceedings under subchapter D, chapter 64, of the Code includes money realized by seizure, by sale of seized property, or by surrender under section 6332 (except money realized by the imposition of a 50 percent penalty pursuant to section 6332(c)(2)).

(1) *Expense of levy and sale.* First, against the expenses of the proceedings and amounts paid by the United States to redeem property.

• • • • •

(3) *Liability of delinquent taxpayer.* The amount, if any, remaining after applying subparagraphs (1) and (2) of this paragraph shall then be applied against the liability in respect of which the levy was made or the sale of redeemed property was conducted.

• • • • •

PAR. 18. Section 301.6343 is amended by revising section 6343 and by adding a historical note. These amended and added provisions read as follows:

§ 301.6343 Statutory provisions; authority to release levy and return property.

Sec. 6343. *Authority to release levy and return property*—(a) *Release of levy.* It shall be lawful for the Secretary or his delegate, under regulations prescribed by the Secretary or his delegate, to release the levy upon all or part of the property or rights to property levied upon where the Secretary or his delegate determines that such action will facilitate the collection of the liability but such release shall not operate to prevent any subsequent levy.

(b) *Return of property.* If the Secretary or his delegate determines that property has been wrongfully levied upon, it shall be lawful for the Secretary or his delegate to return—

(1) The specific property levied upon,

(2) An amount of money equal to the amount of money levied upon, or

(3) An amount of money equal to the amount of money received by the United States from a sale of such property.

Property may be returned at any time. An amount equal to the amount of money levied upon or received from such sale may be returned at any time before the expiration of 9 months from the date of such levy. For purposes of paragraph (3), if property is declared purchased by the United States at a sale pursuant to section 6335(e) (relating to manner and conditions of sale), the United States shall be treated as having received an amount of money equal to the minimum price determined pursuant to such section or (if larger) the amount received by the United States from the resale of such property.

[Sec. 6343 as amended by sec. 104(i), Federal Tax Lien Act of 1966 (80 Stat. 1138)]

PAR. 19. Section 301.6343–1 is amended to read as follows:

§ 301.6343–1 Authority to release levy and return property.

(a) *Release of levy*—(1) *Authority.* The district director may release the levy upon all or part of the property or rights to property levied upon as provided in subparagraphs (2) and (3) of this paragraph. A levy may be released under subparagraph (2) of this paragraph only if the delinquent taxpayer complies with such of the conditions thereunder as the district director may require and if the district director determines that such action will facilitate the collection of the liability. A release pursuant to subparagraph (3) of this paragraph is considered to facilitate the collection of the liability. The release under this section shall not operate to prevent any subsequent levy.

(2) *Conditions for release.* The district director may release the levy as authorized under subparagraph (1) of this paragraph, if—

(i) *Escrow arrangement.* The delinquent taxpayer offers a satisfactory arrangement, which is accepted by the district director, for placing property in escrow to secure the payment of the liability (including the expenses of levy) which is the basis of the levy.

(ii) *Bond.* The delinquent taxpayer delivers an acceptable bond to the district director conditioned upon the payment of the liability (including the expenses of levy) which is the basis of the levy. Such bond shall be in the form provided in section 7101 and § 301.7101–1.

(iii) *Payment of amount of U.S. interest in the property.* There is paid to the district director an amount determined by him to be equal to the interest of the United States in the seized property or the part of the seized property to be released.

(iv) *Assignment of salaries and wages.* The delinquent taxpayer executes an agreement directing his employer to pay to the district director amounts deducted from the employee's wages on a regular, continuing, or periodic basis, in such manner and in such amount as is agreed upon with the district director, until the full amount of the liability is satisfied, and such agreement is accepted by the employer.

(v) *Installment payment arrangement.* The delinquent taxpayer makes satisfactory arrangements with the district director to pay the amount of the liability in installments.

(vi) *Extension of statute of limitations.* The delinquent taxpayer executes an agreement to extend the statute of limitations in accordance with section 6502(a)(2) and § 301.6502–1.

(3) *Release where value of interest of United States is insufficient to meet expenses of sale.* The district director may release the levy as authorized under subparagraph (1) of this paragraph if he determines that the value of the interest of the United States in the seized property, or in the part of the seized property to be released, is insufficient to cover the expenses of the sale of such property.

(b) *Return of property*—(1) *General rule.* If the district director determines that property has been wrongfully levied upon, the district director may return—

(i) The specific property levied upon,

(ii) An amount of money equal to the amount of money levied upon (without interest), or

(iii) An amount of money equal to the amount of money received by the United States from a sale of the property (without interest).

If the United States is in possession of specific property, the property may be returned at any time. An amount equal to the amount of money levied upon or received from a sale of the property may be returned at any time before the expiration of 9 months from the date of the levy. When a request described in subparagraph (2) of this paragraph is filed for the return of property before the expiration of 9 months from the date of levy, an amount of money may be returned after a reasonable period of time subsequent to the expiration of the 9-month period if necessary for the investigation and processing of such request. In cases where money is specifically identifiable, as in the case of a coin collection which may be worth substantially more than its face value, the money will be treated as specific property and, whenever possible, this specific property will be returned. For purposes of subparagraph (1)(iii) of this paragraph, if property is declared purchased by the United States at a sale pursuant to section 6335(e), the United States is treated as having received an amount of money equal to the minimum price determined by the district director before the sale or, if larger, the amount received by the United States from the resale of the property.

(2) *Request for return of property.* A written request for the return of property wrongfully levied upon shall be addressed to the district director (marked for the attention of the chief, special procedures staff) for the internal revenue district in which the levy was made. The written request shall contain the following information:

(i) The name and address of the person submitting the request,

(ii) A detailed description of the property levied upon,

(iii) A description of the claimant's basis for claiming an interest in the property levied upon, and

(iv) The name and address of the taxpayer, the originating internal revenue district, and the date of lien or levy as shown on the Notice of Tax Lien (Form 668), Notice of Levy (Form 668–A), or Levy (Form 668–B) or, in lieu thereof, a statement of the reasons why such information cannot be furnished.

(3) *Inadequate request.* Any request made prior to June 1, 1972, which apprises the Internal Revenue Service of the claimant's demand for the return of property wrongfully levied upon shall be considered adequate. A request made after May 31, 1972, shall not be considered adequate unless it is a written request containing the information required by subparagraph (2) of this paragraph. However, unless a notification is mailed by the district director to the claimant within 30 days of receipt of the request to inform the claimant of the inadequacies, any written request shall be considered adequate. If the district director timely notifies the claimant of the inadequacies of his request, the claimant shall have 30 days from the receipt of the notification of inadequacy to supply in writing any omitted information. Where the omitted information is so supplied within the 30 day period, the request shall be considered to be adequate from the time the original request was made for purposes of determining the applicable period of limitation upon suit under section 6532(c).

[FR Doc.72–5662 Filed 4–12–72;8:52 am]

Title 39—POSTAL SERVICE

Chapter I—U.S. Postal Service

PART 952—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO FALSE REPRESENTATION AND LOTTERY ORDERS

PART 953—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO MAILABILITY

Service of Complaints and Notices of Hearings

The Judicial Officer has amended, effective upon publication in the FEDERAL REGISTER (4–13–72), procedural regulations contained in §§ 952.8(b) and 953.5 of Title 39, Code of Federal Regulations, in the manner and for the purposes stated below.

(39 U.S.C. 204, 401, 3001 and 3005)

LOUIS A. COX,
General Counsel.

APRIL 10, 1972.

Current regulations in §§ 952.8(b) and 953.5 relating to formal proceedings provide that service of complaints and initial notices of hearing filed under Parts 952 and 953 respectively shall be made under conditions under which a postal employee obtains a receipt of delivery, but each section further provides that if service cannot be accomplished in that manner, the complaint and notices of hearing are to be delivered in the usual manner as other mail addressed to respondent. Uncertainty has arisen as to the length of time that delivery shall be attempted in such a manner as to obtain a receipt. In order to settle this question, the sections mentioned are being amended to establish fixed periods for such attempts. The amendments also bring the language of the two into greater conformity.

1. Paragraph (b) of § 952.8 is revised to read as follows:

§ 952.8 Service.

• • • • • •

(b) If, after 5 days, the postmaster or his agent can find no person to accept service of the notice of hearing and complaint pursuant to paragraph (a) of this section, the notice may be delivered in the usual manner as other mail addressed to the respondent. A statement, showing the time and place of delivery, signed by the postal employee who delivered the notice of hearing and complaint shall be forwarded to the Docket Clerk and such statement shall constitute evidence of service.

2. The last two sentences of § 953.5 are revised to read as follows:

§ 953.5 Notice of hearing; service.

• • • If, after 3 days, the postmaster or his agent can find no person to accept service of the notice of hearing and complaint, the notice may be delivered in the usual manner as other mail addressed to the respondent. A statement, showing the time and place of delivery, signed by the postal employee who delivered the notice of hearing and complaint shall be forwarded to the Docket Clerk and such statement shall constitute evidence of service.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 14—Department of the Interior

MISCELLANEOUS AMENDMENTS TO CHAPTER

Pursuant to the authority of the Secretary of the Interior, contained in 5 U.S.C. 301, Parts 14–1, 14–6, 14–7, 14–12, and 14–18 of Title 41 of the Code of Federal Regulations are hereby amended.

It is the general policy of the Department of the Interior to allow time for interested parties to take part in the rulemaking process. However, the amendments and revisions contained herein are minor and entirely administrative in nature. Therefore, the public rulemaking process is waived and these changes will become effective upon publication in the FEDERAL REGISTER (4–13–72).

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

APRIL 7, 1972.

PART 14–1—GENERAL

Subpart 14–1.3—General Policies

1. Section 14–1.350(c) is revised to read as follows:

§ 14–1.350 Obtaining a release of claims.

• • • • • •

(c) Contracts requiring a release of claims shall include a clause substantially as follows:

After completion of work, and prior to final payment, the Contractor shall furnish to the Contracting Officer, a release of claims against the United States arising out of the contract, other than claims specifically excepted from the operation of the release.

• • • • • •

PART 14–6—FOREIGN PURCHASES

Subpart 14–6.2—Buy American Act—Construction Contracts

§ 14–6.204 Invitation provision and representation by bidders. [Deleted]

1. Part 14–6 of the Interior Procurement Regulations is amended by the deletion of Subpart 14–6.2 and § 14–6.204.

V 37-72 APR 13 72 XUM

PART 14–7—CONTRACT CLAUSES

Subpart 14–7.1—Fixed-Price Supply Contracts

1. Section 14–7.153 is amended by the addition of a paragraph (c).

§ 14–7.153 Ocean freight shipments—use of American-flag vessels—reports.

* * * * *

(c) *Informal grievance procedure.* (1) Whenever any person has a question, problem, complaint, grievance, or controversy pertaining to the terms and conditions of any tenders, charter party terms, or other matter involving the administration of the Cargo Preference Act of 1954, section 901(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)), such person may request the Maritime Administration to afford him an opportunity to discuss the matter informally with representatives of the Maritime Administration and, if other U.S. Government agencies or foreign missions, embassies, or agencies acting on behalf of a foreign government are involved with them or persons authorized to speak for them.

(2) In such cases, a request may be made by telephone or letter to the Chief, Office of Market Development, Maritime Administration, Washington, D.C. 20235, Area Code 202, phone 967–3325. When such a request has been received, the Assistant Secretary of Commerce for Maritime Affairs or his designated representative will promptly consider the matter on its merits and provide assistance if possible. If the matter cannot be resolved satisfactorily by the Maritime Administration, the Assistant Secretary of Commerce for Maritime Affairs or his designated representative will then arrange for a meeting at a time and place satisfactory to all interested parties so that the matter may be freely discussed and resolved.

(3) At such meetings, the Assistant Secretary of Commerce for Maritime Affairs or his designated representative may request any U.S. Government agency, foreign mission, embassy, or agency acting on behalf of a foreign government, or others having an interest in the matter to attend such a conference, or to send representatives authorized to speak for them. All such meetings and conferences will be conducted in an informal manner.

PART 14–12—LABOR

1. The Interior Procurement Regulations are amended by the addition of Part 14–12 and Subpart 14–12.1.

Subpart 14–12.1—Basic Labor Policies

§ 14–12.150 Labor standards enforcement report.

(a) A semiannual report is required on compliance with and enforcement of the labor standards provisions of the Davis-Bacon Act and Contract Work Hours and Safety Standards Act. The reporting periods are January 1 through June 30 and July 1 through December 31. The reports shall be prepared by each contract administration office and forwarded through channels to the Director, Office of Survey and Review, within 25 days after the close of the reporting period. Within the next 5 days a report will be submitted by the Office of Survey and Review to the U.S. Department of Labor, Employment Standards Administration, 711 14th Street NW., Room 1010, Washington, DC 20210.

(b) The report shall contain the following information which shall be stated separately, as applicable, in two columns—one column for construction work subject to the Davis-Bacon Act and Contract Work Hours and Safety Standards Act and the other column for nonconstruction work subject to the Contract Work Hours and Safety Standards Act:

(1) Period covered;

(2) Number of contracts awarded;

(3) Total dollar amount of prime contracts awarded;

(4) Number of contractors/subcontractors against whom complaints were received;

(5) Number of investigations completed;

(6) Number of contractors/subcontractors found in violation;

(7) Amount of wage restitution found due:

(i) Davis-Bacon and Related Acts; and

(ii) Contract Work Hours and Safety Standards Act.

(8) Number of employees due wage restitution under the Davis-Bacon and Related Acts and/or Contract Work Hours and Safety Standards Act;

(9) Amount of liquidated damages assessed under the Contract Work Hours and Safety Standards Act;

(10) Name, title, agency, and telephone number of person submitting the report; and

(11) Remarks.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

PART 14–18—PROCUREMENT OF CONSTRUCTION CONTRACTS

Subpart 14–18.6—Buy American Act

1. Part 14–18 of the Interior Procurement Regulations is amended by the addition of Subpart 14–18.6 and § 14–18.604 *Invitation provision.*

§ 14–18.604 Invitation provision.

The text of § 14–6.204 *Invitation provision and representations by bidders.* [Deleted] remains intact. No changes are made.

[FR Doc.72–5592 Filed 4–12–72;8:45 am]

PART 14–10—BONDS AND INSURANCE

Insurance Under Fixed-Price and Cost-Reimbursement-Type Contracts; Correction

In F.R. 72–4648 appearing at page 6291 in the issue for Tuesday, March 28, 1972, § 14–10.451(b) should bear reference to "paragraph (e)" rather than "paragraph (f)".

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER F—QUARANTINE, INSPECTION AND LICENSING

PART 75—PREPAID MEDICAL SERVICE PLANS

Authorization for Issuance of Prepaid Medical Service Contracts by Carriers

Correction

In F.R. Doc. 72–4806 appearing at page 6473 in the issue of Thursday, March 30, 1972, the phrase "As used in this paragraph" in the first line of paragraphs (b) and (c) of section 401 of § 75.1 should read "As used in this section".

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5200]

[Arizona 6641]

ARIZONA

Partial Revocation of Withdrawals for National Forest Administrative Sites

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The departmental order of July 10, 1908, and Public Land Order No. 1091 of March 10, 1955, withdrawing national forest lands as administrative sites, are hereby revoked so far as they affect the following described lands:

COCONINO NATIONAL FOREST

GILA AND SALT RIVER MERIDIAN

Sedona Ranger Station

T. 17 N., R. 6 E.,
Sec. 7, NW¼NE¼NE¼SW¼SE¼, W½SW¼NE¼NE¼SW¼SE¼, W½NE¼SW¼SE¼, W½W½SE¼NE¼SW¼SE¼, E½NE¼NW¼NW¼SW¼SE¼, and E½NW¼SW¼SE¼.

Elden Guard Station Administrative Site

T. 21 N., R. 8 E.,
Sec. 6, W½SW¼NE¼SW¼SE¼ and SW¼NW¼NE¼SW¼SE¼.

The areas described aggregate 13.75 acres in Coconino County.

2. The lands shall immediately be made available for consummation of a pending Forest Service exchange.

HARRSON LOESCH,
Assistant Secretary of the Interior.

APRIL 5, 1972.

Title 45—PUBLIC WELFARE

Subtitle A—Department of Health, Education, and Welfare, General Administration

PART 82—PROCEDURAL RULES FOR PROCEEDINGS CONDUCTED PURSUANT TO ENFORCEMENT OF EXECUTIVE ORDER 11246, AND RULES, REGULATIONS, AND ORDERS THEREUNDER

Pursuant to delegated authority and in accordance with Executive Order 11246, and rules, regulations, and orders thereunder, the Secretary of Health, Education, and Welfare hereby adopts and promulgates as Part 82 of Title 45 of the Code of Federal Regulations the following revised procedural rules to be applicable in proceedings for the imposition of sanctions under section 209(a)(1), (5), and (6) of Executive Order 11246, for violation of the Executive Order and rules, regulations, and orders thereunder. These rules are not subject to the public participation procedures of the Administrative Procedure Act, 5 U.S.C. 553, nor are they subject to the Secretary's Statement of Policy concerning public participation in rule making, 36 F.R. 2532 (Feb. 5, 1971). Therefore these rules shall be effective immediately upon publication in the FEDERAL REGISTER (4–13–72).

The new Part 82, Title 45, Code of Federal Regulations shall read as follows:

AUTHORITY: The provisions of this Part 82 issued under sec. 209(a)(1), (5), and (6) of the Executive Order 11246.

GENERAL INFORMATION

§ 82.1 Authority.

These rules of procedure supplement, and are established pursuant to, the provisions of 41 CFR 60–1.26(b).

§ 82.2 Scope of rules.

These rules govern the practice and procedure for proceedings conducted by the Department precedent to the imposition of sanctions under section 209(a)(1), (5), and (6) of Executive Order 11246, for violations of Executive Order 11246, and rules, regulations, and orders thereunder.

§ 82.3 Waiver, modification.

Upon notice to all parties, the hearing officer, the reviewing authority, or the Secretary may, with respect to matters pending before him (or them, in the case of the reviewing authority), modify or waive any rule herein upon a determination that no party will be prejudiced and that the ends of justice will thereby be served.

§ 82.4 Definitions.

(a) "Department" means the Department of Health, Education, and Welfare.

(b) "Notice" means notice of hearing.

(c) "Party" means a respondent; the General Counsel of the Department of Health, Education, and Welfare; and any person or organization participating in a proceeding pursuant to section 6(a) of these rules.

(d) "Respondent" means a person or organization against whom sanctions are proposed because of alleged violations of Executive Order 11246, and rules, regulations, and orders thereunder.

(e) "Reviewing Authority" means the Reviewing Authority (Civil Rights) of the Department of Health, Education, and Welfare.

(f) "Secretary" means Secretary of the Department of Health, Education, and Welfare.

APPEARANCE AND PRACTICE

§ 82.5 Participation by a party.

A party may appear in person, or by counsel, and participate fully, pursuant to the procedures set forth in these rules, in any proceeding held pursuant to these rules.

§ 82.6 Participation by interested persons.

(a)(1) To the extent that proceedings hereunder involve employment of persons covered by a collective bargaining agreement, and compliance may necessitate a revision of such agreement, any labor organization which is a signatory to the agreement shall have the right to participate as a party.

(2) Other persons or organizations shall have the right to participate as parties if the final decision could directly and adversely affect them or the class they represent.

(3) Any person or organization wishing to participate as a party under this paragraph shall file and serve upon the hearing officer and all parties a petition within 15 days after the notice has been filed. Such petition shall concisely state (i) petitioner's interest in the proceeding, (ii) who will appear for petitioner, (iii) the issues on which petitioner wishes to participate, and (iv) whether petitioner intends to present witnesses.

(4) The hearing officer shall promptly determine whether there are objections to the petition. He shall then determine whether each petitioner has the requisite interest in the proceedings, as defined in subparagraphs (1) and (2) of this paragraph, and shall permit or deny participation accordingly. Where petitions to participate as parties are made by individuals or groups with common interests, the hearing officer may request all such petitioners to designate a single representative, or he may recognize one or more of such petitioners to represent all such petitioners; provided that the representative of a labor organization qualifying to participate under subparagraph (1) of this paragraph must be permitted to participate as a party. The hearing officer shall give each petitioner written notice of the decision on his petition, and shall serve such notice on each party. Notice of denials of party participation shall be served on the reviewing authority. If the petition is denied, he shall briefly state the grounds for denial and shall then treat the petition as a request for participation as amicus curiae.

(5) A person or organization whose petition for party participation is denied may appeal the decision to the reviewing

V 37 • 72 APR 13 72 XUM

authority within 7 days of receipt of the notice of denial. The reviewing authority will make the final decision to grant or deny the petition within 20 days of the date of receipt of the appeal.

(b) (1) Any other interested person or organization wishing to participate as amicus curiae shall file a petition before the commencement of the hearing. Such petition shall concisely state (i) the petitioner's interest in the hearing, (ii) who will represent the petitioner, and (iii) the issues on which petitioner intends to present argument. The hearing officer shall grant the petition if he finds that the petitioner has a legitimate interest in the proceedings, and that such participation will not unduly delay the outcome and may contribute materially to the proper disposition of the issues. The hearing officer shall give the petitioner written notice of his decision on the petition, and shall serve such notice on each party. If the petition is denied, the hearing officer shall briefly state the grounds for such denial.

(2) An amicus curiae is not a party but may participate as provided in this paragraph. An amicus curiae may present a brief oral statement at the hearing, at the point in the proceeding specified by the hearing officer. He may submit a written statement of position to the hearing officer prior to the beginning of a hearing, and shall serve a copy on each party. He may also submit a brief or written statement at such time as the parties submit briefs and exceptions, and shall serve a copy on each party.

§ 82.7 Misconduct during proceedings.

Disrespectful, disorderly, or contumacious language or contemptuous conduct, refusal to comply with directions, or continued use of dilatory tactics by any person during any part of proceedings before a hearing officer, the reviewing authority, or the Secretary shall constitute grounds for immediate exclusion of such person from the remainder of the proceedings, or for other actions reasonably determined to prevent the future possibility of the proceedings being interrupted, delayed, or disrupted.

FORM AND FILING OF DOCUMENTS

§ 82.8 Form.

Documents filed pursuant to a proceeding herein shall be dated, the original signed in ink, shall show the docket description and title of the proceeding, and shall indicate the party or amicus filing, and the title, if any, and address of the signatory. Copies need not be signed, but the name of the person signing the original shall be reproduced.

§ 82.9 Filing, service.

All documents submitted in a proceeding shall be filed, and served on all parties. The original and two copies of each document shall be submitted for filing. Filings shall be made with the hearing clerk at the address stated in the notice, during regular business hours. With respect to exhibits and transcripts of testimony, only originals need by filed.

§ 82.10 Service—how made.

Service shall be made by personal delivery of one copy to each person to be served, or by mailing by first-class mail, properly addressed with postage prepaid. The notice of hearing shall be served upon the respondent by registered mail, return receipt requested.

§ 82.11 Date of service.

The date of filing or of service shall be the day when the matter is deposited in the U.S. mail or is delivered in person.

§ 82.12 Certificate of service.

The original of every document filed and required to be served upon parties shall be endorsed with a certificate of service signed by the party or amicus curiae making service or by his attorney or representative, stating the persons upon whom service has been made, date of service, and manner of service.

TIME

§ 82.13 Computation.

In computing any period of time under these rules or in an order issued hereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed in the District of Columbia, in which event it includes the next following business day. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays shall be excluded from the computation.

PREHEARING PROCEDURES

§ 82.14 Notice of hearing.

In response to respondent's request for a hearing, a notice of hearing shall be served on the respondent pursuant to 41 CFR 60-1.26(b)(1). Such notice shall contain the time, place, and nature of the hearing; the action proposed to be taken; the legal authority under which the proceedings are to be held; and the matters of fact and law asserted as the basis for the proposed action.

§ 82.15 Answer to notice.

Within 15 days after receipt of the notice of hearing, respondent may file an answer. This answer shall admit or deny specifically and in detail matters set forth in each allegation of the notice, unless respondent is without knowledge, in which case its answer should so state, and the statement shall be deemed a denial. Matters not specifically denied shall be deemed admitted. Matters alleged in the answer as affirmative defenses shall be separately stated and numbered. Failure of respondent to file an answer within the 15-day period following receipt of the notice may be deemed an admission of all facts recited in the notice.

§ 82.16 Amendments.

The Department may amend its notice once as a matter of course before an answer is filed, and respondent may amend its answer once as a matter of course not later than 15 days after it is filed. Other amendments of the notice or of the answer to the notice shall be made only by leave of the hearing officer. An amended notice shall be answered within 10 days of its service, or within the time for filing an answer to the original notice, whichever period is longer, unless the hearing officer orders otherwise.

§ 82.17 Motions.

Motions and petitions shall state the relief sought, the authority relied upon, and the facts alleged. If made before or after the hearing itself, these matters shall be in writing. If made at the hearing, they may be stated orally; but the hearing officer may require that they be reduced to writing and filed and served on all parties in the same manner as a formal motion. Within 8 days after a written motion or petition is served, or such other time period as the hearing officer, reviewing authority, or Secretary, may fix, any party may file a response to a motion or petition. An immediate oral response may be made to an oral motion.

§ 82.18 Disposition of motions.

The hearing officer, reviewing authority, or Secretary, may not grant a written motion or petition prior to expiration of the time for filing responses thereto, but may overrule or deny such motion or petition without awaiting response: *Provided, however,* That prehearing conferences, hearings, and decisions need not be delayed pending disposition of motions or petitions. Oral motions and petitions may be ruled on immediately.

§ 82.19 Depositions.

Upon such terms as may be just, for the convenience of the parties, or where the ends of justice will be served, the hearing officer may authorize or direct the testimony of any witness to be taken by deposition. Depositions shall be recorded by the official reporter designated for hearings. The party seeking to take a deposition should serve copies of the application on the parties to the proceeding, who should be given an opportunity, along with the deponent, to notify the hearing officer of any objections to the taking of the deposition.

DESIGNATION AND RESPONSIBILITIES OF HEARING OFFICER

§ 82.20 Designation.

Hearings shall be held before a hearing officer designated by the reviewing authority. After service of a notice designating a hearing officer to preside, and until such officer makes his decision, motions and petitions shall be submitted to him. In the case of the death, illness, disqualification, or unavailability of the designated hearing officer, another hearing officer may be designated to take his place. Until such replacement has been designated, all motions and petitions shall be submitted to the reviewing authority.

§ 82.21 Authority and responsibilities.

The hearing officer shall propose findings and conclusions to the reviewing authority on the basis of the record before him. In order to do so, he shall have the duty to conduct a fair and impartial hearing, to take all necessary action to avoid delay, and to maintain order. He shall have all powers necessary to those ends, including, but not limited to, the power to:

(a) Hold conferences, including prehearing conferences, to settle, simplify, or fix the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding.

(b) Require parties to state their position with respect to the various issues in the proceeding.

(c) Direct the parties to exchange their evidentiary exhibits, witness lists, and a narrative summary of their expected testimony prior to the hearing. Where good cause exists, the parties should be afforded the right at any time to amend, by deletion or supplementation, their evidentiary exhibit and witness lists.

(d) Rule on motions, and other procedural items on matters pending before him.

(e) Regulate the course of the hearing and conduct of counsel therein.

(f) Establish rules for media coverage of the proceedings.

(g) Examine witnesses.

(h) Receive, rule on, exclude, or limit evidence at any stage of the proceeding.

(i) Fix time limits for submission of written documents in matters before him.

(j) Take any action authorized by these rules.

HEARING PROCEDURES

§ 82.22 Evidentiary purpose.

The hearing is directed to receiving factual evidence and expert opinion testimony related to the issues in the proceeding. A hearing for the reception of evidence will be held only in case issues of fact must be resolved in order to determine whether respondent has failed to comply with one or more applicable requirements of Executive Order 11246, and rules, regulations, and orders thereunder. In case it appears from respondent's answer to the notice of hearing, from his failure timely to answer, or from his admissions or stipulations, that there are no matters of material fact in dispute, the hearing officer may enter an order so finding, vacating the hearing date, and fixing the time for filing briefs under § 82.35. Thereafter the proceedings shall to conclusion in accordance with §§ 82.35 through 82.43. Within 10 days of its issuance, an order vacating the hearing date may be appealed to the reviewing authority, and the reviewing authority shall affirm, modify, or set aside such order within 28 days thereafter.

§ 82.23 Evidence.

Irrelevant, immaterial, unreliable, and unduly repetitious evidence will be excluded from the record of a hearing. Hearsay evidence shall not be inadmissible as such.

§ 82.24 Testimony.

Testimony shall be given orally by witnesses at the hearing, but may, in the discretion of the hearing officer, be prepared in writing and served on all parties to the hearing. A witness shall be available for cross-examination, and, at the discretion of the hearing officer, may be cross-examined without regard to the scope of direct examination as to any matter which is material to the proceeding.

§ 82.25 Exhibits.

Proposed exhibits shall be exchanged at a prehearing conference, or otherwise prior to the hearing, if the hearing officer so requires. Proposed exhibits not so exchanged may be denied admission as evidence. The authenticity of all proposed exhibits will be deemed admitted unless written objection thereto is filed, or unless good cause is shown for failure to file such written objection.

§ 82.26 Admissions as to facts and documents.

Not later than 15 days prior to the date of the hearing except for good cause shown, or not later than 15 days prior to such earlier date as the hearing officer may order, any party may serve upon an opposing party a written request for the admission of the genuineness and authenticity of any relevant documents described in, and exhibited with, the request, or for the admission of the truth of any relevant matters of fact stated in the request. Each of the matters as to which an admission is requested shall be deemed admitted, unless within a period designated in the request (not less than 10 days after service thereof) the party to whom the request is directed serves upon the requesting party a sworn statement either (a) denying specifically the matters as to which an admission is requested, or (b) setting forth in detail the reasons why he cannot truthfully either admit or deny such matters.

§ 82.27 Objections.

Objections to evidence shall be timely, and shall briefly state the ground relied upon.

§ 82.28 Exceptions to rulings of hearing officer not necessary.

Exceptions to rulings of the hearing officer are unnecessary. It is sufficient that a party, at the time the ruling of the hearing officer is sought, makes known the action which he desires the hearing officer to take, or his objection to an action taken, and the grounds therefor.

§ 82.29 Official notice.

Whenever a party offers a public document, or part thereof, in evidence, and such document, or part thereof, has been shown by the offeror to be reasonably available to the public, such document need not be produced or marked for identification, but may be offered for official notice as a public document item by specifying the document or relevant part thereof. Official notice may also be taken of other matters, at the discretion of the hearing officer; provided that where official notice is taken or requested to be taken of a fact not appearing in the evidence of record, any party, on timely request, shall be permitted to show the contrary.

§ 82.30 Offer of proof.

An offer of proof made in connection with an objection taken to any ruling of the hearing officer excluding proffered oral testimony shall consist of a statement of the substance of the evidence which counsel contends would be adduced by such testimony; and, if the excluded evidence consists of evidence in written form or consists of reference to documents, a copy of such evidence shall be marked for identification and shall accompany the record as the offer of proof.

§ 82.31 Interlocutory appeals.

Except as specifically provided in these rules, appeals shall not be made of any ruling of the hearing officer except following the entire hearing and the hearing officer's recommended findings, conclusions, and decision.

§ 82.32 Ex parte communications.

The hearing officer shall not consult any person, or party, on any fact in issue unless upon notice and opportunity for all parties to participate. No employee or agent of the Federal Government engaged in the investigation and prosecution of this case shall participate or advise in the rendering of the recommended or final decision, except as witness or counsel in the proceeding.

THE RECORD

§ 82.33 Official transcript.

The Department will designate the official reporter for all hearings. The official transcripts of testimony and argument, together with any exhibits, briefs, or memoranda of law filed therewith, shall be filed with the hearing clerk. Transcripts may be obtained from the official reporter by the parties and the public at rates not to exceed the applicable rates fixed by the contract between the Department and the reporter. Upon notice to all parties, the hearing officer may authorize such corrections to the transcript as are necessary to accurately reflect the testimony.

§ 82.34 Record for decision.

The transcript of testimony, exhibits, and all papers, documents, and requests filed in the proceedings, except the correspondence section of the docket, including rulings and the recommended findings, conclusions, and decision, shall constitute the record for decision.

POSTHEARING PROCEDURES

§ 82.35 Proposed findings of fact and conclusions.

Within 20 days after receipt of the transcript of the testimony, and such additional time as the hearing officer may allow, each party may file proposed findings of fact and conclusions of law, and a proposed order, together with a supporting brief expressing the reasons for

V 37-72 APR 13 72 XUM

such proposals. Such proposals and briefs shall be filed and served on all parties and *amici curiae*. Reply briefs may be submitted within 10 days after receipt of the initial briefs and proposals, and shall be filed and served in like manner.

§ 82.36 Recommended decision of hearing officer.

Within 30 days after the time for filing reply briefs or, if the parties elect not to file briefs, within 30 days after the receipt of the hearing transcript, the hearing officer shall recommend findings of fact, conclusions of law, and a decision based on the record for decision. These recommendations shall be certified, together with the record for decision, to the reviewing authority for its decision. The recommended findings, conclusions, and decision of the hearing officer shall be served on all parties and amici curiae to the proceeding.

§ 82.37 Reviewing authority jurisdiction.

Following the issuance of the hearing officer's recommended decision, all motions and petitions in the matter should be addressed to the reviewing authority, which shall have the authority to act on them consistent with these regulations, Executive Order 11246, and rules, regulations, and orders thereunder. Such jurisdiction shall continue until the Secretary is requested to review the reviewing authority's decision, the Secretary decides to review such decision on his own motion, or the decision becomes the decision of the Department, whichever comes first.

§ 82.38 Exceptions to recommended decision.

Within 20 days after receipt of the hearing officer's recommended decision, all parties to the proceeding shall have an opportunity to submit to the reviewing authority briefs in support of, or in exception to, the recommended findings, conclusions, and decision of the hearing officer. These briefs may be responded to by other parties, within 10 days of their receipt by such parties. Such briefs or exceptions and reply briefs shall be filed and served on all parties and amici curiae to the proceeding.

§ 82.39 Oral argument before the reviewing authority.

(a) The reviewing authority shall have discretion, at its own initiative and within the limits described in this section, to direct the parties to argue a case orally. Oral argument shall not be directed, or received, except as necessary to clarify the written arguments in briefs in support or exceptions, and replies to these documents (See § 82.38). The reviewing authority shall, within these limits, define the scope and subject matter of oral argument in each case. Where the reviewing authority directs oral argument, it shall have the discretion to extend, up to 30 days, the time for rendering its decision under § 82.40.

(b) Pamphlets, charts, and other written material may be presented at oral argument only if such material is limited to facts already in the record and is served on all parties and filed with the hearing clerk at least 7 days before the argument.

§ 82.40 Reviewing authority's decision.

Within 60 days after the time for filing of reply briefs to support briefs and exception briefs, or 90 days from the date of the hearing officer's decision if no briefs are filed, the reviewing authority shall render its own decision. This decision may affirm, modify, or set aside, in whole or in part, the recommended findings, conclusions, and decision of the hearing officer and shall be based on the record for decision.

§ 82.41 Appeal to Secretary.

(a) Within 20 days of the date of the reviewing authority's decision, any party to the proceeding may request the Secretary to review that decision. Such review is not a matter of right, and may be granted by the Secretary only where he determines that the decision of the reviewing authority raises significant issues of law or public policy. The Secretary may grant or deny such request in whole or in part. The Secretary shall also have discretion to review any decision of the reviewing authority on his own motion. If the Secretary grants the requested review, or if he serves notice of intent to review upon his own motion, each party to the proceeding shall have 20 days, following notice of the Secretary's decision to review, within which to file briefs in exception to the decision of the reviewing authority, or briefs in support of the reviewing authority's decision. The Secretary shall thereafter render the Department's decision. Failure of a party to request review under this paragraph shall not be deemed a failure to exhaust administrative remedies for the purpose of obtaining judicial review.

(b) After the Secretary has been requested to review a matter under paragraph (a) of this section, or has given notice of his intent to review a matter on his own motion, whichever comes first, all motions and petitions shall be addressed to him. He shall act on them consistent with these regulations, Executive Order 11246, and rules, regulations, and orders thereunder. Such jurisdiction shall continue until the Secretary issues the decision of the Department.

§ 82.42 Final decision.

The decision of the reviewing authority shall become the decision of the Department in the event no appeal is made by any party within 20 days after the date of the reviewing authority's decision and the Secretary does not notify the parties within 35 days after the date of the reviewing authority's decision that he will otherwise review the decision.

§ 82.43 Approval of Department decision by Director, Office of Federal Contract Compliance.

No decision of the Department shall become final without the approval of the Director of the Office of Federal Contract Compliance.

Dated: April 7, 1972.

ELLIOT L. RICHARDSON,
Secretary.

Title 46—SHIPPING

Chapter IV—Federal Maritime Commission

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[General Order 28; Amdt. 2]

PART 548—REGULATIONS TO IMPLEMENT THE ECONOMIC STABILIZATION ACT, 1970, AS AMENDED

Take notice that the Federal Maritime Commission has revised its Part 548 of Title 46 CFR to establish consistency with the regulation of the Price Commission, Title 6 CFR 300.16, as amended by FEDERAL REGISTER notice of March 18, 1972 (37 F.R. 5701).

Title 6 CFR 300.16 as above amended revised the existing regulation as previously amended and published in the FEDERAL REGISTER, January 14, 1972 (37 F.R. 652) and includes a new provision in 6 CFR 300.16(a), establishing procedure whereby the Price Commission will regulate utilities utilizing the expertise of the regulatory agencies by granting said regulatory bodies a Certificate of Compliance after review of agency-adopted regulations designed to implement the Economic Stabilization Program. This would allow the regulatory agency to give final approval to utility rates. The Price Commission's proposed implementation date of this procedure is May 25, 1972. In the intervening period, however, this Commission must continue to review and evaluate proposed rate increases which are currently pending before it utilizing the existing amended Price Commission regulations.

Therefore, pursuant to authority in the Shipping Act, 1916, 46 U.S.C. section 801, et seq.; the Intercoastal Shipping Act, 1933, 46 U.S.C. section 843, et seq.; and the Economic Stabilization Act, 1970, as amended, Public Law 91-379, 84 Stat. 799, Public Law 91-588, 84 Stat. 1468, Public Law 92-8, 85 Stat. 13, Public Law 92-15, 85 Stat. 38, Public Law 92-210, 85 Stat. 743, Executive Order No. 11627 (36 F.R. 20139, October 16, 1971); 6 CFR Parts 101, 201, and 300, as amended, Part 548 of Title 46 CFR is revised to read as follows:

Sec.
548.1 General.
548.2 Categories of carriers for notification purposes.
548.3 Categories and procedures for filing and review.
548.4 Carrier certification of financial data.
548.5 Pending proceedings.
548.6 Other determinations.
548.7 Interim rates.

AUTHORITY: The provisions of this Part 548 issued under the Shipping Act, 1916, 46 U.S.C. sec. 801 et seq.; the Intercoastal Shipping Act, 1933, 46 U.S.C. sec. 843 et seq.; and the Economic Stabilization Act, 1970, as amended Public Law 91-379, 84 Stat. 799, Public Law 91-588, 84 Stat. 1468, Public Law 92-8, 85 Stat. 13, Public Law 92-15, 85 Stat. 38, Public Law 92-210, 85 Stat. 743, Executive Order No. 11627 (36 F.R. 20139, Oct. 16, 1971); 6 CFR Parts 101, 201, and 300.

§ 548.1 General.

(a) The regulations in this part are promulgated to implement the provisions of the Economic Stabilization Act, 1970, as amended, applicable Executive orders, and regulations of the Cost of Living Council, Pay Board, and Price Commission.

(b) The rules in this part are applicable to all filings and modifications of the tariffs of common carriers by water in the domestic offshore commerce of the United States, nonvessel operating common carriers engaged in these trades and subject to this Commission's regulation; and will continue in effect for the duration of the Economic Stabilization Act or until further notice. To the effect that anything contained herein is inconsistent with other regulations of the Federal Maritime Commission, such other regulation is hereby suspended to the extent necessary to reconcile such inconsistency.

(c) For the purposes of this part, the Price Commission will be referred to as "Price Commission" and the Federal Maritime Commission as the "Commission."

(d) For purposes of this part all common carriers by water engaged in the domestic offshore commerce of the United States and nonvessel operating common carriers operating in that trade shall be considered "public utilities" as defined in 6 CFR 300.16 published in the FEDERAL REGISTER, January 14, 1972 (37 F.R. 652).

(e) For purposes of this part all terminal operators shall be considered "service organizations" as defined in Title 6 CFR Part 300 et seq., and are not subject to the reporting and certification criteria hereunder. Terminal operators are, however, subject to the Economic Stabilization Act, 1970, as amended, and all pertinent regulations of the Price Commission including any notification criteria specified thereunder. Any information submitted to the Price Commission by terminal operators as service organizations must be submitted to the Commission on an informational basis. Nothing in this paragraph obviates any filing requirements of terminal operators under the provisions of General Order 15; Part 533 of this chapter, et seq.

§ 548.2 Categories of carrier for notification purposes.

(a) Carriers with gross annual revenues of $100 million or more are in the prenotification category. They must notify the Price Commission of any proposed increases in rates and charges which would increase their aggregate annual revenues by more than 1 percent.

(b) Carriers with gross annual revenues of less than $100 million are not required to prenotify the Price Commission of proposed increases in rates and charges.

§ 548.3 Categories and procedures for filing and review.

(a) This Commission is committed to implementing the Economic Stabilization Act, 1970, as amended. Accordingly, in compliance with the Price Commission's regulations, all proposed increases in rates of common carriers by water and nonvessel operating common carriers by water in the domestic offshore commerce of the United States, are required to be filed with this Commission under the provisions of this regulation, whether general increases, increases of individual tariff line items, or cost pass through increase.

(b) Therefore, in order for the Commission to adequately review proposed increases, the following categories and procedures will be applicable:

(1) *General rate increases—vessel operating common carriers by water.* Accompanying each filing of a proposed general rate increase, carrier shall submit sufficient financial data in order for the Commission to compute rates of return, taking explicit and quantitative account of expected or obtainable productivity gains. Labor and other cost increases in excess of those allowed by the Price Commission will not be considered. Further, this financial data shall make it possible for the Commission to determine that the proposed increase complies with at least one of the following criteria:

(i) The projected rate of return on the rate base as computed in the manner normally utilized by this Commission is not greater than the projected rate of return on the rate base reflected in the most recent past general increase allowed that particular carrier.

(ii) If the projected rate of return on the rate base exceeds the rate of return allowed by the Commission in the most recent past general increase, it does not exceed that earlier rate of return on the rate base by an amount greater than that attributable to the increase in the carrier's imbedded interest and preferred dividend cost since that last decision.

(iii) Special circumstances exist which make carrier's projected general increase conform to the Economic Stabilization Act although none of the criteria of subdivisions (i) and (ii) of this subparagraph are met. The following information is applicable under such special circumstances and shall be submitted as follows:

(*a*) Any financial data other than that in subdivision (i) of this subparagraph, to indicate that the carrier is entitled to a higher return on capital now than it was in the past.

(*b*) Direct and indirect labor costs adjusted to reflect productivity gains; taxes, cost of materials and equipment; discretionary costs; whether any costs incurred or expected to be incurred are in excess of those normally allowed by the Commission; and a comparison of all these costs and cost-related items between the current year and past years.

(c) Any other factors which are relevant to the goals of the Economic Stabilization Program.

(2) *General increase, nonvessel operating common carriers by water (NVOCC's).* Exclusive of justifiable specific allowable costs (pass through), NVOCC's shall submit sufficient information specifically oriented to allow the Commission to determine that the proposed increase complies with at least one of the criteria established in subparagraph (1) of this paragraph, including but not limited to the following information:

(i) A computation of the company's average profit margin as a percentage of revenue for each of the last 3 fiscal years ended prior to December 31, 1971. Each computation shall be accompanied by financial statements upon which the computation is based.

(ii) A computation of the company's profit margin after giving effect to the proposed rate increase showing that it will not result in a profit which exceeds the average profit margin for any two of the company's last 3 fiscal years ended or prior to December 31, 1971. This computation shall be supported by a proforma income statement for the next ending 12-month period commencing with the effective date of the proposed rate increase.

(3) *Individual tariff line item rate increases.* All individual rate increases filed by either vessel operating common carriers or nonvessel operating common carriers must be accompanied by appropriate financial data to allow the Commission to make positive findings as set forth in subparagraph (1) of this paragraph. However, to the extent that the individual increases do not affect more than 50 percent of the carrier's total tariff items and do not increase the carrier's gross annual revenues by more than 2½ percent, a simple statement containing the carrier's gross annual revenues, the dollar amount expected to be derived from the increase and the percentage of the carrier's gross annual revenue such increase represents, will be required.

(4) *Cost pass through increases.* Any proposed increase attributable to specific allowable costs as defined in 6 CFR 300.16 (c), shall be filed with adequate documentation establishing the basis of the additional cost, the dollar amount of the additional cost, and the dollar-for-dollar computation reflected in the increase proposed to be passed through.

(5) *New carriers and new services—rate increases.* If a new carrier or an existing carrier providing new services has no financial experience upon which to rely to establish a level of rates, and such carrier filed proposed rates with this Commission, the Commission shall consider any increase granted to another comparable carrier in the most recent decision applicable to that carrier, and the level of rates charged by carriers providing a comparable service.

§ 548.4 Carrier certification of financial data.

All financial data required to be submitted pursuant to this part shall bear

V 37-72 APR 13 72 XUM

certification by the corporate officer responsible for the maintenance and accuracy of the books, accounts, and financial records of the company stating that the books and accounts have been maintained in accordance with an appropriate system of accounts and have been prepared from the books and records of the company.

§ 548.5 Pending proceedings.

Until further notice all proposed rate adjustments pending before the Commission will be reviewed under the rules of this part.

§ 548.6 Other determinations.

(a) Upon receipt of appropriate data prompt review will be accomplished by this Commission to determine that rate adjustments comply with the criteria of § 548.3(b)(1); and

(1) The increase is cost justified and does not reflect future inflationary expectations.

(2) The increase is the minimum required to assume continued adequate and safe service or to provide for necessary expansion to meet future requirements.

(3) The increase will achieve the minimum rate of return needed to attract capital at reasonable costs and not to impair the credit of the carrier.

(4) The increase does not reflect labor costs in excess of those allowed by the Price Commission.

(5) The increase takes into account expected and obtainable productivity gains, as determined under Price Commission policies.

(b) Upon a positive determination of consistency of the proposed increase with the criteria of paragraph (a) of this section, the Commission will certify the increase to the Price Commission as provided in 6 CFR 300.16(e).

§ 548.7 Interim rates.

Any rate increase complying with the interim rate provisions of 6 CFR 300.16 (a) may go into effect when specified under that section.

Effective date. Good cause appearing, the regulations promulgated herein will be effective upon publication in the FEDERAL REGISTER (4–13–72).

By the Commission.

FRANCIS C. HURNEY,
Secretary.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER C—ACCOUNTS, RECORDS AND REPORTS

[No. 34364 (Sub-No. 1)]

PART 1252—PIGGYBACK TRAFFIC STATISTICS

Piggyback Traffic Statistics—Rail and Motor Forms Revisions

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 17th day of March 1972.

On September 29, 1971, notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 19125) advising all interested persons that the Commission had under consideration revisions of 49 CFR 1252.1 and 1252.2 regarding the requirement that all class I railroads and intercity motor carriers of property report quarterly statistics of their piggyback traffic on forms PTR–R and PTR–M, and inviting the filing of statements of facts, views, and arguments with respect thereto. Upon consideration of all representations filed in response thereto, as discussed in our report herein entered on the date hereof, the proposed revisions, as herein modified, are hereby adopted; accordingly;

It is ordered, That class I railroads other than switching and terminal companies, and class I intercity motor carriers of property be, and they are hereby, required to file quarterly reports on forms PTR–R (Rev.) and PTR–M (Rev.), respectively.

It is further ordered, That the said reporting requirements are effective with reports for the quarter beginning July 1, 1972.

And it is further ordered, That service of this order shall be made on all parties which filed representations, on all class I railroads, other than switching or terminal companies, and all class I intercity motor carriers of property; and that general notice shall be given by depositing a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, and by filing a copy with the Director, Office of the Federal Register.

(Secs. 12, 20, 204, and 220; 49 U.S.C. 12, 20, 304, and 320; and 5 U.S.C. 553 and 559)

Supplies of printed forms PTR–R (Rev.) and PTR–M (Rev.) will be furnished in the future.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Mingo National Wildlife Refuge, Mo.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (4–13–72)

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

MISSOURI

MINGO NATIONAL WILDLIFE REFUGE

The public hunting of squirrels on the Mingo National Wildlife Refuge, Mo., is permitted only on the area designated by signs as open to hunting. This open area, comprising 6,500 acres, is delineated on maps available at refuge headquarters, 1 mile north of Puxico, Mo., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrels subject to the following special conditions:

(1) The open season for hunting squirrels on the refuge extends from May 30 through September 30, 1972, inclusive.

(2) Hunters must register when entering the refuge and record kill when leaving.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1972.

GERALD L. CLAWSON,
Refuge Manager, Mingo National Wildlife Refuge, Puxico, Mo.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 7]

KATMAI NATIONAL MONUMENT, ALASKA

Fishing, Aircraft, and Motorboats

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3), 245 DMI (27 F.R. 6395) as amended, and National Park Service Order No. 66 (36 F.R. 21216), it is proposed to revise § 7.46 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of the revision is to simplify the fishing regulations at Katmai National Monument by deleting certain regulatory material now in § 7.46, thereby resulting in further application of Alaska Department of Fish and Game sport fishing regulations in accordance with 36 CFR 2.13. In addition, the proposal establishes special regulations pertaining to aircraft landing sites and use of motorboats.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the General Superintendent, National Park Service, Alaska Group, Post Office Box 2252, Anchorage, AK 99501, within 30 days of the publication of this notice in the FEDERAL REGISTER.

Paragraph (a) of § 7.46 is revised as follows; (b) and (c) are added:

§ 7.46 Katmai National Monument.

(a) *Fishing.* (1) Fishing is permitted only with artificial lures.

(2) On the Brooks River between Brooks Lake and posted signs near Brooks Camp, fly fishing only is permitted.

(b) *Aircraft—designated landing sites.* (1) Aircraft may be landed and operated on the entire water or ice surface of Naknek Lake and Naknek River. Beaches of the lake may not be used as runways nor may aircraft be taxied on any tributary streams.

(2) Aircraft operation in the vicinity of developments, boat docks, floats, piers, ramps, or bathing beaches must be performed with due caution and regard for persons and property and in accordance with any posted signs or uniform waterway markers.

(3) Areas within the monument not specified in subparagraph (1) of this paragraph are closed to aircraft landings except that landings may be authorized in connection with scientific research projects, Federal, State, or local government business, and concessioner functions, by prior permission of the Superintendent.

(i) The decision to grant or deny permission shall be based on a consideration of the following: The benefit of the project to the Service, the effect of the project on preservation of natural and cultural values, law enforcement and management needs, recreational use, and potential for pollution.

(ii) In granting permission the Superintendent may impose conditions on the permittee as to selection of landing sites, dates and hours, weather conditions, frequency and number of landings contemplated, type of aircraft, and other related factors.

(c) *Boating.* (1) Motorboats are permitted on Naknek Lake and Naknek River, but prohibited on tributary streams, except that a motorboat may be operated upstream on the Brooks River to posted markers.

(2) Areas within the monument not specified in subparagraph (1) of this paragraph are closed to motorboat operation except that the operation of motorboats may be authorized in connection with scientific research projects, Federal, State, or local government business, and concessioner functions, by prior permission of the Superintendent.

(i) The decision to grant or deny permission shall be based on a consideration of the following: The benefit of the project to the Service, the effect of the project on preservation of natural and cultural values, law enforcement and management needs, recreational use, and potential for pollution.

(ii) In granting permission, the Superintendent may impose conditions on the permittee as to the size and type and number of boats, the water in which operation is to be conducted, dates and hours, frequency and duration of use, weather conditions and other related factors.

Dated: December 3, 1971.

JOHN A. RUTTER,
Director, Pacific Northwest Region.

[FR Doc.72–5599 Filed 4–12–72;8:46 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Parts 1030, 1049]

[Dockets Nos. AO–361–A5, AO–319–A18]

MILK IN CHICAGO REGIONAL AND INDIANA MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

A public hearing was held upon proposed amendments to the marketing agreements and the orders regulating the handling of milk in the Chicago Regional and Indiana marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Des Plaines, Ill., on November 18, 1971, pursuant to notice thereof issued on October 28, 1971 (36 F.R. 20981).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on February 24, 1972, filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, with the following modifications:

Under heading "2. Terms and provisions" paragraph 7 is revised; new paragraphs are inserted after paragraphs 12 and 53.

The material issues on the record of the hearing relate to:

1. Adoption of an advertising and promotion program as authorized under Public Law 91–670; and

2. The specific terms and provisions necessary to implement such program under the Chicago Regional and Indiana orders.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Adoption of an advertising and promotion program.* The Chicago Regional and Indiana orders should be amended to provide for an advertising and promotion program in each market. The program for each market should be administered by an agency organized by producers and producers' cooperative associations and financed by producer moneys deducted from the pool proceeds.

Public Law 91–670 (Title I, § 101) approved January 11, 1971, amended the Agricultural Marketing Agreement Act by adding a new paragraph (I) in section 608c(5) to provide that a Federal milk order may, with the approval of producers on the market, include provisions for "establishing or providing for the establishment of research and development projects, and advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products, to be financed by producers in a manner and at a rate spec-

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

V 37 • 72 APR 13 72 XUM

ified in the order, on all producer milk under the order."

The adoption of such a program under the Chicago Regional order was proposed by Central Milk Producers Cooperative, a common marketing agency for 16 cooperatives whose member producers supply a substantial majority of the milk pooled under the order. The proposed adoption of an advertising and promotion program under the Indiana order was made by the Hoosier Milk Marketing Agency, Inc., a federation consisting of three cooperatives whose producer members supply a substantial majority of the milk pooled under the order. Thus, in each market the adoption of an advertising and promotion program has wide support among producer organizations.

Under the proposals supported at the hearing and as herein adopted the advertising and promotion program in each market will be funded through a 5 cents per hundredweight assessment each month on producer milk pooled during such month. The market administrator will deduct the monies from the producer-settlement fund in the computation of the uniform price. Funds so deducted, except for certain reserves withheld to cover refunds and administrative costs incurred by the market administrator, will be turned over to and expended by an agency organized by producers and producers' cooperative associations. The agency will be responsible for the development and implementation of programs and projects approved by the Secretary and designed to carry out the purposes of the Act as prescribed in the order.

Any producer not desiring to participate in the program, upon proper application, will be eligible for refund of the assessments made against his proportionate share of total producer marketings of milk, such refunds to be made by the market administrator on a quarterly basis. Also, the program as adopted will allow adjustments or credits in connection with mandatory checkoff for similar types of programs, if required under authority of any State law.

The principal reasons cited by proponents for the establishment of an advertising and promotion program under each of the orders were:

(1) *Decline in per capita consumption.* There has been a long-term decline in per capita consumption of milk and milk products in the United States. Per capita civilian disposition of milk solids in all dairy products combined declined 9 percent over the last decade, 61.8 pounds in 1970 compared to 67.9 pounds in 1960. For 8 of the years from 1960 to 1970 per capita disposition of milk solids was less than during the prior year. Per capita sales of cheese and frozen dairy products have increased slightly in recent years, but not by enough to offset the decline in sales of the remaining dairy products. Sales of fluid milk products, which account for about half of the disposition of all dairy products, has tended to decline on a per capita basis.

Average monthly packaged Class I sales by handlers regulated under the Chicago Regional order declined from 296.75 million pounds in 1969 to 285.65 million pounds in 1970. For the Indiana market there was a slight increase in Class I sales from 1969 to 1970, 102.52 million pounds per month in 1969 compared to 104.12 million pounds per month in 1970. In 1971 Class I sales by Chicago Regional handlers continued to decline while Class I sales by Indiana handlers continued to increase. For the period January–October Chicago Regional handlers Class I sales were 0.8 percent less in 1971 than in 1970. For the same period Indiana handlers Class I sales increased by 1.8 percent from 1970 to 1971. (Official notice is taken of "Federal Milk Order Market Statistics—October 1971.")"

Recent expenditures for advertising and promotion by producers supplying the Indiana market have been about three times more per hundredweight of Class I sales than has been the case for the Chicago Regional market. This could account for the different Class I sales trends in these markets. Proponents contend that a declining trend in per capita consumption of milk and dairy products can be diminished or reversed by increased expenditures for advertising and promotion of milk and dairy products.

(2) *The shifting trend from home delivery to store sales.* There has been a steadily increasing trend toward sales of milk out of stores and a decline in home deliveries of milk. Home delivery sales now account for less than 20 percent of total packaged fluid milk sales. Consequently, there is little direct contact with consumers by sales persons employed by processors of dairy products as was the case prior to the shift to selling milk primarily through chain stores.

The sale of milk through stores has placed it in more direct competition with other foods and beverages purchased by consumers. Most of such other competing foods and beverages are widely promoted and advertised. Much of the milk sold through stores is packaged under private label brands of such stores and receives little promotion and advertising by either the processors or stores. It is proponents' position, therefore, that in such a competitive environment, dairy farmers must do a more comprehensive and effective job of promoting milk and milk products.

(3) *Insufficient funds for promotional programs.* In the Chicago Regional market, Central Milk Producers Cooperative set aside $400,000 for use in dairy promotion in the year ended August 1971. Effective September 1971, Central Milk Producers Cooperative's promotion expenditure was increased by two-thirds. In addition, many dairy farmers have supported dairy promotion through contributions to the American Dairy Association, the national office of which contributed $90,000 to nonadvertising program promotion in the Chicago market for the year 1971.

In the Indiana market cooperatives spent about $240,000 during the year ending August 1971 for educational programs and in the promotion and advertising of fluid milk and dairy products. In addition, dairy farmers contributed $160,000 in support of advertising and educational programs through the American Dairy Association and National Dairy Council, for a total of $400,000.

Proponents contend that such expenditures in these markets are below the optimum effective promotion level of 5 cents per hundredweight that they believe is supported by certain marketing research studies.[1] Based on 1970 marketings current advertising and promotion expenditures are equivalent to a rate of 2.2 cents per hundredweight of producer milk in the Indiana market, but only 0.9 cent in the Chicago market.

In view of the foregoing, it is concluded that a program essentially as producers purpose, but with specified modifications discussed below, should be adopted in each of these markets.

2. *Terms and provisions.* The proposed rate of 5 cents per hundredweight on producer milk, suggested by proponents, is a reasonable assessment on the marketings of producers for promoting the consumption of the milk they produce and is adopted. Such assessment rate represents less than 1 percent of the uniform prices paid to producers in these markets. The 5 cents per hundredweight rate, however, should provide annual totals of about $3,500,000 under the Chicago Regional order and $800,000 under the Indiana order for use on producer-sponsored advertising and promotion programs.

The enabling legislation specifically provides that the promotion funds deducted from the pool proceeds "shall be paid to an agency organized by milk producers and producers' cooperative associations in such form and with such methods of operation as shall be specified in the order."

A definition of "Agency" therefore is incorporated in the order to identify the administrative body organized by producers and producers' cooperatives that will be authorized to expend funds for advertising and promotional activities.

The Agency, under the terms prescribed herein, is responsible for administration of the terms and provisions of the program within the scope of its authority. Subject to the approval of the Secretary, it also is empowered to enter into contracts and agreements with persons or organizations as deemed necessary to carry out such program. In addition, the Agency may recommend to the Secretary amendments to the terms of the program, and make such rules and regulations as are necessary to carry out its stated objectives.

The powers, duties, and functions specifically assigned to the Agency under the terms herein adopted are of a nature and scope to provide participating producers on the market full and necessary authority through their representatives on the Agency to develop and administer advertising and promotion programs, designed to accomplish the purposes of Public Law 91–670.

[1] A 1965 study by Clement, Henderson, and Eley on the value of advertising and published in USDA bulletin ERS No. 259, "The Effect of Different Levels of Promotional Expenditures on Sales of Fluid Milk"; and a followup study published in 1967 as USDA Marketing Research Report No. 805 "Consumer Response to Various Levels of Advertising for Fluid Milk."

The Act states that the Agency "* * * may designate, employ, and allocate funds to persons and organizations engaged in such programs which meet the standards and qualifications specified in the order." The guidelines concerning this matter are set forth in the amendments to the two orders. Under the terms of such amendments, the Agency will develop and submit to the Secretary for approval programs or projects that may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects, for advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers supplying the market; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all the producers supplying the market.

Under such authority proponents envisioned the Agency would utilize the services of the American Dairy Association, Dairy Council, Milk Foundation in Chicago, and other such organizations. Certain of the proponent cooperatives in the Chicago market urged that the terms of the order specify that existing promotion programs be funded for a period of 2 years and that promotion funds be expended on specific types of products according to the percentage utilization of milk in such products under the order. However, the extent to which the Agency may wish to employ the services of existing organizations engaged in milk promotion activities or otherwise budget expenditures is a matter to be determined by the Agency.

Agency members are to be selected from producers who participate in the program. Representation on the Agency as it relates to cooperatives may include, however, individuals not directly engaged in the production of milk, e.g., employees of the cooperative.

Under the Chicago Regional order each cooperative that represents at least 1.5 percent of the participating producers (producers who have not requested refunds) will be authorized an Agency representative, plus one additional Agency representative for each full 5 percent of the participating producers, in excess of 1.5 percent, that such cooperative represents. For the purpose of meeting the percentage requirements any cooperative association, including a cooperative having less than the required 1.5 percent of the producers participating in the program, may elect to combine its participating membership with that of one or more other cooperatives.

The participating producer members of any cooperative association(s) having less than the required 1.5 percent that elects not to combine, as discussed above, and nonmember producers, together will be authorized one Agency representative if such producers constitute 1.5 percent of the total number of participating producers under the order, plus one additional Agency representative for each additional full 5 percent that such producers constitute of all participating producers. For the purpose of the Agency's initial formation, all producers under the order would be considered as participating producers.

With the present number and size of cooperatives in the market, the above procedure will result in a maximum of 24 members on the Agency. Eleven different cooperatives representing over 90 percent of the producers on the market will be eligible to select 21 of the Agency representatives. In addition, should cooperatives with less than 1.5 percent of the producers elect to combine, two additional representatives of cooperatives could be placed on the Agency.

The above procedure is modified slightly from the proposed procedure set forth in the hearing notice. Under that procedure a cooperative would be required to have at least a full 5 percent of the participating producers to be eligible to name an Agency representative. Such procedure, however, would result in only five cooperatives, representing three-fourths of the producers, being eligible to name agency representatives without combining for such purpose. The procedure adopted assures broader producer representation on the Agency. Yet it does not result in too large an Agency for a market with over 16,000 producers.

Proponents urged in their briefs and exceptions that any cooperative with 100 members be authorized an Agency representative. To be authorized an Agency representative under the 1.5 percent provision, a cooperative would need to represent about 250 producers. Currently 100 producers is equivalent to about 0.6 percent of all producers supplying the market. Use of 100 producers as a minimum for direct representation on the Agency by a cooperative would increase significantly the potential number of members on the Agency but the total proportion of the market's producers being so represented would not increase appreciably. For example, under the present cooperative structure in the market, representatives from eligible cooperatives would be increased from 21 to 25, or 19 percent, but only about 4 percent more (95 vs. 91 percent) of the total producers on the market would be eligible for representation through cooperatives without combining with other cooperatives or nonmembers for representation on the Agency. In these circumstances, it is concluded that representation on the Agency would be unduly dissipated if the 100 producer minimum were adopted in place of 1.5 percent of all producers.

Because of the smaller number of producers on the market, proponents proposed that the Agency for the Indiana market be about half the size of the Agency for the Chicago Regional market. Specifically they proposed that a cooperative represent a full 10 percent of the participating producers to be eligible to name an Agency representative. Such procedure, however, would result in only two of the seven cooperatives being large enough to independently select a representative. If on the other hand a procedure like the one adopted for the Chicago Regional market, but with minimums of 3 and 10 percent of the total participating producers for the initial and additional representatives were adopted, five of the seven cooperatives would be eligible to independently name representatives. Moreover, about 90 percent of the producers belong to cooperatives having at least 3 percent of the producers on the market compared to 70 percent belonging to cooperatives with 10 percent or more producers.

This modified procedure will assure broader producer representation on the Agency for the Indiana market and should therefore be adopted. With the present structure of producer membership in cooperatives on the market, this procedure will result in an Agency of 11 members, 10 being selected by cooperatives and one by nonmember producers.

Under the terms of the program as herein provided, the selection of cooperative representatives for the Agency will be entirely at the discretion of the cooperative(s). Each cooperative association authorized one or more representatives on the Agency shall notify the market administrator of the name and address of each representative selected who shall serve at the pleasure of the cooperative.

The market administrator will conduct a referendum annually to determine the representation on the Agency of participating nonmember producers and participating producer members of cooperative associations having less than the required percent of the producers participating in the program and not electing to combine membership for purposes of selecting Agency representation.

Within 30 days after the effective date of the amended order and annually thereafter, the market administrator shall give notice to all such producers (members and nonmembers) of their opportunity to nominate Agency members and shall specify the number of representatives that such nonmember and member producers together are authorized.

Following the closing dates for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall then conduct a referendum in which each individual producer (member or nonmember) shall have one vote.

Since cooperative associations may freely elect to combine or not combine for purposes of selecting Agency representation, it is provided in the case of a cooperative with less than the required percent of the participating producers that does not combine, that the balloting of its participating producer members shall be on an individual

V 37 ■ 72
APR 13 72
XUM

basis, the same as for nonmembers. This procedure will tend to promote equity among such members and nonmember producers in the selection of representation.

Election to Agency membership will be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes.

Each person selected for the Agency shall qualify by filing with the market administrator a written acceptance of his willingness and intention to serve in such capacity. It is anticipated that any eligible nominee included on the list, which the market administrator is required to circulate to the participating nonmember producers and certain participating member producers in the conduct of the referendum as discussed elsewhere in these findings, would advise the market administrator promptly if he were not willing to be a nominee. Notwithstanding, the possibility remains that a person elected to membership or so designated by a cooperative, is unable to, or may not wish to accept the position. This requirement, therefore, is necessary in order that the market administrator will know whether or not the position has been filled. Such acceptance should be filed promptly after notification in order that the formation of the Agency can be prompt.

Proponents proposed a geographic basis for apportioning the number of representatives among the participating nonmember producers and participating members of the smaller cooperatives (less than the required minimum percent of all participating producers) who elect not to combine.

With the procedure adopted herein, about 90 percent of the producers in each market would be represented by cooperatives. Thus, there would be only one Agency representative to be selected by referendum in the Indiana market and one or two in the Chicago market. Any provision for geographic division of producers for referendum purposes in this circumstance has little, if any, significance.

The term of office of each member of the Agency as herein adopted is 1 year, or until a replacement is designated by the cooperative association or is elected. This term of office is necessary because of the annual reapportionment of representation on the basis of producer participation in the program.

It is possible that an elected representative may leave the market or otherwise be unable to complete his term of office. It is desirable, therefore, that some procedure be provided for filling the vacancy. It is concluded appropriate in such circumstance that the market administrator appoint as his replacement the then currently participating producer who received the next highest number of eligible votes in the referendum.

Actions to be taken by the Agency are of such importance that a majority of representatives should be required to be present at any meeting to constitute a quorum, and any action taken by the Agency should require at least a majority of concurring votes of those present and voting. The provisions herein adopted so provide.

Proponents suggested that to insure a high degree of agreement on the actions of the Agency more than a simple majority approval would be appropriate. The Agency may wish to so provide in the rules of its conduct. With the program depending on voluntary participation, however, presumably the Agency will strive to reach general agreement among its members on its actions, irrespective of the percentage of approval set as being mandatory.

The Agency's duties set forth in the order are generally necessary for the discharge of its responsibilities. It is intended that activities undertaken by the Agency shall be confined to those reasonably necessary to carry out its responsibilities as prescribed under the program.

Congress clearly contemplated that producer activities under Public Law 91–670 would be under direct surveillance of the Secretary. It was specifically provided that "all funds collected under this subparagraph (I) shall be separately accounted for and shall be used only for the purposes for which they are collected."

It is essential, therefore, that the Agency prepare and submit to the Secretary for his approval, budgets showing projected amounts of available funds and how such funds are to be disbursed. Proponents proposed that budgets be prepared and submitted for approval on a quarterly basis. The Agency must be in a position to develop firm plans and make commitments covering a sufficient forward period to insure a continuing, viable program. A calendar quarter is concluded to be the minimum practical period for achieving this end, and it is provided, therefore, that a budget shall be submitted to the Secretary for his approval prior to each quarterly period.

All the possible promotion and other authorized project activities which the Agency may wish to pursue, cannot be anticipated at this time. Therefore, the authority for the Agency to establish programs and projects is purposely left broad and flexible to facilitate the timely development of such programs suitable to prevailing circumstances in the particular market.

Any promotion program or project the Agency may consider must comport with the terms and conditions of the order and be evaluated in terms of cost, the statutory objectives to be accomplished, the time required to complete the program or project and other such factors, in order to arrive at a sound decision as to whether the program or project is justified.

The required budget submissions will permit the Secretary to evaluate projected programs in terms of the declared policy of the Act and also will serve as policy guidelines for Agency members in the conduct of their operations for each ensuing quarterly period. This will be particularly helpful in the transition of Agency membership as the terms of office of individual members expire.

The Agency appropriately must follow prudent operating procedures in the furtherance of the best interests of producers. It is required therefore that it shall keep minutes of its meetings, and such other books and records as will clearly reflect all its transactions, and on request shall submit such books and records to the Secretary for his examination. It also shall provide for the bonding of all persons handling Agency funds with surety thereon satisfactory to the Secretary.

Proponents would have included specific terms that would require the Agency to publish annually an accounting of funds collected and the use made thereof, and to prepare and make available to producers, handlers, and consumers, statistics and information concerning the operation of the program. Since the activities of the Agency are under the direct supervision of the Secretary, it is not necessary to prescribe these additional requirements, as suggested by proponents.

The Agency presumably will keep producers on the market fully informed of its milk promotional plans, projects, and activities. Since most of the members on the Agency will represent cooperatives, it may be expected that they will keep their members informed of the activities of the Agency. The degree of producer participation in the program, and thus its relative success, will be dependent in large part upon the interest and confidence it generates among producers. In view of these considerations, it does not appear necessary to prescribe specific informational releases to producers and other parties.

It is possible that the Agency may find it desirable to enlist the aid of individuals with special talents who might be helpful in program and project planning by virtue of their particular knowledge, skills, or expertise on matters directly involved with the advertising and promotion programs. Provision is made, therefore, whereby the Agency, at its pleasure, may establish an advisory committee(s) of persons other than Agency members. Such a committee(s) may include, but would not necessarily be limited to, persons drawn from universities, land grant colleges, or extension services, public officials, and others in the dairy industry. Such committee(s) could make recommendations and participate in the deliberations of the Agency but would have no voting rights.

It would not be expected that the market administrator or his staff or other officials of the U.S. Department of Agriculture would serve on such a committee(s) since the activities of the Agency are under surveillance of the Department.

The Agency should be authorized to incur reasonable expenses in its administration of the program, including the employment and the fixing of compensation of any person necessary to the exercise of its powers and performance of its duties. For example, one full-time person might be needed to handle its record-

keeping and bookkeeping functions. The costs of office space also may be involved, or the Agency may find it necessary to retain the services of an attorney from time to time to assist in the preparation of contracts. Other Agency costs could be expected to involve miscellaneous office costs usually associated with a business office.

It is, of course, appropriate and necessary that Agency representatives be reimbursed for reasonable expenses incurred in attending meetings. This could involve the establishment by the Agency of per diem and mileage rates and would include expenses for meals and lodging. Proponents suggested that such expenses should be the responsibility of the individuals or of the organizations represented on the Agency. It would be unreasonable, however, to require a nonmember producer representative of the Agency to bear such expenses incurred in the interest of all producers on the market.

It was proposed, and it is here adopted, that the amount of money utilized by the Agency for its expenses in administering the program shall not exceed 5 percent of the funds received by the Agency from the market administrator. This establishes a reasonable limitation on Agency costs and assures producers that the funds collected from the pool will be expended primarily on advertising and promotion.

Because Agency members are handling funds otherwise payable to producers they should have assurance that they will not be personally liable for the impact of their official acts except for willful misconduct, gross negligence, or criminal acts.

To insure that Agency funds are used only for the purpose contemplated by the Congress, it also is provided that Agency funds shall not be used for political activity or for influencing governmental policy or action.

It is possible that at some later date producers could request termination of the program, or that such provisions could be terminated by the Secretary on a finding that they no longer tend to effectuate the purposes of the Act. For example, proponents suggested that this may be appropriate if producer participation in the program falls below a percentage needed to make the program successful.

In the event that the provisions of the advertising and promotion program are terminated in their entirety, any remaining uncommitted funds applicable thereto should revert to the producer-settlement fund for distribution to producers since such monies are derived solely from funds otherwise due producers.

Proponents suggested that the market administrator's expenses in connection with the advertising and promotion program be charged against the administrative fund derived from assessments on handlers. Such funds, however, should not be used for costs directly related to the administration of the advertising and promotion program. The program is sponsored by producers on a voluntary basis; therefore, any expenses attendant to its administration appropriately should be borne by producers.

The statutory authority under Public Law 91–670 supports this position and makes it clear that this is intended to be strictly a producer program. In part, the law states that "Establishing or providing for establishment of * * * programs * * *, to be financed by producers in a manner and at a rate specified in the order, on all producer milk under the order. * * * All funds collected under this subparagraph shall be separately accounted for and shall be used only for the purposes for which they were collected."

As adopted herein, all administrative costs associated with the program would be reimbursable to the market administrator from the advertising and promotion program funds before such funds are turned over to the Agency.

Public Law 91–670 provides that: "Notwithstanding any other provision of this Act, as amended, any producer against whose marketings any assessment is withheld or collected under the authority of this subparagraph, and who is not in favor of supporting the research and promotion programs, as provided for herein, shall have the right to demand and receive a refund of such assessment pursuant to the terms and conditions specified in the order."

As adopted herein, any producer desiring a refund on the assessments made against his marketings must submit to the market administrator his signed request in the form prescribed by the market administrator within the first 15 days of the month (December, March, June, or September) preceding the calendar quarter for which refund is requested.

Congress clearly intended that producers not wishing to participate in the promotion program could get their money refunded with no unnecessary impediments. It must be recognized, however, that there is necessarily a significant cost in making refunds and, in addition, that any promotion program could have only limited success unless the monies to be available for it are known in time to make firm forward plans and commitments.

Refunding on a quarterly basis, rather than on the basis of each monthly reporting period, will result in significant savings in administrative cost by reducing by eight the number of times each year the market adminstrator would be required to make refunds.

The quarterly refund procedure, together with the requirement that refund requests be made within the first 15 days of the month immediately preceding the calendar quarter, will enable the Agency to make quarterly budget estimates for each ensuing calendar quarter with reasonable assurance of the amount of money available for expenditure in that quarter.

As suggested by proponents, it will also be most appropriate that the initial assessment against marketings begin with a quarterly period following a month (December, March, June, or September) during which producers now on the market would have to follow the regular refund procedure. This would enable a reliable budget estimate for the first quarter of operation and facilitate the transition from current funding procedures to the funding procedure provided under the order.

The refund request procedure as proposed (e.g., a request filed with the market administrator during the first 15 days of the month preceding the beginning of each calendar quarter) could not accommodate new producers who might not wish to participate in the program during their first few months on the market. Therefore, until the initial quarter for which a new producer could comply with the regular refund request procedure, such producer should be granted a refund on his marketings upon proper application filed with the market administrator at any time prior to the next refund notification period.

Since the program is voluntary there is need for the market administrator to advise each producer promptly of the advertising and promotion program when effectuated and thereafter with respect to new producers. To insure that producers have an awareness of the program, it is provided that the market administrator shall accomplish such notification by forwarding to each producer a copy of the provisions establishing the advertising and promotion program.

Proponents recognized the possibility that the production units of some producers under the order could be in States that have mandatory checkoffs for similar advertising and promotion programs under State law. They held that in such circumstances a double assessment was not intended and that such producers appropriately should be refunded from the program under the Federal order an amount equal to such State assessment, but not in excess of the 5-cent assessment under this program. This procedure is provided for in the statute and should be adopted.

Proponents suggested that the order should permit the Agency to authorize producers the option to designate in writing the crediting of not more than 2 cents per hundredweight of milk marketed by such individual producers to a State or area unit of the American Dairy Association. Such procedure would involve significant administrative expense and thereby detract from one of the principal benefits of adopting an advertising and promotion program under the order—the elimination of setting aside advertising funds on the basis of individual producer accounts by making a single marketwide assessment in the computation of the uniform price. Moreover, the Agency has authority to decide the proportion of available program funds it wishes to use on programs of various units of the American Dairy Association or any other similar organization.

Proponents suggested that the order require a public listing of nonparticipating producers at any time such producers amount to as much as 10 percent of all producers on the market. They contend this is necessary for a proper evaluation

V 37-72 APR 13 72 XUM

of the operation and acceptance of the program. Since this is a voluntary program, there should be no provision for public listing or disclosure by the market administrator regarding the status of individual producers that possibly could cause embarrassment to a producer who elects not to be part of the program. It will be encumbent upon the participants, through their Agency, to conduct programs in a manner and of a nature to set the climate for maximum participation by producers.

To implement the advertising and promotion program appropriately, it is necessary that certain provisions of the current orders be modified. The procedure for computing the weighted average price must be modified by the addition of a new paragraph prescribing the deduction of an amount computed by multiplying by 5 cents the total hundredweight of producer milk. It is through this procedure that the advertising and promotion funds are reserved in the producer-settlement fund. This, of course, has the result of reducing the weighted average price by approximately 5 cents.

It also is necessary that appropriate corollary changes be made in order that the obligation of a partially regulated handler and the obligation of any handler with respect to other source milk allocated to Class I (on which the pool obligation is the difference between the Class I and weighted average price) will not be increased by 5 cents because of the change in the weighted average price.

It is recognized further that, unless otherwise provided for, an audit adjustment involving any handler's balance of payment to or from the producer-settlement fund could also require adjustments in the monies to be turned over to the program or refunded to producers, as the case may be. However, such adjustment normally would not involve sufficient volumes of milk to significantly affect the monies available to the program. For this reason and because of the substantial administrative costs that would be involved in reflecting audit adjustments in adjusted payments to the program, it is intended that such audit adjustments shall not result in adjustment of funds available to the program.

Other administrative provisions not hereinbefore specifically discussed are necessary and incidental to insure the proper functioning of the order to accommodate the promotion program as here established.

RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid tentative marketing agreements and orders:

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RULINGS ON EXCEPTIONS

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

MARKETING AGREEMENT AND ORDER

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the orders regulating the handling of milk in the aforesaid specified marketing areas, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the orders as hereby proposed to be amended by the attached order which is published with this decision.

REFERENDUM ORDER TO DETERMINE PRODUCER APPROVAL OF THE ADVERTISING AND PROMOTION PROGRAMS; DETERMINATION OF REPRESENTATIVE PERIOD; AND DESIGNATION OF REFERENDUM AGENTS

It is hereby directed that referenda be conducted and completed on or before the 30th day from the date this decision is issued, in accordance with the procedure for the conduct of referenda (7 CFR 900.300 et seq.), to determine whether the proposed advertising and promotion programs as specified in the attached orders as amended and as hereby proposed to be amended, regulating the handling of milk in each of the aforesaid specified marketing areas, are separately approved or favored by producers, as defined under the terms of each of the orders, as amended and as hereby proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the respective marketing areas.

The representative period for the conduct of such referenda is hereby determined to be January 1972.

The agents of the Secretary to conduct such referenda are hereby designated to be M. C. Jenkins (Indiana) and Ralph F. Mraz (Chicago Regional).

Signed at Washington, D.C., on: April 7, 1972.

RICHARD E. LYNG,
Acting Secretary.

Order[1] amending the orders regulating the handling of milk in certain specified marketing areas.

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid specified marketing areas.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in each of the specified marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the orders, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreements and order amending each of the orders contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on February 24, 1972, and published in the FEDERAL REGISTER on February 29, 1972, shall be and are the terms and provisions of this order, amending the orders, and are set forth in full herein.

PART 1030—MILK IN THE CHICAGO REGIONAL MARKETING AREA

1. In § 1030.60, paragraph (b)(5) is revised as follows:

§ 1030.60 Obligation of handler operating a partially regulated distributing plant.

• • • • • •

(b) • • •

(5) From the value of such milk at the Class I milk price (after deducting the location adjustment rate for the zone in which the nonpool plant is located) substract its value at the uniform price at the same location plus 5 cents or at the Class II price, whichever is higher and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

2. In § 1030.71, a new paragraph (d) is added as follows:

§ 1030.71 Computation of uniform price.

• • • • • •

(d) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

• • • • • •

3. In § 1030.84, paragraph (b)(2) is revised as follows:

§ 1030.84 Payments to the producer-settlement fund.

• • • • • •

(b) • • •

(2) The value at the uniform price applicable at the location of the plant from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1030.70 (e).

4. Immediately following § 1030.88, a new centerhead and new §§ 1030.100 through 1030.112 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1030.100 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1030.111 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1030.101 Composition of the Agency.

Each cooperative association or combination of cooperative associations as provided for under § 1030.103(b) with 1.5 percent or more of the total participating producers (producers who have not requested refunds for the most recent quarter) is authorized one Agency representative plus one additional Agency representative for each additional full 5 percent of the participating member producers it represents. Cooperative associations with less than 1.5 percent of the total participating producers that have elected not to combine pursuant to § 1030.103(b), and participating producers who are not members of cooperatives are authorized to select from such group, in total, one Agency representative for the first full 1.5 percent plus one additional Agency representative for each additional full 5 percent that such producers constitute of the total participating producers. For the purpose of the Agency's initial organization, all persons defined as producers shall be considered as participating producers.

§ 1030.102 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1030.103 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 1.5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1030.101 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 1.5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1030.104 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting unless the Agency determines that more than a simple majority shall be required.

§ 1030.105 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1030.100;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

APR 13 72
XUM

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1030.100 and 1030.107.

§ 1030.106 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1030.100 and 1030.107 of this part;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1030.107 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1030.108 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1030.111(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1030.109 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1030.110 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1030.111 Duties of the market administrator.

Except as specified in § 1030.106, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1030.103(c);

(b) Set aside the amounts subtracted under § 1030.71(d) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1030.71(d).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1030.110. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1030.71(d) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1030.100 through 1030.112).

(d) Audit the Agency's records of receipts and disbursements.

§ 1030.112 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1030.83.

PART 1049—MILK IN THE INDIANA MARKETING AREA

1. In § 1049.62, paragraph (a)(5) is revised as follows:

§ 1049.62 Obligations of a handler operating a partially regulated distributing plant.

* * * * *

(a) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents or the Class II price, whichever is greater, and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price;

* * * * *

2. In § 1049.71, a new paragraph (c–1) is added as follows:

§ 1049.71 Computation of uniform prices.

* * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * *

3. In § 1049.82, paragraph (b)(2) is revised as follows:

§ 1049.82 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1049.70(e).

4. Immediately following § 1049.88, a new centerhead and new §§ 1049.100 through 1049.112 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1049.100 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1049.111(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1049.101 Composition of the Agency.

Each cooperative association or combination of cooperative associations as provided for under § 1049.103(b) with 3 percent or more of the total participating producers (producers who have not requested refunds for the most recent quarter) is authorized one Agency representative plus one additional Agency representative for each additional full 10 percent of the participating member producers it represents. Cooperative associations with less than 3 percent of the total participating producers that have elected not to combine pursuant to § 1049.103(b), and participating producers who are not members of cooperatives are authorized to select from such group, in total, one Agency representative for the first full 3 percent plus one additional Agency representative for each additional full 10 percent that such producers constitute of the total participating producers. For the purpose of the Agency's initial organization, all persons defined as producers shall be considered as participating producers.

§ 1049.102 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1049.103 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 3 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1049.101 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 3 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1049.104 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1049.105 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1049.100;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1049.100 and 1049.107.

§ 1049.106 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1049.100 and 1049.107;

(c) Keep minutes, books, and records, and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1049.107 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the

V 37 • 72 APR 13 72 XUM

authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1049.108 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1049.111(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1049.109 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1049.110 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1049.111 Duties of the market administrator.

Except as specified in § 1049.106, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1049.103(c);

(b) Set aside the amounts subtracted under § 1049.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the adminstration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1049.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1049.110. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1049.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1049.100 through 1049.112).

(d) Audit the Agency's records of receipts and disbursements.

§ 1049.112 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1049.81.

MILK IN SOUTHERN MICHIGAN AND UPSTATE MICHIGAN MARKETING AREAS

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Notice is hereby given of a public hearing to be held at the Civic Center, 505 West Allegan Street, Lansing, MI, beginning at 9 a.m., local time, on May 4, 1972, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Southern Michigan and Upstate Michigan marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders, and for the purpose of determining (1) whether the handling of milk in the area proposed for regulation is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects interstate or foreign commerce; (2) whether there is need for a marketing agreement or order regulating the handling of milk in the proposed area or separate areas; and (3) whether provisions specified in the proposals or some other provisions appropriate under the terms of the Agricultural Marketing Agreement Act of 1937, as amended, will tend to effectuate the declared policy of the Act.

Issues raised by these proposals include whether the declared policy of the Act would tend to be effectuated by:

(a) Consolidation of the above marketing areas or appropriate modification of the separate orders; and

(b) The adoption of any of the proposed provisions, or appropriate modifications thereof, for separate orders or a combined order, including a review of the appropriate pricing and pooling structure of the orders whether separate or in combination. The issue of consolidation of marketing areas also raises the issue of the appropriate disposition of the producer-settlement funds, marketing service funds, and administrative funds accumulated under the Upstate Michigan order.

The proposed amendments set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY MICHIGAN MILK PRODUCERS ASSOCIATION

Proposal No. 1. Revise § 1040.6 by including the territory within the Upstate Michigan marketing area to read as follows:

§ 1040.6 Southern Michigan marketing area.

"Southern Michigan marketing area", hereinafter referred to as the "marketing area", means all territory geographically within the places listed below, together with all piers, docks, and wharves connected therewith and all craft moored thereat, and all territory wholly or partly therein occupied by Government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments.

Proposal No. 2. Add the following paragraphs to § 1040.10: Milk so diverted shall be subject to the following conditions:

(a) Not less than 6 days production of the producer must be physically received during the month at such pool distributing plant; and

(b) In any month of October through March, the quantity of milk of any producer diverted to nonpool plants that exceeds the quantity of such producer's milk physically received at pool plants, as measured by days of production, shall be deemed not to have been received by the diverting handler and shall not be producer milk. The diverting handler shall designate such deliveries to nonpool plants that are not producer milk pursuant to this paragraph. If the handler fails to make such designation, no milk diverted by him to nonpool plants shall be producer milk.

Proposal No. 3. Revise § 1040.12 to read as follows:

§ 1040.12 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means:

(1) Any of the following products in fluid or frozen form, including such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package) or reconstituted: Milk, skim milk, lowfat milk, milk drinks, eggnog, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids; and

(2) Any milk product in fluid or frozen form that is not specified in subparagraph (1) of this paragraph or in Class II or Class III, if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk or skim milk in plain or sweetened form, formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, and any product that contains by weight less than 6.5 percent nonfat milk solids; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

Proposal No. 4. Revise § 1040.40 to read as follows:

§ 1040.40 Classification of all skim milk and butterfat.

All skim milk and butterfat to be reported by a handler shall be classified each month in accordance with the following: If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids.

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product;

(2) In inventory at the end of the month of packaged fluid milk products; and

(3) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product;

(2) Used to produce:

(i) Yogurt, cottage cheese, creamed or partially creamed cottage cheese, sour cream, and any sour mixture of cream and milk or skim milk containing 9 percent or more butterfat; and

(ii) Any product containing 6 percent or more nonmilk fat (or oil) that resembles any product specified in paragraphs (a) and (b)(1) of this section; and

(3) In inventory at the end of the month of packaged fluid cream products.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese and creamed or partially creamed cottage cheese);

(ii) Butter, plastic cream, frozen cream, and anhydrous milkfat;

(iii) Any milk product in dry form;

(iv) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(v) Custards, puddings, and pancake mixes;

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers;

(vii) Evaporated or condensed milk or skim milk in plain or sweetened form that is in a consumer-type package, and any concentrated milk product in bulk, fluid form;

(viii) Any product containing 6 percent or more nonmilk fat (or oil) except those products specified in Class II; and

(ix) Any product that is not a fluid milk product and that is not specified in subparagraphs (1) through (8) of this paragraph or in Class II;

(2) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and at which there is no disposition of fluid milk products other than those received in consumer-type packages;

(i) In inventory at the end of the month of bulk fluid milk products and bulk fluid cream products;

(ii) In fluid milk products and products specified in Class II that are disposed of by a handler for animal feed;

(iii) In fluid milk products and products specified in Class II that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(iv) In skim milk represented by the nonfat milk solids added to a fluid milk product that is in excess of the quantity of such skim milk included within the fluid milk product definition pursuant to § 1040.12; and

(v) In shrinkage of:

(*a*) Skim milk and butterfat, respectively, computed pursuant to § 1040.42 (a) and (b); and

(*b*) Skim milk and butterfat, respectively, assigned pursuant to § 1040.42(d) (ii).

V 37-72 APR 13 72 XUM

Proposal No. 5. Revise § 1040.52 to read as follows:

§ 1040.52 Class II milk price.

The Class II price shall be the basic formula price for the month, plus 20 cents.

PROPOSED BY MCDONALD COOPERATIVE DAIRY COMPANY

Proposal No. 6. Revise § 1040.10 to read as follows:

§ 1040.10 Producer milk.

"Producer milk" means all skim milk and butterfat contained in milk received from producers at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1040.7 (c) and (d) and that diverted to a nonpool plant by the operator of a pool plant, except milk which is subject to pooling under another Federal order: *Provided,* The following conditions will apply to milk of a producer diverted from a pool plant to a nonpool plant that is not a producer-handler plant:

(a) Not less than 6 days production of the producer must be physically received during the month at such pool plants;

(b) In any month of October through March the quantity of milk of any producer diverted to nonpool plants that exceeds the quantity of such producer's milk physically received at pool plants, as measured by days of production shall be deemed not to have been received by the diverted handler and shall not be producer milk. The diverting handler shall designate such deliveries to nonpool plants that are not producer milk pursuant to this paragraph. If the handler fails to make such designation, no milk diverted by him to nonpool plants shall be producer milk.

Proposal No. 7. Revise § 1040.12 to read as follows:

§ 1040.12 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means:

(1) Any of the following products in fluid or frozen form, including such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package) or reconstituted: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids; and

(2) Any milk product in fluid or frozen form that is not specified in subparagraph (1) of this paragraph or in §§ 1040.41(b) or 1040.41(c)(1) (i) through (viii) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Eggnog and eggnog flavored drinks;

(2) Evaporated or condensed milk or skim milk in plain or sweetened form, formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, and any product that contains by weight less than 6.5 percent nonfat milk solids; and

(3) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

Proposal No. 8. Revise § 1040.41 to read as follows:

§ 1040.41 Classes of utilization.

(a) Class I milk shall be all skim milk and butterfat; except as provided in §§ 1040.41(c), 1040.43, and 1040.44:

(1) Disposed of in the form of a fluid milk product;

(2) In inventory at the end of the month of packaged fluid milk products; and

(3) Not specifically accounted for as Class II or Class III milk.

(b) Class II milk shall be all skim milk and butterfat, except as provided in §§ 1040.41(c), 1040.43, and 1040.44:

(1) Disposed of in the form of a fluid cream product, eggnog and eggnog flavored drinks;

(2) Used to produce:

(i) Yogurt, cottage cheese, creamed or partially creamed cottage cheese, sour cream and any sour mixture of cream and milk or skim milk containing 9 percent or more butterfat; and

(ii) Any product containing 6 percent or more nonmilk fat (or oil) that resembles any product specified in paragraphs (1) and (2)(i) of this section; and

(3) In inventory at the end of the month of packaged fluid cream products;

(c) Class III milk shall be all skim milk and butterfat except as provided in §§ 1040.43 and 1040.44:

(1) Used to produce:

(i) Cheese (other than cottage cheese and creamed or partially creamed cottage cheese);

(ii) Butter, plastic cream, frozen cream, and anhydrous milkfat;

(iii) Any milk product in dry form;

(iv) Milk shake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(v) Custards, puddings, and pancake mixes;

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers;

(vii) Evaporated or condensed milk or skim milk in plain or sweetened form that is in a consumer-type package, and any concentrated milk product in bulk, fluid form;

(viii) Any product containing 6 percent or more nonmilk fat (or oil) except those products specified in § 1040.41(b); and

(ix) Any product that is not a fluid milk product and that is not specified in subdivisions (i) through (viii) of this subparagraph or paragraph (b) of this section; and

(2) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and at which there is no disposition of fluid milk products other than those received in consumer-type packages;

(3) In inventory at the end of the month of bulk fluid milk products and fluid cream products;

(4) In fluid milk products and products specified in paragraph (b) of this section that are disposed of by a handler for animal feed;

(5) Skim milk in fluid milk products and products specified in paragraph (b) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(6) In skim milk represented by the nonfat milk solids added to a fluid milk product that is in excess of the quantity of such skim milk included within the fluid milk product definition pursuant to § 1040.12; and

(7) In shrinkage that is:

(i) Assigned pursuant to § 1040.42(d)(ii); and

(ii) Computed pursuant to § 1040.42(a) and (b).

Proposal No. 9. Revise § 1040.52 to read as follows:

§ 1040.52 Class II milk price.

The Class II price shall be the Class III price for the month plus 20 cents.

Proposal No. 10. In § 1040.54(b), revise the first sentence to read as follows:

(b) For fluid milk products transferred in bulk from a pool plant to a pool plant described in § 1040.16(a), the operator of the transferee plant shall receive credit at the applicable zone or mileage rate based on the location of the transferor plant less the location zone rate of the transferee plant.

PROPOSED BY MICHIGAN MILK PRODUCERS ASSOCIATION AND MCDONALD COOPERATIVE DAIRY COMPANY

Proposal No. 11. In §§ 1040.8, 1040.14, and 1040.15, substitute "regulatory agency" for "health authority" wherever it appears therein.

Proposal No. 12. Add a new § 1040.12a to read as follows:

§ 1040.12a Fluid cream product.

"Fluid cream product" means cream or a mixture of cream and milk or skim milk containing 9 percent or more butterfat.

Proposal No. 13. Add a new § 1040.13a to read as follows:

§ 1040.13a Plant.

(a) Except as provided in paragraph (b) of this section, "plant" means the land and buildings, together with their surroundings, facilities, and equipment, constituting a single operating unit or establishment which contains stationary holding facilities and which is operated for the bulk handling or processing of milk or milk products (including filled milk).

(b) The term "plant" shall not include distribution points (separate facilities used primarily for the transfer to vehicles of packaged fluid milk products moved there from processing and packaging plants) or bulk reload points (separate facilities at which milk moved from a farm in a tank truck is transferred to another tank truck and commingled with other milk before entering a plant). If a distribution point or bulk reload point is on the premises of a plant, it shall be considered a part of the plant operation.

Proposal No. 14. In § 1040.71, revise paragraphs (b)(2) and (b)(3) and add a new paragraph (c)(3) to read as follows:

§ 1040.71 Application of bases.

* * * * * * *

(b) * * *

(2) Two or more producers with bases may combine those bases upon the formation of a bona fide partnership which must define the financial invested interest, financial and management responsibility, division of income and expenses, and sharing of profits or losses.

(3) Bases may be held jointly through the formation of a bona fide partnership provided such base was established by the partnership in accordance with § 1040.70(a) and if such partnership is terminated the base may be divided among the partners as specified in writing to the market administrator.

(c) * * *

(3) A producer who is quarantined from the market by evidence of pesticide or herbicide residue in his milk supply as evidenced by Federal or State authority.

PROPOSED BY DETROIT MILK DEALERS, INC.

Proposal No. 15. Make whatever changes are necessary in the Southern Michigan order to classify yogurt as a Class III product.

Proposal No. 16. Make whatever changes are necessary in the Southern Michigan order to classify the following as Class II products: Cream (exclusive of frozen and sour cream) and any mixture in fluid form of cream and milk or skim milk (except storage cream, aerated cream products, ice cream mix, evaporated or condensed milk and sterilized products in hermetically sealed containers).

Proposal No. 17. In § 1040.81(a), delete subparagraphs (2) and (3).

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

Proposal No. 18. Make whatever changes are necessary in each order to eliminate the possibility of a handler being charged under the order for milk that already has been classified and priced as Class I milk under a Federal order.

Proposal No. 19. Make whatever changes are necessary in each order to provide that the Class I price for other source milk, when adjusted for location of the shipping plant, shall not be less than the Class III price.

Proposal No. 20. Revise the format of order provisions in each order to provide for a more appropriate and simplified arrangement.

Proposal No. 21. Revise the Southern Michigan order to exclude in computing the pool value the reports of handlers who have not filed such report on time or who have not paid for the previous month their obligation to the producer-settlement fund.

Proposal No. 22. Revise the equivalent price provision in each order to read as follows:

Equivalent price.

If for any reason a price or pricing constituent required in this part for computing class prices or for other purposes is not available in the manner described in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Proposal No. 23. Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, C. T. McCleery, 2684 West Eleven Mile Road, Berkley, MI 48072, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on April 7, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[Docket No. AO-243-A24]

MILK IN CENTRAL ARKANSAS MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held at the Sheraton-Little Rock, 601 East Seventh, Little Rock, AR, beginning at 9:30 a.m., with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the central Arkansas marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY BORDEN, INC.; COLEMAN DAIRY, INC.; CEDAR GROVE DAIRY; DEAN FOODS CO.; SEALTEST FOODS, DIVISION OF KRAFTCO CORP.; AND THE SOUTHLAND CORP.; PROPOSAL NO. 1

Amend paragraph (a) of § 1108.53 of the Central Arkansas Milk Market Order by striking the present provisions therein and replacing with the following:

(a) Except for milk received from producers at a pool plant located within one of the Arkansas counties of Randolph, Clay, Lawrence, Greene, Craighead, Poinsett and Mississippi, or within one of the Missouri counties of Dunklin and Pemiscot, for milk received from producers at a pool plant located more than 60 miles by shortest highway distance as measured by the market administrator, from the nearer of the county courthouse in Arkadelphia, Ark., the State Capitol in Little Rock, Ark., or the city hall in Memphis, Tenn., which Class I location adjustment credit pursuant to paragraph (b) of this section is classified as Class I milk or assigned and for other source milk to which a location adjustment is applicable, the price computed pursuant to § 1108.51(a) shall be reduced at the rate of 1.5 cents for each 10 miles or fraction thereof that such plant is from the respective buildings designated above; for milk received from producers at a pool plant located within one of said nine counties which is classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section and for other source milk to which a location adjustment is applicable, the price computed pursuant to § 1108.51(a) shall be reduced 9 cents; and

PROPOSED BY THE DAIRY DIVISION, CONSUMER AND MARKETING SERVICE: PROPOSAL NO. 2

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, Post Office Box 4225, Asher Avenue Station, Little Rock, AR 72204, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on April 10, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

FEDERAL REGISTER, VOL. 37, NO. 72—THURSDAY, APRIL 13, 1972

V 37-72 APR 13 72 XUM

[7 CFR Part 1127]

MILK IN SAN ANTONIO, TEX., MARKETING AREA

Notice of Proposed Suspension of Certain Provision of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provision of the order regulating the handling of milk in the San Antonio, Tex., marketing area is being considered.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112–A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The provision proposed to be suspended is as follows:

In § 1127.11(b) the language "nor shall it include a dairy farmer during the months of March through June, if milk from the same dairy farmer (or farm) was received at a nonpool plant operated by the same handler, as other than producer milk, on more than half the days of delivery during the preceding months of July through February."

The proposed action would suspend the provision which excludes from "producer" status during the months of March through June any dairy farmer who delivers milk to a handler if he delivered more than one-half of his milk, as other than producer milk, to a nonpool plant operated by the same handler during the preceding months of July through February.

Associated Milk Producers, Inc., requested the suspension. This cooperative association, representing a large proportion of the producers on this market, states that the proposed suspension would allow needed flexibility in the efficient movement of the milk of several daily farmer members who are affected by this provision. During an earlier period these members were producers under the order by delivering their milk to pool plants under the San Antonio order. However, during the July 1971–February 1972 period over one-half of their milk was delivered to a nonpool plant as other than producer milk. Now, they have resumed delivery to pool plants on bulk tank routes in conjunction with milk of other dairy farmers who are producers under the San Antonio order. The cooperative association claims that rerouting of bulk tank pickups to separate the milk of these producers for delivery to a nonpool plant is infeasible. By allowing these dairy farmers to qualify as producers under the San Antonio, Tex., order it is contended that considerable savings and efficiency in the movement of milk can be obtained.

Signed at Washington, D.C., on April 7, 1972.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

Agricultural Stabilization and Conservation Service

[7 CFR Part 711]

MARKETING QUOTA REVIEW REGULATIONS

Proposed Establishment of Areas of Venue

Notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), the Department proposes to amend the marketing quota review regulations.

The purpose of this amendment is to revise certain areas of venue established by State committees as previously published in the FEDERAL REGISTER of October 2 and 16, 1970 (35 F.R. 15355, 16235).

Prior to issuance of this amendment, any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Commodity Stabilization Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, will be given consideration provided such submissions are postmarked not later than 30 days from date of publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

It is proposed that Part 711—Marketing Quota Review Regulations (35 F.R. 15355), § 711.29—*Establishment of areas of venue*, be amended by revising the areas of venue for the States of Alabama and Georgia to read as follows:

ALABAMA

Counties of:

Area I—Blount, Calhoun, Cherokee, Clay, Cleburne, Colbert, Cullman, De Kalb, Etowah, Fayette, Franklin, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Madison, Marion, Marshall, Morgan, Randolph, St. Clair, Talladega, Walker, Winston.

Area II—Autauga, Baldwin, Bibb, Chilton, Choctaw, Clarke, Conecuh, Dallas, Escambia, Greene, Hale, Marengo, Mobile, Monroe, Perry, Pickens, Shelby, Sumter, Tuscaloosa, Washington, Wilcox.

Area III—Barbour, Bullock, Butler, Chambers, Coffee, Coosa, Covington, Crenshaw, Dale, Elmore, Geneva, Henry, Houston, Lee, Lowndes, Macon, Montgomery, Pike, Russell, Tallapoosa.

GEORGIA

Counties of:

Area I—Bartow, Butts, Carroll, Catoosa, Chattooga, Cherokee, Clayton, Cobb, Coweta, Dade, Dawson, De Kalb, Douglas, Fannin, Fayette, Floyd, Forsyth, Fulton, Gilmer, Gordon, Haralson, Heard, Henry, Jasper, Lumpkin, Murray, Newton, Paulding, Pickens, Polk, Rockdale, Spalding, Towns, Union, Walker, Whitfield.

Area II—Baldwin, Banks, Barrow, Burke, Clarke, Columbia, Elbert, Franklin, Glascock, Greene, Gwinnett, Habersham, Hall, Hancock, Hart, Jackson, Jefferson, Johnson, Lincoln, McDuffie, Madison, Morgan, Oconee, Oglethorpe, Putnam, Rabun, Richmond, Stephens, Taliaferro, Walton, Warren, Washington, White, Wilkes.

Area III—Bibb, Bleckley, Chattahoochee, Crawford, Crisp, Dodge, Dooly, Harris, Houston, Jones, Lamar, Laurens, Macon, Marion, Meriwether, Monroe, Muscogee, Peach, Pike, Pulaski, Schley, Stewart, Sumter, Talbot, Taylor, Troup, Twiggs, Upson, Webster, Wilcox, Wilkinson.

Area IV—Baker, Ben Hill, Berrien, Brooks, Calhoun, Clay, Colquitt, Cook, Decatur, Dougherty, Early, Grady, Irwin, Lee, Miller, Mitchell, Quitman, Randolph, Seminole, Terrell, Thomas, Tift, Turner, Worth.

Area V—Appling, Atkinson, Bacon, Brantley, Bryan, Bulloch, Camden, Candler, Charlton, Chatham, Clinch, Coffee, Echols, Effingham, Emanuel, Evans, Glynn, Jeff Davis, Jenkins, Lanier, Liberty, Long, Lowndes, McIntosh, Montgomery, Pierce, Screven, Tattnall, Telfair, Toombs, Treutlen, Ware, Wayne, Wheeler.

Signed at Washington, D.C., on April 7, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71-RM-32]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Helena, Mont., control zone and transition area.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, Post Office Box 7213, Denver, CO 80207. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10255 East 25th Avenue, Aurora, CO 80010.

The airspace requirements for Helena, Mont., have been reviewed in accordance with the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). As a result of the review, it has been determined that the control zone and transition area must be altered to provide controlled airspace protection for the instrument procedures.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (37 F.R. 2056) the following control zone is amended to read as follows:

HELENA, MONT.

Within a 5-mile-radius of Helena County-City Airport (latitude 46°36'27'' N., longitude 111°58'45'' W.); within 2½ miles each side of the Helena VORTAC 102° radial extending from the 5-mile-radius zone to 4½ miles east of the VORTAC.

In § 71.181 (37 F.R. 2143) the following transition area is amended to read as follows:

HELENA, MONT.

That airspace extending upward from 700 feet above the surface within a 16½-mile radius of the Helena VORTAC (latitude 46°-36'25'' N., longitude 111°57'09'' W.), extending from the Helena VORTAC 352° radial clockwise to the 191° radial; and that airspace extending upward from 1,200 feet above the surface within a 21-mile radius of the Helena VORTAC, extending from the Helena VORTAC 272° radial clockwise to the Helena VORTAC 191° radial; within 6 miles south and 9½ miles north of the Helena VORTAC 102° radial, extending from the 21-mile-radius area to 23 miles east of the VORTAC; within 6 miles south and 9 miles north of the Helena VORTAC 272° radial, extending from the VORTAC to 45 miles west of the VORTAC; within 5 miles east and 9 miles west of the Helena VORTAC 023° radial, extending from the 21-mile-radius area to 36 miles northeast of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colo., on April 5, 1972.

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.72-5607 Filed 4-12-72;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 72-WE-15]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Los Angeles, Calif., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

A localizer course will be commissioned at Torrance Municipal Airport, Calif., on or about July 20, 1972. The localizer will be aligned at 293° M (308° T) and an instrument approach procedure will be published coincidental with the commissioning date of the facility. In order to provide for more efficient utilization of airspace a small amount of additional 700-foot transition will provide controlled airspace protection for a lower minimum radar vectoring altitude.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (37 F.R. 2143) the description of the 700-foot portion of the Los Angeles, Calif., transition area is amended as follows:

Beginning in the 6th line of the text delete all between "• • • longitude 117°45'00'' W., • • •" and "• • • that airspace extending upward from 1,200 feet • • •" and substitute therefor "• • • to latitude 33°42'00'' N., longitude 118°09'00'' W., to latitude 33°42'00'' N., longitude 118°26'00'' W., to latitude 33°48'00'' N., longitude 118°26'00'' W., to latitude 33°53'00'' N., longitude 118°-33'00'' W., thence to point of beginning; • • •"

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on April 4, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

[FR Doc.72-5608 Filed 4-12-72;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 72-SO-30]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Macon, Ga., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Macon transition area described in § 71.181 (37 F.R. 2143) would be amended as follows:

"• • • within 3 miles each side of Macon ILS localizer southwest course, extending from the 14-mile radius area to 8.5 miles southwest of the LOM • • •" would be deleted and "• • • within 4 miles each side of Macon ILS localizer southwest course, extending from the 14-mile radius area to 14 miles southwest of the LOM • • •" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR aircraft executing the proposed revised Military ILS 3 Runway 5 Standard Instrument Approach Procedure to Lewis B. Wilson Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on April 4, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-5609 Filed 4-12-72;8:47 am]

V 37-72
APR 13 72

Office of the Secretary

[49 CFR Part 71]

[OST Docket No. 30; Notice 72-1]

EASTERN-CENTRAL STANDARD TIME ZONE BOUNDARY IN THE STATE OF FLORIDA

Proposed Relocation

Five members of the Florida Legislature have petitioned the Department of Transportation to amend the "Standard Time Zone Boundaries" regulation in Part 71 of the Code of Federal Regulations, to modify the boundary between the eastern and central time zones as it relates to the State of Florida. The petitioners constitute the entire Florida Legislature delegation from the area that would be directly affected by the proposed relocation.

Section 71.5(f) of Title 49, Code of Federal Regulations, now describes the present boundary between the eastern and central zones in the State of Florida as follows:

> From the southwest corner of the State of Georgia to the midpoint of the Apalachicola River on the downstream side of Jim Woodruff Dam; thence southerly along the middle of the main channel of the Apalachicola River and Apalachicola Bay to the Gulf of Mexico.

In addition, § 71.5(h) provides in part that the community of Apalachicola, Fla., which is west of the Apalachicola River, is in the eastern time zone. The existing boundary separating the eastern and central time zones thus puts all of Gulf County and the portion of Franklin County (less the community of Apalachicola) that is west of the river in the central time zone.

Notwithstanding the existing location of the time zone boundary which dates back to the original 1918 time zone boundary order of the Interstate Commerce Commission, an area of some 150 square miles lying west of the Apalachicola River and adjacent to the Gulf of Mexico has always observed eastern time. This area makes up all of that portion of Franklin County west of the river and the coastal region of Gulf County including the community of Port St. Joe.

The petition, in effect, asks that the time zone boundary be relocated to conform with the local pattern of time observance. In support of their request the petitioners point out that the existence of an official boundary and a different popular boundary is "a source of consternation to the people affected, and particularly to those whose businesses are in commerce within the meaning of the Federal laws" and that in their opinion "all of those persons concerned would be well served if (the Secretary of Transportation) would effect a change recognizing the popularly observed line".

Under the Time Act originally enacted in 1918 (15 U.S.C. 261), as amended by the Uniform Time Act of 1966 (15 U.S.C. 260 et seq.), the Secretary of Transportation is authorized to modify the limits of time zones having regard to "the convenience of commerce and the existing junction points and division points of common carriers engaged in interstate and foreign commerce".

In consideration of the foregoing, the Department proposes to amend paragraphs (f) and (h) of § 71.5 of Title 49 of the Code of Federal Regulations to read as follows:

> § 71.5 Boundary line between eastern and central zones.
>
> . . . . . .
>
> (f) *Florida.* From the southwest corner of the State of Georgia to the midpoint of the Apalachicola River on the downstream side of Jim Woodruff Dam; thence southerly along the middle of the main channel of the Apalachicola River to its intersection with the Jackson River; thence westerly along the center of the Jackson River to its intersection with the Intracoastal Waterway; thence westerly along the center of the Intracoastal Waterway to the west line of Gulf County; thence southerly along the west line of Gulf County to the Gulf of Mexico.
>
> . . . . . .
>
> (h) *Municipalities on boundary line.* All municipalities located upon the zone boundary line described in this section are in the central standard time zone.

Before taking final action to adopt, deny, or modify the proposed boundary which the petition requests, the Secretary of Transportation will consider the timely comments of all interested persons. Communications should identify the regulatory docket or notice number (see above) and be submitted to the Docket Clerk, Office of the General Counsel, Department of Transportation, 400 Seventh Street SW., Washington, DC 20590.

Communications received on or before May 30, 1972, will be considered before final action is taken on the petition. All docketed comments will be available for examination by interested persons both before and after the closing date for comments.

This proceeding does not concern adherence to or exemption from advanced (daylight saving) time. The Uniform Time Act of 1966 requires observance of advanced time within each established time zone from 2 a.m. on the last Sunday in April to 2 a.m. on the last Sunday in October of each year, but permits any State to exempt itself from this requirement by law applicable to the entire State. A State that is split between two time zones may exempt the entire area within a time zone without exempting the entire State.

This proposal is issued under the authority of the Act of March 19, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260–267), section 6(c)(5) of the Department of Transportation Act (49 U.S.C. 1655(e)(5)), and § 1.59(a) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.59(a)).

Issued in Washington, D.C., on April 7, 1972.

JOHN W. BARNUM,
General Counsel.

CIVIL AERONAUTICS BOARD

[14 CFR Part 221]

[Docket No. 24328; EDR-222A]

AIR CARRIERS AND FOREIGN AIR CARRIERS

Supplemental Proposed Requirements for Construction, Publication, Filing Summaries and Posting of Tariff Changes

The Board, by circulation of notice of rule making EDR-222, dated March 17, 1972, and published at 37 F.R. 5964, gave notice that it had under consideration proposed amendments to Part 221 of its Economic Regulations (14 CFR Part 221). These proposals would prescribe requirements for the displaying and filing of summaries of proposed changes in tariffs and would modify the posting requirement in § 221.171 with regard to where tariffs must be posted. Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before April 21, 1972.

By letter dated April 5, 1972, the Air Transport Association (ATA) on behalf of 22 scheduled air carriers requested an extension of time to June 21, 1972, for filing comments. ATA contends, among other things, that in view of the importance of the proposed rule carrier discussions are necessary to aid in formulating a rule acceptable to everyone, and that additional time is needed to study the proposal, consider the practical and financial ramifications, and to prepare meaningful comments.

The undersigned finds that good cause has been shown for an extension of time for filing comments, but that an extension beyond May 22, 1972, is not warranted and would not be conducive to the proper dispatch of the Board's business. An extension to May 22 will provide a total of 65 days for the filing of comments, a period which should be ample for ATA and the carriers it represents in this matter.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's Organization Regulations, the undersigned hereby extends the time for submitting comments to May 22, 1972.

Dated: April 7, 1972.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

[SEAL] ARTHUR H. SIMMS,
Associate General Counsel, Rules and Rates.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-441]

NEW PRODUCER SALES OF NATURAL GAS

Proposal and Statement of Policy Regarding Optional Certificating Procedures

APRIL 6, 1972.

1. Pursuant to 5 U.S.C. 551, et seq. Supp. V (1967) and sections 4, 5, 7, 8, 15, and 16 of the Natural Gas Act (52 Stat. 822, 823, 824, 825, 829, 830; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f, 717g, 717n, 717o), the Commission gives notice that it will consider adopting rules and regulations providing an alternate method under which it will consider the issuance of permanent certificates for, and will otherwise regulate, new sales of natural gas subject to the Commission's jurisdiction. Current procedures for issuing permanent certificates for new sales of natural gas are:

(A) Pursuant to area rate orders [1] or, in the alternative

(B) Pursuant to special certification procedures [2]

[1] Area rate orders:

Nothing herein is intended to supersede the procedures set forth in A, supra. If adopted, with or without modification, the alternate method proposed herein would supplement the procedures set forth in B, supra. Nothing in this notice shall affect any certificate or proceeding completed, pending, or hereinafter initiated pursuant to (A) or (B), supra, or affect the operation of Orders 402, 402A (18 CFR 2.68, May 6, 1970 and June 3, 1970), or our regulations, §§ 157.22 and 157.29.

2. Jurisdictional pipelines are presently unable to procure contracts for new supplies of gas, on a spot or long-term basis, in sufficient quantities to insure that consumers of natural gas will receive a reliable and adequate supply of gas. Interstate pipelines are unable, in many instances, to provide service to new customers, and some major interstate pipelines are, at this time, being forced to curtail deliveries of natural gas below their contractual commitment and are unable to supply the quantities requested by their customers because of insufficient supplies. Such disruptions of service create an intolerable situation for human needs customers dependent on the interstate pipelines. Prolonged curtailment of industrial sales of natural gas until industry can switch to alternate fuels, and continued nonexpansability of gas utility service, will inevitably have a repressive effect on the productivity of the Nation's economy. On the basis of certificate filings, at the present time, supplemental supplies of natural gas from foreign imports or nonconventional sources have been offered only at high cost to the consuming public.

3. The recent report on "National Supply and Demand 1971–1990," prepared by the Federal Power Commission's Bureau of Natural Gas (BNG) shows the level of "unsatisfied demand" for gas increasing from 3.6 trillion cubic feet in 1975 to 9.5 trillion cubic feet in 1980, 13.7 trillion cubic feet in 1985 and 17.1 trillion cubic feet in 1990.[3] Additionally, it is estimated that between 1971 and 1990, the United States will require 186.4 trillion cubic feet more gas than will be available, even after making liberal allowances for pipeline imports, liquefied natural gas imports, coal gas, Alaskan gas and reformed gas.[4]

4. The Future Requirements Committee (FRC) estimates that the natural gas requirements for the United States will increase from about 28.2 trillion cubic feet in 1971 to 33.9 trillion cubic feet in 1975.[5] Based on information concerning presently contracted or reasonably assured supplies, the FRC estimates that the gap between the potential demand for gas and the most likely available supply will increase from 0.9 trillion cubic feet in 1971 to 3.9 trillion cubic feet in 1975.[6]

5. The assurance of adequate supplies of natural gas can mitigate the damage being done to the Nation's environment. Natural gas is by far the cleanest burning and least polluting of all the fossil fuels.

6. Any further aggravation of the gas supply problem also portends grave implications for the Nation's economic objectives. Between 1947 and 1970, the nation increased its annual consumption of energy from 32.9 quadrillion B.t.u. to 68.8 quadrillion B.t.u. with the share of the total being contributed by natural gas increasing from 13.8 percent in 1947 to 32.5 percent in 1970.[7] During this period, the nation's real output of goods and services more than doubled and its real income per capita increased by about one-half. It is inescapable that the continued growth and productivity of the U.S. economy requires adequate and reliable supplies of energy, including adequate and reliable supplies of natural gas.

7. Moreover, the "lowest reasonable cost to the consumer" can only be eroded if the nation is forced to satisfy its requirements for gas (1) through increased reliance on new substitute supplies of gas, or (2) through the increased use of other fossil fuels. In the case of number (1) above, all information available to the Commission indicates that the new base load supplies of substitute gas will be available to consumers only at costs significantly higher than the prices of currently available domestic well head supplies. In the case of (2) above, the price per B.t.u. for many primary fuels is greater than the price per B.t.u. for natural gas. This comparison is especially unfavorable to the alternative fossil fuels when the costs of storage, handling, and pollution control are included. In summary, when the gas shortage forces consumers of natural gas to satisfy their energy requirements by using either substitute gas supplies, e.g., imported liquefied natural gas, propane, reformed hydrocarbons, gasified coal, imported natural gas, or other fossil fuels, the net effect is higher energy costs throughout the economy, with resulting inflationary pressures.

8. Based on a careful and comprehensive evaluation of all facts and information available, the Commission herein proposes to adopt an optional certificate

procedure, as hereinafter detailed, for new producer sales of natural gas, in order to provide an alternate method to stimulate and accelerate domestic exploration and development of our natural gas reserves. Herein we propose this alternate procedure designed to assure the interstate consumers of natural gas, and the Nation as a whole, an adequate and reliable supply of natural gas at the lowest reasonable cost.

9. We are hereby proposing to amend our general rules of practice and procedure to insert § 2.75, *Optional procedure for certificating new producer sales of natural gas*, in Part 2, General Policy and Interpretations, Subchapter A, Chapter 1, Title 18 of the Code of Federal Regulations.

10. The new § 2.75 reads as follows:

§ 2.75 Optional procedure for certificating new producer sales of natural gas.

(a) Notwithstanding any other provisions in the general rules of practice and procedure of the Federal Power Commission, or the regulations under the Natural Gas Act of the Federal Power Commission, applications for certification of future sales of natural gas produced within the United States may, at the option of the signatory parties to sales contracts, be submitted in accordance with the provision of this section. To the extent that any Federal Power Commission general rules of practice and procedure or regulations under the Natural Gas Act are inconsistent herewith, the same are hereby amended to permit the optional procedure herein set forth.

(b) The provisions of this section shall be available if each of the following conditions exists:

(1) A contract covering the sales of natural gas in interstate commerce has been executed on or after April 6, 1972;

(2) All parties to such contract agree to the submission of the same for certification in accord with the provisions for this section;

(3) The purchaser under such contract is a jurisdictional pipeline which, as of the date of the contract in question, has a deliverability life on its entire system, considered as a whole, of less than 12 years; deliverability life as used herein is defined in § 2.61 of this chapter;

(4) The seller under such contract establishes that he has discharged, or is prepared by specific plan or program to discharge, all obligations (such as refunds) prescribed by prior orders or opinions of this Commission: *Provided, however,* That any such seller may make the showing here required without prejudice to his claim in any case now pending on judicial review that such obligations were unlawfully imposed by the Commission;

(5) The acreage covered by the contract offered for certification has not been previously dedicated to the interstate market (unless abandonment has been previously granted), nor has an application been previously filed with the Commission for certification of the sale of gas from such acreage: *Provided,* That nothing herein shall preclude certification of contracts covering acreage from which sales have been certificated pursuant to special certification procedures under R–389 (35 F.R. 10152), R–389–A (35 F.R. 11638), or Order 431 (36 F.R. 7505).

(c) If all of foregoing conditions precedent exist, the signatory parties to the contract may tender the same to the Commission and request the issuance of a certificate of public convenience and necessity to the seller for sales of natural gas thereunder. The application shall certify that all parties to the contract desire certification in accordance with the terms and provisions of this section, that the seller expressly agree to the waivers and elections hereinafter provided for in sub-sections m and o of this section, and that all conditions precedent as set forth in paragraph (b) of this section are met.

(d) Certificates of public convenience and necessity issued and accepted under this section shall not be subject to change by determinations or orders in area rate proceedings or pipeline rate proceedings whether heretofore made or hereafter to be made, and orders issued hereunder shall not constitute establishment of an area rate.

(e) Applications presented hereunder will be considered for permanent certification, either with or without pregranted abandonment, notwithstanding that the contract rate may be in excess of an area ceiling rate established in a prior opinion or order of this Commission.

(f) No contract shall be accepted for filing if it includes any type of indefinite pricing clause, including but not limited to a "favored nation clause," a "price redetermination clause," or a "special escalation clause".

(g) A seller-applicant under this section shall state the ground for claiming that the present or future public convenience and necessity require issuance of a certificate on the terms proposed in the application, and shall provide factual support for such claims. The application shall contain a contract summary as prescribed in § 250.5 of our regulations under the Natural Gas Act.

(h) The purchaser under a contract filed under this section shall certify that the present or future public convenience and necessity require issuance of a certificate to the seller, and shall provide information in support of such certification with respect to the purchaser's (1) system-wide supply, (2) present and estimated 3-year peak day and average day demands, (3) present and estimated 3-year requirements of customers on its system, (4) deliverability life, (5) implementation, if any of curtailment plans, (6) emergency purchases of gas under Order 431, or §§ 157.22 or 157.29 of these regulations, and (7) purchases of LNG or attachment of other supplemental supplies.

(i) The information required by paragraphs (g) and (h) of this section may be submitted by cross-reference and incorporation of information already on file with the Commission.

(j) Applications requesting issuance of certificates of public convenience and necessity as authorized in this section shall be processed in accordance with the procedural requirements, including those relating to notice, intervention and hearing, set out in Part 157 of the Commission's regulations under the Natural Gas Act.

(k) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a statutory hearing will be held before the Commission without further notice on all applications for certificates under this section in which no petition to intervene in opposition is filed within the time required, if the Commission on its own review of the matter believes that a grant of a certificate is required by the public convenience and necessity. Where the Commission believes that a formal hearing is required notice of such hearing will be duly given.

(l) A final order of this Commission, issuing a certificate as applied for, or issuing a conditioned certificate acceptable to the applicants, shall constitute a final determination, under section 7 of the Natural Gas Act, that the rates and services therein specified are required by the present and future public convenience and necessity.

(m) By acceptance of a certificate issued hereunder, the seller-applicant unconditionally agrees to (1) waive all rights to seek future rate increases under section 4 of the Natural Gas Act with respect to the contract submitted, other than fixed price escalations, if any, as certificated by the Commission; and (2) waive all rights to contingent adjustment of flowing gas rates as provided by the Commission in area rate decisions heretofore decided or hereafter issued, for flowing gas which the seller-applicant produces in the same geographical pricing area as the pricing area of the production covered by the application made under this section.

(n) Upon the filing of an application under this section, deliveries pursuant to the provisions of the tendered contract may be commenced after notice to the Commission and pending review of such application by the Commission. Such notice shall be given within 10 days after deliveries first commence, and shall include all pertinent information concerning the deliveries. Any such deliveries so commenced may be terminated (1) if such contract for any reason shall terminate or be terminated prior to the issuance by the Commission of a final order upon review of such application, or (2) upon the issuance of a certificate containing conditions unacceptable to the party adversely affected. If the Commission by final order shall deny such application, or if the party or parties to the contract adversely affected shall not accept the terms and conditions prescribed by the Commission, deliveries thereunder shall be terminated. Within 30 days after termination of deliveries, the seller shall notify the Commission of such termination, and shall report the date of termination, volumes delivered, and revenues received.

(o) If the parties elect to commence deliveries as set forth in paragraph (n) of this section, such deliveries will be made at rates no higher than the prevailing area ceiling rate and shall so continue for 6 months unless the Commission has made its final orders on the application at an earlier date; at the end of such 6-month period (if the Commission has not made its final orders), the seller shall be entitled to receive, and the purchaser shall be entitled to pay, the rates specified in the contract, and such contract rates shall continue as the effective rates until the Commission enters its final order on the certificate application.

11. The proposed new § 2.75 of our general rules does not replace geographical area pricing under existing regulations and orders of the Commission. The new section provides an alternative procedure for certification of natural gas sales, as herein provided, for those who elect to seek certification of contracts on the basis that price and other provisions thereof are appropriate under standards of public convenience and necessity. This optional procedure, if adopted, is intended to encourage long term, large volume dedications of new supplies of natural gas to the interstate market.

12. Applications for certification under the optional procedures set forth in this notice will be accepted for immediate filing and processing: *Provided, however,* That Commission action on any application so filed shall be subject to the Commission's final action on the rule-making proposed in this notice.

13. Mindful of the national gas supply problem delineated in paragraphs 2–8 above, the Commission reaffirms its obligation to consider applications for special relief under sections 4 and 7 of the Natural Gas Act for contractually authorized rate increases for gas sold under certificates of public convenience and necessity heretofore issued. Neither the moratoriums imposed in area rate decisions, nor our regulations, preclude the right of an individual seller to apply for special relief and demonstrate that a contractually authorized increase is necessary, even if such increase involves rates above area ceilings. In considering individual applications for special relief, we are required by the Natural Gas Act to determine if a departure from area ceiling rates is required by the public interest. Upon an applicant's showing that the proposed contractually authorized amendment will result in securing a substantial net increase in the supply of gas for the interstate market, a determination of public convenience and necessity will be undertaken by the Commission in the light of the standards set forth in Austral Oil Co. v. F.P.C., 428 F. 2d 407 (5th Circuit 1970), cert. denied 400 U.S. 950 (1970).

14. Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than May 1, 1972, views, comments, or suggestions in writing concerning all or part of the procedures proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before action on the matters proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed.

15. The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Cost of Living Council Ruling 1972–42]

PAYMENTS TO JURORS

Cost of Living Council Ruling

Facts. State X recently increased the per diem amount it pays to citizens who sit on juries by amending its statutes.

Issue. Is the increased payment governed by the Economic Stabilization Regulations?

Ruling. The increased payment is not within the coverage of the Economic Stabilization Program.

The regulations provide that certain economic transactions which are not prices, rents, wages, and salaries within the meaning of the Economic Stabilization Act of 1970, as amended, are not governed by the regulations. Economic Stabilization Regulations 6 CFR 101.1 (c), 37 F.R. 1237 (January 27, 1972). The examples listed in that section illustrate that certain payments, intended to compensate a person for a loss or need, are economic transactions which are not prices, rents, wages, or salaries, as that phrase is used in § 101.1(c).

Generally, juror's payments as established by statute are intended to offset the loss of salary or wages or to offset costs of transportation which are incurred in providing services that are required by the State. There is no attempt to correlate such payments with the quality of the services provided, and in many cases, the per diem rate is paid regardless of the time actually spent by the person summoned in sitting on a working jury.

Therefore, juror's payments are economic transactions which are not prices, rents, wages or salaries and are not within the coverage of the Economic Stabilization Regulations.

This ruling has been approved by the General Counsel of the Cost of Living Council.

Dated: April 5, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 5, 1972.

SAMUEL R. PIERCE, Jr.,
General Counsel,
Department of the Treasury.

[Pay Board Ruling 1972-23]

PERMISSIBLE ANNUAL AGGREGATE INCREASE

Pay Board Ruling

Facts. Teachers signed a contract in April 1971, providing for a single wage increase for the school year 1971–1972 that would have gone into effect in September 1971, were it not for the freeze. Contract negotiations for the school year 1972–73 are now beginning and the teachers are concerned as to whether they are limited to a 5.5 percent increase over the 1970–71 contract wages which they were receiving prior to November 14, 1971, or can they receive a 5.5 percent increase over the 1971–72 contract wages which went into effect on November 14, 1971.

Issue. In calculating "permissible annual aggregate increases," what is the wage base that will apply—those frozen wages on November 13, 1971, or the unfrozen wages of November 14, 1971.

Ruling. Where a wage agreement is in effect, "permissible annual aggregate increases" will be calculated on the basis of wages and salaries in existence immediately prior to the beginning of the 12-month period which begins on the effective date of a new agreement and in each succeeding 12-month period during the life of the agreement.

Hence, the "permissible annual aggregate increase" in a wage agreement cannot exceed 5.5 percent of the wages paid immediately prior to the effective date of the new wage contract. In the instant situation if the teachers sign a contract in April 1972, for the school year of 1972–73 to be effective September 1, 1972, the "permissible annual aggregate increase" cannot exceed 5.5 percent of the wage base of the last full payroll period before the effective date of the new agreement. Therefore, the wage base would not be the frozen wage base on November 13, 1971, but it would be a wage base that would reflect the 1971–72 contract wages.

This ruling has been approved by the General Counsel of the Pay Board.

Dated: April 5, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 5, 1972.

SAMUEL R. PIERCE, Jr.,
General Counsel,
Department of the Treasury.

[FR Doc.72-5633 Filed 4-12-72;8:50 am]

[Pay Board Ruling 1972-24]

APPROPRIATE EMPLOYEE UNIT

Pay Board Ruling

Facts. Prior to January 1, 1972, the production and maintenance employees of Employer A were not represented by a collective bargaining representative. Employer A had always determined the wage rules and other benefits of these employees as a unit. As of January 1, 1972, these employees became members of a labor union and Employer A recognized the union as the employees' bargaining representative. In Employer A's local labor area, this union has traditionally bargained for such employees on a multiemployer basis with Employer's Association XYZ. Employer A decides to join the Employers' Association XYZ and authorizes the Association to bargain with the union on his behalf as a member of the Association. The employees of the members of Employers' Association XYZ, as of November 14, 1971, comprised the appropriate unit for both Economic Stabilization Program purposes and collective bargaining, and it was intended that such employees of employers who joined the Association in the future would also become part of the appropriate unit. In labor relations terms, this "appropriate unit" of employees is referred to as a "multiemployer unit."

Issue. Does an appropriate unit for Economic Stabilization Program purposes change when that unit is merged with another for collective bargaining purposes?

Ruling. Yes. Economic Stabilization Regulations, 6 CFR 201.3, 36 F.R. 25426 (December 31, 1971), defines "Appropriate Employee Unit" as follows:

> Appropriate employee unit includes a group composed of all employees in a bargaining unit or in a recognized employee category. Such bargaining unit or employee category may exist in a plant or other establishment or in a department thereof, or in a company, or in an industry and shall be determined so as to preserve, as nearly as possible, contractual or historical wage and salary relationships.

It is not contrary to the regulations for appropriate units to change because of legitimate changes in company structure or bargaining relationships. Employer A's new contractual relationship through the Employers' Association XYZ would be sufficient to make the multiemployer unit, including Employer A, the appropriate unit when new increases are negotiated on a multiemployer basis.

The above ruling would also apply when a group of employers and a union desire to create a multiemployer bargaining unit where one had not existed before.

This ruling has been approved by the General Counsel of the Pay Board.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 5, 1972.

SAMUEL R. PIERCE, Jr.,
General Counsel,
Department of the Treasury.

[FR Doc.72-5634 Filed 4-12-72;8:50 am]

[Price Commission Ruling 1972–119]

HOSPITAL BASED CONTRACT PHYSICIANS

Price Commission Ruling

Facts. A physician whose speciality is radiology serves hospital A on a contractual basis and derives all of his income from these services. He has asked the hospital for a 5½ percent increase in the compensation that he receives under the terms of his contract. The physician is not subject to the direction or control of the hospital as to the means and methods of accomplishing the results of his work.

Issue. May the hospital pay such a physician an amount in excess of the 2½ percent limitation on noninstitutional providers as set out in Economic Stabilization Regulations, 6 CFR 300.19(c), 36 F.R. 25384 (December 30, 1971), as amended 37 F.R. 775 (January 19, 1972).

Ruling. For the purposes of the Economic Stabilization Regulations hospital based physicians, on contractual arrangements, generally are independent contractors, if they are not subject to the direction and control of the hospital as to the means and methods of accomplishing the results of their work. They are not employees and thus would be subject to the same restrictions as any noninstitutional provider. The increase in payments to the physician on the contract may not exceed the 2½ percent limitation and must be based on allowable costs.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–120]

EXCEPTIONS FOR HEALTH SERVICES

Price Commission Ruling

Facts. Dr. X, a noninstitutional provider, feels that because of serious hardship he must raise his rates in excess of 2½ percent based on allowable costs. However, the Health Services Regulations do not specifically provide for an exception procedure.

Issue. Do the general rules for exceptions apply to the health services industry governed by Economic Stabilization Regulations, 6 CFR 300.18, 300.19, 36 F.R. 25384 (December 30, 1971), amended 37 F.R. 775 (January 19, 1972).

Ruling. The general rules on exceptions, as set out in Economic Stabilization Regulations, 6 CFR 305.30 et seq. and 6 CFR 401.301 et seq., 37 F.R. 1010 (January 21, 1972), apply to all of the various categories of the economy covered under Price Commission regulations. They apply equally to §§ 300.18 and 300.19 of the regulations concerning the health services industry as they do to the rest of the regulations.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 4, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel,
Internal Revenue Service.

Approved: April 4, 1972.

[Price Commission Ruling 1972–121]

BOARD OF BARBER EXAMINERS AS A REGULATORY AGENCY

Price Commission Ruling

Facts. A is a barber who operates a barber shop in State X. State X has established a State Board of Barber Examiners which is authorized by State statute to license barbers, to impose health and safety regulations, and to determine minimum fees to be charged for barbering services so that the revenues are "sufficient to enable barbers to furnish modern and healthful services and appliances" to the public. Upon the request of certain barbers in the State, the Board held hearings and determined that the minimum prices should be increased, and ordered such an increase. Although A has not incurred any cost increases in operating his shop, he believes he should raise his prices so as to bring them into compliance with the higher minimum prices set by the Board. He wonders whether this is permissible under the Economic Stabilization Regulations.

Issue. Are barbers who perform their services subject to the rules of the Barber Control Board of State X a "public utility" within the Economic Stabilization Regulations?

Ruling. Barbers performing services subject to the control of the Barber Control Board of State X are not a "public utility" within the Economic Stabilization Regulations.

The regulations define a "regulatory agency" as a commission, board, or other legal body that has jurisdiction to order increases or reductions, or both, of the prices charged by a public utility; a "public utility" is defined as a person that furnishes utility services to the public or a recognized segment of the public, including specifically a person who furnishes utility services subject to the jurisdiction of a regulatory agency. A "utility service" is any commodity or service affected with a public interest, including specifically gas, electricity, telephone, telegraph, public transportation by vehicle, or pipeline and water and sewage disposal services furnished by a nongovernmental organization. Economic Stabilization Regulations 6 CFR 300.16, 37 F.R. 652 (January 14, 1972).

It is clear from the above facts that although the State Barber Control Board has the jurisdiction to order increases in the minimum fees to be charged for barber services, the services themselves are furnished under competitive circumstances and are affected with no particular public interest other than the regulation of health and safety standards. The regulation of such aspects is logical in view of the nature of the business, and does not itself illustrate a "public interest" in the sense that that phrase is illustrated by the examples listed. Therefore, barbers performing services subject to the regulation of the State Barber Control Board are not "public utilities" within the Economic Stabilization Regulations.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–122]

MERCHANT DISCOUNT

Price Commission Ruling

Facts. X Bank issues Y Charge Card. Retailers who sell to cardholders on credit, deposit their sales slips with X which immediately, either pays the retailer or credits his account with 98 percent of the sales price. X wants to increase its share to 3 percent, since it contends the merchant discount is a function of interest and not subject to Economic Stabilization Regulations.

Issue. Is a merchant discount considered interest?

Ruling. A merchant discount is a price and therefore nonexempt from the Economic Stabilization Regulations. Economic Stabilization Regulation, 6 CFR 300.5, 36 F.R. 23976 (December 16, 1971) defines a price to be any compensation for the sale or lease of any property or services and includes rent, commissions, dues, fees, margins, rates, charges, tariffs, fares, or premiums regardless of form.

This is nothing more than the sale of a service by the bank to the retail community. The bank is acting as a collecting agent for the store. It also is assuming the retailer's risk that the purchaser will never pay. Compensation for a service is a price.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–123]

PRICES—BAD CHECKS

Price Commission Ruling

Facts. A full service bank, B, desires to increase its charge to depositors for checks drawn on accounts with insufficient funds. During the past several years the charge was $3 per overdraft and B seeks to increase the charge to $4 per overdraft. B calls the charge a "penalty."

Issue. Whether the charge is a price under the Economic Stabilization Regulations?

Ruling. Yes. Section 300.5 of the Economic Stabilization Regulations defines price as any compensation for the sale of any service and includes fees, charges, etc., regardless of form. 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971). The charge in question is considered the price which the bank charges its customers for the additional service provided when the check of a customer is presented and there are insufficient funds in his account. The fact that B calls the charge a "penalty" is immaterial, since it is compensation for a service. When determining the applicability of the Economic Stabilization Regulations to any transaction, the substance of the transaction and not the form controls. Thus, any increase in the charge by B is subject to the Economic Stabilization Regulations.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–124]

PRICES—LEASES OF PERSONAL PROPERTY

Price Commission Ruling

Facts. X is in the business of selling and leasing office machines. On November 3, 1970, X enters into a lease agreement with a user of office machines, Y. The agreement covered a single machine Z, and was executed for a term of 5 years. The agreement called for payments of $7,000 per month for the first year (December 1, 1970, through November 30, 1971) and $17,000 per month for each of the 4 successive years, beginning on December 1, 1971. The rent charged in this case, meets the substantial transaction test.

Issue. What is the maximum rent which X may charge for Z after November 13, 1971?

Ruling. The maximum rent which X may charge for Z after November 13, 1971, is $17,000 per month. Section 300.11 provides in part that no person may charge a price with respect to any lease of property after November 13, 1971, which exceeds the base price for that property (except as otherwise provided in Subpart A). 6 CFR 300.11, 36 F.R. 23976 (December 16, 1971), amended 37 F.R. 3828 (February 28, 1972). The base price for a lease of personal property is determined under § 300.405(b) which provides as follows:

> The base price with respect to a lease of personal property is the highest price charged to a specific class of purchasers with respect to leases of the same or substantially identical personal property in a substantial number of transactions during the freeze base period. 6 CFR 300.405(b), 36 F.R. 23979 (December 16, 1971), amended 37 F.R. 3913 (February 24, 1972).

A transaction is considered to occur when a binding contract is entered into between the parties. 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971). The price charged by X to Y for the lease of Z is $900,000 payable in specified amounts throughout the term of the lease. Since it is assumed that the price charged in this lease agreement meets the substantial transaction test, the base price for Z is the amount agreed to in the transaction between X and Y.

In this case, the maximum price for the property is base price because no other price is provided in Subpart A. The lease in question does not qualify as a formula determined lease of personal property and accordingly the provisions of § 300.111 are not applicable. Section 300.111 provides as follows:

> A lease of personal property entered into before August 15, 1971, in which the rent is determined by means of a formula specified in the lease agreement may continue with that formula in effect. However, any increase in the rent due to the passage of time or increase in the consumer price index is not allowed. 36 CFR 300.111, 36 F.R. 25386 (December 30, 1971).

Under § 300.111 a formula determined lease of personal property is a lease where the amount of rent to be paid is "determined by means of a formula". In this case, the amount of rent required to be paid for Z throughout the term of the lease is not determined by means of a formula. Rather, it is specified in the lease and may be determined from the face of the agreement. Since the section does not apply to the lease between X and Y, the last sentence of the section which prohibits the increase in rent due to the passage of time, does not apply. Thus, the price which may be charged after November 13, 1971, is $17,000 per month since that price does not exceed the base price of the property.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–125]

PRICES CHARGED BY HOSPITALS PRIOR TO DECEMBER 29, 1971

Price Commission Ruling

Facts. On December 10, 1971, Hospital A increased its room rates 8 percent over the base price to reflect allowable costs. This price increase was allowable under the Economic Stabilization Regulations in effect at that time. See Economic Stabilization Regulations, 6 CFR 300.014, 36 F.R. 21788 (Nov. 13, 1971). Effective December 29, 1971, new regulations governing institutional providers of health services were published. Economic Stabilization Regulations, 6 CFR 300.18, 36 F.R. 23584 (Dec. 30, 1971), as amended at 37 F.R. 775 (Jan. 19, 1972). Hospital A was required to roll back its room rate increase to the amount allowable under section 300.18. Price Commission Ruling 1972–92, 37 F.R. 5061 (Mar. 9, 1972).

Issue. Must Hospital A refund any portion of the prices it charged between December 10, 1971 and December 29, 1971?

Ruling. No. An institutional provider of health services does not have to refund any payment made for services rendered after November 12, 1971, and before December 29, 1971, if the price charged for such service was lawful under the regulations in effect prior to December 29, 1971. Section 300.18 of the regulations does not require reimbursement of prices properly charged before December 29, 1971, the effective date of § 300.18.

Prices for services provided on and after December 29, 1971, must meet the requirements 6 CFR 300.18, 36 F.R. 23584 (Dec. 30, 1971).

[Price Commission Ruling 1972–126]

CUSTOMARY PRICING PRACTICES

Price Commission Ruling

Facts. Company A is a supermarket. It customarily prices canned food products by using "price points" whereby it applies a markup to cost and then sets the selling price of the item at the next highest "price point" ending in 2 cents, 4 cents, or 8 cents. A also maintains a "price spread" between store-brand and name-brand canned foods by always pricing the name-brand items at the next "price point" above the price of the store-brand items, regardless of his cost for the name brands. During A's markup base period these practices resulted in a price of 22 cents for a store-brand item and a price of 24 cents for a name-brand item. The cost of each item was 20 cents. Both costs have now increased to 22 cents. By applying customary pricing practices A wishes to increase the price on the store-brand to 24 cents and the name-brand item to 28 cents.

Company B is a retailer. During its markup base period it priced items X and Y at $42 each. The cost of each item was $32. B determined these selling prices by its customary practice of applying a 30 percent markup to the cost of the product and then "rounding off" upward to the nearest dollar. The cost of item X has increased to $33 and the cost of item Y has increased to $34. B wishes to follow its customary pricing practice and thereby increase the price of item X to $43 and the price of item Y to $45.

Issue. May companies A and B increase prices in excess of their base prices through the application of their customary pricing practices of price points, price spreads and rounding?

Ruling. Retailers and wholesalers may increase prices above base price levels by employing customary pricing practices only if such practices do not result in markups which exceed the customary initial percentage markups prevailing during the markup base period.

Economic Stabilization Regulation, 6 CFR 300.5, 36 F.R. 23975 (Dec. 16, 1971), defines "customary initial percentage markup" as the markup applied to the cost (purchase price actually paid by selling person and transportation charges to be allocated to the merchandise) of merchandise when first offered for sale determined on an item, product line, department, store, or other pricing unit basis, according to the firm's customary pricing practice. Customary business practices, such as price points, price spread, and rounding, may not be used where their application results in selling prices which exceed the highest lawful prices which would result from application of the customary initial percentage markups to the cost of the products involved.

Therefore, Company A may continue to use its customary practice and thereby increase the price of the store-brand item to 24 cents, for in so doing A will not exceed its markup base period customary initial percentage markup of 10 percent for the store-brand item. The 10 percent markup is derived by dividing the initial selling price of the item during the markup base period (22 cents) minus the cost (20 cents) by the cost (20 cents) and multiplying by 100 $(0.22-0.20)/0.20\times 100=10$ percent. However, A may not increase the price of the name-brand item to 28 cents by employing his customary practices, for in so doing A would exceed its markup base period customary initial percentage markup of 20 percent on that item. The price of the name-brand item may be increased, but the resultant selling price may not be more than 26 cents (Step 1: 22 cents (new cost) $\times$ 20 percent (customary initial percentage markup) —4.4 cents; Step 2: 22 cents + 4.4 cents = 26.4 cents (maximum selling price)).

Company B may apply its customary practice of rounding to increase the price of item X to $43, since a selling price of $43 will not exceed its mark-up base period customary initial percentage mark-up of 31.25 percent $((42-32)/32\times 100=31.25$ percent). However, the price of item Y may not be increased to $45 by a customary "round off" policy, since the result would be a selling price in excess of the price resulting from applying the customary initial percentage mark-up to the cost of the product.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972–127]

SEVERANCE TAX

Price Commission Ruling

Facts. Company A is a prenotification firm which engages in coal mining operations in State B. The Legislature of State B recently provided for an increase in the State's severance tax collected from coal mining and other extractive operations and levied on the value of the coal or other resource extracted within the State's boundaries.

Issue. (1) May Company A treat the increase in the severance tax as an allowable cost increase for the purpose of justifying a price increase under Economic Stabilization Regulation, 6 CFR 300.14, 37 F.R. 775 (January 19, 1972)?

(2) Must Company A, a prenotification firm, receive prior approval of the Price Commission before increasing its price to reflect the increase in the severance tax?

Ruling. (1) Yes. Economic Stabilization Regulation, 6 CFR 300.5, 36 F.R. 25386 (December 30, 1971) defines an allowable cost as "any cost, direct or indirect, unless disallowed by the Price Commission." Generally, increase in taxes, other than income taxes, are considered increases in allowable costs for the purpose of justifying price increases under 300.14.

(2) No. Economic Stabilization Regulation, 6 CFR 300.51(a), 36 F.R. 23977 (December 16, 1971), provides that prenotification is not required "of any price increase to the extent it reflects solely an increase in excise taxes (including sales and use taxes) * * *." While State B's severance tax is not designated as an "excise tax", it is in the nature of an excise tax, rather than a property or income tax, because it is a fixed charge not levied directly upon persons or property, but upon enjoyment of a privilege. Under these circumstances, Company A may increase its prices without prenotification, to the extent (dollar-for-dollar) such increase reflects the increase in the severance tax.

This ruling has been approved by the General Counsel of the Price Commission.

VINYL ASBESTOS FLOOR TILE FROM CANADA

Determination of Sales at Not Less Than Fair Value

APRIL 10, 1972.

On January 26, 1972, there was published in the FEDERAL REGISTER a notice of tentative negative determination that vinyl asbestos floor tile from Canada is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as the "Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice, and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

No written submissions or requests to present oral views having been received, I hereby determine that, for the reasons stated in the tentative determination, vinyl asbestos floor tile from Canada is not being, nor likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 153.33(c), Customs Regulations (19 CFR 153.33(c)).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial I-4877]

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

The Department of Agriculture has filed an application, Serial No. I-4877, for the withdrawal of the lands described below, from location and entry under the general mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for public purposes for an administrative site, as a part of their Red Ives Ranger Station Complex in the St. Joe National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 398 Federal Building, 550 West Fort Street, Boise, ID 83702.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for the purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Department of Agriculture. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record. If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

[Wyoming 34023]

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

APRIL 6, 1972.

The Bureau of Reclamation, U.S. Department of the Interior, has filed an application, Serial No. Wyoming 34023, for the withdrawal of lands described below, from all forms of appropriation under the public land laws, including the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant wishes to insure tenure of the land as it is required for the operation and maintenance of the Pathfinder Irrigation District and project works.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal, may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 2120 Capitol Avenue, Cheyenne, WY 82001.

The Department's regulations 43 CFR 2351.4(c) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 26 N., R. 62 W.,
Sec. 20, SW¼SE¼;
Sec. 29, W½NE¼.
T. 20 N., R. 64 W.,
Sec. 29, SW¼SW¼;
Sec. 30, S½SE¼.

The area described contains 240 acres.

JESSE R. LOWE,
Acting State Director.

Office of the Secretary

PORT MADISON INDIAN RESERVATION

Notice of Acceptance of Retrocession of Jurisdiction

Pursuant to the authority vested in the Secretary of the Interior by executive Order No. 11435 (33 F.R. 17339), I hereby accept as of 12:01 a.m., e.s.t., of the day following publication of this notice in the FEDERAL REGISTER, retrocession to the United States of all jurisdiction exercised by the State of Washington over the Port Madison Indian Reservation, except as provided under Chapter 36, Laws of 1963 (RCW 37.12.010-37.12.060), as offered on August 26, 1971, by proclamation of the Governor of Washington.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 5, 1972.

Bureau of International Commerce

EXPORT CLEARANCE

Notice of Proposed Changes in Procedure

In the notice published in the FEDERAL REGISTER, March 30, 1972, Volume 37, No. 62, page 6507, subdivision 2 is amended to read as set forth below:

2. *Submission of shipper's export declarations.* The exporter, or his agent, will submit unauthenticated declarations to the exporting carrier (as defined in the Export Control Regulations) before the vessel, aircraft, or overland transport departs. The exporting carrier will insure the accuracy of information as to name of exporting carrier (and flag, for vessel shipments), foreign port of unlading, and bill of lading or air waybill number.[1] The bill of lading or air waybill number will be entered on the manifest.[1] The exporting carrier will, in turn, submit these declarations to the Bureau of Customs. If the carrier is required to file a cargo manifest with the Bureau of Customs, the declarations will be submitted with the manifest. If the carrier is not required to file a cargo manifest with the Bureau of Customs, declarations must be submitted to the Bureau of Customs when the vessel, aircraft, or overland transport departs. When exporting by mail, the declarations shall be submitted to the Post Office at the time of mailing.

[1] This sentence has been added to subdivision 2 of the notice published in the FEDERAL REGISTER, Mar. 30, 1972, vol. 37, No. 62, p. 6507.

RAUER H. MEYER,
Director,
Office of Export Control.

UNIVERSITY OF MINNESOTA ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 72-00394-33-46040. Applicant: University of Minnesota, School of Medicine—Duluth, 2205 East Fifth Street, Duluth, MN 55812. Article: Electron microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in research which involves experimentation with carbohydrate-rich substances (glycoproteins, mucopolysaccharides or glycosamino glycans) intra- or extracellularly in a variety of tissues including: Human sweat and salivary glands from normal individuals and those afflicted with cystic fibrosis, rabbit and human oviducal tissues obtained under varying hormonal conditions, monkey and human uterine cervical tissue obtained under a variety of nutritional states. The bulk of the morphochemical experiments will involve the ultrastructural localization of tissues by means of cytochemistry and/or autoradiography. In addition the article will be utilized for training in the following courses: Introduction to Ultrastructure, Introduction to Microscopy, Advanced Methodology in Microscopy, Ultrastructural Cytochemistry, Problems Course in Electron Microscopy. Application received by Commissioner of Customs: February 17, 1972.

Docket No. 72-00395-01-77030. Applicant: University of Colorado, Purchasing Services Department, Regent Hall, Room 122, Boulder, Colo. 80302. Article: NMR spectrometer, Model HX-60-E. Manufacturer: Bruker Scientific Inc., West Germany. Intended use of article: The article is intended to be used for the following research problems:

1. Proton NMR analysis of several heterocyclic substances,

2. Analysis of materials (waxes, sesquiterpenes, etc.) isolated from plants including local Artemisia species,

3. Analysis of sucrose s

3. Analysis of sucrose solutions and impurities in natural sugar solution preparations, and

4. Analysis of various aminoalcohols, aminophenols, diols, hydroxyaldehydes, and hydroxyketones.

The article will be utilized for educational purposes in various chemistry courses. Application received by Commissioner of Customs: February 17, 1972.

Docket No. 72-00396-33-46500. Applicant: Harbor General Hospital, Attending Staff Association, 1124 West Carson Street, Torrance, CA 90509. Article: Ultramicrotome, Model 4800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section the following:

1. Isolated spermatozoa and ova of moose, rabbit, hamster, monkey, and woman, and the fertilization process;

2. Biopsies of kidneys, livers, brains, muscles, skin and bone marrows of patients affected by a variety of diseases;

3. Developing organs of embryos from mouse, rabbit, and woman.

These sections will be used in investigations aimed at obtaining a better understanding of the various aspects of the fertilization process and of the lesions produced by diseases on a variety of organs. The article will also be used for training of pathology interns and residents as well as postdoctoral fellows in Reproductive Biology. Application received by Commissioner of Customs: February 18, 1972.

Docket No. 72-00397-33-46500. Applicant: Howard University, College of Medicine, 520 W Street NW., Washington, DC 20001. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare ultrathin sections for observations in an electron microscope in studies

V 37-72
APR 13 72
XUM

of the role of lymphatic capillaries in healthy and diseased tissues. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00398–01–77040. Applicant: University of Illinois at Urbana-Champaign, Purchasing Division, 223 Administration Building, Urbana, Ill. 61801. Article: Mass Spectrometer, Model MS 902. Manufacturer: AEI Scientific Apparatus, Inc., United Kingdom. Intended use of article: The article is intended to be used in conjunction with a research program to develop an ionization method and analytical techniques for the analysis of liquid metals. The article will be used to study the ionization process, the parameters affecting the ionization, and the ionic species produced by the ion source to be developed. In addition, the article will be used in Graduate Research Study on an interdisciplinary basis not pertaining to one specific course or curricula. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00399–33–46040. Applicant: Albert Einstein College of Medicine, 1300 Morris Park Avenue, Bronx, N.Y. 10461. Article: Electron microscope, Model HU–12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used in studies pertaining to ongoing problems in the pathology department. These studies include characterization of lecithin molecules on the surface film of the alveolar lining layer, its distribution, its organization and its association with other materials such as protein and carbohydrates. The studies will also involve the investigation of fine structural analysis of RNA particles in the nucleolus, the assembly of RNA in the cytoplasm and the study of granular endoplasmic reticulum of the developing normal fetal lung and the lungs under the influence of cortisone. In relation to the accelerated maturation of the pulmonary epithelium, morphometry of the lung will also be performed. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00400–98–34040. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439. Article: Carcinotron, Model C040B. Manufacturer: Compagnie Generale de Sans Fil, France. Intended use of article: The article is intended to be used in the proton polarized target facilities which are used to conduct high physics research on the scattering produced by high energy K's and Pi's, etc. on a proton polarized target, i.e., material which has a large fraction of its protons pointing in the same direction. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00402–00–46070. Applicant: Michigan Technological University, Department of Metallurgical Engineering, Houghton, Mich. 49931. Article: Accessories for a Scanning electron microscope. Manufacturer: JEOL Ltd., Japan. Intended use of article: The articles are accessories to a scanning electron microscope being use in a metallurgical and minerals facility for study of fractography, sintering, mineral surfaces, ceramic structures, and corrosion. In addition, the instrument will be used in laboratory experiments and demonstrations in courses in Physical Metallurgy, Inspection of Metals, and Minerals Engineering. Principles and applications of scanning electron microscopy are included in the course MY442, Electron Microscopy. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00401–33–46040. Applicant: University of Texas Southwestern Medical School at Dallas, 5323 Harry Hines Boulevard, Dallas, TX 75235. Article: Electron microscope, Model JEM–100B. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used in high resolution studies of conformational and redistributional changes of proteins on or within organelle and cell membranes which occur during change in the state of organelle and cell function. The identification of specific proteins on or in cellular membranes will be investigated using antibody and other protein tagging techniques in a research program devoted to studies in the molecular anatomy of membranes. Protein identification and orientation in biomembranes as well as conformation of solubilized proteins, will be studied by high-resolution freeze-cleaving electron microscopy, dark field electron microscopy, and negative staining, supported by employing goniometer tilt and rotation. Application received by Commissioner of Customs: February 22, 1972.

Docket No. 72–00403–33–86500. Applicant: Vanderbilt University, 21st and West End Avenue, Nashville, Tenn. 37203. Article: Rheogoniometer, Model R.18. Manufacturer: Sangamo Controls, United Kingdom. Intended use of article: The article is intended to be used for scientific studies on the rheological properties of blood. The experiments will be used as calibration for the accuracy of measurements by simpler devices. Studies will be conducted to correlate the rheological properties of blood with a variety of clinical diseases. The article will also be used to train undergraduate and graduate engineers in the techniques and principles of experimental measurement of rheological properties on non-Newtonian materials. The courses involving the instrument are Ch.E. 231, Ch.E. 335, and Ch.E. 399. Application received by Commissioner of Customs: February 23, 1972.

Docket No. 72–00404–33–46040. Applicant: Duke University Medical School, Box 2926, Durham, NC 27710. Article: Electron microscope, Model Elmiskop IA and accessories. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used to examine tissues and cells of tumors or cancers of chickens or mammals diseased with viruses. These specimens will be studied to determine the characters of cell response to virus by study of the fine structure of the tumor cells at high magnification. Application received by Commissioner of Customs: February 23, 1972.

VETERANS ADMINISTRATION HOSPITAL, IOWA CITY, IOWA ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 72–00277–00–46040. Applicant: Veterans Administration Hospital, Iowa City, Iowa 52240. Article: Spare parts for Elmiskop 101 electron microscope. Manufacturer: Siemens AG, West Germany. Intended use of article: The articles are intended to be used as replacements parts of an electron microscope being used for fine structure studies of various cells. The two ongoing projects are thrombosis research and a study of axonal dystrophy resulting from vitamin E deficiency in rats. Application received by Commissioner of Customs: December 10, 1971.

Docket No. 72–00381–33–09540. Applicant: American National Red Cross, 17th and E Streets NW., Washington, DC 20006. Article: Centrifuge. Manufacturer: Green Cross Corp., Japan. Intended use of article: The article is intended to be used to evaluate a method of plasmapheresis, whereby whole blood is taken from the donor, centrifuged to separate the plasma from the red cells, the plasma is removed and the red cells returned to the donor. Application received by Commissioner of Customs: February 10, 1972.

Docket No. 72–00382–33–43400. Applicant: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, CT 06520. Article: Micromanipulator. Manufacturer: A.B. Transvertex, Sweden. Intended use of article: The article will be used in research to obtain intracellular recordings from mitral cells and other cells in the olfactory bulb. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00383–01–28200. Applicant: North Carolina State University, Purchasing Department, Post Office Box 5935, Raleigh, NC 27607. Article: Electron resonance spectrometer, Model JES–ME–1X. Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used for research centered around the free radicals produced by the high energy and ultraviolet irradiation of high polymers and monomer-polymer systems. Specific systems to be studied are as follows:

1. The radiation initiated polymerization of vinyl chloride in bulk and in precipitating media;

2. The identity, role, and fate of trapped radicals in radiation initiated graft polymerization systems;

3. The yield of free radicals from u.v. irradiated lignin and lignocellulose (wood pulp) fibers; and

4. The identity and yield of the active intermediate formed by the high energy irradiation of polyvinyl chloride under super-dry conditions.

In addition the article will be used by M.S. and Ph. D. candidates in Chemistry, Forestry, and Textiles for research programs. Simple studies with E.S.R. measurements will be incorporated with the course Ch.E. 671. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00385–05–01200. Applicant: University of Hawaii, Department of Linguistics, 1890 East-West Road, Honolulu, HI 96822. Article: Intensity Meter. Manufacturer: B. Frkjaer-Jensen, Denmark. Intended use of article: The article is intended to be used for analyzing languages acoustically in the phonetics laboratory and for teaching students to do so. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00386–05–01200. Applicant: University of Hawaii, Department of Linguistics, 1890 East-West Road, Honolulu, HI 96822. Article: Audio frequency filter. Manufacturer: B. Frkjaer-Jensen, Denmark. Intended use of article: The article will be used for analyzing languages acoustically in the Phonetics Laboratory and for teaching advanced students to do so. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00388–33–46040. Applicant: Presbyterian Hospital, 622 West 168th Street, New York, NY 10032. Article: Electron microscope, Model Elmiskop IA and accessories. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used for research studies on the structure of normal and developing ocular tissues and of the pathology of the eye. Much of the work is concerned with determining the intimate details of how the neurons of the retina connect with each other. Additional planned studies on developing human eyes include the differentiation of the blood vessels of the choroid and development of the junctions between adjacent pigment epithelial cells and of the retinal neurons. The article will also be used for training in investigative aspects of ophthalmology, which includes pathology at the electron microscope level. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00389–33–46500. Applicant: University of Missouri—Columbia, Department of Veterinary Anatomy, 103 Connaway Hall, Columbia, MO 65201. Article: Ultramicrotome, Model Om U2. Manufacturer: C. Reichert Optische Werke, AG, Austria. Intended use of article: The article is intended to be used to:

(a) Establish the topography of corticotrophs in the rostral zone of the pars intermedia and adjacent neural stalk region and their relationship with the hypophysial portal system (rat, mouse, cat);

(b) Determine the nature of the synaptoid contacts between axons and corticotrophs and possible origin of the nerve fibers;

(c) Determine morphologic changes in the corticotrophs following the attempt to cause degeneration of the synaptoid contacts (rat, mouse);

(d) Establish the topography of the CRF nerve terminals in the outer zone of the median eminence, their possible relationship with other axon endings and the primary capillary loops of the hypophysial portal system and their fine structural changes following adrenalectomy (mouse, rat);

(e) Detect possible correlative changes in other axon terminals which are topographically associated with the CFR axon terminals;

(f) Determine the ACTH activity of the rostral zone in the rat;

(g) And analyse the various cell types in the paraneural epithelium of the cat.

Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72–00390–00–46040. Applicant: University of California, Department of Zoology, Berkeley, Calif. 94720. Article: Anticontamination device. Manufacturer: Siemens A.G., West Germany. Intended use of article: The article is intended to be used to reduce the contamination rate of biological specimens being examined by an electron microscope during research on the structure and function of animal cells, cell parts, and viruses. Application received by Commissioner of Customs: February 17, 1972.

Docket No. 72–00392–98–16600. Applicant: Carnegie-Mellon University, Physics Department, Schenley Park, Pittsburgh, Pa. 15213. Article: Dilution refrigerators. Manufacturer: Oxford Instrument Corp., United Kingdom. Intended use of article: The article is intended to be used in the investigation of the thermal and ultrasonic properties of solids to temperatures as low as 30 millidegrees Kelvin; specifically, the investigation of the attenuation of very high frequency sound in superconductors with very low transition temperatures. Application received by Commissioner of Customs: February 17, 1972.

Docket No. 72–00393–98–16600. Applicant: Carnegie Mellon University, Physics Department, Schenley Park, Pittsburgh, Pa. 15213. Article: Dilution refrigerators. Manufacturer: Oxford Instrument Co., United Kingdom. Intended use of article: The article is intended to be used in the investigation of the thermal, and ultrasonic properties of solids to temperatures as low as 30 millidegrees Kelvin; specifically the investigation of the attenuation of very high frequency sound in superconductors with very low transition temperatures. Application received by Commissioner of Customs: February 17, 1972.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 6485]

BACITRACIN WITH PHENACAINE HYDROCHLORIDE OPHTHALMIC OINTMENT

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Baciguent Ophthalmic Ointment containing bacitracin and phenacaine hydrochloride; The Upjohn Co., 7171 Portage Road, Kalamazoo, Mich. 49001 (NDA 60–734).

The Food and Drug Administration concludes that bacitracin with phenacaine hydrochloride ophthalmic ointment is possibly effective for its labeled indications relating to use in superficial ocular infections.

Preparations containing bacitracin with phenacaine hydrochloride are subject to the antibiotic certification procedures under section 507 of the Federal Food, Drug, and Cosmetic Act. To allow applicants to obtain and submit data to provide substantial evidence of effectiveness of the drug in those conditions for which it has been evaluated as possibly effective, batches of preparations containing these drugs which bear labeling with these indications will continue to be accepted for certification by the Food and Drug Administration for a period of 6 months after publication of this announcement in the FEDERAL REGISTER.

To be acceptable for consideration in support of the effectiveness of a drug, any such data must be previously un-

V 37-72
APR 13 72
XUM

submitted, well organized, and include data from adequate and well controlled clinical investigations (identified for ready review) as described in § 130.12 (a) (5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for the approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

At the end of the 6-month period, any such data will be evaluated to determine whether there is substantial evidence of effectiveness for such uses. After that evaluation, the conclusions concerning the drug will be published in the FEDERAL REGISTER. If no studies have been undertaken, or if the studies do not provide substantial evidence of effectiveness, such drugs will not be eligible for release or certification.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 6485, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Amendments (identify with NDA number): Division of Antiinfective Drug Products (BD–140), Office of Scientific Evaluation, Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended; 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5626 Filed 4–12–72;8:48 am]

[DESI 11939]

MACROSIZE GRISEOFULVIN

Drugs for Human Use; Drug Efficacy Study Implementation Followup Notice

In a notice (DESI 11939) published in the FEDERAL REGISTER of April 17, 1971 (36 F.R. 7321) the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group concerning griseofulvin. The notice stated that the macrosize particles of the drug lacked substantial evidence of effectiveness for all labeled indications, in that published studies did not show that the macrosize particles uniformly produce predictable blood levels from subject to subject. The notice also stated that preparations containing macrosize particles of the drug would no longer be acceptable for release after 40 days following the publication date of the notice, and invited comments or pertinent data within 30 days.

On May 14, 1971, Ayerst Laboratories, Inc., 685 Third Avenue, New York, NY 10017, submitted a letter to the Food and Drug Administration objecting to the evaluation of macrosize griseofulvin and citing several references concerning the drug. The material referred to did not contain any new information which would support continued marketing of macrosize particles of griseofulvin. No new batches of the drug have been accepted for release since May 27, 1971, as provided for in the notice of April 17, 1971.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended; 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 5, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5628 Filed 4–12–72;8:49 am]

[DESI 8904]

PROCAINE ISOBUTYLRATE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drug:

Probutylin Capsules and Elixir, each containing procaine isobutyrate; William H. Rorer, Inc., 500 Virginia Drive, Fort Washington, Pa. 19034 (NDA 8–904).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that.

1. Procaine isobutyrate lacks substantial evidence of effectiveness in postoperative nausea and vomiting and in alleviating pain, nausea, vomiting, and pylorospasm in motion sickness.

2. Except for the aforementioned indications, this drug is possibly effective for its other labeled indications.

B. *Marketing status.* 1. Within 60 days of the date of publication of this announcement in the FEDERAL REGISTER, the holder of any approved new-drug application for a drug classified in paragraph A above as lacking substantial evidence of effectiveness is requested to submit a supplement to his application, as needed, to provide for revised labeling which deletes those indications for which substantial evidence of effectiveness is lacking. Such a supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new-drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period. Failure to do so may result in a proposal to withdraw approval of the new-drug application.

2. If any such preparation is on the market without an approved new-drug application, its labeling should be revised if it includes those claims for which substantial evidence of effectiveness is lacking as described in paragraph A above. Failure to delete such indications and put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER may cause the drug to be subject to regulatory proceedings.

3. The notice *Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study*, published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), describes in paragraphs (d), (e), and (f) the marketing status of a drug labeled with those indications for which it is regarded as possibly effective.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 8904, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Original new-drug applications: Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: March 24, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5627 Filed 4–12–72;8:49 am]

Office of the Secretary

OFFICE FOR CIVIL RIGHTS; REVIEWING AUTHORITY (CIVIL RIGHTS)

Statement of Organization and Delegation of Authority

The Secretary of Health, Education, and Welfare has delegated certain authority to the Department's Reviewing Authority (Civil Rights), in regard to enforcement proceedings under Executive Order 11246. The purpose of this notice is to notify the public of amendments to the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, which amendments are designed to reflect this delegation. As to the first Amendment set forth below, the provisions in the introductory portion of section 1D.40 and in paragraph A thereof were previously published in 32 F.R. 15190–15191 (November 2, 1967), as amended in 34 F.R. 7390 (May 7, 1969). The provisions in section 1D.40B are new.

1. Part 1, Chapter 1D, of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, entitled "Office of the Secretary: Office for Civil Rights," is hereby amended by changing its title to "Office for Civil Rights; Reviewing Authority (Civil Rights)" and by adding a new section 1D.40 section 1D.40 reads as follows:

SEC. 1D.40 *Reviewing Authority (Civil Rights).* There is established in the Office of the Secretary a Reviewing Authority (Civil Rights) which shall consist of no more than five members to be appointed by the Secretary. With the exception of final decisions, the functions and duties of the Reviewing Authority (Civil Rights) herein delegated may be exercised by a single member of the Authority. The Reviewing Authority may consider matters for final decision either by a panel of members or by the entire membership, as it may determine. Each final decision shall be concurred in by a majority of those designated to consider it, and in any event, by at least two members. Prior to the appointment of any member of the Reviewing Authority (Civil Rights), or in any other instance where no member thereof is available, the functions and duties herein delegated (except the rendering of final decisions) may be exercised by the Assistant Secretary for Administration.

A. *Duties and functions in regard to administration of title VI of the Civil Rights Act of 1964.* The Reviewing Authority (Civil Rights) shall have the authority to carry out the responsibilities described in 45 CFR 80.10(a)–(d), in connection with the administration of the provisions of Part 80 ("Nondiscrimination in Federally-Assisted Programs of the Department of Health, Education, and Welfare—Effectuation of Title VI of the Civil Rights Act of 1964") of Title 45 of the Code of Federal Regulations (45 CFR Part 80). In addition, the Reviewing Authority (Civil Rights) shall have the function and duty of designating hearing examiners and setting the time and place of hearings pursuant to 45 CFR 80.9(b).

B. *Duties and functions in regard to administration of Executive Order 11246.* The Reviewing Authority (Civil Rights) shall have the authority to carry out the responsibilities of the "agency head" described in 41 CFR 60–1.26(b)(1) and 60–1.26(b)(2)(v), in connection with the administration of the provisions of Chapter 60 ("Office of Federal Contract Compliance, Equal Employment Opportunity, Department of Labor") of Title 41 of the Code of Federal Regulations (41 CFR Ch. 60); with the exceptions that the Secretary of Health, Education, and Welfare, as agency head, shall retain the authority to prescribe procedural rules pursuant to 41 CFR 60–1.26(b)(1) and that decisions by the Reviewing Authority may be reviewed by the Secretary at his discretion. The Reviewing Authority (Civil Rights) shall have the authority to convene hearings, to designate hearing officers, to select the time and place for hearings, to render final decisions in formal hearings held pursuant to 41 CFR 60–1.26(b) and to take actions consistent with the authority delegated to it.

2. Part 1, Chapter 1–940, of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, entitled "General: Department Responsibilities Related to the Administration of the Civil Rights Act and Executive Order 11246," is hereby amended by deleting the present subparagraph (e) of section 1–940.10 and substituting the following:

(e) The Reviewing Authority (Civil Rights) appointed by the Secretary is responsible for reviewing decisions of hearing examiners in title VI enforcement proceedings. Cases are referred by the hearing examiner on the basis of exceptions filed by parties to the proceedings. The Reviewing Authority is also responsible for reviewing recommendations made by hearing officers in enforcement proceedings under Executive Order 11246, as amended. In each case reviewed, the Reviewing Authority shall render a final decision. This decision may be reviewed by the Secretary at his discretion. The Reviewing Authority also may make decisions on the record where a hearing is waived.

Dated: April 7, 1972.

ELLIOT L. RICHARDSON,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50–368]

ARKANSAS POWER & LIGHT CO.

Notice of Hearing on Application for Construction Permit

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Arkansas Power & Light Co. (the applicant), for a construction permit for a pressurized water nuclear reactor designated as the Arkansas Nuclear One—Unit 2 (the facility), which is designed for initial operation at approximately 2,760 thermal megawatts with a net electrical output of approximately 950 megawatts. The proposed facility is to be located at the applicant's site on a peninsula in the Dardanelle Reservoir on the Arkansas River in Pope County, Ark., approximately 2 miles southeast of the village of London, Ark. The hearing will be held in the vicinity of the site of the proposed facility.

The Board will be designated by the Atomic Energy Commission (Commission). Notice as to its membership will be published in the FEDERAL REGISTER.

The date and place of a prehearing conference will be set by the Board. The date and place of the hearing will be set at or after the prehearing conference. In setting these dates due regard will be had for the convenience and necessity of the parties or their representatives, as well as of the Board members. Notices of the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

Upon receipt of a report by the Advisory Committee on Reactor Safeguards and upon completion by the Commission's regulatory staff of a favorable safety evaluation of the application and an environmental review, the Director of Regulation will consider making affirmative findings on Items 1–3, a negative finding on Item 4, and an affirmation finding on Item 5 specified below as a basis for the issuance of a construction permit to the applicant:

ISSUES PURSUANT TO THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicant has described the proposed design of the facility including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicant and the applicant has identified, and there will be conducted, a research and development program associated with such features or components; and

V 37-72
APR 13 72
XUM

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facility, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facility can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicant is technically qualified to design and construct the proposed facility;

3. Whether the applicant is financially qualified to design and construct the proposed facility; and

4. Whether the issuance of a permit for construction of the facility will be inimical to the common defense and security or to the health and safety of the public.

ISSUE PURSUANT TO NATIONAL ENVIRONMENTAL POLICY ACT OF 1969 (NEPA)

5. Whether, in accordance with the requirements of Appendix D of 10 CFR Part 50, the construction permit should be issued as proposed.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n) of the Commission's rules of practice, the Board will (1) without conducting a de novo review of the application, consider and determine the issues of whether the application and the record of the proceeding contain sufficient information, and the review of the Commission's regulatory staff has been adequate, to support the findings proposed to be made by the Director of Regulation on items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the construction permit proposed to be issued by the Director of Regulation; and (2) determine whether the environmental review conducted by the Commission's regulatory staff pursuant to Appendix D of 10 CFR Part 50 has been adequate.

In the event that this proceeding becomes a contested proceeding, the Board will decide any matters in controversy among the parties and consider and initially decide as issues in this proceeding, items 1–5 above as a basis for determining whether the construction permit should be issued to the applicant.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50, (1) determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D of 10 CFR Part 50 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; and (3) determine whether the construction permit should be granted, denied, or appropriately conditioned to protect environmental values.

The application for construction permit, the report of the Commission's Advisory Committee on Reactor Safeguards, dated February 10, 1972, the applicant's supplemental Environmental Report dated December 14, 1971, and, as they become available, the proposed construction permit, the applicant's summary of the application, the Safety Evaluation by the Commission's regulatory staff, the Commission's draft and final detailed statement of environmental considerations, and the transcripts of the prehearing conference and of the hearing will be placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, where they will be available for inspection by members of the public.

Copies of those documents will also be made available at the Arkansas River Valley Regional Library, Dardanelle, Ark., for inspection by members of the public between the hours of 5 p.m. and 8:30 p.m. on Mondays and 8 a.m. and 5 p.m. on Tuesdays–Fridays. Copies of the ACRS report, the applicant's supplemental environmental report (to the extent of supply), and, when available, the regulatory staff's safety evaluation and the draft and final detailed statements of environmental considerations may be obtained by request to the Director of the Division of Reactor Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues specified, but who does not wish to file a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER.

Any person whose interest may be affected by the proceeding, who does not wish to make a limited appearance and who wishes to participate as a party in the proceeding must file a petition for leave to intervene.

Petitions for leave to intervene, pursuant to the provisions of 10 CFR 2.714 of the Commission's rules of practice, must be received in the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or the Commission's Public Document Room, 1717 H Street NW., Washington, DC, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. The petition shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by Commission action, and the contentions of the petitioner in reasonably specific detail. A petition which sets forth contentions relating only to matters outside the Commission's jurisdiction will be denied. A petition for leave to intervene which is not timely will be denied unless, in accordance with 10 CFR 2.714, the petitioner shows good cause for failure to file it on time.

A person permitted to intervene becomes a party to the proceeding, and has all the rights of the applicant and the regulatory staff to participate fully in the conduct of the hearing. For example, he may examine and cross-examine witnesses. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the applicant not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER. Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission.

With respect to this proceeding, the Commission has delegated to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission has established the Appeal Board pursuant to 10 CFR 2.785 of the Commission's rules of practice, and has made the delegation pursuant to paragraph (a) (1) of that section. The Appeal Board is composed of Algie A. Wells, Esq., and Dr. John Buck, with a third member to be designated by the Commission.

A "Notice of Receipt of Application for Construction Permit and Facility License; Time for Submission of Views on Antitrust Matters" was published in the FEDERAL REGISTER on June 19 and 26, and July 3 and 10, 1971. The notice afforded an opportunity for any person wishing to have his views on the antitrust aspects of the application presented to the Attorney General for consideration to submit such views to the Commission within 60 days after June 19, 1971.

Dated at Germantown, Md., this 10th day of April 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
F. T. HOBBS,
Acting Secretary of the Commission.

[Docket No. 50-259]

TENNESSEE VALLEY AUTHORITY

Order Extending Provisional Construction Permit Completion Date

By application dated March 27, 1972, the Tennessee Valley Authority requested an extension of the latest completion date specified in Provisional Construction Permit No. CPPR-29. The permit authorizes the construction of a single cycle, forced circulation, boiling water nuclear reactor, known as the Browns Ferry Nuclear Power Station Unit No. 1, on the Tennessee Valley Authority's site at Wheeler Lake, Limestone County, Ala., about 10 miles southwest of Athens, Ala.

Good cause having been shown for this extension pursuant to section 185 of the Atomic Energy Act of 1954, as amended, and § 50.55(b) of 10 CFR Part 50 of the Commission's regulations: *It is hereby ordered*, That the latest completion date specified in Provisional Construction Permit No. CPPR-29 is extended from April 15, 1972 to December 31, 1972.

Dated at Bethesda, Md., this fifth day of April 1972.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24297]

ALCO/ALASKA AIRLINES, INC.

Notice of Postponement of Prehearing Conference Regarding Acquisition Case

Notice is hereby given that the prehearing conference in the above-entitled matter is postponed from April 17, 1972 (37 F.R. 6348, March 28, 1972), to April 18, 1972, at 10 a.m., local time, in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before the undersigned examiner.

Dated at Washington, D.C., April 10, 1972.

[SEAL] ARTHUR S. PRESENT,
Hearing Examiner.

[FR Doc.72-5658 Filed 4-12-72;8:52 am]

[Docket No. 24339; Order 72-4-25]

DELTA AIR LINES, INC., ET AL.

Order of Suspension and Investigation Regarding Nonacceptance of Metallic Mercury Provision

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of April 1972.

Nonacceptance of metallic mercury provision proposed by Delta Air Lines, Inc., Docket 24339; nonacceptance of metallic mercury provisions proposed or in effect by Eastern Air Lines, Inc., Northwest Airlines, Inc., Docket 24339.

By tariff revision filed March 14 and marked to become effective April 13, 1972, Delta Air Lines, Inc. (Delta) proposes to add a provision to the effect that shipments of metallic mercury would not be accepted for carriage.

Delta asserts that it is taking this action because of a recent incident involving a mercury spill in an aircraft. No complaints have been filed against the proposal.

By Order 72-3-82, adopted March 24, 1972, the Board instituted an investigation (Docket 24339) of a virtually identical provision proposed by Eastern Air Lines, Inc. (Eastern) and in effect for Northwest Airlines, Inc., and suspended Eastern's proposal. In explaining its action, the Board stated, "We do not believe that refusal by an air carrier to transport certain types of shipments should be permitted without extensive justification showing that no other solution to the problems involved can be found." The order noted that Eastern had presented no such justification.

Delta's justification, like Eastern's, is inadequate as a basis for refusal of service for certain shipments by a common carrier. Consistent with Order 72-3-82, supra, and for the reasons set forth therein, the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. The investigation will be consolidated in the investigation of Docket 24339. We conclude, furthermore, that the proposal should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the exception on Mercury, metallic, on behalf of "DL" on 10th Revised Page 58 and 13th Revised Page 160 of Airline Tariff Publishers, Inc., Agent's CAB No. 82, and rules, regulations, and practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, "DL-3" on 10th Revised Page 58 and "DL-3" and provisions in connection therewith on 13th Revised Page 160 of Tariff CAB No. 82 issued by Airline Tariff Publishers, Inc., Agent, are suspended and their use deferred to and including July 11, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The foregoing investigation be consolidated into the investigation instituted in Docket 24339; and

4. Copies of this order shall be filed with the tariff and served upon Delta Air Lines, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

FEDERAL RESERVE SYSTEM

BARNETT BANKS OF FLORIDA, INC.

Order Approving Acquisition of Bank

Barnett Banks of Florida, Inc., Jacksonville, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Bank of Florida & Trust Co. at Homestead, Homestead, Fla. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant has 31 subsidiary banks controlling aggregate deposits of $943 million and is the third largest banking organization in Florida, controlling 6.4 percent of deposits in commercial banks in the State.[1] Acquisition of Bank ($26 million in deposits) by Applicant would increase its percentage share of deposits by only 0.2 percent and would leave applicant as the third ranking banking organization in Florida. Consummation of the transaction will not result in a significant increase in the concentration of banking resources in Florida.

Bank is located in Dade County, as are two banking subsidiaries of applicant. However, the closest of those subsidiaries is 26 miles from Bank, and there is no substantial existing competition between those subsidiaries and Bank; nor, due to the distance involved, the presence of numerous banking alternatives, and Florida's branching statutes, is there substantial likelihood of future competition developing between those subsidiaries and Bank. Neither is there any significant possibility of substantial competition developing between any other of applicant's banking subsidiaries and Bank for similar reasons.

Moreover, consummation of this transaction could have a beneficial effect on competition in the Dade County area. Applicant presently controls only 2.1 percent of deposits in Dade County, and does not rank within the top 10 banking organizations. Acquisition of Bank would increase applicant's share of Dade County deposits by 0.8 percent and would give it a service outlet in an area of Dade County in which it is presently not represented. Acquisition of Bank should enable applicant to provide more effective competition for the much larger banking organizations in Dade County with which it must compete. For these reasons, the Board concludes that the competitive factors are consistent with approval of this application.

Considerations relating to the financial condition, managerial resources and prospects of applicant, its subsidiary banks and Bank are generally satisfactory. However, affiliation with applicant should strengthen Bank's management and this consideration lends some weight toward approval. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] April 6, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-5586 Filed 4-12-72;8:45 am]

[1] Banking data are as of June 30, 1971, and reflect all holding company formations and acquisitions approved by the Board through Feb. 29, 1972.

FIRST NATIONAL BANK HOLDING CO., INC.

Order Approving Formation of Bank Holding Company

First National Bank Holding Co., Inc., Pinedale, Wyo., has applied for the Board's approval, under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)), for the formation of a bank holding company through acquisition of 83.45 percent or more of the voting shares of First National Bank of Pinedale, Pinedale, Wyo. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant is a nonoperating corporation formed for the purpose of acquiring Bank, which has aggregate deposits of approximately $5.6 million. (All banking data are as of June 30, 1971.) All shareholders of Bank are being accorded substantially equal treatment. Since Applicant has no present operations or subsidiaries, it appears that consummation of the proposal would not affect existing or potential competition, nor have an adverse effect on any other bank in the area.

The banking considerations are consistent with approval of the application. The financial and managerial resources of Bank and its prospects are regarded as generally satisfactory. Applicant has not commenced operations; thus, its financial condition, management and prospects are dependent upon those of Bank. Applicant's projected earnings appear to be sufficient to service the debt which it will incur upon consummation of the proposed transaction, without adversely affecting Bank's capital structure. The proposed acquisition is not likely to have any significant immediate effect on the convenience and needs of the community. This aspect of the proposal is consistent with approval of the application. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] April 6, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-5587 Filed 4-12-72;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Maisel.

WEERVA, INC.

Order Approving Acquisition of Banks

Weerva, Inc., Lakewood, Colo., a bank holding company within the meaning of the Bank Holding Company Act, has applied separately for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more, respectively, of the voting shares of the following five banks: (1) First Westland National Bank, Lakewood, Colo. (Lakewood Bank); (2) The Bank of Vail, Vail, Colo. (Vail Bank); (3) The Erie Bank, Erie, Colo. (Erie Bank); (4) Eagle Valley Bank, Minturn, Colo. (Minturn Bank); and (5) Westland National Bank, Longmont, Colo. (Longmont Bank), a proposed new bank.

Notice of receipt of the applications has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls one bank, Wheat Ridge National Bank, Wheat Ridge, Colo. (Wheat Ridge Bank), with deposits of $3.3 million, representing 0.1 percent of the total commercial bank deposits in Colorado. Upon acquisition of Lakewood Bank (deposits of $20.8 million), Vail Bank (deposits of $4.8 million), Erie Bank (deposits of $1.2 million), Minturn Bank (deposits of $0.7 million), and Longmont Bank, a proposed new bank, Applicant would control approximately $31 million in deposits, representing 0.7 percent of total deposits in commercial banks in the State, and Applicant would be the smallest of nine multibank holding companies operating in Colorado. Consummation of the transactions will not result in a significant increase in the concentration of banking resources in Colorado.

Applicant presently directly owns between 20 and 23 percent of the voting shares of the four existing banks it seeks to acquire. The remaining shares of such banks are owned by a small group of shareholders who also have interests in applicant and whose shares in the various banks are generally proportionate to their interests in applicant. Because of this relationship, the several banks have been operated as a group with common officers and policies. The present applications by applicant are essentially a reorganization of ownership from an individual to a corporate capacity. Approval will likely have little effect on competition since, even if the applications were denied, there is little probability that any of the subsidiary banks would compete with one another.

Moreover, though certain of the banks are in the same markets or nearby markets, they are generally small factors in their markets and consummation of the proposal would have little competitive impact. Both Lakewood Bank and Wheat Ridge Bank are in the Denver banking market, which is characterized by large holding companies. Their combined deposits represent only 0.9 percent of total market deposits. The Erie Bank is located in the Weld County area, and its deposits represent only 0.7 percent of total market shares in that area. The Longmont Bank, which is a proposed new bank, would be part of the Boulder County area and would be competing with an organization that has over 40 percent of total market deposits. Vail Bank and Minturn Bank are both located in Eagle County with only one other bank in the area. The Vail Bank has 49 percent of market deposits in this area while the Minturn Bank has 6.9 percent of the deposits. However, due to the different economic characteristics of the two communities served and the intervening terrain, there is little competitive overlap between the two and little is likely to develop.

Although applicant will still be a small factor in Colorado after consummation of these acquisitions, it has a potential for future expansion which would provide additional competition for the large holding companies in Colorado and is a procompetitive development. The Board concludes that competitive considerations are consistent with approval of each of the applications.

Considerations relating to the financial condition, managerial resources, and prospects of applicant, its subsidiary bank, and the five banks sought to be acquired are generally satisfactory. However, upon consummation of the proposal applicant will raise additional capital funds for Lakewood Bank and Vail Bank. These considerations lend weight toward approval of those applications and are consistent with approval of the others. Considerations relating to the convenience and needs of the communities to be served are consistent with approval of the applications, particularly since the stronger internal organization that will result from approval of these applications should enable applicant to facilitate the transfer of personnel among banks as needed.

Finally, applicant shall not retain or acquire any nonbank shares or engage in any nonbanking activities to a greater extent or for a longer period than would apply in the case of a bank holding company which became such on the date of the proposed consummations, except to the extent otherwise permitted in any regulation of the Board hereafter adopted specifically relating to the effect of the acquisition of an additional bank on the status of nonbank shares and activities of a one-bank holding company formed prior to 1971, or unless the Board fails to adopt any such regulation before the expiration of 2 years after the consummation of the proposed acquisitions. It is the Board's judgment that consummation of the proposed acquisitions would be in the public interest and the applications should be approved.

On the basis of the record the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order; and (c) Longmont Bank, Longmont, Colo., shall be opened for business not later than 6 months after the date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] April 6, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

STORAGE BATTERY; VEHICULAR, IGNITION, LIGHTING, AND STARTING

Notice of Industry Specification Development Conference

Notice is hereby given that the Federal Supply Service, General Services Administration, will hold an Industry Specification Development Conference in connection with the following proposed revision: Federal Specification W-B-131J—Battery, Storage: Vehicular, Ignition, Lighting, and Starting.

The purpose of the conference is to provide a forum for consideration of suggestions, ideas, or ways and means to improve the specifications to the end that (1) mutual understanding by both the Government and industry of the Government's technical requirements for the items, and (2) the quality of the product to be shipped to the Government will be enhanced. It will be open to all those in the private sector who have an interest or concern for these matters and all other Government departments or agencies having an interest therein are also being invited to send their representatives.

The conference will be held on April 27, 1972, at 9:30 a.m., Room 1022, Building 4, Crystal Mall, 1941 Jefferson Davis Highway, Arlington, VA. Anyone who wants to attend or desires further information should contact Mr. John T. Miller, General Services Administration, Federal Supply Service, Office of Standards and Quality Control, Washington, D.C. 20406, telephone No. (Area Code 703) 557-7813.

Issued in Washington, D.C., on March 30, 1972.

L. E. SPANGLER,
Deputy Commissioner,
Federal Supply Service.

INTER-AMERICAN FOUNDATION

BYLAWS

ARTICLE I—BOARD OF DIRECTORS

SECTION 1. All powers of the Foundation shall be vested in the Board of Directors (Board), except as may be otherwise delegated herein or by Resolution duly adopted by the Board to officers or agents of the Foundation. The Board shall direct the exercise of all powers of the Foundation.

SEC. 2. Without prejudice to the general powers of the Board, it is hereby expressly declared that the Board shall perform the following functions:

(a) The Board shall prescribe, amend, and repeal bylaws, rules, and regulations governing the manner in which the business of the Foundation may be conducted and in which the powers granted to it by law may be exercised and enjoyed.

(b) The Board shall annually approve for transmission to the Office of Management and Budget a budget as required by section 102 of the Government Corporation Control Act.

ARTICLE II—BOARD PROCEDURE

SECTION 1. The Board shall meet upon call of the Chairman or the President, and shall be called upon request of any three members of the Board. The Secretary shall give notice of the time, place, and purpose of each meeting by mailing the same at least 10 days before the meeting, or by telegraphing the same at least 7 days before the meeting to each Director. Any meeting at which a quorum is present shall be a legal meeting without regard to the foregoing notice provisions if each Director not present gives written consent to the meeting within 10 days thereafter.

SEC. 2. A majority of the members of the Board shall constitute a quorum for the transaction of business at any meeting. The vote of the majority attending a meeting shall constitute action of the Board of Directors, except that approval by a majority present and voting on a particular question shall be sufficient to constitute action of the Board of Directors under the circumstances specified in section 4 of this Article.

On matters of importance which must be decided between scheduled meetings, the Chairman or President may poll the members of the Board in writing or by telephone. Approval by a majority of the Board on such matters shall constitute action of the Board.

SEC. 3. The Chairman of the Board shall preside at all meetings thereof. The Vice Chairman of the Board shall, in the absence of the Chairman, preside over meetings of the Board.

SEC. 4. Any Director who deems it necessary or prudent to disqualify himself from participation in Board action on any matter in which he may have a conflict of interest shall advise the Chairman of his disqualification. A Director who is so disqualified shall be counted as present at the Board meeting for quorum purposes. A majority of the Directors present and voting shall be sufficient to constitute Board action on any question on which one or more Directors shall have disqualified himself by reason of conflict of interest.

SEC. 5. In furtherance and not in limitation of the powers conferred upon it, the Board may appoint such committees for the carrying out of the work of the Foundation as the Board finds to be for the best interests of the Foundation, each committee to consist of two or more members of the Board, which committees, together with officers and agents duly authorized by the Board and to the extent provided by the Board, shall have and may exercise the powers of the Board in the management of the business and affairs of the Foundation.

SEC. 6. The bylaws may be amended at any meeting of the Board by the affirmative vote of at least four Directors: *Provided,* That notice of the general nature of any proposed amendment has been given in the manner prescribed in section 1 of the Article II: *And provided further,* That such notice may be waived by the written consent of each Director.

ARTICLE III—THE PRESIDENT

SECTION 1. The President, or in his absence or disability the Vice President for Planning and Liaison, shall be the chief executive officer of the Foundation, responsible to and under the general direction of the Board. He shall have general supervision, direction, and control of the business and officers of the Foundation in accordance with policies established by the Board, and shall exercise all powers and authorities of the Foundation except as the Board may otherwise provide. He shall represent the Foundation generally in its relations with the Congress of the United States, with agencies and departments of the Government and with all others having business with the Foundation. Wherever any statute or regulation provides for the exercise of any functions or authorities by a head of agency, such functions or authorities shall be exercised by the President. Except as limited by action of the Board, the President may make rules and regulations with respect to the Foundation and its business and may redelegate all or any part of his authority, including authority to obligate the Foundation.

SEC. 2. Except as may be otherwise provided by law or action of the Board, the President may appoint such officers, employees, attorneys, and agents as, from time to time, may be deemed necessary and may prescribe their duties and may fix their salaries or other compensation. Any such officer, employee, attorney, or agent of the Foundation may be removed at any time by the President. The appointment or removal of any officer shall be subject to approval by the Board. The powers herein confirmed relating to the appointment and removal of officers, employees, attorneys, and agents shall be in conformity with basic policy decisions developed by the Board and subject to the provisions of law and of rules and regulations of the Civil Service Commission to the extent made applicable by law.

ARTICLE IV—CORPORATE SEAL

SECTION 1. Seal. The seal of the Foundation shall be in such form as may be approved, from time to time, by the Board.

SEC. 2. Affixing and attesting. The seal of the Foundation shall be in the custody of the Secretary, who shall have power to affix it to the proper corporate instruments and documents, and who shall attest it. In his absence, it may be affixed and attested by an Assistant Secretary, if any, or by any other person or persons as may be designated by the Board.

KENT N. KNOWLES,
Secretary to the Board of Directors,
Inter-American Foundation.

SECURITIES AND EXCHANGE COMMISSION

[70-5183]

AMERICAN NATURAL GAS CO. ET AL.

Notice of Proposed Issue and Sale of Common Stock

APRIL 7, 1972.

Notice is hereby given that American Natural Gas Co., 30 Rockefeller Plaza, Suite 4950, New York, NY 10020 (American Natural), a registered holding company, and two of its subsidiary companies, Michigan Wisconsin Pipe Line Co., One Woodward Avenue, Detroit, MI 48226 (Michigan Wisconsin) and Michigan Consolidated Gas Co. (Michigan Consolidated), have filed an application-declaration with this Commission pursuant to the Public Utility Holding Co. Act of 1935 (Act), designating sections 6(a), 6(b), 7, 9, 10, and 12(f) of the Act and Rules 43 and 50 thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

American Natural proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 promulgated under the Act, 1,700,000 shares of its authorized and unissued common stock, par value $10 per share, at a price to be determined by the competitive bidding. American Natural proposes to use the proceeds from the sale of stock to invest up to a maximum of $25 million and $10,010,000 in the common stocks of Michigan Wisconsin and Michigan Consolidated, respectively, and to repay approximately $26 million of outstanding notes payable due May 31, 1972, issued pursuant to a line of credit with banks or under the exemption provided in section 6(b) of the Act (Holding Company Act Releases Nos. 17090 and 17373).

Michigan Wisconsin proposes to amend its Articles of Incorporation so as to increase the number of its authorized shares of common stock, par value $100 per share, from 1,795,000 shares (all of which are outstanding and owned by American Natural), to 2,045,000 shares, and to issue and sell to American Natural the additional 250,000 shares for an aggregate price of $25 million. Michigan Wisconsin will use the proceeds from the sale of stock to finance, in part, its 1972 construction program estimated at $140 million.

Michigan Consolidated proposes to amend its Articles of Incorporation so as to increase the number of its authorized shares of common stock, par value $14 per share, from 11,636,000 shares (all of which are outstanding and owned by American Natural), to 12,351,000 shares, and to issue and sell to American Natural the 715,000 additional shares for an aggregate price of $10,010,000. Michigan Consolidated will use the proceeds from the sale of stock to pay a like amount of its notes issued for interim financing which will be outstanding at the date of the sale.

It is stated that the issuance and sale of common stock by Michigan Consolidated is subject to the jurisdiction of the Michigan Public Service Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be paid in connection with the proposed transactions are to be filed by amendment.

Notice is further given that any interested person may, not later than May 8, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[File 24D-3152]

CASTALITE CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor and Notice of Opportunity for Hearing

APRIL 6, 1972.

The Castalite Corp., Suite 820, Midland Savings Building, Denver, Colo. 80202 (Issuer), a Delaware corporation, located at Suite 820, Midland Savings Building, Denver, Colo., filed with the Commission, on October 26, 1971, a notification on Form 1-A and an offering circular relating to an offering of 400,000 shares of its $0.01 par value common stock at $1.25 per share for an aggregate offering of $500,000. Subsequent to a staff letter of comment, an amended notification and offering circular and supplemental information were filed on November 23, 1971, covering a reduced offering of 320,000 shares for an aggregate offering of $400,000. The filing was made for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof, and Regulation A promulgated thereunder. George D. Learned & Co., 444 17th Street, Denver, CO, was designated as the underwriter of the offering and would receive a commission of $0.15 per share.

I. Based on information reported by the staff, the Commission has reason to believe that:

(A) The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to the following:

(1) The failure to disclose that the Issuer would be in direct competition with companies presently manufacturing and distributing a product substantially identical to that which the Issuer proposes to manufacture and distribute.

(2) Failure to disclose that the reinforced product which the Issuer is presently manufacturing through the facilities of a subcontractor cannot be made as a reinforced product with the machine which the Issuer proposes to purchase with a part of the proceeds of the offering.

(3) Failure to disclose that the Issuer will be the holder of exclusive national production and distribution rights to certain of its products only if other companies who are presently producing and distributing the product can be forced, by legal action, to cease such activities.

V 37-72 APR 13 72 XUM

(4) Failure to disclose that the Issuer has proposed that litigation be brought against certain of their competitors.

(5) An untrue statement that the principal promoter of the Issuer had acquired rights to one of the proposed products for $6,250 and transferred the rights to the Issuer at no cost to the Issuer.

(6) Failure to disclose that the rights to one of the proposed products had been obtained or are to be obtained in exchange for stock of the Issuer.

(7) Failure to disclose that the Issuer had proposed to issue stock in exchange for production facilities.

(8) Untrue statements regarding the background of the principal promoter of the Issuer.

(B) The offering would be made in violation of section 17(a) of the Securities Act of 1933, as amended, by reason of the matters described above.

II. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be determined by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[File 24SF-3804]

IMPROVED COMMUNICATIONS, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

APRIL 6, 1972.

I. Improved Communications, Inc., 1020 Corporation Way, Palo Alto, Calif. 94303 (ICI), incorporated in California on September 16, 1970, filed with the San Francisco Regional Office a notification on Form 1-A and an offering circular relating to a proposed offering of 100,000 shares of its common stock at $2.50 per share for an aggregate offering price of $250,000. The offering commenced on November 29, 1971. Executive Park Securities, a registered broker-dealer having its principal place of business in Elmsford, N.Y., is the named underwriter.

II. The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The notification and offering circular, as amended, omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading and contain untrue statements of material facts, particularly with respect to:

(1) The fact that Frederick Fuchshuber Hesse was an affiliate of ICI;

(2) The fact that Frederick Fuchshuber Hesse was a promoter of ICI; and

(3) Salaries and Commissions owed to an officer of ICI.

B. The Regulation A exemption was not available to ICI because Frederick Fuchshuber Hesse, a promoter and affiliate of ICI presently connected with it, is the subject of an order enjoining him from activities specified in Rule 252(d)(2) and has been convicted of crimes specified in Rule 252(d)(1) within 10 years of the filing of ICI's notification.

C. The offering was made in violation of sections 5 and 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of Improved Communications, Inc., under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having an interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that, if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3057]

PIEDMONT CAPITAL CORP.

Notice of Filing of Application for Exemption

APRIL 7, 1972.

Notice is hereby given that Piedmont Capital Corp., 177 North Dean Street, Englewood, NJ (Applicant), a New York corporation, has filed an application pursuant to section 11(a) of the Investment Company Act of 1940 (Act), for an order permitting a proposed offer of exchange, and pursuant to section 6(c) of the Act for exemption from the provisions of section 22(d) of the Act, as described below. Applicant, a registered broker dealer, is principal underwriter of the shares of Lexington Research Fund, Inc., and Lexington Growth Fund, Inc. (collectively "Lexington Funds"), open-end, diversified investment companies registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

An affiliate of Applicant, Templeton, Dobbrow and Vance, Inc. (TD&V), was formerly employed as subinvestment adviser to Vantage 10/90 Fund, Inc. (Vantage Fund), a diversified, open-end investment company registered under the Act. TD&V advised Applicant that TD&V had given written notice to Vantage Fund on September 30, 1971, of its intention to terminate its subadvisory agreement, effective November 30, 1971. Applicant states further that it was advised that Vantage Advisors, Inc., the principal investment adviser, and Vantage International, Inc., principal underwriter, respectively, of Vantage Fund had given notice that their services would be terminated on November 1, 1971; and that the Vantage Fund Board of Directors had determined that there was no possibility of obtaining another investment adviser on terms satisfactory to Vantage Fund.

Applicant alleges further that on the basis of the above, the Board of Directors of Vantage Fund called a meeting of its shareholders for November 19, 1971, to obtain approval to change the nature of Vantage Fund's business from a registered investment company to that of a holding company. Proxy material mailed to shareholders indicated, among other things, that Vantage Fund proposed to acquire more than 80 percent of the voting stock of Campbell Music Co. of Washington, D.C., and terminate its registration under the Act.

Applicant states its belief that the holders of a substantial portion of the shares of Vantage Fund purchased such shares through Applicant's sales personnel. The maximum sales charge for such shares was 8.5 percent. In the opinion

of Applicant, many of such purchasers acquired shares of Vantage Fund because the features of redeemability and regulation characteristic of registered management investment companies made the shares suitable to such purchasers' requirements. In addition, Applicant represents that some purchasers have used such shares as collateral in insurance premium "equity funding" programs, which require that any replacement securities be those of registered investment companies.

In view of the foregoing, Applicant recommended to Vantage Fund shareholders who had purchased their shares through Applicant's sales personnel and who still desired to hold shares of a registered investment company, that they redeem their Vantage Fund shares. In relation to such recommendation, Applicant filed an application with the Commission on October 26, 1971, to permit those Vantage shareholders who might redeem their shares pursuant to Applicant's recommendation, to purchase Lexington Fund shares at net asset value. Applicant informed such shareholders that the application had been filed. Subsequently, the Vantage Fund meeting was not convened; the proposed plan of reorganization was not effectuated; and thus no action was taken on the application.

Applicant now represents that, on the basis of its recommendations to the Vantage Fund shareholders, 51 persons have purchased Lexington Fund shares with the proceeds from redeemed Vantage Fund shares. Total redemptions by such persons aggregated $82,949.50, all of which, excluding sales charges collected of $5,734.70, were used to purchase the Lexington Fund shares. Five additional persons have requested redemption of 498 Vantage Fund shares in order that they might purchase Lexington shares.

Applicant states that in view of Vantage Fund's apparent abandonment of its proposed reorganization, Applicant has discontinued soliciting or accepting further orders for Lexington shares from Vantage Fund shareholders on the basis described above. Accordingly, Applicant has hereby amended its original application and now requests that the Commission grant an exemption under section 22(d) of the Act to permit Applicant to offer to the 51 Vantage Fund shareholders who have redeemed (and to the five individuals described above who wish to redeem) their shares in order to purchase Lexington shares, either (1) a refund of the sales charges paid, or (2) an opportunity to acquire Lexington shares with the redemption proceeds at net asset value rather than the public offering price, which includes sales charges at the same rate as those charged by Vantage Fund.

Applicant states that it has not been in a position to make such offer to all Vantage Fund shareholders since it does not possess a shareholder list and believes that any request for such list would be refused. According to the application, under the laws of Maryland, the State of incorporation of Vantage Fund, a shareholder list is obtainable only by a holder of five percent (5%) or more of the outstanding shares.

Section 11(a). Section 11(a) provides, in pertinent part, that no principal underwriter of a registered open-end investment company may offer to exchange a security of such company for a security of any other open-end investment company on any basis other than the relative net asset values of the securities to be exchanged unless the terms of the offer have first been submitted to and approved by the Commission or are in accordance with such rules and regulations as the Commission may have prescribed in respect of such offers.

Inasmuch as Applicant's offer would be made only to a limited number of Vantage Fund shareholders, there is some question as to the applicability of section 11(a).

Section 22(d). Section 22(d) provides, in pertinent part, that no principal underwriter of a security of a registered investment company shall sell any such security to any person except a dealer, a principal underwriter, or the issuer, except at a current public offering price described in the prospectus.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protections of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant submits that the exemptions requested are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 28, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[License 10/10-0030]

NORTHWEST CAPITAL INVESTMENT CORP.

Notice of Application for a License as Small Business Investment Company

Notice is hereby given concerning the filing of an application with the Small Business Administration (SBA) pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1971)) under the name of Northwest Capital Investment Corp., 415 North Third Street, Post Office Box 526, Yakima, WA 98901, for a license to operate in the State of Washington as a small business investment company under the provisions of the Small Business Investment Act of 1958 (Act), as amended (15 U.S.C. 661 et seq.).

The proposed officers, directors, and principal stockholders are:

Robert M. Harris, Spader Bay, Chelan, Wash. 98816, President and Director, 10.14 percent.
Donald H. Ballew, 1908 West Yakima Avenue, Yakima, WA 98902, Vice President and Director, 10.94 percent.
David W. Williams, 4109 West Chestnut, Yakima, WA 98902, Director, Secretary and Treasurer, 10.94 percent.
R. L. Uber, Route 4, Post Office Box 190, Yakima, WA 98902, 10.94 percent.
Northwest Medical Resources, Inc., 1103 West Spruce, Yakima, WA 98902, 15.12 percent.

The company will begin operations with an initial capitalization of $430,000. No concentration in any particular industry is planned. The applicant intends to make investments in small business concerns, with growth potential, located primarily within the State of Washington.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the new company under their management, including adequate profitability and financial soundness, in accordance with the Act and regulations.

Notice is further given that any interested person may, not later than fifteen (15) days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the pro-

V 37 • 72
APR 13 72

DEPARTMENT OF LABOR

Office of the Secretary

NORTH DAKOTA

Notice of Determinations Regarding Temporary Compensation

Pursuant to the provisions of section 202 of the Emergency Unemployment Compensation Act of 1971 (Public Law 92-224, Title II), hereinafter referred to as the Act, and 20 CFR 617.13(a), I hereby give notice of my determinations as follows:

1. There is a "temporary on" indicator for the week beginning February 6, 1972, for the State of North Dakota.

2. A temporay benefit period, as provided in section 202(c)(3)(A)(i)(I) of the Act and 20 CFR 617.5, begins on February 27, 1972, the first day of the third calendar week after the week for which there is a "temporary on" indicator, in the State of North Dakota which, before February 27, 1972, entered into an agreement with the Secretary of Labor as provided in section 202 of the Act.

Temporary compensation, as defined in 20 CFR 617.2(d), shall be payable to eligible individuals who file claims for such compensation for weeks of unemployment which begin in the temporary benefit period with respect to the State of North Dakota. However, no temporary compensation under the Act is payable for any week of unemployment, even though such week is in a temporary benefit period, if it—

(a) Ends after June 30, 1972; or

(b) Ends after September 30, 1972, in the case of an individual who had a week ending before July 1, 1972, with respect to which temporary compensation was payable to him.

Signed at Washington, D.C., this 31st day of March 1972.

J. D. HODGSON,
Secretary of Labor.

[Notice 45]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publciation of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73405. By order of April 5, 1972, the Motor Carrier Board approved the transfer to Cressler Trucking, Inc., Shippensburg, Pa., of the operating rights in certificates Nos. MC-125813, MC-125813 (Sub-No. 1), MC-125813 (Sub-No. 2), MC-125813 (Sub-No. 4), MC-125813 (Sub-No. 5), MC-125813 (Sub-No. 6), MC-125813 (Sub-No. 8), MC-125813 (Sub-No. 9) and MC-125813 (Sub-No. 10), issued May 19, 1964, February 5, 1965, January 6, 1966, October 12, 1966, October 12, 1966, May 21, 1968, June 7, 1967, June 21, 1968, and July 6, 1970, respectively to Frank A. Cressler, doing business as Cressler's Trucking, Shippensburg, Pa., authorizing the transportation of various commodities from, to and between specified points and areas in Arizona, Arkansas, California, Colorado, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Texas, Utah, Washington, Wisconsin, Wyoming, and the District of Columbia. Herbert R. Nurick, Post Office Box 1166, Harrisburg, PA 17108, attorney for applicants.

No. MC-FC-73415. By order of April 6, 1972, the Motor Carrier Board approved the transfer to Day H. Thurmond, Humberto Garza, T. F. Clingman, and Mary Lou Carothers Foster, a partnership doing business as International Transportation Co., Del Rio, Tex., of the operating rights in certificate No. MC-104452 issued March 3, 1961, to T. F. Clingman, Roger Thurmond, Humberto Garza, and Mary Lou Carothers Foster, a partnership, doing business as International Transportation Co., Del Rio, Tex., authorizing the transportation of passengers and their baggage, between Del Rio, Tex., and the United States-Mexico boundary line, serving no intermediate points. John R. Foster, Del Rio National Bank Building, Del Rio, Tex. 78840, attorney for applicants.

No. MC-FC-73427. By order of April 6, 1972, the Motor Carrier Board approved the transfer of Readding Van & Storage Co., Inc., Vineland, N.J., of the operating rights in certificate No. MC-1647 issued June 28, 1963, to Gertrude Todd, doing business as Todd's Express, North Wildwood, N.J., authorizing the transportation of household goods, as defined by the Commission, between points in Cape May County, N.J., on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, Georgia, North Carolina, South Carolina, Ohio, West Virginia, Delaware, Florida, Maryland, Pennsylvania, New York, Virginia, those in New Jersey in the New York, N.Y., commercial zone, and those in the District of Columbia, Alexander Markowitz, 1180 Karin Street, Post Office Box 793, Vineland, NJ 08360, registered practitioner for applicants.

No. MC-FC-73587. By order of April 5, 1972, the Motor Carrier Board approved the transfer to Shippers Terminal Co. of California, Inc., Los Angeles, Calif., of the operating rights in Certificate No. MC-59230 issued September 17, 1969, to Great Western Container Freight Transport, a corporation, Los Angeles, Calif., authorizing the transportation of general commodities, with exceptions, between specified points in California. Raymond A. Greene, Jr., 405 Montgomery Street, San Francisco, Calif. 94104, attorney for applicants.

No. MC-FC-73594. By order of April 5, 1972, the Motor Carrier Board approved the transfer to Douglas Garrison and Ruth E. Garrison, doing business as Douglas Garrison, Beaver Springs, Pa., of Permit No. MC-83744 issued April 2, 1965, to Eastern Carrier Corp., Philadelphia, Pa., authorizing the transportation of: Milk and milk products, between points in Maryland, Delaware, New Jersey, the District of Columbia, and specified portions of Virginia; named points in New York, and Maryland. Paul A. Levy, attorney, 1420 Walnut Street, Philadelphia, PA 19102.

[Ex Parte 270 (Sub-No. 2)]

INVESTIGATION OF RAILROAD FREIGHT SERVICE

Report

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 23d day of March 1972.

Upon consideration of the record in the above-entitled proceeding, the report entered November 5, 1971, and of:

(1) A petition filed January 24, 1972, by the Western Railroads for waiver of Rule 101(e) and for immediate stay of the reporting and remedial action provisions in the report, and;

(2) Opening statements of respondents filed February 23, 1972,

(a) Containing suggestions in regard to Form BOp-105, the Railroad Freight Service Report and instructions, and the suggested procedure for processing them,

(b) Withdrawing any objection to the reporting requirement referred to in (1) above, and

(c) Objecting to the Commission stating that it would take "appropriate corrective action and, if necessary, notify the carrier regarding the remedial action he should take" in regard to any shipper's complaint on Form BOp-105 until rules in this regard have been promulgated in accordance with the Administrative Procedure Act, 5 U.S.C.A. section 553(b)(3).

It appearing, That, inasmuch as the Commission is only in the initial stages of a data gathering program, respondents' objection is premature in regard to any corrective action the Commission might take or any remedial action the Commission might require a carrier to take in the event a shipper's complaint, filed on Form BOp-105, is not satisfied by the carrier;

It is ordered, That Rule 101(e) be, and it is hereby, waived and the petition of the Western Railroads is accepted for filing;

It is further ordered, That the petition of the Western Railroads for an immediate stay be, and it is hereby denied for the reason that sufficient grounds have not been presented for granting the relief sought;

It is further ordered, That in addition to the statutory authority contained in the order of January 19, 1972, sections 1(11) through 1(17) of the Interstate Commerce Act are specified as additional authority for the institution of this investigation;

It is further ordered, That the order of January 19, 1972, in this proceeding be, and it is hereby, vacated insofar as it (1) provided for the use of a draft "Railroad Freight Service Report," Form BOp-105 contained in Appendix A[1] to that order, and (2) prescribed procedures for filing and processing such completed forms; but in all other respects, the order of January 19, 1972, remains in effect;

It is further ordered, That the revised form of the Railroad Freight Service Report, Form BOp-105, shown in Appendix A,[1] may be completed by shippers, consignees, and/or others alleging deficiencies in railroad freight service. Such reports must be filed within 45 days from the date of the deficiency or from the date the car is spotted at consignee's dock, whichever is later. Such reports should be filed with the nearest Regional Director whose address is contained in Appendix B, with a copy to the railroad involved. Within 30 days from the date the shipper's initial report is filed the railroad must file a reply to the same Regional Director to whom the shipper has filed its report, indicating the corrective action taken or other appropriate response. Within 30 days from the date of the railroad's reply statement, shipper must file a further statement to the same Regional Director, with a copy to the railroad, indicating that the service deficiency has not been corrected. If no such statement is filed, then the service deficiency will be presumed to have been corrected. Upon receipt of the shipper's final statement, if any, indicating that the service deficiency has not been alleviated, the Interstate Commerce Commission will, depending on the circumstances, take appropriate corrective action and, if necessary, notify the carrier regarding the remedial action he should take;

And it is further ordered, That a copy of this notice and order be served on all parties on the service list and mailed to the Governor of each State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation; that a copy be posted in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection; and that a copy be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

APPENDIX B

Names and addresses of Regional Directors:

Region 1

Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, and Vermont: Howard S. Thayer, Regional Director, John Fitzgerald Kennedy Building, Government Center, Room 2211B, Boston, MA 02203.

Region 2

Delaware, District of Columbia, Maryland, Ohio, Pennsylvania, Virginia, and West Virginia: Anthony W. Bummara, Regional Director, 16th Floor, 1518 Walnut Street, Philadelphia, PA 19102.

Region 3

Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee: James L. Haygood, Regional Director, Room 300, 1252 West Peachtree Street NW., Atlanta, GA 30309.

Region 4

Illinois, Indiana, Michigan, North Dakota, South Dakota, and Wisconsin: James J. Werner, Regional Director, Room 1086, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, IL 60604.

Region 5

Arkansas, Iowa, Kansas, Louisiana, Missouri, Nebraska, Oklahoma, and Texas: James H. Berry, Regional Director, 9A27 Fritz Garland Lanham, Federal Building, 819 Taylor Street, Fort Worth, TX 76102.

Region 6

Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming: Marvin W. VanCleave, Regional Director, 13001 Federal Building, 450 Golden Gate Avenue, Post Office Box 36004, San Francisco, CA 94102.

[Notice 28]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

APRIL 7, 1972.

The following applications are governed by § 1100.247[2] of the Commission's

[1] Appendix A filed as part of the original document.

[2] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 37-72
APR 13 72
XUM

general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 4405 (Sub-No. 493), filed March 16, 1972. Applicant: DEALERS TRANSIT, INC., 2200 East 170th Street, Lansing, IL 60438. Applicant's representative: Robert E. Joyner, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Curtains, dust collecting, electric precipitators and parts thereof*, from Warren, Ohio, to points in the United States, including Alaska but excepting Hawaii. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio, or Washington, D.C.

No. MC 10343 (Sub-No. 22), filed March 13, 1972. Applicant: CHURCHILL TRUCK LINES, INC., U.S. Highway 36 West, Chillicothe, MO 64601. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (1) between Princeton, Mo., and Des Moines, Iowa: From Princeton, Mo., over U.S. Highway 65 to Des Moines, Iowa, and return over the same route; (2) between Centerville, Iowa and Des Moines, Iowa; (a) from Centerville, Iowa over Iowa Highway 5 to Des Moines, Iowa and return over the same route; (b) from Centerville, Iowa over Iowa Highway 2 to its junction with U.S. Highway 65, thence over U.S. Highway 65 to Des Moines, Iowa and return over the same route; and (c) from Centerville, Iowa over Iowa Highway 5 to its junction with U.S. Highway 34, thence over U.S. Highway 34 to its junction with U.S. Highway 65, thence over U.S. Highway 65 to Des Moines, Iowa, and return over the same route; (3) between Ottumwa, Iowa and Des Moines, Iowa; (a) from Ottumwa, Iowa over U.S. Highway 63 to its junction with Iowa Highway 163, thence over Iowa Highway 163 to Des Moines, Iowa, and return over the same route; (b) from Ottumwa, Iowa over U.S. Highway 63 to its junction with U.S. Highway 6, thence over U.S. Highway 6 to Des Moines, Iowa, and return over the same route, serving the junction of U.S. Highways 6 and 63 as a point of joinder only;

(c) from Ottumwa, Iowa, over U.S. Highway 63 to its junction with Interstate Highway 80, thence over Interstate Highway 80 to Des Moines, Iowa, and return over the same route, serving the junction of U.S. Highway 63 and Interstate Highway 80 as a point of joinder only; (d) from Ottumwa, Iowa, over U.S. Highway 63 to its junction with Iowa Highway 92, thence over Iowa Highway 92 to its junction with Iowa Highway 5, thence over Iowa Highway 5 to Des Moines, Iowa, and return over the same route; (e) from Ottumwa, Iowa, over U.S. Highway 34 to its junction with Iowa Highway 5, thence over Iowa Highway 5 to Des Moines, Iowa, and return over the same route; and (f) from Ottumwa, Iowa, over U.S. Highway 34 to its junction with U.S. Highway 65, thence over U.S. Highway 65 to Des Moines, Iowa, and return over the same route; and (4) between the junction of U.S. Highway 218 and Iowa Highway 92 and Des Moines, Iowa; from the junction of U.S. Highway 218 and Iowa Highway 92 over Iowa Highway 92 to its junction with Iowa Highway 163, thence over Iowa Highway 163 to Des Moines, Iowa, and return over the same route. Serving points in the following described area as off-route points in connection with the regular routes listed above: That part of Missouri north and east of a line beginning at West Quincy, Mo., and extending along U.S. Highway 24 to Carrollton, Mo., thence along U.S. Highway 65 to the Missouri-Iowa State line, including points on the indicated portions of the highways specified. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.; Des Moines, Iowa, or Omaha, Nebr.

No. MC 22195 (Sub-No. 144), filed March 13, 1972. Applicant: DAN DUGAN TRANSPORT COMPANY, a corporation, 41st and Grange Avenue, Post Office Box 946, Sioux Falls, SD 57101. Applicant's representative: J. P. Everist (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fly ash*, in bulk, from Fergus Falls, Minn., to points in North Dakota and South Dakota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Fargo, N. Dak., or Minneapolis, Minn.

No. MC 33641 (Sub-No. 99), filed March 15, 1972. Applicant: IML FREIGHT, INC., 2175 South 3270 West, Salt Lake City, Utah 80217. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, other than grain and livestock feed, and commodities requiring special equipment), serving the plantsite of Idaho Fresh Pak, Inc., at or near Lewisville, Idaho, as an off-route point in connection with carrier's authorized regular-route operation. NOTE: If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 35358 (Sub-No. 28), filed March 13, 1972. Applicant: BERGER TRANSFER & STORAGE, INC., 3720 Macalaster Drive NE., Minneapolis, MN 55421. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clothing and wearing apparel*, from Secaucus, N.J., to Minneapolis, Minn. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 61231 (Sub-No. 64), filed March 6, 1972. Applicant: ACE LINES, INC., 4143 East 43d Street, Des Moines, IA 40317. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Belle Fourche, S. Dak., to points in Illinois, Indiana, Iowa, Kansas, Missouri, and Wisconsin. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Minneapolis, Minn.

No. MC 61440 (Sub-No. 131), filed March 20, 1972. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Post Office Box 82488, Exchange Branch, Oklahoma City, OK 73108. Applicant's representative: Richard H. Champlin, Post Office Box 82488, Oklahoma City, OK 73108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, classes A and B explosives, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of the General Tire and Rubber Co. at or near Mt. Vernon, Ill., as an off-route point in connection with applicant's existing authority. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Akron, Ohio, or Washington, D.C.

No. MC 91053 (Sub-No. 11), filed February 22, 1972. Applicant: TRANSWORLD MOVERS, INC., 4955 Olive Street, Commerce City, CO 80022. Applicant's representative: Walter R. Plankinton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in the United States, including the District of Columbia, but excluding Alaska and Hawaii. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that the granting of the requested authority would allow for cancellation of present 38 States radial authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Washington, D.C.

No. MC 94403 (Sub-No. 3), filed August 27, 1971. Applicant: GAGNON & SON MOVERS, INC., 153 Main Street, Fort Fairfield, ME 04742. Applicant's representative: Richard D. Adams, 8 Church Street, Fort Fairfield, ME 04742. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods* as defined by the Commission, between Fort Fairfield, Maine, on the one hand, and, on the other, points in Maine. NOTE: Applicant states that the requested authority can be tacked with its existing authority at Fort Fairfield, Maine, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Maine.

No. MC 105755 (Sub-No. 16), filed March 13, 1972. Applicant: M.J.K. TRUCKING CORP., 1040 John Alden Lane, Schenectady, NY 12306. Applicant's representative: John L. Alfano, 2 West 45th Street, New York, NY 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Baltimore, Md., and Philadelphia, Pa., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, and Vermont. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that he has no present intention to tack, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 106400 (Sub-No. 86), filed March 14, 1972. Applicant: KAW TRANSPORT COMPANY, a corporation, Post Office Box 12628, North Kansas City, MO 64116. Applicant's representative: Robert L. Hawkins, Jr., Post Office Box 456, Jefferson City, MO 65101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer and dry fertilizer materials*, in bulk, in tank vehicles, from Springfield, Mo., to points in Arkansas, Kansas, and Oklahoma. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 107012 (Sub-No. 146), filed March 13, 1972. Applicant: NORTH AMERICAN VAN LINES, INC., Lincoln Highway East at Meyer Road, Post Office Box 988, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis, Post Office Box 988, Fort Wayne, IN 46801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pianos*, uncrated, from Marion, N.C., to points in California, Oregon, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 107488 (Sub-No. 6), filed March 22, 1972. Applicant: MANOR TRUCKING CO., INC., Road 6 West, Kendallville, Ind. 46755. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, from Butler and Peru, Ind., to points in Defiance, Paulding, Putnam, Van Wert, and Williams Counties, Ohio, and Barry, Berrien, Branch, Calhoun, Cass, Eaton, Hillsdale, Ionia, Jackson, Kent, Lenawee, Ottowa, Muskegon, St. Joseph, and Van Buren Counties, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 109677 (Sub-No. 40), filed March 9, 1972. Applicant: FORT EDWARD EXPRESS CO., INC., Route 9, Saratoga Road, Fort Edward, N.Y. 12828. Applicant's representative: Harold G. Hernly, 2030 North Adams Street, Suite 510, Arlington, VA 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in tank vehicles, from Providence, R.I., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, Pennsylvania, New Jersey, and New York. NOTE: Applicant states that the requested authority would be tacked with its authority under MC 109677 (Sub-No. 28) authorizing liquefied petroleum gas, in bulk, in tank vehicles, from Selkirk and Hudson Falls, N.Y., to points in Rhode Island to provide a through service over Providence to points in Plymouth, Barnstable, and Bristol Counties, Mass., presently excluded from its authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 110740 (Sub-No. 2), filed March 13, 1972. Applicant: A. A. ROCCO TRUCKING CORPORATION, 5915 Schaaf Road, Cleveland, OH 44131. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, OH 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand*, from the plantsite of Silica, Inc., located in Twinsburg, Ohio, to points in New York, Pennsylvania, West Virginia, Indiana, and Michigan. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 133966 (Sub-No. 16), filed March 13, 1972. Applicant: NORTH EAST EXPRESS, INC., Post Office Box 61, Mountaintop, PA 18707. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Modular housing units and component parts thereof*, from points in Columbia County, Pa., to points in Connecticut, New Jersey, New York, Delaware, Virginia, Michigan, Illinois, North Carolina, Vermont, Florida, Tennessee, New Hampshire, Massachusetts, Maine, Maryland, West Virginia, Ohio, Indiana, South Carolina, Georgia, and the District of Columbia; (2) *modular housing units and component parts thereof*, from points in Northumberland County, Pa., to points in Connecticut, New Jersey, New York, Delaware, Virginia, Michigan, Illinois, North Carolina, Vermont, Florida, Tennessee, New Hampshire, Massachusetts, Maryland, West Virginia, Ohio, Indiana, South Carolina, Georgia, and the District of Columbia; and (3) *mobile homes, equipped with pintel hook or ball type connectors*, from points in Lackawanna County, Pa., to points in New York, Maine, Connecticut, Vermont, Massachusetts, New Hampshire, Maryland, New Jersey, Delaware, Virginia, Ohio, Rhode Island, and the District of Columbia. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Wilkes-Barre, Pa.

No. MC 134262 (Sub-No. 2), filed March 13, 1972. Applicant: FARMERS FEED AND SUPPLY TRANSPORTATION, INC., Boyden, Iowa 51234. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Silica sand*, from LeSeur, Minn., to points in Iowa; (2) *Foundry sand*, from Menaminee Falls, Wis., to points in Iowa, Illinois, and Missouri; (3) *Phosphate, and cottonseed meal, and cake*, from points in Arkansas, to points in Minnesota, South Dakota, Iowa, Nebraska, Kansas, Missouri, Wisconsin, Illinois, Texas, Mississippi, Louisiana, and Oklahoma; (4) *Calcium*, from Alden and Boyden, Iowa, and Weeping Water, Nebr., to points in Iowa, Kansas, Minnesota, South Dakota, Nebraska, and Missouri; (5) *Salt*, from Pawnee, Kans., to points in Iowa, Minnesota, Nebraska, and South Dakota, and (6) (a) *Honeybee feed ingredients* from points in Louisiana to Hopkins, Minn., and (b) *Honeybee feed* from Hopkins, Minn., to points in Louisiana; and from points in Louisiana to points in Texas, Mississippi, Alabama, Florida, Georgia, Wisconsin, Michigan, Iowa, and Illinois, under contract with Farmers Feed & Supply, Inc., Boyden, Iowa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

No. MC 134352 (Sub-No. 2), filed March 4, 1972. Applicant: COWANSVILLE EXPRESS INC., 264 Hanson Street, Cowansville, Province of Quebec, Canada. Applicant's representative: Adrien R. Paquette, 200 St. James Street West, Suite 900, Montreal, 126 PQ Canada. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Toilet preparations, cosmetics, and commodities* used in the manufacture and packing of said commodities together with advertising materials, from Stamford, Conn., to ports of entry on the international boundary line between the United States and Canada located at St. Albans and Richford, Vt., for furtherance into Canada, under contract with Clairol, Inc., of Canada. NOTE: If a hearing is deemed necessary, applicant requests it be held at Plattsburg or Albany, N.Y., or Montpelier, Vt.

No. MC 134405 (Sub-No. 6), filed March 13, 1972. Applicant: BACON TRANSPORT COMPANY, a corporation, Post Office Box 1134, Ardmore, OK 73401. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Building, 3535 Northwest 58th, Oklahoma City, OK 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid asphalt*, from Ponca City, Okla., to points in Missouri. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 134922 (Sub-No. 28), filed March 13, 1972. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: George Harris (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in and used by chain hardware and department stores (except foodstuffs, commodities in bulk, and commodities which because of size or weight require the use of special equipment), from points in Connecticut, Georgia, Illinois, Indiana,

V 37-72 APR 13 72 XUM

Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin, to the warehouse site of Baker & Hamilton at San Francisco, Calif. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington. D.C., or San Francisco, Calif.

No. MC 135407 (Sub-No. 1), filed March 13, 1972. Applicant: TRI-STATE AIR-FREIGHT, INC., Erickson and Front Streets, Essington, Pa. 19029, Mailing address: Post Office Box 27, Essington, PA 19029. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except classes A and B explosives, commodities in bulk and commodities requiring special equipment) between the Philadelphia International Airport, and Northeast Philadelphia Airport in or near Philadelphia, Pa., on the one hand, and, on the other, points in Bucks, Chester, Delaware, Philadelphia, and Montgomery Counties, Pa., Burlington, Camden, Gloucester, and Salem Counties and Trenton, N.J., and points in Delaware, restricted to traffic having a prior or subsequent movement by air. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 135483 (Sub-No. 2), filed March 20, 1972. Applicant: EARL DOIDGE, Box 125, Greenacres, WA 99016. Applicant's representative: Hugh A. Dressel, 702 Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry wood shavings*, from points in Kootenai County, Idaho, to points in Spokane, Whitman, Grant, Franklin, Benton, Adams, and Lincoln Counties, Wash., under contract with Lumber By-Products Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash., or Coeur d'Alene, Idaho.

No. MC 135519 (Sub-No. 2), filed March 10, 1972. Applicant: GEORGE B. SAMAC AND ANTHONY G. AYALA, a partnership, doing business as QUEEN CITY TRUCKING, 2618 South DeLappe Place, Seattle, WA 98144. Applicant's representative: Joseph O. Earp, 411 Lyon Building, 607 Third Avenue, Seattle, WA 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from Seattle and Tacoma, Wash., and Portland, Oreg., to Spokane, Wash., and points in Idaho and Montana; (2) *scrap metal and pipe*, from points in Idaho and Montana, to Seattle, Wash.; and (3) *hides*, green and salted, from points in Montana, Idaho, and Washington, to Seattle and Tacoma, Wash., and Portland, Oreg. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135802 (Sub-No. 1), filed March 16, 1972. Applicant: GEORGE F. FITZHUGH, doing business as FITZHUGH TRUCKING, 9907 77th Avenue, Everett, WA 98204. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, WA 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing supplies*, from points in California, on the one hand, and, on the other, points in Washington, under contract with Keller Supply Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 136052 (Sub-No. 3), filed March 13, 1972. Applicant: SECURITY CARRIERS, INC., 6210 River Road (Post Office Box 3368), Amarillo, TX 79106. Applicant's representative: Frederick J. Coffman, 521 South 14th Street (Post Office Box 80806), Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed*, (except in bulk), from the plantsite and warehouses facilities of the Thorobred Co., Inc., at or near Waynesville, Ohio, to points in the United States on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international boundary line between the United States and Canada. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr., or Dallas, Tex.

No. MC 136086 (Sub-No. 1), filed March 13, 1972. Applicant: BACIL GUILEY, doing business as GUILEY TRUCKING, 13119 Arrow Route, Fontana, Calif. 92335. Applicant's representative: Milton W. Flack, 4311 Wilshire Boulevard, Suite 300, Los Angeles, CA 90010. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated mobile home and travel trailer chassis components, with or without necessary tools and supplies*, from Hemet, Calif., to Phoenix and Casa Grande, Ariz., under contract with Consolidated Metals of California, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 136192 filed, November 17, 1971. Applicant: NIAGARA HOLDINGS & ENTERPRISES LTD., Wolven Street, Port Rowan, Ontario, Canada. Applicant's representative: Le Roy Smyth (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rough lumber*, from ports of entry on the international boundary line between the United States and the Province of Ontario, Canada, located in Michigan and New York, to points in Michigan, Ohio, Pennsylvania, New York, Indiana, Kentucky, Virginia, West Virginia, and North Carolina, under contract with Abbott and Townsend Ltd. NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y., or Port Huron, or Detroit, Mich.

No. MC 136262 (Sub-No. 2), filed February 23, 1972. Applicant: JEAN C. MORIN, doing business as UNIC PARCEL SERVICE, 410 St. Nicholas Street, Montreal, PQ Canada. Applicant's representative: H. Neil Garson, Court Square West Building, 1400 North Uhle Street, Arlington, VA 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading), between the site of the U.S. Customhouse at or near Highgate Springs, Vt., on the one hand, and, on the other, port of entry on the international boundary line between the United States and Canada located at or near Highgate Springs, Vt. Restriction: The service sought herein is subject to the following conditions: No service shall be rendered in the transportation of any package or article weighing more than 50 pounds or exceeding 108 inches in length and girth combined, and each package or article shall be considered as a separate and distinct shipment. NOTE: If a hearing is deemed necessary, applicant requests it be held at Highgate Springs or Montpelier, Vt.

No. MC 136310 (Sub-No. 1), filed March 6, 1972. Applicant: R. WALKER TRUCKING, INC., 1409 East 19th, The Dalles, OR 97058. Applicant's representative: Douglas A. Wilson, 303 East D Street, Yakima, WA 98901. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Polyethelyn resin*, in bulk, from Torrence and Los Angeles, Calif., to Yakima, Wash.; and (2) *polyethelyn bags and sheets*, in rolls, boxes or bundles, from Yakima, Wash., to points in California, Oregon, Idaho, Montana, Colorado, Arizona, Nevada, and Utah, under contract with Shields Bag and Printing Co. of Yakima, Wash. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland or Seattle, Wash.

No. MC 136337 (Sub-No. 2), filed March 14, 1972. Applicant: RICHARD D. PEASE, doing business as R. P. TRUCKING, Box 16, Mather, WI 54641. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Treated utility poles, crossarms and transformers*, from points in Florida, Alabama, Mississippi, Kentucky, and Tennessee, to points in Wisconsin, under contract with Wisconsin Electric Cooperatives. NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 136451 (Sub-No. 1), filed March 13, 1972. Applicant: HUBBARD CARTAGE, INC., 3737 North Lincoln, Chicago, IL 60613. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer and dry fertilizer material*, from the Nilo warehouse facilities used by Olin Corp., 7 miles southwest of Joliet, Ill., to points in Indiana, Michigan, Ohio, and Wisconsin, under a continuing contract or contracts with Olin Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 136497, filed March 6, 1972. Applicant: KERRY MOTOR LINES, INC., 55 St. Casimir Avenue, Yonkers, NY 10701. Applicant's representative: George J. Hermanspan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* between New York City, N.Y., and points in the New York, N.Y., commercial zone as defined by the Commission, and points in Westchester County, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136533 filed, March 9, 1972. Applicant: ELTON A. WAGNER COMPANY, a corporation, 2427 Batestown Road, Danville, IL 61832. Applicant's representative: Charles R. Young, 4 West Seminary Street, Danville, IL 61832. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foundry materials*, from Columbus, Indianapolis, Kokomo, Lafayette, Crawfordsville, Bloomington, Bedford, Anderson, Richmond, Muncie, Marion, New Castle, Terre Haute, South Bend, Gary, Evansville, and Vincennes, Ind.; Waupaca, Sheboygan, Racine, Fond du Lac, Milwaukee, Green Bay, and Madison, Wis., to Danville, Ill.; (2) *haydite*, from Danville, Ill., to Columbus and Indianapolis, Ind., and (3) *sand and gravel*, from Covington and Attica, Ind., to Danville, Ill. NOTE: If a hearing is deemed necessary, applicant requests it be held at Springfield or Chicago, Ill.

MOTOR CARRIER OF PASSENGERS

No. MC 35690 (Sub-No. 3), filed March 13, 1972. Applicant: CENTRAL N.Y. COACH LINES, INC., 66 Calder Avenue, Yorkville, NY 13495. Applicant's representative: James H. Gilroy, Jr., First National Bank Building, Utica, NY 13503. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in round trip special operations, consisting of round trip all-expense sightseeing or pleasure tours, between Utica and Rome, N.Y., and points in Vermont, New Hampshire, Maine (including points on the international boundary line between the United States and Canada in such States), North Carolina, South Carolina, Georgia, Florida, West Virginia, Tennessee, Mississippi, Alabama, and Louisiana. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Utica or Syracuse, N.Y.

No. MC 128601 (Sub-No. 1), filed December 27, 1971. Applicant: GLYNN S. BOLES, doing business as BOLES BUS LINES, 205 Bunche Avenue, Greenwood, SC 29646. Applicant's representative: Joseph M. McClellan, 701 Grier Building, Greenwood, S.C. 29646. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in charter operations, from Greenwood, S.C., to points in South Carolina, North Carolina, Virginia, Georgia, Florida, and the District of Columbia, and return. NOTE: If a hearing is deemed necessary, applicant requests it be held at (1) Greenwood, S.C., or (2) Anderson, S.C., or (3) Columbia, S.C.

No. MC 135790 (Sub-No. 1), filed February 21, 1972. Applicant: AMERICAN ADVENTURER TRAVEL CAMPS, INC., R.F.D. No. 2, Hattertown Road, Newtown, Conn. 06470. Applicant's representative: Sutherland W. G. Denlinger, 11 Church Hill Road, Newtown, CT 06470. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers* (restricted to tour groups of youths accompanied by tour directors, supervisors, or chaperones) *and their baggage*, in the same vehicle with passengers in special operations, in round trip, all-expense, sightseeing, and camping tours, beginning and ending at Newtown, Conn., and extending to points in the United States (including Alaska but excluding Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., or New York City, N.Y.

APPLICATION FOR BROKERAGE LICENSE

No. MC 12936 (Sub-No. 2), filed March 3, 1972. Applicant: GOOD WILL TOURS, INC., 222 South Main, Route 3, Erie, KS. Applicant's representative: Clark M. Fleming, Legal Building, Erie, Kans. 66733. For a license (BMC-5) to engage in operations as a *broker* at Erie, Kans., in arranging for the transportation in interstate or foreign commerce of *groups of passengers and their baggage*, in round trip pleasure and sightseeing tours, in special and charter operations, originating in Kansas and from points in Jackson, Clay, and Platte Counties, Mo., on the one hand, and, on the other, points in the United States (including Alaska but excluding Hawaii), and points of entry on the international boundary between the United States and Mexico, and between the United States and Canada.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 1515 (Sub-No. 175), filed March 15, 1972. Applicant: GREYHOUND LINES, INC., 1400 West Third Street, Cleveland, OH 44113. Applicant's representative: Barrett Elkins (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular/irregular routes, transporting: Item I Regular routes: *Passengers and their baggage, and express and newspapers*, in the same vehicle with passengers: (1) From Cleveland, Ohio, over Interstate Highway 71 to Louisville, Ky., and return over the same route, serving all intermediate points, (2) from Lodi, Ohio, over Ohio Highway 76 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (3) from Mansfield, Ohio, over Ohio Highway 13 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (4) from Mount Gilead, Ohio, over Ohio Highway 95 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (5) from Delaware, Ohio, over Ohio Highway 36 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (6) from Washington Court House, Ohio, over U.S. Highway 35 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (7) from Wilmington, Ohio, over U.S. Highway 68 to junction Interstate Highway 71 and return over the same route, serving all intermediate points, (8) from Wilmington, Ohio, over Ohio Highway 73 to junction Interstate Highway 71, and return over the same route, serving all intermediate points, (9) from Lebanon, Ohio, over Ohio Highway 123 to junction Interstate Highway 71, and return over the same route, serving all intermediate points, (10) from Lebanon, Ohio, over Ohio Highway 48 to junction Interstate Highway 71, and return over the same route, serving all intermediate points, (11) from Cincinnati, Ohio, over Interstate Highway 75 to its junction with Interstate Highway 275, thence over Interstate Highway 275 to its junction with Interstate Highway 71, and return over the same route, serving all intermediate points, (12) from Sharonville, Ohio, over city streets to junction Interstate Highway 75, and return over the same route, serving all intermediate points, (13) from junction U.S. Highway 22 and Interstate Highway 275, over Interstate Highway 275 to the junction of Interstate Highway 71, and return over the same route, serving all intermediate points, and (14) from Carrollton, Ky., over U.S. Highway 227 to junction Interstate Highway 71 and return over the same route, serving all intermediate points.

Item II Regular route: *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers as follows: Route 1—Between Glenville, and Millstone, W. Va., serving all intermediate points: From Glenville, W. Va., over West Virginia Highway 5 to Grantsville, W. Va., thence over West Virginia Highway 16 to Millstone, W. Va., and return over the same route; Route 2—Between the junction of U.S.

V 37-72
APR 13 72
XUM

Highway 22 and Ohio Highway 48 and the junction of unnumbered highway (Columbia Road) and U.S. Highway 22, serving all intermediate points: From the junction of U.S. Highway 22 and Ohio Highway 48 over Ohio Highway 48 to its junction with unnumbered highway (Columbia Road), thence over unnumbered highway (Columbia Road) to its junction with U.S. Highway 22 and return over the same route; Route 3—Between the junction of Interstate Highway 71 and Kings Mills Road at Interchange No. 27 of Interstate Highway 71 and the junction of Kings Mills Road and Columbia Road, serving all intermediate points: From the junction of Interstate Highway 71 and Kings Mills Road at Interchange No. 27 of Interstate Highway 71 over Kings Mills Road to its junction with Columbia Road and return over the same route; Route 4—Between Elizabethtown, Ky., and the junction of the Bluegrass Parkway and U.S. Highway 60 (east of Versailles, Ky.) serving no intermediate points but serving the junction of the Bluegrass Parkway and U.S. Highway 31E and U.S. Highway 150 near Bardstown, Ky., and U.S. Highway 127 north of Harrodsburg, Ky., for the purpose of joinder only and with access to Versailles, Ky., over Kentucky Highway 33: From Elizabethtown, Ky., over U.S. Highway 62 to its junction with Interstate Highway 65, thence over Interstate Highway 65 to its junction with Bluegrass Parkway, thence over the Bluegrass Parkway to its junction with U.S. Highway 60 and return over the same route. Item III—Irregular route: *Passengers and their baggage in one-way and round trip charter operations* as follows: Originating in points and places in Barbour, Upshur, Randolph, Lewis, Harrison, and Marion Counties, W. Va., and extending to all points in the United States (including Alaska but excluding Hawaii). NOTE: Common control may be involved.

No. MC 2002 (Sub-No. 10), filed March 13, 1972. Applicant: PHILLIP TRANSIT LINES, INC., 1808 East Fifth Street, Washington, DC 63090. Applicant's representative: Tom B. Kretsinger, 450 Professional Building, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel and iron and steel articles*, from Washington, Mo., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Nebraska, Oklahoma, Tennessee, and Wisconsin, and (2) *Rejected, refused, damaged, and returned and retendered commodities and machinery and equipment, materials, and supplies* used in or in connection with the manufacture, fabrication, design, maintenance, production, operation, and transportation of iron and steel and iron and steel articles on return. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority.

No. MC 71459 (Sub-No. 27), filed February 17, 1972. Applicant: O.N.C. MOTOR FREIGHT SYSTEM, a corporation, 2800 West Bayshore Road, Palo Alto, CA 94303. Applicant's representative: Clifford J. Boddington (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission and commodities in bulk), (1) (a) between Sacramento, Calif., and (b) Reno, Nev., and Klamath Falls, Oreg.; (1) (a) from Sacramento, over California Highway 70 to junction U.S. Highway 395, and (b) from Reno over U.S. Highway 395 to junction California Highway 70, thence over U.S. Highway 395 to junction California Highway 36 at Johnstonville, thence over California Highway 36 to Susanville, thence over California Highway 139 to junction Oregon Highway 39 at the Oregon State border, thence over Oregon Highway 39 to junction Oregon Highway 140, thence over Oregon Highway 140 to Klamath Falls, and return over the same routes, serving no intermediate points and serving Klamath Falls and junction California Highway 70 and U.S. Highway 395 for purposes of joinder only, as alternate routes for operations convenience only, in connection with applicant's authorized regular route operations; (2) between Sacramento, Calif., and Reno, Nev.; from Sacramento, over U.S. Highway 50 to junction U.S. Highway 395, near Stewart, Nev., thence over U.S. Highway 395 to Reno, Nev., and return over the same route, serving no intermediate points and serving Reno for purposes of joinder only, as an alternate route for operating convenience only in connection with applicant's regular route operations;

(3) between Reno, Nev., and Kennewick, Wash.; from Reno, Nev., over U.S. Highway 395 to junction U.S. Highway 12, at or near Pasco, Wash., thence over U.S. Highway 12 to Kennewick, Wash., and return over the same route, serving no intermediate points and serving Kennewick for purposes of joinder only, as an alternate route for operating convenience only in connection with applicant's regular route operations; (4) between Kennewick, Wash., and Everett, Wash.; from Kennewick, Wash., over U.S. Highway 395 to junction Washington Highway 17, thence over Washington Highway 17 to Moses Lake, thence over Washington Highway 17/282 to junction Washington Highway 28 at or near Ephrate, thence over Washington Highway 28 to Wenatchee, thence over U.S. Highway 2 to Everett and return over the same route, serving no intermediate points and serving Everett, Wash., for purposes of joinder only, as an alternate route for operating convenience only in connection with applicant's regular route operations; and (5) between junction California Highway 99 (Interstate Highway 5) and California Highway 14 (near Sylmar) and Reno, Nev.; from junction California Highway 99 and California Highway 14 over California Highway 14 to junction U.S. Highway 395 (near Inyokern, Calif.), thence over U.S. Highway 395 to Reno, Nev., and return over the same route, serving no intermediate points and serving Reno for purposes of joinder only, as an alternate route for operating convenience only in connection with applicant's regular route operations.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

United States Government Printing Office,
Washington, D.C. 20402**

FEDERAL REGISTER
Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service,[1] Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

[Docket No. 72–512]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. In § 76.2, paragraph (e)(1) relating to the State of Texas is amended to read:

(e) * * *

(1) *Texas.* That portion of the State of Texas comprised of all Cameron, Fayette, Gonzales, Hidalgo, Lavaca, Starr, Webb, and Willacy Counties.

2. In § 76.2, in paragraph (e)(3) relating to the State of North Carolina, subdivision (ii) relating to Johnston County is amended to read:

(e) * * *

(3) *North Carolina.* * * *

(ii) That portion of Johnston County bounded by a line beginning at the junction of U.S. Highway 301 and U.S. Highway 70; thence, following U.S. Highway 70 in an easterly direction to Secondary Road 2508; thence, following Secondary Road 2508 in a southerly direction to Secondary Road 1007; thence, following Secondary Road 1007 in a westerly direction to the west bank of Polecat Branch; thence, following the west bank of the Polecat Branch in a generally southeasterly, then southerly direction to the Neuse River; thence, crossing the Neuse River in a southerly direction; thence, following the south bank of the Neuse River in a southeasterly direction to the dirt road extension of Secondary Road 1184; thence, following the dirt road extension in a southerly direction to Secondary Road 1184; thence, following Secondary Road 1184 in a southwesterly direction to Secondary Road 1009; thence, following Secondary Road 1009 in a southeasterly direction to Secondary Road 1179; thence, following Secondary Road 1179 in a southwesterly direction to U.S. Highway 701; thence, following U.S. Highway 701 in a northwesterly direction to Secondary Road 1178; thence, following Secondary Road 1178 in a northwesterly direction to U.S. Highway 301; thence, following U.S. Highway 301 in a southwesterly direction to Secondary Road 1162; thence, following Secondary Road 1162 in a northwesterly direction to Secondary Road 1350; thence, following Secondary Road 1350 in a southwesterly direction to Secondary Road 1330; thence, following Secondary Road 1330 in a northwesterly, then generally northeasterly direction to Secondary Road 1010; thence, following Secondary Road 1010 in a southeasterly direction to Secondary Road 1562; thence, following Secondary Road 1562 in a generally northwesterly, then northeasterly direction to Secondary Road 1563; thence, following Secondary Road 1563 in a generally easterly direction to U.S. Highway 70; thence, following U.S. Highway 70 in a southeasterly direction to its junction with U.S. Highway 301.

3. In § 76.2, a new paragraph (e)(5) relating to the State of Georgia is added to read:

(e) * * *

(5) *Georgia.* That portion of Tattnall County bounded by a line beginning at the junction of State Highway 147 and the Tattnall-Toombs County line; thence, following State Highway 147 in a southeasterly, then northeasterly direction to U.S. Highway 280; thence, following U.S. Highway 280 in a northeasterly direction to the Tattnall-Evans County line; thence, following the Tattnall-Evans County line in a generally southeasterly direction to the intersection of the Tattnall-Evans-Liberty County lines; thence, following the Tattnall-Liberty County line in a southwesterly direction to the intersection of the Tattnall-Liberty-Long County lines; thence, following the Tattnall-Long County line in a generally southwesterly direction to the intersection of the Tattnall-Long-Wayne County lines; thence, following the Tattnall-Wayne County line in a northwesterly direction to the intersection of the Tattnall-Wayne-Appling County lines; thence, following the Tattnall-Appling County line in a

[1] The functions prescribed in Part 76 of Chapter I, 9 CFR, have been transferred from the Animal and Plant Health Service, U.S. Department of Agriculture, to the Animal and Plant Health Inspection Service of the Department (37 F.R. 6327, 6505).

V 37-73 APR 14 72 XUM

northwesterly direction to the intersection of the Tattnall-Appling-Toombs County lines; thence, following the Tattnall-Toombs County line in a northeasterly direction to its junction with State Highway 147.

4. In § 76.2, the references to the States of Arkansas, Missouri, and North Carolina in paragraph (f) are deleted, and paragraph (g) is amended by adding thereto the names of the States of Arkansas and Missouri.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended; 37 F.R. 6327, 6505)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine all of Fayette and Lavaca Counties in Texas; an additional portion of Johnston County in North Carolina; and a portion of Tattnall County in Georgia because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined areas.

The amendments exclude Atascosa, Bee, Bexar, De Witt, Duval, Goliad, Jackson, Karnes, Victoria, and Wilson Counties in Texas from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the areas excluded from quarantine.

The amendments delete Arkansas, Missouri, and North Carolina from the list of hog cholera Eradication States in § 76.2(f) and add Arkansas and Missouri to the list of hog cholera Free States in § 76.2(g). The special provisions pertaining to the interstate movement of swine and swine products from Eradication and Free States remain applicable to Arkansas and Missouri. However, the general restrictions pertaining to interstate movement from nonquarantined areas contained in 9 CFR Part 76 will apply to the nonquarantined portions of North Carolina.

Insofar as the amendments impose certain further restrictions necessary to prevent the spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as they relieve restrictions, they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to this Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 11th day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 11422, Amdt. 1-22]

PART 1—DEFINITIONS AND ABBREVIATIONS

Extended Over-Water Operations

The purpose of this amendment to Part 1 of the Federal Aviation Regulations is to accommodate the use of helicopters in various types of operations requiring them to operate at distances greater than 50 miles from the nearest shoreline.

This amendment is based on a notice of proposed rule making (Notice 71-27) published in the FEDERAL REGISTER on September 28, 1971 (36 F.R. 19091).

This amendment to the definition of "extended over-water operation" makes a distinction between those operations conducted with aircraft other than helicopters and those conducted with helicopters. Specifically, this amendment changes the definition to make it encompass a helicopter only if it is being operated more than 50 nautical miles from the nearest shoreline and is not within 50 nautical miles of an off-shore heliport structure.

Comments received in response to Notice 71-27 were almost unanimous in their approval of the proposed amendment. Certain comments expressed the opinion that the definition as amended herein would be detrimental to safety considering the limited gliding ability and seaworthiness of helicopters. However, we do not believe such an opinion is supported by helicopter operating experience under the current definition, which has permitted operations to be conducted up to a distance of 50 miles from the nearest shoreline before coming within the definition of an extended over-water operation, and it is reasonable to assume that operating experience will not differ for helicopter operations conducted up to 50 miles from an off-shore heliport structure, as provided for in the amendment.

With respect to this amendment, it will be noted that two conditions must be satisfied in order for a helicopter operation to become an "extended over-water operation." First, the operation must be over water at a horizontal distance of more than 50 nautical miles from the nearest shoreline; and second, it must be more than 50 nautical miles from an off-shore heliport structure. Accordingly, the operation of a helicopter does not constitute an extended over-water operation when it is being operated within 50 nautical miles from the nearest shoreline, nor does it constitute such an operation when more than 50 nautical miles from the nearest shoreline, if it is being operated within 50 nautical miles of an off-shore heliport structure.

This amendment differs from the proposal by omitting the word "suitable" in describing an "off-shore heliport structure," to ensure consistency with the definition of the term "heliport" as currently prescribed in Part 1.

In consideration of the foregoing, the definition of "extended over-water operation" in § 1.1 of the Federal Aviation Regulations is amended, effective April 14, 1972, to read as follows:

§ 1.1 General definitions.

• • • • •

"Extended over-water operation" means—

(1) With respect to aircraft other than helicopters, and operation over water at a horizontal distance of more than 50 nautical miles from the nearest shoreline; and

(2) With respect to helicopters, an operation over water at a horizontal distance of more than 50 nautical miles from the nearest shoreline and more than 50 nautical miles from an off-shore heliport structure.

• • • • •

(Sec. 313(a), Federal Aviation Act of 1958, 49 U.S.C. 1354(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 10, 1972.

J. H. SHAFFER,
Administrator.

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 707/720 Series Airplanes

Correction

In F.R. Doc. 72-4932 appearing at page 6570 in the issue of Friday, March 31, 1972, the word "required" in the second line of paragraph (a) of the Airworthiness Directive should read "repaired".

[Airspace Docket No. 72-SO-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On February 26, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 4096), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the McRae, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the following transition area is added:

MCRAE, GA.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Telfair-Wheeler Airport (lat. 32°05'46" N., long. 82°52'55" W.); within 3 miles each side of the 030° bearing from McRae RBN (lat. 32°05'40" N., long. 82°53'02" W.), extending from the 7-mile radius area to 8.5 miles northeast of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 6, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc. 72-5674 Filed 4-13-72; 8:45 am]

[Airspace Docket No. 72-SO-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Sumter, S.C., transition area.

The Sumter transition area is described in § 71.181 (37 F.R. 2143). In the description, an extension is predicated on the ILS localizer southwest course and has a designated width of 7 miles and a length of 11.5 miles.

U.S. Standards for Terminal Instrument Procedures (TERPs), issued after extensive consideration and discussion with government agencies and concerned and affected industry groups, are now being applied to update the criteria for airspace approach procedures. The criteria for the designation of controlled airspace protection for these procedures were revised to conform to TERPs and achieve increased and efficient utilization of airspace.

Because of this revised criteria, it is necessary to alter the description to increase the width of the extension predicated on the ILS localizer southwest course to 10 miles and the length to 13.5 miles.

In consideration of the foregoing, notice and public procedure hereon are unnecessary and Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Sumter, S.C., transition area is amended as follows: "• • • within 3.5 miles each side of the ILS localizer southwest course, extending from the 8.5-mile radius area to 11.5 miles southwest of the OM • • •" is deleted and "• • • within 5 miles each side of the ILS localizer southwest course, extending from the 9.5-mile radius area to 13.5 miles southwest of the OM • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 7, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-5675 Filed 4-13-72;8:45 am]

[Airspace Docket No. 71-SO-149]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Selma, Ala., control zone and transition area.

The Selma control zone is described in § 71.171 (37 F.R. 2056) and the transition area is described in § 71.181 (37 F.R. 2143).

U.S. Standards for Terminal Instrument Procedures (TERP's), issued after extensive consideration and discussion with Government agencies concerned and affected industry groups, are now being applied to update the criteria for instrument approach procedures. The criteria for the designation of controlled airspace protection for these procedures were revised to conform to TERP's and achieve increased and efficient utilization of airspace.

Because of this revised criteria, it is necessary to amend the Selma control zone and transition area descriptions.

In consideration of the foregoing, notice and public procedure hereon are unnecessary and Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 30, 1972, as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Selma, Ala., control zone is amended to read:

SELMA, ALA.

Within a 5-mile radius of Craig AFB (lat. 32°20'30" N., long. 86°59'15" W.); within 2 miles each side of the ILS localizer southeast course, extending from the 5-mile-radius zone to 0.5 mile southeast of the LOM; within 1.5 miles each side of Craig TACAN 320° radial, extending from the 5-mile-radius zone to 5 miles northwest of the TACAN.

In § 71.181 (37 F.R. 2143), the Selma, Ala., transition area is amended to read:

SELMA, ALA.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Craig AFB (lat. 32°20'30" N., long. 86°59'15" W.); within 3 miles each side of the ILS localizer southeast course, extending from the 9-mile-radius area to 8.5 miles southeast of the OM; within a 5-mile radius of Selfield Airport (lat. 32°26'25" N., long. 86°57'10" W.); excluding the portion within Montgomery transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 7, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

TYLOSIN

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (41-275V) filed by Elanco Products Co., Post Office Box 1750, Indianapolis, Ind. 46206, proposing an additional safe and effective use of tylosin in combination with sulfamethazine in the feed of swine. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended in § 121.217(d) by editorially revising the heading in the existing table and by revising item 6 in the "Indications for use" column in the table, as follows:

§ 121.217 Tylosin.

• • • • • •

(d) • • •

V 37-73 APR 14 72 XUM

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter V—Office of Assistant Secretary for Community Development, Department of Housing and Urban Development

[Docket No. R–72–150]

PROJECT SELECTION SYSTEMS FOR CERTAIN COMMUNITY DEVELOPMENT PROGRAMS

On November 25, 1971, notice of rule making proposed the addition of new Parts 511, 541, 551, and 561 to Chapter V of Title 24 of the Code of Federal Regulations (36 F.R. 22590). These amendments, based on those proposals, provide the criteria by which the Department will evaluate applications for funding under the Neighborhood Development Program, the Open Space Land Program, the Neighborhood Facilities Program, and the Public Facility Loans Program. In addition, Part 551 supersedes § 540.246, which sets forth project selection criteria for the Open Space Land Program. Statements appearing in said notice of proposed rule making are valid only to the extent that said statements are included in the final Parts 511, 541, 551, and 561 set forth below.

The Department received some 65 comments, a majority of which favored adoption of the proposed regulations. Many of the comments focused on the weight given to specific criteria. Careful consideration has been given to this matter as well as other pertinent suggestions. In response to the comments, the following principal changes have been adopted in the final regulations:

Sections 511.1(b), 541.1(b), 551.1(b) and 561.1(b) have been amplified to clarify procedures used by the Area Offices in applying these project selection systems. Because there must be close coordination of the Community Development projects covered by these regulations with other Department programs, projects involving new communities or such other critical and innovative projects as the Assistant Secretary for Community Development may determine are excluded from those project selection systems.

Sections 541.2, 551.2, and 561.2 now include a specific definition of "'applicant" to prevent any implication that eligibility to apply for assistance under the affected programs is limited by the definitions of "locality."

Sections 511.4(d), 541.4(c), 551.4(a), and 561.4(c) are revised to include as program requisites acceptable assurances of compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601) and the absence of any known impediment to meeting HUD's relocation requirements.

Sections 511.14, 541.12, 551.16, and 561.18 are revised to apply the same criteria (with regard to local equal employment and entrepreneurial effort) to applicants without previous program experience as are used to evaluate applicants with previous program experience.

In §§ 541.14, 551.2, and 561.20, to prevent ambiguity, a definition of the term "service area" is added and in § 511.16 the term "service area" is changed to "NDP area" as defined in § 511.2.

In the Neighborhood Development Program (NDP), § 511.4(f), the citation of FEDERAL REGISTER publication of the Housing Production and Mortgage Credit Project Selection is corrected to read: 37 F.R. 203–9, January 7, 1972. Section 511.10(a) is changed to include projects which will add to the housing stock without displacement. In § 511.10 a new item (9), Inadequate Air and Water Quality, is added to the list of environmental deficiencies. Section 511.12(a)(1) is revised to give credit, among other things, to effective carrying out of relocation activities which involve displacement.

In the Open Space Program, references to "Legacy of Parks" have been deleted to avoid confusion. Section 541.8(c), the number of local regulatory measures required to meet this criterion is increased from three to four; the wording of subparagraphs (5) and (6) is revised for purposes of clarification; and an additional local regulatory measure is added in subparagraph (7). Section 541.10 (a) and (c) are revised to emphasize preventive rather than curative factors. Section 541.10(e) is deleted to reflect the fact that predominantly Historic Preservation projects are not covered by this Project Selection System.

In the Neighborhood Facilities Program, § 551.4 is corrected to show four program prerequisites. In § 551.10 reference is made to the latest available decennial census data rather than to the 1970 Census. Section 551.14(b)(1) is revised to give credit, among other things, to effective carrying out of relocation activities which involve displacement.

In §§ 511.16(a) (1) and (2), 541.14(a) (1) and (2), 551.18(a) (1) and (2), and 561.20(a) (1) and (2) points are decreased to diminish emphasis on the median income of the jurisdiction and to increase emphasis on Community Development activities, §§ 511.22, 541.20, 551.24, and 561.26.

Sections 511.20(a), 541.18(a), 551.22(a), and 561.24(a) are amplified to distinguish between the locality of the applicant and the jurisdiction of the applicant. This will insure that where the applicant is a public body that does not have jurisdiction with regard to housing, the locality's record can be measured.

In the Public Facility Loans Program, in § 561.4, the citation concerning Part B, Urban Growth and New Community Development Act of 1970 is corrected. Section 561.6, Type of Project is removed as a criteria for evaluating projects under this system, in conjunction with the change made in § 561.1(b). Consequently, this section is re-lettered, and § 561.10 is reserved.

Accordingly, Chapter V of Title 24 of the Code of Federal Regulations is amended, effective on May 15, 1972, by (1) deleting § 540.246 of Part 540, and (2) by adding new Parts 511, 541, 551, and 561 to read as set forth below.

FLOYD H. HYDE,
Assistant Secretary
for Community Development.

PART 511—NEIGHBORHOOD DEVELOPMENT PROGRAM PROJECT SELECTION SYSTEM

Sec.
511.1 Scope.
511.2 Definitions.
511.4 Program prerequisites.
511.6 Criteria for evaluating applications.
511.8 Local effort and coordination.
511.10 Impact of area selected.
511.12 Program management capacity.
511.14 Local equal employment and entrepreneurial effort.
511.16 Local need.
511.18 Commitment of local, county, State, and Federal entities to project or program.
511.20 Expansion of housing for low- and moderate-income families.
511.22 Community development.

AUTHORITY: The provisions of this Part 511 issued under secs. 131–134, of the Housing Act of 1949, as amended, 82 Stat. 518–520; 42 U.S.C. 1469–1469c.

§ 511.1 Scope.

(a) *Purpose.* This part sets forth criteria and procedures to be used in preliminary evaluation of applications for Federal loan and grant assistance to local public bodies and agencies for Neighborhood Development Programs, which are urban renewal undertakings and activities, in one or more urban renewal areas, that are planned and carried out on the basis of annual increments.

(b) *Procedures.* Submissions will first be reviewed against six prerequisites. If any of these prerequisites are not met, the application will be rejected. If the application appears to meet the prerequisites, it will be evaluated against the point rated criteria and assigned a point rating. Then, depending upon the relative rating of the application among other such applications pending in the area office, the applicant may be asked to submit further application material, with supporting documentation so that a final decision on the grant may be reached. Such application material is subject to reviews to determine compliance of the application with basic eligibility and technical requirements. If an application does not receive a high enough point rating to qualify for funding as compared to other pending applications, or if the application cannot meet basic eligibility or technical requirements, the application and any supporting documents will be returned to the applicant with advice as to the areas of deficiency. Remedial action regarding the deficiencies must be undertaken before the proposal may be reconsidered. The provisions of these regulations do not apply to projects involving New Communities, or such other critical or innovative projects as the Assistant Secretary for Community Development may determine. The Department reserves the right to negotiate the modification of the scope of the proposed undertaking and/or the amount of financial assistance requested.

§ 511.2 Definitions.

As used in the regulations in this part:

(a) "Applicant" means a local public agency as defined under sec. 110(h) of the Housing Act of 1949; 63 Stat. 413, 421; 42 U.S.C. 1460(h), which is applying for Federal Assistance under the Neighborhood Development Program.

(b) "City Demonstration Agency" means that agency which was required to be established under title I of the Demonstration Cities and Metropolitan Development Act of 1966, 80 Stat. 1255, 42 U.S.C. 3301, to carry out a Model Cities program at the local level.

(c) "Locality" means the political jurisdiction or jurisdictions having general purpose government powers upon whose behalf the application for Federal assistance has been submitted.

(d) "Low and moderate income" means an income level which is less than the maximum income eligibility level for a family of four under either of the subsidized housing programs authorized by section 235 or 236 of the National Housing Act, as amended, 82 Stat. 476, 477, 498, 12 U.S.C. 1715Z, 1715Z–1.

(e) "Low- and moderate-income housing" refers to housing with a fair market value that is equal to or less than the resultant of multiplying the section 235–236 maximum income for a family of four, as established by the Secretary for the county in which the project is located, by a factor of 3. "Low- and moderate-income housing" also refers to housing with an annual rental equal to or less than one-third of such section 235–236 maximum income.

(f) "Model neighborhood" means that geographical area in which funds are being spent under a program authorized by title I of the Demonstration Cities and Metropolitan Development Act of 1966, 80 Stat. 1255, 42 U.S.C. 3301.

(g) "NDP area" means the area or areas in which urban renewal project activities are taking place or are to take place under a neighborhood development program.

(h) "Renewal experience" means those renewal efforts and related relocation activities carried out under one or more urban renewal projects under sec. 110(c) of the Housing Act of 1949, as amended, 63 Stat. 413, 414; 42 U.S.C. 1450; or a Neighborhood Development Program as described in sections 131–134 of said Housing Act.

§ 511.4 Program prerequisites.

For the Neighborhood Development Program there are the following six prerequisites:

(a) *Workable program.* The presence of a certified or certifiable Workable Program pursuant to section 101(c) of the Housing Act of 1949, as amended, Public Law 81–171, 63 Stat. 413; U.S.C. 1451c. By "certifiable workable program" is meant a reasonable probability of certification or recertification based upon submitted materials and local progress towards meeting certification standards and conditions as indicated in HUD's Handbook for the Workable Program, RHA 7100.

(b) *Local general plan.* The presence of a local general plan, and conformance of the project thereto. A "local general plan" is defined as an official document or documents containing a land use plan, thoroughfare plan, community facilities plan, public improvement program, zoning ordinance and map, and subdivision regulations so interrelated that taken together they serve as a comprehensive guide for the physical development of the locality as a whole. The plan must have been endorsed or adopted by the local governing body of the locality in which the NDP is proposed.

(c) *Civil rights.* Submission of acceptable assurances of compliance with title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 252, 42 U.S.C. 2000d and HUD title VI regulations 24 CFR Part I, 29 F.R. 16280 and with affirmative action plan requirements pursuant to Executive Order 11246, as amended, 30 F.R. 12319, and HUD regulations 24 CFR Part 130, 36 F.R. 20688.

(d) *Relocation requirements (if applicable).* (1) Submission of acceptable assurance of compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 42 U.S.C. 4601, and;

(2) Absence of any known impediment to the applicant's ability to meet HUD relocation requirements and the applicant's and/or locality's ability to fulfill requirements for replacement housing. "Known impediment" refers to a practical inability to provide adequate relocation assistance and replacement housing, or a legal inability to comply with relocation-related provisions of Title I of the Housing Act of 1949, 63 Stat. 413, 414; 42 U.S.C. 1450, et seq.

(e) *A–95 coordination.* Evidence that A–95 coordination is in process. The phrase "A–95 coordination" refers to the procedure involving review of applications by the appropriate agency designated under OMB Circular A–95.

(f) *Housing component.* Absence of any known barrier to an adequate or better rating on the Housing Production and Mortgage Credit Project Selection System (37 F.R. 203–9, January 7, 1972) for any subsidized housing required to meet the housing component for the program.

§ 511.6 Criteria for evaluating applications.

Criteria for evaluating applications are divided into the following major categories:

(a) Local effort and coordination;
(b) Impact of area selected;
(c) Program management capacity;
(d) Local equal employment and entrepreneurial effort;
(e) Local need;
(f) Commitment of local, county, State, and Federal entities to project or program;
(g) Expansion of housing for low- and moderate-income families;
(h) Community development.

The elements considered in each category are described in the following sections, and the method of assigning rating points to each element or category is set forth. Points are awarded to each element or category in the following manner unless otherwise specifically indicated: If a statement under a particular element or category applies specifically to the project application under consideration, the application is awarded the number of points assigned to that statement. If no statement applies, no points are awarded to the application for that element.

§ 511.8 Local effort and coordination.

(The value of this category is the sum of the values of paragraphs (a) and (b) of this section.)

(a) *Budget and capital improvement plan.* All necessary project related public improvements, facilities, and services are identified in the appropriate local budg-

FEDERAL REGISTER, VOL. 37, NO. 73—FRIDAY, APRIL 14, 1972

V37-773 APR 14 72 XUM

ets and/or capital improvements plan, except those included in project costs ---------- 5

(b) *Model cities.* The NDP area is in whole or in part a Model Neighborhood, and there exists a statement by the City Demonstration Agency Director that the activities for which funding is requested are consistent with the goals and objectives of the Model Neighborhood plan ---------- 5

§ 511.10 Impact of area selected.

(The value of this category is the sum of the values of paragraphs (a) to (d) of this section.)

(a) *Rehabilitation or addition of housing.* Seventy-five percent of the existing substandard residential units in the NDP area will be rehabilitated, and 75 percent of the total units will be retained, or the project will add to the housing stock without displacement---------- 7

"Substandard residential units" refer to those residential units which are out of compliance with the appropriate local housing and building codes.

(b) *Redevelopment areas.* The NDP area is in a designated redevelopment area as defined by the Public Works and Economic Development Act of 1965, as amended Public Law 89–136, 79 Stat. 552, 42 U.S.C. 3121, and the program shows evidence of conformance to the Overall Economic Development Plan for that area ---------- 4

(c) *Environmental deficiencies.* The locality is taking active steps (including those proposed under the NDP) to eliminate environmental deficiencies in the NDP area, including but not limited to any among those listed below---------- 4

(1) Overcrowding of land.
(2) Substantial substandard housing.
(3) Lack of open space.
(4) Transportation (including parking) deficiencies.
(5) Inadequate public facilities, including those for water, sewage, and solid waste.
(6) Incompatible land uses.
(7) Incompatible types of building uses.
(8) Underutilized land---------- 4
(9) Inadequate air and water quality.

(d) Expansion of low- and moderate-income housing. The program contributes to the realistic plan referred to in § 511.20(c) ---------- 4

§ 511.12 Program management capacity.

(The value of this category is the sum of the values of either paragraphs (a) or (b) of this section. For purposes of this section, 4 points equals good, 8 points equals superior.)

(a) *Locality that has had previous renewal experience.* (The value of this element is the sum of subparagraphs (1) and (2) of this paragraph.)

(1) There is consistency between past project(s) results and relevant project objectives, including, where displacement was involved, the effective carrying out of relocation activities---------- 4 or 8

(2) Since July 1, 1968, there has been a reasonable relationship between past initial cost and time commitments and actual cost and development time- 4 or 8

(b) *Locality that is without previous renewal experience.* (The value of this element is the sum of subparagraphs (1), (2), and (3) of this paragraph.)

(1) The applicant is organizationally part of a local general purpose government ---------- 4

(2) There is a likelihood of successful execution and completion of the proposed NDP, based on the relationship to the proposed NDP activities of the following factors:

(i) Administrative budget.
(ii) Time phasing for critical events.
(iii) Staff assignments.
(iv) Budgeted activities of other local agencies ---------- 4 or 8

(3) Either the locality's performance with other HUD programs in the last 3 years was satisfactory in all programs, or

For localities without other HUD program experience, the locality's performance in its public development efforts during the last 3 years was satisfactory ---------- 4

§ 511.14 Local equal employment and entrepreneurial effort.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) Activities undertaken by the locality have provided relatively superior opportunities for training and/or employment of minority persons---------- 3

(b) Activities undertaken by the locality have provided relatively superior opportunities for business concerns owned, controlled, or managed in substantial part by minority persons---- 3

(c) The applicant has taken affirmative action in its own employment in the training and/or employment of minority persons with relatively superior results ---------- 4

In determining whether or not performance has been "relatively superior" the following items will be taken into consideration: Absolute numbers of persons actually trained or hired in relation to numbers of minority group persons in the labor market area; total dollar value of contracts let to minority entrepreneurs in relation to total dollar amount of contracts let by locality; within the administering agency, racial composition at all levels of employment and absolute number of training opportunities made available to minority group persons.

§ 511.16 Local need.

(The value of this category is the sum of the values of paragraphs (a) and (b) of this section.)

(a) *Median income of jurisdiction.* The median annual family income of the geographic area of jurisdiction of the applicant compared to the State median annual family income is: (Select one, if appropriate):

(1) $1–$500 below State median---- 3
(2) More than $500 below State median ---------- 6

(b) *Median income of NDP area.* The median annual family income of the NDP area compared to the State annual median family income is: (Select one if appropriate):

(1) $1–$500 below State median---- 4
(2) More than $500 below State median ---------- 8

Median family incomes for the NDP area and the State are to be obtained by utilizing the City-County Data Book or other census data if possible. Or use best available data.

§ 511.18 Commitment of local, county, State, and Federal entities to project or program.

(The value of this category is the sum of paragraphs (a) to (d) of this section.)

(a) *Local commitment.* There was substantial participation by the chief executive and governing body of the locality during the planning of the project, and they are demonstrating current public commitment in support of the project ---------- 4

(b) *Resident commitment.* There was effective widespread participation of a representative spectrum of NDP area residents in the development of project objectives and there is evidence of current support for the execution of the project ---------- 4

(c) *Coordination of resources.* There was substantial participation of other local agencies during planning, and there is a current commitment including resources, from Federal, State, county, or local entities other than those necessary to satisfy the local share requirement ---------- 4

(d) *Participation in areawide or metropolitan planning.* There is active participation by the locality's representatives in the areawide or metropolitan planning organization---------- 3

§ 511.20 Expansion of housing for low- and moderate-income families.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) *Expansion of low- and moderate-income housing (applicant).* Within the applicant's geographic area of jurisdiction, there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way---------- 3

(b) *Expansion of low- and moderate-income housing (locality).* Within the locality in which the project is located there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way---------- 3

(c) *Dispersion of low- and moderate-income housing.* The locality has a realistic plan to expand the supply of standard low- and moderate-income housing in a nondiscriminatory way outside areas of concentration of economically disadvantaged or minority citizens-------- 4

§ 511.22 Community development.

The degree to which the project is necessary for undertaking other publicly supported community development activities---------- 0 to 6

"Community development activities" refers to those publicly supported physical development activities and those related social or economic development activities being carried out or to be carried out within a reasonable period of time in accordance with a locally determined or areawide plan or strategy. Factors taken into consideration may include the project's responsiveness to local needs and objectives, the economics possible through coordinated or joint action, the degree of support by the appropriate unit(s) of local general-purpose government, and the management capacity within local general-purpose government.

PART 540—OPEN-SPACE LAND

§ 540.246 [Deleted]

Section 540.246 is deleted.

PART 541—OPEN SPACE LAND PROGRAM PROJECT SELECTION SYSTEM

Sec.
541.1 Scope.
541.2 Definitions.
541.4 Program prerequisites.
541.6 Criteria for evaluating applications.
541.8 Local effort and coordination.
541.10 Projects ability to meet open space needs.
541.12 Local equal employment and entrepreneurial effort.
541.14 Local need.
541.16 Commitment of local, county, State, and Federal entities to project or program.
541.18 Expansion of housing for low- and moderate-income families.
541.20 Community development.

AUTHORITY: The provisions of this Part 541 issued under Title VII of the Housing Act of 1961, 75 Stat. 183, 42 U.S.C. 1500, as amended by Title VI of the Housing and Urban Development Act of 1970, 84 Stat. 1781, 42 U.S.C. 1500.

§ 541.1 Scope.

(a) *Purpose.* This part sets forth criteria and procedures to be used in preliminary evaluation of applications for Federal grant assistance to local public bodies and agencies for the Open Space Land Program.

(b) *Procedures.* (1) Submissions will first be reviewed against five prerequisites. If any of these prerequisites are not met, the application will be rejected. If the application meets all prerequisites, it will be evaluated against the point rated criteria and assigned a point rating.

(2) Then, depending upon the relative rating of the application among other such applications pending in the area office, the applicant may be asked to submit further application material, with supporting documentation so that a final decision on the grant may be reached. Such application material is subject to reviews to determine compliance of the application with basic eligibility and technical requirements.

(3) If an application does not receive a high enough point rating to qualify for funding as compared to other pending applications, or if the application cannot meet basic eligibility or technical requirements, the application and any supporting documents will be returned to the applicant with advice as to the areas of deficiency. Remedial action regarding the deficiencies must be undertaken before the proposal may be considered.

(4) The provisions of the regulations in this part do not apply to projects involving predominantly Historic Preservation Activities, New Communities, or such other critical or innovative projects as the Assistant Secretary for Community Development may determine.

(5) The Department reserves the right to negotiate the modification of the scope of the proposed undertaking and/or the amount of financial assistance requested.

§ 541.2 Definitions.

As used in the regulations in this part:

(a) "Applicant" means a State or local public body (as defined in sections 709 (3) and (4) of Title VII of the Housing Act of 1961, 75 Stat. 183, 42 U.S.C. 1500, as amended by Title IV of the Housing and Urban Development Act of 1970, 84 Stat. 1781, 42 U.S.C. 1500), which is applying for Federal assistance under the Open Space Land Program.

(b) "City Demonstration Agency" means that agency which was required to be established under title I of the Demonstration Cities and Metropolitan Development Act of 1966, 80 Stat. 1255, 42 U.S.C. 3301, to carry out a Model Cities program at the local level.

(c) "Locality" means the political jurisdiction or jurisdictions having general-purpose government powers upon whose behalf the application for Federal assistance has been submitted.

(d) "Low and moderate income" means an income level which is less than the maximum income eligibility level for a family of four for the county in which the project is to be located under either of the subsidized housing programs authorized by section 235 or 236 of the National Housing Act, as amended 82 Stat. 476, 477, 498; 12 U.S.C. 17152, 17152–1.

(e) "Low- and moderate-income housing" refers to housing with a fair market value that is equal to or less than the resultant of multiplying the section 235–236 maximum income for a family of four, as established by the Secretary for the county in which the project is located, by a factor of 3. "Low- and moderate-income housing" also refers to housing with an annual rental equal to or less than one-third of such section 235–236 maximum income.

(f) "Model neighborhood" means that geographical area in which funds are being spent under a program authorized by title I of the Demonstration Cities and Metropolitan Development Act of 1966, 80 Stat. 1255, 42 U.S.C. 3301.

§ 541.4 Program prerequisites.

For the Open Space Land Program there are the following five prerequisites:

(a) *Certified areawide planning jurisdiction.* The locality is in a certified areawide planning jurisdiction. For definition of "certified areawide planning jurisdiction" see HUD Circular 6415.1A and 6415.3.

(b) *Civil rights.* Submission of acceptable assurances of compliance with title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 252, 42 U.S.C. 2000d and HUD title VI regulations 24 CFR Part I, 29 F.R. 16280 and with affirmative action plan requirements pursuant to Executive Order 11246, as amended 30 F.R. 12319, and HUD regulations 24 CFR Part 130, 36 F.R. 20688.

(c) *Relocation requirements (if applicable).* (1) Submission of acceptable assurances of compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 42 U.S.C. 4601; and

(2) Absence of any known impediment to the applicant's ability to meet HUD relocation requirements and the applicant's and/or locality's ability to fulfill requirements for replacement housing. "Known impediment" refers to a practical inability to provide adequate relocation assistance.

(d) *A–95 coordination.* Evidence that A–95 coordination is in process. The phrase "A–95 coordination" refers to the procedure involving review of applications by the appropriate agency designated under OMB Circular A–95.

(e) *National Register of Historic Places.* For historic and architectural preservation assistance the project must involve property or open space land which is listed on the National Register of Historic Places. The "National Register of Historic Places" is a record of culturally significant property maintained by the National Park Service, U.S. Department of the Interior. See section 101 of the Historic Preservation Act of 1966, Public Law 89–665, 80 Stat. 915, 16 U.S.C. 470.

§ 541.6 Criteria for evaluating applications.

Criteria for evaluating applications are divided into the following major categories:

(a) Local effort and coordination;
(b) Projects ability to meet open space needs;
(c) Local equal employment and entrepreneurial effort;
(d) Local need;
(e) Commitment of local, county, State, and Federal entities to project or program;
(f) Expansion of housing for low- and moderate-income families;
(g) Community development.

The elements considered in each category are described in the following sections, and the method of assigning rating points to each element or category is set forth. Points are awarded to each element or category in the following manner a statement under a particular element or category applies specifically to the project application under consideration, the application is awarded the number of points assigned to that statement. If no statement applies, no points are awarded to the application for that element.

V 37-73 APR 14 72 XUM

§ 541.8 **Local effort and coordination.**

(The value of this category is the sum of the values of paragraphs (a) to (d) of this section.)

(a) *Budget and capital improvement plan.* All necessary project related public improvements, facilities, and services are identified in the appropriate local budgets and/or capital improvement plan, except those included in projects costs ---------- 4

(b) *Model Cities.* The project area in whole or in part is in a Model Neighborhood and there exists a statement by the City Demonstration Agency Director that the activities for which funding is requested are consistent with the goals and objectives of the Model Neighborhood's plan---------- 3

(c) *Local regulatory measures.* The project is coordinated with other programs and regulations to improve the quality of the environment, as evidenced by the fact that the locality has adopted and is enforcing regulatory measures to reduce blight and decay and to preserve and promote open space and historic resources. These regulatory measures must include at least four of the following ---------- 4

(1) Requirements for undergrounding of utilities;

(2) Adoption and enforcement of litter control, weed abatement, or sign control regulations;

(3) Subdivision regulations requiring open space dedication;

(4) Cluster zoning or planned unit developments; "Cluster Zoning or Planned Unit Development" are regulations enacted by the locality that encourage the grouping and placement of structures in such a manner as to create or reserve open space.

(5) Regulations permitting relaxation of set back and height controls, or development rights transfer, to provide open space or protect historic structures in core areas;

(6) Ordinances to protect historic sites, districts, buildings, structures, and objects.

(7) Regulations to prevent deterioration of ambient air quality.

(d) *Low- and moderate-income housing.* The project is related to and coordinated with the provision of low- and moderate-income housing ---------- 4

§ 541.10 **Projects ability to meet open space needs.**

(The value of this category is the sum of the values of paragraphs (a) to (e) of this section.)

(a) *Environment.* Effect on the environment (The value of this section is the sum of subparagraphs (1) to (5) of this paragraph.)

(1) The project involves substantial environmental improvement activities in a predominantly residential area or includes some Historic Preservation Activities ---------- 2

(Projects involving predominantly Historic Preservation Activities are excluded from this project selection system in § 541.1(b).)

"Environmental improvement activities" are those development activities, excluding park development, designed to improve the overall appearance of a locality or neighborhood. These activities are designed to prevent community blight and decay, and can include street tree planting, redesigning street furniture, and improving pathways.

(2) The project will help prevent unsound development---------- 2

"Unsound development" refers to undesirable and hazardous development of flood plains, steep slopes, faults, or any other similarly unsuited area.

(3) The project will alleviate a deficiency of open space---------- 2

"Deficiency of Open Space" means that there is less than 2.5 acres of existing public open space per thousand population.

(4) The project will alleviate an unmet recreation need by providing a recreation facility of a type not currently available to the service area population ---------- 3

(5) The project preserves ecologically significant areas or conserves scenic areas ---------- 2

"Ecologically significant" refers to unusual, specific, resource-oriented open space areas such as wildlife sanctuaries, geysers, waterfalls, wet lands, and sand dunes.

(b) *Population served.* The project will readily serve a substantial number of low and moderate income residents. 7

(c) *Patterns of urban growth.* The project will help curb urban sprawl or involves undeveloped or predominately undeveloped land which, if withheld from commercial, industrial, and residential development, would have special significance in helping to shape desirable patterns of urban growth---------- 5

"Urban sprawl" refers to random and unguided development outward from urban centers. It is usually characterized by groups of large scale, low density residential developments, interspersed and surrounded by commercial and industrial development. Projects that can help alleviate and curb urban sprawl are projects designed to guide large scale growth or act as a buffer by separating incompatible land uses.

(d) *Danger of loss.* The project site is in imminent danger of loss--------- 3

"Imminent Danger of Loss" means that the project is threatened by action which will prevent the use of the area or property for open space or historic preservation purposes.

(e) *Program experience.* (1) If applicant had previous federally assisted program experience: The applicant has expeditiously acquired properties; where displacement was involved, effectively carried out relocation activities; expeditiously developed the properties; sponsors programs for their use; and operates them in accordance with contract conditions---------- 4

or

(2) If the applicant is without federally assisted program experience: The applicant has well maintained public open spaces, sponsors programs for their use, and operates those programs in a nondiscriminatory manner------ 4

§ 541.12 **Local equal employment and entrepreneurial effort.**

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) Activities undertaken by the locality have provided relatively superior opportunities for training and/or employment of minority persons-------- 3

(b) Activities undertaken by the locality have provided relatively superior opportunities for business concerns owned, controlled, or managed in substantial part by minority persons-----3

(c) The applicant has taken affirmative action in its own employment in the training and/or employment of minority persons, with relatively superior results ----------4

In determining whether or not performance has been "relatively superior", the following items will be taken into consideration: Absolute numbers of persons actually trained or hired in relation to numbers of minority group persons in the labor market area; total dollar value of contracts let to minority entrepreneurs in relation to total dollar amount of contracts let by locality; within the administering agency, racial composition at all levels of employment and absolute number of training opportunities made available to minority group persons.

§ 541.14 **Local need.**

(The value of this category is the sum of the values of paragraphs (a) and (b) of this section.)

(a) *Median income of jurisdiction.* The median annual family income of the geographic area of jurisdiction of the applicant compared to the State median annual family income is: (Select one, if appropriate):

(1) $1–$500 below State median---- 3

(2) more than $500 below State median ---------- 6

(b) *Median income of service area.* The median annual family income of the service area compared to the State annual median family income is: (Select one if appropriate):

(1) $1–$500 below State median---- 4

(2) more than $500 below State median ---------- 8

Median family incomes for the service area and the State are to be obtained by utilizing the City County Data Book or other census data if possible. Or use best available data. "Service Area" refers to the area proposed to be, and reasonably capable of being, served by the Open Space Land Project.

§ 541.16 **Commitment of local, county, State, and Federal entities to project or program.**

(The value of this category is the sum of paragraphs (a) to (d) of this section.)

(a) *Local commitment.* There was substantial participation by the chief executive and governing body of the locality during the planning of the project, and they are demonstrating current public commitment in support of the project ---------- 4

(b) *Resident commitment.* There was effective widespread participation of a representative spectrum of service area residents in the development of project objectives and there is evidence of current support for the execution of the project ---------- 4

(c) *Coordination of resources.* There was substantial participation of other local agencies during planning, and there is a current commitment including resources, from Federal, State, county, or local entities other than those necessary to satisfy the local share requirement-- 4

(d) *Participation in areawide or metropolitan planning.* There is active participation by the locality's representatives in the areawide or metropolitan planning organization---------- 3

§ 541.18 **Expansion of housing for low- and moderate-income families.**

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) *Expansion of low- and moderate-income housing (applicant).* Within the applicant's geographic area of jurisdiction, there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way----------3

(b) *Expansion of low- and moderate-income housing (locality).* Within the locality in which the project is located there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way----------3

(c) *Dispersion of low- and moderate-income housing.* The locality has a realistic plan to expand the supply of standard low- and moderate-income housing in a nondiscriminatory way outside areas of concentration or economically disadvantaged or minority citizens-------4

§ 541.20 **Community development.**

The degree to which the project is necessary for undertaking other publicly supported community development activities ---------- 0 to 6

"Community development activities" refers to those publicly supported physical development activities and those related social or economic development activities being carried out or to be carried out within a reasonable period of time in accordance with a locally determined or areawide plan or strategy. Factors taken into consideration may include the project's responsiveness to local needs and objectives, the economies possible through coordinated or joint action, the degree of support by the appropriate unit(s) of local general-purpose government, and the management capacity and efforts to develop management capacity within local general-purpose government.

551.18 Local need.
551.20 Commitment of local, county, State, and Federal entities to project or program.
551.22 Expansion of housing for low- and moderate-income families.
551.24 Community development.

AUTHORITY: The provisions of this Part 551 issued under sec. 703, of the Housing and Urban Development Act of 1965, 79 Stat. 491; 42 U.S.C. 3103.

§ 551.1 **Scope.**

(a) *Purpose.* This part sets forth criteria and procedures to be used in preliminary evaluation of applications for Federal grant assistance to local public bodies and agencies for Neighborhood Facilities Grant Projects.

(b) *Procedures.* (1) Submissions will first be reviewed against four prerequisites. If any of these prerequisites are not met, the application will be rejected. If the application meets all prerequisites, it will be evaluated against the point rated criteria and assigned a point rating. Then, depending upon the relative rating of the application among other such applications pending in the area office, the applicant may be asked to submit further application material, with supporting documentation so that a final decision on the grant may be reached. Such application material is subject to reviews to determine compliance of the application with basic eligibility and technical requirements.

(2) If an application does not receive a high enough point rating to qualify for funding as compared to other pending applications, or if the application cannot meet basic eligibility or technical requirements, the application and any supporting documents will be returned to the applicant with advice as to the areas of deficiency. Remedial action regarding the deficiencies must be undertaken before the proposal may be reconsidered. The provisions of these regulations do not apply to projects involving New Communities, or such other critical or innovative projects as the Assistant Secretary for Community Development may determine. The Department reserves the right to negotiate the modification of the scope of the proposed undertaking and/or the amount of financial assistance requested.

§ 551.2 **Definitions.**

As used in the regulations in this part:

(a) "Applicant" means a local public body or agency, as defined in section 706 (b) of the Housing and Urban Development Act of 1965, 79 Stat. 451, 489, 42 U.S.C. 3101, which is applying for Federal assistance under the Neighborhood Facilities Grant Program.

(b) "Locality" means the political jurisdiction or jurisdictions having general purpose government powers upon whose behalf the application for Federal assistance has been substituted.

(c) "Low and moderate income" means an income level which is less than the maximum income eligibility level for a family of four for the county in which the project is to be located under either of the subsidized housing programs authorized by section 235 or 236 of the National Housing Act, as amended, 82 Stat. 476, 477, 498, 12 U.S.C. 1715Z, 1715Z–1.

(d) "Low- and moderate-income housing" refers to housing with a fair market value that is equal to or less than the resultant of multiplying the section 235–236 maximum income for a family of four, as established by the Secretary, for the county in which the project is located, by a factor of 3." Low- and moderate-income housing" also refers to housing with an annual rental equal to or less than one-third of such section 235–236 maximum income.

(e) "Service Area" means the area proposed to be, and reasonably capable of being, served by the Neighborhood Facilities Grant Project.

§ 551.4 **Program requisites.**

For the Neighborhood Facilities Grant Program there are the following four prerequisites:

(a) *Relocation requirements (if applicable).* (1) Submission of acceptable assurances of compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894, 42 U.S.C. 4601).

(2) Absence of any known impediment to the applicant's ability to meet HUD relocation requirements and the applicant's and/or locality's ability to fulfill requirements for replacement housing. Known impediment refers to a practical inability to provide adequate relocation assistance.

(b) *Civil rights.* Submission of acceptable assurances of compliance with title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 252, 42 U.S.C. 2000d and HUD Title VI regulations 24 CFR Part I, 29 F.R. 16280 and with affirmative action plan requirements pursuant to Executive Order 11246, as amended 30 F.R. 12319, and HUD regulations 24 CFR Part 130, 36 F.R. 20688.

(c) *Service area.* The service area of the facility is reasonable in relationship to the services to be provided, and the design and capacity of the proposed facility.

V 37-73
APR 14 72
XUM

(d) *Project location.* The project is so located as to be available for use by a significant portion (or number in the case of large urban places) of the area's low- and moderate-income residents.

§ 551.6 Criteria for evaluating applications.

Criteria for evaluating applications are divided into the following major categories:

(a) Relationship to comprehensive planning;
(b) Income level of area to be served;
(c) Relevance of program objectives;
(d) Capacity to administer the neighborhood facility;
(e) Local equal employment and entrepreneurial effort;
(f) Local need;
(g) Commitment of local, county, State, and Federal entities to project or program;
(h) Expansion of housing for low- and moderate-income families;
(i) Community development;

The elements considered in each category are described in the following sections, and the method of assigning rating points to each element or category is set forth. Points are awarded to each element or category in the following manner unless otherwise specifically indicated: If a statement under a particular element or category applies specifically to the project application under consideration, the application is awarded the number of points assigned to that statement. If no statement applies, no points are awarded to the application for that element.

§ 551.8 Relationship to comprehensive planning.

(The value of this category is the value of paragraph (a) of this section).

(a) *General plan.* The proposed facility is specifically identified in the locality's general plan ---------- 5

§ 551.10 Income level of area to be served.

(The value of this category is the value of paragraphs (a), (b), or (c) of this section, as applicable.)

(a) *Population served.* On the basis of the latest available decennial census data 40–49 percent of the families whose needs are proposed to be served by the facility are low- and moderate-income families ---------- 5

"Low- and moderate-income" is defined in § 551.2(c).

(b) *Population served.* On the basis of the latest available decennial census data, 50–59 percent of the families whose needs are proposed to be served by the facility are low- and moderate-income families ---------- 10

(c) *Population served.* On the basis of the latest available decennial census data, 60 percent or over of the families whose needs are proposed to be served by the facility are low- and moderate-income families ---------- 14

§ 551.12 Relevance of program objectives.

(The value of this category is the sum of paragraphs (a) to (c) in this section.)

(a) *Accessibility to low- and moderate-income persons.* The proposed facility will be made readily accessible to low- and moderate-income persons outside the immediate neighborhood ---------- 3

(b) *Provision of community service.* The proposed facility will provide a program of community services to meet identified needs of low- and moderate-income families and individuals where present service and facilities do not exist ---------- 8

(c) *Coordination of existing services.* The proposed Neighborhood Facility Program will coordinate and extend existing health, recreation, social or similar community services to meet the identified needs of the population of the area to be served ---------- 5

"Identified Needs" refer to those priority needs determined by the applicant with the participation of the community residents whose needs are to be served.

§ 551.14 Capacity to administer the Neighborhood Facility.

(The value of this category is the sum of paragraphs (a) and (b) of this section.)

(a) *Local commitment.* The locality has committed staff and funds to provide core services for the proposed facility ---------- 5

"Core Services" (central administrative services) cover such activities as:

(1) Coordination of services, including hiring of a center director;
(2) Outreach;
(3) Intake, referral, and follow-through;
(4) Information development and dissemination;
(5) Maintenance of central record-keeping system;
(6) Community organization.

(b) *Program experience.* (1) If locality has had prior federally assisted Neighborhood Facilities Grant Program experience: The locality has expeditiously put in operation such facilities; where displacement was involved, effectively carried out relocation activities; and operated the completed facilities in accordance with contract conditions ---------- 5

or

(2) If the locality is without federally assisted Neighborhood Facilities Grant Program experience: The applicant has adequately maintained public facilities on a neighborhood basis and operated them in a nondiscriminatory manner ---------- 5

§ 551.16 Local equal employment and entrepreneurial effort.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) Activities undertaken by the locality have provided relatively superior opportunities for training and/or employment of minority persons ---------- 3

(b) Activities undertaken by the locality have provided relatively superior opportunities for business concerns owned, controlled or managed in substantial part by minority persons ---------- 3

(c) The applicant has taken affirmative action in its own employment in the training and/or employment of minority persons with relatively superior results ---------- 4

In determining whether or not performance has been "relatively superior", the following items will be taken into consideration. Absolute numbers of persons actually trained or hired in relation to numbers of minority group persons in the labor market area; total dollar value of contracts let to minority entrepreneurs in relation to total dollar amount of contracts let by locality; within the administering agency, racial composition at all levels of employment and absolute number of training opportunities made available to minority group persons.

§ 551.18 Local need.

(The value of this category is the sum of the values of paragraphs (a) and (b) of this section.)

(a) *Median income of jurisdiction.* The median annual family of the geographic area of jurisdiction of the applicant compared to the State median annual family income is: (Select one, if appropriate):

(1) $1-$500 below State median ---------- 3
(2) More than $500 below State median ---------- 6

(b) *Median income of service area.* The median annual family of the service area compared to the State annual median family income is: (Select one if appropriate):

(1) $1-$500 below State median ---------- 4
(2) More than $500 below State median ---------- 8

Median family incomes for the service area and the State are to be obtained by utilizing the City County Data Book or other census data if possible. Or use best available data.

§ 551.20 Commitment of local, county, State, and Federal entities to project or program.

(The value of this category is the sum of paragraphs (a) to (d) of this section.)

(a) *Local commitment.* There was substantial participation by the chief executive and governing body of the locality during the planning of the project, and they are demonstrating current public commitment in support of the project ---------- 4

(b) *Resident commitment.* There was effective widespread participation of a representative spectrum of service area residents in the development of project objectives and there is evidence of current support for the execution of the project ---------- 4

(c) *Coordination of resources.* There was substantial participation of other local agencies during planning, and there is a current commitment including resources, from Federal, State, county, or local entities other than those necessary to satisfy the local share requirement ---------- 4

(d) *Participation in areawide or metropolitan planning.* There is active participation by the locality's representatives in the areawide or metropolitan planning organization ---------- 3

§ 551.22 Expansion of housing for low- and moderate-income families.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) *Expansion of low- and moderate-income housing (applicant).* Within the applicant's geographic area of jurisdiction, there has been significant expansion of the supply of standard housing for low- and moderate-income families in nondiscriminatory way ---------- 3

(b) *Expansion of low- and moderate-income housing (locality).* Within the locality in which the project is located, there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way ---------- 3

(c) *Dispersion of low- and moderate-income housing.* The locality has a realistic plan to expand the supply of standard low- and moderate-income housing in a nondiscriminatory way outside an area of concentration of economically disadvantaged or minority citizens ---------- 4

§ 551.24 Community development.

The degree to which the project is necessary for undertaking other publicly supported community development activities ---------- 0 to 6

"Community development activities" refers to those publicly supported physical development activities and those related social or economic development activities being carried out or to be carried out within a reasonable period of time in accordance with a locally determined or areawide plan or strategy. Factors taken into consideration may include the project's responsiveness to local needs and objectives, the economics possible through coordinated or joint action, the degree of support by the appropriate unit(s) of local general-purpose government, and the management capacity and efforts to develop management capacity within local general-purpose government.

PART 561—PUBLIC FACILITY LOANS PROGRAM PROJECT SELECTION SYSTEM

Sec.
561.1 Scope.
561.2 Definitions.
561.4 Program prerequisites.
561.6 Criteria for evaluating applications.
561.8 Availability of credit to applicant.
561.10 [Reserved]
561.12 Population class.
561.14 Physical need.
561.16 Housing consideration.
561.18 Local equal employment and entrepreneurial effort.
561.20 Local need.
561.22 Commitment of local county, State, and Federal entities to project or program.
561.24 Expansion of housing for low- and moderate-income families.
561.26 Community development.

AUTHORITY: The provisions of this Part 561 issued under secs. 201–204, of the Housing Amendments of 1955, 69 Stat. 642–644; 42 U.S.C. 1491–1494.

§ 561.1 Scope.

(a) *Purpose.* This part sets forth criteria and procedures to be used in preliminary evaluation of applications for Federal loan assistance to local public bodies and agencies under the Public Facility Loans Program.

(b) *Procedures.* (1) Submissions will first be reviewed against four prerequisites. If any of these prerequisites are not met, the application will be rejected. If the application meets all prerequisites, it will be evaluated against the point rated criteria and assigned a point rating.

(2) Then, depending upon the relative rating of the application among other such applications pending in the area office, the applicant may be asked to submit further application material, with supporting documentation so that a final decision on the loan may be reached. Such application material is subject to reviews to determine compliance of the application with basic eligibility and technical requirements.

(3) If an application does not receive a high enough point rating to qualify for funding as compared to other pending applications, or if the application cannot meet basic eligibility or technical requirements, the application and any supporting documents will be returned to the applicant with advice as to the areas of deficiency. Remedial action regarding the deficiencies must be undertaken before the proposal may be reconsidered.

(4) The Department will only accept applications for processing under this program involving works for the storage, treatment, purification, or distribution of water; and sewage, sewage treatment, and sewer facilities. The provisions of these regulations do not apply to projects involving New Communities, or such other critical or innovative projects as the Assistant Secretary for Community Development may determine.

(5) The Department reserves the right to negotiate the modification of the scope of the proposed undertaking and/or the amount of financial assistance requested.

§ 561.2 Definitions.

As used in the regulations in this part:

(a) "Applicant" means a legal entity, eligible under sections 201–204 of the Housing Amendments of 1955, 69 Stat. 642–644, 42 U.S.C. 1991–1494, which is applying for Federal assistance under the Public Facility Loans Program.

(b) "Locality" means the political jurisdiction or jurisdictions having general purpose government powers upon whose behalf the application for Federal assistance has been submitted.

(c) "Low and moderate income" means an income level which is less than the maximum income eligibility level for a family of four for the county in which the project is to be located under either of the subsidized housing programs authorized by section 235 or 236 of the National Housing Act, as amended 82 Stat. 476, 477, 498, 12 U.S.C. 1715z, 1715z–1.

(d) "Low- and moderate-income housing" refers to housing with a fair market value that is equal to or less than the resultant of multiplying the section 235–236 maximum income for a family of four, as established by the Secretary for the county in which the project is located, by a factor of 3. "Low- and moderate-income housing" also refers to housing with an annual rental equal to or less than one-third of such section 235–236 maximum income.

§ 561.4 Program prerequisites.

For the Public Facility Loans Program there are the following four prerequisites:

(a) *Population.* The population of the locality submitting the application is less than 50 thousand or in a designated redevelopment area, less than 150 thousand. This prerequisite does not apply to NASA impacted areas. Public Law 345, 84th Congress, 69 Stat. 635, 642; 42 U.S.C. 1491, or projects where there is assistance under Part B Urban Growth and New Community Development Act of 1970 (42 U.S.C 4511, 84 Stat. 1793.)

(b) *Civil rights.* Submission of acceptable assurances of compliance with title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 252, 42 U.S.C. 2000d and HUD Title VI regulations 24 CFR Part I, 29 F.R. 16280 and with affirmative action plan requirements pursuant to Executive Order 11246, as amended 30 F.R. 12319, and HUD regulations 24 CFR Part 130, 36 F.R. 20688.

(c) *Relocation requirements (if applicable)* (1) Submission of acceptance assurances of compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 42 U.S.C. 4601, and

(2) Absence of any known impediment to the applicant's ability to meet HUD relocation requirements and the applicant's and/or locality's ability to fulfill requirements for replacement housing. "Known impediment" refers to a practical inability to provide adequate relocation assistance.

(d) *A–95 coordination.* Evidence that A–95 coordination is in process. The phrase "A–95 coordination" refers to the procedure involving review of applications by the appropriate agency under OMB Circular A–95.

§ 561.6 Criteria for evaluating applications.

Criteria for evaluating applications are divided into the following major categories:

(a) Availability of credit to applicant;
(b) Population class;
(c) Physical need;
(d) Housing consideration;
(e) Local equal employment and entrepreneurial efforts;
(f) Local need;
(g) Commitment of local, county, State, and Federal entities to project or program;
(h) Expansion of housing for low- and moderate-income families;
(i) Community development.

The elements considered in each category are described in the following sections, and the method of assigning rating points to each element or category is set forth. Points are awarded to each element or category in the following manner unless otherwise specifically indicated: If a statement under a particular element or category applies specifically to the project application under consideration, the application is awarded the

V 37 73 APR 14 72 XUM

number of points assigned to that statement. If no statement applies, no points are awarded to the application for that element.

§ 561.8 Availability of credit to applicant.

(The value of this category is the values of paragraph (a) or paragraph (b) of this section.)

(a) Credit is not available in the private market ---------- 12

(b) Private credit is available at a rate 1 percent above the Public Facility Loan rate or more ---------- 6

§ 561.10 [Reserved]

§ 561.12 Population class.

(The value of this category is the value of paragraph (a) or paragraph (b) of this section.)

(a) The population of the locality is under 10,000 ---------- 10

(b) The population of the locality is 10,000 to 25,000 ---------- 5

§ 561.14 Physical need.

(The value of this category is the value of paragraph (a) or paragraph (b) of this section.)

(a) The project will meet a critical need ---------- 12

(b) The project will provide a basic, needed facility which is not currently available ---------- 6

"Critical need" refers to a demonstrated need which must be met immediately to prevent or terminate a serious threat to the health or safety of the locality, e.g., a desperate need for water or control of demonstrated causes of diseases of epidemic proportions.

§ 561.16 Housing consideration.

(The value of this category is the sum of paragraphs (a) through (c) of this section.)

(a) The project is necessary for maintenance of existing decent, safe, and sanitary housing ---------- 3

(b) The project is necessary for assistance to proposed decent, safe, and sanitary low- and moderate-income housing ---------- 5

(c) The project is necessary for assistance for significant areas of housing that is less than decent, safe, and sanitary ---------- 3

"Decent, safe and sanitary" refers to housing that is in accordance with the local housing standards in the area in which the project is to be located.

§ 561.18 Local equal employment and entrepreneurial effort.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) Activities undertaken by the locality have provided relatively superior opportunities for training and/or employment, of minority persons ---------- 3

(b) Activities undertaken by the locality have provided relatively superior opportunities for business concerns owned, controlled, or managed in substantial part by minority persons ---------- 3

(c) The applicant has taken affirmative action in its own employment in the training and/or employment of minority persons with relatively superior results ---------- 4

In determining whether or not performance has been "relatively superior", the following items will be taken into consideration. Absolute numbers of persons actually trained or hired in relation to numbers of minority group persons in the labor market area; total dollar value of contracts let to minority entrepreneurs in relation to total dollar amount of contracts let by locality; within the administering agency, racial composition at all levels of employment and absolute number of training opportunities made available to minority group persons.

§ 561.20 Local need.

(The value of this category is the sum of the values of paragraphs (a) and (b) of this section.)

(a) *Median income of jurisdiction.* The median annual family income of the geographic area of jurisdiction of the applicant compared to the State median annual family income is: (Select one, if appropriate):

(1) $1–$500 below State median ---- 3

(2) More than $500 below State median ---------- 6

(b) *Median income of service area.* The median annual family income of the service area compared to the State annual median family income is: (Select one, if appropriate):

(1) $1–$500 below State median ---- 4

(2) More than $500 below State median ---------- 8

Median family incomes for the service area and the State are to be obtained by utilizing the City County Data Book or other census data if possible. Or use best available data. "Service area" refers to the area proposed to be, and reasonably capable of being, served by the Public Facility Loans Project.

§ 561.22 Commitment of local, county, State, and Federal entities to project or program.

(The value of this category is the sum of paragraphs (a) to (d) of this section.)

(a) *Local commitment.* There was substantial participation by the chief executive and governing body of the locality during the planning of the project, and they are demonstrating current public commitment in support of the project ---------- 4

(b) *Resident commitment.* There was effective widespread participation of a representative spectrum of service area residents in the development of project objectives and there is evidence of current support for the execution of the project ---------- 4

(c) *Coordination of resources.* There was substantial participation of other local agencies during planning, and there is a current commitment including resources, from Federal, State, county, or local entities other than those necessary to satisfy the local share requirement -- 4

(d) *Participation in areawide or metropolitan planning.* There is active participation by the locality's representatives in the areawide or metropolitan planning organization ---------- 3

§ 561.24 Expansion of housing for low- and moderate-income families.

(The value of this category is the sum of the values of paragraphs (a), (b), and (c) of this section.)

(a) *Expansion of low- and moderate-income housing (applicant).* Within the applicant's geographic area of jurisdiction, there has been significant expansion of the supply of standard housing for low- and moderate-income families in a nondiscriminatory way ---------- 3

(b) *Expansion of low- and moderate-income housing (locality).* Within the locality in which the project is located, there has been significant expansion of the supply of standard housing for low and moderate-income families in a nondiscriminatory way ---------- 3

(c) *Dispersion of low- and moderate-income housing.* The locality has a realistic plan to expand the supply of standard low- and moderate-income housing in a nondiscriminatory way outside areas of concentration of economically disadvantaged or minority citizens ---------- 4

§ 561.26 Community development.

The degree to which the project is necessary for undertaking other publicly supported community development activities ---------- 0 to 6

"Community development activities" refers to those publicly supported physical development activities and those related social or economic development activities being carried out or to be carried out within a reasonable period of time in accordance with a locally determined or areawide plan or strategy. Factors taken into consideration may include the project's responsiveness to local needs and objectives, the economies possible through coordinated or joint action, the degree of support by the appropriate unit(s) of local general-purpose government, and the management capacity and efforts to develop management capacity within local general-purpose government.

[FR Doc.72-5700 Filed 4-13-72;8:48 am]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 72-301]

PART 73—RADIO BROADCAST SERVICES

Subpart G—Emergency Action Notification System and the Emergency Broadcast System

Order. In the matter of general revision of Subpart G, Part 73 of the Commission's rules, to update and simplify the rules governing the Emergency Broadcast System (EBS).

1. On February 20, 1971, an employee of the U.S. Army Strategic Communications Command (Stratcom) transmitted an Emergency Action Notification (EAN) in error, resulting in widespread confusion within the broadcast industry.

2. The deficiencies disclosed by this and earlier incidents have been under intensive study and review by Working Groups I and V of the Broadcast Services Subcommittee, National Industry Advisory Committee (NIAC). Corrective recommendations were submitted on August 26, 1971, and were forwarded to appropriate agencies of Government for comment.

3. Another Closed Circuit Test of the EBS was conducted on September 14, 1971, and a number of additional operating deficiencies were disclosed. The NIAC recommendations concerning these matters were further refined on October 7, 1971, and on October 14, 1971, we suspended further Closed Circuit Tests of the EBS until corrective changes could be promulgated and implemented. The NIAC recommendations were further supplemented on March 13, 1972.

4. As part of the needed reconfiguration of National-Level interconnecting circuitry for the Emergency Action Notification System (EANS), we find that the public interest will be served by the early implementation of the following NIAC recommendations:

(a) That arrangements be effected for the White House Communications Agency to assume operational control of the two origination points on the First and Second Methods of the EAN. Such operational control to cover the origination of all EAN's and all tests in accordance with the SOP's and the non-Government Activation and Termination procedures issued by the FCC.

(b) That all provision for the Attack Warning Message (EAN–2) be deleted from the Basic EBS Plan and all outstanding documents and procedures.

(c) Redesignate the internal alerting systems of the commercial Radio and Television Broadcast Networks as the First Method EAN.

(d) Redesignate the Associated Press (AP) and United Press International (UPI) Radio Wire Teletype Networks as the Second Method EAN.

(e) Consolidate the National-Level interconnecting circuitry for the First and Second Methods of the Emergency Action Notification System (Teletype Network) and redesignate as the "EBS Teletypewriter Network (500 Net)," as recommended by OTP.

(f) Provide a Private Line Telephone Network (Automatic Ring) between CONAD (Communications Systems Controller) Cheyenne Mountain Complex, Colorado; Building Seven (Exercises and Facilities Division)—Washington, D.C.; AP Headquarters—New York, N.Y.; and UPI Headquarters—Chicago, Ill., and designate as "Voice Confirmation Net (300 Net)," as recommended by OTP.

(g) Delete the following origination points:

National One Warning Center (N1WC), Cheyenne Mountain, Colorado Springs, Colo.
National Three Warning Center (N3WC) OEP Exercises and Facilities Division, Washington, D.C.

(h) Add the following origination points:

CONAD (Communications Systems Controller), Cheyenne Mountain Complex, Colo.
Exercises and Facilities Division, OEP, Building Seven, Washington, D.C.

(i) Delete the nationwide "seize key" cutting circuit from AP/UPI Radio Wire Teletype Network EAN configuration.

(j) Delete the seven Washington, D.C., peripheral FM broadcast stations (WFRE–FM; WCUM–FM; WJEJ–FM; WRFL–FM; WTTR–FM; WXRA–FM; and WHYL–FM) from the revised National-Level interconnecting facilities.

(k) Retain the present provisions for the Third and Fourth Methods of the EAN.

(l) AP and UPI will separately test the revised (new) Second Method EAN configuration on a random basis once each week at times of their individual choice.

(m) That AP and UPI continue their efforts to effect the installation of extension alarms on all AP/UPI teletypewriter stations.

(n) Amend the FCC publication entitled "Non-Government Activation and Termination Procedures for the Emergency Broadcast System (EBS)," and Standing Operating Procedures (EBS Series SOP–2, SOP–3, SOP–4, and SOP–5) to accommodate the NIAC recommendations and simplify these procedures.

(o) Continue the Closed Circuit Tests of the EBS presently provided in the Basic EBS Plan, upon promulgation and implementation of the Detailed NIAC recommendations.

In addition, we find that current EBS rules require revision to provide for noncommercial educational FM station participation and participation by television broadcast stations; identification of participating stations by call letters; display of appropriate EBS slides by television broadcast stations for the benefit of those with impaired hearing; simplified authentication procedures; inclusion of EBS announcement texts; substituting the term EBS Authorization for National Defense Emergency Authorization (NDEA); and an EBS Checklist for posting at all Broadcast Operating Positions.

5. The above-described changes are reflected in amendments of Part 73 of the rules herein ordered. Authority for the adoption of these changes is contained in sections 1, 4(i), 4(o), and 303(r) of the Communications Act of 1934, as amended.

6. Because the changes herein ordered relate to national security, compliance with the prior notice provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) is unnecessary.

7. In view of the foregoing, and the 6-month leadtime required by the Communications Common Carriers for implementation of a revised National-Level interconnecting system for the Emergency Action Notification System: *It is ordered*, That effective November 2, 1972, Subpart G of Part 73 of the Commission's rules is revised as set forth below.

8. *It is further ordered*, That the interim Emergency Action Notification System arrangements between the White House and AP/UPI adopted by the Commission on February 26, 1971, will continue in effect until November 2, 1972, and that notwithstanding the provisions of § 73.962, as herein adopted, Closed Circuit tests of the EBS, suspended by Order adopted October 14, 1971 (FCC 71–1060), shall not be resumed until further order of the Commission.

Adopted: April 15, 1972.

Released: April 17, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE,
Secretary.

Subpart G—Emergency Action Notification System and the Emergency Broadcast System

Sec.

73.962 Closed Circuit Tests of Approved National-Level Interconnecting Systems and Facilities of the Emergency Broadcast System (EBS).

AUTHORITY: The provisions of this Subpart G issued under secs. 1, 4, 303, 48 Stat., as amended, 1064, 1066, 1082; 47 U.S.C. 151, 154, 303.

SCOPE AND OBJECTIVES

§ 73.901 Scope of subpart.

This subpart contains the rules and regulations providing for an Emergency Action Notification System (EANS) and an Emergency Broadcast System (EBS) and applies to all broadcast stations governed by this part within any State, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States, but not those stations located in the Canal Zone.

§ 73.902 Objectives of subpart.

The objectives of this subpart are to provide an expeditious means for the dissemination of Emergency Action Notifications and Emergency Action Condition Terminations to licensees and regulated services of the Federal Communications Commission, non-Government industry entities, and to the general public. Provision is also made for operation of broadcast stations subject to this part and designated non-Government and approved interconnecting systems and facilities on a voluntary organized basis during an Emergency Action Condition to provide the President and the Federal Government as well as State and Operational (local) Area authorities with an expeditious means of communicating with the general public during National, State, or Operational (local) Area situations covering a broad range of emergency contingencies posing a threat to the safety of life or property.

DEFINITIONS

§ 73.905 Emergency Action Notification System (EANS).

The system by which all licensees and regulated services of the Federal Communications Commission, participating non-Government industry entities, and the general public, are notified of the existence of or termination of an Emergency Action Condition resulting from National, State, or Operational (local) Area situations covering a broad range of emergency contigencies posing a threat to the safety of life or property. The Emergency Action Notification System consists only of the following approved and authorized facilities, systems, and interconnection arrangements: Receipt of the emergency action notification via any one is sufficient to begin emergency actions set forth in § 73.933.

(a) *First Method.* Via the internal alerting facilities of the commercial Radio and Television Broadcast Networks to all affiliates.

(b) *Second Method.* Via teletype to all standard, FM, and television broadcast and other stations subscribing to the AP and UPI Radio Wire Teletype Networks.

(c) *Third Method.* Off-the-air monitoring of specified standard, FM, and television broadcast stations by standard, FM, and television broadcast stations and other licensees and regulated services for receipt of the Emergency Action Notification. All broadcast licensees are required to install, maintain and operate radio receiving equipment for receipt of the Emergency Action Notifications and Emergency Action Condition Terminations via this method.

(d) *Fourth Method.* Off-the-air monitoring of standard, FM, and television broadcast stations by participating non-Government industry entities and the general public who are listening or viewing or whose radio or television receivers are equipped for actuation by the Attention Signal to receive the Emergency Action Notifications and Emergency Action Condition Terminations.

(e) *National-Level Interconnection Arrangements.* (1) From the White House to two specified origination points; thence via a dedicated teletype network to specified control points of the commercial Radio and Television Broadcast Networks (ABC, CBS, IMN, MBS, NBC, UPI-Audio, ABC–TV, CBS–TV, NBC–TV) and the American Telephone and Telegraph Co.; thence via the First Method specified in paragraph (a) of this section.

(2) From the White House to two specified origination points; thence via a dedicated teletype network with a dedicated automatic telephone network for backup confirmation and verification purposes; thence via the Second Method specified in paragraph (b) of this section.

(3) Via the Third Method specified in paragraph (c) of this section.

(4) Via the Fourth Method specified in paragraph (d) of this section.

(f) *State-Level Interconnection Arrangements.* From State authorities to specified State Network Primary Control Stations pursuant to the provisions of § 73.935(a)(1) via the detailed arrangements specified in the Detailed State EBS Operational Plan; thence via the Third and Fourth Methods set forth in paragraphs (c) and (d), of this section.

(g) *Operational (Local) Area-Level Interconnection Arrangements.* From Operational (Local) Area authorities to specified Primary Broadcast Stations for the Operational (Local) Area pursuant to the provisions of § 73.935(a)(2) via the detailed arrangements specified in the Detailed State EBS Operational Plan; thence via the Third and Fourth Methods set forth in paragraphs (c) and (d) of this section.

§ 73.906 Attention signal.

The signaling arrangement whereby standard, FM, and television broadcast stations can actuate muted receivers for the receipt of emergency cueing announcements and broadcasts, is as follows:

(a) Cut the transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(b) Return carrier to the air for 5 seconds.

(c) Cut transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(d) Return carrier to the air.

(e) Broadcast 1,000 hertz steady-state tone for 15 seconds.

NOTE: Steps in paragraphs (a) through (e) of this section, constitute the present Attention Signal. Revision of the Attention Signal is under study by a Special National Industry Advisory Committee Working Group.

§ 73.907 Emergency Action Notification.

The Emergency Action Notification is the notice to all licensees and regulated services of the Federal Communications Commission, participating non-Government industry entities, and to the general public of the existence of an Emergency Action Condition. The Emergency Action Notification is disseminated only via the Emergency Action Notification System in accordance with the Detailed non-Government Activiation and Termination Procedures and Standing Operating Procedures (SOP's) for the Emergency Broadcast System which are promulgated and issued only by the Federal Communications Commission to those non-Government entities concerned.

§ 73.908 Emergency Action Condition.

The Emergency Action Condition is a National, State, or Operational (local) Area emergency situation posing a threat to the safety of life or property covering the period of time between the transmission of an Emergency Action Notification and the transmission of the Emergency Action Condition Termination.

§ 73.909 Emergency Action Condition Termination.

The Emergency Action Condition Termination is the notice to all licensees and regulated services of the Federal Communications Commission, participating non-Government industry entities, and to the general public of the termination of an Emergency Action Condition. The Emergency Action Condition Termination is disseminated only via the Emergency Action Notification System in accordance with the Detailed non-Government Activation and Termination Procedures and Standing Operating Procedures (SOP's) for the Emergency Broadcast System which are promulgated and issued only by the Federal Communications Commission to those non-Government entities concerned.

§ 73.910 Detailed Non-Government Activation and Termination Procedures for the Emergency Broadcast System.

The Detailed Non-Government Activation and Termination Procedures for the Emergency Broadcast System prescribes the approved interconnecting circuitry details, facilities, operational arrangements and operational procedures for the Emergency Broadcast System and the origination, authentication and transmission of Emergency Action Notifications and Emergency Action Condition Terminations via the Emergency Action Notification System. Detailed actions and authentication procedures between operational elements of the Federal Government at the points of origin and specified points interconnecting with participating non-Government entities in accordance with provisions of the Basic Emergency Broadcast System (EBS) Plan are specified therein. This document is promulgated and issued only by the Federal Communications Commission to those non-Government entities concerned. (Detailed Activation and Termination Procedures between operational elements of the Federal Government will be promulgated and issued by the appropriate Government agencies involved therein.)

§ 73.911 Standing Operating Procedures (SOP's) and Authenticator Word Lists.

Standing Operating Procedures (SOP's) are documents promulgated periodically and issued by the Federal Communications Commission for use by participating non-Government industry entities specifying the detailed operational and authentication procedures for the approved interconnecting facilities for the Emergency Action Notification System and Emergency Broadcast System, as follows:

(a) *EBS SOP–1 Series.* The EBS SOP–1 Series contains detailed operational and authentication procedures for the First and Second Methods National-Level interconnecting facilities of the Emergency Action Notification System and is promulgated by the Federal Communications Commission and issued to specified non-Government control points of the nationwide commercial Radio and Television Broadcast Networks (ABC, CBS, IMN, MBS, NBC, UPI-Audio, ABC–TV, CBS–TV, NBC–TV) the American Telephone and Telegraph Co., the Associated Press (AP), and United Press International (UPI). The EBS Authenticator List (Red Envelope) issued quarterly by the Federal Communications Commission is utilized in these procedures.

(b) *EBS SOP–2 Series.* The EBS SOP–2 Series contains detailed operational and authentication procedures for the First and Second Methods of the Emergency Action Notification System and is promulgated by the Federal Communications Commission and issued to all standard, FM, and television broadcast stations subscribing to the AP and UPI Radio Wire Teletype Networks and to network affiliates. The EBS Authenticator List (Red Envelope) issued quarterly by the Federal Communications Commission and associated with the EBS Checklist is utilized in these procedures.

(c) *EBS SOP–3 Series.* The EBS SOP–3 Series contains detailed operational and authentication procedures providing a backup for the First and Second Methods National-Level interconnecting facilities of the Emergency Action Notification System and is promulgated by the Federal Communications Commission and issued to specified non-Government control points of the nationwide commercial Radio and Television Broadcast Networks, the American Telephone and Telegraph Co., Associated Press (AP), and United Press International (UPI). Authenticator Word Lists EBS (Voice) series (White Envelope) issued quarterly by the Federal Communications Commission are utilized in these procedures.

§ 73.912 Emergency Broadcast System (EBS).

The Emergency Broadcast System (EBS) is composed of facilities and personnel of non-Government broadcast stations and other authorized facilities licensed or regulated by the Federal Communications Commission and participating non-Government industry entities, including approved and authorized integral facilities or systems, arrangements, procedures, and interconnecting facilities, which have been authorized by the Federal Communications Commission to operate on a voluntary organized basis during National, State, or Operational (local) Area situations covering a broad range of emergency contingencies posing a threat to the safety of life or property for the purpose of expeditiously transmitting emergency Presidential Messages, National, State, or Operational (local) Area emergency information, emergency programing, or news to the general public.

§ 73.913 Basic Emergency Broadcast System (EBS) Plan.

The Basic Emergency Broadcast System (EBS) Plan contains, among other things, approved basic concepts and designated systems, arrangements, procedures, and interconnecting facilities to provide the requisite guidance to all non-Goverment participating elements and industry entities in the detailed development, designation and approval of facilities, mutually compatible operational arrangements, procedures, and interconnection arrangements for the expeditious dissemination on a voluntary organized basis of emergency information and instructions at the request of National, State, and Operational (local) Area authorities in addition to emergency Presidential Messages, National Programing and News during National, State, or Operational (local) Area situations covering a broad range of emergency contingencies posing a threat to the safety of life or property.

§ 73.914 Emergency Action Checklist for the Emergency Broadcast System (EBS).

The Emergency Action Checklist for the Emergency Broadcast System is a document for posting at all broadcast operating positions of standard, FM, and television broadcast stations, which specifies in summary form, the emergency actions to be taken by the station's operating personnel upon receipt of Emergency Action Notifications, Emergency Action Condition Terminations, and Tests received via the National-Level, State-Level, and Local-Level interconnecting facilities of the Emergency Broadcast System (EBS).

§ 73.915 NIAC Order.

A NIAC Order is a service order previously filed with the American Telephone and Telephone Co. providing for approved arrangements for program origination reconfiguration of the major commercial Radio and Television (aural) Broadcast Networks (except UPI Audio) voluntarily participating in the Emergency Broadcast System (EBS). Broadcast networks presently participating are American Broadcasting Co. (ABC), Columbia Broadcasting System (CBS), Mutual Broadcasting System (MBS), National Broadcasting Co. (NBC), Intermountain Network (IMN), and the United Press International Audio (UPI). Any NIAC Order must meet White House requirements and may be activated only in accordance with the Detailed Activation and Termination Procedures for the Emergency Broadcast System (EBS), and Standing Operating Procedures (SOP's).

§ 73.916 Emergency Broadcast System (EBS) Authorization.

(a) An Emergency Broadcast System (EBS) Authorization is an authorization issued by the Federal Communications Commission only to the licensees of Broadcast stations subject to the provisions of this part to permit operation of such stations, as well as associated auxiliary broadcast stations subject to Part 74 of this chapter on a voluntary organized basis during a National-level Emergency Action Condition, consistent with the provisions of this subpart and the Basic Emergency Broadcast System (EBS) Plan, including the annexes and supplements to that plan. A broadcast station licensee will be issued an Emergency Broadcast System Authorization only in accordance with the Criteria for Eligibility set forth in the Basic Emergency Broadcast System (EBS) Plan, which will remain valid concurrently with the term of the broadcast station license, so long as the station licensee continues to comply with the Criteria for Eligibility.

(b) An Emergency Broadcast System (EBS) Authorization is not required in order to participate on a voluntary organized basis in State and Operational (local) Area Emergency Broadcast System operations as set forth in § 73.935.

V 37-73
APR 14 72
XUM

§ 73.917 Primary Station Emergency Broadcast System (EBS) Authorization.

A Primary Station Emergency Broadcast System (EBS) Authorization is the authorization issued to one or more broadcast station licensees in an Operational (local) Area assigning such licensees the responsibility for broadcasting a common emergency program for the initial period of, or for the duration of a National-level Emergency Action Condition. Broadcasts by such stations are intended for direct public reception in an Operational (local) Area, as specified in an approved Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.918 Alternate Station Emergency Broadcast System (EBS) Authorization.

An Alternate Station Emergency Broadcast System (EBS) Authorization is the authorization issued to one or more broadcast licensees in an Operational (local) Area assigning such licensees as specified alternates. An Alternate Station will assume broadcasting responsibility in accordance with the provisions of the Detailed State Emergency Broadcast System (EBS) Operational Plan during a National-level Emergency Action Condition.

§ 73.919 Primary Relay Station Emergency Broadcast System (EBS) Authorization.

A Primary Relay Station Emergency Broadcast System (EBS) Authorization is the authorization issued to one or more broadcast licensees in an Operational (local) Area assigning such licensees the function of emergency program distribution or relay service of emergency programing during a National-level Emergency Action Condition to stations holding Primary or Alternate Station Emergency Broadcast System (EBS) Authorizations, in accordance with an approved Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.920 Alternate Relay Station Emergency Broadcast System (EBS) Authorization.

An Alternate Relay Station Emergency Broadcast System (EBS) Authorization is the authorization issued to one or more broadcast licensees in an Operational (local) Area assigning such licensees as specified alternates to stations holding Primary Relay Emergency Broadcast System (EBS) Authorizations. In the event a Primary Relay Station is unable to assume its initial operational functions, or discontinues such operation for any reason, an Alternate Relay Station will assume those operational functions during a National-level Emergency Action Condition, in accordance with the "alternate" designations (1st, 2d, 3d, 4th, etc.) contained in the approved Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.921 Non-Participating Station.

A Non-Participating Station is a broadcast station which is not voluntarily participating in the Emergency Broadcast System (EBS) and does not hold an Emergency Broadcast System (EBS) Authorization. Such stations are required to discontinue operations for the duration of a National-Level Emergency Action Condition.

§ 73.922 Detailed State Emergency Broadcast System (EBS) Operational Plan.

A Detailed State Emergency Broadcast System (EBS) Operational Plan is a plan containing the designation of facilities, approved detailed mutually compatible operational arrangements, procedures, instructions, and interconnecting facilities for communicating with the general public during an Emergency Action Condition. Such a plan includes approved and authorized detailed emergency operational communications facilities, systems, procedures, and interconnecting systems. It shall be in conformity with the provisions of this subpart and the Basic Emergency Broadcast System (EBS) Plan and shall be considered a supplement thereto.

§ 73.923 Operational (local) Area.

An Operational (local) Area is a geographical area which may encompass a number of contiguous communities, as determined by the State Industry Advisory Committee and as delineated in the approved Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.924 Common Program Control Broadcast Station.

A Common Program Control Broadcast Station is a Primary Broadcast Station in each Operational (local) Area assigned the responsibility for coordinating the operations for the broadcasting of the common program for the Operational (local) Area. In the event a Common Program Control Broadcast Station is unable for any reason to carry out this responsibility, other Primary and Alternate Broadcast Stations in the Operational (local) Area will be assigned as the Common Program Control Broadcast Station in progressive order, as set forth in the approved Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.925 Emergency Broadcast System (EBS) Programing Priorities.

(a) Program priorities for the Emergency Broadcast System (EBS) are as follows:

Priority One—Presidential Messages.
Priority Two—State Programing.
Priority Three—Operational Area (Local) Programing.
Priority Four—National Programing and News.

(b) The Common Program Control Broadcast Station is responsible for coordinating the operations of the participating stations in the Operational (Local) Area in the broadcast of a common program for the Operational (Local) Area in accordance with the program priorities set forth in paragraph (a) of this section.

(c) All authorized participating stations that remain on the air in accordance with the Basic Emergency Broadcast System (EBS) Plan and the Detailed State Emergency Broadcast System (EBS) Operational Plan must carry Presidential Messages "live" at time of transmission.

(d) The nationwide commercial Radio and Television (aural) Broadcast Network program distribution facilities shall be reserved exclusively for the distribution of Presidential Messages (Priority One) and National Programing and News (Priority Four), National Programing and News which is not broadcast at the time of original transmission shall be recorded locally by the Common Program Control Broadcast Station for broadcast at the earliest opportunity consistent with Operational (Local) Area requirements.

PARTICIPATION

§ 73.926 Participation in the Emergency Broadcast System (EBS).

(a) Any licensee desiring to participate voluntarily in the National-Level Emergency Broadcast System (EBS) must prepare in narrative form an application directed to the establishment of eligibility based upon the criteria set forth in the Basic Emergency Broadcast System (EBS) Plan. The Federal Communications Commission may then issue Authorization to the licensee authorizing participation in the Emergency Broadcast System (EBS) consistent with the provisions of the approved Detailed State Emergency Broadcast System (EBS) Operational Plans.

(b) Any station participating in the National-Level Emergency Broadcast System (EBS) may withdraw from participation by giving 30 days written notice and by submitting its Emergency Authorization to the Federal Communications Commission through the appropriate FCC Regional Liaison Officer for cancellation.

(c) Any station that is denied participation in the National-Level Emergency Broadcast System (EBS) for any reason may apply to the Commission for review of the staff denial, in accordance with § 1.115 of the Federal Communications Commission rules and regulations.

(d) Any standard, FM, or television broadcast licensee may, at the discretion of management, voluntarily participate in the State-Level and Operational (Local) Area-Level Emergency Broadcast System in accordance with the provisions of the Detailed State Emergency Broadcast System (EBS) Plan. A special authorization is not required for this purpose.

NETWORK CONNECTION

§ 73.927 Participation by Communications Common Carriers.

(a) Communications Common Carriers which have facilities available in place may, without charge, connect an unaffiliated broadcast station to commercial networks operated by ABC, CBS, MBS, NBC, or IMN for the duration of an Emergency Action Condition: *Provided*, That:

(1) The station is authorized by the Federal Communications Commission to participate in the Emergency Broadcast System (EBS).

(2) The station has in service a local channel from the station studio or transmitter directly to the nearest telephone company Principal Central Office (toll test).

(b) During an Emergency Action Condition and using NIAC Orders Nos. 1 through 63, Communications Common Carriers which have facilities in place may, without charge, connect an originating source associated with an appropriate NIAC Order Number from the nearest Exchange to a selected Test Center, thence to the authorized commercial Radio and Television (aural) Broadcast Networks for the duration of the Emergency Action Condition: *Provided*, That:

(1) The originating source has in service a local channel from the originating point to the nearest Exchange.

(2) A NIAC Order covering this service is requested by the White House in accordance with the provisions of the Basic Emergency Broadcast System (EBS) Plan.

(c) Upon issuance of the Emergency Action Condition Termination, such carriers shall disconnect the unaffiliated broadcast stations and the authorized origination source and then restore the Broadcast Networks to their original configuration as individual entities.

(d) Closed circuit tests of technical program origination and distribution channels associated with NIAC Orders Nos. 1 through 63 will be conducted as provided in § 73.962. These tests are in conformance with the provision of this section.

(e) During closed circuit tests of National-Level interconnecting facilities using NIAC Orders Nos. 1 through 63, Communications Common Carriers which have facilities in place may, without charge, connect an originating source associated with an appropriate NIAC Order Number from the nearest Exchange to a selected Test Center, thence to the authorized commercial Radio Networks only for such closed circuit tests and no unaffiliated stations may be connected for the duration of the test, unless specifically authorized by the Federal Communications Commission. Upon completion of such tests the Broadcast Networks shall be restored to their original configuration as individual entities.

(f) Every such carrier rendering any such free service shall make and file, in duplicate, with the Federal Communications Commission, on or before the 31st day of July and on or before the 31st day of January in each year, reports covering the periods of 6 months ending on the 30th day of June and the 31st day of December respectively, next prior to said dates. These reports shall show in detail what free service was rendered pursuant to this rule and the charges in dollars which would have accrued to the carrier for such service rendered if charges therefor had been collected at the published tariff rates.

EMERGENCY ACTIONS

§ 73.931 Notification of Emergency Action Condition.

(a) *National-Level.* The Emergency Action Notification will be released at this level upon request of the White House and will be disseminated only via the Four Methods of the Emergency Action Notification System as set forth in § 73.905(e). Receipt of the Emergency Action Notification via any one of the four methods is sufficient notice to begin emergency actions set forth in § 73.933.

(b) *State-Level.* The management of specified State Network Primary Control Stations may, at their discretion, release the Emergency Action Notification at this level pursuant to the provisions of § 73.935(a)(1) and will be disseminated as set forth in § 73.905(f) and the Detailed State EBS Operational Plan.

(c) *Operational (Local) Area-Level.* The management of specified Primary Broadcast Stations for the Operational (Local) Area may, at their discretion, release the Emergency Action Notification at this level pursuant to § 73.935(a)(2) and will be disseminated as set forth in § 73.905(g) and the Detailed State EBS Operational Plan.

§ 73.932 Radio Monitoring Requirement.

(a) In order to insure the effectiveness of the Third Method of the Emergency Action Notification System, all broadcast station licensees must install and operate during their hours of broadcast operation, equipment capable of receiving Emergency Action Notifications or Terminations transmitted by other radio broadcast stations. This equipment must be maintained in operative condition, including arrangements for human listening watch or automatic alarm devices, and shall have its termination at each transmitter control point. However, where more than one broadcast transmitter is controlled from a common point by the same operator, only one set of equipment is required at that point.

(b) The Third Method off-the-air monitoring assignment of each standard, FM, and television broadcast station is specified in the Detailed State Emergency Broadcast System (EBS) Operational Plan.

(c) Prior to commencing routine operation or originating any emissions under program test, equipment test, experimental, or other authorizations or for any other purpose, licensees or permittees shall first ascertain whether an Emergency Action Condition exists and, if so, shall operate only in accordance with the Basic Emergency Broadcast System (EBS) Plan and Detailed State Emergency Broadcast System (EBS) Operational Plan.

§ 73.933 Emergency Broadcast System (EBS) Operation During a National-Level Emergency Action Condition.

(a) All broadcast stations are furnished complete instructions on an Emergency Action Checklist to be posted at broadcast operating positions. This Checklist summarizes the procedures to be followed by operating personnel of all broadcast stations subject to this part upon receipt of a National-Level Emergency Action Notification or Emergency Action Condition Termination. This notification may be received by one or more of the following: Receipt of the Emergency Action Notification via any one of the following is sufficient notice to begin emergency action.

(1) Via the commercial radio and television network facilities;

(2) Via the radio press wires (AP/UPI);

(3) Via off-the-air monitoring of the Primary Station for the Operational (local) Area.

(4) Via off-the-air monitoring of the Primary (FM) Relay Station for the Operational (local) Area.

(b) Immediately upon receipt of such notifications, all standard, commercial FM (including all subcarriers), and noncommercial educational FM (including all subcarriers), and television broadcast stations, including all such stations operating under equipment or program test authority, will proceed as follows:

NOTE: It is suggested that appropriate arrangements be made to tape all emergency broadcasts, including the Emergency Action Notification. Appropriate notations should also be made in the station log of all significant events as they transpire. These records should be carefully preserved in the event they are required at some later date.

(1) Immediately monitor the commercial radio and television network facilities (ABC, CBS, IMN, MBS, NBC, UPI Audio, ABC–TV, CBS–TV, NBC–TV) for any further instructions from the Network Control Point.

(2) Immediately check the Radio Press Wire (AP/UPI). Verify authenticity of message with current EBS Authenticator List (Red Envelope).

(3) Immediately monitor the radio receiving equipment tuned to a Primary Station for the Operational (Local) Area and/or to a Primary Relay (FM) Station for the State EBS Network or the Statewide leased common carrier State EBS Network for receipt of any further instructions.

(4) Discontinue normal program and broadcast the following announcement:

We interrupt this program. This is a National Emergency. Important instructions will follow.

(5) Transmit the Emergency Action Notification Attention Signal as set forth in § 73.906 as follows:

(i) Cut the transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(ii) Return carrier to the air for 5 seconds.

(iii) Cut transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(iv) Return carrier to the air.

(v) Broadcast 1,000-hertz steady-state tone for 15 seconds.

(6) (i) "Primary Stations" will make the following announcement:

This is an Emergency Action Notification. All stations shall broadcast this Emergency

V37-73 APR 14 72 XUM

Action Notification Message. This station has interrupted its regular program at the request of the White House to participate in the Emergency Broadcast System. During this emergency, some stations will remain on the air broadcasting news and official information to the public in assigned areas. This is station (call letters). We will remain on the air to serve the (operational area name) area. If you are not in this area, you should tune to other stations until you hear one broadcasting news and information for your area. You are listening to the Emergency Broadcast System serving the (operational area name) area. Do not use your telephone. The telephone lines should be kept open for official use. The Emergency Broadcast System has been activated to keep you informed. I repeat • • •. (Repeat the above announcement.)

NOTE 1: Television broadcast stations shall display the Emergency Broadcast System slide during the above transmission procedure. Those television broadcast stations holding Primary Station EBS Authorizations will continue operation and shall display the Emergency Broadcast System (EBS) or other appropriate slide during audio transmissions.

NOTE 2: Stations broadcasting in a foreign language shall repeat the above announcements in that language.

(ii) *"Primary RELAY Stations"* will make the following announcement:

This is an Emergency Action Notification. All stations shall broadcast this Emergency Action Notification Message. This station has interrupted its regular program at the request of the White House to participate in the Emergency Broadcast System. During this emergency, some stations will remain on the air broadcasting news and official information to the public in assigned areas. This is station (call letters). We will be serving as a program distribution and relay channel to other stations. For complete news and information for your area, you should now tune to other stations until you hear one broadcasting news and information for your area. This station will not be broadcasting complete news and information for your area. You should now tune until you hear a station broadcasting news and information for your area. Do not use your telephone. The telephone lines should be kept open for official use. The Emergency Broadcast System has been activated to keep you informed. I repeat • • •. (Repeat the above announcement.)

NOTE 1: Those television broadcast stations holding Primary Relay Station EBS Authorizations shall continue operation and shall display the Emergency Broadcast System (EBS) or other appropriate slide during audio transmissions.

NOTE 2: Stations broadcasting in a foreign language shall repeat the above announcements in that language.

(iii) "Alternate Stations" will make the following announcement:

This is an emergency action notification. All stations shall broadcast this emergency action notification message. This station has interrupted its regular program at the request of the White House to participate in the Emergency Broadcast System. During this emergency, some stations will remain on the air broadcasting news and official information to the public in assigned areas. This is station (call letters). We will be leaving the air. You should now tune to other stations until you hear one broadcasting emergency news and information for your area. This station will not be broadcasting news and information for your area. You should now tune until you hear a station broadcasting news and information for your area. Do not use your telephone. The telephone lines should be kept open for official use. The Emergency Broadcast System has been activated to keep you informed.

I repeat • • • (Repeat the above announcement.)

NOTE 1: Television broadcast stations shall display the Emergency Broadcast System slide during the transmission procedure.

NOTE 2: Stations broadcasting in a foreign language shall repeat the above announcements in that language.

(iv) "Alternate Relay Stations" will make the following announcement:

This is an Emergency Action Notification. All stations shall broadcast this Emergency Action Notification Message. This station has interrupted its regular program at the request of the White House to participate in the Emergency Broadcast System. During this emergency, some stations will remain on the air broadcasting news and official information to the public in assigned areas. This is station (call letters). We will be leaving the air. You should now tune to other stations until you hear one broadcasting emergency news and information for your area. This station will not be broadcasting news and information for your area. You should now tune until you hear a station broadcasting news and information for your area. Do not use your telephone. The telephone lines should be kept open for official use. The Emergency Broadcast System has been activated to keep you informed.

I repeat • • • (Repeat the above announcement.)

NOTE 1: Television broadcast stations shall display the Emergency Broadcast System slide during the transmission procedures.

NOTE 2: Stations broadcasting in a foreign language shall repeat the above announcements in that language.

(v) Nonparticipating Stations will make the following announcement:

This is an Emergency Action Notification. All stations shall broadcast this Emergency Action Notification Message. This station has interrupted its regular program at the request of the White House to participate in the Emergency Broadcast System. During this emergency, some stations will remain on the air broadcasting news and official information to the public in assigned areas. This is station (call letters). We will be leaving the air. You should now tune to other stations until you hear one broadcasting emergency news and information for your area. You should now tune until you hear a station broadcasting news and information for your area. Do not use your telephone. The telephone lines should be kept open for official use. The Emergency Broadcast System has been activated to keep you informed. I repeat • • •. (Repeat the above announcement.)

NOTE 1: Television broadcast stations shall display the Emergency Broadcast System slide during the transmission procedure.

NOTE 2: Stations broadcasting in a foreign language shall repeat the above announcements in that language.

(7) Upon completion of the above-detailed transmission procedures:

(i) Primary Stations within an Operational (local) Area will, upon cue from the Common Program Control Broadcast Station, begin broadcast of a common program. Feeds will be provided by one or more of the following:

(a) Common Program Control Station for the Operational (local) Area.

(b) Commercial Radio and Television Broadcast Networks.

(c) State EBS Networks (Intercity FM off-the-air relay) (Intercity leased common carrier facilities).

(d) Operational (local) Area Remote Pickup Broadcast Network or Primary Relay Station (FM) for the Operational (local) Area.

NOTE 1: All stations shall carry common programing until receipt of the Emergency Action Condition Termination. At this point, direct feed may be utilized from one or more of the above.

NOTE 2: Programing priorities shall be as follows:

Priority One—Presidential Message.
Priority Two—State Programing.
Priority Three—Operational Area (Local) Programing.
Priority Four—National Programing and News.

(ii) Primary Relay Stations will begin emergency program relay and distribution service in accordance with the provisions of the Basic Emergency Broadcast System (EBS) Plan and the Detailed State Emergency Broadcast System (EBS) Operational Plans.

(iii) Alternate Stations and Alternate Relay Stations within an Operational (Local) Area will now turn off their transmitters and will stand by in a state of operational readiness to begin operation to broadcast a common program upon cue from a Primary or Alternate station which is discontinuing operation for any reason, or has discontinued operation with no advance notice, consistent with the provisions of the Basic Emergency Broadcast System (EBS) Plan and the Detailed State Emergency Broadcast System (EBS) Operational Plan.

(iv) Non-Participating Stations shall discontinue operation and remove their carriers from the air for the duration of the Emergency Action Condition after completion of the Emergency Action Notification Procedures set forth in this section, above.

(8) Standby script:

(i) Upon completion of the broadcast of the Emergency Action Notification broadcast message, repeated three times, the Standby Script shall be used only by Primary Stations (or Alternate Stations if they are required to assume broadcasting responsibility) until program material is available from National, State, or Operational (Local) Area systems as set forth in your Detailed State Emergency Broadcast System (EBS) Operational Plan.

(ii) In addition, Standby Script may be used thereafter, as fill material for the common program for the Operational (Local) Area, upon cue from the Common Program Control Broadcast Station in the Operational (Local) Area.

(iii) Text of Standby Script (Use Following Emergency Action Notification Broadcast Message):

We interrupt our program at the request of the White House. This is the Emergency Broadcast System. All normal broadcasting has been discontinued during this emergency. This is station (call letters). This station will continue to broadcast, furnishing news, official information and instructions, as soon as possible, for the (operational area name) area. If you are not in the (operational area name) area tune to a station furnishing information for your area. I repeat—we interrupt our program at the request of the White House. This is the Emergency Broadcast System. All normal broadcasting has been discontinued during this emergency. This station will continue to broadcast, furnishing news, official information and instructions, as soon as possible, for the (operational area name) area. If you are not in the (operational area name) area tune to a station furnishing information for your area. Do not use your telephone, the telephone lines should be kept open for emergency official use. The Emergency Broadcast System has been activated to keep you informed. To repeat—this is station (call letters). This station will broadcast news, official information and instructions for the (operational area name) area. If you are in the (operational area name) area, keep tuned to this station for further emergency information. It is important that you listen carefully to announcements only on the station broadcasting information for your area.

NOTE: If Presidential, State, Operational (Local) Area, or National programing or News is not being received by this time, repeat Standby Script until programing is available from one of the sources specified.

(9) A station which broadcasts in a language other than English may broadcast in such foreign language with the broadcast in English.

(10) International broadcast stations will cease broadcasting immediately upon receipt of an Emergency Action Notification and will maintain radio silence.

(11) Stations in the International Broadcast Service operating under the jurisdiction of the Federal Communications Commission may under certain conditions be issued appropriate emergency authorization by the Federal Communications Commission with concurrence of the Director, Office of Emergency Preparedness, and will transmit only Federal Government broadcasts or communications. The station's carrier must be removed from the air during periods of no broadcast or communications transmissions.

(12) Stations may broadcast their call letters during an Emergency Action Condition. State and Operational Area identifications shall also be given.

(13) All stations operating and identified with a particular Operational (local) Area will broadcast a common program until receipt of the Emergency Action Condition Termination.

(14) Broadcast stations are specifically exempt from complying with § 73.57 (pertaining to maintenance of operating power) while operating under the provisions of their Emergency Authorization.

(15) All stations may resume normal broadcast operations in accordance with the provisions of their current license or program test authority upon receipt of the Emergency Action Condition Termination, which will be transmitted to all stations only via the Four Methods of the Emergency Action Notification System.

§ 73.934 Termination of Emergency Action Condition.

(a) Upon receipt of an Emergency Action Condition Termination, all stations operating in the Emergency Broadcast System (EBS) will broadcast the following Termination Message twice:

This concludes operations under the Emergency Broadcast System. All broadcast stations may now resume normal broadcast operation.

(b) Unlimited time stations operating in the Emergency Broadcast System (EBS) will transmit the Termination Message twice, and then resume normal operation. Daytime Only and Limited Time broadcast stations operating in the Emergency Broadcast System (EBS) shall also broadcast the Termination Message twice, then operate in accordance with their regular authorization.

DAY-TO-DAY EMERGENCY OPERATION

§ 73.935 Day-to-day emergencies posing a threat to the safety of life and property; State-Level and Operational (local) Area-Level Emergency Action Notification.

(a) A State-Level or Operational (local) Area-Level Emergency Action Notification may be transmitted for the following purposes by all standard, FM, and television broadcast stations, at their discretion, in connection with day-to-day emergency situations posing a threat to the safety of life and property:

(1) Activation of State program distribution interconnecting systems and facilities for the origination of emergency cueing announcements and broadcasts by the management of the State Network Primary Control Station in accordance with previous arrangements and agreement of the State Industry Advisory Committee in day-to-day emergency situations in the public interest. These include both situations where the time element is short, and those which develop slowly. (For example: Tornado warnings or tornado sightings; toxic gases threatening a community; flash floods; widespread fires threatening populated areas; tidal waves; earthquakes; widespread commercial electric power failures; large scale industrial explosions and fires; tornado watches, hurricane watches, and hurricane warnings; civil disorders; heavy rains—developing dangerous flood conditions; icing conditions—developing dangerous road hazards; heavy snows—developing blizzard conditions; appeals for medical assistance and facilities; appeals for emergency food and housing; call-back of off-duty police personnel; call-back of off-duty fire personnel; call-back of off-duty military personnel.)

(2) Activation of Operational (local) Area interconnecting systems and facilities for the origination of emergency cueing announcements and broadcasts by the management of the Primary Broadcast Stations for the Operational (local) Area in accordance with previous arrangements and agreement of the Operational (local) Area Industry Advisory Committee and the State Industry Advisory Committee in day-to-day emergency situations in the public interest. (Examples set forth in subparagraph (1) of this paragraph.)

(b) Stations originating emergency communications under this section shall be deemed to have conferred rebroadcast authority, as required by section 325(a) of the Communications Act, on other participating stations. Neither the notice and certification of consent called for by §§ 73.121(b), 73.291(b), 73.591(b), and 73.655(b), nor prior Commission approval as otherwise required by §§ 73.121 (d), 73.291(d), 73.591(c), and 73.655(c) in the case of aural-TV cross-service rebroadcasting, is necessary under these circumstances.

§ 73.936 Emergency Broadcast System (EBS) Operation During a State-Level Emergency Action Condition.

All broadcast stations are furnished complete instructions on an Emergency Action Checklist to be posted at broadcast operating positions. This Checklist summarizes the procedures to be followed by the operating personnel of those broadcast stations subject to this part which are voluntarily participating in the State-Level Emergency Broadcast System (EBS) upon receipt of a State-Level Emergency Action Notification or Emergency Action Condition Termination. Immediately upon receipt of such Notification, all standard, commercial FM including FM (including all subcarriers) and noncommercial educational FM (including all subcarriers), and television broadcast stations, including all such stations operating under equipment or program test authority, which are voluntarily participating in the State-Level Emergency Broadcast System (EBS) may, at the discretion of management, proceed as set forth herein: (Operations will be conducted in accordance with the provisions of the Detailed State EBS Operational Plan. Special authorization to participate in the State-Level EBS is not required).

NOTE: It is suggested that appropriate arrangements be made to tape all emergency broadcasts, including the Emergency Action Notification. Appropriate notations should also be made in the station log of all significant events as they transpire. These records should be carefully preserved in the event they are required at some later date.

(a) Immediately monitor the radio receiving equipment tuned to a State EBS Network (Primary Relay FM Station or leased intercity common carrier facilities) for receipt of any further instructions from the State EBS Network Control Station.

(b) Immediately monitor the radio receiving equipment tuned to a Primary Station for the Operational (Local) Area for the receipt of any further instructions.

(c) Immediately check the Radio Press Wire (AP/UPI) for receipt of any further information via the State Bureau Offices of AP and UPI.

(d) At the discretion of management, discontinue normal program and broadcast the following announcement:

We interrupt this program because of a statewide emergency. Important information will follow.

V 37-73 APR 14 72 XUM

(e) Transmit the Emergency Action Notification Attention Signal as set forth in § 73.906, as follows:

(1) Cut the transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(2) Return carrier to the air for 5 seconds.

(3) Cut transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(4) Return carrier to the air.

(5) Broadcast 1,000-hertz steady-state tone for 15 seconds.

NOTE: Television broadcast stations voluntarily participating in the State EBS should display the State Emergency Broadcast System or State Association of Broadcasters or other appropriate slide during the transmission procedure and the audio transmissions that follow.

(f) All broadcast stations (standard, FM, and television) voluntarily participating in the State Emergency Broadcast System (EBS) make the following announcement:

This is an Emergency Action Notification. All stations in the State of (State name) are requested to broadcast the following State-Level Emergency Action Notification Message.

This station has interrupted its regular program to participate in the (State name) Emergency Broadcast System. During this period, many stations will be broadcasting a special emergency program to the residents of the State of (State name). This station will broadcast the special emergency program beginning at (time). (Give further details—if available.)

I repeat • • • (Repeat the above announcement.)

NOTE: Television broadcast stations should display the State Emergency Broadcast System or State Association of Broadcasters slide during the transmission procedure.

NOTE: Stations broadcasting in a foreign language should repeat the above announcements in that language.

(g) Upon completion of the above transmission procedures, resume normal programing until the scheduled time for the State-Level EBS Broadcast. Upon cue from the Common Program Control Broadcast Station for your Operational (Local) Area, or Primary Relay Station for the State EBS Network, begin broadcast of a common State-Level program received from one of the following sources consistent with the provisions of the Detailed State Emergency Broadcast System (EBS) Operational Plan:

(1) Common Program Control Station for your Operational (Local) Area.

(2) State EBS Network (Intercity FM off-the-air relay) (Intercity Leased Common Carrier Facilities).

(3) Primary Relay Station (FM) for the Operational (Local) Area.

(h) All stations may resume normal broadcast operations in accordance with the provisions of their current license or program test authority upon conclusion of the State-Level EBS Broadcast.

§ 73.937 Emergency Broadcast System (EBS) Operation During an Operational (Local) Area-Level Emergency Action Condition.

All broadcast stations are furnished complete instructions on an Emergency Action Checklist to be posted at broadcast operating positions. This Checklist summarizes the procedures to be followed by the operating personnel of those broadcast stations subject to this part which are voluntarily participating in the Operational (Local) Area Emergency Broadcast System (EBS) upon receipt of an Operational (Local) Area-Level Emergency Action Notification or Emergency Action Condition Termination. Immediately upon receipt of such Notification, all standard, commercial FM (including all subcarriers), and noncommercial educational FM (including all subcarriers), and television broadcast stations, including all such stations operating under equipment or program test authority, which are voluntarily participating in the Operational (Local) Area Emergency Broadcast System (EBS) may, at the discretion of management, proceed as set forth herein: (Operations will be conducted in accordance with the provisions of the Detailed State EBS Operational Plan. Special authorization to participate in the Operational (Local) Area EBS is not required).

NOTE: It is suggested that appropriate arrangements be made to tape all emergency broadcasts, including the Emergency Action Notification. Appropriate notations should also be made in the station log of all significant events as they transpire. These records should be carefully preserved in the event they are required at some later date.

(a) Immediately monitor the radio receiving equipment tuned to a Primary Station for the Operational (Local) Area for receipt of any further instructions.

(b) Immediately monitor the radio receiving equipment tuned to a Primary Relay Station (FM) serving the Operational (Local) Area for receipt of any further instructions.

(c) Immediately monitor the Emergency Remote Pickup Broadcast Network serving the Operational (Local) Area for receipt of any further instructions.

(d) Immediately check the Radio Press Wire (AP/UPI) for receipt of any further information via the State Bureau Offices of AP and UPI.

(e) At the discretion of management, discontinue normal program and broadcast the following announcement:

We interrupt this program because of a local emergency. Important information will follow.

(f) Transmit the Emergency Action Notification Attention Signal as set forth in § 73.906, as follows:

(1) Cut the transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(2) Return carrier to the air for 5 seconds.

(3) Cut transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(4) Return carrier to the air.

(5) Broadcast 1,000-hertz steady-state tone for 15 seconds.

NOTE: Television broadcast stations voluntarily participating in the Operational (Local) Areas EBS should display an Operational Area Emergency Broadcast System slide during the above transmission procedure and the audio transmissions that follow.

NOTE: Stations normally broadcasting in a foreign language should repeat the above announcements in that language.

(g) All broadcast stations (standard, FM, and television) voluntarily participating in the (operational area name) Emergency Broadcast System (EBS) may, at the discretion of management, make the following announcement:

This is an Emergency Action Notification. All stations in the (operational area name) are requested to broadcast the following Local-Level Emergency Action Notification Message.

This station has interrupted its regular program to participate in the (operational area name) Emergency Broadcast System. Many stations will be broadcasting a special emergency program to the residents of (operational area name). This station will broadcast the special emergency program beginning at (time). (Give further details—if available.)

I repeat • • • (Repeat the above announcement.)

(h) Upon completion of the above transmission procedures, resume normal programing until the scheduled time for the Local-Level EBS Broadcast. Upon cue from the Common Program Control Broadcast Station for your Operational (Local) Area, begin broadcast of a common program received from one of the following sources consistent with the provisions of the Detailed State Emergency Broadcast System (EBS) Plan:

(1) Common Program Control Station for your Operational (Local) Area.

(2) Primary Relay (FM) Station for your Operational (Local) Area.

(3) Remote Pickup Broadcast Network serving the Operational (Local) Area.

(i) All stations may resume normal broadcast operations in accordance with the provisions of their current license or program test authority upon conclusion of the Operational (local) Area EBS Broadcast.

Tests

§ 73.961 Tests of the Emergency Action Notification System.

Tests of the Emergency Action Notification System will be made at regular intervals with appropriate entries in the station operating log, as follows:

(a) Test transmissions of the First Method, National-Level interconnecting facilities of the Emergency Action Notification System will be conducted on a random basis once each week or as prescribed by the White House. The test transmissions will originate on an alternate week basis from one of two specified origination points; thence via a dedicated teletype network to specified control points of the commercial Radio and Television Broadcast Networks and the American Telephone and Telegraph Co. in accordance with the test procedures set forth in the EBS Standing Operating Procedures (EBS SOP-1), copies of which are furnished to the non-Government entities involved.

(b) Test transmissions of the Second Method National-Level interconnecting facilities of the Emergency Action Notification System will be conducted on a random basis once each week or as prescribed by the White House. The test transmissions will originate on an alternate week basis from one of two specified origination points; thence via a dedicated teletype network with a dedicated automatic telephone network for backup confirmation purposes in accordance with the test procedures set forth in the EBS Standing Operating Procedures (EBS SOP-2), copies of which are furnished to the non-Government entities involved.

(c) The test transmissions set forth in paragraphs (a) and (b) of this section will be as follows:

(1) A 10-bell alarm.

(2) The test text, as follows:

Testing Emergency Action Notification System—repeat—Testing Emergency Action Notification System.

If this were not a test you would receive a message authenticator word followed by the Emergency Action Notification Message. Another message would immediately follow requesting specific NIAC Order arrangements and give point of program origination—and the same message authenticator word transmitted again.

Testing Emergency Action Notification System—repeat—Testing Emergency Action Notification System.

(Date and time, Washington, D.C., time.)

(3) A 10-bell alarm.

(d) Test transmissions to standard, FM, and television broadcast stations using the Second Method of the Emergency Action Notification System and utilizing the facilities of the Associated Press (AP) and United Press International (UPI) Radio Wire Teletype Networks will be conducted once each week in accordance with the test procedures set forth in the EBS Standing Operating Procedures (EBS SOP-2), copies of which are furnished to all stations. AP and UPI will separately transmit the Test Message on a random basis once each week at times of their choice. The date and time of receipt of these test transmissions should be entered in the Station Operating Log. Weekly AP/UPI EAN test transmission:

(1) A full line of "X's."

(2) A 10-bell alarm.

(3) The test text, as follows:

This is a test of the Emergency Action Notification System. If this were not a test, you would receive an authenticator word, an Emergency Action Notification Message, and the same authenticator word again. This is a test of the Emergency Action Notification System. All stations follow procedures on EBS Checklist for weekly teletype tests.

(Date and time, Washington, D.C., time.)

(4) A full line of "X's."

(5) A 10-bell alarm.

(e) Test transmission of the Third Method of the Emergency Action Notification System will be conducted by standard, FM, and television broadcast stations once each week on a random basis between the hours of 8:30 a.m. and local sunset.

(1) Discontinue normal program and make the following announcement:

This is a test. For the next 60 seconds this station will conduct a test of the Emergency Broadcast System. This is only a test.

(2) Transmit the Emergency Action Notification Attention Signal as set forth in § 73.906, as follows:

(i) Cut the transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(ii) Return carrier to the air for 5 seconds.

(iii) Cut transmitter carrier for 5 seconds. (Sound carrier only for TV stations.)

(iv) Return carrier to the air.

(v) Broadcast 1,000-hertz steady-state tone for 15 seconds.

(3) Broadcast the Third Method Test Message, as follows:

This is a test of the Emergency Broadcast System. The broadcasters of your area in voluntary cooperation with the FCC and other authorities have developed this system to keep you informed in the event of a serious emergency. If this had been an actual emergency, you would have been instructed where to tune in your area[1] for news and official information. This concludes this test of the Emergency Broadcast System.

(4) Resume normal programing.

(5) The date and time of the above test transmission shall be entered in the Station Operating Log.

(f) Tests of State program distribution interconnecting systems and facilities should be conducted on a day-to-day basis as periodic broadcast operations such as State Weather Networks, or State Association of Broadcasters Networks. Letters granting rebroadcast authority shall be exchanged between all participating licensees in accordance with the provisions of section 325(a) of the Communications Act of 1934, as amended, and Part 73 of this chapter.

(g) Operational (Local) Area common program distribution interconnecting systems, facilities, and procedures shall be tested on a closed circuit basis to insure emergency readiness of such interconnecting facilities in accordance with approved Detailed State Emergency Broadcast System (EBS) Operational Plans.

§ 73.962 Closed Circuit Tests of Approved National-Level Interconnecting Systems and Facilities of the Emergency Broadcast System (EBS).

Tests of approved National-Level interconnecting systems, and systems and facilities of non-Government entities voluntarily participating in the Emergency Broadcast System (EBS) will be conducted not more than once a month and not less than once every 3 months only after prior FCC approval, in each instance, at a time selected by both White House and National Industry Advisory Committee (NIAC) representatives, in coordination with the Defense Commissioner, FCC, and the Chief, Emergency Communications Division, as set forth below. Appropriate entries shall be made in the station operating log.

(a) Notification of closed circuit tests of NIAC Orders 1 through 63 will be by an Emergency Action Notification System Closed Circuit Test Message (First and Second Methods) followed by a NIAC Order Mesage (addressed to AT&T and the commercial Radio Networks only—AP and UPI will not retransmit this NIAC Order Message) using the Closed Circuit Test Procedures set forth in EBS SOP-1 and SOP-2 Series.

(b) NIAC Order No. 1: National program distribution interconnecting systems and facilities will be tested on a closed circuit basis. This test will consist of a closed circuit broadcast, and due to varying program scheduling of the commercial Radio Broadcast Networks involved, the individual network facilities shall remain as separate entities. The audio networks associated with the video networks of ABC–TV, CBS–TV, or NBC–TV shall not be utilized nor are the Telephone Companies authorized to add any of the unaffiliated stations participating in the Emergency Broadcast System (EBS). The American Telephone and Telegraph Co. is authorized to interconnect the facilities of the Intermountain Networks for the duration of these closed circuit tests, then remove such interconnection. Authentication given via the National-Level interconnecting facilities of the Emergency Action Notification System will utilize the test words printed on the outside of the EBS Authenticator List (Red Envelope). The details of these closed circuit tests are set forth in Standing Operating Procedures SOP–1 and SOP–2 Series promulgated quarterly only by the Federal Communications Commission and issued only to those concerned.

(c) NIAC Orders Nos. 2 through 63: Tests of technical program origination and distribution channels will be conducted on a closed circuit basis. These test broadcasts will originate from a point selected by the White House with program feed circuitry connected to the Telephone Company Toll Test Center at points indicated for the individual NIAC Orders. These NIAC Orders authorize the American Telephone and Telegraph Co. to feed simultaneously the facilities of the nationwide commercial Radio Broadcast Networks, namely ABC, CBS, MBS, NBC, and the Intermountain (IMN) Radio Broadcast Network. These facilities may be interconnected as required by the American Telephone and Telegraph Co. The audio networks associated with the video networks of ABC–TV, CBS–TV, or NBC–TV shall not be utilized nor are the Telephone Companies authorized to add any of the unaffiliated stations participating in the Emergency Broadcast System (EBS). Authentication will be provided by the White House to the Telephone Company Toll Test Center responsible for the particular NIAC Order to be used. Authentication given via the National-Level interconnecting facilities of the Emergency Action Notification System will utilize the test words printed on the outside of the EBS Authenticator List (Red envelope). The details of these closed circuit tests are set forth in Standing Operating Procedures SOP–1 and SOP–2 Series promulgated quarterly only

[1] Television stations displaying an Operational Area map as the Emergency Broadcast System slide, may add: "As shown on this map."

V 37-73 APR 14 72 XUM

by the Federal Communications Commission and issued only to those concerned.

(d) Interconnection of unaffiliated broadcast stations cannot be provided on tests of NIAC Orders 1 through 63 unless authorized by the Federal Communications Commission.

(e) Test procedures:

(1) Notification of a closed circuit test will be received via the First and Second Methods of the Emergency Action Notification System only. (Do not interrupt your program and do not broadcast the closed circuit test message.)

CLOSED CIRCUIT TEST NOTIFICATION MESSAGE

This is a closed circuit test of the Emergency Broadcast System. Do not broadcast this message. Do not broadcast the audio program. The test authenticator word is _____. This message authorizes a closed circuit test of the Emergency Broadcast System. Monitor radio network lines for closed circuit test program. All stations follow procedures on the EBS Checklist for closed circuit tests. The test authenticator word is _____.

NOTE: Test authenticator words are printed on the outside of the EBS Authenticator List (Red Envelope) associated with the EBS Checklist.

(2) Immediately monitor your nationwide commercial radio (ABC, CBS, IMN, MBS, NBC, and UPI-Audio) network for the First Method Emergency Action Notification closed circuit test message. Television networks do not participate in the closed circuit tests.

(3) Immediately check your AP/UPI Radio Press Wire Network teletype machines for the Second Method Emergency Action Notification closed circuit test message. Verify authenticity using the Test Words printed on the outside cover of the current issue of the EBS Authenticator List (Red Envelope).

(4) Continue to monitor your nationwide commercial radio network for talkup, and the closed circuit test program.

(5) Enter the time of receipt of the closed circuit test in your station operating log.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Izembek National Wildlife Range, Alaska

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4-14-72).

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

ALASKA

IZEMBEK NATIONAL WILDLIFE RANGE

Boats are permitted on the Izembek National Wildlife Range for public access, use, and recreation subject to the following special condition:

(1) The use of water-jet driven boats or boats driven by air propellers, commonly known as air boats, is prohibited.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1972.

LOREN W. CROXTON,
Deputy Area Director, Bureau of Sport Fisheries and Wildlife, Anchorage, Alaska.

APRIL 7, 1972.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 7]

CAPE COD NATIONAL SEASHORE, MASS.

Oversand Vehicle Operation

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 3), and the Act of August 6, 1961 (75 Stat. 284; 16 U.S.C. 459b); 245 DM-1 (27 F.R. 6395), and National Park Service Order No. 21 (27 F.R. 7903), it is proposed to amend § 7.67 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of these amendments is to establish restrictions as to the number of vehicles permitted on the designated oversand routes and beaches in the dunes area of the Seashore. These changes are being made in the interest of public safety, conservation of resources, and minimization of conflict with other forms of public use.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections to the Superintendent, Cape Cod National Seashore, South Wellfleet, Mass., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

It is proposed that § 7.67 be amended as follows:

§ 7.67 Cape Cod National Seashore.

• • • • • •

(c) *Private oversand vehicle operation.* • • •

(16) The Superintendent may establish limits on the number of oversand vehicles permitted on designated oversand routes and beaches when such limitations are necessary in the interest of public safety, protection of the ecological and environmental values of the areas, and coordination with other visitor uses.

• • • • • •

LAWRENCE C. HADLEY,
Assistant Director, National Park Service.

[FR Doc.72-5598 Filed 4-13-72;8:45 am]

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

CONSTRUCTION OF REA-FINANCED RURAL ELECTRIFICATION FACILITIES

Proposed Procedures for the Closeout of Construction Contracts

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.) REA proposes to issue a revision of REA Bulletin 81-6, Closeout Procedures for Contract Construction of Distribution and Transmission Facilities, to set forth the procedure to be followed by its electric borrowers in the closeout of certain construction contracts. This bulletin lists the required closeout documents and outlines the procedure for their preparation and distribution.

Persons interested in the provisions of revised REA Bulletin 81-6 may submit written data, views, or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days from the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

A copy of the revised REA bulletin, and the contract forms and attachments may be secured in person or by written request from the Director, Power Supply, Management and Engineering Standards Division.

A summary of the changes proposed by the revision of REA Bulletin 81-6 is as follows:

1. The closeout procedure provided by the revised bulletin has been made applicable to construction covered by the following REA contract forms. Except as specified in 2 below the procedures in the proposed revision of the bulletin generally follow the existing closeout procedure.

REA Form 201, Right-of-Way Clearing Contract.
REA Form 203, Transmission System Right-of-Way Clearing Contract.
REA Form 764, Substation Erection Contract.
REA Form 786, Electric System Communications and Control Equipment Contract (Including Installation).
REA Form 790, Distribution Line Extension Construction Contract (Labor and Materials).
REA Form 792, Distribution Line Extension Construction Contract (Labor Only).
REA Form 830, Electric System Construction Contract.
REA Form 831, Electric Transmission Construction Contract.

2. Closeout procedures have been simplified for contracts on REA Form 830. The final Construction Inventory (Form 254) and the Waiver and Release of Lien (Form 224) need no longer be submitted to REA in Washington.

Dated: April 11, 1972.

JAMES N. MYERS,
Assistant Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 295]

HOUSEHOLD SUBSTANCES IN LIQUID FORM CONTAINING TURPENTINE

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that the accidental ingestion of household substances in liquid form containing 10 percent or more of turpentine has been a significant cause of hospitalizations and fatalities of children under 5 years of age. Such household substances include paint thinners, certain furniture polishes, and household solvents.

Ingestion of a turpentine-containing preparation by a child can result in systemic poisoning, and aspiration of such a preparation by a child can cause serious or fatal chemical pneumonitis. Turpentine is readily absorbed from the gastrointestinal and respiratory tracts and is reported to be a local irritant and central nervous system depressant. The absorption of turpentine is also reported to have a damaging effect upon the kidneys.

V 37-73 APR 14 72 XUM

The accidental ingestion and aspiration into the lungs of household substances containing turpentine can produce pulmonary edema and pneumonitis with dyspnea, cyanosis, and fever. The principal symptoms following ingestion without aspiration are severe abdominal irritation, nausea, vomiting, diarrhea, painful micturition, transient excitement, ataxia, stupor, and coma. Death is usually from respiratory arrest.

Data from the National Clearinghouse for Poison Control Centers on accidental ingestions of turpentine-containing preparations by children under 5 years of age for the 3-year period 1968–70 show 2,062 ingestions and 249 hospitalizations. Data from death certificates for the same period show two deaths of children under 5 years of age from ingestion of such products.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by liquid household products containing 10 percent or more of turpentine, by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 11 different special packages have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) that meet or exceed the effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph be added to § 295.2(a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of February 16, 1972; 37 F.R. 3427):

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

• • • • • •

(6) *Turpentine.* Household substances in liquid form containing 10 percent or more by weight of turpentine shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

• • • • • •

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 11, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–5721 Filed 4–13–72;8:48 am]

[21 CFR Part 295]

CERTAIN LIQUID KINDLING AND/OR ILLUMINATING PREPARATIONS CONTAINING PETROLEUM DISTILLATES

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that the accidental ingestion of liquid kindling and illuminating preparations containing 10 percent or more of petroleum distillates, and having a viscosity of less than 100 Saybolt universal seconds at 100° F., has been a significant cause of fatalities and hospitalizations of children under 5 years of age. Such preparations include cigarette and charcoal lighter fluids and torch fuels.

Reflecting the trend to outdoor living, charcoal lighter fluids and other kindling and/or illuminating products are widely and increasingly used household items. Cigarette lighter fluid remains a common household item. These products, composed essentially of flammable and/or combustible petroleum distillates, present a serious hazard of accidental ingestion and aspiration by children.

Although not generally recognized by laymen, the fact that serious or fatal chemical pneumonitis can result from aspiration of these products by children is well known and thoroughly documented in medical literature. Upon accidental ingestion and aspiration into the lungs, such petroleum distillate-containing preparations can cause endothelial injury leading to the rapid development of pulmonary edema. The resulting chemical pneumonitis can be fatal to young children.

A case illustrating the hazard of such products is the reported ingestion and aspiration of an unknown amount of charcoal lighter fluid by a child. Death ensued within 80 minutes after ingestion. The death was attributed to acute hydrocarbon intoxication and cerebral edema.

Data from the National Clearinghouse for Poison Control Centers on accidental ingestions by children under 5 years of age for the 3-year period 1968–70 show 3,189 ingestions and 369 hospitalizations attributable to various kindling and/or illuminating products. Reports received by the Food and Drug Administration show nine deaths of children under 5 years of age due to acidental ingestion of these products during the period 1964–71.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by kindling and/or illuminating products containing 10 percent or more petroleum distillates and having a viscosity of less than 100 Saybolt universal seconds at 100° F., by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from ingesting such preparations.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 11 different special packages have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) that meet or exceed the child-resistant effectiveness and adult-use effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph be added to § 295.2 (a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of February 16, 1972; 37 F.R. 3427):

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following

substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

• • • • • •

(7) *Kindling and/or illuminating preparations.* Liquid kindling and/or illuminating preparations containing 10 percent or more of petroleum distillates and having a viscosity of less than 100 Saybolt universal seconds at 100° F. shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

• • • • • •

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 11, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 72–CE–11–AD]

BEECH MODELS 33, 35, 36, 45, 55, AND 95 SERIES AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an Airworthiness Directive applicable to Beech Models 33, 35, 36, 45, 55, and 95 airplanes. Over a period of years there have been reports of uplock roller seizures on these series airplanes which results in gear-up landings. These seizures are attributable to improper or inadequate maintenance. Despite public dissemination of reported maintenance publications on this subject by both the manufacturer and FAA, this problem still exists. Initially, it was necessary to partially disassemble the uplock mechanism on these series airplanes for proper lubrication. However, the manufacturer has now developed a modification to facilitate lubrication per Beech Service Instruction No. 0448–211. In order to prevent the condition described herein, an AD is being proposed requiring on the aforementioned series airplanes the installation of hollow zerk-ended mounting bolts on the uplock rollers and repetitive lubrication of the uplock mechanism in accordance with Beech Service Instruction No. 0448–211.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, 1548 Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 30 days after publication of the notice in the FEDERAL REGISTER will be considered before action is taken upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Airworthiness Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new AD.

BEECH. Applies to the following:

Models	*Serial numbers*
35–33, 35–A33, 35–B33, 35–C33, E33, F33, and G33.	CD–1 through CD–1256.
35–C33A, E33A, and F33A.	CE–1 through CE–349.
E33C and F33C	CJ–1 through CJ–30.
35, A35, B35, C35, D35, E35, F35, G35, H35, J35, K35, M35, N35, P35, S35, V35, V35TC, V35A, V35A–TC, V35B, and V35B–TC.	D–1 through D–9287.
36 and A36	E–1 through E–283.
A45(T–34A), B45 and D45(T–34B).	All.
95–55, 95–A55, 95–B55, and 95–B55A.	TC–1 through TC–1402.
95–C55, 95–C55A, D55, D55A, E55, and E55A.	TE–1 through TE–846.
56TC and A56TC	TG–1 through TG–94.
58	TH–1 through TH–174.
95, B95, B95A, D95A, and E95.	TD–2 through TD–721.

Compliance: Required as indicated, unless already accomplished:

To decrease the possibility of gear-up landings caused by seizure of the uplock rollers, accomplish the following:

(A) Within the next 300 hours' time in service after the effective date of this AD, install hollow zerk-ended mounting bolts on the uplock rollers in accordance with Beech Service Instructions No. 0448–211 or any FAA-approved equivalent.

(B) Within the next 300 hours' time in service after the effective date of this AD, and thereafter at 100-hour intervals, lubricate the uplock mechanism in accordance with Beech Service Instruction No. 0448–211.

Issued in Kansas City, Mo., on April 7, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[Airspace Docket No. 72–NE–3]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to amend the Bar Harbor, Maine, transition area (37 F.R. 2153).

A new standard instrument approach procedure has been developed for Bar Harbor Airport, Bar Harbor, Maine. This new procedure will require alteration of the Bar Harbor 700-foot floor transition area to provide controlled air space for aircraft executing the procedure.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA 01803. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, 154 Middlesex Street, Burlington, MA.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Bar Harbor, Maine, proposes the airspace action hereinafter set forth:

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Bar Harbor, Maine, 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 12.5-mile radius of the center (44°26'56" N., 68°21'42" W.) of the Bar Harbor Airport excluding that airspace previously designated as the Bangor, Maine, 700-foot transition area. Within 4.5 miles west and 9.5 miles east of the Bar Harbor ILS localizer course extending from the 12.5-mile radius to 11.5 miles north of the surry (BH) NDB.

This amendment is proposed under section 307(a) of the Federal Aviation

V37-73 APR 14 72 XUM

Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Mass., on April 6, 1972.

FERRIS J. HOLLAND,
Director, New England Region.

[14 CFR Part 71]

[Airspace Docket No. 72-SO-31]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Orlando, Fla., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Orlando transition area described in § 71.181 (37 F.R. 2143) would be amended as follows: All after "long. 81° 26'15" W.) • • •" would be deleted and "• • • within 3 miles each side of the 165° and 322° bearings from Kissimmee RBN (lat. 28°17'21" N., long. 81°26'05" W.), extending from the 6.5-mile-radius area to 8.5 miles south and northwest of the RBN • • •" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR aircraft executing the proposed NDB RWY 33 Standard Instrument Approach Procedure to Kissimmee Municipal Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on April 6, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-5680 Filed 4-13-72;8:46 am]

[14 CFR Part 73]

[Airspace Docket No. 72-AL-6]

RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a temporary restricted area at the Port Heiden, Alaska, airport.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

If this action is taken, the Port Heiden, Alaska, restricted area would be designated as follows:

Boundaries: Within a 2.5-mile radius of the Port Heiden Airport (latitude 56°57'48" N., longitude 158°38'36" W.).

Designated altitudes: Surface to 8,000 feet MSL.

Time of designation: 2100 to 0900 local time, July 15, 1972, to October 1, 1972, as activated by NOTAM.

Controlling agency: Federal Aviation Administration, Anchorage ARTC Center.

Using agency: The Aerospace Corp., Los Angeles, Calif.

The proposed restricted area is needed in connection with testing of a very low frequency communication link between Port Heiden, Alaska, and Swampy Summit, New Zealand. The experiment requires a vertical antenna which will extend from the surface to 7,000 feet MSL supported by a helicopter or a balloon.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 7, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

Notices

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

ENGINEERING AND CONSTRUCTION OF REA-FINANCED ELECTRIC DISTRIBUTION, TRANSMISSION, COMMUNICATION, AND GENERATION FACILITIES

Notice of Revised REA Standard Contract Forms

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.) REA proposes to amend REA Bulletins 41-1 and 40-8 for the purpose of revising the following engineering and construction contract forms:

ENGINEERING SERVICE CONTRACTS

REA Form 211, Engineering Service Contract for the Design and Supervision of Construction of a Generating Plant.
REA Form 235, Engineering Service Contract, Electric Substation Design and Construction.
REA Form 236, Engineering Service Contract, Electric System Design and Construction.
REA Form 237, Engineering Service Contract, Electric System Design and Construction.

CONSTRUCTION CONTRACTS

REA Form 200, Generating Plant Construction Contract.
REA Form 201, Right-of-Way Clearing Contract.
REA Form 764, Substation Erection Contract.
REA Form 786, Electric System Communications and Control Equipment Contract.
REA Form 830, Electric System Construction Contract.
REA Form 831, Electric Transmission Construction Contract.

Persons interested in the revised contract forms may submit written data, views, or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3113, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days from the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

A copy of any of the revised contract forms may be requested in person or in writing from the Director, Power Supply, Management and Engineering Standards Division.

A summary of the proposed changes in the contract forms is as follows:

ENGINEERING SERVICE CONTRACTS, REA FORMS 211, 235, 236, AND 237

1. Where existing contract forms refer only to financing the project with REA loan funds, the wording will be modified to recognize that supplemental financing may be used.

2. In regard to ecological and environmental matters, the engineer will be required to give thorough consideration to esthetics and the protection of the environment in all phases of construction. Reference will be made (except in REA Form 211) to the guidelines in the publication, "Environmental Criteria for Electric Transmission Systems," issued jointly by the U.S. Department of the Interior and the U.S. Department of Agriculture. The engineer will be required to incorporate into the project the environmental commitments of a published environmental analysis or environmental statement.

3. Insofar as possible, the compensation provisions in these contract forms will be made consistent or identical with similar provisions in other REA standard engineering service contract forms. For example, if reference is made to "out-of-pocket expense," the allowable items making up this expense will be made the same in all contract forms.

4. Provisions will be added giving the engineer the right, under certain conditions, to terminate the contract.

5. Other provisions of the forms will be standardized and brought up to date.

CONSTRUCTION CONTRACTS, REA FORMS 200, 201, 764, 786, 830, and 831

1. Where existing contract forms refer only to financing the project with REA loan funds, the wording will be modified to recognize that supplemental financing may be used.

2. Ecological and environmental considerations and requirements will be added. The contractor will be required to perform work in such a manner as to maximize preservation of beauty, conservation of natural resources, and minimize marring and scarring of the landscape and silting of streams. The contractor will be required to follow the criteria relating to environmental protection as specified in the contract.

3. Language will be added relating to the contractor's and owner's responsibility for payment of taxes on labor and services when such taxes are imposed by any taxing authority.

4. Where the latest equal employment opportunity provisions have not been incorporated in these contract forms, they will be added to eliminate the need for a separate addendum.

5. Other provisions of the forms will be standardized and brought up to date.

Dated: April 10, 1972.

JAMES N. MYERS,
Assistant Administrator.

[Docket No. 23333; Order 72-4-34]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority April 7, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Conferences of the International Air Transport Association (IATA) and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated March 30, 1972, names an additional specific commodity rate, as set forth below, reflecting a reduction from general cargo rates.

Item No.	
1201---	Greyhounds, 201 cents per kg. minimum weight 100 kgs. From Brisbane to Los Angeles.

V 37 - 73 APR 14 72 XUM

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found, on a tentative basis, that the subject agreement is adverse to the public interest or in violation of the Act: *Provided*, That tentative approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered, That:

Action on Agreement CAB 22821, R–1, be and hereby is deferred with a view toward eventual approval, provided that approval shall not constitute approval of the specific commodity description contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may, within 10 days after the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–5695 Filed 4–13–72;8:47 am]

[Dockets Nos. 24347, 24353; Order 72–4–47]

EASTERN AIR LINES, INC.

Order Dismissing Complaint Regarding Weekend Excursion Fares in Mainland-San Juan/Virgin Islands Market

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of April 1972.

By tariff revisions marked to become effective April 14, 1972,[1] Eastern Air Lines, Inc. (Eastern), proposes to establish round-trip weekend excursion fares between 13 points in the United States and San Juan and the Virgin Islands. The fares apply to travel originating on Friday or Saturday, with return on the following Sunday or Monday. The proposed round-trip fares to San Juan are $100 from Baltimore/Washington, Boston, Hartford, Philadelphia, Providence, and New York; $125 from Atlanta, Buffalo, Chicago, Cleveland, Detroit, and St. Louis. Round-trip fares to the Virgin Islands from the aforementioned 13 mainland points are $26 above the fares to San Juan. The fares, which reflect discounts from regular fares generally ranging from 30 to 46 percent, will apply from April 14 through June 22, and from September 15 through December 11, 1972, and would be blacked out over the Memorial Day weekend. The tariff is marked to expire December 11, 1972.[2]

American Airlines, Inc. (American), has filed a complaint against the proposal requesting its suspension and investigation. American indicates that it would have no difficulty with the proposal if applicability of the fares were limited to Friday and Monday, as was the case last year. However, it contends that extension of their availability to Saturday and Sunday will necessitate additional capacity to accommodate the discount-fare traffic[3] a result which is contrary to the purpose of discount fares which is to fill otherwise unused existing capacity.

Eastern's proposal to establish weekend excursion fares between the U.S. mainland and Puerto Rico and the Virgin Islands comes within the scope of the investigation of mainland U.S.-Puerto Rico/Virgin Island fares in Docket 24353, and its lawfulness will be determined in that proceeding. The question then is whether to permit the proposal to become effective, or to suspend it pending investigation. Upon consideration of all relevant matters, the Board finds that the complaint does not set forth sufficient facts to warrant suspension, and the request therefor will be denied and the complaint dismissed.

We are not convinced that, by extending availability of the fares to Saturday and Sunday, additional flights would be required to accommodate the traffic generated by these fares. On the contrary, we are inclined to believe that passengers utilizing these short-limit fares will seek to maximize the time available at their destination, and that Friday and Monday are very likely to remain the most popular days of travel. If anything, the addition of Saturday and Sunday as available travel days may tend to alleviate potential pressure on capacity on Friday and Monday. Since comparable fares were apparently profitable last fall, we have no reason to conclude that they would not be similarly profitable this year.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. The complaint of American Airlines, Inc., in Docket 24347 is dismissed; and

2. A copy of this order be served upon American Airlines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–5696 Filed 4–13–72;8:47 am]

---

[1] Revisions to Eastern Air Lines, Inc., Tariff CAB No. 326.

[2] American Airlines, Inc., Delta Air Lines, Inc. (Delta), and Pan American World Airways, Inc. (Pan American), have filed to match Eastern's proposal.

[3] American alleges that extension to Saturday and Sunday will increase newly generated traffic by at least 50 percent, and that this additional traffic will be equally divided between each of the 4 days the fares are applicable.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 72–305]

OFF NETWORK PROGRAMS AND FEATURE FILMS

Interpretations of Rule Restricting Presentation

APRIL 6, 1972.

Section 73.658(k) of the Commission's rules, the "prime time access rule," in general limits television stations in the top 50 markets to the presentation of no more than 3 hours per evening of network programing during "prime time" (7 to 11 p.m., e.t. and P.t., 6 to 10 p.m., c.t., and 7 to 11 p.m. m.t., except that stations in that zone may elect to substitute 6 to 10). Effective October 1, 1972, § 73.658(k)(3) also provides that "the time from which network programing is excluded" may not "be filled with off-network programs; or feature films which within 2 years prior to the date of broadcast have been previously broadcast by a station in the market."

In response to a number of inquiries as to the interpretation of the "off-network" and previously shown movie restrictions, the Commission is issuing the interpretations set forth as answers to the following four questions:

1. *Question. Does the restriction on "off network programs" apply to "special" programs, which were presented on a national network but not on a regular basis?*

Answer. Yes. The rule and its restrictions apply to off-network programs which were of a special or irregular nature, as well as to regular program series.

2. *Question. Does the restriction on reshowing of feature films in the market within 2 years apply where the previous showing was on the same station, i.e., if a network-affiliated station ran a feature film during 1971 (at any hour), is it prohibited from presenting the same movie during the "cleared" portion of time in 1972?*

Answer. Yes. The 2-year restriction on filling the cleared portion of prime time with movies previously shown in the market applies to a showing on the station which previously showed it.

3. *Question. Is material considered an "off-network program" not eligible for presentation during the cleared portion of prime time, if it, itself, was not presented on a network but it is a further episode or continuation of a series which ran on the network?*

Answer. No. As long as the particular program or episode itself did not run on the network, it is not considered an "off-network program."

4. *Question. Do the "off-network" and "2-year feature film" restrictions of § 73.658(k) apply to independent stations, not affiliated with a national network or networks and normally carrying little network prime time programing?*

Answer. No. Since these stations do not carry substantial amounts of prime time network programing, as to them there is no particular "time from which network programing is excluded", and the off-network and feature film restrictions do not apply to them.

Action by the Commission April 5, 1972.[1]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72–5692 Filed 4–13–72;8:47 am]

STANDARD BROADCAST APPLICATION READY AND AVAILABLE FOR PROCESSING

APRIL 7, 1972.

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on May 19, 1972, the following application by station KTNC for increase in power of its Class IV standard broadcast station, will be considered as ready and available for processing:

BP–19169 KTNC, Falls City, Nebr.
Southeast Nebraska Broadcasting Co., Inc.
Has: 1230 kc., 100 w., U
Req: 1230 kc., 250 w., 500 w.-LS, U.

The purpose of this notice is not to invite applications which may conflict with the listed application, but to apprise any party in interest who desires to file pleadings concerning the application pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, of the necessity of complying with § 1.580(i) of the Commission's rules governing the time of filing and other requirements relating to such pleadings.

Adopted: April 7, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–7720]

DUKE POWER CO.

Notice of Proposed Fuel Cost Adjustment Clause

APRIL 11, 1972.

Take notice that on March 30, 1972, Duke Power Co. (Duke) filed changes in its wholesale rate schedules to be effective as of June 1, 1972. The proposed fuel cost adjustment clause applies only to fossil fuels burned in the company's own generating stations, and is applicable to all of the company's wholesale rate schedules. It will increase or decrease monthly bills for service rendered pursuant to these schedules as the cost of fossil fuels burned rises above or falls below 35.2 cents per million B.t.u.

Duke states that the proposed clause is justified because the company, even with the proposed clause, cannot earn the rate of return found by the Presiding Examiner in the company's general wholesale rate increase application to the Commission in Docket No. E–7557 and the company needs to begin collecting revenues under such clause, subject to refund, as promptly as possible.

In connection with the proposed clause, Duke also petitioned the Commission to: (1) Fix the time within which answers to its petition may be filed at no later date than April 20, 1972, (2) waive the requirement that the cost of service and testimony required by §§ 35.13(b) (4) and (5) of the Commission's regulations be filed and accept the attached fuel cost adjustment clause for filing, (3) waive the requirement of § 1.7(b) that the 30-day notice required by section 205(d) of the Federal Power Act not begin to run until after the Commission's acted upon the foregoing request for waiver of its rules (or in the alternative waive the 30-day notice requirement of section 205(d) pursuant to its terms); and (4) permit the fuel cost adjustment clause to become effective on June 1, 1972, after a 30-day suspension and subject to refund.

Any person desiring to be heard or to make protest with reference to said application should on or before April 20, 1972, file with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

NATIONAL COMMISSION ON FIRE PREVENTION AND CONTROL

PROBLEMS OF FIRE SERVICE

Notice of Public Hearing

APRIL 10, 1972.

The National Commission on Fire Prevention and Control will hold public hearings in Dallas, Tex., on April 24 and 25, on problems of the Fire Service. Issues to be discussed are as follows:

1. Firefighter personal protective equipment.
2. Education and training, and the need for a national fire academy.
3. Fire control equipment.
4. Community relations (false alarms, harassment).
5. Personnel (professionalization, recruitment).
6. Fire Department management (organization and operation), including cost benefit analysis of fire protection levels.
7. Regional approaches to fire protection.
8. Volunteer fire services.
9. Transportation accidents involving hazardous materials.

Other issues such as the need for an improved data base, research, and the Federal role will be discussed as part of the above issues. The Commission hearings will be held on the fourth floor of the Mercantile National Bank, Commerce Street, Dallas, Tex. Additional hearings will be held June 27, 28 in Los Angeles, June 30 in San Francisco, October 3, 4 in Chicago, and June 13, 1973, in Washington, D.C.

HOWARD D. TIPTON,
Executive Director.

SECURITIES AND EXCHANGE COMMISSION

[811–1875]

DERN'S SELECTED FUNDS, INC.

Notice of Filing of Application for an Order Declaring That Company Has Ceased To Be an Investment Company

APRIL 10, 1972.

Notice is hereby given that Dern's Selected Funds, Inc. (Applicant), 134 Evergreen Place, East Orange, NJ 07018, registered under the Investment Company Act of 1940 (Act) as an open-end nondiversified management investment company, has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Applicant, incorporated on March 26, 1969, under the laws of the State of Maryland, registered under the Act on June 9, 1969. Applicant states that at a special meeting of shareholders held on January 14, 1972, shareholders voted to liquidate and dissolve Applicant pursuant to Maryland law. Applicant represents that as of February 18, 1972, it had 60 shareholders, and an aggregate net asset value of $86,583.62. Applicant further represents that it is currently in the process of liquidation and is not engaged primarily in the business of investing, reinvesting, holding, or trading in securities and does not own investment securities having a value exceeding 40 percent of its total assets.

[1] Commissioners Burch (Chairman), Bartley, H. Rex Lee, Reid and Wiley, with Commissioner Johnson concurring.

V 37 I 73 APR 14 72 XUM

Applicant has filed a post-effective amendment to its registration statement under the Securities Act of 1933 to deregister its shares.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than April 28, 1972, submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by a certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive a notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[Notice 49]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 6, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 111434 (Sub-No. 82 TA), filed March 23, 1972. Applicant: DON WARD, INC., 241 West 56th Avenue, Denver, CO 80216, Official Post Office Box 1488, Durango, CO 81301. Applicant's representative: J. Albert Sebald, 1700 Western Federal Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Magnetite*, from Carbondale, Colo., to the site of Kaiser Steel Corp., York Canyon Mine located approximately 35 miles northwest of Raton, N. MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73434. By order of April 7, 1972, the Motor Carrier Board approved the transfer to Kearney's, Inc., Portland, Pa., of the operating rights in certificate No. MC-112461 issued September 4, 1959, to Claude S. Cyphers Transportation, Inc., Portland, Pa., authorizing the transportation of coal and lumber from and to, and between, specified points in New Jersey and Pennsylvania. *Dual operations under common control were approved.* Kenneth R. Davis, 999 Union Street, Taylor, PA 18517, registered practitioner for applicants.

No. MC-FC-73510. By order of April 7, 1972, the Motor Carrier Board approved the transfer to Astro Air, Inc., South Dartmouth, Mass., of the certificate of registration in No. MC-58189 (Sub-No. 2) issued January 14, 1964, to Herbert Witkind, New Bedford, Mass., evidencing a right to engage in transportation in interstate or foreign commerce corresponding in scope to the grant of authority in certificate No. 7018 dated January 16, 1958, issued by the Massachusetts Department of Public Utilities. John F. Curley, 15 Court Square, Boston, MA 02108, attorney for applicants.

No. MC-FC-73532. By order of April 7, 1972, the Motor Carrier Board approved the transfer to Shane Truck Line, Inc., Clovis, Calif., of certificate of registration No. MC-120859 (Sub-No. 1) issued June 6, 1967, to A. F. Express Co., Inc., Stockton, Calif., evidencing a right to engage in transportation in interstate commerce corresponding in scope to the grant of authority in Decision No. 61475 dated February 14, 1961, and transferred by Decision No. 70965 dated July 19, 1966, by the Public Utilities Commission of California. Arnold L. Burke, 127 North Dearborn Street, Chicago, IL 60602, attorney for applicants.

No. MC-FC-73557. By order of April 10, 1972, the Motor Carrier Board approved the transfer to Devonshire Horse Vans, Inc., Harrington, Del., of the operating rights in certificates Nos. MC-45338 (Sub-No. 1) and MC-45338 (Sub-No. 5) issued October 11, 1957, and November 27, 1964, respectively to Chester Sayre, McMurray, Pa., authorizing the transportation of various commodities from, to, and between specified points and areas in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, and the District of Columbia. Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005, attorney for applicants.

No. MC-FC-73580. By order of April 7, 1972, the Motor Carrier Board approved the transfer to Loiselle Transport, Ltd., St. Boniface, Manitoba, Canada, of the operating rights in permit No. MC-129662 issued December 18, 1968, to Alphonse Loiselle, doing business as Loiselle Transport, St. Boniface, Manitoba, Canada, authorizing the transportation of various commodities from specified points in Minnesota and North Dakota to specified points and areas in Minnesota, North Dakota, South Dakota, Wisconsin, Iowa, and Nebraska. Robert Betournay, 500 Childs Building, 211 Portage Avenue, Winnipeg 2, Canada, attorney for applicants.

No. MC-FC-73593. By order of April 7, 1972, the Motor Carrier Board approved the transfer to Constructors Transport Co., a Texas corporation, Dallas, Tex., of certificate of registration No. MC-133019 issued June 24, 1969, to North Loop Transportation Co., Inc., Houston, Tex., evidencing a right to engage in transportation in interstate commerce as described in certificate of convenience and necessity No. 20584, issued by the Railroad Commission of Texas. Ralph W. Pulley, Jr., 4555 First National Bank Building, Dallas, Tex. 75202, attorney for applicants.

No. MC-FC-73604. By order of April 7, 1972, the Motor Carrier Board approved the transfer to R. H. Crawford, Inc., Hanover, Pa., of the operating rights in certificates Nos. MC-29537, MC-29537 (Sub-No. 1), MC-29537 (Sub-No. 2), MC-29537 (Sub-No. 3) and MC-29537 (Sub-No. 4) issued May 26, 1941, September 13, 1940, February 21, 1951, January 25, 1965, and June 23, 1971, respectively to Russell H. Crawford, Hanover, Pa., authorizing the transportation of various commodities from, to, and between specified points and areas in Maryland, Pennsylvania, New York, Virginia, Delaware, Ohio, Connecticut, Rhode Island, Massachusetts, New Jersey, and the District of Columbia. John M. Musselman, 400 North Third Street, Harrisburg, PA 17108, attorney for applicants.

No. MC-FC-73605. By order of April 10, 1972, the Motor Carrier Board approved the transfer to Frederick D. Holmes, doing business as Harford Motor Coach Co., Baltimore, Md., of certificate No. MC-89221 issued April 5, 1963, to Harford Motor Coach, Inc., Baltimore, Md., authorizing the transportation of: Passengers and their baggage in the same vehicle, subject to certain restrictions, in charter operations, originating at Baltimore, Md., and points within 10 miles thereof, serving points in Virginia, West Virginia, North Carolina, Pennsylvania, New York, New Jersey, Delaware, South Carolina, Georgia, Florida, Connecticut, Rhode Island, Massachusetts, Maine, New Hampshire, Vermont, Ohio, and the District of Columbia. H. Neil Garsom, attorney at law, 1400 North Uhle Street, Arlington, VA 22201.

ATOMIC ENERGY COMMISSION

[Docket No. 50-344]

PORTLAND GENERAL ELECTRIC CO. ET AL.

Notice of Hearing on Suspension of Construction Activities Pending Completion of NEPA Environmental Review

On November 18, 1971, the Director of Regulation of the Atomic Energy Commission published in the FEDERAL REGISTER, 36 F.R. 22020, pursuant to 10 CFR Part 50, Appendix D, Section E, a determination not to suspend construction activities at the Trojan Nuclear Plant pending completion of an environmental review under the Commission's regulations implementing the National Environmental Policy Act of 1969 (NEPA), 10 CFR Part 50, Appendix D.[1] A request for a hearing was filed on December 13, 1971, by the Oregon Environmental Council, Northwest Environmental Defense Center, Friends of the Earth and Northwest Steelheaders Chapter of Trout Unlimited (hereinafter joint petitioners).

Upon analysis of the request and the responses filed by the regulatory staff and the licensees, Portland General Electric Co., the city of Eugene, Oreg., and Pacific Power & Light Co., it has been determined that a hearing is warranted. On April 7, 1972, the U.S. Court of Appeals for the District of Columbia Circuit rendered a decision remanding the record of another determination under 10 CFR Part 50, Appendix D, section E, for a hearing and further consideration of certain matters in addition to those specified in that regulation. Coalition for Safe Nuclear Power, et al. v. U.S.A.E.C., No. 71-1396. By memorandum and order dated April 12, 1972, the Commission has determined that a public hearing will be held. Accordingly, pursuant to 10 CFR Part 50, Appendix D, section E.4(b) and § 2.703 of the Commission's "Rules of Practice," 10 CFR Part 2, notice is hereby given that a hearing will be held at a time and place to be announced by the Atomic Safety and Licensing Board specified below, and published in the FEDERAL REGISTER.

The issue to be considered at the hearing will be whether the activities under the construction permit for the Trojan Nuclear Plant, authorized pursuant to Construction Permit No. CPPR-79, should be suspended pending completion of the NEPA environmental review. In resolving that issue, the following criteria should be considered and balanced:

Criteria. (a) Whether it is likely that continued construction during the review period will give rise to a significant adverse impact on the environment; the nature and extent of such impact, if any; and whether redress of any such adverse environmental impact can reasonably be effected should modification, suspension, or termination of the permit or license result from the ongoing NEPA review.

(b) Whether continued construction during the prospective review period would foreclose subsequent adoption of alternatives in facility design or operation of the type that could result from the ongoing NEPA environmental review.

(c) The effect of delay in facility construction or operation upon the public interest. Of primary importance under this criterion are the power needs to be served by the facility; the availability of alternative sources, if any, to meet those needs on a timely basis; and delay costs to the licensee and to consumers.

(d) In the context of balancing environmental harm and economic cost of abandonment, a paramount consideration shall be whether the commitment of substantial financial resources, in proceeding with construction pending completion of the NEPA review, might affect the eventual decision reached on that review; and if so, the degree to which such an effect might occur.

The Licensing Board shall render a de novo decision based upon the criteria above. The burden of proof shall be upon the licensee.

For the purposes of this proceeding, on the question whether activities under the construction permit should be suspended pending completion of NEPA review, the parties shall be the licensees, the regulatory staff, and the joint petitioners. An answer shall be filed by the licensees within 3 days of the date of publication of this notice following 10 CFR 2.705 to the extent appropriate. A reply to an answer may be filed within 3 days after it is served.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR .2.708 of the Commission's "Rules of Practice," an original and 20 conformed copies of each such paper with the Commission.

A copy of the Director of Regulation's determination, the accompanying staff discussion and findings, and the request for hearing of the joint petitioners are available for inspection by members of the public in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. Copies of those documents are also available at the Columbia County Courthouse, Law Library, Circuit Courtroom, St. Helens, Oreg., between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

We direct that all matters involving the above question be concluded with utmost expedition so that final decision will be reached within 60 days of publication of this notice. For these purposes, the proceeding shall be conducted under the following requirements:

1. The hearing will be held before an Atomic Safety and Licensing Board (Licensing Board) composed of the following members: Dr. Forest Remick, Dr. Paul Purdom, and John Farmakides, Esq., Chairman. Pursuant to 10 CFR 2.785(a)(1), the Commission hereby delegates to the Atomic Safety and Licensing Appeal Board (Appeal Board) the authority and the review function which would otherwise be exercised and performed by the Commission. The Appeal Board shall be composed of the following members: the Chairman, the Vice Chairman, and Dr. Lawrence Quarles.

2. The Licensing Board shall render its initial decision within 40 days from the date of publication of this notice. In order to meet this schedule, the Licensing Board shall conduct the hearing as soon as possible.

3. The Licensing Board's initial decision shall constitute the final decision of the Commission unless exceptions are filed within 5 days after its date or unless, within the same time period, the Appeal Board or Commission directs that the record be certified to it for final decision.

Insofar as this notice and these requirements reflect shortening of time periods otherwise prescribed in 10 CFR Part 2, we find good cause for such action under 10 CFR 2.711 and 10 CFR Part 50, Appendix D, Section E.4(c). We further note that the authority of 10 CFR 2.711 also extends to the Licensing Board.

Dated: April 12, 1972.

By the Commission.

F. T. HOBBS,
Acting Secretary of the Commission.

[Dockets Nos. 50-272, 50-311]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Notice of Receipt of Application for Facility Operating License

Please take notice that Public Service Electric and Gas Co., 80 Park Place, Newark, NJ 07101, pursuant to section 104(b) of the Atomic Energy Act of 1954, as amended, has filed an application dated March 1, 1972, together with a final safety analysis report, for a license to operate two nuclear power reactors at its site in Salem County, N.J.

The nuclear power reactors are of the pressurized water nuclear reactor type designated by the applicant as the Salem Nuclear Generating Station Unit Nos. 1 and 2. The reactors are designed for initial operation at approximately 3,350 megawatts thermal and 3,423 megawatts thermal. The warranted gross and approximate net electrical outputs are 1,132 MWE and 1,090 MWE respectively for Unit 1 and 1,158 MWE and 1,115 MWE respectively for Unit 2.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and the Salem Free Public Library, 112 West Broadway, Salem, NJ 08079, Miss Elizabeth Fogg, Librarian.

Dated at Bethesda, Md., this 7th day of April 1972.

For the Atomic Energy Commission.

RICHARD C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

[Docket No. 50-271]

VERMONT YANKEE NUCLEAR POWER CORP.

Notice of Availability of AEC Draft Detailed Statement on Environmental Considerations for the Vermont Yankee Nuclear Power Corp.

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Atomic Energy Commission (the Commission) in 10 CFR Part 50, Appendix D, notice is hereby given that a draft detailed statement of the environmental considerations related to the proposed licensing of full-power operation by the Vermont Yankee Nuclear Power Corp. of the Vermont Yankee Nuclear Power

VOL 37 NO 73 APR 14 72 XUM

Station, located in Vernon, Windham County, Vt., has been prepared by the designee of the Commission's Director of Regulation and is available for inspection by the public in the Commission's Public Document Rooms at 1717 H Street NW., Washington, DC., and in the Brooks Memorial Library, 224 Main Street, Brattleboro, VT 05301. The draft detailed statement supersedes the statements for which notices of availability were published in the FEDERAL REGISTER on February 26, 1971 (36 F.R. 3539), and June 9, 1971 (36 F.R. 11122).

Also available to the public at the Commission's said Public Document Rooms are the applicant's Environmental Report and a supplement thereto (both prepared by Vermont Yankee Nuclear Power Corp.), notices of the availability of which were published in the FEDERAL REGISTER on September 26, 1970 (35 F.R. 15026), and February 3, 1972 (37 F.R. 2601).

Copies of the draft detailed statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Interested persons are requested to submit within thirty (30) days from date of publication of this notice in the FEDERAL REGISTER, comments on the proposed action and on the draft detailed statement. Federal and State agencies are being provided with copies of the draft detailed statement (local agencies may obtain such copies on request), and their comments will be made available when received. Interested members of the public should address their comments on the draft detailed statement and on the proposed action to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 7th day of April 1972.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Director for Boiling Water Reactors, Division of Reactor Licensing.

[FR Doc.72-5683 Filed 4-13-72;8:46 am]

STATE OF NEVADA

Proposed Agreement for Assumption of Certain AEC Regulatory Authority.

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of Nevada for the assumption of certain of the Commission's regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A narrative, prepared by the State of Nevada and describing the State's proposed program for control over sources of radiation, is set forth below as an appendix to this notice. A copy of the program narrative, including the referenced appendices, appropriate State legislation and Nevada regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, or may be obtained by writing to the Director, Division of State and Licensee Relations, U.S. Atomic Energy Commission, Washington, D.C. 20545. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them, in triplicate, to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Branch, within 30 days after initial publication of this notice in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, have been published in the FEDERAL REGISTER and codified as Part 150 of the Commission's regulations in Title 10 of the Code of Federal Regulations.

Dated at Germantown, Md., this 27th day of March 1972.

For the Atomic Energy Commission.

W. B. MCCOOL,
Secretary of the Commission.

PROPOSED AGREEMENT BETWEEN THE UNITED STATES ATOMIC ENERGY COMMISSION AND THE STATE OF NEVADA FOR DISCONTINUANCE OF CERTAIN COMMISSION REGULATORY AUTHORITY AND RESPONSIBILITY WITHIN THE STATE PURSUANT TO SECTION 274 OF THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Whereas, the U.S. Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under Section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act), to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas, the Governor of the State of Nevada is authorized under Nevada Revised Statutes 459.060 to enter into this Agreement with the Commission; and

Whereas, the Governor of the State of Nevada certified on March 9, 1972, that the State of Nevada (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas, the Commission found on ---------- that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, the State and the Commission recognize the desirability and importance of cooperation between the Commission and the State in the formulation of standards for protection against hazards of radiation and in assuring that State and Commission programs for protection against hazards of radiation will be coordinated and compatible; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemptions from licensing of those materials subject to this Agreement; and

Whereas, this Agreement is entered into pursuant to the provisions of the Atomic Energy Act of 1954, as amended;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

ARTICLE I

Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

ARTICLE II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ARTICLE III

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ARTICLE IV

This Agreement shall not affect the authority of the Commission under subsection 161 b. or i. of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ARTICLE V

The Commission will use its best efforts to cooperate with the State and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulation of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

ARTICLE VI

The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ARTICLE VII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

ARTICLE VIII

This Agreement shall become effective on July 1, 1972, and shall remain in effect unless and until such time as it is terminated pursuant to Article VII.

Done at ----------, State of Nevada, in triplicate, this ------ day of ----------, 1972.

For the U.S. Atomic Energy Commission.

For the State of Nevada.

MIKE O'CALLAGHAN, *Governor.*

FOREWORD

The State of Nevada, while recognizing that the scientific, medical, and industrial usages of atomic energy can be beneficial to its citizens, is also cognizant of the hazards inherent to ionizing radiation. With these hazards in mind, and considering that the State is ever committed to the protection of public health and safety, the Nevada State Legislature enacted the Nuclear Affairs Act.

This Act, and supplemental legislation, provides the legal structure for a comprehensive radiological health and regulatory program compatible with that of the U.S. Atomic Energy Commission and that of those States who have entered into agreement with the Commission.

The Act authorizes the Governor, on behalf of the State, to enter into an agreement with the Federal Government providing for discontinuance of certain responsibilities of the Federal Government relating to ionizing radiation and the assumption of such responsibilities by the State. The Act also designates the Nevada State Board of Health as the radiation control agency for the State.

The following narrative relates the history, current practices, proposed activities, capabilities, and resources of the State in the field of radiological health.

HISTORY

1931 The State Legislature passed a law prohibiting the use of X-rays for the treatment of the scalp or for the removal of surplus hair by cosmetologists (NRS 644.470).

1959–60 One State employee attended a U.S. Atomic Energy Commission sponsored Health Physics Course at Oak Ridge, Tenn.

A laboratory radiation counter was purchased for the purpose of determining background levels from selected stations within the State.

A course for Radiological Defense Instructors was given to personnel from State, county, and city organizations by State Health Division personnel.

A law was passed in 1960 preventing the operation or maintenance of any shoe-fitting device using fluoroscopic or radiation principles (NRS 202.245).

1961–62 During this period, a medical and dental X-ray survey of diagnostic X-ray machines in the State was conducted. This survey, which was voluntary and performed only in those installations requesting it, was accomplished by teams composed of U.S. Public Health Service and State Health Division personnel. The primary objectives of the survey were to check collimation and filtration of the X-ray units and make recommendations where necessary.

Regulations governing the manufacture, use, storage, handling, transportation and disposal of ionizing radiation producing devices and materials were prepared for and adopted by the Nevada State Board of Health in January 1962. The regulations provided standards to assure minimum exposure to personnel handling or working with ionizing radiation producing devices and materials and to the general public.

Acquisition of Federal land near Beatty, Nev. was authorized for lease to Nuclear Engineering Co. as a low-level, solid radioactive waste burial site.

The first phase of a program to establish a Radiological Defense Organization for the Nevada Civil Defense Agency was also completed during this period. This phase entailed training of Highway Department and Highway Patrol personnel as radiation monitors in the event of nuclear war. All Highway Maintenance Stations, Highway District Headquarters, Highway Patrol Stations, and approximately half of the Highway Patrol vehicles were supplied with radiation monitoring instruments.

1963–64 During this period, training and refresher courses for radiological monitors for the Civil Defense Agency were continued. Most of this training was directed at State employees. Establishment of 167 radiological fallout monitoring stations provided with 1,000 radiation detection instruments was completed. Maintenance of the radiation detection instruments was improved by the acquisition of Federal funds for a maintenance shop and technicians' salaries.

In 1963, the State Radiation Control Act was adopted for the control of ionizing radiation within the State, and enabling the State to enter into an agreement with the Federal Government to assume responsibilities relating to sources of ionizing radiation previously the responsibility of the Federal Government (NRS 459.010 to 459.160, inclusive).

Two employees attended a U.S. Atomic Energy Commission orientation class for agreement States and two employees attended a U.S. Public Health Service course on gamma spectroscopy during this period.

A voluntary resurvey of medical diagnostic X-ray units was made during June and July, 1964 by U.S. Public Health Service teams.

1965–66 State personnel surveyed all new or relocated X-ray machines. In the 2-year period, 123 new or relocated X-ray tubes in medical and dental facilities were inspected.

Participation in U.S. Public Health Service environmental programs included collecting representative portions of meals served at the State Children's Home in Carson City for analysis by the Southwest Radiological Health Laboratory at Las Vegas. Analysis for fission product residue was performed to determine the contribution of diets to radionuclide body burden for the general public. All of the milk sheds in the State were sampled monthly for a similar analysis.

1969–70 In 1969, the text of the Western Interstate Nuclear Compact was enacted into law (NRS 459.200 to 459.240, inclusive). The Compact provides for a cooperative effort in nuclear and related fields to enhance the economy of the West and contribute to the individual and community well-being of the region's people.

The State Superintendent of Public Instruction and all county supervisors were apprized of the hazards involved due to the use of cold cathode gas discharge tubes.

State personnel accompanied U.S. Atomic Energy Commission compliance inspectors on inspections of AEC-licensed facilities within the State during this biennium, as they have on many previous occasions.

1971 In 1971, legislation was passed controlling air pollution and water pollution (respectively, NRS 445.401 to 445.601, inclusive; and NRS 445.130 to 445.385, inclusive). The Commission of Environmental Protection was created by this legislation as the controlling agency for air and water pollution.

PRESENT PROGRAM

Two full-time radiation control specialists were hired by the State in September, 1971, to implement the radiation control program. Their major efforts up to this time have been the preparation of radiation control regulations, activities to enable the State to become an agreement State with the U.S. Atomic Energy Commission, participation in several lengthy training courses sponsored by the U.S. Atomic Energy Commission and the Environmental Protection Agency, and on-the-job training.

SCOPE OF ACTIVITIES

The radiation control program encompasses the regulatory program associated with licensing of radioactive materials and registration of radiation producing machines, environmental surveillance, and response to emergency situations involving sources of radiation.

Within the State of Nevada, there are an estimated 388 X-ray machines: 188 dental units; 200 medical units, fluoroscopic and diagnostic; and six reported for industrial radiography. The number of U.S. Atomic Energy Commission Licenses within the State of Nevada in effect January 1, 1972, was 44. The number of radium sources is not known; but the number of facilities reported using radium sources is eight: Four medical, three industrial and one institutional. There are an estimated five particle accelerators being used, with two accelerators to begin routine operation in the latter part of 1972.

There are few installations which may necessitate environmental surveillance activities. A research reactor is operable at the University of Nevada, Reno; a commercial burial site for low-level radioactive waste is located at Beatty, Nev.; and the Nevada Test Site.

STATUTORY AUTHORITY

The following Nevada Revised Statutes (NRS) provide for the Governor to enter into an agreement with the U.S. Atomic Energy Commission, administrative procedures, authority to promulgate regulations, enforcement of regulations, administration of public health, special prohibited uses of ionizing radiation, and mutual aid in the event of nuclear incident.

NRS 459.010–459.160, inclusive, "State Radiation Control." This statute provides for Federal-State agreements concerning the responsibility for control of sources of ionizing radiation, designates the State Board of Health as the State radiation control agency, and provides the basis for radiation control.

NRS 459.200. "Western Interstate Nuclear Compact." Article VI of this statute pro-

V 37 N 73 APR 14 72 XUM

vides for mutual aid between party States in the event of a nuclear incident.

NRS 233B. "Nevada Administrative Procedures Act." This Act establishes minimum procedural requirements for regulation-making and adjudication procedures of all agencies of the executive department of the State government and for judicial review of both functions. The provisions of the law are intended to supplement statutes applicable to specific agencies.

NRS 439. "Administration of Public Health." 439.130 requires the State Health Officer to enforce all laws and regulations pertaining to public health and empowers him to enter upon and inspect any public or private property in the State in the course of his work, and authorizes subordinates to act in his place and stead.

439.150 declares that the State Board of Health be supreme in all health matters except administrative matters and that it shall have supervision over the work of the State Health Officer.

439.200 declares that the State Board of Health shall have the power to adopt, promulgate, amend and enforce reasonable rules and regulations consistent with law and that such rules and regulations shall have the force and effect of law and shall supersede all local ordinances and regulations enacted inconsistent therewith.

NRS 202.245, states that no person may operate or maintain any shoe-fitting device or shoe-fitting machine which uses fluoroscopic, X-ray, or radiation principles.

NRS 644.470, prohibits the use of any X-ray machine by cosmetologists in the treatment of the scalp or in the removal of surplus hair.

NRS 445.130 to 445.385, inclusive, provides for the control of water pollution within the State.

NRS 445.401 to 445.601, inclusive, provides for the control of air pollution within the State.

PROCEDURES AND POLICIES

LICENSING AND REGISTRATION

The Bureau of Environmental Health, Division of Health, is charged with the responsibility of operating the radiation control program for the Nevada State Board of Health. The program shall regulate and control the usage of all sources of ionizing radiation within the State including radium and accelerator produced nuclides, X-ray generating machines, and particle accelerators. Registration is required for the use of X-ray machines and particle accelerators, and licensing is required for the use of radioactive materials.

The licensing program shall be essentially the same as that presently utilized by the U.S. Atomic Energy Commission and shall use criteria established by the U.S. Atomic Energy Commission. The Chief of the Bureau of Environmental Health and key staff members will evaluate each radioactive material license application, and perform prelicensing visits if deemed necessary. The U.S. Atomic Energy Commission shall be consulted concerning the nonroutine medical uses of radioactive material, and for any circumstance which indicates that advice and guidance concerning the application of radiation or radioactive material is required. Upon approval, specific licenses shall be endorsed by the State Health Officer or his duly authorized representatives for the Nevada State Board of Health.

INSPECTION

Qualified staff personnel shall conduct inspections of licensees' and registrants' facilities to assure compliance with the regulations and to evaluate the adequacy of radiation protection programs. Inspection shall be either by pre-arrangement or on an unscheduled basis during working hours.

Licensees' and registrants' facilities shall be inspected on a priority basis determined by the classification of use, degree of hazard, previous violations, training, and experience of the user and other relevant factors. The initial planned inspection frequencies are as follows:

Category	*Anticipated inspection frequency (months)*
Industrial radiography	12
Operations involving waste disposal	6
Broad licenses, industrial, medical, or academic	12
Other specific licenses, industrial, medical or academic	12-24
X-ray, medical, industrial, or academic	12-24

The above inspection frequencies are subject to change due to circumstances and experience. At the start of an inspection, personal contact at management level will be made whenever possible. At the completion of each inspection, the inspector will confer with licensee management to discuss the results of his inspection, presenting oral recommendations or suggestions as required and answering questions concerning the regulatory program.

A comprehensive written report concerning each inspection shall be prepared by the inspector and reviewed by qualified Bureau of Environmental Health personnel.

COMPLIANCE AND ENFORCEMENT

The status of compliance with regulations, registration, or license conditions shall be determined through inspections and evaluations of inspection reports. Licensees and registrants shall be informed of the results of all inspections, orally at the time of inspection and by letter or notice from the Agency.

When items of minor noncompliance are found and the licensee or registrant agrees at the time of inspection to correct them promptly, no further action shall be taken by the inspection Agency, except that the licensee or registrant shall receive a letter from the Agency stating the items of noncompliance, and that these items shall be checked at the next scheduled inspection.

When items of major noncompliance are found, the licensee or registrant shall be informed orally at the time of inspection and subsequently by letter of the items of noncompliance and he shall be required to reply in writing within a stated time as to the corrective action taken and the completion date or anticipated completion date of the corrective action. Assurance that the corrective action has been taken shall be determined by a followup inspection or at the time of the next regularly scheduled inspection, as circumstances warrant.

A license, upon request of a licensee, may be amended to be consistent with the Act or regulations or to meet changing conditions in operations. The Agency may amend, suspend, or revoke a license in the event of continual refusal of the licensee to comply with the terms and conditions of the license, the Act, or regulations, or failure to take adequate action concerning items of noncompliance. Prior to such action, the Agency shall notify the licensee of its intent to amend, suspend, or revoke the license and provide the opportunity for a hearing.

Whenever the Agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, it may without notice or hearing issue a regulation or order noting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. The Agency, in the event of an emergency, is empowered to impound or order the impounding of sources of ionizing radiation upon finding that the possessor is unable to observe or is not willing to observe the provisions of the Act or regulations issued thereunder. After these actions, the licensee has a right to a hearing.

A court order directing a person to comply, or enjoining such practices in violation of the Act or regulations, may be sought by the Attorney General in the appropriate court upon request of the Agency, after notice to such persons and ample opportunity to comply has been offered.

The Agency shall endeavor to gain compliance by cooperative and educational methods. Only in instances of repeated noncompliance, willful violation, or where serious potential hazards exist, shall the full weight of legal procedure normally be employed.

EFFECTIVE DATE OF LICENSE TRANSFER AND RECIPROCITY

Any person who, on the effective date of the agreement with the U.S. Atomic Energy Commission, possesses a license issued by the U.S. Atomic Energy Commission shall be deemed to possess a like license issued by the Agency which shall expire either 90 days after the receipt from the Agency of a notice of expiration of such a license or on the date of expiration specified in the Federal license, whichever is earlier. The Nuclear Affairs Act enacted by the Nevada Legislature and the Rules and Regulations promulgated by the Nevada State Board of Health pursuant to the above legislation provides for recognition of licenses issued by the U.S. Atomic Energy Commission or agreement States.

RADIOLOGICAL EMERGENCY CAPABILITY

The State of Nevada Emergency Procedures Manual and Nevada Revised Statute 459.120 designates the Department of Health, Welfare, and Rehabilitation and the Nevada State Board of Health, respectively, as the responsible agencies in the event of an accident involving radioactive materials. It will be the responsibility of the Bureau of Environmental Health to respond for these agencies in such an emergency.

Notification of an emergency may be by a State licensee or by the Nevada State Highway Patrol, local enforcement agencies, or local fire departments through the Atomic Energy Commission. Nevada State Highway Patrol, local enforcement agencies, and local fire departments have, during various training courses, received cards and posters listing the telephone numbers of the Atomic Energy Commission.

Bureau of Environmental Health personnel shall respond either as the emergency response team or as the agency responsible for public health and safety. The nature of the response may vary from an office evaluation and advisement of controls to on-the-site evaluation, radiation, and radioactivity measurements, establishment of controls, and coordination of support agencies.

Upon request, the State Civil Defense and Disaster Agency shall coordinate the transportation of Bureau personnel to the site of the incident, the installation of a communication network, and the supply of any power and heavy duty equipment needed. For any transportation or communications not provided, the Bureau will depend on commercial and other State organizations.

The State of Nevada is a member of the Western Interstate Nuclear Compact. Should circumstances warrant during the course of a radiological incident, member States of the Compact shall be requested to provide assistance to the State according to the mutual aid feature of the Compact.

The Bureau of Environmental Health will make a request to the Environmental Protection Agency, Western Environmental Research Laboratory, for any radioanalysis

required beyond the capability of the Bureau's laboratory instrumenation.

Future plans for emergency situations include a review and revision of existing radiological emergency procedures reflecting the enlarged staff, the acquisition of any special radiation detection instrumentation which may be required, the formation of a radiological emergency team and the preparation of radiological emergency kits which will be available for immediate use.

ORGANIZATION AND STAFF

The State Board of Health is designated as the radiation control agency for the State by the Radiation Control Act and is authorized to carry out the provisions of the Act. The State Division of Health is responsible for the radiation control program for the Board of Health, with implementation of the program performed by the Bureau of Environmental Health. The State Health Officer functions as the head of the Division of Health, and as Secretary to the Board of Health. The Radiological Control Section is under the Chief, Bureau of Environmental Health, who reports to the State Health Officer. These relationships are illustrated in Chart 1 of the Appendix.

The two radiation control specialists in the Radiological Control Section shall devote full time to the radiation control program for licensing and registration functions, inspection of licensed and registered facilities, response to emergency situations, and to all other radiation control activities within the State over which the State Board of Health has authority. This section shall maintain all records pertinent to the radiation control program including those which will permit the U.S. Atomic Energy Commission to evaluate the status of the program with regard to its compatibility with those of other agreement States, and that of the Commission. The Chief and the Assistant Chief of the Bureau shall participate in licensing and registration functions to provide greater manpower depth to the small Radiological Control Section.

The Commission of Environmental Protection is the agency responsible for the control of air and water pollution within the State. However, the regulations promulgated by the Commission will not conflict with those of the Board of Health for radiation control. The Bureau of Environmental Health is designated as the advisory and implementing agency for the Commission, and the Chief, Bureau of Environmental Health is the Control Officer for the Commission. The relationship between the Board and the Commission is illustrated in Chart 2 of the Appendix.

Position titles, education, and experience of Bureau of Environmental Health personnel directly involved in the activities of the radiological health program are listed below. Replacements for these personnel, if required, shall be recruited as soon as possible. The level of experience, education, and training shall be that required by the position descriptions contained in the Appendix.

USPHS—Gamma Spectroscopy; 2 weeks.

Experience

1965–Present Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1956–65 Public Health Engineer, Bureau of Environmental Health, Nevada State Health Division. Principal area of responsibility was in water pollution control. From 1958 to 1963 served as the Civil Defense Radiological Office for the State, which included the training of Civil Defense radiation monitors and radiation monitor instructors. Held a byproduct material license for Civil Defense Model CDV–784–786 radioactive sources.

1952–56 Right-of-way Agent, Nevada State Highway Department.

1951–52 Hydrologist, U.S. Bureau of Reclamation.

Miscellaneous

Registered Professional Engineer:
Wendell D. McCurry—Assistant Chief, Bureau of Environmental Health.

Education

Murray State Agricultural College—A.S. Engineering; 1959–61.
Oklahoma State University—B.S. Civil Engineering; 1963.
Oklahoma State University—M.S. Public Health and Sanitary Engineering; 1965.
University of Florida—Post Graduate work in Environmental Engineering and Radiological Health; 1964–66.

Other Training

USPHS—Occupational Health Course; 2 weeks.
AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
USPHS—Medical X-ray Protection; 2 weeks.

Experience

1970–Present Assistant Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1966–70 Public Health Engineer II, Nevada State Health Division. Duties very similar to present position.

Miscellaneous

Registered Professional Engineer:
William C. Horton—Radiation Control Specialist III.

Education

University of New Mexico—B.S. Geology; 1953.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
USPHS—Basic Radiological Health; 2 weeks.
Picker X-ray Corp.—Isotopes and X-rays for Industrial Radiography; 1 week.
Defense Atomic Support Agency and Reynolds Electrical and Engineering Company—Emergency Radiation Team Training; 1 week each course.
AEC—Ten-week Health Physics course beginning April 3, 1972.

Experience

1971–Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1967–71 Supervisor of Environmental Monitoring, Battelle Northwest, Richland, Washington. Primarily responsible for implementing the overall environmental surveillance program at Hanford. Supervised radiation monitors taking samples and performing radiation and contamination surveys in the environs. Assisted in program planning, analytical result evaluation, and program coordination. Provided liaison with analytical laboratories.

1959–67 Engineer, ACFI, Inc., Albuquerque, New Mexico. Had primary responsibility for all radiological protection in a manufacturing plant possessing numerous X-ray devices and sealed radioactive sources. Provided shielding design for radiographic facilities and radiological protection requirements for a U 235-loaded graphite testing facility. Prepared formal operating procedures governing non-destructive testing and radiological protection practices.

1953–57 Seismologist and Party Chief, Continental Oil Company, Ponca City, Oklahoma. Primary responsibility was for operation of geophysical field crew exploring for oil, and interpretation of geophysical and geological data.

Richard W. Reynolds—Radiation Control Specialist II.

Education

University of Nevada—B.S. Zoology; 1966.
University of Nevada—M.S. Nuclear Engineering; 1971.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
Reynolds Electrical & Engineering Co.—Basic Radiological Monitoring.

Experience

1971—Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1968–71 Graduate Research Fellow, Department of Nuclear Engineering, University of Nevada, Reno, Nev.

1966–68 Health Physicist, Health Physics Branch, Mare Island Naval Shipyard, Vallejo, Calif. Primary responsibility was the supervision of field surveillance of storage and usage of sources of ionizing radiation in medical, nondestructive test, instrument calibration, supply, and nuclear propulsion programs.

1964 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary duty assignment was gamma spectral analysis of filter systems used for aerosol surveillance during nuclear device testing.

1962–63 Nuclear Powerman, U.S. Army, Walter Reed Army Medical Center, Washington, D.C. Primary duty assignment was radiochemical analysis of coolant, effluent and environmental samples from research reactor areas at this installation.

1960–61 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary assignment was the radiochemical analysis of environmental and bioassay samples, collected as part of the surveillance program for GNOME, PLUTO, NERVA, and other projects.

BUDGET FOR THE RADIOLOGICAL HEALTH SECTION

Fiscal year 1971–72	
Personnel	$26,295.71
Travel (in-State)	3,332.00
Travel (out-of-State)	----------
Operating expenses	2,386.00
Capital equipment	3,000.00
Total	34,943.71
Fiscal year 1972–73	
Personnel	27,381.74
Travel (in-State)	3,500.00
Travel (out-of-State)	----------
Operating expenses	2,464.00
Capital equipment	----------
Total	33,345.74

NOTE: For the capital equipment budget for fiscal year 1971–72, it is anticipated that matching funds for procurement of radiation detection and measurement equipment will be obtained from the Federal Office of Civil Defense, Department of the Army.

V 37 I 73 A PR 14 72 XUM

INSTRUMENTATION

Listed below is the field and laboratory instrumentation and radioactive sources which the Bureau of Environmental Health will utilize for the detection and measurement of radiation during routine inspections and emergencies for the identification and measurement of radioactive materials during periodic environmental surveillance and for the standardization of instrumentation, respectively.

Field Instrumentation—Survey

	Alpha	*Range*
1	Eberline Alpha Counter, scintillation type, Model Pac-4^B.	0–2 x 10^6 c.p.m.
	Neutron	
1	Nuclear Chicago Portable Survey Meter, Model 2671.	0–2.5 x 10^4 n/cm.^{2}/sec.
	Beta, X-rays, and Gamma	
1	Eberline Beta-Gamma Counter, GM Type, Model E-250.	0–2 R/hr. 0–2000 K c.p.m.
2	Victoreen Survey Meters, ion chamber type, Model 470.	0–300 mR/hr. and R/hr.

Calibration and Standard Measurements

2 Victoreen Condensor R-meters, Model 570.
2 Victoreen R-meter chambers, Model 130, 0–250 mR, 30–500 keV.
2 Victoreen R-meter chambers, Model 227, 0–1R, 30–500 keV.
1 Victoreen R-meter chamber, Model 552, 0–2.5R, 400–1300 keV.
2 Victoreen R-meter chambers, Model 70–5, 0–25R, 30–250 keV.
1 Victoreen R-meter chamber, Model 326, 0–10R, 30–350 keV.

Sources

1 set of Tracerlab Gamma Spectrometer Sources, Model R–35.
1 set of Eberline Pu^{239} Calibration Sources, Model S94–1
1 Tracerlab C^{13} source, Model R210.

LABORATORY INSTRUMENTATION

Gamma Spectroscopy

1 Tracerlab Model SC–76S single channel analyzer interconnected with a Tracerlab Model SC–71 scaler, Model SC–87B Auto-Printer, and SC–57A well scintillation detector, which houses a 2-inch x 1⅞-inch NaI well crystal.

Alpha, Beta, and Gamma Measurements

1 Tracerlab Model SC–71 scaler connected with a Model SC–87B Auto-Primer and FD–2 Flow Detector, used both as a geiger and proportional counter, and a SC–57A well scintillation detector.

DEPARTMENT OF LABOR

Employment Standards Admininstration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications and Supersedeas Decisions; New Determinations

There are set forth below general Area Wage Determination Decisions Nos. AM–6712, AM–6713, AM–6714, AM–6715, and AM–6716 of the Secretary of Labor. These decisions specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein. The decisions are applicable to Federal and federally assisted construction in described localities situated within the States of Iowa and Missouri.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 12–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal or federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

These wage determinations are effective for a period of 120 days from the date of publication in the FEDERAL REGISTER and are to be used in accordance with the provisions of 29 CFR Part 5. Accordingly, the applicable determination together with any modification issued subsequent to this date during this 120-day period, shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

The area wage determination decisions for localities within the above States are set forth below:

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO AREA WAGE DETERMINATION DECISIONS

Modification and/or supersedeas decisions to area wage determination decisions for specified localities in California, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Louisiana, Massachusetts, Michigan, Minnesota, New Mexico, Oklahoma, Pennsylvania, Rhode Island, South Dakota, and Texas.

Area wage determination decisions published in the FEDERAL REGISTER on the following dates:

Decision No.	*Date*
AM–1589 (9691), AM–1590 (9692), AM–1591, AM–1592, AM–1593, AM–1594, AM–1595, AM–1596, AM–1603, AM–1604, AM–1605	Aug. 6, 1971
AM–330, AM–333, AM–334, AM–337, AM–351, AM–357, AM–359, AM–361, AM–362, AM–363, AM–364, AM–384, AM–2379	Aug. 13, 1971
AM–384	Aug. 18, 1971
AM–451, AM–452, AM–453, AM–455, AM–461, AM–1850, AM–1851, AM–1854, AM–1855, AM–1857, AM–1858, AM–1861, AM–1866	Aug. 20, 1971
AM–2453, AM–3601 (11,412), AM–3602 (11,411), AM–3622 (6718), AM–3623 (6717), AM–3626, AM–3629	Aug. 25, 1971
AM–2460 (6719)	Aug. 27, 1971
AM–6131, AM–6370	Sept. 3, 1971
AM–7714, AM–7715 (11,413)	Nov. 19, 1971
AM–8582	Feb. 11, 1972
AM–9685, AM–9687, AM–9688, AM–9689	Mar. 10, 1972
AM–11,406	Mar. 24, 1972
AM–11,407, AM–11,408, AM–11,409	Mar. 31, 1972

are hereby modified and/or superseded as set forth below. Supersedeas decision numbers are in parentheses following the number of the decision being superseded.

These modification and/or supersedeas decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since these determinations were issued.

The determinations of prevailing rates and fringe benefits made in these modifications and/or supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in the foregoing area wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

The modification and/or supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER until the end of the period for which the determinations being modified and/or superseded were issued and are to be used in accordance with the provisions of 29 CFR Part 5. The modification and/or supersedeas decisions to the area wage determination decisions listed above are set forth below.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. section 553 is set forth in the document being modified.

Signed at Washington, D.C., this 7th day of April 1972.

HORACE E. MENASCO,
Administrator, Employment Standards Administration.

U.S. DEPARTMENT OF LABOR

State: Iowa; Counties: Carroll, Cass, Clay, Crawford, Howard, Monona, O'Brien, Osceola, Ringgold, Taylor, and Van Buren.
Decision No. AM–6712; date of decision: Apr. 14, 1972.
Description of work: Heavy and highway construction.

Classification	Basic hourly rates	Fringe benefits payments: H & W	Pensions	Vacation	App. Tr.	Other
3-Iowa-2-3-d:						
Carpenters; piledrivermen	$4.00					
Cement masons	3.40					
Laborers:						
Sandblasters; powderman and blaster; pipelayer, sewer, water, telephone conduits, etc.; sewer utility man; Gunnite nozzleman; diamond and core drills, powered by air, all work performed by laborers working from a bos'n chair, swinging stage, life belt, tag line, or block and tackle; drill operator of air trac, wagon drills and similar drills	3.35	$0.10				
Tree climber; form setters; rakers; boxtenders; asphalt curb machines; potmen (not mechanical); bull float, hand operated; sealers; timbermen; underpinning and shoring; caissons (over 12'); grade checker and cutting torches on demolition work	3.10	.10				
Power buggyman; concrete and paving sawman; form liner, expansion joint assembler; bottom man; caulker and jointer and painter; timber and chain-saw man; mechanical grouters; boring machine; automatic concrete power curbing machines; stresser or stretcherman on post-tension or prestressed concrete (on or off the job); powdermen helpers	2.85	.10				
Form tamper; air, gas and electric tool operators, vibrator, barco hammer, paving breaker, spader, tamper, electric drills, hammer and jackhammer; tree groundmen; chuck tender; drill helpers, tool room men and checkers; sandblaster helper; concrete processing material and monitors; cement finishers helpers	2.70	.10				
Fence erectors; handling and placing of metal mesh, dowel bars, reinforcing bars and chairs; dumpmen and spotters; carring reinforcing rods; corrugated culvert pipe; concrete drainage pipe; stake chaser; seeding, mulchin: and planting of trees, shrubs and flowers; waterboy; common laborer; rodmen; tending to carpenters; hot asphalt labor; stringman on paving work	2.60	.10				
Power shovel and crane type equipment (over ½ cylinder); Central mix plant operator (concrete 5 cylinder and over); Dredge operator and leverman concrete mixer-paver operator; Hoisting engineer (steel erection); tractor operating scrapers in tandem; Motor Patrol on finishing work; master mechanic (when 4 or more mechanics are employed); tow or push boat; piledriver machine	4.10	.20	$0.10			
Asphalt plant; asphalt paver; asphalt pugmill; power shovel (crane type equipment, under ½ cylinder); front end loader (all types 40 hp. or over); mechanics and welders; tournapull (DW 10 and all similar equipment, over 10 cylinder struck cap); all self-loading scrapers; tractor, bulldozer, push cat, pulling scraper or rooter and sideboom tractor; churn and rotary drill; trenching machine (Cleveland 80 or similar capacity); self-propelled sheepsfoot roller (100,000 lbs. and over); Central mix plant (concrete, under 5 cylinder)	4.00	.20	.10			
Motor Patrol (on other work); asphalt roller (high type surfacing); asphalt spreader (back end); concrete curb breaking machine; concrete widening machine; elevating grader and Athey loader; Tournapull (DW 10 and all similar equipment under 10 cylinder struck capacity); Paving breaker (drop or pneumatic); Spreader box (self propelled or tractor-pushed); Subgrade stab. (PAH and similar sizes); boiler (2 or one boiler and dryer); subgrading machine (CMI); slip form paver	3.70	.20	.10			
Self-propelled roller (other than high type asphalt); distributor, screening and washing plant; spreader (concrete tank car heater, combination boiler and booster); self-propelled vibrating compactor; trenching machine; (other) pumps on well points and deep wells for dewatering mechanical broom; steel placing machine; boat operator; compressor; concrete mixer (side loader); conveyor; crusher feeder; finishing machine on concrete; flex-plane; bull float; form grade; group equipment greaser; motor crane combination driver and oiler	3.50	.20	.10			
Boiler (single); apprentice engineer or oiler or mechanics' helper; self-propelled tractor (pulling disc harrow or sheepsfoot roller); welding machine; pump operator (other than dredge); boom and winch truck; hydro seeder operator; mulcher blower operator	3.30	.20	.10			
Batching plant (dry); front end loader, rubber-tired (with backhoe attachment, under ¾ cu. yd.); farm tractor pulling pneumatic roller; farm tractor with attachments	3.05	.20	.10			
Truck drivers:						
Truck drivers (not otherwise specified); warehousemen; drivers on: 4-wheel service trucks, bus hauling men, carryall and winch trucks, dumperetes and scoopmobiles	2.80					
Truck drivers for semi and tandem; ready mix; dumpster; drivers on: Kohring and similar dumpsters, track trucks, Euclids, bug bottom drums, Tournapulls or similar equipment used for transportation, pavement breakers, pole trailers, air compressors and welding machines, including those pulled by separate units	2.90

Paid holidays (where applicable): A—New Year's Day; B—Memorial Day; C—Independence Day; D—Labor Day; E—Thanksgiving Day; F—Christmas Day.

Footnotes:
a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as vacation pay credit.
b. Holidays: A through F.
c. Holidays: A through F and Washington's Birthday and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled workdays immediately preceding and following the holiday.
d. Holidays: A and D through F and Good Friday, providing the employee is available for work the days preceding and following the holiday.
e. 2 paid holidays: C and D, providing the employee works the day before and the day after the holiday.
f. Holidays: B, C, D, plus Good Friday, provided the employee has been employed 14 consecutive days immediately prior to the holiday.
g. Employer contributes $50 per year.
h. Paid holidays: A through F plus Good Friday.
i. Paid holidays: Labor Day, ½ day on Christmas Eve and on New Year's Eve.

Office of the Secretary

ADVISORY COUNCIL ON EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

Recommendations for Appointment

Section 14 of the Welfare and Pension Plans Disclosure Act Amendments of 1962 (76 Stat. 40, 29 U.S.C. 308e) provides for the establishment of an "Advisory Council on Employee Welfare and Pension Benefit Plans" which is to consist of 13 members to be appointed as follows. One from the insurance field, one from the corporate trust field, two from management, four from labor, and two from other interested groups, all of whom are to be appointed by the Secretary from among persons recommended by organizations in the respective groups. The additional three representatives are to be appointed from the general public by the Secretary. The prescribed duties of the Council are to advise the Secretary with respect to the carrying out of his functions under the Welfare and Pension Plans Disclosure Act, as amended, and to submit to the Secretary recommendations with respect thereto. The Council is required to meet at least twice each year.

To assure continuity in the handling of the business of the Council, a rotation system is provided whereby the 2-year terms of approximately half the members expire each year. The groups represented by the members whose terms expire on June 30, 1972, are as follows: Labor (2), the corporate trust field (1), management (1), the public (2), and other interested groups (1). Appointments of new members will be for terms beginning July 1, 1972.

Accordingly, notice is hereby given that any organization desiring to recommend persons for appointment to the "Advisory Council on Employee Welfare and Pension Benefit Plans" may submit recommendations to the Secretary of Labor, 14th Street and Constitution Avenue NW., Washington, DC 20210, on or before May 15, 1972. The recommendation may be in the form of a letter, resolution, or petition, signed by an authorized official of the organization. Each recommendation shall identify the candidate by name, occupation, or position, and address. It shall specify the field or group which he would represent for purposes of section 14 of the Act, and whether he is available and would accept.

Signed at Washington, D.C., this 10th day of April 1972.

W. J. USERY, JR.,
Assistant Secretary for Labor-Management Relations.

COMPTROLLER GENERAL

FEDERAL ELECTION EXPENDITURE LIMITATIONS AND PRESIDENTIAL CAMPAIGN FILING DATES

The Federal Election Campaign Act of 1971 [1] became effective on April 7, 1972. On March 24, 1972, the Comptroller General of the United States issued his regulations thereunder in the FEDERAL REGISTER.[2] The regulations also became effective on April 7, 1972.[3]

Title I of the Federal Election Campaign Act of 1971 [4] imposes a spending limitation on candidates for Federal elective office (President, Senate, and House of Representatives) for campaign use of communications media. Under the Act and our regulations, "communications media" means radio, television, cable television, magazines, newspapers, billboards, display space in any public place of a type customarily leased to commercial advertisers, and telephones when used to communicate with potential voters by general canvass methods.

Section 104(a) of the Act provides that the limitation for a Federal candidate in each election—primary, primary runoff, special or general—for the use of communications media is a total amount equal to 10 cents multiplied by the voting age population of the geographical area in which the election is held, or $50,000, whichever is greater. A maximum of 60 percent of such total amount may be spent for the use of broadcasting stations (radio, television, and cable television).

Section 104(a)(4) of the Act provides that the total amount will be increased by the percentage increase in the Consumer Price Index for the preceding calendar year over the price index for the base period (calendar year 1970). The Secretary of Labor has certified to the Comptroller General that the U.S. city average All Items Consumer Price Index (1967=100) increased 4.3 percent from its 1970 annual average of 116.3 to its 1971 annual average of 121.3. Therefore, during calendar year 1972, the total amounts allowed under section 104(a) are increased by 4.3 percent; i.e., the statutory limit of 10 cents times voting age population is increased to 10.43 cents, and the statutory limit of $50,000 is increased to $52,150.

Section 104(a)(5) of the Act provides that the Secretary of Commerce shall certify an estimate of the voting age population of each State and congressional district for the preceding calendar year. Pursuant thereto, the Secretary of Commerce has certified to the Comptroller General an estimate of the voting age population of each State (which includes the District of Columbia and the Commonwealth of Puerto Rico) as of July 1, 1971, but he has advised that he is unable to furnish an estimate for each congressional district because a number of States are still redistricting or their redistricting is in litigation. However, he has further advised that it is highly unlikely that any congressional district for the 93d Congress will have as many as 500,000 persons of voting age, and he therefore has certified "that in no case is the estimated voting age population in the geographical area known to be included or likely to be included in any congressional district for the 93d Congress in excess of 500,000. Thus, the media spending limitation applicable to each congressional district will become $50,000, subject to any increase by the price index increase factor provided in section 104(a)(4)(B) of the Act."

As stated above, the price index increase is 4.3 percent. Thus, the communications media spending limitation applicable to each congressional district during 1972 (with the exception of the District of Columbia and Puerto Rico, whose voting age population estimates are included below) is $52,150 of which not to exceed $31,290 may be spent for the use of broadcasting stations.

Based on the certifications received from the Secretary of Labor and the Secretary of Commerce, the spending limitations applicable to each election during 1972 for each State and for the Nation are set forth in Appendix A below. Candidates for the U.S. Senate (or for Delegate or Resident Commissioner from the District of Columbia or the Commonwealth of Puerto Rico) may not spend more than the amounts applicable to their respective States, as shown in Appendix A. Candidates for presidential nomination may not spend in any State more than the amounts applicable to such State, as shown in Appendix A. Legally qualified candidates for the office of President of the United States in the general election may not spend more than the amounts applicable to the Nation as a whole, as shown in Appendix A. The term "calendar year" as used in this notice and as in Appendix A, for 1972 means the period beginning April 7, 1972, and ending December 31, 1972.

Under title III of the Act, presidential candidates and supporting political committees must file reports of receipts and expenditures with the Comptroller General on June 10 and September 10, 1972, and on January 31, 1973. In addition, such reports must be filed 15 days and 5 days before presidential primary elections, national nominating conventions, and the general election on November 7, 1972. Each preelection report is to be complete as of midnight of the 7th day preceding the filing date.

A table of the primary election dates and filing dates for preelection reports appears below as Appendix B. Note that, under § 14.9 of our regulations, a preelection or preconvention report which is due on or within 10 days of the specified filing date for a regular periodic report (March 10, June 10, September 10, or January 31) may, at the option of the committee or candidate, be used to fulfill both reporting requirements.

All political committees are reminded of the registration requirements contained in section 303 of the Act, as interpreted in Part 13 of our regulations dated March 24, 1972, and are advised to consult Part 13 to determine if they are or will be required to register with the Comptroller General. Any committee, which is in existence on April 7, 1972, and which is required to register, shall file a statement of organization (Comp. Gen. Election Form 1) on or before April 17, 1972. Forms and further information may be obtained from the Office of Federal Elections, U.S. General Accounting Office, 441 G Street NW., Washington, DC 20548, or from any General Accounting Office regional office.

[SEAL] ELMER B. STAATS,
Comptroller General of the United States.

APPENDIX A

FEDERAL ELECTION CAMPAIGN SPENDING LIMITATIONS (CALENDAR YEAR 1972, PUBLIC LAW 92-225)

State/Congressional district	Voting age population	Communication media limit (total)	Broadcasting media limit
United States	136,630,000	$14,250,509	$8,550,305
Alabama	2,259,000	235,614	141,368
Alaska	187,000	52,150	31,290

Oklahoma	1,770,000	184,611	110,767
Oregon	1,452,000	151,444	90,866
Pennsylvania	8,065,000	841,150	504,708
Rhode Island	660,000	68,838	41,303
South Carolina	1,682,000	175,433	105,260

[1] Public Law 92-225, 86 Stat. 3, Feb. 7, 1972.

[2] 37 F.R. 6156. The regulations, entitled "Campaign Communications and Disclosure of Federal Campaign Funds," will be included in the Code of Federal Regulations as Chapter I of a new Title 11, entitled "Federal Elections."

[3] See also the guidelines of the Federal Communications Commission, "Use of Broadcast and Cablecast Facilities," 37 F.R. 5796, Tuesday, Mar. 21, 1972. In addition, regulations for congressional campaigns have been issued and published in the Congressional Record by the Clerk of the House of Representatives and the Secretary of the Senate.

[4] Section 101 of the Act provides that title I may be cited as the "Campaign Communications Reform Act."

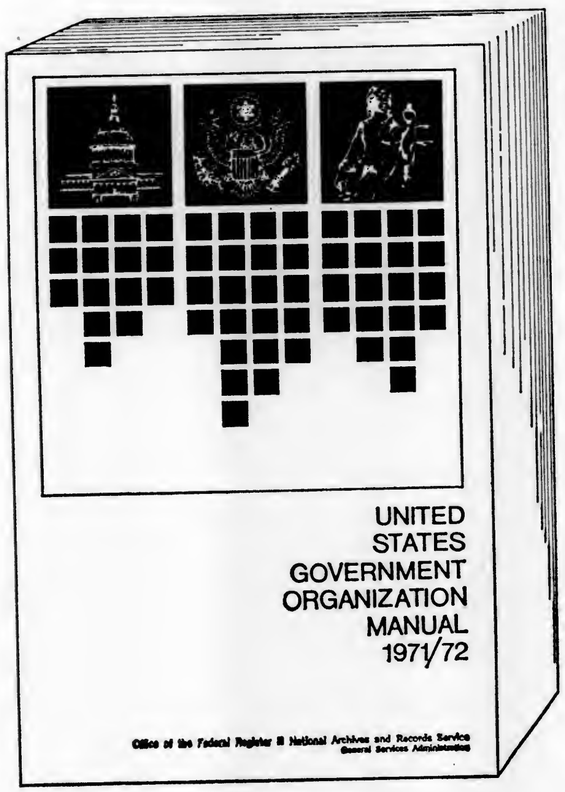
APPENDIX A—Continued

FEDERAL ELECTION CAMPAIGN SPENDING LIMITATIONS (CALENDAR YEAR 1972, PUBLIC LAW 92-225)

State/Congressional district	Voting age population	Communication media limit (total)	Broadcasting media limit
South Dakota	432,000	52,150	31,290
Tennessee	2,668,000	278,272	166,963
Texas	7,434,000	775,306	465,220
Utah	668,000	69,672	41,803
Vermont	299,000	52,150	31,290
Virginia	3,126,000	326,042	195,625
Washington	2,294,000	239,264	143,558
West Virginia	1,186,000	123,700	74,220
Wisconsin	2,894,000	301,844	181,106
Wyoming	220,000	52,150	31,290
Puerto Rico	1,581,000	164,808	98,939

The Secretary of Commerce has certified to the Comptroller General that no congressional district (except the District of Columbia and Puerto Rico) has a voting age population which exceeds 500,000. As a result of this certification, each congressional district (except the District of Columbia and Puerto Rico) has a Communication Media Expenditure limit of $52,150 for each election during calendar year 1972. Sixty percent of that amount ($31,290) may be spent for the use of broadcasting stations.

APPENDIX B



1972 PRESIDENTIAL PRIMARY ELECTIONS, BY DATES

Primary election	State	Preelection filing dates: 15-day report	Preelection filing dates: 5-day report
April 25	Massachusetts	Not required	April 20.

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FEDERAL REGISTER

Area Code 202 — Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

ECONOMIC STABILIZATION—Price Comm. regulation allows certain multi-industry firms to adjust prices without prior commission approval 7501

Pay Board announces public hearing on proposed recodification of regulations 7557

SELECTIVE SERVICE—Selective Service amendments on registration obligations of citizens and aliens and on alternate service 7498

UNFAIR TRADE PRACTICES—FTC issues cease and desist orders to employment firms and others 7494–7497

INTEREST RATES—SBA sets maximum per annum rates on guaranteed loans 7556

ANTIDUMPING—Treas. Dept. notice of investigation into record changers from United Kingdom 7534

Title 3—The President

PROCLAMATION 4123

National Maritime Day, 1972

By the President of the United States of America

A Proclamation

The spirit of America has long been recognized in the speed of her ships and the skill of her sailors. Long ago, the French historian de Tocqueville told the story of meeting an American sailor on his 1831 visit to this country and asking him to explain why American ships seemed built to last but a short time. The sailor replied with no hesitation that the finest of vessels would become useless if it lasted beyond a few years because the art of navigation was making such rapid progress.

In the sailor's certainty that with tomorrow would arrive something new and better, de Tocqueville recognized the attitude upon which "a great people direct all their concerns." Over the years other nations have built upon the success of our example—and they have built merchant fleets able to compete successfully with our own.

In America, the Merchant Marine Act of 1970 is once again awakening that venturesome spirit of maritime enterprise that has contributed so significantly to the strength and development of our Nation. Today we have a national commitment and program to revitalize our merchant marine and improve the competitive position of our shipbuilding industry.

This new program will generate the construction of many new ships, advanced in design and highly productive. It should help to ensure that the American merchant marine is once again one of the most modern and efficient in the world by the end of this decade.

It is important that all Americans realize the importance of our merchant marine to the Nation's economy and security. To promote such public awareness, each year since 1933, when the Congress designated the anniversary of the first transatlantic voyage by a steamship, the *SS Savannah*, on May 22, 1819, as National Maritime Day, successive

V 37-74 APR 15 72 XUM

Presidents have issued proclamations calling for public observance of that day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby urge the people of the United States to honor our American merchant marine on May 22, 1972, by displaying the flag of the United States at their homes and other suitable places, and I request that all ships sailing under the American flag dress ship on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of April, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

Rules and Regulations

Title 7—AGRICULTURE

Chapter III—Animal and Plant Health Inspection Service,[1] Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Unshu Oranges

NOTICE OF QUARANTINE

On March 3, 1972, there was published in the FEDERAL REGISTER (37 F.R. 4443) under the administrative procedure provisions of 5 U.S.C. 553, and sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 161, 162) a notice of proposed rule making and of public hearing concerning an amendment of Notice of Quarantine No. 83 relating to Unshu (Satsuma) oranges. After public hearing and due consideration of all relevant matter presented, and pursuant to sections 8 and 9 of the Plant Quarantine Act of 1912, as amended, 7 CFR 301.83 is amended to read as follows:

§ 301.83 Notice of quarantine.

Under the authority conferred by sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 161, 162) and after public hearing, it has been determined that in order to prevent the interstate dissemination of citrus canker disease, it is necessary to prohibit the movement from the States of Alaska, Hawaii, Idaho, Montana, Oregon, and Washington into or through any State other than those named, or into or through any territory or district of the United States, of Unshu (Satsuma) oranges grown in Japan and imported into any of the specified States subject to Notice of Quarantine No. 28 (§ 319.28 (b) of this chapter). Accordingly, under said authority, the States of Alaska, Hawaii, Idaho, Montana, Oregon, and Washington are quarantined and the aforesaid Japanese-grown Unshu (Satsuma) oranges are prohibited movement therefrom into or through any State other than those named, or into or through any territory or district of the United States.

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U.S.C. 161, 162; 36 F.R. 20707, 24917; 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon issuance.

The purpose of the foregoing amendment is to add Hawaii to the list of States from which the movement of Unshu oranges into or through other States, territories or districts of the United States is prohibited. The oranges are prohibited movement to prevent any risk of spreading the citrus canker disease (Xanthomonas citri (Hasse) Dowson), from Hawaii as well as the five other regulated States of Alaska, Idaho, Montana, Oregon, and Washington to other parts of the United States. An amendment of Notice of Quarantine No. 28 (7 CFR 301.28) issued concurrently adds Hawaii to the list of currently approved States of Alaska, Washington, and Oregon where entry of Unshu oranges is permitted. The destination of the oranges is limited to points in the States of Alaska, Washington, Oregon, Idaho, Montana, and Hawaii.

Done at Washington, D.C., this 11th day of April 1972.

G. H. WISE,
Acting Administrator, Inspection Animal and Plant Health Service.

[FR Doc.72-5738 Filed 4-14-72;8:47 am]

[1] Formerly Animal and Plant Health Service (37 F.R. 6327).

PART 319—FOREIGN QUARANTINE NOTICES

Subpart—Citrus Fruit

NOTICE OF QUARANTINE

On March 3, 1972, there was published in the FEDERAL REGISTER (37 F.R. 4443), under the administrative procedure provisions of 5 U.S.C. 553, and sections 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 159–162) a notice of proposed rule making and of public hearing concerning an amendment of Notice of Quarantine No. 28 relating to the importation of citrus fruit (7 CFR 319.28). After public hearing and due consideration of all relevant matter presented, and pursuant to sections 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended, the introductory portion of § 319.28(b) and paragraph (b)(6) are amended to read as follows:

§ 319.28 Notice of quarantine.

* * * * *

(b) This prohibition shall not apply to importations from Japan of fruits of Citrus reticulata Blanco var. Unshu (Satsuma), under permit, with destinations limited to points in the States of Alaska, Hawaii, Idaho, Montana, Oregon, and Washington: *Provided*, That each of the following safeguards is fully carried out:

* * * * *

(6) Entry shall be limited to Pacific Coast ports in the States of Alaska, Washington, and Oregon, or to ports in Hawaii, where plant quarantine inspection is available, with destinations limited to points in the States of Alaska, Hawaii, Idaho, Montana, Oregon, and Washington.

* * * * *

(Secs. 5, 7, 9, 37 Stat. 316, 317, 318; 7 U.S.C. 159, 160, 162; 36 F.R. 20707, 24917; 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon issuance.

The purpose of the foregoing amendment is to include Hawaii in the list of States into which Japanese Unshu (Satsuma) oranges may be allowed restricted entry under the same kind of rigid safeguards specified in the quarantine to prevent the introduction of citrus canker disease (Xanthomonas citri (Hasse) Dowson), as are now applicable to fruit entered through Pacific Coast ports in the States of Alaska, Washington, and Oregon. Under the amendment such fruit may be imported under the specified safeguards into any of these four States, with destinations limited to these States, or Idaho or Montana.

It has been determined by the U.S. Department of Agriculture that importation of Japanese Unshu oranges into Hawaii may safely be allowed under such conditions. An amendment of Notice of Quarantine No. 83 (7 CFR 301.83) issued concurrently prohibits the movement of such oranges from the six designated States to other parts of the United States.

Done at Washington, D.C., this 11th day of April 1972.

G. H. WISE,
Acting Administrator, Inspection, Animal and Plant Health Service.

Chapter IX—Agricultural Marketing Service[1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 263, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

V 37-74 APR 15 72 A XUM

other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (ii) of § 907.563 (Navel Orange Regulation 263, 37 F.R. 6921) during the period April 7, 1972, through April 13, 1972, are hereby fixed as follows:

§ 907.563 Navel Orange Regulation 263.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 996,000 cartons;

(ii) District 2: 204,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 12, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5763 Filed 4-14-72;8:49 am]

[Lemon Reg. 529]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.829 Lemon Regulation 529.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 11, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period April 16, through April 22, 1972, is hereby fixed at 225,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 12, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter XVIII—Farmers Home Administration, Department of Agriculture

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FHA Instruction 443.1]

PART 1821—FARM PURCHASE AND DEVELOPMENT LOANS TO INDIVIDUALS

Farm Ownership Loan Policies, Procedures and Authorizations

Subpart A of Part 1821, Title 7, Code of Federal Regulations (31 F.R. 14129) currently in effect under §§ 1821.1 to 1821.24 has been revised for clarification. This Subpart A sets out the policies, procedures and authorizations for making initial and subsequent Farm Ownership loans on family farms.

The revised Subpart A reads as follows:

Subpart A—Farm Ownership Loan Policies, Procedures and Authorizations

Sec.
1821.1 General.
1821.2 Objectives.
1821.3 Supervisory assistance.
1821.4 Definitions.
1821.5 Preference.
1821.6 Eligibility.
1821.7 Loan purposes.
1821.8 Loan limitations.
1821.9 Terms of loans.
1821.10 Security requirements.
1821.11 Special requirements.
1821.12 Suitability of farm for the FO program.
1821.13 Technical and legal services.
1821.14 Mineral rights.
1821.15 Optioning of land.
1821.16 Deferred payments.
1821.17 Junior mortgage loan.
1821.18 Certification by County Committee.
1821.19 Preparation and distribution of loan docket.
1821.20 Loan approval.
1821.21 Requesting title service and accepting option.
1821.22 Actions subsequent to loan approval.
1821.23 Loan closing actions.
1821.24 Subsequent FO loans.
1821.25 Reamortization of existing FHA debt(s).
1821.26 Nondiscrimination poster.

AUTHORITY: The provisions of this Subpart A issued under sec. 339, 75 Stat. 318, 7 U.S.C. 1989; sec. 4, 64 Stat. 100, 40 U.S.C. 442; sec. 301, 80 Stat. 879, 5 U.S.C. 301; Order of Acting Secretary of Agriculture, 36 F.R. 21529; Order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529.

Subpart A—Farm Ownership Loan Policies, Procedures and Authorizations

§ 1821.1 General.

This subpart is supplemented by Parts 1890, 1890a, 1890c, 1890d, 1890f, 1890p, and 1890r of this chapter. This subpart outlines the policies, procedures, and authorizations for making initial and subsequent Farm Ownership (FO) loans on family farms.

(a) *Loan funds.* Each State Director is responsible for assuring that loans approved in his State do not exceed the amount of loan funds distributed to his State.

(b) *Insured loans.* The credit needs of an applicant will be met with an insured loan.

§ 1821.2 Objectives.

The basic objectives of the Farmers Home Administration (FHA) in making FO loans are to assist eligible farmers and ranchers to become owner-operators of family farms, to make efficient use of their land, labor, and other resources, to carry on sound and successful operations on the farm, and to afford the family an opportunity to have a reasonable standard of living. The operations include establishment or enlargement of nonfarm enterprises on the farm to supplement the farm income. These objectives will be accomplished through the extension of credit and supervisory assistance.

§ 1821.3 Supervisory assistance.

Supervision will be provided borrowers to the extent necessary to achieve the objectives of the loan and to protect the interests of the Government in accordance with Subpart A of Part 1802 of this chapter. Such assistance consists of farm, home, and nonfarm planning, record keeping, analyzing the farm and any nonfarm business, and giving management advice.

§ 1821.4 Definitions.

The term "farm" includes a tract or tracts of land, improvements, and other appurtenances considered to be farm property and owned or to be acquired by the applicant, used or to be used in the production of crops or livestock including the production of fish under controlled conditions. The term "farm" also includes any such land and improvements and facilities used in a nonfarm enterprise.

(a) *Family farm.* A family farm is defined as one that will produce agricultural commodities for sale in sufficient quantities so that it is recognized as a farm rather than a rural residence, one that will provide substantial income by itself and which together with any other dependable income will enable the family to pay necessary family and other operating expenses, including maintenance of essential chattel and real property and pay debts, and one for which the operator and his immediate family provide the management and major portion of the labor including any nonfarm enterprise, except during seasonal peakload periods.

(b) *Mortgage.* The term "mortgage" includes any form of security, interest, or lien upon any rights or interests in property of any kind.

(c) *Security.* The term "security" includes any rights or interests in property of any kind subject to a mortgage.

(d) *Insured loan.* The term "insured loan" means a loan made from funds furnished by lenders and insured by the Government at the time of loan closing, or a loan made from the Agricultural Credit Insurance Fund (ACIF). The term "private lender" means any source of insured funds other than the ACIF and funds made available under a 2(f) agreement.

(e) *Direct loan.* "Direct loan" means a loan made with funds from the FHA direct loan account.

(f) *Nonfarm enterprise (FO–NFE).* This is any business enterprise established on the farm which supplements farm income. It must provide goods or services for which there is a need and a reasonably reliable market. A nonfarm enterprise includes recreation items for which FO funds may be used.

§ 1821.5 Preference.

Preference will be given to:

(a) Veterans, as defind in Part 1801 of this chapter. The applications on hand from veterans will be given preference over applications of nonveterans on file at the same time.

(b) Applicants who are:

(1) Married or have dependent families.

(2) Owners of livestock and farm implements necessary to successfully carry on farming operations.

(3) Able to make downpayments.

§ 1821.6 Eligibility requirements.

To be eligible for an FO loan each applicant must:

(a) Be a citizen of the United States.

(b) Possess legal capacity to incur the obligations of the loan.

(c) Be an individual who has:

(1) Recent farm experience or farm training sufficient to assure reasonable prospects of success in the proposed farming operation, and

(2) Other training or experience when nonfarm enterprises are involved to assure success with such proposed operation.

(d) Be an applicant who is not already earning sufficient income to have a reasonable standard of living, as determined by the County Committee. The County Committee will consider in making this determination the level of income obtained by reasonably successful family farmers and rural residents in the community, and the size of the family. This is not intended to prevent making of an FO loan under the following conditions:

(1) When the County Supervisor and the County Committee are reasonably certain an applicant will not engage in other employment after the planned farm operation is fully developed except to the extent necessary for his family to have sufficient income for a reasonable standard of living.

(2) When an applicant who is a farm tenant, sharecropper, or farm laborer and is otherwise eligible and the loan is to establish him as a farmowner.

(e) Possess the character, ability, and industry necessary to carry out the proposed operation and honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(f) Be unable with his own resources, or be unable to obtain sufficient credit elsewhere, to finance his actual needs at rates and terms he could reasonably expect to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans for similar purposes and periods of time.

(g) After the loan is made, be the owner-operator of a family farm which will produce not less than a substantial portion of his total income.

§ 1821.7 Loan purposes.

Loans that are consistent with environmental quality standards may be made to:

(a) Purchase or enlarge a farm, including any land for recreation or other nonfarm enterprise, which is or will not be larger than a family farm. This may include:

(1) An applicant's portion of the cost of a large tract of land which is being subdivided.

(2) Downpayments on the purchase of land under the following conditions:

(i) A deed is obtained by the borrower secured by a note and prior mortgage or a purchase contract or similar instrument is used.

(ii) Terms are adequate and long enough for the applicant and the FHA to have reasonable assurance that the borrower's obligations can be met under such terms.

(iii) The conditions and the requirements of prior mortgage or contract meet the FO security requirements for taking a junior lien.

(iv) The purchaser under a purchase contract which obligates him to pay the purchase price, gives him the rights of present possession, control, and beneficial use of the property, and entitles him to a deed upon paying all or a specific part of the purchase price.

(b) Construct or improve building and facilities on the applicant's farm, including:

(1) The construction of essential but modest farm dwelling and service buildings, including facilities and structures for nonfarm enterprise uses or fish farming such as docks, fish hatcheries, shooting blinds, refreshment or marketing stands, processing or assembly plants, sales buildings, repair shops, lodging facilities, trailer parks, picnic areas, target ranges, tennis courts, shuffleboard courts, golf driving ranges, campsites, and modest rental housing.

(2) The improvement, alteration, repair, replacement, relocation, or purchase and transfers of such essential dwellings and service buildings, facilities, and structures.

(3) The purchase and/or installation of domestic water and sewage disposal systems, other equipment or facilities necessary to the effective operation of a farm including nonfarm enterprises, provided the items upon installment become part of the real estate or customarily pass with the farm when it is sold.

NOTE: In order to conserve FO insured funds when major building development is planned Rural Housing (RH) loans will be processed simultaneously with the FO docket in accordance with Subpart A of Part 1822 of this chapter for RH authorized purposes and conditions for making RH loans on farms. An FO loan can be made simultaneously with a long-term farm real estate loan from a private lender.

(c) Provide land and water development, acquisition of water supplies, rights, use, and conservation essential to the operation of the farm, and any nonfarm enterprise facilities. This includes fencing, land clearing, forestry purposes, establishment of approved forestry practices, establishment and improvement of permanent hay or pasture, drainage and irrigation facilities, basic application of lime and fertilizer, fish ponds, and trails and lakes. Also, loan funds may be used to pay that part of the cost of facilities, improvements, and practices which is to be earned by participation in the Agricultural Conservation or Great Plains programs only when such costs cannot be covered by purchase orders or assignments to material suppliers or contractors. If loan funds are advanced and the portion of the payment for which the funds were advanced likely will exceed

V 37-74 APR 15 72 XUM

$500, the applicant will assign the payment to the FHA.

(d) Refinance secured and unsecured debts as provided in § 1821.11(e).

(e) Pay expenses incident to obtaining plans and making the loan such as fees for legal, architectural, and other technical services, which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds also may be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with making the planned building improvements.

(f) Pay costs incident to land and water development, use and conservation essential to the borower's farming operation on land not owned by him or on land with defective title as defined in § 1821.10(b)(1): *Provided*, The amount loaned for such improvements does not exceed $2,500.

(g) Finance a nonfarm enterprise when it will provide another source of necessary income.

(h) An eligible applicant for any purpose authorized in this subpart to enable a dependent in his immediate family to initiate, develop, or carry on a farm or nonfarm enterprise in connection with his or her participation in youth organizations such as Future Farmers of America, Future Homemakers, 4–H Club, or approved vocational training courses.

(i) Pay interest on insured loans when deferred payments are justified.

§ 1821.8 Loan limitations.

(a) An FO loan will not be approved if:

(1) The borrower's unpaid principal balance plus any past-due interest against his farm or other security or both plus the amount of the loan will exceed $100,000. This includes all FHA and other lender principal and past-due interest indebtedness on existing and proposed security.

(2) The amount of the loan and the unpaid principal balance plus any past-due interest on other liens against the farm will exceed the normal value of the farm and, when applicable, the normal value of any other security, as determined by the loan approval official, or the loan exceeds the amount certified by the County Committee.

(3) The noncontiguous character of a farm containing two or more tracts is such that an efficient farming operation and nonfarm enterprise cannot be conducted due to the distance or inadequate rights-of-way or public roads between the tracts.

(b) Loan funds may not be used for the following purposes:

(1) To purchase items not considered to be a part of the farm such as farm machinery and equipment, applicances, livestock, construction and maintenance tools, automobiles, trucks, boats, and nonfarm enterprise equipment that would not be considered real estate.

(2) To acquire land or develop a farm which is in an area designated for retirement from agriculture by Federal, State, or local agencies.

(3) To refinance any FHA debts owed by the applicant without prior consent of the National Office. Ordinarily FHA debts will not be refinanced even though the borrower is delinquent. Consent will be granted in an exceptional case only when it is not possible to service the loan or otherwise accomplish the objectives of the loan on a sound basis without refinancing the existing debt(s). In each such case the narrative justification and the case file will be sent to the National Office prior to development of the loan docket.

(4) To pay debts incurred after the loan is approved and prior to the closing of an FO loan, except fees for legal, architectural, and other technical services and except as authorized in § 1821.23(e)(2). The County Supervisor, not later than the time of planning farm or nonfarm improvements will advise each applicant that construction work must not be started and that debts for such work or materials must not be incurred before the loan is closed. If, nevertheless, the applicant incurs debts for materials or construction before the loan is closed, the County Supervisor, or the Assistant County Supervisor in connection with loans for which he had delegated authority to approve may authorize the use of FO funds to pay such debts only upon documentation of the facts in the case and when he finds that all of the following conditions exist (in a questionable case the County Supervisor will submit the complete facts to the State Office for advice before taking action):

(i) The debts were incurred after approval of the loan, except that in the case of a subsequent loan to complete improvements previously planned, the debts were incurred after the initial loan was closed.

(ii) The applicant is unable to pay such debts from his own resources or to obtain credit from other sources and failure to authorize the use of FO funds to pay such debts would impair the applicant's financial position.

(iii) The debts were incurred for authorized FO loan purposes.

(iv) The construction or repair work conforms to that shown on Form FHA 424–1, "Development Plan."

(5) To acquire land when a major part of the cropland on the farm will be in the conservation reserve program or other type of crop adjustment program for two or more full crop years after the date of loan approval, unless the State Director determines that the applicant will be able to conduct at least a farming operation on the land not included in such program which will produce not less than a substantial part of the total income.

§ 1821.9 Terms of loans.

(a) *Amortization period.* Each loan will be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security, except that a loan of $2,500 or less not secured by a real estate mortgage will be scheduled for payment over a period not to exceed 10 years from the date of the note.

(b) *Interest, annual charge, and repurchase agreement.* The interest rate to the borrower will be 5 percent per year on the unpaid balance of the loan. For insured loans, the terms to the insured lender will be governed by Subpart B of Part 1810 of this chapter.

(c) *Interest credits.* Interest credits provided in § 1822.7 of this chapter will not be applicable when an RH loan is made along with an FO loan to the same borrower.

§ 1821.10 Security requirements.

(a) *General.* Each FO loan will be adequately secured to protect the interest of the Government.

(1) Any loan of more than $2,500 and any loan to be paid in more than 10 years from the date of the note will be secured by a mortgage on the applicant's entire farm, except as provided in paragraph (b)(1) of this section. Usually loans of more than $2,500 will be secured only by real estate. When necessary to supplement the applicant's equity in the farm or to facilitate servicing the loan, a mortgage also may be taken on nonfarm real estate or on chattel or other property owned by the applicant. However, nonreal estate may not be relied on for more than $2,500 of a loan; except that in the State of Texas, because of unusual homestead and lien laws, upon prior National Office approval of a State issuance, the nonreal estate portion of the loan may exceed $2,500.

(2) A loan of not more than $2,500 to be paid in not more than 10 years from the date of the note may be secured by one or a combination of:

(i) Real estate, chattels, or

(ii) Other security that cannot be converted to cash without jeopardizing the borrower's farming operations or means of livelihood. Examples of other security are: Cash value of life insurance policies, cooperative memberships, income-producing leases, or water stocks which are transferable and have security value.

(3) Whenever both real estate and chattel security are taken for an FO loan and the payment period of the loan will exceed the maximum period for which the chattel lien may be valid under State law, the loan approval official will determine whether the real estate security will be adequate to secure the scheduled unpaid balance of the loan when the chattel lien expires.

(b) *Real estate.* (1) When the loan is to be secured by real estate, a mortgage on the entire farm owned by the applicant will be obtained, except as provided in this paragraph. If the applicant's title to any part of the farm is defective (either in the sense that it is not "good title marketable in fact," as defined in Part 1807 of this chapter or that the State law will not recognize a mortgage upon it or will not permit such a mortgage to be recorded) and cannot be cured at reasonable cost, the loan may nevertheless be made if the part of the applicant's farm to which title is not defective

qualifies as a family farm, and the value of such part of the farm and the value of necessary and available additional security is adequate to secure the loan.

(i) Any part of the farm to which title is defective may be omitted from the mortgage if the loan approval official with the advice of the Office of the General Counsel (OGC) determines that the applicant's interest is of such a nature that it is not mortgageable or that to include it would unduly complicate loan servicing or liquidation.

(ii) The part of the farm to which title is defective will be excluded from consideration in the appraisal of the farm. If the appraisal report was prepared before discovery of the title defect, the farm will be reappraised to show the value of the part of the farm to which title is not defective, and the appraisal report and other loan papers will be revised accordingly.

(2) A junior mortgage may be taken as security for a loan, provided:

(i) The prior mortgage(s) or lien(s) do not contain provisions for future advances, summary forfeiture or cancellation or other provisions that may jeopardize the Government's security position or the borrower's ability to pay the FO loan, such as payment schedules involving installments that the borrower cannot pay in an orderly manner, for example, a payment schedule with a balloon payment payable in less than 20 years; or

(ii) Such provisions of the prior mortgage(s) or lien(s) are satisfactorily limited, modified, waived, or subordinated; or

(iii) The provisions of § 1821.11(d)(2) are met in the case of simultaneous loans with other lenders.

(3) When a life estate is involved, a loan may be made to the life estate holder and the remainderman and both have a legal right to occupy, operate, and share in the profits, and both are otherwise eligible and join in executing the note and mortgage. However, where a remainderman or life estate holder is a minor or otherwise legally incompetent, if the loan approval official determines, with the advice of the OGC, that a sound and proper FO loan could be made to the other party and the necessary security obtained, narrative justification may be sent to the National Office prior to the development of the loan docket. The National Office will decide whether to authorize the making of the loan.

(c) *Chattel or other nonreal estate security.* When authorized by paragraph (a) of this section a mortgage may be taken on selected items of chattel or other nonreal estate security if such a mortgage will not interfere with the applicant's obtaining needed operating credit.

(1) Whenever a mortgage is taken as security for a loan, it ordinarily will be a first lien. In an exceptional case, a mortgage subject to the mortgage held by another creditor or the FHA may be taken on chattel property provided the applicant clearly has sufficient equity in chattels to provide the necessary security.

(2) When the loan includes funds for items of equipment upon which a mortgage is necessary to adequately secure the loan, a severance or subordination agreement will be obtained, when appropriate.

(3) In a State in which a mortgage is not valid for as long as may be needed by applicants for the repayment of the loan the instructions for making loans secured by a mortgage issued by the State Director will be followed.

(4) When a lien on equipment, other personal property, or fixtures is necessary to adequately secure the loan; it will be taken and kept effective as notice to a third party in accordance with Subpart B of Part 1831 of this chapter and related State issuances.

(d) *Miscellaneous security items.* Ordinarily, the applicants' farm is considered to include the land, buildings, fences, water, water stock, water facilities, and any other improvements and easements, rights-of-way or other appurtenances which by custom pass with farms in the change of ownership. However, in some instances certain improvement items or facilities which usually pass with the farm in a change of ownership are considered personal property and would not be conveyed to the purchaser. In other instances, items not generally considered to be a part of the real estate pass with the farm in a change of ownership. When the loan approval official determines the items involved in either case are a part of the farm and necessary for its efficient operation, funds may be included in the FO loan to purchase such items. The County Supervisor, with the advice of the designated attorney, title insurance company, or the OGC, will ascertain that such items are free from any liens or encumbrances and are specifically included in the proper security instrument.

§ 1821.11 Special requirements.

(a) *Dwellings and other essential buildings.* Buildings adequate for the planned operation of the farm including any nonfarm enterprise must be available. The necessary buildings will be located on the applicant's farm. However, if the applicant owns suitable buildings which are not considered a part of his farm and ordinarily would not pass with the farm in a change of ownership, duplicate buildings on the farm need not be required if the State Director authorizes retention of such buildings under paragraph (j) of this section. Also, in an unusual case, the applicant may be permitted to use acceptable rented buildings which will be available to him. In either case the buildings must be of such type and condition and so located that the applicant could operate his farm successfully. When an applicant depends on rented or owned buildings not considered to be a part of the farm, it must be determined that those buildings or other suitable buildings likely will be available for the period of the loan.

(b) *Land and facility development.* Adequate development to place the farm and any nonfarm enterprise in condition for a successful operation will be provided at the outset in connection with each loan. To the extent practicable, recommendations of representatives of the Forest Service, Soil Conservation Service, State Agricultural Extension Service and State Planning and Development Agency or local planning groups should be included in the development with the applicant, the County Supervisor will encourage him to use any cost-sharing assistance consistent with his plans that may be available to him through any source including the Rural Environmental Assistance Program (REAP).

(c) *Planning and performing farm development.* The development work will be planned and completed in accordance with Subpart A of Part 1804 of this chapter.

(d) *Relationships with other lenders.* Maximum use will be made of other credit when a workable arrangement is possible. County Supervisors will keep real estate lenders and building suppliers currently informed concerning FHA policies with respect to loan making, security requirements, supervision and servicing, distribution of income available for debt payments, and graduation of borrowers. FHA employees may not guarantee, personally or on behalf of FHA, repayment of advances from other credit sources. However, they may assure that lien priorities will be respected and releases will be made in accordance with the current Form FHA 431–2, "Farm and Home Plan," as agreed with the borrower.

(1) *Determining eligibility.* In determining the eligibility of an applicant if it appears that he may be able to obtain part or all the credit from other sources to meet his needs, the County Supervisor will require him to make a diligent effort to obtain such other credit.

(i) Applicants will be expected to seek credit from lenders who extend long-term credit in the area.

(ii) Applicants should be advised to request lenders to indicate the amount and terms of credit they might be willing to extend.

(iii) The County Supervisor should check on any evidence presented by an applicant that he cannot obtain other credit.

(iv) Letters or other evidence indicating credit is not available from other sources serving the area will be included in the loan docket.

(v) In no case will a loan be made to an applicant that could obtain the credit he needs elsewhere on terms he can reasonably be expected to pay.

(2) *FHA loans simultaneous with other lenders.* A "Memorandum of Understanding Between the Farmers Home Administration and the Farm Credit Administration," will serve as a guide in processing FO loans to be made simultaneously with loans by Federal land banks to common applicants. The State Director may work out agreements for simultaneous loans by long-term lenders other than Federal land banks for eligible FO purposes. Such an agreement should prohibit future advances by the first mortgage holder except for taxes,

V 37-74 APR 15 72 XUM

property insurance, reasonable maintenance expenditures, and reasonable foreclosure costs, but should not prohibit subsequent FHA loans. It should also cover items such as appraisal methods, title clearance, loan closing, the disbursement of funds, and where appropriate, advance notices of foreclosure. It may also cover other items considered necessary or advisable for a sound FHA second mortgage loan. The following is the "Memorandum of Understanding Between the Farmers Home Administration and the Farm Credit Administration," to be used as a guide in processing FO loans to be made simultaneously with loans by Federal land banks to common applicants.

MEMORANDUM OF UNDERSTANDING BETWEEN THE FARMERS HOME ADMINISTRATION AND THE FARM CREDIT ADMINISTRATION RELATING TO THE LENDING POLICIES AND OBJECTIVES OF THE FARMERS HOME ADMINISTRATION, FEDERAL LAND BANK, AND FEDERAL LAND BANK ASSOCIATION

I. *Introduction.* The capital requirements in agriculture in the future necessitate finding every means possible to provide adequate credit for farmers—particularly young farmers—many of whom are now unable to obtain long-term real estate loans. The Farmers Home Administration over the years has broadened its Farm Ownership loan policies so that private or cooperative lenders and the Farmers Home Administration can make loans to the same borrower on the same security. The experience of the Farmers Home Administration (FHA) and the Federal Land Bank (FLB) has been favorable when FHA Farm Ownership loans have been made to farmers and ranchers on liens junior to long-term real estate loans held by the FLB's. A thorough understanding by all the principals involved of the lending policies and objectives of the FHA, FLB, and Federal Land Bank Association (FLBA) is essential to better serve farmers and ranchers who seek agricultural credit. Many farm families are unable to obtain adequate credit because of the general tightening of availability of long-term real estate loans. The demand for long-term, low equity loans far exceeds the supply of funds available.

The Farmers Home Administration and the Farm Credit Administration hereby agree that FLB's and FHA State Directors may enter into memorandum of understanding concerning the simultaneous processing of initial Farm Ownership loans by the FHA and long-term real estate loans by the FLB to a mutual borrower. It is further agreed that the FLB will make first lien loans on farm real estate which it considers sound to farmers who are or who will be FHA borrowers. The FHA will subordinate its mortgage to the FLB lien when the FLB loan is made for purposes which are authorized for FHA real estate loans. It is agreed that in such cases of loans by each lender, neither lender will make future advances to the borrower without the consent of the other lender, except that advances may be made by the FLB as are necessary for the payment of taxes, insurance, or necessary repairs to the secured property. If such advances are made, the FHA will not assert the priority of its lien over such advances on the ground that the FHA mortgage was definite and fixed before the additional advance or advances were made by the land bank. Each lender, of course, will make only those loans which are within its existing law and regulations.

II. *Policies.* The basic policies of each lender will continue to apply when processing each individual loan except as modified in paragraph I. When these policies preclude making individual loans simultaneously to a mutual borrower, the appropriate lender will provide the financing needed when practical.

A. *Eligibility determination must be made by each lender.* 1. Applications filed with FHA will be analyzed to determine whether there is a possibility of participating with the FLB and other lenders. The County Supervisor will review with the local FLBA manager or other private lender any application that might appear to be suitable for participation.

2. Applications filed with the FLBA will be analyzed by the manager for possible FHA assistance when it is agreeable with the applicant.

B. *Loan processing.* 1. An FHA representative will make the appraisals for FHA Farm Ownership loans.

2. An appraiser designated by the FLB will make the appraisals for land bank loans.

3. Each lender will determine the applicant's ability to repay his total indebtedness as part of its loan approval.

4. The borrower will be required to meet the minimum legal and regulatory requirements of each lender. This includes stock ownership and membership in the FLBA, property insurance, and so forth.

C. *Loan closing.* 1. The FHA and the FLB will agree on the method and the period to be covered by the title search. If there are any deviations from either lender's regulations, such deviations must be approved by the appropriate supervisory officials.

2. The FHA and FLB representatives will mutually approve any land and building development plans when the improvements are to be projected in loan values. Each will supervise the disbursement of its share of funds for these items.

3. The representative(s) to be present for loan closing will be by mutual agreement.

4. The standard loan mortgage forms used by the FHA and the FLB will be exchanged by the local representatives. Any additional covenants or deviations in individual cases will be called to the attention of the local representative before the loan is closed.

D. *Supervision.* FHA's policy of supervision and counseling will be carried out in accordance with current policy.

1. The loan(s) made by each lender will be serviced in the usual manner by its respective representative unless special problems develop that require consideration by both representatives.

2. A spirit of mutual cooperation will be followed in servicing each loan in the interests of the borrower, the FLB and the Government.

E. *Graduation.* It will be the policy to continue to emphasize the graduation policy of the FHA to encourage borrowers to use non-FHA credit as soon as possible.

III. *Administration.* A. Special initial sessions will be held by State FHA and FLB regional representatives with FHA field staffs and FLBA personnel concerning this program to clearly outline the objectives of joint participation in making loans.

B. Subsequently periodic meetings will be held to assure uniformity of policy and practices.

C. *Other considerations.* 1. Informal visits between field personnel to discuss problems, applications, servicing of loans and graduation should be made periodically.

2. Occasional joint field visits to borrowers' farms would establish a basis for observing the practical application of policies and practices of each lender.

3. Each lender should advise the other of basic policy changes to guide County FHA Supervisors and FLBA managers in reviewing applications.

4. County Supervisors and FLBA managers should exchange the names of FHA County Committeemen and FLBA Directors for their respective areas as sources for references for applications being considered.

5. Whenever there is a substantial adverse change in the credit position of the mutual borrower, the FHA County Supervisor and FLBA manager will need to discuss the new developments to determine the effect on both loans.

6. The acceptability of property insurance policies will be in accordance with each lender's requirements and mutually agreed upon by representatives of both lenders. The use of any loss proceeds will be in accordance with lien priorities and requirements of each agency for essential buildings. If any buildings are not to be replaced or repaired and the proceeds are not required to be applied on the FLB lien, FHA will have the responsibility for determining the use of the loss proceeds from essential or nonessential buildings.

7. Each lender will notify the other in ample time if it becomes necessary to foreclose its mortgage. This notification will replace the individual requirement of signing the notice of foreclosure agreement when the loans are closed.

8. Each applicant is privileged to select the long-term private lender he prefers to have join with FHA in making his real estate loan when his need exceeds the amount a private lender (FLB or other) will make.

E. A. JAENKE,
Governor,
Farm Credit Administration.

JAMES V. SMITH,
Administrator,
Farmers Home Administration.

(i) The County Supervisor and the local representative of another lender should maintain a close relationship in processing loans to mutual applicants or borrowers. A realistic determination must be made on the extent to which the FHA and the other lender can assist the applicant or borrower before either lender makes a firm commitment on the assistance that can be given. The following determinations must be made before the County Supervisor and representative of the other lender are able to determine the amount of each loan: Eligibility, applicant's total real estate needs, normal value of the property, and the applicant's ability to pay his total obligations.

(ii) When an initial FO loan is made at the same time as a loan from another lender, that lender's lien will have priority over the FHA lien unless otherwise agreed upon. The lender's priority of lien can cover in addition to principal and interest, the following: Advances for payment of taxes, property insurance, reasonable maintenance to protect his interest, and reasonable foreclosure costs including attorney's fees.

(3) *Evidence not required.* In any case in which a County Supervisor determines there is no possibility of a feasible arrangement to obtain part or all of the applicant's needs from an uninsured other lender, he will not require evidence from that applicant. The County Supervisor will record his conclusion and the basis for it in the loan docket.

(e) *Refinancing of debts.* (1) When an applicant's request includes the use of loan funds for the refinancing of debts, it must be determined before a loan is made that his present creditors will not give him rates and terms on the existing debts that he reasonably could be expected to meet. Before refinancing any debt, the County Supervisor will:

(i) Discuss with the applicant the possibility of obtaining the needed credit from the applicant's present creditors or other sources. He will request the applicant to contact his present creditors to explain his credit needs and to determine if the creditor will renew, extend, change, or reduce the present debts as appropriate. He will also advise the applicant of other credit sources available in the area which might assist him with his credit needs and request that he contact such credit sources. If the applicant is unsuccessful in his efforts to obtain credit or to get a revision of the rates and terms of his indebtedness, the County Supervisor will obtain from the applicant the reasons given by the present creditors and other sources for not assisting the applicant and document such information in the running record.

(ii) If the County Supervisor is notified by the applicant that his negotiations with the present creditors or other sources were unsuccessful, he will determine, on the basis of the applicant's financial statement, planned income and expenses, estimated amount available for debt payment and any additional factors presented by the applicant, whether it appears necessary to refinance the debt(s) or any portion of the debt(s) or obtain a change in the rates and terms. When it is determined that refinancing may be necessary, the County Supervisor will contact in person, when practicable, each secured creditor and each unsecured creditor to whom substantial debts are owed for the purposes of verifying the necessity for refinancing. If the loan is to be processed, a statement of each secured account showing the final due date, interest rate, annual installment, amount of principal and interest delinquent, unpaid principal, and accrued interest will be obtained. If all, or a portion of the accounts are to be refinanced, the appropriate amount necessary to settle the account in full or to bring the account current will be obtained. In any case in which a mortgage is to be taken junior to another creditor's lien, such as the Federal land bank or an insurance company, the County Supervisor will obtain early in the loan processing the creditor's determination with respect to furnishing the applicant the additional credit that he needs.

(2) Debts secured by real estate liens will not be refinanced unless the liens are against the farm on which a mortgage will be taken under § 1821.10(b)(1).

(3) Ordinarily, loans will not be made to refinance long-term real estate loans of the type generally made by lenders such as the Federal land banks or insurance companies. When it is necessary to refinance such debts, the total debt will not be refinanced if a part of the debt can be refinanced on a sound basis with the lender's agreement. The part of the debt to be refinanced will not include more than existing delinquencies plus the next installment to become due that the borrower will be unable to pay.

(4) When nonreal estate debts are being refinanced, preference will be given to paying those that will be most helpful to the applicant in carrying on farm and home operations. Ordinarily, in the case of old unsecured debts or inadequately secured debts, the applicant will be requested to contact his creditor(s) and attempt to obtain a substantial reduction of such debts.

(f) *Income from other than the owned acreage.* In any case in which the soundness of the loan depends on income from the farm and other sources, the County Supervisor must determine that income from other sources, in addition to the income from the land the applicant owns will likely be available to him on a continuing basis.

(1) When the applicant must depend on income from land in addition to that which he owns, the County Supervisor will determine that such land or other land of similar quantity and quality likely will be available during the period of the loan or if other land should not be available there is a likelihood that off-farm employment is available to provide the income needed.

(2) When the applicant must depend on income from off-farm employment it must be determined that the off-farm income will probably materialise and continue in the amount anticipated, taking into consideration the nature of the proposed employment and, where possible, the actual employment for the past 2 or 3 years, and the time required for the off-farm work, together with that required for the farm, is possible of accomplishment by the applicant and his immediate family, taking into consideration hired labor for seasonal peak-load periods.

(g) *Income from nonfarm enterprises.* Income from nonfarm enterprises, is considered to be "other income" rather than farm income. The farm and home plan will have sufficient information attached to determine the feasibility and soundness of the applicant's request for FHA assistance in conducting nonfarm enterprise in conjunction with his farming operation. Such information will indicate whether the enterprise provides sufficient income to meet its operating expenses, depreciation, proportionate share of the debt, and make a reasonable contribution to the family's income.

(h) *Supplementary payment agreement.* Form FHA 440–9, "Supplementary Payment Agreement," should be used for each applicant who regularly (such as weekly, monthly, or quarterly) receives substantial income from an off-farm source, a nonfarm enterprise, or from farming. It also should be used for other applicants when needed to facilitate servicing of the account.

(i) *Farm or residence situated in different counties.* If a farm is situated in more than one State, county, parish, or locality, the loan will be processed and serviced in the State, county, parish, or locality in which the borrower's residence on the farm is located. However, if the borrower's residence is not part of his farm, the FO loan will be serviced by the County Office serving the county in which the farm or a major portion of the farm is located unless otherwise approved by the State Office because of transportation difficulties.

(j) *Other real estate.* The State Director may permit an applicant to retain real estate that will not be a part of the farm provided such real estate furnishes the applicant employment or income which together with farm income is essential to his success, it provides the residence for the applicant, or a sale of property would not materially reduce the applicant's need for a real estate loan or for operating credit; and provided further that the retention of such real estate will not cause a borrower to operate larger than a family farm or to own a farm for rental for agricultural purposes in addition to the farm he operates. Otherwise, a loan may be made to an applicant who owns real estate which will not be a part of the farm only if he disposes of the property before or simultaneously with the closing of the loan, or if this is not feasible, agrees to dispose of it as promptly as possible, but in no instance later than 2 years after the date of loan closing. The applicant must use the net proceeds to pay essential farm and home expenses, to make necessary capital purchases, or to reduce his debts. The applicant's agreement for disposal of the real estate and use of the proceeds will be obtained through the use of Form FHA 443–17, "Agreement to Sell Nonessential Real Estate." This form will be executed by the applicant and his wife at the time of loan closing. The security instrument taken in connection with the loan will not include real estate to be sold.

(k) *Joint ownership and joint farming operations.*—(1) *Joint ownership and operation by members of the same family.* Whenever it is not feasible to divide the land into family farms with individual ownership, a loan may be made to two applicants constituting a family group that owns or will own a farm jointly and conduct a joint operation if each of the applicants is individually eligible and the family group likewise meets all eligibility requirements, provided that the total operation will not be larger than a family farming operation. A family group would consist of relationships such as father-son, mother-son, or grandfather-grandson in which the younger member of the group would take over the operation as the older member becomes less active in conducting the farming operations, unless a different family group is authorized in a justified case by the National Office. It is anticipated that this transition period would take place and be completed within a few years after the loan is made. The participation of a member of such family in the operation without an ownership interest in the farm is not prohibited, but in such case, the responsibility of management must be in the owner or owners. In any case, it must be determined that because of previous experience in working together,

V 37-74
APR 15 72
XUM

such a family group likely will succeed in the proposed joint farming operation. All joint owners of the land will execute the application, payment authorization, if any, note and mortgage, as well as other loan docket forms.

(2) *Separate ownership of the farm and joint operations.* A loan may be made to an eligible applicant who will own a farm which is not larger than a family farm and will conduct a joint operation with another individual or individuals provided:

(i) Not more than three individuals are interested in the operation;

(ii) That, because of previous experience in working together as farmers, they will likely succeed in the proposed joint operation; and

(iii) The joint operation will not be larger than the equivalent of a family farm operation for each full-time operator involved. However, such operation will not exceed a single family farm operation, whenever the individual who has an interest in the applicant's operation does not personally perform labor in an amount at least equal to his respective interest in the operation.

(l) *Debt-settlement cases.* A loan will not be made to an applicant whose debts have been settled pursuant to Part 1864 of this chapter, as reflected by the County Office records, or where settlement under such regulation is contemplated, unless the applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control, the conditions which necessitated the debt settlement or release, other than weather hazards, disasters, or price fluctuations, have been or will be removed by the making of the loan, and the borrower's operations will be sound and afford him a reasonable prospect of repaying the loan and meeting his other obligations. Before requesting an appraisal or causing the applicant to incur any expense in connection with the loan, the County Supervisor, if he determines that the applicant should be considered for a loan, should complete Form FHA 431–2 and send it, together with the application, any available case folders, and his recommendation to the State Office for a determination as to whether to proceed with development of the loan docket.

(m) *Compliance with special laws and regulations.* Applicants will be required to comply with Federal, State, and local laws and regulations governing diverting, appropriating, and using water including use form domestic or nonfarm enterprise purposes, installing facilities for draining land, and making changes in the use of land affected by zoning regulations. The applicant should also comply with any such laws, special licenses, and regulations pertaining to nonfarm or fish farming enterprises. Requirements set forth by the State Director will be issued to advise County Supervisors as to the action to be taken by applicants in order to comply with this policy. In any State where there are no special laws or regulations to comply with, special instructions may be needed to advise how to make sound loans under such conditions. For example, evidence may be needed to determine the effect that diverting water from a stream might have on other users or their legal rights as well as the manner in which other users or their legal rights affect the borrower's use of the water. Furthermore, even though there are no specific requirements to be met, it may be possible to file with the appropriate State authority the facts concerning the borrower's use of water from a stream in order that he might have some priority rights in case laws or regulations are made that will affect the use of water.

(n) *Area determinations.* It will be the responsibility of the State Director to determine if there are any areas in the State where the development of ground water for irrigation purposes or the drainage of farmland is not recommended. The State Director will make this determination with the advice of the State Conservationist for the Soil Conservation Service, and the State Geologist or Engineer, or officials of the U.S. Geological Survey, School of Mines, or any State Water Board, State Agency, or person having official functions relating to use of water or drainage of farmland. Requirements set forth by the State Director will be issued specifying the area in which available information indicates that the further development of ground water or drainage is not advisable without a further analysis of pertinent economic and physical data.

(1) If such areas exist, the State requirement will limit the making of FO loans within the areas to the repair or rehabilitation of existing irrigation facilities which will not result in the development of additional ground water in excess of the amount previously used, or contain such other restrictions as the State Director determines to be necesary.

(2) If such areas do not exist, there will be included in the State requirement, the determination that there are no areas in the State where the development of ground water for irrigation purposes or the drainage of farmland is not recommended. In any event, the State Director may require a test well prior to the time the applicant incurs costs for drilling a well.

(o) *Liens junior to the FHA lien.* A loan will not be approved if a lien junior to the FHA lien likely will be taken simultaneously with or immediately subsequent to the closing of the loan to secure any debt the borrower may have at the time of loan closing or any indebtedness he may incur in connection with the FO loan, such as for a portion of the purchase price of the farm or money borrowed from others for payments on debts against the farm, unless the total debt against the security would be within the $100,000 debt limit or the normal value of the security, whichever is less.

(p) *Public liability and property damage insurance.* Applicants receiving loans for other nonfarm enterprises will be advised of the possibilities of incurring liability and encouraged to obtain public liability and property damage insurance.

(q) *Subdivision of large tracts of farmland into family farm units.* County Supervisors should investigate any large tract that is offered for sale to determine the feasibility of making FO loans to several applicants to acquire the tract. In considering the feasibility of a tract for subdivision into family farms, the following are some of the factors that must be considered:

(1) Productivity of the land and its suitability for operation as a family farm;

(2) Cost of the land and improvements included or necessary;

(3) Accessibility to roads, markets, schools, and other services;

(4) Disposition or omission of any portion of the tract that is not suitable; and

(5) The number of elligible applicants in the area.

(r) *Refinancing of FO loan.* If, at any time, it appears that the borrower may be able to obtain a loan from a cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time prevailing in the areas, to refinance his loan, the borrower will, upon request, apply for and accept such refinancing.

§ 1821.12 Suitability of farm for the FO program.

(a) *Responsibility for determining suitability of farms.* The County Supervisor is responsible for making a preliminary determination as to whether a loan can be made on the farm. This determination will be based on a personal inspection of the farm and the consideration of such factors as productivity of the land; location, condition, and adequacy of the buildings; approximate value of the farm; approximate amount of funds required for land purchase; boundaries of the farm; roads, school, markets, or other community facilities; tax rates; and adequacy of the water supply. He also will determine the suitability of the farm for a nonfarm enterprise facility or fish farming.

(b) *Development of loan docket and plans.* Farm and home plans will be prepared in accordance with Subpart B of Part 1802 of this chapter. Plans for a nonfarm enterprise will be developed on Form FHA 431–4, "Business Analysis—Nonagricultural Enterprise," in accordance with acceptable business practices for the enterprise. If there is a State Planning and Development Agency or other recognized competent planning and development source that will assist in such plans, its services will be used to the extent feasible. The farm development plan will be prepared in accordance with Subpart A of Part 1804 of this chapter. When the farm and home plan including any plans for a nonfarm enterprise, and the farm development plan have been prepared and real estate is to be taken as security for the loan, and the appraisal is to be made by other than authorized personnel in that County Office, the services of an appraiser will be requested. In any case, if it appears that a loan cannot be made, the County Supervisor will promptly notify the applicant of the specific reasons for the decision. If the applicant is dissatisfied with the decision and requests further consideration, the County Supervisor may ask the County Committee for an opinion regarding the suitability of the farm for an FO loan.

§ 1821.13 Technical and legal services.

(a) *Technical assistance.* Applicants are responsible for obtaining technical assistance necessary to plan, construct, or establish the improvement or facility to be financed with the loan or other technical service required in connection with the loan.

(b) *Appraisal.* (1) When real estate will be taken as security for the loan, the real estate will be appraised by an FHA employee authorized to appraise farms.

(2) When nonreal estate items will be taken as security for a loan, a list of such items will be made on Form FHA 440–21, "Appraisal of Chattel Property," or State form, if such a form has been developed, with an estimate of the normal value of the security. In determining the normal value of chattel security, the County Supervisor will take into consideration the length of time the chattels will serve as security and the useful life of such security. In the case of other security, the County Supervisor will include a supporting statement with his estimated value of such security. Such a statement will include a narrative description of the security, its current cash value, the relative stability of the value of the security, and how the property is to be mortgaged or otherwise given as security for the loan.

(c) *Title clearance and legal services.* (1) When real estate is taken as security, title clearance and legal services for making and closing the loan will be provided in accordance with Part 1807 of this chapter. The applicant will be requested to furnish title evidence as soon as the County Supervisor determines the loan probably will be made. If the County Supervisor is doubtful whether the loan will be approved, he will not require the applicant to furnish title evidence until after the loan approval.

(2) When no real estate is taken as security, the applicant will be required to submit the original or a certified or photostatic copy of his deed, purchase contract, or other instrument evidencing ownership. Whenever the County Supervisor is uncertain as to whether or not the applicant is the owner of a family farm, the County Supervisor will take such actions as he considers necessary, such as requiring the applicant to furnish additional information or obtaining the opinion of the OGC as to the evidence of ownership of the farm and his advice as to any further information or action that may be needed.

(3) When chattels are taken as security, a lien search will be obtained in accordance with Subpart B of Part 1831 of this chapter.

§ 1821.14 Mineral rights.

Borrowers should obtain to the extent practicable, all the mineral rights in any land being acquired. When mineral reservations appear to make it questionable whether a sound loan can be made on property with all or part of the mineral rights held by a third party, the County Supervisor will obtain the advice of the State Director before proceeding with development of the loan.

§ 1821.15 Optioning of land.

When land is to be purchased, the applicant will be responsible for selecting the land he intends to purchase and for obtaining an option on such land. The County Supervisor should, if possible, prior to the applicant's selection of the land to be purchased, advise him with respect to the approximate size and quality of farms which are generally considered suitable for the FO program. Also, the County Supervisor will advise the applicant that the farm must be located on a public road or have a right-of-way or easement for a useable access road to a public road. Such advice, together with the consideration of the applicant's eligibility before the land is selected, will save the applicant's time in looking for farms and will reduce the number of options taken on farms which are obviously too small, too large, or too unproductive to qualify for the FO program. A determination should be made that a loan can likely be processed before the applicant is requested to obtain an option. Form FHA 440–34, "Option to Purchase Real Property," will be given to the applicant with an explanation of the provisions of the Form and how it will be completed. Generally, Form FHA 440–34 should be used; however, other option forms may be used if their provisions are acceptable.

(a) The County Supervisor is responsible for examining each completed option to determine if it is acceptable. When the County Supervisor is doubtful as to whether the option is acceptable due to questions, such as the effect of mineral or other reservations on the applicant's or the Government's interests, or unusual conditions or alterations of Form FHA 440–34 or other option form, if used, he will forward the option to the State Office with a memorandum indicating the extent to which the exceptions are or may be objectionable and request the advice of the State Director. The State Director will contact the OGC when legal advice is needed.

(b) The County Supervisor also will determine that:

(1) At least $1 is actually paid to the seller by the applicant and the receipt for this amount is acknowledged in the option.

(2) The option is recorded, if necessary. Recordation fees will be paid by the applicant.

(c) When a tract of land is to be optioned and subdivided, the applicant in whose name the option is to be taken must be advised by the County Supervisor that the applicant will not receive any remuneration for assigning interest in the option to other applicants. The County Supervisor is responsible for explaining to the seller and the applicant in whose name the option is taken, the terms and conditions of the option including the provision that the seller will provide an accurate survey, if required by the Government.

(1) The County Supervisor will discuss any proposed subdivision with the County Committee and the District Supervisor before any definite commitments are made to the prospective seller with respect to utilizing a tract for subdivision purposes. He will also obtain the assistance of the employee authorized to appraise farms in making a thorough study of the tract and in plotting the units to show proposed roads and other necessary facilities in order to determine whether it is practicable to subdivide the tract into adequate farms.

(2) If the tract is determined to be suitable, an option will be taken on Form FHA 443–2, "Option for Purchase of Farm-Land to be Subdivided." The tract will be subdivided into units, each unit will be surveyed, and the applicant, in whose name the tract is optioned, with the guidance of the County Supervisor, will execute Form FHA 443–3, "Assignment of Interest in Option (Land to be Subdivided)," with each applicant who is to receive one of the units. If it becomes necessary for the State Director to designate an applicant as assignee of an interest in the option, Form FHA 443–4, "Designation of Assignee of Interest in Option (Land to be Subdivided)," will be used.

§ 1821.16 Deferred payments.

The principal payment may be deferred until the end of the second full crop year from the date of the loan. Such payments may be deferred only when the Farm and Home Plan covering the first full crop year indicates that there will be insufficient income to meet a regular annual installment on the loan after operating, family living, and other essential expenses are paid during the first or first and second full crop years. Further, in the judgment of the loan approval official, there must be adequate evidence that income in subsequent years will be sufficient to meet the requirements of the loan. Deferred payments should not be used t permit the accelerated repayment of other debts or to purchase an unusually large amount of capital goods. Deferment will be justified only when adequate returns will be delayed one or two full crop years, and:

(a) A substantial reorganization of the farming system and any nonfarm enterprise is being made; or

(b) A new system of farming or nonfarm enterprise is being established that will require substantial improvements, such as land clearing, draining, leveling, irrigating, basic fertilizing, seeding, or other land development, soil improvement, and extensive nonfarm facilities.

§ 1821.17 Junior mortgage loan.

When a loan is to be secured by a junior mortgage, the following items will apply:

(a) *Agreements with prior lienholders.* Agreements with prior lienholders regarding enforcement of objectionable provisions of their liens or giving notice of foreclosure or assignment of their liens, or both, will be obtained in accordance with § 1807.2(f)(5) of this

V 37-74 APR 15 72 XUM

chapter, except as modified by the Memorandum of Understanding with the Farm Credit Administration.

(b) *Items for docket.* The applicant will be required to furnish the County Supervisor before the docket is assembled, a copy of each mortgage held by the prior lienholder(s) and, if available, a copy of the note or other obligation so that a proper determination can be made as to whether it should be refinanced. In addition, the County Supervisor will be furnished a current statement from the mortgagee showing the amount of unpaid principal secured by the mortgage(s), the amount of any accrued interest, whether the account(s) is current or the amount of any delinquency with principal and interest shown separately, and if a copy of the note(s) is not provided, its maturity date, repayment schedule, interest rate, and a summary of any other provisions of the note. This information will be included in the docket for the information of the loan approval official. Any cost incidential to obtaining the information will be paid by the applicant.

§ 1821.18 Certification by County Committee.

Before an FO loan is approved, the County Committee will make its certifications with respect to the eligibility of the applicant and the maximum amount of the loan on Form FHA 440–2, "County Committee Certification or Recommendation." The amount certified by the County Committee may be greater but not less than the amount of the loan. Since this is an administrative determination, the applicant will not be notified of the certified amount. Members of the County Committee may interview the applicant and/or see the farm before making their recommendations.

(a) The loan docket may be developed and submitted to the County Committee for certification, if the County Supervisor during his investigation of the application finds no objections which would likely cause the County Committee to take unfavorable action on the applicant's eligibility. The amount of the loan certified by the County Committee will be based on the completed docket. It may also be certified from a reasonably accurate estimate of the amount needed, supported by the appraisal report and appropriate plans and complete information about the applicant.

(b) If the County Supervisor has any question concerning the applicant's eligibility, he will have the application considered by the County Committee prior to developing a loan docket. If favorable action is given by the County Committee, the docket will be completed and returned to the Committee for its final certification.

(c) If the County Committee rejects the application, reasons for unfavorable action will be given in the space provided on Form FHA 440–2 above their signature.

(d) When a loan cannot be processed promptly, a decision will be made on the eligibility of the applicant in accordance with Part 1801 of this chapter. He must be notified in writing of the initial action taken by the County Committee; otherwise, a loan docket should be processed and submitted to the Committee for disposition.

(e) Ordinarily, the amount of the loan plus any other debts against the security will not be excess of the recommended normal value of the security as shown on the appraisal report(s). A loan docket will not be developed when a loan plus any other debts against the security will be significantly in excess of the recommended normal value against the security. In an unusual case when the amount of a loan needed for success plus any other debts that will be against the security is slightly above the recommended normal value of the security and the County Committee and the County Supervisor believe that the loan should be made, Form FHA 440–2, may be completed. In such a case, the completed loan docket will be submitted to the State Office for a determination as to whether it is feasible to establish the normal value of the security above the appraiser's recommended normal value. If the loan approval official determines that the normal value is in excess of the appraiser's recommended normal value, he will record his determination of the normal value of the security on Form FHA 440–3, "Record of Actions."

(f) Federal Land Bank Association stock required to be purchased by Federal Land Bank Association borrowers is not assignable but it does have security value. Therefore, when FHA and the Federal land bank make simultaneous loans, the loan approval official may find the normal value of the total security to be equal to the normal value of the real estate plus the value of the Federal Land Bank Association stock. He will record his determination of the normal value of the security in such a case on Form FHA 440–3.

§ 1821.19 Preparation and distribution of loan docket.

(a) *Checking docket forms.* When the loan docket forms have been completed, they will be checked thoroughly to determine that the proposed loan conforms to the applicable loan limits, that each form is prepared correctly in accordance with the prescribed guide available in all FHA offices for preparation of loan docket forms, and items such as names, addresses, and the amount of the loan are the same on all forms in which such items appear. Any loans that require State Office approval will be submitted to that office as soon as the docket is completed.

(b) *Verification for veterans' preference.* If the applicant has checked the veteran block, the County Supervisor, or other County Office employee will review the applicant's evidence of discharge or release to determine whether the applicant is entitled to veterans' preference.

(c) *Information on the availability of other credit.* The County Supervisor will record in the Running Case Record the pertinent information concerning the negotiations made by the applicant and the discussions by FHA personnel with the applicant's creditors and other lenders.

(1) Documentation of the investigation of other credit required by § 1821.11 (e) must be sufficiently clear and adequate to establish that other credit is not available.

(2) Any letters from lenders or other evidence which may have been obtained indicating that the applicant is unable to obtain satisfactory terms with present creditors or credit elsewhere will be included in the loan docket.

(d) *Distribution of docket forms.* The loan docket will include the forms and documents listed in instructions available in all FHA offices.

§ 1821.20 Loan approval.

(a) *Application of authority.* The State Director's authority to approve FO loans in accordance with Subpart B of Part 1810 of this chapter permits approval of initial or subsequent FO loans when the amount of the loan plus unpaid principal balance and any past-due interest on debts against the security for the loan will not exceed $100,000, or the normal value of the security. Debts against nonessential real estate an applicant owns or against real estate in which he has an undivided interest are not included in the $100,000 debt limitation unless the property will be security for the loan. The dollar amount of loan approval authority granted in a State Instruction by the State Director to a qualified State Office employee includes the amount of the FO loan plus any unpaid principal balance and any past-due interest on debts to remain against the security. Also, loans approved by such delegatee may not exceed the normal value of the security.

(1) An employee is not authorized to approve an FO loan made in connection with the property he has appraised.

(2) An Assistant County Supervisor may not approve a loan on property appraised by the County Supervisor in the same County Office unit.

(b) *Limitations.* The authority granted to District Supervisors, County Supervisors, and Assistant County Supervisors in accordance with Subpart B of Part 1810 of this chapter is limited to cases in which:

(1) The proposed loan plus the total unpaid principal balance and any past-due interest on debts against the security for the loan will not exceed the loan limitation specified for the respective supervisor.

(2) The debt against any property taken as security for the loan will not exceeds the appraiser's recommended normal value of the property.

(3) No significant changes have been made in the development plan considered by the appraiser when real estate will be taken as security.

(c) *Loan approval action*—(1) *Examination of loan.* The loan approval official is responsible for reviewing the docket to determine that the proposed loan complies with established policies and all pertinent regulations and insured or direct loan funds are available for the loan. When reviewing the docket the loan approval official will determine that the Committee certification has been properly completed and signed by at least two Committeemen, the applicant is eligible, funds are requested for authorized purposes only, the proposed loan is sound, the security is adequate, necessary supervision is planned, and all other pertinent requirements are met.

(2) *Approval or disapproval of a loan.* When a loan is approved, the loan approval official will:

(i) Indicate on all copies of Form FHA 440–3 any conditions not required by FHA requirements that must be met before the loan is closed and specify the special security requirements, such as conditions under which a prior lien may remain outstanding, the kind of additional security required, and so forth. If title evidence is required in accordance with Part 1807 of this chapter, or in accordance with any special requirements for the loan but is not included in the docket, the loan may be approved subject to the applicant's furnishing the required title evidence. When the applicant furnishes satisfactory title evidence, the County Supervisor will proceed with processing the loan, except that in those cases in which the title evidence does not comply with the conditions specified by the approval official, the docket will be reconsidered by the loan approval official.

(ii) Sign the approval certification on the original of Form FHA 440–3 and insert his title in the space provided.

(iii) Sign the original and one copy of Form FHA 440–1, "Payment of Authorization," for a direct loan, or an insured loan under a 2(f) agreement, or an insured loan from the ACIF.

(iv) If the loan is disapproved after the loan docket is developed, the loan approval official will explain on Form FHA 440–3 the reasons therefor and initial and date the original. The County Supervisor will notify the applicant, giving the reasons for the disapproval of the loan. If the notice was not in writing the County Supervisor will record in the running record a brief summary of the discussion with the applicant. He should also advise the County Committee of the action taken on the loan.

(d) *Distribution of docket forms and loan approval.* The applicable docket form will be distributed as outlined below by the loan approval official after a loan is approved.

(1) *To the Finance Office.* Form FHA 440–3 (original and copy). After Form FHA 440–3 is processed in the Finance Office a conformed copy will be returned to the County Office. Form FHA 443–12, "Farm Ownership and Individual Soil and Water Fund Analysis" (original). Form FHA 440–1 for a direct loan or an insured loan made from the ACIF or under a 2(f) agreement (original and copy when required). Form FHA 492–19, "Characteristics of Approval Applicants" (original) when required.

(2) *To the County Office.* One conformed copy of Form FHA 440–3 and the remainder of the loan docket. In the case of an insured loan to be made by a private lender or under a 2(f) agreement, the lender's name and complete mailing address will be inserted on Form FHA 440–3; also, copy of Form FHA 492–19 when required.

(3) *To the State Office.* If a loan is approved in the State Office, a copy of Form FHA 440–3 and a copy of Form FHA 443–12 will be retained. If the loan is approved in the County Office or by the District Supervisor a conformed copy of Form FHA 440–3 and a copy of Form FHA 443–12 will be sent to the State Office for retention; also, copy of Form FHA 492–14 when required.

(4) *To the borrower.* A signed copy of Form FHA 440–1 will be sent to borrower on the date of loan approval.

§ 1821.21 Requesting title service and accepting option.

When the loan is approved, the County Supervisor will see that title is requested in accordance with Part 1807 of this chapter, if this has not already been done, and where land is being acquired also see that Form FHA 440–35, "Acceptance of Option," is completed, signed, and mailed to the seller, however, in connection with acceptance of option on a subdivision, Form FHA 443–10, "Acceptance of Option by Assignee (Land to be Subdivided)," and Form FHA 443–11, "Acceptance of Option by Buyer (Land to be Subdivided)," will be used as appropriate. When the acceptance of option letter has been mailed to the seller, the borrower will arrange with the seller, in consultation with the County Supervisor to occupy and operate the farm as soon as practicable. Agreements will be in writing and cover such subjects as disposition of growing crops, rentals, payment of maintenance cost, and other pertinent points. The following forms will be used for this purpose, as appropriate:

Form FHA 443–5, "Short-Term Lease of Optioned Land."
Form FHA 443–6, "Short-Term Lease (Between Purchaser and Seller)."
Form FHA 443–7, "Temporary Cropping License."
Form FHA 443–8, "Agreement (Between Seller, Purchaser, and Tenant)."

§ 1821.22 Actions subsequent to loan approval.

(a) *Requesting check.* When the loan has been approved, approval conditions can be met, necessary curative actions have been taken to provide a satisfactory title to any real estate security, and a date has been set for loan closing, the County Supervisor or his delegate in writing will order the loan check. However, the check may be requested at the time of loan approval if real estate will not be taken as security or, if real estate is taken as security and satisfactory title evidence is obtained prior to loan approval.

(1) For a direct loan, or an insured loan from the ACIF if the check is to be ordered at the time of loan approval, the County Supervisor will check the block on the original in Form FHA 440–3 for issuance of the check and sign and date the portion of the form to request the check. If the check is not ordered at the time of loan approval, a copy of Form FHA 440–3 will be completed after loan approval to request the check in sufficient time to obtain the check prior to the loan closing date.

(2) For an insured loan by a private lender, the County Supervisor will request the check in accordance with Part 1812 of this chapter.

(b) *Handling loan checks.* (1) If the loan check is to be deposited in a supervised bank account, this will be done for either a direct or insured loan on the date of loan closing in accordance with Part 1803 of this chapter, after it has been determined that the loan can be closed, but in no case later than the first banking day following date of loan closing.

(2) When a private lender issues a loan check payable jointly to the borrower(s) and the Farmers Home Administration as a precaution against loss of funds, the County Supervisor is authorized to endorse the check on behalf of the Farmers Home Administration at the time of loan closing as follows:

Endorsed without recourse:
Farmers Home Administration
By _____
Title _____

The State Director also is authorized to endorse such a check in the same manner. Authority to endorse such checks in no way relates to or modifies the regulations contained in Part 1862 of this chapter regarding collection items or the endorsement of such items.

(3) If a loan check other than a check from a private lender is received and the loan cannot be closed within 21 days from the date of the check, the County Supervisor will return the check by memorandum to the Disbursing Center, U.S. Treasury Department, Post Office Box 2509, Kansas City, MO 64142.

(4) For an insured loan made by a private lender, if the loan cannot be closed on the date planned as indicated to the lender, and the loan is to be closed, the lender will be notified immediately of the reasons for the delay. If it is determined that an insured loan cannot be closed, the check will be returned immediately to the lender with a request for cancellation. In no case may a lender's check be retained more than 21 days from the date of the check. When a loan check is lost, mutilated, or destroyed, the County Supervisor will immediately notify the lender and, if the borrower still desires to close the loan, the lender will be requested to issue a new check. When a check is returned and the loan will be closed at a subsequent date, another check will be requested in the usual manner.

(c) *Cancellation of loan.* Loans may be canceled before loan closing as follows:

(1) The County Supervisor will notify the State Office and Finance Office of a loan cancellation by use of Form FHA 440–10, "Notification of Loan or Grant Cancellation."

V 37-74 APR 15 72 XUM

(i) For a direct loan or an insured loan from the ACIF or under a 2(f) agreement, if a check is received in the County Office, the County Supervisor will return it to the Disbursing Center, U.S. Treasury Department, Post Office Box 2509, Kansas City, MO 64142, with a copy of Form FHA 440–10.

(ii) For an insured loan by a private lender, any check advanced will be returned promptly to the lender with an explanatory letter.

(2) Interested parties will be notified of the cancellation as provided in Part 1807 of this chapter.

(d) *Increase or decrease in amount of loan.* If it becomes necessary that the amount of the loan be increased or decreased prior to loan closing, the County Supervisor will request that all distributed docket forms be returned to the County Office and reprocessed unless the change is minor and replacement forms can readily be completed and submitted. In the latter case, a memo to that effect will be attached to the revised forms for referral to the Finance Office. A new Committee certification will not be necessary unless the revised loan amount is higher than the original certification.

§ 1821.23 Loan closing actions.

When a loan closing date has been agreed upon, the County Supervisor will notify the borrower and seller, if any, of the loan closing date. The following appropriate actions will be taken in connection with and after loan closing.

(a) *Real estate mortage loans.* When a loan is to be secured by a real estate mortgage, it will be closed in accordance with the applicable provisions of Part 1807 of this chapter.

(b) *Loans involving chattel or other non-real estate security.* Form FHA 440–15 (State), "Security Agreement (Insured Loans to Individuals)," or appropriate chattel mortgage for Louisiana, will be used for insured loans. Form FHA 440–4, "Security Agreement," or appropriate chattel mortgage for Louisiana, will be used for direct loans. The instrument will be obtained and handled in accordance with the applicable parts of Subpart B of Part 1831 of this chapter. If for any reason Form FHA 440–15 or Form FHA 440–4 cannot be used as developed in any State other than Louisiana, the State Director will advise the National Office of the reasons it cannot be used and recommend any necessary changes to comply with State Law. If modifications of the forms are approved in the National Office, State forms will be used in lieu of Form FHA 440–15 or Form FHA 440–4.

(c) *Applicant's financial condition.* The County Supervisor will review with the applicant the financial statement which was prepared at the time the docket was developed. If there have been significant changes in his financial conditions, the financial statement will be revised and initialed by the borrower and the County Supervisor. When an applicant's financial condition has changed to the extent that it appears that the loan would be unsound or improper the loan will not be closed. If a revised loan docket can be developed and if the County Supervisor is not authorized to approve the loan, it will be submitted to the loan approval official for reconsideration.

(d) *Loan approval conditions.* If there are any loan approval conditions which the applicant must meet before the loan is closed, the County Supervisor will call these conditions to the applicant's attention at the time he notifies him of the loan closing date. If an applicant will not comply with the loan approval conditions, the loan cannot be closed.

(e) *Change in use of funds planned for refinancing.* (1) In cases where funds are included in the loan to refinance debts, the County Supervisor is authorized to transfer funds planned for refinancing between debts, provided all debts for which loan funds were planned are paid and the amount of loan funds to be used for refinancing does not exceed the amount planned for such purpose; except that the County Supervisor is authorized to use funds planned for other purposes to pay small deficiencies in estimates of the amount needed for refinancing, if he determines that sufficient funds will remain available to complete the planned farm development or land purchase.

(2) When the total amount of debts planned to be paid have increased so that they cannot be met within the authorities in the above paragraph or the applicant desires to transfer funds to pay debts for which loan funds were not planned, a revised loan docket will be developed and, if the County Supervisor is not authorized to approve the loan, it will be submitted to the loan approval official for reconsideration. If Form FHA 443–12 has been revised and the loan is approved, the loan approval official will send a copy of the revised form to the Finance Office. If the total amount of the loan will be increased, the docket will be processed in accordance with § 1821.22(d).

(f) *Assignment of income from real estate to be mortgaged.* Unless otherwise authorized by the State Director in an individual case, income to be received by the borrower from royalties, leases, or other existing agreements under which the value of the real estate security will be depreciated will be assigned and disposed of in accordance with Subpart A of Part 1872 of this chapter, including provisions for written consent of any prior lienholder. Authorization may be given by the State Director to refrain from taking an assignment of such income in cases in which the security is otherwise adequate, payment of the loan is reasonably assured from other sources, and the income has already been committed for other purposes or must be relied on by the applicant for essential living or operating expenses. When the County Supervisor deems it advisable, assignments also may be taken on all or a portion of income to be derived from nondepleting transactions such as income from bonus payments or annual delay rentals which will be assigned and disposed of in accordance with Subpart A of Part 1872 of this chapter.

(1) For assignment of income, Form FHA 443–16, "Assignment of Income from Real Estate Security," will be used, except that if the form is legally inadequate in a particular State it may be adapted with the approval of the OGC.

(2) The County Supervisor, upon the advice of the designated attorney, title insurance company, or OGC, as appropriate, may require acknowledgment and recordation of the assignment. Any cost incident thereto will be paid by the borrower.

(3) At the time Form FHA 443–16 is executed, appropriate notations will be made on Form FHA 405–1, "Management System Card—Individual," to insure that the proceeds, or the specified portion of the proceeds assigned to FHA from the transactions are remitted at the proper time.

(g) *Preparation and endorsement of note.* Form FHA 440–17, "Promissory Note (Direct Loan)," for direct loans or Form FHA 440–16, "Promissory Note (Insured Loan)," for insured loans will be prepared and completed at the time of loan closing. If insured RH funds are advanced simultaneously the RH loan will be evidenced by a separate insured note on the proper form as provided in Subpart A of Part 1822 of this chapter; however, both the insured FO note and the insured RH note will be described in the same mortgage. In addition, when an insured Soil and Water (SW) loan is being made at the time as an FO loan, both insured notes will be described in the same mortgage. Care will be taken to assure that the borrower's name, case number, address when living on the farm securing the loan, and all other entries are typed in correctly on the note.

(1) When determining the amount of the first installment, the County Supervisor will consider the borrower's financial circumstances and the extent to which he will receive income from the farm or other source during the calendar year in which the loan is closed. The amount of the first installment may be less but not more than a regular annual installment. If the borrower will not receive income from the farm or other source during the calendar year preceding the date of the first installment, a nominal first installment will be sufficient, unless the borrower desires to pay more, except that:

(i) For an insured loan by a private lender, the amount of the first installment may not be less than the amount equal to interest on the loan from the date of loan closing to February 1, of the next calendar year, unless the lender has agreed to a lesser amount.

(ii) For an insured loan made from the ACIF or under a 2(f) agreement, the amount of the first installment may not be less than the amount equal to interest on the loan from the date of loan closing to February 1, of the next calendar year.

(2) The regular amortized installment will be determined in accordance with instructions for the preparation of the note. The amount of such installment will be the amount of principal and interest which, if paid annually, will retire the full amount of the note plus interest within the amortization period of the loan.

(3) When a loan is closed between December 1 and January 1, the first installment will be collected at the time of loan closing unless deferment is approved. Also, funds included in the loan for payment of interest will be collected on the date of loan closing. The receipt should indicate "For deferred installment interest."

(4) The promissory note will be signed by the borrower and his or her spouse, if married, unless under the provisions of Part 1807 of this chapter the spouse's signature is unnecessary.

(5) For insured loans, other than those made from the ACIF, the promissory note will be assigned to the lender in accordance with Part 1812 of this chapter.

(6) Each County Supervisor and each State Director is authorized to sign the endorsement on the reverse of the note and to execute Form FHA 440–5, "Insurance Endorsement (insured loan)." The insurance endorsement constitutes the Government's contract of insurance of the loan.

(h) *Obtaining insurance.* Buildings on the property which are to be taken as security for the FO loan will be insured in accordance with Part 1806 of this chapter. When a loan is secured by chattels, and the loss of such chattels jeopardize the interests of the Government, the County Supervisor may require the borrower to insure the chattels against hazards customarily covered by insurance in the area.

(i) *Loan closing.* (1) Before closing the loan, the County Supervisor will determine that the corresponding entries on the note and mortgage are identical.

(2) Immediately after loan closing, for a direct loan, the original Form FHA 440–17 will be sent to the Finance Office.

(3) Immediately after loan closing, for an insured loan by a private lender, the original Forms FHA 440–5 and FHA 440–16 will be sent to the lender and conformed copies will be sent to the Finance Office; from the ACIF, the original and a conformed copy of Form FHA 440–16 will be sent to the Finance Office; and under a 2(f) agreement, the original Forms FHA 440–5 and FHA 440–16 will be sent to the State Director and conformed copies will be sent to the Finance Office.

(4) In case of an insured loan by a private lender, if for any reason it is not possible for the same County Supervisor who signed Form FHA 440–7, "Request for Check," to endorse the note and sign the insurance endorsement, the original of the completed note and insurance endorsement will be sent to the State Office instead of directly to the lender. In such case, the State Director, or other authorized State Office official, will attest on Form FHA 440–5 the signature of the different County Supervisor before sending the note and insurance endorsement to the lender. This will not be necessary when a local lender has no objection to a different signature on the endorsement of the note and on the insurance endorsement than that which appeared on Form FHA 440–7.

(5) When the mortgage is returned by the recording official, the original mortgage will be retained in the borrower's case folder unless the original is retained by the recording official for the County Office records. If the original is retained by the recording official, a conformed copy including the recording date showing the date and place of recordation and the book and page number will be prepared and filed in the borrower's case folder. A conformed copy of the mortgage will be sent to a prior lienholder if a substantial interest is held by that lienholder, or it is a working agreement provision with that lender.

(6) The original deed of conveyance, if any, and a copy of the mortgage will be delivered to the borrower.

(7) If the borrower secures an owner's policy of title insurance and it is sent to the County Office it will be delivered to the borrower as soon as it is received from the title insurance company.

(j) *Effective time of loan closing.* An FO loan is considered closed when the mortgage is filed for record.

(k) *Water stock certificates or similar collateral.* When water stock certificates or similar collateral is a part of the security, it will be retained in the County Office. A notation will be made on Form FHA 405–1 showing that such security has been retained.

(l) *Abstracts of title.* Any abstract of title will be delivered to the borrower for safekeeping, except when an abstract is obtained from a third party with the understanding it will be returned, such abstract will be sent directly to the third party. When the abstract is delivered to the borrower, Form FHA 140–4, "Transmittal of Documents," will be prepared and a receipt obtained. When the abstract is delivered to a third party, a memorandum receipt will be obtained.

§ 1821.24 Subsequent FO loans.

A subsequent FO loan is a loan made to a borrower who currently owes an FO debt.

(a) A subsequent loan may be made for the same purposes and under the same conditions as an initial loan.

(b) The subsequent loan will be processed in the same manner as an initial loan, except that a new appraisal of real estate will be required only when real estate is taken as security and one or more of the following exists:

(1) Subsequent loan funds will be used to purchase land or the mortgage will include additional land that is not presently covered by the FHA real estate mortgage.

(2) The County Supervisor or loan approval official requests a new appraisal report.

(3) The latest appraisal report on the farm is over 2 years old.

(4) The physical characteristics of the farm have changed significantly.

(5) The property was not appraised in connection with the initial loan.

§ 1821.25 Reamortization of existing FHA debt(s).

In connection with making or insuring an FO loan to a borrower currently indebted for an FO, RH, or SW loan, such existing loans may be reamortized with the prior approval of the District Supervisor. In any such case, the reamortization of each existing loan may be made only within the remaining period of that loan. Authority to reamortize an account will be granted in those cases in which the District Supervisor determines that the borrower cannot reasonably be expected to meet installments due unless the account is reamortized. When a loan is reamortized, it will be processed in accordance with Subpart A of Part 1861 of this chapter.

§ 1821.26 Nondiscrimination poster.

Recipients of FO loans to improve or install recreational facilities which are subject to Title VI of the Civil Rights Act of 1964 must display the nondiscrimination poster, "And Justice for All."

Dated: April 11, 1972.

JOSEPH HASPRAY,
Deputy Administrator,
Farmers Home Administration.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER A—ANIMAL WELFARE

SUBCHAPTER B—COOPERATIVE CONTROL AND ERADICATION OF LIVESTOCK OR POULTRY DISEASES

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS; ORGANISMS AND VECTORS

SUBCHAPTER G—ANIMAL BREEDS

SUBCHAPTER H—VOLUNTARY INSPECTION AND CERTIFICATION SERVICE

SUBCHAPTER I—ACCREDITATION OF VETERINARIANS AND SUSPENSION OR REVOCATION OF SUCH ACCREDITATION

SUBCHAPTER J—PUBLIC INFORMATION

MISCELLANEOUS AMENDMENTS TO CHAPTER

Under authority delegated at 37 F.R. 6327 and 37 F.R. 6506, the provisions in Subchapters A, B, C, D, E, G, H, I, and J of Chapter I, Title 9, Code of Federal Regulations are hereby amended, as follows, pursuant to the statutory authorities under which such provisions were issued:

1. The heading of 9 CFR Chapter I is amended to read as set forth above.

2. Wherever in the provisions in Subchapter A, B, C, D, E, G, H, I, and J reference is made to the Animal and Plant Health Service, such provisions are changed to refer to the Animal and Plant Health Inspection Service.

V 37-74 APR 15 72 XUM

Effective date. The foregoing amendments shall become effective upon publication in the FEDERAL REGISTER (4–15–72).

The amendments reflect the transfer of functions of the Animal and Plant Health Service to the newly established Animal and Plant Health Inspection Service. The amendments do not substantially affect the rights or obligations of any member of the public. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Career Search International, Inc., et al., New York, N.Y., Docket No. 8868, Mar. 9, 1972]

In the Matter of Career Search International, Inc., a New York Corporation; Career Search International, Inc., a Massachusetts Corporation; Career Search International, Inc., a Pennsylvania Corporation; Career Search International, Inc., a District of Columbia Corporation; Career Search International, Inc., a California Corporation; The Executive Center, Inc., a New York Corporation; The Executive Center, Inc., a Massachusetts Corporation; Arthur M. Shain, Individually and as Chairman of the Board of Directors and Principal Stockholder of Said Career Search International, Inc., Corporatoins and as an Officer, Chairman of the Board of Directors and Sole Stockholder of The Executive Center, Inc., a New York Corporation and The Executive Center, Inc., a Massachusetts Corporation

Order requiring an individual with headquarters in New York City who operates seven corporations in New York, Massachusetts, Pennsylvania, the District of Columbia, and California which prepare and distribute personal résumés for job seekers and furnish other career guidance and counseling service to cease misrepresenting the corporate respondents as the largest in the world, guaranteeing that clients will be placed in better jobs, misrepresenting that their staff counselors previously occupied key positions in industry, misrepresenting that they maintain offices in all major cities in the United States as well as in foreign cities, that respondents provide career guidance and counseling services, failing to make refunds of deposits after receipt of clients' notice of withdrawal, and failing to disclose that a portion of the fee paid by clients for vocational-psychological tests is rebatec to respondents; respondents are also ordered to cease using the word "Harvard" or any other term implying connection with an educational institution.

The order to cease and desist is as follows:

It is ordered, That respondents, Career Search International, Inc., a New York corporation; Career Search International, Inc., a Massachusetts corporation; Career Search International, Inc., a Pennsylvania corporation; Career Search International, Inc., a District of Columbia corporation; Career Search International, Inc., a California corporation; The Executive Center, Inc., a New York corporation; The Executive Center, Inc., a Massachusetts corporation, their successors and assigns, and their officers, and Arthur M. Shain, individually and as Chairman of the Board and principal stockholder of said Career Search International, Inc., corporations and as an officer, Chairman of the Board of Directors and sole stockholder of the Executive Center, Inc., and respondents' agents, representatives, employees, successors, and assigns, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale of job or career counseling services, job or employment placement services, applicant for employment services, or any article, material, or device in connection therewith, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do, forthwith cease and desist from, directly or b. implication:

1. Representing that corporate respondents are the largest executive placement service in the world or misrepresenting in any manner the size of the corporate respondents.

2. Representing that respondents guarantee that their clients will be placed in better jobs as a result of respondents' services.

3. Representing that respondents' staff counselors have previously occupied key executive positions in a specific business or industry prior to their affiliation with respondents or misrepresenting in any manner the professional qualifications, experience, or reputation of members of respondents' staff.

4. Representing to prospective clients that there is no financial risk involved on the part of its clients.

5. Representing that the services rendered by respondents are not those of an employment agency.

6. Representing that respondents maintain offices in all major cities in the United States unless such offices as represented are maintained.

7. Representing that respondents maintain offices in the foreign cities of Paris, France, and Madrid, Spain, or in any other foreign or domestic city unless such offices as represented are maintained.

8. Misrepresenting, in any manner, the number of persons who contract with and utilize the services of respondents on a weekly basis or any other time period basis.

9. Representing that respondents' clients receive career counseling and guidance by staff experts who had previously held responsible executive positions in various professional fields.

10. Representing that respondents provide career counseling and guidance services and assist in developing a program designed to aid the client in achieving career goals.

11. Representing that respondents have job openings available which require the specific qualifications possessed by prospective clients.

12. Representing that respondents refuse to accept prospective clients unless they possess qualifications which ensure prompt placement by respondents.

13. Failing or refusing to refund in full the deposits posted by clients in accordance with the provisions in respondents' contract or the oral representations made by respondents' staff members or employees within the specified period represented after receipt of clients' notice of withdrawal from respondents' program.

14. Failing or refusing to disclose to prospective clients that they are required to pay for expenses incurred and miscellaneous services rendered to the client upon the withdrawal of the clients from respondents' program.

15. Failing or refusing to disclose to clients that a portion of the fee paid by the clients to the testing organization designated by the respondents for vocational-psychological tests and evaluation is rebated or credited to respondents.

It is further ordered, That respondents Career Search International, Inc., a New York corporation; Career Search International, Inc., a Massachusetts corporation; Career Search International, Inc., a Pennsylvania corporation; Career Search International, Inc., a District of Columbia corporation; Career Search International, Inc., a California corporation; The Executive Center, Inc., a New York corporation; The Executive Center, Inc., a Massachusetts corporation, their successors and assigns, and their officers, and Arthur M. Shain, individually and as Chairman of the Board of Directors, and principal stockholder of said Career Search International, Inc., corporations and as officer, Chairman of the Board of Directors, and sole stockholder of The Executive Center, Inc. corporations; and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale or sale of job or career counseling services, job or employment placement services, applicant for employment placement services or any article, material, or device in connection therewith, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from using the word "Harvard" or any other name or any other identification which implies an affiliation or connection with Harvard College or any other educational institution in respondents' corporate or trade names, advertising materials, stationery, directory listings, and otherwise using such terms in the course and conduct of their business.

It is further ordered, That respondents deliver a copy of this order to cease and desist to each of its branch offices, and to all present and future officers and staff members or other persons engaged in the offering for sale and sale of respondents' services or any articles, materials or devices in connection therewith; and to secure from each such person a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in any corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By "Final Order" further order requiring report of compliance is as follows:

It is further ordered, That the corporate respondents herein, their officers, and Arthur M. Shain, individually and as officer, director, and principal stockholder of said corporations, shall, within sixty (60) days after service of this order upon them, file with the Commission a report in writing, signed by such respondents, setting forth in detail the manner and form of their compliance with the order to cease and desist.

Issued: March 9, 1972.

By the Commission.

[Docket No. C-2175]

PART 13—PROHIBITED TRADE PRACTICES

Imperial Chemical Industries, Ltd., and ICI America, Inc.

Subpart—Acquiring corporate stock or assets: § 13.5 *Acquiring corporate stock or assets.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 18) [Cease and desist order, Imperial Chemical Industries, Ltd. et al., London, England, Docket No. C-2175 March 22, 1972]

In the Matter of Imperial Chemical Industries, Ltd., a Corporation, and ICI America, Inc., a Corporation

Consent order requiring a British corporation, one of the world's largest chemical companies, to divest itself within 3 years of the explosives and aerospace divisions of a Wilmington, Del., corporation, and not to acquire for a period of 10 years any interest in an American explosive business without the approval of the Federal Trade Commission.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondents Imperial Chemical Industries, Ltd. and ICI-America, Inc. (hereinafter referred to collectively as "ICI"), their successors and assigns, shall as soon as possible divest themselves of the business conducted by the Explosives and Aerospace Components Divisions of Atlas Chemical Industries, Inc. (Atlas), as hereinafter defined: *Provided, however,* That, with the approval of the Federal Trade Commission, the business conducted by the Aerospace Components Division of Atlas need not be divested. Such divestiture shall be accomplished no later than three (3) years from the service of this order and shall be subject to the prior approval of the Federal Trade Commission.

II. *It is further ordered,* That as used in the order "the business conducted by the Explosives and Aerospace Components Division of Atlas" means a viable and going business engaged in the research, manufacture, distribution and sale of commercial explosives and related products and, unless excluded pursuant to paragraph I of this order, of the products sold by the Aerospace Components Division, in the product lines in which said Divisions were engaged at the time of Atlas' acquisition by ICI. Said business (hereinafter also referred to as "the business to be divested") includes all plant, equipment, real estate, inventory, customer accounts, lists and receivables, distributor agreements, leases, products, trademarks, technical and scientific know-how, patents, good will, all other assets, all liabilities and obligations (including obligations to the employees of the business at the time of divestiture) and all additions, improvements, replacements and withdrawals of real and personal property made in conformity with the provisions of paragraph IV of this order until the date of divestiture, which are devoted to or arise in connection with the research, manufacture, distribution and sale of commercial explosives and of the products sold by the Aerospace Components Division of Atlas. In connection with the divestiture provided under Paragraph I of this order, ICI may, subject to the approval of the Federal Trade Commission, lease to the acquirer real estate underlying explosives magazines or distribution facilities, provided that upon termination of any lease ICI will not utilize said real estate in the conduct of any explosives business.

III. *It is further ordered,* That unless the divestiture required by this order has been accomplished within two (2) years of service of this order then as part of its compliance with Paragraph I of this order, ICI shall within said two (2) years cause to be incorporated a new company, hereinafter referred to as Atlas Powder Co., and shall transfer to that company the business to be divested, as defined in paragraph II of this order, and ICI shall divest itself of all interests in Atlas Powder Co. pursuant to paragraph I of this order.

IV. *It is further ordered,* That pending the divestiture required by this order,

(a) ICI shall cause the business to be divested and Atlas Powder Co. as the case may be to be operated in accordance with sound business practices and maintained at not less than the standards of operational performance in effect on the date of acquisition and in such manner as not to impair or adversely affect its economic, competitive, or financial condition. ICI shall not be required unreasonably to replace assets which are destroyed or seriously damaged or rendered unusable, either accidentally or by acts of God.

(b) ICI shall do everything within its power to assure that the business to be divested and Atlas Powder Co. as the case may be will remain properly staffed and that all reasonable means will be used to assist said business in retaining, rehiring, or replacing key management and sales personnel needed for its operation. Subject to the approval of the Federal Trade Commission the acquirer of the divested business shall be required to extend to the employees of said business terms and conditions of employment and fringe benefits which are in the aggregate as favorable to such employees as those applicable at the time of divestiture.

(c) ICI shall not commingle its other assets, products or research with those of the business to be divested but pending divestiture ICI shall continue to provide to said business and to Atlas Powder Co. as the case may be the use of assets and personnel involved in the services such as were furnished on a corporate basis by Atlas to the Explosives and Aerospace

V 37-74 APR 15 72 XUM

Components Divisions at the time of acquisition.

V. *It is further ordered,* That ICI shall not for a period of three (3) years after the divestiture required by this order solicit the employment of, or without the prior written consent of the acquirer offer employment to or employ, any key personnel directly concerned with the divested business at the time of divestiture.

VI. *It is further ordered,* That no interest in the business to be divested or Atlas Powder Co., as the case may be, shall be sold or transferred, directly or indirectly, to any person who is, at the time of the divestiture, an officer, director, employee, or agent of, or under the direct or indirect control or direction of, ICI, any of ICI's subsidiary or affiliated companies, anyone who owns or controls, directly or indirectly, more than 1 percent of the outstanding shares of ICI or any of ICI's subsidiary or affiliated companies, or to anyone not approved in advance by the Federal Trade Commission.

VII. *It is further ordered,* That for a period commencing with the effective date of this order and continuing for ten (10) years thereafter, ICI, its successors and assigns, shall cease and desist from acquiring, directly or indirectly, without the prior approval of the Federal Trade Commission, the whole or any part of the stock, share capital, assets, any interest in, or any interest of, any domestic concern, corporate or non-corporate, engaged in the sale of commercial explosives, to the extent that such acquisition involves the domestic manufacture or sale of commercial explosives, nor shall ICI enter into any arrangement with any such concern by which ICI obtains the market share, in whole or in part, of such concern in the domestic sale of commercial explosives. ICI may acquire the stock or assets of any existing distributor of the Explosives Division where such acquisition is necessary to carry out its obligations under Paragraph IV(a) of this order.

VIII. *It is further ordered,* That within forty-five (45) days from the date of service of this order and every six (6) months from such date until divestiture is accomplished, ICI shall submit, in writing, to the Federal Trade Commission, a report setting forth in detail the manner and form in which ICI intends to comply, is complying or has complied with this order. All compliance reports shall include, among other things that are from time to time required, (a) the steps taken to accomplish the required divestiture and (b) copies of all documents, including reports, memoranda, and correspondence referring or relating to the divestiture. One year following the effective date of this order and each year thereafter during which paragraph VII is in effect, ICI shall notify the Commission in writing whether any acquisition of the type referred to in paragraph VII has been made by it, and shall furnish such information with respect thereto as may be requested by the Federal Trade Commission.

IX. *It is further ordered,* That ICI shall notify the Commission at least thirty (30) days prior thereto, of any proposed change in the corporate status of ICI which may affect compliance with obligations arising out of this order, such as dissolution, assignment, sale, the emergence of a successor corporation or the creation or dissolution of subsidiaries.

In witness whereof, the Federal Trade Commission has caused this, its order, to be signed by its Secretary and its official seal to be hereto affixed, at Washington, D.C. this 22d day of March A.D. 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket No. C-2176]

PART 13—PROHIBITED TRADE PRACTICES

J. S. Hosiery Co. Inc., and Blima Shajnfeld

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, J. S. Hosiery Co. Inc., et al., New York, N.Y., Docket No. C-2176, March 22, 1972]

In the Matter of J. S. Hosiery Co. Inc., a Corporation, and Blima Shajnfeld, Individually and as an Officer of Said Corporation

Consent order requiring a New York City seller and distributor of textile fiber products, including ladies' scarves, to cease violating the Flammable Fabrics Act by importing and selling any fabric which fails to conform to the standards of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents J. S. Hosiery Co. Inc., a corporation, its successors and assigns, and its officers, and Blima Shajnfeld, individually and as an officer of said corporation, respondents' representatives, agents, and employees, directly or through any corporate or other device, do forthwith cease and desist from selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling or offering for sale, any product made of fabric or related material which has been shipped or received in commerce as "commerce", "product", "fabric" and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to an applicable standard or regulation issued, amended or continued in effect, under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the scarves which gave rise to the complaint, of the flammable nature of said scarves and effect the recall of said scarves from such customers.

It is further ordered, That the respondents herein either process the scarves which gave rise to the complaint so as to bring it into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said scarves.

It is further ordered, That the respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission an interim special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the scarves which gave rise to the complaint, (2) the number of said scarves in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said scarves and effect the recall of said scarves from customers, and of the results thereof, (4) any disposition of said scarves since March 10, 1971, and (5) any action taken or proposed to be taken to bring said scarves into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said scarves, and the results of such action. Such report shall further inform the Commission as to whether or not respondents have in inventory any product, fabric or related material having a plain surface and made of paper, silk, rayon and acetate, nylon and acetate, rayon, cotton or any other material or combinations thereof in a weight of 2 ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Respondents shall submit samples of not less than 1 square yard in size of any such product, fabric, or related material with this report.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

Issued: March 22, 1972.

By the Commission.

[Docket No. C-2174]

PART 13—PROHIBITED TRADE PRACTICES

Scheflin-Reich, Inc., et al.

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* 13.1108-45 Fur Products Labeling Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-35 Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Scheflin-Reich, Inc. et al., New York, N.Y., Docket No. C-2174]

In the Matter of Scheflin-Reich, Inc., a Corporation, and Joseph Reich and Murray Scheflin, Individually and as Officers of Said Corporation

Consent order requiring a New York City firm buying and selling furs to cease falsely and deceptively invoicing its fur products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Scheflin-Reich, Inc., a corporation, and its officers, and Joseph Reich and Murray Scheflin, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the manufacture for introduction into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce; or in connection with the introduction into commerce, or the sale, advertising or offering for sale in commerce, or the transportation or distribution in commerce, of any fur, as the terms "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from falsely and deceptively invoicing such fur or fur product by:

1. Failing to furnish an invoice, as the term "invoice" is defined in the Fur Products Labeling Act, showing in words and figures plainly legible all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

2. Failing to set forth the term "natural" as part of the information required to be disclosed on any invoice under the Fur Products Labeling Act and the rules and regulations promulgated thereunder to describe any fur or fur product which is not pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

It is further ordered, That respondents Scheflin-Reich, Inc., a corporation, and its officers, and Joseph Reich and Murray Scheflin, individually and as officers of said corporation, shall forthwith distribute a copy of this order to each of its salesmen and to each of the five customers who received furs which gave rise to this matter.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form of their compliance with this order.

Issued: March 22, 1972.

By the Commission.

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Chloramphenicol Capsules

The Commissioner of Food and Drugs has evaluated new animal drug applications (55-014V) filed by Parke-Davis & Co., Joseph Campau Avenue at the River, Detroit, Mich. 48232 and (65-241V) filed by Rachelle Laboratories, Inc., Long Beach, Calif. 90801 providing for the safe and effective use of chloramphenicol capsules for the treatment of dogs. The applications are approved.

To facilitate referencing, Rachelle Laboratories is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135c are amended as follows:

1. Section 135.501 is amended in paragraph (c) by adding a new code number 071 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c) * * *

Code No.	Firm name and address
* * *	* * *
071	Rachelle Laboratories, Inc., 700 Henry Ford Avenue, Post Office Box 2029, Long Beach, CA 90801.

2. Part 135c is amended by adding the following new section:

§ 135c.63 Chloramphenicol capsules, veterinary.

(a) *Specifications.* Chloramphenicol capsules, veterinary contain 50, 100, 250, and 500 milligrams of chloramphenicol and conform to the certification requirements of § 146d.302 of this chapter.

(b) *Sponsor.* See code Nos. 049 and 071 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is administered to dogs for oral treatment of bacterial pulmonary infections, bacterial infections of the urinary tract, bacterial enteritis, and bacterial infections associated with canine distemper caused by susceptible organisms.

(2) The drug is administered at 25 milligrams per pound of body weight every 6 hours.

(3) Laboratory tests should be conducted including in-vitro culturing and susceptibility tests on samples collected prior to treatment.

(4) This product must not be used in meat, egg, or milk producing animals. The length of time that residues persist in milk or tissues has not been determined.

(5) For use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4-15-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: April 4, 1972.

C. D. VAN HOUWELING, *Director, Bureau of Veterinary Medicine.*

[FR Doc.72-5748 Filed 4-14-72;8:50 am]

PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Alternative Assay Methods, Including Automated Procedures

No adverse comments were received in response to the notice published in the FEDERAL REGISTER of January 25, 1972 (37 F.R. 1116), proposing that Part 141 be revised to provide for the use of suitable alternative assay methods, including automated procedures, employing the same basic microbiology or chemistry as the official methods described in the certification monographs and providing results of equivalent accuracy.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 141 is amended as follows:

V 37-74 APR 15 72 XUM

1. By amending the table of contents to establish a new Subpart A consisting at this time of existing § 141.1 and a new § 141.1a as follows:

Subpart A—Definitions and Interpretations Applicable to Part 141

Sec.
141.1 Sterility tests.
141.1a Alternative assay methods.

2. By revising § 141.1 in the heading and in the paragraph headings of paragraphs (a), (b), (c), and (d) to read as follows:

§ 141.1 Sterility tests.

(a) *"Filling operation" and "sample" defined.* • • •

(b) *Packaging requirements for samples.* • • •

(c) *Diluents packaged in combination with sterile antibiotic drugs.* • • •

(d) *Droppers packaged in combination with sterile antibiotic drugs.* • • •

3. By adding a new section as follows:

§ 141.1a Alternative assay methods.

Alternative assay methods (including automated procedures) employing the same basic chemistry or microbiology as the official methods described in this part and in the individual monographs of this chapter may be used, provided the results obtained are of equivalent accuracy. However, only the results obtained from the official methods designated in the individual monographs are conclusive.

4. By redesignating existing Subpart A as Subpart B, consisting of § 141.2 et seq., by changing the heading to read as follows: "Subpart B—Biological Test Methods."

5. By redesignating Subpart B as Subpart C, consisting of § 141.101 et seq., by changing the heading to read as follows: "Subpart C—Microbiological Assay Methods."

6. By redesignating Subpart C as Subpart D, consisting of § 141.501 et seq., by changing the heading to read as follows: "Subpart D—Chemical Tests for Antibiotics."

Effective date. This order shall become effective 30 days after its date of publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: April 12, 1972.

H. E. SIMMONS,
Director, Bureau of Drugs.

Title 32—NATIONAL DEFENSE

Chapter XVI—Selective Service System

PART 1611—DUTY AND RESPONSIBILITY TO REGISTER

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

Classification and Registration Requirements

Whereas, on March 10, 1972, the Director of Selective Service published a notice of proposed amendments to Selective Service Regulations, 37 F.R. 5134 of March 10, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sec. 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

Now, therefore, by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sec. 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on April 15, 1972, as follows:

Paragraph (a) of section 1611.1 is amended to read as follows:

§ 1611.1 Persons required to be registered.

(a) Except as otherwise provided by the regulations in this part, it shall be the duty of every male citizen of the United States, and every other male person, except an alien male person who is in a medical, dental, or allied specialist category, residing in or who hereafter enters the United States, who shall have attained the 18th anniversary of the day of his birth and who shall not have attained the 26th anniversary of the day of his birth on the day or any of the days fixed for registration by Presidential proclamation to present himself for and submit to registration under the provisions of section 3 of the Military Selective Service Act at such time or times and place or places, and in such manner as is required by proclamation of the President and the regulations of this part.

• • • • • •

The heading and paragraphs (a) and (c) of § 1622.42 are amended to read:

§ 1622.42 Class 4—C: Aliens.

(a) In Class 4–C shall be placed any registrant who is an alien and who has not resided in the United States for 1 year. When such a registrant has been within the United States for two or more periods (including periods before his registration) and the total of such periods equals 1 year, he shall be deemed to have resided in the United States for 1 year. In computing the length of such periods, any portion of 1 day shall be counted as 1 full day. When any such registrant has resided in the United States for 1 year, he shall be classified as available for military service unless he is found to be eligible for another classification for a reason other than his alien status.

• • • • • •

(c) In Class 4–C shall be placed any registrant who is an alien and who has departed from the United States. If any registrant so classified under this paragraph returns to the United States, his classification shall be reopened and he shall be classified anew.

• • • • • •

CURTIS W. TARR,
Director.

APRIL 12, 1972.

[FR Doc.72-5786 Filed 4-14-72;8:50 am]

PART 1660—ALTERNATE SERVICE

Administration and Selection of Nonvolunteers

Whereas, on March 10, 1972, the Director of Selective Service published a notice of proposed amendments of Selective Service Regulations 37 F.R. 5135 of March 10, 1972; and

Whereas more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered.

Now therefore by virtue of the authority vested in me by section 6(j) of the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.), the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on April 15, 1972, as follows:

Paragraphs (c) and (d) of § 1660.4 are amended to read as follows:

§ 1660.4 Selection of nonvolunteer for alternate service.

• • • • •

(c) When the RSN of a registrant classified in Class 1–O is within the range of RSNs which are currently being reached for induction, the local board will send him Selection for Alternate Service (SSS Form 155), and retain a copy in the Registrant File Folder (SSS Form 101). Conscientious Objectors Skills Questionnaire (SSS Form 152) and three copies of Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) will also be sent to the registrant at this time.

(d) Mailing of the Selection for Alternate Service; Rights and Obligations of Conscientious Objectors in the Alternate Service Assignment Process (SSS Form 155) by the local board is the effective beginning of processing for alternate service in lieu of induction for the affected registrant. If the registrant has not been ordered to an alternate service job with a reporting date within 270 days after he has exhausted his 60-day job search, he will be placed in a lower priority selection group. Delays in processing due to litigation instituted by the registrant, litigation pending against the registrant, or a postponement of processing for alternate service granted the registrant under § 1660.7 will not count toward the 270-day time period.

Paragraph (e) of § 1660.9 is amended to read as follows:

§ 1660.9 Administration of alternate service.

• • • • •

(e) The Director of Selective Service or the State Director of Selective Service will issue travel orders, tickets or transportation requests and meal and lodging requests to the registrant, upon his request, for his travel (1) from the office of his local board or local board nearest the place of his residence at the time he is selected for alternate service to the place of performance of the alternate service to which he is ordered within the United States, (2) for his return travel from such place to the office of the local board from which he traveled to the place of performing alternate service upon his satisfactorily completing his period of work or his travel to any other place upon his satisfactorily completing his period of alternate service whenever the cost of such transportation would not exceed the cost of travel to the local board from which he traveled, and (3) for his travel from one place of employment to another when his employment is transferred under the provisions of paragraph (c) or (d) of this section.

CURTIS W. TARR,
Director.

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Sinepuxent Bay, Md.

Correction

In F.R. Doc. 72-5211 appearing at page 6847 in the issue of Wednesday, April 5, 1972, the phrase "From May through September 15" in the first line of § 117.245(f)(16)(ii) should read "From May 25 through September 15".

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

Glacier National Park, Mont.; Fishing

A proposal was published at page 3438 of the FEDERAL REGISTER of February 16, 1972, to amend paragraphs (a), (b), and (c) of § 7.3 of Title 36 of the Code of Federal Regulations. The effect of the amendment is to prohibit the snagging of fish and to have park regulations apply to Lower McDonald Creek from the Quarter Circle Bridge to its confluence with the middle fork of the Flathead River.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. Consideration having been given to all relevant matters presented, it has been determined that the amendments should be and are hereby adopted without change and set forth below. These amendments shall take effect 30 days following the date of publication in the FEDERAL REGISTER.

(5 U.S.C. 553; 39 Stat. 535; 16 U.S.C. 3)

Paragraphs (a)(3), (b)(2)(i), and (c)(3) of § 7.3 are amended, as follows:

§ 7.3 Glacier National Park.

(a) *Fishing; open season.* • • •

(3) The north fork of the Flathead River, except for its tributaries, shall be open to fishing in conformance with the seasons and regulations established by the State of Montana for this river.

• • • • • •

(b) *Fishing; daily limit of catch and possession limit.* • • •

(2) • • •

(i) The daily limit of catch and possession in the north fork of the Flathead River, except for its tributaries, shall be in conformance with the regulations established for the State of Montana for this river.

• • • • • •

(c) *Fishing; restrictions on use of bait and lures.* • • •

(3) The snagging of fish by any method is prohibited.

• • • • • •

J. LEONARD VOLZ,
Director, Midwest Region.

[FR Doc.72-5716 Filed 4-14-72;8:45 am]

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

Glacier National Park, Mont.; Use of Motorboats and Hitchhiking

A proposal was published at page 3438 of the FEDERAL REGISTER of February 16, 1972, to amend § 7.3 of Title 36 of the Code of Federal Regulations by adding paragraphs (f) and (g). The effect of this amendment is to retain the serene atmosphere on designated lakes by limiting horsepower used on motorboats and motor vessels, eliminating motorboats and motor vessels on Swiftcurrent Lake; and allowing hitchhiking, except in designated areas.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. Consideration having been given to all relevant matters presented, it has been determined that the amendments should be and are hereby adopted without change and set forth below. These amendments shall take effect 30 days following the date of publication in the FEDERAL REGISTER.

(5 U.S.C. 553; 39 Stat. 535; 16 U.S.C. 3)

Paragraphs (f) and (g) of § 7.3 are added to read as follows:

§ 7.3 Glacier National Park.

• • • • • •

(f) *Motorboats.* (1) Motorboats and motor vessels are limited to ten (10) horsepower or less on Kintla, Bowman, and Two Medicine Lakes. This restriction does not apply to sightseeing vessels operated by an authorized concessioner on Two Medicine Lake.

(2) All motorboats and motor vessels except the authorized, concessioner-operated, sightseeing vessels, are prohibited on Swiftcurrent Lake.

(g) *Hitchhiking.* Hitchhiking or the solicitation of transportation is permitted off the roadway on the shoulder, except in those areas where the Superintendent prohibits such activities by the posting of appropriate signs.

J. LEONARD VOLZ,
Director, Midwest Region.

Chapter II—Forest Service, Department of Agriculture

PART 221—TIMBER

Resale From Uncompleted Contracts

On October 7, 1971, notice of proposed rule making regarding an amendment to Part 221 of Title 36, Code of Federal Regulations, by adding § 221.8a, was published in the FEDERAL REGISTER (36 F.R. 195). Interested persons were given the opportunity to participate in the rule making through submission of comments. After consideration of all such relevant matter as was presented by interested persons, the amendment was revised to reflect those suggestions deemed appropriate. The amendment is hereby adopted, reading as follows:

§ 221.8a Resale of timber from uncompleted contracts.

(a) Except as otherwise provided in this section, no bid will be considered in the resale of timber remaining from any uncompleted timber sale contract from any person, or from an affiliate of such person, who failed to complete the original contract (1) because of termination for purchaser's breach or (2) through failure to cut designated timber on portions of the sale area by the termination date.

(b) The no bid restriction in paragraph (a) of this section (1) shall only apply when 50 percent or more of the timber included in the resale is timber remaining from the uncompleted contract and the resale is advertised within 3 years of the date the uncompleted contract terminated; (2) when imposed because of failure to cut designated timber on portions of the sale area by the termination date, shall not apply to resales of timber for which the original contract was awarded prior to April 30, 1972, unless the contract is extended thereafter; and (3) shall not apply to (i) resales of timber within a sustained yield unit unless competition may be invited under the policy statement for the unit, (ii) resales of timber on contract which would ordinarily have been awarded prior to April 30, 1972, if award was delayed through no fault of the purchaser, and (iii) resales of timber on contracts not extended because of environmental considerations.

(c) Where a third-party agreement has been approved in accordance with § 221.16(b), the original purchaser shall not be affected by this section unless such purchaser is an affiliate of the third party.

(d) As used in this section, "person" includes any individual, corporation, company, association, firm, partnership, society, joint stock company, or other business entity or the successor in interest of any of the foregoing business entities. A person is an "affiliate" when either directly or indirectly (1) a person controls or has the power to control the other, or (2) a third person or persons controls or has the power to control both.

(30 Stat. 34, 35, as amended; 16 U.S.C. 551, 478)

Effective date. This amendment shall become effective upon publication in the FEDERAL REGISTER (4–15–72).

T. K. COWDEN,
Assistant Secretary of Agriculture.

APRIL 12, 1972.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 15—Environmental Protection Agency

PART 15–3—PROCUREMENT BY NEGOTIATION

Subpart 15–3.8—Price Negotiation Policies and Techniques

SELECTION OF OFFERORS FOR NEGOTIATION AND AWARD

Section 15–3.805–1, *General,* is hereby added to Chapter 15, Title 41, of the Code of Federal Regulations. Interested parties and Government agencies are invited to submit written comments to the Director, Contracts Management Division, Environmental Protection Agency, Washington, D.C. 20460. All relevant comments will be considered and subsequent changes may be incorporated to this regulation at a later date.

Effective date. This regulation will become effective ten (10) working days after the date of its publication in the FEDERAL REGISTER with respect to all procurements for which, as of the effective date, Requests for Proposals (RFP's) have not yet been issued. This regulation shall not affect any procurement where the RFP has been issued prior to the effective date; in such cases, however, Contracting Officers shall apply this regulation's policies and procedures to the extent practicable under the circumstances.

Dated: April 11, 1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

Subpart 15–3.8—Price Negotiation Policies and Techniques

Sec.
15–3.805 Selection of offerors for negotiation and award.
15–3.805–1 General.

AUTHORITY: The provisions of this subsection 15–3.805–1 issued under 40 U.S.C. 486(c), sec. 205(c), 63 Stat. 377, as amended.

§ 15–3.805 Selection of offerors for negotiation and award.

§ 15–3.805–1 General.

(a) Requests for proposals, evaluation of proposals, conduct of negotiations, and award of negotiated contracts.

(1) *Purpose.* This section provides guidance to all EPA personnel regarding (i) evaluation of the technical and other aspects of proposals, and (ii) the requirement for "written or oral discussions" with concerns whose proposals are "within a competitive range," under competitive negotiated procurements.

(2) *Applicability.* This section is applicable to all competitive negotiated procurements conducted by EPA under the authority of the Federal Procurement Regulations (FPR). Those portions of this section concerning written or oral discussions need not be applied: (i) To procurements in implementation of authorized set-aside programs; (ii) to procurements where the existence of adequate competition or accurate prior cost experience with the product clearly demonstrate that acceptance of an initial proposal without discussions would result in fair and reasonable prices; *Provided,* The request for proposals notifies all offerors of the possibility that award may be made without discussions, and provided award is in fact made without any written or oral discussions.

(3) *Requests for proposals.* (i) Careful drafting of the request for proposals (RFP) is vital to the proper working of the competitive process. Particular efforts must be made to develop an accurate statement of work, in order to preclude ambiguities and to avoid misunderstandings which might otherwise surface at later stages of the procurement.

(ii) The RFP shall require that a proposal shall be in two parts: A "Technical Proposal" and a "Business Proposal." Each of the parts shall be separate and complete in itself so that evaluation of one may be accomplished independently of and concurrently with evaluation of the other. The RFP shall provide that the "Technical Proposal" shall not contain any reference to cost. Resource information, such as data concerning labor hours and categories, materials, subcontracts, travel, computer time, etc., shall be included so that offeror's understanding of the scope of work may be evaluated.

(iii) The instructions to the offerors concerning the "Business Management Proposal" should require submission of cost information in sufficient detail to allow a complete cost analysis. Categories and amounts of labor, materials, travel, computer time, as well as information with regard to contractor past performance, financial capacity, certifications and representations, and other pertinent administrative and business information should also be requested.

(iv) Evaluation criteria must be developed by technical personnel, at the time of initiation of the procurement request, for inclusion in the RFP. These criteria and their relative importance or weight require the exercise of judgment on a case-by-case basis, since the criteria must be tailored to the requirements of each particular procurement. Since these criteria will serve as the standard against which all proposals will be evaluated, it is imperative that they be chosen carefully to emphasize those factors considered to be critical to the selection of a contractor.

(v) Evaluation must be made solely on the factors announced in the RFP. The RFP must inform offerors of all evaluation criteria and of the relative importance or weight attached to each criterion, although there need not be stated a numerical weighted formula. Evaluation criteria shall be described fully enough in each RFP to inform prospective proposers of the significant matters which should be addressed in the proposals. The technical and business proposal instructions of the RFP must inform the proposer of all information deemed essential to proper evaluation of the proposal, so that all competitors are aware of all requirements and so that the differences in proposals will reflect the proposers' differing responses to unambiguous RFP requirements and criteria.

(vi) The detailed scoring system to be used by technical evaluators shall be prepared and furnished to the Contracting Officer prior to the issuance of the RFP. The Contracting Officer shall review the scoring system for the sole purpose of determining whether it is consistent with the RFP criteria. If an inconsistency is found, it shall be eliminated by discussions between the parties concerned, prior to issuance of the RFP.

(vii) The RFP criteria shall not be modified except by a formal amendment to the RFP.

(4) *Technical evaluation of proposals.* (i) The technical proposals received by the Contracting Officer will be forwarded to the technical activity for evaluation; the business management portion of the proposal will be retained by the Contracting Officer for evaluation.

(ii) The technical personnel will evaluate each proposal in strict conformity with the evaluation criteria of the RFP, and will assign each proposal a score by use of the scoring method previously reviewed by the Contracting Officer pursuant to subparagraph (3)(vi) of this paragraph. A ranking of technical scores will then be compiled. The technical evaluators shall then identify each proposal as either acceptable or unacceptable. Predetermined cutoff scores shall not be employed.

(iii) The technical evaluators shall determine whether any proposal which appears to be unacceptable might be found acceptable upon the furnishing of clarifying data by the proposer, and the Contracting Officer will be so informed. The Contracting Officer will arrange for submission of clarifying information in writing or by consultation, and furnish it to the technical evaluators for their consideration.

(iv) It is essential to the competitive procurement process that all information contained in offerors' proposals be maintained in strict confidence. In no event during the evaluation period shall any offeror be told the number of proposals received, prices, cost ranges, or the Government cost estimate. No discussions with any offeror relative to any aspect of the procurement shall be held outside the presence of the Contracting Officer.

(v) A technical evaluation report shall be prepared and signed by the technical evaluators, furnished to the Contracting Officer, and maintained as a permanent record in the contract file. The report shall reflect the scoring of each proposal and the ranking of the proposals, and shall identify each proposal as acceptable or unacceptable. The report shall also include a narrative evaluation specifying the strengths and weaknesses of each proposal, and any reservations or qualifications that might bear upon the selection of sources of negotiation and award. Concrete technical reasons supporting a determination of unacceptability with regard to any proposal shall be included.

(5) *Competitive range.* Upon submission of the technical evaluation report and prior to negotiations, the Contracting Officer, after consulting with technical personnel to reconcile the technical and business evaluations, will determine which technically acceptable offers are within the "competitive range," i.e., the group of offerors who will be considered for award and with whom negotiations will be conducted. Determining which proposals fall within a competitive range will depend upon the particular circumstances of each negotiation. Any number of realistic evaluation criteria can be used to determine the bounds of this range. Cost or price alone is sometimes controlling, but technical capability and other relevant criteria may be paramount. In all cases it is important that the criteria used in the establishment of a competitive range be meaningful and realistic and in no way arbitrary. The decision as to which firms are and which firms are not within a competitive range is a matter of administrative discretion. But this discretion must be exercised in a reasonable manner; the Comptroller General may reverse such a determination if it is made arbitrarily. There could conceivably be a business proposal in which the cost or price is so high that it seems to be completely out of the competitive range. However, before making such a determination the Contracting Officer should consult with the technical personnel to determine possible reasons for the apparently excessive price. A proposal is within a competitive range unless it is either so high in cost or so inferior technically "as to preclude any possibility of meaningful negotiation with the offeror." The objective shall be to qualify the widest number of offerors for competitive negotiations based on technical acceptability, cost or price and other factors related to the procurement.

(6) *Conduct of discussions.* (i) The Contracting Officer, in cooperation with technical personnel, must conduct written or oral discussions (negotiations) of the work to be performed, the cost of the work, and other relevant topics, with all those proposers within the competitive range. The Contracting Officer shall point out to each such proposer the ambiguities, uncertainties, and deficiencies, if any, in its proposal. He shall give each such proposer a reasonable opportunity (with a common cutoff date for all) to support, clarify, correct, improve, or revise its proposal. Discussions with one proposer will not identify areas in which another has apparently achieved a higher evaluation or provided more detail. Nor will information be transmitted by the Government which could give one proposer a competitive advantage over another. Cost estimates made by the Government will not be disclosed.

(ii) Careful judgment will be exercised in determining the extent of discussions. In some cases, good business practice may require more than one round of discussions with all of the proposers within the competitive range. The time available, the expense and administrative limitations, and the size and significance of the procurement should all be considered in deciding on the type, duration, and depth of the discussions.

(7) *Selection of contractor.* (i) After the close of discussions and the receipt of any addenda to proposals, the Contracting Officer shall select for award the proposer or proposers whose proposal(s) offers the greatest advantage to the Government, cost or price, technical and other factors considered.

(ii) Whenever the contract is to have a fixed price, price may not be disregarded in selecting a contractor. This is particularly true where more than one acceptable offer from technically qualified sources remains for consideration after conduct of negotiations. (The use for source selection purposes of a numerical rating system in which cost to the Government, along with other factors, is assigned points does not in itself justify acceptance of the offer with the highest point score without regard to price.) If a lower priced, lower scored offer meets the Government's needs, acceptance of a higher priced, higher scored offer shall be supported by a specific determination by the Contracting Officer that the technical superiority of the higher priced offer warrants the additional cost involved in the award of a contract to that offeror.

(8) *Notice and debriefing.* Promptly after award of the contract, notice to unsuccessful offerors will be given in accordance with EPPR 15–3.103.

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Modification of Prenotification Requirements for Certain Multi-Industry Firms

The purpose of this amendment to § 300.51 of the regulations of the Price Commission is to permit certain multi-industry firms to request modification of the prenotification requirements to enable certain segments of their firm to price as reporting firms. A segment so relieved of the prenotification requirement would be allowed to adjust prices without prior Price Commission approval. To qualify under the amendment, the prenotification firm would be required to have annual sales or revenues of less than $100 million within any industrial group (corresponding to the two-digit Standard Industrial Classification,

V 37-74
APR 15 72
XUM

except as otherwise provided in the instructions to Form PC–5), during its most recently completed fiscal year. All other requirements of the regulations, including reporting and profit margin limitations, would continue to apply.

Because the purpose of this amendment is to provide immediate guidance and information as to the prenotification and reporting requirements of the price stabilization program, and Price Commission procedures with respect thereto, it is hereby found that notice and public procedure thereon is impracticable and that good cause exists for making it effective less than 30 days after publication.

(Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92–210; Executive Order No. 11640, 37 F.R. 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971)

In consideration of the foregoing, Part 300 of Title 6 of the Code of Federal Regulations is amended as set forth below, effective April 11, 1972.

Issued in Washington, D.C., on April 11, 1972.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

1. Section 300.51 is amended by inserting the following new paragraph (c) after paragraph (b):

§ 300.51 Prenotification firms.

• • • • •

(c) *Modification of prenotification requirements.* Notwithstanding any other provision of this part, a prenotification firm with annual sales or revenues of less than $100 million within any industrial group in its most recently completed fiscal year may apply for a modification of prenotification requirements with respect to price increases relating to sales within the industrial group. For the purposes of this paragraph, industrial groups are two-digit Standard Industrial Classifications (SIC) as published by the Office of Management and Budget in the 1967 Standard Industrial Classification Manual, except as otherwise provided in the instructions for preparation of Form PC–5, "Request for Modification of Prenotification Requirements" in Appendix II of this part. Each application under this paragraph shall be made on a properly completed Form PC–5 prescribed by the Price Commission and shall contain the information required by that form and its instructions. If the Price Commission does not act upon a request submitted under this paragraph within 30 days after receiving a Form PC–5, the prenotification firm may take the action requested. A firm whose prenotification requirements are modified in accordance with this paragraph remains subject to the reporting requirements of paragraph (e) of this section, and to all other requirements of this part for prenotification firms, including the profit margin limitation applicable to the consolidated group of the parent firm.

• • • • •

2. Appendix II is amended by inserting the following new Form PC–5 and instructions thereto, after Form PC–1 and instructions.

Form PC-5 (3-72)

PRICE COMMISSION

2000 M STREET NW., WASHINGTON, DC 20508

Instructions for the Preparation of Form PC–5, Request for Modification of Prenotification Requirements

General Instructions

Purpose.—Price Commission regulations provide for certain multi-industry prenotification category firms to request that segments of their firm be changed to reporting category firms. This Form PC–5 is used to request such modifications.

Requests for modification must apply to specific reporting entities as defined for purposes of filing Form PC–1, as follows:

Generally, the reporting entity for purposes of Form PC–1 is a unit of the firm or consolidated group which is customarily regarded as a separate entity for cost, pricing and profit decisions. Such a reporting entity may be distinguished from other units of the firm or consolidated group because of separate or different management or profit responsibilities, industries, methods of doing business, or other logical, customary distinctions.

Administrative groupings, such as manufacturers' sales offices and warehouses, are not considered as reporting entities.

It is stressed that this form represents solely a request for change and that firms must continue to observe prenotification requirements until advised by the Price Commission of the extent to which the request has been granted. A qualifying prenotification firm may consider its request approved if no action is taken by the Price Commission within thirty days after receipt of the firm's properly completed PC–5. Reporting entities for which requests are approved would then be permitted to adjust prices without prior approval of the Price Commission. Such reclassified entities would be subject to reporting requirements for Category II firms and all other requirements for Category I firms.

Confidentiality of information.—The Price Commission respects the confidentiality of financial information, consistent with section 205 of the Economic Stabilization Act of 1970 (as amended), title 5, United States Code, section 552, and title 18, United States Code, section 1905.

Who may file.—Form PC–5 is filed by prenotification category Parent firms. A single filing must cover all reporting entities.

To qualify for consideration, the Parent firm must have reporting entities whose revenues in the most recent fiscal year were substantially from products or services in industrial groups where the annual revenues of the consolidated group of the Parent firm were less than $100 million. Generally, industrial groups are the same as two-digit SIC categories, with certain changes as reflected in Table 1.

Firms should note that in reviewing requests the Price Commission will consider the significance of the firm's revenues from activities included in the four-digit SIC codes making up the applicable industrial groups.

Where to file.—Form PC–5 and attachments should be mailed to:

Price Commission, Post Office Box 19900, Washington, DC. 20036.

Indicate Submission of Form PC–5 in the lower-hand corner of the envelope.

Specific Instructions

PART I—IDENTIFYING DATA

Item 1: Prior reference number—Answer the question in 1(a). If you are supplying requested additional information or are resubmitting a request that had been initially returned, record the prior reference number in 1(b). The prior reference number is the number recorded by the Price Commission in the top right hand corner of this form, in the box labeled Reference No.

Item 2: Application date—Enter the date that this filing is made, regardless of whether this represents an initial filing, requested additional information, or a resubmission.

Item 3: Parent firm data—A Parent firm is the firm which controls a group of consolidated subsidiaries following the criteria for the preparation of consolidated financial statements in accordance with generally accepted accounting principles.

(a) Enter name of Parent firm.

(b) Enter address of executive office of Parent firm.

(c) Enter the ending date of the most recent fiscal year as customarily used by the Parent firm.

(d) Enter the Parent firm's "Data Universal Numbering System" (D–U–N–S) number, if known. If not known, leave this item blank. The D-U-N-S number is a nine-digit number assigned to establishments by Dun & Bradstreet, Inc. If the firm has more than one D-U-N-S number, the number entered in this item should be that assigned to the firm for the address entered above as the executive office.

PART II—SUMMARY OF REQUESTED MODIFICATIONS

Item 4: Total revenues in most recent fiscal year—In this item, total revenues for the most recent fiscal year (Item 3(c)) are summarized by reporting entities for which change is requested (line a), and those for which change is not requested (line b).

Supporting schedules must be attached listing the names of reporting entities whose revenues are summarized in Items 4a and 4b. For Price Commission review purposes, the revenues for each reporting entity must be detailed by four-digit SIC codes. See Exhibit A for an example of the supporting schedules required.

In completing these supporting schedules, insignificant miscellaneous operating revenues, which are in multiple four-digit SIC industries, may be summarized on one line, for each reporting entity. Such miscellaneous operating revenues must not exceed 5 percent of the reporting entity's total revenues, nor be in excess of $5 million. Nonoperating revenues should be summarized on one line for each reporting entity.

Reporting entities included in Item 4a must have annual revenues of less than $100 million and those revenues must be substantially (e.g., 95 percent) from products or services in industrial groups where the annual revenues of the consolidated group of the Parent firm were less than $100 million.

Reporting entities for which change is requested must have a substantial portion of their sales to entities outside of the consolidated group of the Parent firm. Furthermore, all transactions which are in fact intrafirm transfers must be summarized in the supporting schedules and deducted in computing the amount included in Items 4a and 4b.

Estimates.—The Price Commission recognizes that information regarding sales by four-digit SIC codes may not be available from the accounting records of some firms. In those cases, firms should provide reasonable estimates for such information and attach a supporting statement indicating the estimating method used. Estimated amounts must be reconcilable to information that is contained in the accounting records. For example, a sales account may include amounts which are properly classifiable in two four-digit SIC codes. While estimates may be used to determine the separate four-digit amounts, the total of the estimates must agree with the amount reflected in the accounting records.

PART III—SUMMARY OF REVENUES BY INDUSTRIAL GROUPS

Items 5 and 6: These items are used to summarize the total revenues of the firm by industrial groups. Include in Item 5 all industrial groups where any reporting entity for which change is requested had sales in any four-digit SIC code which is included in the industrial group. Any industrial group which is required to be summarized in Item 5 must then include all applicable revenues of the firm including those from reporting entities for which change is not requested.

Item 6 includes all revenues of the firm which are not includable in Item 5.

Supporting schedules must be attached showing the details of revenues by four-digit SIC code for each industrial group. Within each four-digit SIC code, all reporting entities having revenues from products or services in that four-digit SIC code must be listed. Reporting entity names must be shown exactly as listed in the supporting schedules to Items 4a and 4b. See Exhibit B for an example of the supporting schedules required.

Estimates.—As explained in the instructions to Item 4, estimates may be used to determine sales in four-digit SIC codes.

PART IV—ADDITIONAL INFORMATION

Self-explanatory.

PART V—CERTIFICATION

Type the name and title (including the company name) of the individual who has signed the certification, on the lines above such signature. The individual certifying to this Form PC–5 must be the Chief Executive Officer of the Parent firm, or such other executive officer as authorized by the Chief Executive Officer to sign for him for this purpose. Such authorization must be in the form prescribed by the Price Commission.

EXHIBIT A

	4-digit SIC code	Annual revenues
ITEM 4A.—ENTITIES FOR WHICH CHANGE IS REQUESTED		
Reporting Entity A:		
Wood household furniture	2511	$30,000
Wood office furniture	2521	10,000

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. No. 1030-A]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Co. Authorized To Operate Over Tracks of the Atchison, Topeka and Santa Fe Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 10th day of April 1972.

Upon further consideration of Service Order No. 1030 (34 F.R. 11211, 15250; 35 F.R. 5334, 10661, 15294; 36 F.R. 5978, 11999, 19370, 25423), and good cause appearing therefor:

It is ordered, That:

§ 1033.1030 *Service Order 1030–A* (Chicago, Rock Island and Pacific Railroad Co. authorized to operate over tracks of the Atchison, Topeka and Santa Fe Railway Co.) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., April 11, 1972; that copies of this order and direction shall be served upon the Association of American Railroads Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Chapter I—Federal Communications Commission

[Docket No. 19141; FCC 72-310]

PART 1—PRACTICE AND PROCEDURE

Summary Decision Procedures

Report and order. In the matter of summary decision procedures.

1. A notice of rule making in this proceeding, proposing the adoption of procedures for the summary decision of adjudicatory hearing cases, was released on February 4, 1971 (FCC 71-105, 36 F.R. 2799). The proposed rule read as set forth below:

2. Comments on the proposal were filed by the following organizations:

(1) The Committee for Review of Commission Procedures of the Federal Communications Bar Association (FCBA Committee).[1]

(2) The Administrative Law Section of the American Bar Association (ABA).

(3) The GTE Service Corporation (GTE).
